FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements, including statements in the "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from that expressed or implied by the forward-looking statements. In particular, you should consider the risks and uncertainties described under "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2012, Part II, Item 1A of this Quarterly Report on Form 10-Q and our other filings with the SEC.

While we believe we have identified material risks, these risks and uncertainties are not exhaustive. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include:

- the loss of our right to exclusively list certain index option products;
- increasing price competition in our industry;
- compliance with legal and regulatory obligations and obligations under agreements with regulatory agencies;
- our ability to operate, monitor and maintain our systems or program them so that they operate correctly, including in response to increases in trading volume and order transaction traffic;
- decreases in the amount of trading volumes or a shift in the mix of products traded on our exchanges;
- legislative or regulatory changes;
- increasing competition by foreign and domestic entities;
- economic, political and market conditions;
- our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights;
- our ability to maintain access fee revenues;
- our ability to protect our systems and communication networks from security risks, including cyber-attacks;
- our ability to attract and retain skilled management and other personnel;
- our ability to maintain our growth effectively;
- our dependence on third party service providers; and
- the ability of our compliance and risk management methods to effectively monitor and manage our risks.

We caution you not to place undue reliance on the forward-looking statements, which speak only as of the date of this filing.

CBOE HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2013 and 2012

(Unaudited)

NOTE 1 —DESCRIPTION OF BUSINESS

CBOE Holdings, Inc. is the holding company for Chicago Board Options Exchange, Incorporated, C2 Options Exchange, Incorporated, CBOE Futures Exchange, LLC and other subsidiaries.

The primary business of the Company is the operation of markets for the trading of listed derivatives, including proprietary products. The Company operates markets for trading in four broad product categories: 1) options on the stocks of individual corporations (equity options), 2) options on various market indexes (index options), 3) options on other exchange-traded products (ETP options), such as exchange-traded funds (ETF options) and exchange-traded notes (ETN options) and 4) futures products through our futures market.

The Company owns and operates three stand-alone exchanges, but reports the results of its operations in one reporting segment. CBOE is our primary exchange and offers trading for listed options through a single system that integrates electronic trading and traditional open outcry trading on our trading floor in Chicago. This integration of electronic trading and traditional open outcry trading into a single exchange is known as our Hybrid trading model. C2 is our all-electronic exchange that also offers trading for listed options, but with a different market model and fee structure than CBOE. CFE, our all-electronic futures exchange, offers futures on the VIX Index, as well as on other products. All of our exchanges operate on our proprietary technology platform known as CBOE Command.

NOTE 2 — BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and reported amounts of operating revenues and expenses. On an ongoing basis, management evaluates its estimates, including those related to matters that require a significant level of judgment or are otherwise subject to an inherent degree of uncertainty. These estimates are based on management's knowledge and judgments, historical experience and observance of trends, information available from outside sources and various other assumptions that are believed to be reasonable under the circumstances.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included.

The results of operations for interim periods are not necessarily indicative of the results of operations for the full year.

NOTE 3 — SHARE REPURCHASE PROGRAM

On August 2, 2011, the Company announced that its board of directors had approved a share repurchase program that authorizes the Company to purchase up to \$100 million of its outstanding unrestricted common stock. On July 31,

2012, the Company announced that its board of directors had approved the repurchase of an additional \$100 million of its outstanding unrestricted common stock. This authorization was in addition to any amount remaining under the August 2011 authorization. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

For the nine months ended September 30, 2013, the Company repurchased 306,300 shares of unrestricted common stock at an average cost per share of \$45.63 totaling \$14.0 million in purchases under the program.

Table of Contents

Since inception of the program, the Company has repurchased 4,013,724 shares of unrestricted common stock at an average cost per share of \$27.58, totaling \$110.7 million in purchases under the program.

NOTE 4 — NET INCOME PER COMMON SHARE

Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are participating securities and are included in the computation of net income per common share pursuant to the two-class method. Our restricted stock awards granted to officers, directors and employees qualify as participating securities.

The Company computes net income per common share using the two-class method, which is an allocation formula that determines the net income for common shares and participating securities. Under the authoritative guidance, the presentation of basic and diluted earnings per share is required for each class of common stock and not for participating securities. As such, the Company presents basic and diluted net income per share for its one class of common stock.

The computation of basic net income allocated to common stockholders is calculated by reducing net income for the period by dividends paid or declared and undistributed net income for the period that are allocated to the participating securities to arrive at net income allocated to common stockholders. Net income allocated to common stockholders is divided by the weighted average number of common shares outstanding during the period to determine basic net income per common share.

The dilutive effect of participating securities is calculated using the more dilutive of the treasury stock or the two-class method. Diluted net income per common share is calculated by dividing net income allocated to common stockholders by the sum of the weighted average number of common shares outstanding plus all additional common shares that would have been outstanding if the potentially dilutive common shares had been issued.

The following table reconciles net income allocated to common stockholders and the number of shares used to calculate the basic and diluted net income per common share for the three and nine months ended September 30, 2013 and 2012:

For the nine months ended September 30, 2013, 709,344 shares of restricted stock were not included in the computation of diluted net income per common share because to do so would have an antidilutive effect.

