EXPLANATORY NOTE

Novo Energies Corporation (the "Company") is filing this Amendment No. 1 to its Annual Report on Form 10-K (this "Form 10-K/A") to amend its Annual Report on Form 10-K for the year ended March 31, 2010, which was filed with the Securities and Exchange Commission ("SEC") on July 14, 2010 (the "2010 Form 10-K"). This Form 10-K/A amends the 2010 Form 10-K by (i) revising our disclosure in Part II, Item 9A(T) (Controls and Procedures); and (ii) revising our certification in Exhibit 31.1 to be worded exactly as required by Item 601(b)(31) of Regulation S-K.

Except as described above, no other changes have been made to the 2010 Form 10-K, and this Amendment No. 1 does not otherwise amend, update or change the financial statements or disclosures in the 2010 Form 10-K.

PART I

ITEM 1. BUSINESS

Background

We are a Florida corporation formed on April 8, 2001. We were organized to be a blank check company.

On December 16, 2003, Rosehill Investments Limited, a Seychelles corporation ("Rosehill"), acquired 11,937,200 shares of New England Acquisitions, Inc.'s ("Company") Common Stock ("Shares") pursuant to a Stock Purchase Agreement among Rosehill, the Company, Mr. Jonathan B. Reisman and Mr. Gary Cella (the "Agreement"). The Agreement provided for the Shares to be sold as follows: 9,234,520 shares from the Company; 1,379,600 shares from Mr. Reisman; and 1,323,100 shares from Mr. Cella. As a result of the stock sale, the Directors of the Company resigned and ultimately Mr. Harry Chauhan was appointed as the sole officer and director.

At that time there were 12,552,395 shares of common stock issued and outstanding.

On January 13, 2004, the Company amended its Articles of Incorporation to change its name from New England Acquisitions, Inc. to Atlantic Wine Agencies Inc.

On February 9, 2004, the Company's directors resigned and Mr. Harry Chauhan was appointed as the Company's sole Director and its President.

On March 1, 2004 the Company completed a 1-for-200 reverse capitalization without affecting the par value or authorized number of shares.

On May 4, 2004 the Company acquired all of the issued and outstanding shares of New Heights 560 Holdings LLC, a Cayman Islands limited liability corporation ("New Heights"), in exchange for One Hundred Million shares of its restricted common stock which is equal to 99.9% of the total outstanding shares of the Company's common stock (this transaction shall be referred to as the "Share Exchange"). New Heights owned the property in South Africa on which our vineyard operations are located.

Prior to the Share Exchange, the Company was engaged in the business of manufacturing and distributing various skin creams and generated minimal revenues as a result.

As a result of the Share Exchange, the Company had two wholly owned subsidiaries, Mount Rozier Estates (Pty) Limited and Mount Rozier Properties (Pty) Limited. Such companies owned a world class vineyard in the Stellenbosch region of Western Cape, South Africa. The vineyard and surrounding properties consisted of 80.9 hectares of arable land for viticultural as well as residential and commercial purposes. In the opinion of the management the site was a world class in terms of location, soil composition and future development potential.

Mount Rozier Estates (Pty) Limited and Mount Rozier Properties (Pty) Limited produced super premium quality wines on a boutique vineyard basis. We became a notable producer of quality wines from South Africa by further: (i) developing and expanding our wine cellar tasting facilities and upgrading vineyards through better crop management; (ii) enhancing our strategic distribution channels with various international agents and direct route to market channels; and (iii) brand development efforts.

The launch of the wines under new patent branded labeling and marketing occurred in the fourth fiscal quarter of 2004 in South Africa and the United Kingdom.

Our wines were initially issued in three tiers: Mount Rozier a top quality super premium single vineyard brand; Rozier Bay a mid price range wine; Rozier Reef and a mainstream market product. Such wines received several significant awards recently and we have built a significant regional route to market for sales which is on target with our early internal projections.

