FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements, including statements in the "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of this report. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from that expressed or implied by the forward-looking statements. In particular, you should consider the risks and uncertainties described under "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2013, Part II, Item 1A of this Quarterly Report on Form 10-Q and our other filings with the SEC.

While we believe we have identified the risks that are material to us, these risks and uncertainties are not exhaustive. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include:

- the loss of our right to exclusively list and trade certain index options and futures products;
- increasing price competition in our industry;
- compliance with legal and regulatory obligations, including our obligations under the SEC Consent Order dated June 11, 2013;
- decreases in the amount of trading volumes or a shift in the mix of products traded on our exchanges;
- legislative or regulatory changes;
- increasing competition by foreign and domestic entities;
- our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights;
- our ability to accommodate trading volume and order transaction traffic, including increases in trading volume and order transaction traffic, without failure or degradation of performance of our systems;
 - our ability to protect our systems and communication networks from security risks, including cyber-attacks;
- economic, political and market conditions;
- our ability to maintain access fee revenues;
- our ability to meet our compliance obligations, including managing potential conflicts between our regulatory responsibilities and our for-profit status;
- our ability to attract and retain skilled management and other personnel;
- our ability to manage our growth effectively;
- our dependence on third party service providers; and
- the ability of our compliance and risk management methods to effectively monitor and manage our risks.

We caution you not to place undue reliance on the forward-looking statements, which speak only as of the date of this filing. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

CBOE HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and six months ended June 30, 2014 and 2013

(Unaudited)

NOTE 1 —DESCRIPTION OF BUSINESS

CBOE Holdings, Inc. is the holding company for Chicago Board Options Exchange, Incorporated, CBOE Futures Exchange, LLC, C2 Options Exchange, Incorporated and other subsidiaries.

The primary business of the Company is the operation of markets for the trading of listed, or exchange-traded, derivatives contracts on four broad product categories: 1) options on various market indexes (index options), 2) futures on the VIX Index and other products, 3) options on the stocks of individual corporations (equity options) and 4) options on other exchange-traded products (ETP options), such as exchange-traded funds (ETF options) and exchange-traded notes (ETN options).

The Company owns and operates three stand-alone exchanges, but reports the results of its operations in one reporting segment. CBOE is our primary options market and offers trading in listed options through a single system that integrates electronic trading and traditional open outcry trading on our trading floor in Chicago. This integration of electronic trading and traditional open outcry trading into a single exchange is known as our Hybrid trading model. CFE, our all-electronic futures exchange, offers trading of futures on the VIX Index and other products. C2 is our all-electronic exchange that also offers trading for listed options, but with a different market model and fee structure than CBOE. All of our exchanges operate on our proprietary technology platform known as CBOE Command.

NOTE 2 — BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and reported amounts of operating revenues and expenses. On an ongoing basis, management evaluates its estimates, including those related to matters that require a significant level of judgment or are otherwise subject to an inherent degree of uncertainty. These estimates are based on management's knowledge and judgments, historical experience and observance of trends, information available from outside sources and various other assumptions that are believed to be reasonable under the circumstances.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included.

The results of operations for interim periods are not necessarily indicative of the results of operations for the full year.

NOTE 3 — SHARE REPURCHASE PROGRAM

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations in 2012 of \$100 million and 2013 of \$100 million. The program permits the Company to purchase shares through a variety of methods,

including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

For the six months ended June 30, 2014, the Company repurchased 1,712,046 shares of unrestricted common stock at an average cost per share of \$51.56 totaling \$88.3 million in purchases under the program.

Since inception of the program through June 30, 2014, the Company has repurchased 6,351,870 shares of unrestricted common stock at an average cost per share of \$36.26, totaling \$230.3 million in purchases under the program.

NOTE 4 — NET INCOME PER COMMON SHARE

The computation of basic net income allocated to common stockholders is calculated by reducing net income for the period by dividends paid or declared and undistributed net income for the period to arrive at net income allocated to common stockholders. Net income allocated to common stockholders is divided by the weighted average number of common shares outstanding during the period to determine net income per share allocated to common stockholders. The computation of diluted earnings per share is calculated by dividing net income allocated to common stockholders by the sum of the weighted average number of common shares outstanding plus all additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. The dilutive effect is calculated using the more dilutive of the treasury stock or the two-class method.

The following table reconciles net income allocated to common stockholders and the number of shares used to calculate the basic and diluted net income per common share for the three months ended June 30, 2014 and 2013:

(in thousands, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Basic EPS Numerator:				
Net Income	\$42,981	\$46,161	\$92,005	\$88,533
Less: Earnings allocated to participating securities	(383) (684) (879) (1,268
Net Income allocated to common stockholders	\$42,598	\$45,477	\$91,126	\$87,265
Basic EPS Denominator:				
Weighted average shares outstanding	85,831	87,341	86,140	87,307
Basic net income per common share	\$0.50	\$0.52	\$1.06	\$1.00
Diluted EPS Numerator:				
Net Income	\$42,981	\$46,161	\$92,005	\$88,533
Less: Earnings allocated to participating securities	(383) (684) (879) (1,268
Net Income allocated to common stockholders	\$42,598	\$45,477	\$91,126	\$87,265
Diluted EPS Denominator:				
Weighted average shares outstanding	85,831	87,341	86,140	87,307
Dilutive common shares issued under restricted stock program	—	—	—	—
Diluted net income per common share	\$0.50	\$0.52	\$1.06	\$1.00

For the six months ended June 30, 2014, 421,928 shares of restricted stock were not included in the computation of diluted net income per common share because to do so would have an anti-dilutive effect.