Table of Contents

NOTE 5 — STOCK-BASED COMPENSATION

Stock-based compensation is based on the fair value of the award on the date of grant, which is recognized over the related service period, net of estimated forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period.

On February 6, 2013, the Company granted 390,272 shares of restricted stock to certain officers and employees at a fair value of \$34.23 per share, the closing price of the Company's stock on the grant date. The shares have a three year vesting period and vesting accelerates upon the occurrence of a change in control of the Company. On May 23, 2013, the Company granted 83,880 shares of restricted stock, at a fair value of \$40.54 per share, which included 22,212 granted to the board of directors and 61,668 shares, of which 50% vested upon grant, to the incoming Chief Executive Officer and President and Chief Operating Officer in connection with their new positions. The unvested portion of the shares granted on May 23, 2013 have a one year vesting period and vesting accelerates upon the occurrence of a change in control of the Company. Unvested portions of the restricted stock will be forfeited if the officer, director or employee leaves the company prior to the applicable vesting date, except in limited circumstances.

For the three and nine months ended September 30, 2013 and 2012, the Company recognized \$3.9 million and \$3.1 million and \$16.9 million and \$9.0 million in stock-based compensation expense, respectively. The nine months ended September 30, 2013 and 2012 included \$4.0 million and \$0.2 million of accelerated stock-based compensation expense, respectively. The accelerated stock-based compensation expense, in 2013, is primarily for certain executives due to provisions contained in their employment arrangements and, in 2012, departures from the board of directors. Stock-based compensation expense is included in employee costs in the condensed consolidated statements of income.

As of September 30, 2013, the Company had unrecognized stock-based compensation of \$16.9 million. The remaining unrecognized stock-based compensation is expected to be recognized over a weighted average period of 17.3 months.

The activity in the Company's restricted stock for the nine months ended September 30, 2013 was as follows:

	Number of Shares of Restricted Stock	Weighted Average Grant-Date Fair Value
Unvested restricted stock at January 1, 2013	835,823	\$28.92

NOTE 8 — MARKETING FEE

CBOE facilitates the collection and payment of marketing fees assessed on certain trades taking place at CBOE. Funds resulting from the marketing fees are made available to Designated Primary Market Makers and Preferred Market Makers as an economic inducement to route orders to CBOE. Pursuant to ASC 605-45, Revenue Recognition—Principal Agent Considerations, the Company reflects the assessments and payments on a net basis, with no impact on revenues or expenses.

As of September 30, 2013 and December 31, 2012, amounts assessed by the Company on behalf of others included in current assets totaled \$8.7 million and \$5.2 million, respectively, and payments due to others included in current liabilities totaled \$9.3 million and \$5.8 million, respectively.

NOTE 9 — DEFERRED REVENUE

The following table summarizes the activity in deferred revenue for the nine months ended September 30, 2013 (in thousands):

	Balance at December 31, 2012	Cash Additions	Revenue Recognition	Balance at September 30, 2013
Other – net	\$ 1,084	\$ 5,411	\$(4,672)) \$ 1,823
Liquidity provider sliding scale (1)	—	29,232	(21,924)) 7,308
Total deferred revenue	\$ 1,084	\$ 34,643	\$(26,596)) \$ 9,131

(1) Liquidity providers who prepay transaction fees for the first two levels of the liquidity provider sliding scale, at a minimum, are eligible to receive reduced fees on contract volume above 2,000,000 per month. The prepayment of 2013 transaction fees totaled \$29.2 million. This amount is amortized and recorded as transaction fees over the respective period.

NOTE 10 — EMPLOYEE BENEFITS

Employees are eligible to participate in the Chicago Board Options Exchange SMART Plan (“SMART Plan”). The SMART Plan is a defined contribution plan, which is qualified under Internal Revenue Code Section 401(k). The Company contributed \$3.1 million and \$3.2 million to the SMART Plan for the nine months ended September 30, 2013 and 2012, respectively.

Table of Contents

Eligible employees may participate in the Supplemental Employee Retirement Plan, Executive Retirement Plan and Deferred Compensation Plan. Each plan is a defined contribution plan that is non-qualified by Internal Revenue Code regulations. The Company contributed \$1.2 million and \$1.0 million to the above plans for the nine months ended September 30, 2013 and 2012, respectively.

The Company has a post-retirement medical plan for certain current and former members of senior management. The Company recorded immaterial post-retirement benefits expense for the nine months ended September 30, 2013 and 2012.

NOTE 11 — INCOME TAXES

For the three and nine months ended September 30, 2013 and 2012, the Company recorded income tax provisions of \$26.5 million and \$14.7 million and \$81.6 million and \$65.5 million, respectively. The effective tax rate for the nine months ended September 30, 2013 and 2012 was 38.6% and 35.8%, respectively. The increase in the effective tax rate for the nine months ended September 30, 2013 compared to the prior year period is the result of the recognition of certain discrete items in 2012. The effective rate in 2012 includes the recognition of a benefit for a Section 199 deduction for U.S. production activities, which encompasses all personal property including computer software, for years ended 2008 and 2011.