In September 2004, Mr. Adam Mauerberger became President of the Company and Chairman of the Board. Also in September the Company hired Mr. Andy Bayley to be the Senior Vice President of Sales and Marketing.

As an effort to reduce costs and centralize our operations due to securing an exclusive agency agreement with HBJ wines within the UK AWA INC. relocated all operations to South Africa as the main profit centre. This move resulted in substantial cost savings. At that time, however, the Company began contemplating a sale of some or all of its assets.

On October 13, 2006, we entered into an agreement with Auction Alliance, the South African auction firm, to sell its Myrtle Grove Property and Estates. Assets including land, vineyards, winery equipment and stock will be included in the auction sale. Our management has concluded that (i) after expending considerable resources and efforts in developing its business and building world class wine brands from South Africa, significantly more capital is necessary to further grow the business which the Company is unable to procure on commercially acceptable terms, (ii) The ZAR (South African Rand) has shown considerable volatility related to uncertainty regarding future political situation and (iii) the best time to maximize our South African property and operations is by selling through the public auction process locally in South Africa prior to the growing season in the southern hemisphere. The Company was unable to sell its business to any auction bidders because it could not agree on terms.

In anticipation of the sale of our assets, on January 11, 2008, we entered into an agreement with Sapphire Developments Limited (“Sapphire”) and Fairhurst Properties S.A. (“Fairhurst”) to restructure certain debt held by Sapphire (the “Debt Restructuring Agreement”). The Debt Restructuring Agreement was executed to address a November 16, 2005 loan to the Company by Sapphire of One Million Two Hundred Fifty-Nine Thousand Eight Hundred Sixty-Three U.S. Dollars (US\$1,259,863) with Five Percent (5%) interest calculated on an annualized basis pursuant a promissory note (“Promissory Note”). As of January 11, 2008, the balance due was One Million Three Hundred Eighty Eight Thousand Nine Hundred and Ninety Nine U.S. Dollars (US\$1,388,999). Sapphire agreed to terminate the Promissory Note and restructure its debt in exchange for the following consideration articulated in the Debt Restructuring Agreement:

- The Company agreed to pay Three Million Two Hundred Thousand South African Rand (R\$3,200,000) to Sapphire, an amount approximately equal to Four Hundred Sixty-Eight Thousand and Ninety Two U.S. Dollars (US\$468,092), in two installments. The first installment of One Million Two Hundred Thousand South African Rand (R\$1,200,000) was paid by the Company on January 11, 2008. The second installment of Two Million South African Rand (R\$2,000,000) was to be paid on or before January 31, 2008 but was extended pursuant to an agreement between the Company and Sapphire.
- The Company issued 26,699,950 restricted shares of the Company’s common stock (the “Shares”) to Sapphire in exchange for relief from \$533,999 of the debt underlying the Promissory Note.
- The Company, Sapphire and Fairhurst entered into a voting agreement concurrent with the Debt Restructuring Agreement (“Voting Agreement”).
- The Company issued a promissory note to Fairhurst for approximately \$400,000 without interest to mature on January 11, 2009.
- Each of Sapphire and Fairhurst executed mutual releases.

Edgar Filing: Novo Energies Corp - Form 10-K/A

- Fairhurst will ensure that Adam Mauerberger remain as the Chief Executive Officer of the Company until such time that a material merger or share exchange occurs (“Atlantic Corporate Event”).
- 19,960,000 shares of the Company’s common stock owned by Fairhurst (“Fairhurst Shares”) shall be transferred to Sapphire upon the earlier of the six-month anniversary date of the Debt Restructuring Agreement or the completion of an Atlantic Corporate Event.

On April 8, 2008, we issued a press release announcing that we had executed a letter of intent ("Letter of Intent") with Independence Energy Corporation, a privately held company located in Alberta, Canada (“IEC”), that set forth an agreement in principal for Atlantic to acquire all of IEC’s issued and outstanding common shares (“Acquisition”).