NOTE 5 — STOCK-BASED COMPENSATION

Stock-based compensation is based on the fair value of the award on the date of grant, which is recognized over the related service period, net of estimated forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period.

On February 19, 2014, the Company granted 45,168 shares of restricted stock and 161,024 restricted stock units ("RSUs"), each of which entitles the holders to one share of common stock upon vesting, to certain officers and employees at a fair value of \$55.35 per share. The RSUs vest ratably over three years, with one-third vesting on each anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested restricted stock units will be forfeited if the officer or employee leaves the company prior to the applicable vesting date, except in limited circumstances. The restricted stock units have no voting rights but are able to participate in the payment of dividends.

In addition, on February 19, 2014, the Company granted 47,470 RSUs contingent on the achievement of performance conditions including 23,735 RSUs, at a fair value of \$55.35 per RSU, related to earnings per share during the performance period and 23,735 RSUs, at a fair value of \$77.00 per RSU, related to total shareholder return during the performance period. The Company used the Monte Carlo valuation model method to estimate the fair value of the total shareholder return RSUs which incorporated the following assumptions: risk free interest rate (0.69%), three-year volatility (24.8%) and three-year correlation with S&P 500 Index (0.56). Each of these performance shares has a performance condition under which the number of units ultimately awarded will vary from 0% to 200% of the original grant, with each unit representing the contingent right to receive one share of our common stock. The vesting period for the shares contingent on the achievement of performance is three years. For each of the performance awards, the restricted stock units will be settled in shares of our common stock following vesting of the restricted stock unit assuming that the participant has been continuously employed during the vesting period, subject to acceleration in the event of a change of control of the Company or in the event of a participant's earlier death, disability or qualified retirement. Participants shall have no voting rights with respect to shares until the issuance of the shares of stock. Dividends are accrued by the Company and will be paid once the RSUs contingent on the achievement of performance conditions vest.

On May 22, 2014, the Company granted 18,240 shares of restricted stock, at a fair value of \$49.36 per share, to the non-employee members of the board of directors. The shares have a one-year vesting period and vesting accelerates upon the occurrence of a change in control of the Company. Unvested portions of the restricted stock will be forfeited if the director leaves the company prior to the applicable vesting date.

For the three and six months ended June 30, 2014 and 2013, the Company recognized \$4.5 million and \$6.2 million and \$11.4 million and \$12.9 million in stock-based compensation expense, respectively. The six months ended June 30, 2014 and 2013 included \$2.5 million and \$4.0 million of accelerated stock-based compensation expense, respectively. The accelerated stock-based compensation expense, in 2014 and 2013, was primarily for certain executives due to provisions contained in their employment arrangements. Stock-based compensation expense is included in employee costs in the condensed consolidated statements of income.

As of June 30, 2014, the Company had unrecognized stock-based compensation of \$16.7 million. The remaining unrecognized stock-based compensation is expected to be recognized over a weighted average period of 26.2 months.

The activity in the Company's restricted stock and restricted stock units for the six months ended June 30, 2014 was as follows:

	Number of Shares	Weighted Average Grant-Date Fair Value
Unvested at January 1, 2014	708,221	\$33.41
Granted	271,902	56.84
Vested	(550,132)) 50.89

NOTE 7 — ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

At June 30, 2014 and December 31, 2013, accounts payable and accrued liabilities consisted of the following (in thousands):

	June 30, 2014	December 31, 2013
Compensation and benefit-related liabilities (1)	\$ 13,772	\$ 22,193
Royalties	13,272	13,512
Accounts payable	4,144	4,219
Purchase of unrestricted common stock (2)	2,560	1,937

Market linkage	1,847	1,157
Other	8,776	6,514
Total	\$ 47,809	\$ 52,958

(1) The variance in compensation and benefit-related liabilities is primarily the result of the payment of 2013 annual incentive compensation in the first quarter of 2014, partially offset by the accrual of 2014 annual compensation expense through the six months ended June 30, 2014.

(2) Reflects shares purchased at the end of the period that are not settled until three days after the trade occurs.

NOTE 8 — MARKETING FEE

CBOE facilitates the collection and payment of marketing fees assessed on certain trades taking place at CBOE. Funds resulting from the marketing fees are made available to Designated Primary Market Makers and Preferred Market Makers as an economic inducement to route orders to CBOE. Pursuant to ASC 605-45, Revenue Recognition—Principal Agent Considerations, the Company reflects the assessments and payments on a net basis, with no impact on revenues or expenses.

As of June 30, 2014 and December 31, 2013, amounts assessed by the Company on behalf of others included in current assets totaled \$9.0 million and \$8.9 million, respectively, and payments due to others included in current liabilities totaled \$9.5 million and \$9.4 million, respectively.

NOTE 9 — DEFERRED REVENUE

The following table summarizes the activity in deferred revenue for the six months ended June 30, 2014 (in thousands):

	Balance at December 31, 2013	Cash Additions	Revenue Recognition	Balance at June 30, 2014
Other – net	\$ 1,100	\$ 6,582	\$ (4,370)) \$ 3,312
Liquidity provider sliding scale (1)	—	15,800	(7,400)) 8,400
Total deferred revenue	\$ 1,100	\$ 22,382	\$ (11,770)) \$ 11,712

(1) Liquidity providers are eligible to participate in the sliding scale program, which involves prepayment of transaction fees, and receive reduced fees based on the achievement of certain volume thresholds reached within a month. The prepayment of 2014 transaction fees totaled \$15.8 million. This amount is amortized and recorded as transaction fees over the respective period.