As of September 30, 2013 and December 31, 2012, the Company had \$25.0 million and \$19.5 million, respectively, of uncertain tax positions excluding interest and penalties, which, if recognized in the future, would affect the annual effective income tax rate. Reductions to uncertain tax positions primarily from the lapse of the applicable statutes of limitations during the twelve months ended September 30, 2014 are estimated to be approximately \$6.4 million, not including any potential new additions.

Estimated interest costs and penalties, which are classified as part of the provision for income taxes in the Company's condensed consolidated statements of income, were \$1.0 million and \$0.2 million for the three months ended September 30, 2013 and 2012, respectively, and \$1.5 million and \$0.5 million for the nine months ended September 30, 2013 and 2012, respectively. Accrued interest and penalties were \$2.8 million and \$1.4 million as of September 30, 2013 and December 31, 2012, respectively.

The Company is subject to U.S. federal tax, Illinois, New Jersey and New York state taxes and Washington D.C. taxes, as well as taxes in other local jurisdictions. The Company has open tax years from 2007 on for New York, 2008 on for federal, and 2009 on for Illinois, New Jersey and Washington, D.C. Specific line items for the 2008 tax year are being examined by the Internal Revenue Service and the Illinois Department of Revenue due to the filing by the Company of amended returns containing the recognition of certain credits and deductions. The Company's tax returns have been examined by the Internal Revenue Service through 2009 and the Illinois Department of Revenue through 2008. The Company is currently under audit by the Internal Revenue Service for 2010 and a limited issue focus examination for 2011. Additionally, the Company is under audit by the State of New York for the 2007 through 2009 tax years and the State of Illinois for the 2009 and 2010 tax years.

NOTE 12 — FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including the Company's own credit risk.

The Company applied FASB ASC 820, Fair Value Measurement and Disclosure (formerly, FASB Statement No. 157, Fair Value Measurements), which provides guidance for using fair value to measure assets and liabilities by defining fair value and establishing the framework for measuring fair value. ASC 820 applies to financial and nonfinancial instruments that are measured and reported on a fair value basis. The three-level hierarchy of fair value measurements is based on whether the inputs to those measurements are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The fair-value hierarchy requires the use of observable market data when available and consists of the following levels:

Level 1—Unadjusted inputs based on quoted markets for identical assets or liabilities.

- Level 2—Observable inputs, either direct or indirect, not including Level 1, corroborated by market data or based upon quoted prices in non-active markets.

Table of Contents

Level 3—Unobservable inputs that reflect management’s best assumptions of what market participants would use in valuing the asset or liability.

The Company has included a tabular disclosure for financial assets that are measured at fair value on a recurring basis in the condensed consolidated balance sheet as of September 30, 2013 and December 31, 2012. The Company holds no financial liabilities that are measured at fair value on a recurring basis.

The Company, through DerivaTech Corporation, a wholly-owned subsidiary, acquired a 10.0% interest in IPXI Holdings, LLC ("IPXI") for \$2.5 million in 2012. The investment, measured at fair value on a non-recurring basis, is classified as level 3 as the fair value was based on both observable and unobservable inputs.

NOTE 13 — LEGAL PROCEEDINGS

As of September 30, 2013, the end of the period covered by this report, the Company was subject to various legal proceedings and claims, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business. There have been no material changes to the Legal Proceedings discussed in the Annual Report on Form 10-K for the year ended December 31, 2012, as supplemented by the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2013 and June 30, 2013.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is reasonably possible or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

Estimates of probable losses resulting from patent litigation involving the Company are inherently difficult to make, particularly when the Company's view of the case is significantly different than that expressed by the plaintiff. The Company has not recorded a liability related to damages in connection with these matters.

As of September 30, 2013, the Company does not think that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any litigation is inherently uncertain and an adverse outcome from certain matters could have a material effect on our earnings in any given reporting period. However, in the opinion of management, the ultimate liability is not expected to have a material effect on our financial position, liquidity or capital resources.

NOTE 14 — SUBSEQUENT EVENTS

The Company announced that its board of directors declared a quarterly cash dividend of \$0.18 per share. The dividend is payable December 20, 2013 to stockholders of record at the close of business on November 29, 2013.

The Company's market share of total exchange-traded options contracts was 29.7% for the three months ended September 30, 2013 compared with 28.2% for the same period in 2012.

Total operating revenues increased primarily due to higher transaction fees, regulatory fees and exchange services and other fees, partially offset by lower other revenue.

Total operating expenses increased primarily due to higher employee costs and royalty fees, partially offset by lower outside services and travel and promotional expenses.

Operating Revenues

Total operating revenues for the three months ended September 30, 2013 were \$136.7 million, an increase of \$8.4 million, or 6.6%, compared with the same period in 2012. The following summarizes changes in total operating

revenues for the three months ended September 30, 2013 compared to the same period in 2012.

Transaction Fees

Transaction fees increased 7.3% to \$93.0 million for the three months ended September 30, 2013, compared with \$86.6 million for the same period in 2012. This increase was due to an increase of 8.1% in total trading volume, partially offset by a decline in average revenue per contract of 0.6%. The decline in average revenue per contract resulted primarily from higher volume-based incentives for certain multiply-listed options (equities and exchange-traded products), mostly offset by a shift in the mix of trading volume, with contracts carrying the highest rate per contract, index options and futures contracts, accounting for 33.1% of trading volume during the third quarter of 2013 compared with 28.8% in the third quarter of 2012.

