- *Potential increase of the offer up to euro 2 billion in case of excess of demand*
- *Minimum subscription size of euro 2,000 (with possible increase of euro 1,000 each), 6-year maturity (due on July 2015)*
- *Possible choice between fixed-rate and floating-rate bonds*

*San Donato Milanese (Milan), June 11, 2009* - CONSOB (the Italian Stock Exchange Regulator) approved the prospectus relating to the offering of a maximum aggregate amount of euro 1 billion Eni bonds reserved exclusively for Italian retail investors. Such amount may be increased up to euro 2 billion in case of excess of demand. Both fixed-rate and floating-rate bonds can be subscribed with distributor banks. The proceeds of the offer, approved by the Eni Board of Directors on April 23, 2009, will be used for operating management purposes, included the refinancing and the consolidation of short term debt.

### **Offering period and minimum subscription size**

The offer period is from June 15 to July 3, 2009, with the exception of early closures and subscriptions made online and through IFAs, for which the offer period is lower according to the conditions set out in the prospectus. Investors can subscribe to the fixed or floating-rate bonds with a minimum investment of euro 2,000, equal to 2 bonds, with the potential to increase their subscription further by at least 1 bond, with a par value of euro 1,000 per bond.

### **Placement: acceptance, maturity and trading**

Subscribers will not be charged of any subscription fees or commissions. Both fixed-rate and floating-rate bonds have a 6-year maturity (due on July 2015) and the principal will be repaid in full at maturity. The bonds will be listed on the *Mercato Telematico delle Obbligazioni* (MOT), organised and managed by Borsa Italiana SpA, where the investors will be able to trade their bonds. The coupon amount relating to the bonds is intended to be gross of any applicable tax due under Italian taxation laws applicable at the time of payment. The current substitutive tax rate applicable to bond interest is equal to 12.5%.

### **Fixed-rate bonds**

Interest will be paid to the bondholders annually in arrears. The coupon amount on the fixed-rate bonds (Eni TF

2009/2015) will be announced within 5 days following the offering period by means of a notice published on "Il Sole 24 ORE" and/or "Milano Finanza" or on a financial newspaper with nationwide distribution, as well as specific notice spread by Borsa Italiana. Such coupon will be calculated as the sum of the 6-year mid swap rate and an additional spread between 85 and 135 basis points to be defined at the end of the offering period. Since January 1 to June 1, 2009, the 6-year mid swap rate ranged from a low of 2.822% to a high of 3.459% (Source: Bloomberg).

**Floating-rate bonds**

Interest will be paid to the bondholders semi-annually in arrears. For the entire life of the floating-rate bonds (Eni TV 2009/2015), the coupon amount will be calculated as the sum of the 6-month EURIBOR and a spread, which will be included in a range of 85 and 135 basis points, to be determined at the end of the offering period. Interest will be calculated on the basis of the actual number of days in the interest period. The spread will be announced within 5 days following the offering period by means of a notice published on "Il Sole 24 ORE" and/or "Milano Finanza" or on a financial newspaper with nationwide distribution, as well as specific notice spread by Borsa Italiana. The complete list will be filed with CONSOB, deposited at the registered office of the Company and published on "Il Sole 24 ORE" and/or "Milano Finanza" or another financial newspaper with nationwide distribution within the first day prior to the beginning of the offering period. Such a notice will also specify the distributors which will place the bonds on-line to the public at large.