NOTE 10 — EMPLOYEE BENEFITS

Employees are eligible to participate in the Chicago Board Options Exchange SMART Plan (“SMART Plan”). The SMART Plan is a defined contribution plan, which is qualified under Internal Revenue Code Section 401(k). The Company contributed \$2.3 million and \$2.1 million to the SMART Plan for the six months ended June 30, 2014 and 2013, respectively.

Eligible employees may participate in the Supplemental Employee Retirement Plan, Executive Retirement Plan and Deferred Compensation Plan. Each plan is a defined contribution plan that is non-qualified by Internal Revenue Code regulations. The Company contributed \$0.7 million and \$0.8 million to the above plans for the six months ended June 30, 2014 and 2013, respectively.

The Company has a post-retirement medical plan for former members of senior management. The Company recorded immaterial post-retirement benefits expense for the six months ended June 30, 2014 and 2013.

NOTE 11 — INCOME TAXES

For the three and six months ended June 30, 2014 and 2013, the Company recorded income tax provisions of \$26.4 million and \$28.7 million and \$58.9 million and \$55.1 million, respectively. The effective tax rate for the six months ended June 30, 2014 and 2013 was 39.0% and 38.3%, respectively. The increase in the effective tax rate for the six months ended June 30, 2014 resulted primarily from the recognition of a discrete tax charge. The prior year period included a discrete tax benefit, which lowered the effective rate.

As of June 30, 2014 and December 31, 2013, the Company had \$29.4 million and \$26.7 million, respectively, of uncertain tax positions excluding interest and penalties, which, if recognized in the future, would affect the annual effective income tax rate. Reductions to uncertain tax positions primarily from the lapse of the applicable statutes of limitations during the next twelve months are estimated to be approximately \$0.2 million, not including any potential new additions.

Estimated interest costs and penalties, which are classified as part of the provision for income taxes in the Company’s condensed consolidated statements of income, were \$0.5 million and \$0.2 million for the three months ended June 30, 2014 and 2013, respectively, and \$1.1 million and \$0.4 million for the six months ended June 30, 2014 and 2013, respectively. Accrued interest and penalties were \$4.3 million and \$3.2 million as of June 30, 2014 and December 31, 2013, respectively.

The Company is subject to U.S. federal tax, Illinois, New Jersey, and New York state taxes and Washington, D.C. taxes, as well as taxes in other local jurisdictions. The Company has open tax years from 2007 on for New York, 2008 on for Federal, 2009 on for Illinois, and 2010 on for New Jersey and Washington, D.C. The Internal Revenue Service is currently auditing 2010 and is looking at specific line items from 2008 to 2012 due to the filing by the Company of amended returns containing the recognition of certain credits and deductions. The Illinois Department of Revenue is currently auditing the 2009 and 2010 tax years. The New York State Department of Taxation and Finance is currently auditing the 2007 through 2012 tax years. The New Jersey Division of Taxation is currently auditing the 2010 through 2012 tax years.

NOTE 12 — FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in

pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including the Company's own credit risk.

The Company applied FASB ASC 820, Fair Value Measurement and Disclosure (formerly, FASB Statement No. 157, Fair Value Measurements), which provides guidance for using fair value to measure assets and liabilities by defining fair value and establishing the framework for measuring fair value. ASC 820 applies to financial and non-financial instruments that are measured and reported on a fair value basis. The three-level hierarchy of fair value measurements is based on whether the inputs to those measurements are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The fair-value hierarchy requires the use of observable market data when available and consists of the following levels:

Level 1—Unadjusted inputs based on quoted markets for identical assets or liabilities.

Table of Contents

- Level 2—Observable inputs, either direct or indirect, not including Level 1, corroborated by market data or based upon quoted prices in non-active markets.

• Level 3—Unobservable inputs that reflect management's best assumptions of what market participants would use in valuing the asset or liability.

The Company has included a tabular disclosure for financial assets that are measured at fair value on a recurring basis in the condensed consolidated balance sheet as of June 30, 2014 and December 31, 2013. The Company holds no financial liabilities that are measured at fair value on a recurring basis.

The Company, through DerivaTech Corporation, a wholly-owned subsidiary, acquired about a 10.0% interest in IPXI Holdings, LLC ("IPXI") for \$2.5 million. The Company contributed an additional \$0.6 million in October 2013. The investment, measured at fair value on a non-recurring basis, is classified as Level 3 as the fair value was based on both observable and unobservable inputs.

NOTE 13 — LEGAL PROCEEDINGS

As of June 30, 2014, the end of the period covered by this report, the Company was subject to various legal proceedings and claims, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business. For a description of each of these proceedings, please see Note 11 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2013.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is reasonably possible or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

Estimates of probable losses resulting from patent litigation involving the Company are inherently difficult to make, particularly when the Company's view of the case is significantly different than that expressed by the plaintiff. The Company has not recorded a liability related to damages in connection with these matters.

As of June 30, 2014, the Company does not think that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any

litigation is inherently uncertain and an adverse outcome from certain matters could have a material effect on our earnings in any given reporting period. However, in the opinion of management, the ultimate liability is not expected to have a material effect on our financial position, liquidity or capital resources.

The following information updates the legal proceedings disclosures in our Annual Report on Form 10-K for the year ended December 31, 2013 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014.

Patent Litigation

On April 7, 2014, the United States Court of Appeals for the Federal Circuit (the "Federal Circuit") issued its decision affirming the judgment of the United States Circuit Court for the Northern District of Illinois that CBOE did not infringe the International Securities Exchange, LLC ("ISE") patent at issue in this case. On May 5, 2014, the Federal Circuit denied ISE's petition for a panel rehearing of its appeal by the Federal Circuit.