Our share of total U.S. options industry volume increased to 29.7% from 28.2% in the prior year period. Trading volume and mix of products traded are impacted by many factors. These factors include: macroeconomic events, market volatility, regulatory actions or considerations, availability of capital, competition, number of trading days in the period and seasonality.

Average revenue per contract, discussed in greater detail below, is impacted by volume-based incentive programs, mix of products traded and the percentage of trading volume executed by customers as compared to professionals, market-makers, clearing trading permit holders and broker-dealers. The implementation of fee changes, which may increase or decrease our average revenue per contract, is primarily to ensure that we are competitive in the options marketplace and to ultimately improve and continue to drive order flow to our exchanges. We cannot predict the trading patterns of exchange participants, which may be based on factors outside of our control, but we plan to continue to price our products at levels that are competitive in our markets.

The following summarizes transaction fees by product for the three months ended September 30, 2013 compared to the same period in 2012.

Trading Volume

Our average daily trading volume for the three months ended September 30, 2013 was 4.62 million contracts, up 6.4% compared with 4.34 million contracts for the same period in 2012. Trading volume in our index products increased 21.7% and futures contracts increased 51.6%, driven by higher trading volume in VIX futures. The Company experienced an increase in exchanged-traded products of 19.5% and a decrease in equities of 8.6%. Total trading days for the three months ended September 30, 2013 and 2012 were sixty-four and sixty-three, respectively.

Average Revenue Per Contract

The average revenue per contract was \$0.315 for the three months ended September 30, 2013, a decline of 0.6% compared with \$0.317 for the same period in 2012. Average revenue per contract represents transaction fees divided by total contracts cleared.

The following summarizes average revenue per contract by product for the three months ended September 30, 2013 compared to the same period in 2012.

	2013	2012	Percent Change	
Equities	\$0.077	\$0.118	(34.7)%
Indexes	0.669	0.682	(1.9)%
Exchange-traded products	0.123	0.177	(30.5)%
Total options average revenue per contract	0.273	0.287	(4.9)%
Futures	1.559	1.606	(2.9)%
Total average revenue per contract	\$0.315	\$0.317	(0.6)%

Certain factors contributed to the decline in total average revenue per contract for the three months ended September 30, 2013 compared to the same period in 2012. These include:

Rate structure — Our rate structure includes sliding scales, volume discounts, volume incentive programs and caps on fees as part of our effort to increase liquidity and market share in multiply-listed options and, to a lesser extent, on our proprietary products. The average rate per contract on multiply-listed options (equities and

Table of Contents

exchange-traded products) decreased 34.7% and 30.5%, respectively. These decreases resulted primarily from increases in volume-based incentives.

Product mix — Index options and futures accounted for 29.9% and 3.2% of total trading volume for the three months ended September 30, 2013, respectively, as compared to 26.5% and 2.3% in the prior year period. The increased trading in index options and futures contracts, which had higher average revenue per contract than equity and exchange-traded products, mostly offset the declines in average revenue per contract for equity and exchange-traded products resulting in only a modest decline in total average revenue per contract.

Clearing Firms

At September 30, 2013, there were approximately one hundred clearing firms, two of which cleared a combined 48% of our billings collected through the OCC for the three months ended September 30, 2013. The next largest clearing firm accounted for approximately 6% of our billings collected through the OCC. No one Trading Permit Holder using the clearing services of the top two clearing firms represented more than 33% of revenue collected through the OCC in the three months ended September 30, 2013 or 2012 for the respective clearing firm. Should a clearing firm withdraw, we believe the Trading Permit Holder portion of that firm's trading activity would likely transfer to another clearing firm.

The two largest clearing firms mentioned above clear the majority of the market-maker sides of transactions at CBOE, C2 and all other U.S. options exchanges. If either of these firms were to withdraw from the business of market-maker clearing and market-makers were unable to make new clearing arrangements, this could create significant disruption to the U.S. options markets, including ours.

Access Fees

Access fees for the three months ended September 30, 2013 and 2012 were \$15.0 million and \$16.0 million, respectively. The decrease resulted from new credit and rebate programs implemented by the Company in 2013.

Exchange Services and Other Fees

Exchange services and other fees for the three months ended September 30, 2013 increased 18.6% to \$9.2 million from \$7.8 million for the same period in 2012. The increase was primarily due to the introduction, in late 2012, of a network access option offered in connection with the Company's data center move to New Jersey.

Market Data Fees

Market data fees for the three months ended September 30, 2013 increased to \$6.7 million from \$6.1 million for the same period in 2012. Market data fees represent income derived from OPRA as well as the Company's market data services. Revenue from OPRA and the Company's market data services for the three months ended September 30, 2013 totaled \$3.6 million and \$3.1 million and, for the same period in 2012, totaled \$3.6 million and \$2.5 million, respectively. OPRA income is allocated based on each exchange's share of total cleared options transactions. The Company's share of total cleared options transactions decreased to 23.7% from 25.2% for the same period in 2012. This decrease was offset by an increase in total OPRA income resulting from the allocation of a membership fee from a new exchange that joined OPRA in August 2013 resulting in comparable revenue period over period. Revenue generated from the Company's market data services, which provide current and historical options and futures data, increased \$0.6 million primarily due to an increase in subscribers to CBOE Streaming Markets and other market data services and an increase in subscriber rates.