On May 5, 2008, the Board of Directors approved a 25:1 reverse stock split, which became effective May 19, 2008 due to IEC's inability to satisfy our due diligence concerns.

On July 8, 2008, we terminated the share exchange agreement that we had entered with IEC on May 16, 2008.

As described in the Company's notice mailed to its record shareholders on or about September 22, 2008, and as described in a current report filed with the U.S. Securities and Exchange Commission on September 22, 2008, holders of a majority of the Company's outstanding common stock executed a written consent in lieu of an Annual Meeting (the "Written Consent"), effecting an action to approve a material definitive agreement with Fairhurst Properties, S.A, known as the Split-Off Agreement, providing for the "Split-Off" of all of our interests in two wholly-owned subsidiaries, Mount Rozier Properties (Pty) Ltd. and Mount Rozier Estates (Pty) Ltd. These two former subsidiaries owned and operated all the assets of our now former business including a vineyard in the Stellenbosch region of Western Cape, South Africa consisting of 70.9 hectares of arable land for viticultural as well as residential and commercial purposes.

In exchange for our interests in these two subsidiaries, with assets of approximately \$2,123,688, as of June 30, 2008, Fairhurst Properties forgave debt of approximately \$350,000 and assume liabilities of approximately \$1,520,276, as of June 30, 2008. As part of the Split-Off and the assumption of the subsidiaries' liabilities, we transferred to Fairhurst our interest in intercompany loans and all amounts owed by the subsidiaries to us including, but not limited to, loans in the amount of approximately R12,521,900, or \$1,615,729, (as of March 31, 2008) to Mount Rozier Properties (Pty) Limited and approximately R8,500,431, or \$ 1,096,829, (as of March 31, 2008) to Mount Rozier Estates (Pty) Limited (the "Loans"). The Split-Off contemplated by the Split-Off Agreement occurred on the date of the Split-Off Agreement.

On September 22, 2009, the Company entered into a material definitive agreement with Fairhurst Properties, S.A. ("Fairhurst") which was finalized on October 7, 2008. Fairhurst is a company owned 100% by the Company's former principal shareholder and Chief Executive Officer. The spin-out agreement provides for the split-off of all of the Company's interests in two wholly owned subsidiaries, Mount Rozier Properties (Pty) Ltd. and Mount Rozier Estate (Pty) Ltd. located in South Africa. The wholly owned subsidiaries owned all of the assets of the Company. In exchange for all of the assets surrendered and spun-off, Fairhurst assumed all of the debt and obligations of the subsidiaries. Simultaneously, on October 7, 2008 a group of shareholders purchased approximately 50% of the outstanding shares (6,930,258 shares purchased) of the company in a private transaction for \$200,000 and Mr. Antonio Treminio became the Company's sole Director, Chief Executive Officer and Chief Financial Officer representing a change in control.

Effective October 6, 2008, Adam Mauerberger resigned as a member of our Board of Directors and as our President, Chief Executive Officer and Chief Financial Officer. The resignations of Mr. Mauerberger were not the result of any disagreement with us on any matter relating to our operations, policies or practices.

Effective October 6, 2008, our Board of Directors appointed Antonio Treminio as director and as our President, Chief Executive Officer and Chief Financial Officer, filling the vacancies that existed as a result of Mr. Mauerberger's resignation. The appointments of Mr. Treminio were not pursuant to any agreement or understanding between Mr. Treminio and any third party.

On May 1, 2009, the Company issued 3,000,000 shares of its common stock to Andre L'Heureux as President of the Company in connection with his employment contract. The shares vest at the rate of 83,333 per month over a three year period. The shares were valued at \$0.10 per share utilizing May 1, 2009 as the measurement date. Accordingly, stock based compensation in the amount of \$91,667 has been recognized in the financial statements. On October 21, 2009, Mr. L'Heureux resigned as President and became Chief Technical Officer.