City of Providence Litigation

On April 18, 2014, the City of Providence sued CBOE and C2 in federal court in New York City on behalf of a proposed class of all public investors who bought or sold stock, at any time since April 18, 2009 (the "class period"), that was listed on a U.S.-based exchange or alternate trading venue. Also named as defendants are other securities exchanges and a proposed defendant class of all firms that, during the class period, placed bids or offers or trades in stocks on behalf of public investors, operated alternate trading venues for placing bids, offers or trades in stocks, or engaged in high frequency trading ("HFT") in stocks (the "Firm Defendants"). As applicable to CBOE and C2 and the other exchange defendants, the complaint alleges that the exchanges (i) participated in a scheme by which HFT firms allegedly defrauded U.S. public investors and manipulated the prices of stocks and (ii) failed to operate their stock markets in accordance with their duties under the Exchange Act. In addition to injunctive relief and attorneys' fees, the complaint seeks unspecified amounts representing damages resulting from defendants' alleged wrongdoing, restitution of monies paid by the plaintiff class, disgorgement of defendants' gains resulting from their alleged wrongdoing, and forfeiture of fees and compensation paid by the plaintiff class to defendants. American European Insurance Company, James Flynn and Dominic Morelli filed three substantially similar lawsuits against CBOE and C2, along with other securities exchanges and a similar group of Firm Defendants, on behalf of a proposed class of public investors.

On July 2, 2014, the Court entered an order consolidating the four separate class actions into the Providence case and appointed the City of Providence and several other institutional investors as lead plaintiffs for the putative class.

Lanier Litigation

On May 23, 2014, Harold R. Lanier sued CBOE, as well as 13 other securities exchanges, in the United States District Court for the Southern District of New York on behalf of himself and a putative class consisting of all persons in the United States who entered into contracts to receive market data through certain data plans at any time since May 19, 2008 to the present. The complaint alleges that the market data provided under the Consolidated Quotation ("CQ") and Consolidated Tape Association ("CTA") Plans was inferior to the data that the exchanges provided to those that directly receive other data from the exchanges, which the plaintiffs allege is a breach of their "subscriber contracts" and a violation of the exchanges' obligations under the CQ and CTA Plans. The plaintiffs seek monetary and injunctive relief. On May 30, 2014, Mr. Lanier filed two additional suits in the same Court, alleging substantially the same claims and requesting for the same types of relief against the exchanges who participate in the UTP and the OPRA data plans. CBOE is a defendant in each of these suits, while C2 is only a defendant in the suit regarding the OPRA Plan.

ISE -- '707

On August 15, 2012, C2 filed a declaratory judgment complaint against International Securities Exchange, LLC ("ISE") in the United States District Court for the Northern District of Illinois alleging that ISE's U.S. Patent No. 6,618,707 ("the '707 patent") patent is not valid, not infringed and not enforceable. On July 18, 2014, the Court dismissed this case without prejudice following ISE's stipulation that C2's trading system does not infringe the '707 patent.

NOTE 14 — SUBSEQUENT EVENTS

On July 30, 2014, the Company announced that its board of directors declared a quarterly cash dividend of \$0.21 per share. The dividend is payable September 19, 2014 to stockholders of record at the close of business on August 29, 2014.

On July 30, 2014, the Company announced that its board of directors authorized an additional \$100 million to repurchase shares of its outstanding unrestricted common stock. This is in addition to any unused amount remaining under prior authorizations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and the notes thereto, included in Item 1 in this Quarterly Report on Form 10-Q, and the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, and as contained in that report, the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations." This discussion contains forward-looking information. Please see "Forward-Looking Statements" for a discussion of the uncertainties, risks and assumptions associated with these statements.

RESULTS OF OPERATIONS

Three months ended June 30, 2014 compared to the three months ended June 30, 2013

Overview

The following summarizes changes in our financial performance for the three months ended June 30, 2014 compared to the same period in 2013.

	2014	2013	Inc./ (Dec.)	Percent Change
	(in millions, except per share amounts)			
Total operating revenues	\$ 143.9	\$ 150.8	\$ (6.9)	(4.5)%
Total operating expenses	74.2	75.4	(1.2)	(1.6)%
Operating income	69.7	75.4	(5.7)	(7.5)%
Total other expense	(0.3)	(0.5)	0.2	(32.1)%
Income before income taxes	69.4	74.9	(5.5)	(7.3)%
Income tax provision	26.4	28.7	(2.3)	(8.0)%
Net income	\$ 43.0	\$ 46.2	\$ (3.2)	(6.9)%
Net income allocated to common stockholders	\$ 42.6	\$ 45.5	\$ (2.9)	(6.3)%

Net income percentage	29.9	% 30.6	%	
Diluted net income per share allocated to common stockholders	\$ 0.50	\$ 0.52		

Total operating revenues decreased primarily due to lower transaction fees resulting from a shift in product mix and lower average revenue per contract, partially offset by higher market data fees.

Total operating expenses decreased primarily due to decreases in employee costs and outside services, partially offset by higher depreciation and amortization.

Operating Revenues

Total operating revenues for the three months ended June 30, 2014 were \$143.9 million, a decrease of \$6.9 million, or 4.5%, compared with the same period in 2013. The following summarizes changes in total operating revenues for the three months ended June 30, 2014 compared to the same period in 2013.