Regulatory Fees

Regulatory fees for the three months ended September 30, 2013 increased to \$8.9 million from \$5.7 million for the same period in 2012. The increase in regulatory fees primarily resulted from CBOE increasing its options regulatory fee rate in January 2013, C2 implementing an options regulatory fee in August 2012 and higher customer volume for Trading Permit Holders industry-wide as compared to the same period in 2012. On September 1, 2013, CBOE lowered its options regulatory fee and C2 suspended its options regulatory fee for the remainder of 2013. If volume in the fourth quarter of 2013 is consistent with the third quarter of 2013, regulatory fees in the fourth quarter of 2013 would decrease by approximately \$1.6 million as compared to the third quarter of 2013.

Table of Contents

The Company's regulatory fees are primarily based on the number of customer contracts traded by Trading Permit Holders throughout the listed United States options industry. Under the rules of each of our options exchanges, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes.

Other Revenue

Other revenue decreased \$2.2 million for the three months ended September 30, 2013 to \$3.9 million from \$6.1 million for the same period in 2012. The decrease was primarily due to lower fines assessed to Trading Permit Holders resulting from disciplinary actions, partially offset by increases in revenue generated from licensing of the VIX methodology and from regulatory services provided to other exchanges.

Under the rules of each of our options exchanges, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes.

Operating Expenses

Total operating expenses increased \$0.8 million, or 1.3%, to \$68.3 million for the three months ended September 30, 2013 from \$67.5 million for the same period in 2012. This increase was primarily due to higher employee costs and royalty fees, partially offset by lower outside services and travel and promotional expenses.

The following summarizes changes in operating expenses for the three months ended September 30, 2013 compared to the same period in 2012.

Total operating expenses	\$68.3	\$67.5	\$0.8	1.3	%

Employee Costs

For the three months ended September 30, 2013, employee costs were \$28.0 million, or 20.4% of total operating revenues, compared with \$27.2 million, or 21.2% of total operating revenues, for the same period in 2012. This represented an increase of \$0.8 million, or 2.9%, from the prior period. The increase was primarily attributed to increases in stock-based compensation expense of \$0.8 million, incentive compensation of \$1.0 million, which is aligned with the Company's performance targets, and an increase in salaries of \$1.1 million resulting from increases in staffing, primarily for regulatory functions. The increases were partially offset by lower severance expenses of \$2.0 million, resulting from the elimination of staff positions in 2012.

Outside Services

Expenses related to outside services decreased to \$7.9 million for the three months ended September 30, 2013 from \$9.1 million for the same period in 2012. This \$1.2 million decrease primarily resulted from lower fees for legal proceedings.

Table of Contents

Royalty Fees

Royalty fees for the three months ended September 30, 2013 were \$13.8 million compared with \$11.3 million for the same period in 2012, an increase of \$2.5 million. The increase is primarily due to higher trading volume in licensed index products and an increase in royalty rates.

Travel and Promotional Expenses

Travel and promotional expenses for the three months ended September 30, 2013 were \$1.9 million compared with \$2.5 million for the same period in 2012, a decrease of \$0.6 million. The decrease was primarily due to lower advertising expenses and expenses related to other miscellaneous events.

Operating Income

As a result of the items above, operating income for the three months ended September 30, 2013 was \$68.4 million compared to \$60.8 million for the same period in 2012, an increase of \$7.6 million.

Income before Income Taxes

Income before income taxes for the three months ended September 30, 2013 was \$67.9 million compared to \$60.5 million for the same period in 2012, an increase of \$7.4 million.

Income Tax Provision

For the three months ended September 30, 2013, the income tax provision was \$26.5 million compared to \$14.7 million for the same period in 2012. The effective tax rate was 39.1% and 24.4% for the three months ended September 30, 2013 and 2012, respectively. The effective tax rate for the three months ended September 30, 2012 included the recognition of a tax benefit for Section 199 deductions for U.S. production activities for 2008, 2011 and 2012.

Net Income

As a result of the items above, net income allocated to common stockholders for the three months ended September 30, 2013 was \$41.0 million compared to \$45.2 million for the same period in 2012, a decrease of \$4.2 million. Basic and diluted net income per share allocated to common stockholders were \$0.47 and \$0.52 for the three months ended September 30, 2013 and 2012, respectively.

Nine months ended September 30, 2013 compared to the nine months ended September 30, 2012

The Company's market share of total exchange traded options contracts was 27.5% for the nine months ended September 30, 2013 compared with 28.4% for the same period in 2012.

Total operating revenues increased primarily due to higher transaction fees, exchange services and other fees and regulatory fees partially offset by lower access fees and market data fees.

Total operating expenses increased primarily due to higher employees costs, outside services, royalty fees and other expenses partially offset by lower trading volume incentives and travel and promotional expenses.