On May 1, 2009, the Company entered into a consulting agreement with JMR Holdings, Inc. to assist the Company in developing a business strategy, an acquisition strategy, and a sales and marketing strategy. In connection with the agreement, the Company issued 3,000,000 shares of its common stock at \$0.10 per share utilizing May 1, 2009 as the measurement date which are to vest at the rate of 83,333 per month over a three year period. The above agreement was amended on December 1, 2009 with immediate vesting of all issued shares. Accordingly, stock based compensation in the amount of \$300,000 has been recognized in the financial statements.

On May 1, 2009, the Company entered into an agreement with Jeffrey Wolin to provide managerial consulting services. In connection with the agreement, the Company issued 450,000 shares which will vest at the rate of 12,500 shares per month. The shares were valued at \$0.10 per share utilizing May 1, 2009 as the measurement date. On December 1, 2009, this agreement was amended to award 50,000 shares per month effective January 1, 2010. The additional shares were valued at \$0.30 per share utilizing December 1, 2009 as the measurement date. Mr. Wolin shall now receive a total of 1,575,000 shares over the entire 3 year duration of the contract. Accordingly, stock based compensation in the amount of \$47,500 has been recognized.

On May 1, 2009, the Company entered into an agreement with William Rosenstadt and Steven Sanders, the firm's legal counsel, to assist the Company in developing business strategy, acquisition strategy, sales and marketing strategies, and other services mutually agreed to between the parties and the Company. The agreement calls for the issuance of 499,038 shares of common stock for the period May 1, 2009 to April 30, 2010. As of March 31, 2010, 450,000 shares have been issued at \$0.10 per share utilizing May 1, 2009 as the measurement date. Accordingly, stock based compensation in the amount of \$44,928 has been recognized in the financial statements. On July 2, 2010, a resolution was approved by the Company to issue the balance of the shares. See Note N-Subsequent Events.

On May 1, 2009, the Company entered into a three year consulting agreement with ELSO Investment Corporation to assist the Company in developing an acquisition strategy and structure outside North America and other services mutually agreed to by the Company and ELSO Investment Corporation. In connection with the agreement, the Company issued 900,000 shares of its common stock valued at \$0.10 per share utilizing May 1, 2009 as the measurement date. The shares vest at the rate of 25,000 shares per month. On December 19, 2009, this agreement was amended with immediate vesting of all issued shares. The Chief Executive Officer of the company has a beneficial ownership interest in ELSO Investment Corporation. Accordingly, stock based compensation in the amount of \$90,000 has been recognized. On May 1, 2010, this agreement was cancelled and all shares were returned to the Company.

On June 8, 2009, the Board of Directors approved the change of name to "Novo Energies Corporation". As described in the Company's notice to be mailed to its record holders, and as described in a current report filed with the U.S. Securities and Exchange Commission on June 26, 2009, a majority of shareholders executed a written consent in lieu of an Annual Meeting (the "Written Consent") effecting the change of the name of our business from "Atlantic Wine Agencies, Inc." to "Novo Energies Corporation" on June 8, 2009 to better reflect what we intend to be our future operations. We filed an amendment to our Articles of Incorporation on June 8, 2009 with the Florida Secretary of State to affect this name change after receiving the requisite corporate approval for the name change.

On June 23, 2009, the Board of Directors approved a 3-for-1 forward stock split. Accordingly, all share and per share amounts have been retroactively adjusted in the accompanying financial statements.

In connection with our name change and the forward stock split, we were issued a new symbol on FINRA's Over-the-Counter Bulletin Board. Shares of our common stock are now quoted on the Over-the-Counter Bulletin Board under the symbol "NVNC".