Transaction Fees

Transaction fees decreased 7.7% to \$97.9 million for the three months ended June 30, 2014, compared with \$106.1 million for the same period in 2013. This decrease was due to a 4.1% decline in total trading volume and a decrease in average revenue per contract of 3.8%. The decrease in average revenue per contract resulted primarily from a shift in the mix of trading volume and higher volume-based incentives, primarily driven by increased volume in equities. For the three months ended June 30, 2014, trading volume in SPX options and VIX futures decreased 14.2% and 9.3%, respectively, compared to the prior year period. These decreases were partially offset by higher trading volume in VIX options of 9.8%. Our highest average revenue per contract products, index options and futures contracts, accounted for 33.9% of trading volume during the second quarter of 2014 down from 34.7% in the second quarter of 2013.

Our share of total U.S. options industry volume increased to 30.3% from 27.4% in the prior year period resulting primarily from higher volume in our equity product category. Trading volume is impacted by many factors, including: macroeconomic events, market volatility, regulatory actions or considerations, availability of capital, competition, pricing, number of trading days in the period and seasonality.

Average revenue per contract, discussed in more detail below, is impacted by our fee structure, which includes volume based incentive programs, mix of products traded, the account type (customer, firm, market-maker, etc.) and the manner in which a trade is executed (electronic, open-outcry, etc.) The implementation of fee changes, which may increase or decrease our average revenue per contract, is primarily to ensure that we are competitive in the options marketplace and to ultimately improve and continue to drive order flow to our exchanges. We cannot predict the trading patterns of exchange participants, which may be based on factors outside our control, but we can attempt to price our products at levels that are competitive in our market.

The following summarizes transaction fees by product category for the three months ended June 30, 2014 compared to the same period in 2013.

Table of Contents

Product Mix — We experienced a shift in volume to equities, our lowest average revenue per contract product category.

Rate structure — Our rate structure includes sliding scales, volume discounts, volume incentive programs and caps on fees as part of our effort to increase liquidity and market share in multiply-listed options. Average revenue per contract on multiply-listed options (equities and exchange-traded products) decreased 12.6% and 6.5%, respectively. These decreases resulted primarily from increases in volume-based incentives for certain multiply-listed options (equities and exchange-traded products).

Access Fees

Access fees for the three months ended June 30, 2014 and 2013 were \$14.8 million and \$15.0 million, respectively.

Exchange Services and Other Fees

Exchange services and other fees for the three months ended June 30, 2014 increased to \$9.7 million from \$9.3 million for the same period in 2013.

Market Data Fees

Market data fees for the three months ended June 30, 2014 increased to \$7.8 million from \$5.7 million for the same period in 2013. Market data fees represent income derived from OPRA as well as the Company's market data services, which for the three months ended June 30, 2014 each totaled \$3.9 million and, for the same period in 2013, totaled \$2.9 million and \$2.8 million, respectively. Income derived from OPRA is allocated based on each exchange's share of total cleared options transactions. The Company's share of total cleared options transactions increased to 24.4% from 20.9%, for the same period in 2013. Revenue generated from the Company's market data services, which provide current and historical options and futures data, increased \$1.1 million primarily due to an increase in subscribers to CBOE Streaming Markets and other market data services.

Regulatory Fees

Regulatory fees for the three months ended June 30, 2014 decreased to \$9.8 million from \$10.5 million for the same period in 2013. The decrease in regulatory fees primarily resulted from lower Trading Permit Holder customer volume industry-wide as compared to the same period in 2013, partially offset by an increase in the options regulatory fee rate in 2014 and a reduction in regulatory fees received for regulatory services provided to CBOE Stock Exchange, LLC ("CBSX") which ceased trading operations on April 30, 2014. On August 1, 2014, CBOE and C2 lowered the options regulatory fee rate for the remainder of 2014. With the reduction in services provided to CBSX and the reduction in options regulatory fee rate, if customer volume remains consistent with current levels for the remainder of the year, we would expect regulatory fees to decline in the third and fourth quarter of 2014 as compared to the first and second quarter of 2014.

The Company's regulatory fees are primarily based on the number of customer contracts traded by Trading Permit Holders throughout the listed United States options industry. Under the rules of each of our options exchanges, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes.

Concentration of Revenue

At June 30, 2014, there were approximately one hundred Trading Permit Holders that are clearing members of OCC. Two clearing members account for 54% of transaction and other fees collected through the OCC for the three months ended June 30, 2014. The next largest clearing member accounted for approximately 9% of transaction and other fees

collected through the OCC. No one Trading Permit Holder using the services of the top two clearing members represented more than 40% of transaction and other fees collected through the OCC, for the respective clearing member, in the three months ended June 30, 2014. Should a clearing member withdraw from CBOE, we believe the Trading Permit Holder portion of that clearing member's trading activity would likely transfer to another clearing member.

The two largest clearing members mentioned above clear the majority of the market-maker sides of transactions at CBOE, C2 and at all of the U.S. options exchanges. If either of these clearing members were to withdraw from the business of market-maker clearing and market-makers were unable to transfer to another clearing member, this could create significant disruption to the U.S. options markets, including ours.

Operating Expenses

Total operating expenses decreased \$1.2 million, or 1.6%, to \$74.2 million for the three months ended June 30, 2014 from \$75.4 million for the same period in 2013. This decrease was primarily due to lower employee costs and outside services, partially offset by higher depreciation and amortization.

The following summarizes changes in operating expenses for the three months ended June 30, 2014 compared to the same period in 2013.

