Item 1.01 Entry into a Material Definitive Agreement.

Contribution and Purchase and Sale Agreements

On February 25, 2014, DCP Midstream Partners, LP (the "Partnership") entered into various transaction documents, including: a contribution agreement with DCP Midstream, LLC ("Midstream") and each of DCP Midstream GP, LP ("GP LP") and DCP LP Holdings, LLC ("Holdings"), both 100% owned subsidiaries of Midstream, and a purchase and sale agreement with DCP Midstream, LP, a 100% owned subsidiary of Midstream (collectively, the "Agreements"). Pursuant to the Agreements, Midstream, through its affiliates, agreed to contribute or sell to the Partnership: (i) a 33.33% membership interest in each of two separate NGL pipeline entities, DCP Southern Hills Pipeline, LLC ("Southern Hills") and DCP Sand Hills Pipeline, LLC ("Sand Hills"); (ii) the remaining 20% interest in DCP SC Texas GP, an entity in which the Partnership currently owns an 80% controlling interest; (iii) a 100% interest in a 35 MMcf/d cryogenic natural gas processing plant located in Weld County, Colorado ("Lucerne 1"); and (iv) a 100% interest in a 200 MMcf/d cryogenic natural gas processing plant also located in Weld County, Colorado, which is currently under construction ("Lucerne 2") (collectively, the "Transaction"). Total consideration for the Transaction at closing is expected to be \$1,220 million, subject to certain working capital and other customary adjustments, which will consist of (i) \$995 million in cash, and (ii) common units of the Partnership having an aggregate value of \$225 million. The Partnership intends to finance the Transaction and related fees and expenses, as well as any funds required to satisfy working capital adjustments associated with the Transaction, by accessing the capital markets, through borrowings under our revolving credit facility or commercial paper program, or by entering into a term loan. The Partnership may also access the capital markets to repay amounts borrowed under our revolving credit facility, commercial paper program, or a term loan entered into to finance a portion of the consideration for the Transaction. The Partnership estimates additional expenditures of approximately \$180 million to complete Lucerne 2. The Transaction is expected to close in March 2014, subject to customary closing conditions. There can be no assurance that the Transaction will be completed in the anticipated time frame, or at all, or that anticipated benefits of the Transaction will be realized. Each of the components of the Transaction are discussed further below.

Southern Hills is engaged in the business of transporting natural gas liquids ("NGLs"), and consists of approximately 800 miles of pipeline, with an expected capacity of 175 MBbls/d after completion of planned pump stations. Southern Hills provides NGL takeaway service from the Midcontinent to fractionation facilities along the Texas Gulf Coast and the Mont Belvieu, Texas market hub. The Southern Hills pipeline began taking flows in the first quarter of 2013 and was placed into service in June 2013.

Sand Hills is also engaged in the business of transporting NGLs. Sand Hills consists of approximately 720 miles of pipeline, with an expected initial capacity of 200 MBbls/d after completion of pump stations. Sand Hills provides NGL takeaway service from the Permian and Eagle Ford basins to fractionation facilities along the Texas Gulf Coast and the Mont Belvieu, Texas market hub. The Sand Hills pipeline began taking flows in the fourth quarter of 2012 and was placed into service in June 2013.

DCP SC Texas GP consists of six cryogenic natural gas processing plants, including the Goliad plant that was placed into service in February 2014, with total capacity of approximately 960 MMcf/d, three NGL fractionators and approximately 6,000 miles of natural gas gathering transmission lines.

Lucerne 1 is a 35 MMcf/d cryogenic natural gas processing plant located in Weld County, Colorado. The Partnership will enter into a long-term fee-based natural gas processing agreement with Midstream, which is expected to provide a fixed demand charge on 75% of the capacity of Lucerne 1, and a throughput fee on all volumes processed at Lucerne 1.

Lucerne 2 has an expected in-service date in the third quarter of 2015. The Partnership will assume all of the remaining costs to complete this project. In addition, the Partnership will enter into a ten-year, fee-based natural gas processing agreement with Midstream that is effective once Lucerne 2 is placed into service. At that time, the processing agreement with Lucerne 1 will be terminated and the new processing agreement is expected to provide a fixed demand charge on 75% of the capacity of both plants, and a throughput fee on all volumes processed at Lucerne 1 and Lucerne 2.

Midstream owns 100% of DCP Midstream GP, LLC, the general partner of GP LP, the Partnership's general partner. Accordingly, the conflicts committee of the General Partner's Board of Directors approved the Transaction. The conflicts committee, a committee of independent members of the General Partner's Board of Directors, retained

independent legal and financial advisers to assist it in evaluating the Transaction.

Copies of the Agreements are attached hereto as Exhibits 2.1 and 2.2 and are incorporated by reference herein. The foregoing description of the terms of the Agreements and the Transaction is not complete and is qualified in its entirety by reference to the full and complete terms of the Agreements. There can be no assurance that the anticipated benefits of the Transaction will be realized.

In connection with the Transaction, the Partnership is filing (i) as Exhibits 99.1 and 99.2 hereto, audited financial statements of Southern Hills and Sand Hills as of and for the years ended December 31, 2013 and 2012 and for the period from inception (June 21, 2011 and February 2, 2011, respectively) to December 31, 2011; and (ii) as Exhibit 99.3 hereto, unaudited pro forma condensed consolidated financial statements of DCP Midstream Partners, LP as of and for the year ended December 31, 2013.