On July 1, 2009, the Company entered into a consulting agreement with The Group Marcel Tremblay to provide consulting services relating to sales and business strategies. In connection with the agreement, the Company will issue 25,000 shares of its common stock at \$1.00 per share utilizing July 1, 2009 as the measurement date which will vest at the rate of 2,083 per month over a 12 month period. On July 1, 2009, the Company issued 200,000 warrants valued at \$0.982 per warrant to be vested over a 12 month period at 16,366 per month. On February 1, 2010, the Company modified the agreement canceling the warrants and issuing 360,000 shares of its common stock to be vested over a 36 month period retroactive to July 1, 2009. The incremental value between the fair value of the shares at the measurement date of February 1, 2010 and the fair value of the warrant cancelled was \$0.16 per share and

accordingly, stock based compensation in the amount of \$136,439 has been recorded in the financial statements. On May 15, 2010, the Company terminated this contract.

On July 1, 2009, the Company entered into a consulting agreement with Jenkins Hill International and its CEO, former US Congressman W. Curt Weldon, to provide business and sales strategies. In connection with the agreement, the Company issued 250,000 shares of its common stock valued at \$1.00 per share utilizing July 1, 2009 as the measurement date which will vest at the time of issue. Accordingly, stock based compensation in the amount of \$250,000 has been recognized in the financial statements.

On July 1, 2009, the Company entered into a consulting agreement with Faisal Farooq Butt to provide consulting service relating to corporate strategies as well as sales and marketing strategies for the period July 1, 2009 to December 31, 2010. In connection with the agreement, the company will provide a retainer of \$3,000 per month effective July 1, 2009 and \$4,500 per month when the Company completes a successful private placement in excess of \$3,000,000. The agreement also provides for the issuance of 200,000 shares of the Company's common stock to vest pro rata over 18 months. On December 1, 2009, this contract was amended to award 50,000 shares per month effective January 1, 2010 and the contract was extended for an additional 30 months. Mr. Butt will now receive a total of 1,566,666 shares over the term of the contract.

On July 8, 2009, the Company sold, under a private placement agreement, 229,000 units consisting of one share of common stock and one warrant for every two shares sold. The units were sold at \$0.35 per unit resulting in \$80,150 paid to the Company. The warrants were valued at \$.028 per unit and classified as additional paid in capital.

On July 10, 2009, the Company entered into an employment agreement with its Chief Executive Officer with an effective date of September 22, 2008, which can be terminated by either party for any reason at will. The agreement calls for a monthly salary of \$10,000. The Chief Executive Officer is entitled to incentive stock options based upon performance goals. On June 18, 2010, the Company amended the agreement to award 1,200,000 shares of its common stock to be vested over the succeeding 24 months.

On July 10, 2009, we filed a Form 8-A with the U.S. Securities and Exchange Commission. By filing this form, the Company has elected to register its shares with the U.S. Securities and Exchange Commission pursuant to Section 12(b) or (g) of the Securities Exchange Act of 1934 in connection with Registration No. 333-63432 filed on September 25, 2001.

On July 30, 2009, the Company formed its first wholly owned subsidiary - WTL Renewable Energy, Inc. ("WTL"). WTL was established as a Canadian Federal Corporation whose business is to initially research available technologies capable of transforming plastic and tires into useful energy commodities. Simultaneously, WTL also intends to plan, build, own, and operate renewable energy plants throughout Canada now utilizing an MSHG technology and using plastic and tire waste as feedstock.

Effective August 15, 2009, the Company entered into a consulting agreement with Rubenstein Investor Relations, Inc. to provide consulting services with respect to matters concerning the financial and investment communities for a minimum of six months. In addition to a monthly fee, the Company issued 200,000 five year warrants, exercisable at \$0.40 per share. The warrants were valued using a Black-Scholes Option pricing model at \$0.271 per share and accordingly, stock based compensation in the amount of \$54,118 has been recognized.

Effective October 23, 2009, the Company entered into an employment agreement with Hakim Zahar as the President of the Company. The agreement calls for base salary of \$10,000 per month with first payment starting November 15, 2009. The executive shall receive a minimum of 50,000 shares of the Company's common stock per month starting on the effective date of this agreement. This agreement can be terminated by either party at will and has been terminated on May 29, 2010 retroactive to February 15, 2011. Mr. Zahar is asserting that his remuneration should be paid to date of termination.