	2014	2013	Inc./ (Dec.)	Percent Change

Other expenses	1.5	2.1	(0.6)	(27.8)%
Total operating expenses	\$74.2	\$75.4	\$(1.2)	(1.6)%

Employee Costs

For the three months ended June 30, 2014, employee costs were \$30.3 million, or 21.1% of total operating revenues, compared with \$31.2 million, or 20.7% of total operating revenues, for the same period in 2013. This represented a decrease of \$0.9 million, or 3.0%, from the prior period. The decrease was primarily attributed to lower stock-based compensation expense of \$1.8 million due largely to the fact that, in May 2013, shares were granted to the Chief Executive Officer and President and Chief Operating Officer totaling \$2.5 million, of which 50% vested upon grant. The decrease in stock-based compensation was partially offset by an increase in salaries of \$1.3 million resulting from increases in staffing.

Depreciation and Amortization

For the three months ended June 30, 2014, depreciation and amortization costs were \$9.9 million compared with \$8.6 million, for the same period in 2013. This represented an increase of \$1.3 million, which primarily resulted from increased capital spending to harden and enhance our trading platform and operations.

Outside Services

Expenses related to outside services decreased to \$7.9 million for the three months ended June 30, 2014 from \$9.6 million for the same period in 2013. This \$1.7 million decrease primarily resulted from lower legal costs.

Royalty Fees

Royalty fees for the three months ended June 30, 2014 were \$14.7 million compared with \$14.5 million for the same period in 2013, an increase of \$0.2 million. For the three months ended June 30, 2014, royalty fees related to proprietary products were down due to lower volume, this was mostly offset by higher fees paid to market participants

for order flow directed to our exchanges and higher fees associated with dissemination of certain market data.

Operating Income

As a result of the items above, operating income for the three months ended June 30, 2014 was \$69.7 million compared to \$75.4 million for the same period in 2013, a decrease of \$5.7 million.

Income before Income Taxes

Income before income taxes for the three months ended June 30, 2014 was \$69.4 million compared to \$74.9 million for the same period in 2013, a decrease of \$5.5 million.

Income Tax Provision

For the three months ended June 30, 2014, the income tax provision was \$26.4 million compared to \$28.7 million for the same period in 2013. The effective tax rate was 38.1% and 38.4% for the three months ended June 30, 2014 and 2013, respectively.

Net Income

As a result of the items above, net income allocated to common stockholders for the three months ended June 30, 2014 was \$42.6 million compared to \$45.5 million for the same period in 2013, a decrease of \$2.9 million. Basic and diluted net income per share allocated to common stockholders were \$0.50 and \$0.52 for the three months ended June 30, 2014 and 2013, respectively.

Transaction Fees

Transaction fees increased 2.7% to \$210.7 million for the six months ended June 30, 2014, compared with \$205.2 million for the same period in 2013. This increase was primarily due to an 11.7% increase in total trading volume, partially offset by an 8.1% decrease in average revenue per contract. The Company experienced volume increases across all product categories. The volume increases in indexes and futures were driven by increases in VIX options and VIX futures of 17.2% and 10.3%, respectively. The decrease in average revenue per contract resulted from a shift in volume mix from our highest average revenue per contract products, index options and futures contracts, to our lowest average revenue per contract product, equities. In addition to the shift in product mix, we also experienced an increase in volume-based incentives resulting primarily from higher relative volume for certain multiply-listed options (equities and exchange-traded products). Transaction fees accounted for 69.8% and 69.9% of total operating revenues for the six months ended June 30, 2014 and 2013, respectively.

The following summarizes transaction fees by product category for the six months ended June 30, 2014 and 2013.

Average Revenue Per Contract

Average revenue per contract was \$0.326 for the six months ended June 30, 2014, a decrease of 8.1% compared with \$0.354 for the same period in 2013. The following summarizes average revenue per contract by product category for the six months ended June 30, 2014 compared to the same period in 2013.

	2014	2013	Percent Change	
Equities	\$0.080	\$0.115	(30.2)%

Futures	1.627	1.577	3.2	%
Total average revenue per contract	\$0.326	\$0.354	(8.1)%

Factors contributing to the decrease in total average revenue per contract for the six months ended June 30, 2014 compared to the same period in 2013, included:

Product mix — The decrease in the average revenue per contract reflects a shift in the volume mix by product category. Index options and futures contracts accounted for 30.8% and 3.5% of total trading volume, respectively, as compared to 32.6% and 3.6% in the prior year period. Index options generated total revenue per contract of \$0.669 representing the highest options average revenue per contract, while futures contracts generate our highest total average revenue per contract of \$1.627.

Rate structure — Our rate structure includes sliding scales, volume discounts, volume incentive programs and caps on fees as part of our effort to increase liquidity and market share in multiply-listed options. Average revenue per contract on multiply-listed options (equities and exchange-traded products) decreased 30.2% and 14.0%, respectively. These decreases resulted primarily from increases in volume-based incentives for certain multiply-listed options.

Table of Contents

Access Fees

Access fees for the six months ended June 30, 2014 and 2013 were \$30.1 million and \$30.7 million, respectively. The decrease in access fees was primarily due to the implementation of incentive programs for market-maker trading permits and floor brokers implemented in May 2013.

Exchange Services and Other Fees

Exchange services and other fees for the six months ended June 30, 2014 increased to \$19.2 million from \$18.4 million for the same period in 2013. The increase was primarily due to increased demand for technology services, terminal and other equipment rentals and certain services impacted by trading volume, which was up compared to the prior year period.