Significant Events

On June 11, 2013, CBOE and C2 entered into a Consent Order under which the Company was censured, ordered to cease and desist from violating certain sections of the Securities Exchange Act, paid a fine of \$6.0 million and agreed to complete certain undertakings. The Company expects to implement the undertakings within the time frame allotted in the Consent Order. Other expense for the nine months ended September 30, 2013 included \$1.0 million related to the penalty. In the fourth quarter of 2012, the Company recorded an expense of \$5.0 million related to this matter.

Operating Revenues

Total operating revenues for the nine months ended September 30, 2013 were \$430.2 million, an increase of \$47.9 million, or 12.5%, compared with the same period in 2012. The following summarizes changes in total operating revenues for the nine months ended September 30, 2013 compared to the same period in 2012.

Transaction Fees

Transaction fees increased 12.0% to \$298.2 million for the nine months ended September 30, 2013, compared with \$266.3 million for the same period in 2012. This increase was largely due to a 12.5% increase in average revenue per contract partially offset by a 0.4% decline in total trading volume. The increase in average revenue per contract resulted from a shift in volume mix to our highest average revenue per contract products, index options and futures contracts, partially offset by higher volume-based incentives, which lowered our average revenue per contract, for multiply-listed options (equities and exchange-traded products). Transaction fees accounted for 69.3% and 69.7% of total operating revenues for the nine months ended September 30, 2013 and 2012, respectively.

The following summarizes transaction fees by product for the nine months ended September 30, 2013 and 2012.

Trading Volume

Our average daily trading volume for the nine months ended September 30, 2013 was 4.65 million contracts, down 0.4% compared with 4.67 million for the same period in 2012. The Company continued to experience significant growth in futures contracts, primarily driven by trading growth in VIX futures, and index options while volume decreased in equity options. Total trading days for the nine months ended September 30, 2013 and 2012 were one hundred eighty-eight.

Average Revenue Per Contract

The average revenue per contract was \$0.341 for the nine months ended September 30, 2013, an increase of 12.5% compared with \$0.303 for the same period in 2012. The following summarizes average revenue per contract by product for the nine months ended September 30, 2013 compared to the same period in 2012.

	2013	2012	Percent Change	
Equities	\$0.101	\$0.117	(13.7)%
Indexes	0.672	0.672	—	%
Exchange-traded products	0.129	0.176	(26.7)%
Total options average revenue per contract	0.297	0.278	6.8	%
Futures	1.571	1.629	(3.6)%
Total average revenue per contract	\$0.341	\$0.303	12.5	%

Factors contributing to the increase in total average revenue per contract for the nine months ended September 30, 2013 compared to the same period in 2012, included:

Product mix — The increase in the average revenue per contract reflects a shift in the volume mix by product. Index options and futures contracts accounted for 31.7% and 3.4% of total trading volume, respectively, as compared to 25.5% and 1.8% in the prior year period. Index options generated total revenue per contract of \$0.672 representing the highest options average revenue per contract, while futures contracts generate our highest total average revenue per contract of \$1.571.

Index options and VIX futures contracts — For the nine months ended September 30, 2013 as compared to the same period in 2012, we experienced increases in total trading volume in SPX options, VIX options and VIX futures, of 20.1%, 32.0% and 85.7%, respectively.

Access Fees

Access fees for the nine months ended September 30, 2013 and 2012 were \$45.7 million and \$48.1 million, respectively. The decrease in access fees was primarily due to fee adjustments for market-maker trading permits implemented in May 2013 and fewer market-maker trading permits during the nine months ended September 30, 2013.

Exchange Services and Other Fees

Exchange services and other fees for the nine months ended September 30, 2013 increased to \$27.6 million from \$23.1 million for the same period in 2012. The increase was primarily due to the introduction of a network access option offered in connection with the Company's data center move to New Jersey.

Market Data Fees

Market data fees for the nine months ended September 30, 2013 decreased to \$17.9 million from \$18.9 million for the same period in 2012. OPRA and the Company's market data services for the nine months ended September 30, 2013 and 2012, were \$9.3 million and \$8.6 million and \$11.9 million and \$7.0 million, respectively. The Company's share of OPRA income for the nine months ended September 30, 2013 decreased to 21.2% from 25.7% for the same period in 2012 resulting in lower OPRA income of \$2.6 million. Revenue generated from the Company's market data services increased \$1.6 million resulting from an increase in subscribers and other market data services.

Regulatory Fees

Regulatory fees for the nine months ended September 30, 2013 increased to \$29.1 million from \$14.5 million for the same period in 2012. The increase was primarily due to fee increases and higher customer volume industry-wide for Trading Permit Holders as compared to the same period in 2012.

Table of Contents

Operating Expenses

Total operating expenses were \$217.0 million and \$197.9 million for the nine months ended September 30, 2013 and 2012, respectively. This increase was primarily due to higher employee costs, outside services, royalty fees and other expenses partially offset by lower trading volume incentives and travel and promotion. As a percentage of operating revenues for the nine months ended September 30, 2013 and 2012, operating expenses were 50.4% and 51.8%, respectively.

The following summarizes changes in operating expenses for the nine months ended September 30, 2013 compared to the same period in 2012.