On November 1, 2009, the company entered into a consulting agreement with Philippe Germaine to provide consulting services in the area of Investor Relations. In connection with the agreement, the Company was to provide a monthly retainer of \$3,000 per month, and issue 15,000 of its common shares per month. Effective June 15, 2010, the contract has been terminated.

Edgar Filing: Novo Energies Corp - Form 10-K/A

On November 1, 2009, the Company issued a \$242,000 promissory note to Caete Invest Trade, S.A. maturing on October 31, 2010. The note bears interest at the rate of 10% per annum and is payable at maturity. The Company's Chief Executive Officer has a beneficial ownership interest in Caete Invest Trade, S.A. The face amount of the note plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the

volume weighted average price (“VWAP”) of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing “VWAP” of common stock during the five days prior to the conversion date. The Company, in accordance with EITF 98-5 and 00-27, utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$36,300 which is being accreted monthly from the issuance date of the promissory note through maturity and is being recorded as additional interest expense. On February 4, 2010, \$62,428 of the loan was repaid. Accordingly, at March 31, 2010, the loan balance is \$163,215 net of the discount \$16,357 and amortized discount of \$26,993 which has been charged to interest expense and includes a \$7,050 loss on early repayment of principal. On June 30, 2010, the Company modified the conversion feature to be convertible into common stock at a fixed price of \$0.10 per share. See Note N of the financial statements entitled Subsequent Events.

#### Present

Novo Energies Corporation (“Novo”) intends to own and operate recycling plants that will efficiently, economically, environmentally and profitably recycle scrap tires and plastics into energy and other commodities. The core of Novo’s technology to recycle tires and plastics into energy is a Multi Stage Hybrid Gasification System (“MSHG”), which undertakes the conversion of carbonaceous feedstock to a gaseous end-product with an upgraded heating value in an environmentally friendly manner, which does not involve combustion or any other reagents or other pollutants. As an interim step of Novo’s process, Novo will transform scrap tires and plastics into Synthesis gas (syngas), which then is used as a fuel for engines and turbines to produce electricity. The syngas may also be converted into transportation fuel or fuel additives using a standard catalyst-based process such as Fischer-Tropsch.

On January 21, 2010, the Company owed its Chief Executive Officer approximately \$376,560 for salary and expenditures paid by him on behalf of the company. The company and its Chief Executive Officer agreed to formalize a portion of the debt and issued a \$172,364 promissory note maturing on January 21, 2012. The note bears interest at the rate of 10% per annum and is payable at maturity. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price (“VWAP”) of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing “VWAP” of common stock during the five days prior to the conversion date. The Company in accordance with EITF 98-5 and 00-27 utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$25,855 which will be accreted monthly from the issuance date of the promissory note through maturity and will be recorded as additional interest expense. Accordingly, at March 31, 2010, the loan has been recorded at \$148,782, net of the discount \$23,582, which will be credited to additional paid in capital. On June 30, 2010, the Company modified the conversion feature to be convertible into common stock at a fixed price of \$0.10 per share. See Note N of the financial statements entitled Subsequent Events.

On January 26, 2010, the Company issued at par, a \$500,000 Secured Convertible Debenture maturing on January 26, 2011. The debenture bears interest at the rate of 10% per annum and is payable monthly. The Company has granted a security interest in substantially all of the assets of the Company as collateral for the debenture. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price (“VWAP”) of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing “VWAP” of common stock during the five days prior to the conversion date. Additionally, the Company issued commitment shares totaling 6,085,193 equivalent to \$1,500,000 at the closing date to obtain the loan. The Company in accordance with APB 14 utilized the Market Approach to value the debt instrument and allocated the net proceeds from the issuance of the debenture based upon

