Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e) On January 21, 2015, the Compensation/Pension Committee (the "Committee") of the Board of Directors of AmeriGas Propane, Inc. (the "General Partner"), the general partner of AmeriGas Partners, L.P. (the "Partnership" or "AmeriGas Partners") and a wholly owned subsidiary of UGI Corporation (the "Registrant"), approved the award of long-term equity to executive officers of the General Partner for the 2015 fiscal year ending September 30, 2015 ("Fiscal 2015") and the performance metrics required to be achieved in order for the payment of AmeriGas Partners common units underlying the performance units included in such equity awards at the expiration of the specified performance period. The performance units are granted under the AmeriGas Propane, Inc. 2010 Long-Term Incentive Plan on behalf of AmeriGas Partners, L.P. (the "Plan"). They are intended to provide the General Partner's executives with a strong financial incentive for achieving or exceeding long-term performance goals and to align executives' interests with those of the Partnership's unitholders.

While the overall amount of compensation tied to long-term and annual incentives for each executive officer is generally consistent with prior compensation disclosures, the Committee approved a number of changes to the metrics to be used for Fiscal 2015. As more particularly set forth below, the Committee approved a change to the long-term incentive plan design for performance units granted to the General Partner's executive officers during Fiscal 2015 to (i) tie a portion of the performance unit awards to a customer gain/loss metric, and (ii) apply a modifier to that portion of the performance unit awards subject to a relative total unitholder return ("TUR") metric based on the Alerian MLP Index. The Committee determined that a metric directly tied to customer gains and losses would strengthen the link between pay and performance and advance the General Partner's long-term strategic goals and objectives. The Committee also approved a change to the General Partner's Annual Bonus Plan for Fiscal 2015 to replace the prior fiscal year's customer growth modifier on the bonus payouts (which was similar to the new customer gain/loss metric for performance unit awards) with a safety performance modifier based on goals tied to the General Partner's annual safety performance with respect to Occupational Safety and Health Administration ("OSHA") recordables. One of the General Partner's strategic initiatives is to achieve world class safety performance throughout the organization.

The Fiscal 2015 performance units awarded to executive officers and tied to customer gain and loss performance will be paid at the conclusion of a three-fiscal-year performance period ending September 30, 2017 (assuming continued employment through December 31, 2017), but will be measured based on individual year targets, subject to adjustment based on the achievement of cumulative three-year performance goals. Achievement of each year's goal is weighted equally at one-third. The adjustment based on the cumulative three-year performance goals can increase or decrease the payout for year one and year two performance by thirty percent. The overall payout is capped at 200% of the target number of performance units awarded. The Committee believes that challenging goals and targets have been established with respect to the customer gain/loss metric for the described performance units. For illustrative purposes, there would have been no payout during at least the last five fiscal years had this metric been in place.

With respect to the other components of the General Partner's Fiscal 2015 long-term compensation program, the Committee added a modifier to the metric for performance units tied to AmeriGas Partners' TUR as compared to the TUR of the companies comprising the Alerian MLP Index ("Alerian TUR") over the three-year period from January 1, 2015 to December 31, 2017. The Alerian TUR result is then modified, as described below, based on AmeriGas Partners' TUR performance compared to the TUR performance of the other two publicly traded retail propane distribution companies ("Propane MLPs") included in the Alerian MLP Index. A portion of the performance units awarded during the 2014 fiscal year included a separate performance metric tied directly to AmeriGas Partners' TUR performance compared to the TUR performance of the Propane MLPs. For the Fiscal 2015 grants, the Committee believes that a combined metric is more appropriate than stand-alone metrics, given the similarities of the performance metrics, including the fact that the Propane MLPs are already included in the Alerian MLP Index. If AmeriGas Partners' Alerian TUR performance qualifies for a payout at the end of the three-year period, then that payout would be modified as follows: (i) if AmeriGas Partners' TUR during the three-year period ranks first compared to the other Propane MLPs, then the performance unit payout would be 130% of the payout otherwise achieved; (ii) if AmeriGas Partners' TUR during the three-year period ranks second compared to the other Propane MLPs, then the performance unit payout would be 100% of the payout otherwise achieved; and (iii) if AmeriGas Partners' TUR during the three-year period ranks third compared to the other Propane MLPs, then the performance unit payout would be 70% of the payout otherwise achieved. The overall payout is capped at 200% of the target number of performance units awarded.

The Committee is maintaining for Fiscal 2015 the current long-term compensation structure for the General Partner's executive officers with respect to stock options exercisable for the Registrant's common stock.