	2013	2012	Inc./ (Dec.)	Percent Change

Other expenses	4.4	2.9	1.5	49.4	%
Total operating expenses	\$217.0	\$197.9	\$19.1	9.6	%

Employee Costs

For the nine months ended September 30, 2013, employee costs were \$90.0 million, or 20.9% of total operating revenues, compared with \$77.8 million, or 20.3% of total operating revenues, for the same period in 2012. This represented an increase of \$12.2 million. The increase was primarily attributed to higher stock-based compensation expense of \$7.8 million, higher annual incentive compensation of \$3.2 million and higher salaries of \$2.8 million. The increases were partially offset by lower severance expenses of \$2.6 million, resulting from the elimination of staff positions in 2012.

The increase in stock-based compensation of \$7.8 million for the nine months ended September 30, 2013 includes \$4.0 million of accelerated stock-based compensation related to the February 2013 grant to certain executives due to provisions contained in their employment arrangements and to recognize the remaining value of stock grants awarded, in June 2010, to employees in the Company's regulatory division who are no longer eligible to receive equity based compensation.

Outside Services

Expenses related to outside services increased to \$28.6 million for the nine months ended September 30, 2013 from \$25.5 million in the prior-year period. The \$3.1 million increase primarily resulted from higher fees for contract programmers, expenses incurred in connection with the Company's internal review of its regulatory and compliance obligations and legal proceedings.

Royalty Fees

Royalty fees for the nine months ended September 30, 2013 were \$41.5 million compared with \$34.5 million for the same period in 2012, an increase of \$7.0 million. This increase is primarily due to higher trading volume in licensed index products and an increase in royalty rates as a result of the amendment the Company executed with S&P OPCO LLC.

Trading Volume Incentives

Trading volume incentives decreased by \$2.1 million to \$3.1 million for the nine months ended September 30, 2013 compared to \$5.2 million for the same period in 2012. The decrease was primarily due to lower volume in multiply-listed options products (equities and exchange-traded products), modifications in the criteria for contracts qualifying for certain quantity-based fee waivers and adjustments to the fees paid by the Company for transactions linked to away exchanges.

Table of Contents

Travel and Promotional Expenses

Travel and promotional expenses for the nine months ended September 30, 2013 were \$6.6 million compared with \$8.0 million for the same period in 2012, a decrease of \$1.4 million. The decrease was primarily due to lower advertising expenses.

Other expenses

For the nine months ended September 30, 2013, other expenses were \$4.4 million compared with \$2.9 million for the same period in 2012, an increase of \$1.5 million. The increase was primarily due to an additional amount of \$1.0 million recognized by the Company (in addition to the \$5.0 million already recognized) with respect to the monetary penalty levied against the Company by the SEC related to the Consent Order regarding CBOE's compliance with its obligations as a self-regulatory organization under the federal securities laws. The Company entered into a definitive agreement with the SEC staff for the resolution of this matter in June 2013.

Operating Income

As a result of the items above, operating income for the nine months ended September 30, 2013 was \$213.2 million compared to \$184.4 million for the same period in 2012, an increase of \$28.8 million.

Income before Income Taxes

Income before income taxes for the nine months ended September 30, 2013 and 2012 was \$211.5 million and \$183.2 million, respectively, resulting in an increase of \$28.3 million.

Income Tax Provision

For the nine months ended September 30, 2013, the income tax provision was \$81.6 million compared to \$65.5 million for the same period in 2012. The effective tax rate was 38.6% and 35.8% for the nine months ended September 30, 2013 and 2012, respectively. The increase in effective tax rate for the nine months ended September 30, 2013 compared to the prior year period was the result of the prior year recognition of a discrete item, a \$7.7 million benefit for a Section 199 deduction for U.S. production related to 2008 and 2011, partially offset by the benefit of a lower apportionment in Illinois.

Net Income

As a result of the items above, net income allocated to common stockholders for the nine months ended September 30, 2013 was \$128.2 million compared to \$116.0 million for the same period in 2012, an increase of \$12.2 million. Basic and diluted net income per share allocated to common stockholders were \$1.47 and \$1.33 for the nine months ended September 30, 2013 and 2012, respectively.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2013, the Company had \$226.4 million of cash and cash equivalents. Historically, we have financed our operations, capital expenditures and other cash needs through cash generated from operations. Cash requirements principally consist of funding operating expenses, capital expenditures, actual and anticipated quarterly dividend payments and common stock repurchases under the announced program. We expect to use cash on hand at September 30, 2013 and funds generated from operations to continue to meet our 2013 cash requirements. From time to time, we consider the possibility of acquisitions, dispositions and strategic alliances that we believe would strengthen our business in the long-term; however, if consummated these transactions may negatively impact our liquidity in the short-term.

Cash Flows

Operating Activities

Net cash flows provided by operating activities was \$172.4 million and \$140.9 million for the first nine months of 2013 and 2012, respectively. The increase in net cash flows provided by operating activities was primarily due to an increase in working capital caused by strong operating results particularly as a result of higher transaction fees.