the pro rata portion of the face value of the debentures and the undiscounted value of the commitment shares. Additionally, 15% of the Debenture was allocated to a beneficial conversion feature in accordance with EITF 98-5 and EITF 00-27. The Company concluded that the 15% discount created a beneficial conversion feature at the commitment date since the effective conversion price of the shares was less than the stock price at the commitment date. The beneficial conversion feature and the pro rata value of the commitment shares aggregated \$395,521 which will be accreted monthly from the issuance date of the Debenture through maturity and will be

recorded as additional interest expense. Accordingly, at March 31, 2010, the loan has been recorded at \$138,169, net of the discount \$361,831 which was credited to additional paid in capital.

Between October 22, 2009 and November 4, 2009, the Company sold, under private placement agreements to four different individuals, 159,929 units consisting of one share of common stock and one warrant for every two shares sold. The units were sold at \$0.35 per unit resulting in \$55,975 proceeds to the Company. The warrants were valued at approximately \$.12 per unit using a Black-Scholes Option pricing model and classified as additional paid in capital.

On November 1, 2009, the company entered into a consulting agreement with Philippe Germaine to provide investor relations and consulting services. In connection with the agreement, the Company will pay a monthly retainer of \$3,000 per month, and issue 15,000 shares of its common stock per month. In addition, Mr. Germaine received a cash signing bonus of \$9,000. In connection with the agreement, stock based compensation in the amount of \$30,750 was recorded utilizing the measured date of November 1, 2009.

On January 21, 2010, the Company approved a resolution to convert \$124,960 of professional and consulting fees to common stock valued at \$0.21 per share. Additionally, the Chief Executive Officer converted unpaid salaries and expenses paid on behalf of the Company of \$170,000, to common stock valued at \$0.21 per share.

On January 26, 2010, the Company entered into a secured convertible debenture maturing on January 26, 2011. In connection with the debenture issuance, the Company issued 6,085,193 shares of its common stock valued at \$368,750. See Note H of the financial statements entitled Convertible Debenture.

On February 3, 2010, the Company entered into a new material supply contract with Royal Mat, Inc. to provide tire derived fuel chips for a plant to be built in Quebec, Canada. The initial term of the contract will be from the startup date of the plant scheduled for the fourth quarter of 2010 until December 2011. The term could be extended for an additional three year term. Royal Mat, Inc. will receive \$45 per ton.

On March 30, 2010, the Company cancelled its agreement with Colorado Tire Recycling, LLC. In connection with the contract cancellation, the Company issued 500,000 shares of its common stock valued at \$0.23 per share utilizing March 30, 2010 as the measurement date, aggregating \$115,000. This was recorded as stock based compensation in the financial statements.

At March 31, 2010, 1,067,452, common shares are included in outstanding shares which have not yet been issued by the Company.

#### Subsequent Events

On May, 15, 2010, the Company entered into a consulting agreement with Pierre Paffenhoff to assist the company in developing a business strategy, an acquisition, strategy, developing sales and marketing strategies and other services. The consultant will be paid \$1,500 per month. The agreement can be terminated on a 15 day notice by either party. The consultant will also be paid in cash 10% of proceeds from an equity or debt financing whereby he introduced the arrangement to the Company and 3% of the shares to be issued in any equity financing.

On May 28, 2010, the Company entered into a Technology Co-operation Agreement with Novo Energies International, Ltd. (NEI) that permits NEI to utilize the Company's technology and know-how for the sole purpose of building and operating facilities at NEI's expense that incorporate all or any portion of the Company's technology throughout the entire world except for all of the countries within North America, Central America and South America for a term of 10 years which may be renewed for an additional 10 year term. As consideration for the know-how and other technical information, the Company will receive 12.5% of NEI's issued and outstanding shares with anti-dilution

rights. Such anti-dilution rights shall expire when NEI raises a minimum of 3,000,000 British pounds. In connection with the agreement, the Company's Chief Executive Officer, Antonio Treminio, and the Company's Interim President, Faisal Farooq Butt were appointed as Directors to NEI's Board of Directors and each received 3.6% and 2%, respectively, of NEI's common stock.