Market Data Fees

Market data fees for the six months ended June 30, 2014 increased to \$15.0 million from \$11.3 million for the same period in 2013. Income derived from OPRA and the Company's market data services for the six months ended June 30, 2014 and 2013 were \$7.6 million and \$7.3 million and \$5.7 million and \$5.6 million, respectively. The Company's share of income derived from OPRA for the six months ended June 30, 2014 increased to 24.4% from 19.9% for the same period in 2013 resulting in higher income from OPRA of \$1.9 million. Revenue generated from the Company's market data services increased \$1.8 million resulting from an increase in subscribers and other market data services.

Regulatory Fees

Regulatory fees for the six months ended June 30, 2014 decreased to \$19.6 million from \$20.1 million for the same period in 2013. The decrease is primarily the result of a reduction in regulatory fees received for regulatory services provided to CBSX, which ceased trading operations on April 30, 2014.

Operating Expenses

Total operating expenses were \$150.1 million and \$148.7 million for the six months ended June 30, 2014 and 2013, respectively. This increase was primarily due to higher employee costs, depreciation and amortization and royalty fees, partially offset by lower outside services. As a percentage of operating revenues for the six months ended June 30, 2014 and 2013, operating expenses were 49.7% and 50.7%, respectively.

Employee Costs

For the six months ended June 30, 2014, employee costs were \$63.7 million, or 21.1% of total operating revenues, compared with \$62.1 million, or 21.2% of total operating revenues, for the same period in 2013. This represented an increase of \$1.6 million. The increase was primarily attributed to higher salaries of \$3.0 million, partially offset by lower stock-based compensation expense of \$1.6 million.

Depreciation and Amortization

For the six months ended June 30, 2014, depreciation and amortization costs were \$18.5 million compared with \$16.9 million for the same period in 2013. This increase of \$1.6 million which primarily resulted from increased capital spending to harden and enhance our trading platform and operations.

Outside Services

Expenses related to outside services decreased to \$15.2 million for the six months ended June 30, 2014 from \$20.7 million in the prior-year period. The \$5.5 million decrease primarily resulted from lower fees for contract programmers and legal costs.

Royalty Fees

Royalty fees for the six months ended June 30, 2014 were \$30.6 million compared with \$27.7 million for the same period in 2013, an increase of \$2.9 million. This increase is primarily due to higher trading volume in licensed index products and an increase in royalty rates as a result of the amendment the Company executed with S&P OPCO LLC, effective as of March 2013, relating to the Company's license to trade options and futures and create products based on certain S&P indices.

Trading Volume Incentives

Trading volume incentives increased by \$0.4 million to \$2.3 million for the six months ended June 30, 2014 compared to \$1.9 million for the same period in 2013. The increase was primarily due to higher volume in multiply-listed options products (equities and exchange-traded products).

Operating Income

As a result of the items above, operating income for the six months ended June 30, 2014 was \$151.7 million compared to \$144.8 million for the same period in 2013, an increase of \$6.9 million.

Income before Income Taxes

Income before income taxes for the six months ended June 30, 2014 and 2013 was \$150.9 million and \$143.6 million, respectively, resulting in an increase of \$7.3 million.

Income Tax Provision

For the six months ended June 30, 2014, the income tax provision was \$58.9 million compared to \$55.1 million for the same period in 2013. The effective tax rate was 39.0% and 38.3% for the six months ended June 30, 2014 and 2013, respectively. The increase in the effective tax rate for the six months ended June 30, 2014 compared to the prior year period was the result of a change in a deferred statutory rate and prior year discrete items.

Net Income

As a result of the items above, net income allocated to common stockholders for the six months ended June 30, 2014 was \$91.1 million compared to \$87.3 million for the same period in 2013, an increase of \$3.8 million. Basic and diluted net income per share allocated to common stockholders were \$1.06 and \$1.00 for the six months ended June 30, 2014 and 2013, respectively.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2014, the Company had \$145.1 million of cash and cash equivalents, a decrease from \$221.3 million as of December 31, 2013. Historically, we have financed our operations, capital expenditures and other cash needs through cash generated from operations. Cash requirements principally consist of funding operating expenses, capital expenditures, actual and anticipated quarterly dividend payments and common stock repurchases under the announced program. We expect our cash on hand at June 30, 2014 and funds generated from operations to be sufficient to continue to meet our 2014 cash requirements. From time to time, we consider the possibility of acquisitions, dispositions and strategic alliances that we believe would strengthen our business in the long-term; however, if consummated these transactions may negatively impact our liquidity in the short-term.

Cash Flows

Operating Activities

Net cash flows provided by operating activities totaled \$121.2 million and \$116.9 million for the six months ended June 30, 2014 and 2013, respectively. The increase in net cash flows provided by operating activities was primarily due to lower deferred revenue and other liabilities resulting from a reduction in prepayments of transaction fees by liquidity providers.

Net cash flows provided by operating activities was \$29.2 million higher than net income for the six months ended June 30, 2014. The difference was mainly a result of \$18.5 million in depreciation and amortization and the recognition of stock-based compensation totaling \$11.4 million.

Investing Activities

Net cash flows used in investing activities totaled \$29.3 million and \$14.2 million for the six months ended June 30, 2014 and 2013, respectively. Expenditures for capital and other assets totaled \$28.3 million and \$13.1 million for the six months ended June 30, 2014 and 2013, respectively, primarily representing purchases of systems hardware and development of software to harden and enhance our trading platform and operations.

Financing Activities

Net cash flows used in financing activities totaled \$168.2 million and \$30.5 million for the six months ended June 30, 2014 and 2013, respectively. The \$137.7 million increase in net cash flows used in financing activities in 2014 was primarily due to the payment of a special dividend totaling \$43.8 million and repurchases of unrestricted common stock by the Company under the Company's share repurchase program totaling \$88.3 million.