Net cash flows provided by operating activities was \$42.5 million higher than net income for the nine months ended September 30, 2013. The net increase was mainly a result of an increase in deferred revenue and other liabilities of \$8.0 million, primarily due to the prepayment of transaction fees that are amortized over the year, partially offset by an increase in accounts receivable of \$4.5 million and non-cash expenses of \$25.4 million and \$16.9 million for depreciation and amortization and stock-based compensation, respectively.

Investing Activities

Net cash flows used in investing activities were \$21.3 million and \$28.1 million for the nine months ended September 30, 2013 and 2012, respectively. Expenditures for capital and other assets totaled \$19.8 million and \$26.8 million for the nine months ended September 30, 2013 and 2012, respectively, primarily representing purchases of systems hardware and software. The decrease in expenditures for capital and other assets was partially offset by an increase in investments in affiliates totaling \$1.5 million compared to \$1.2 million in the prior year period.

Financing Activities

Net cash flows used in financing activities totaled \$60.3 million and \$87.5 million for the nine months ended September 30, 2013 and 2012, respectively. The decrease of \$27.2 million in net cash flows used in financing activities is primarily due to lower repurchases of unrestricted common stock by the Company under the Company's share repurchase program. During the nine months ended September 30, 2013, the Company repurchased stock totaling \$14.0 million as compared to \$49.7 million in the same period in 2012. The reduction in repurchases was partially offset by an increase in quarterly dividend payments of \$8.0 million.

Dividends

The Company's expectation is to continue to pay dividends. The decision to pay a dividend, however, remains within the discretion of our board of directors and may be affected by various factors, including our earnings, financial condition, capital requirements, level of indebtedness and other considerations our board of directors deems relevant. Future credit facilities, other future debt obligations and statutory provisions may limit, or in some cases prohibit, our ability to pay dividends.

Share Repurchase Program

On August 2, 2011, the Company announced that its board of directors had approved a share repurchase program that authorizes the Company to purchase up to \$100 million of its outstanding unrestricted common stock. On July 31, 2012, the Company announced that its board of directors had approved the repurchase of an additional \$100 million of its outstanding unrestricted common stock. This authorization is in addition to any amount remaining under the August 2011 authorization. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

Table of Contents

For the nine months ended September 30, 2013, the Company repurchased 306,300 shares of unrestricted common stock at an average cost per share of \$45.63 totaling \$14.0 million in purchases under the program.

Since inception of the program, the Company has repurchased 4,013,724 shares of unrestricted common stock at an average cost per share of \$27.58, totaling \$110.7 million in purchases under the program.

Commercial Commitments and Contractual Obligations

The Company leases office space in downtown Chicago, Illinois, in a suburb of Chicago for a remote network operations center, in New York City for certain marketing activities and in New Jersey for housing its data center, with lease terms remaining from 8 months to 139 months as of September 30, 2013. Total rent expense related to the lease obligations for the nine months ended September 30, 2013 and 2012 were \$2.2 million and \$2.6 million, respectively.

Future minimum payments under these non-cancelable leases were as follows at September 30, 2013 (in thousands):

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Operating leases	\$13,678	\$2,687	\$4,648	\$2,067	\$4,276
Total	\$13,678	\$2,687	\$4,648	\$2,067	\$4,276

In addition to the non-cancelable leases, the Company has contractual obligations related to licensing agreements with various licensors. The licensing agreements contain annual minimum fee requirements totaling \$13.5 million for the next five years.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to certain market risks, including changes in interest rates and inflation. There have been no material changes in our market risk from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012.

Item 4. Controls and Procedures

Disclosure controls and procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting that occurred during the three months ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As of September 30, 2013, the end of the period covered by this report, the Company was subject to various legal proceedings and claims, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business. There have been no material changes to the Legal Proceedings discussed in the Annual Report on Form 10-K for the year ended December 31, 2012, as supplemented by the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2013 and June 30, 2013.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is reasonably possible or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

Estimates of probable losses resulting from patent litigation involving the Company are inherently difficult to make, particularly when the Company's view of the case is significantly different than that expressed by the plaintiff. The Company has not recorded a liability related to damages in connection with these matters.

As of September 30, 2013, the Company does not think that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any litigation is inherently uncertain and an adverse outcome from certain matters could have a material effect on our earnings in any given reporting period. However, in the opinion of management, the ultimate liability is not expected to have a material effect on our financial position, liquidity or capital resources.

Item 1A. Risk Factors

Other than as updated by our Quarterly Report on Form 10-Q for the quarter ended June 30, 2013, there have been no material updates to the Risk Factors as set forth in Item 1A. of our Annual Report on Form 10-K for the year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

negotiated transactions. There can be no assurance as to the number of additional shares the Company will repurchase under the authorized plan. The timing and extent to which the Company repurchases its shares will depend upon, among other things, market conditions, share price, liquidity targets, regulatory requirements and other factors. Share repurchases may be commenced or suspended at any time or from time to time without prior notice, and the share repurchase plan does not currently have an expiration date.

The Company purchased 546 shares of unrestricted common stock at an average price of \$47.91 in the three months ended September 30, 2013 to satisfy employees' tax obligations upon the vesting of restricted stock. These purchases were not part of the publicly announced program.