Dividends

The Company's expectation is to continue to pay dividends. The decision to pay a dividend, however, remains within the discretion of our board of directors and may be affected by various factors, including our earnings, financial condition, capital requirements, level of indebtedness and other considerations our board of directors deems relevant. Future debt obligations and statutory provisions, among other things, may limit, or in some cases prohibit, our ability to pay dividends.

Share Repurchase Program

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations in 2012 of \$100 million and 2013 of \$100 million. The program permits the Company to purchase shares through a variety of methods,

including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation. On July 30, 2014, the board of directors authorized an additional \$100 million to repurchase shares of its outstanding unrestricted common stock. This is in addition to any unused amount remaining under prior authorizations.

For the six months ended June 30, 2014, the Company repurchased 1,712,046 shares of unrestricted common stock at an average cost per share of \$51.56 totaling \$88.3 million in purchases under the program.

Since inception of the program through June 30, 2014, the Company has repurchased 6,351,870 shares of unrestricted common stock at an average cost per share of \$36.26, totaling \$230.3 million in purchases under the program.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to certain market risks, including changes in interest rates and inflation. There have been no material changes in our market risk from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the three months ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The following information updates the legal proceedings disclosures in our Annual Report on Form 10-K for the year ended December 31, 2013 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014.

Patent Litigation

On April 7, 2014, the United States Court of Appeals for the Federal Circuit (the "Federal Circuit") issued its decision affirming the judgment of the United States Circuit Court for the Northern District of Illinois that CBOE did not infringe the International Securities Exchange, LLC ("ISE") patent at issue in this case. On May 5, 2014, the Federal Circuit denied ISE's petition for a panel rehearing of its appeal by the Federal Circuit.

City of Providence Litigation

On April 18, 2014, the City of Providence sued CBOE and C2 in federal court in New York City on behalf of a proposed class of all public investors who bought or sold stock, at any time since April 18, 2009 (the "class period"), that was listed on a U.S.-based exchange or alternate trading venue. Also named as defendants are other securities exchanges and a proposed defendant class of all firms that, during the class period, placed bids or offers or trades in stocks on behalf of public investors, operated alternate trading venues for placing bids, offers or trades in stocks, or engaged in high frequency trading ("HFT") in stocks (the "Firm Defendants"). As applicable to CBOE and C2 and the other exchange defendants, the complaint alleges that the exchanges (i) participated in a scheme by which HFT firms allegedly defrauded U.S. public investors and manipulated the prices of stocks and (ii) failed to operate their stock markets in accordance with their duties under the Exchange Act. In addition to injunctive relief and attorneys' fees, the complaint seeks unspecified amounts representing damages resulting from defendants' alleged wrongdoing, restitution of monies paid by the plaintiff class, disgorgement of defendants' gains resulting from their alleged wrongdoing, and forfeiture of fees and compensation paid by the plaintiff class to defendants. American European Insurance Company, James Flynn and Dominic Morelli filed three substantially similar lawsuits against CBOE and C2, along with other securities exchanges and a similar group of Firm Defendants, on behalf of a proposed class of public investors.

On July 2, 2014, the Court entered an order consolidating the four separate class actions into the Providence case and appointed the City of Providence and several other institutional investors as lead plaintiffs for the putative class.

Lanier Litigation

On May 23, 2014, Harold R. Lanier sued CBOE, as well as 13 other securities exchanges, in the United States District Court for the Southern District of New York on behalf of himself and a putative class consisting of all persons in the United States who entered into contracts to receive market data through certain data plans at any time since May 19, 2008 to the present. The complaint alleges that the market data provided under the Consolidated Quotation ("CQ") and Consolidated Tape Association ("CTA") Plans was inferior to the data that the exchanges provided to those that directly receive other data from the exchanges, which the plaintiffs allege is a breach of their "subscriber contracts" and a violation of the exchanges' obligations under the CQ and CTA Plans. The plaintiffs seek monetary and injunctive relief. On May 30, 2014, Mr. Lanier filed two additional suits in the same Court, alleging substantially the same claims and requesting for the same types of relief against the exchanges who participate in the UTP and the OPRA data plans. CBOE is a defendant in each of these suits, while C2 is only a defendant in the suit regarding the OPRA Plan.

ISE -- '707

On August 15, 2012, C2 filed a declaratory judgment complaint against International Securities Exchange, LLC ("ISE") in the United States District Court for the Northern District of Illinois alleging that ISE's U.S. Patent No. 6,618,707 ("the '707 patent") patent is not valid, not infringed and not enforceable. On July 18, 2014, the Court dismissed this case without prejudice following ISE's stipulation that C2's trading system does not infringe the '707 patent.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) The table below shows the purchases of equity securities by the Company in the three months ended June 30, 2014, reflecting the purchase of unrestricted common stock under the Company's share repurchase program:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1)
April 1, 2014 – April 31, 2014	296,400	\$52.44	296,400	\$105,296,338
May 1, 2014 – May 31, 2014	338,900	50.61	338,900	88,143,167
June 1, 2014 – June 30, 2014	375,878	49.06	375,878	69,704,253
Totals	1,011,178	\$50.57	1,011,178	

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations in 2012 of \$100 (1) million and 2013 of \$100 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

(d) The table belows reflects the purchases of unrestricted common stock by the Company in the three months ended June 30, 2014 to satisfy employees' tax obligations upon the vesting of restricted stock:

Period	Total Number of Shares Purchased (2)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
April 1, 2014 – April 31, 2014	—	\$—	—	—