On June 1, 2010, Faisal Farooq Butt was appointed interim President of the Company.

On June 18, 2010, the Company, through a private placement offering, sold 1,100,000 units of its common stock at \$0.10 per unit for a total of \$110,000. Each unit consists of one share of the Company's common stock.

On June 18, 2010, the Company amended the Chief Executive's employment contract whereby he will receive 1,200,000 shares of Company common stock and vest at the rate of 50,000 shares per month over a 24 month period commencing June 18, 2010.

On June 30, 2010, the Company amended its promissory note to Caete Invest Trade S.A. issued on November 1, 2009. Under the terms of the modification, the note is now convertible into common stock of the Company at a fixed price of \$0.10 per share.

On June 30, 2010, the Company amended its promissory note payable to the Chief Executive Officer issued on January 21, 2010. Under the terms of the modification, the note is now convertible into common stock of the Company at a fixed price of \$0.10 per share.

On July 2, 2010, the Board approved the issuance of 49,038 shares of its common stock to William Rosenstadt and Steven Sanders to comply with the consulting agreement dated May 1, 2009.

While the payment of dividends rests within the discretion of the Board of Directors, it is not anticipated that cash dividends will be paid in the foreseeable future, as the Company intends to retain earnings, if any, for use in the development of its business. The payment of dividends is contingent upon the Company's future earnings, if any, the Company's financial condition and its capital requirements, general business conditions and other factors.

(d) No shares were available for issuance under any equity compensation plan at March 31, 2010.

#### ITEM 6. SELECTED FINANCIAL DATA

As a smaller reporting company, the Company is not required to provide this information.

#### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

##### CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

It should be noted that this Management's Discussion and Analysis of Financial Condition and Results of Operations may contain "forward-looking statements." The terms "believe," "anticipate," "intend," "goal," "expect," and similar expressions may identify forward-looking statements. These forward-looking statements represent the Company's current expectations or beliefs concerning future events. The matters covered by these statements are subject to

certain risks and uncertainties that could cause actual results to differ materially from those set forth in the forward-looking statements, including the Company's dependence on weather-related factors, introduction and customer acceptance of new products, the impact of competition and price erosion, as well as supply and manufacturing restraints and other risks and uncertainties. The foregoing list should not be construed as exhaustive, and the Company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements, or to reflect the occurrence of anticipated or unanticipated events. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation that the strategy, objectives or other plans of the Company will be achieved. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

#### Going Concern

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$3,260,084 since inception of the development stage and has negative working capital of \$681,461. Management's plans include the raising of capital through equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate adequate revenues, there can be no assurances that the revenues will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company's ability to continue as a going concern. However, the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

#### Subsequent Events

On May, 15, 2010, the Company entered into a consulting agreement with Pierre Paffenhoff to assist the company in developing a business strategy, an acquisition, strategy, developing sales and marketing strategies and other services. The consultant will be paid \$1,500 per month. The agreement can be terminated on a 15 day notice by either party. The consultant will also be paid in cash 10% of proceeds from an equity or debt financing whereby he introduced the arrangement to the Company and 3% of the shares to be issued in any equity financing.

On May 28, 2010, the Company entered into a Technology Co-operation Agreement with Novo Energies International, Ltd. (NEI) that permits NEI to utilize the Company's technology and know-how for the sole purpose of building and operating facilities at NEI's expense that incorporate all or any portion of the Company's technology throughout the entire world except for all of the countries within North America, Central America and South America for a term of 10 years which may be renewed for an additional 10 year term. As consideration for the know-how and other technical information, the Company will receive 12.5% of NEI's issued and outstanding shares with anti-dilution rights. Such anti-dilution rights shall expire when NEI raises a minimum of 3,000,000 British pounds. In connection with the agreement, the Company's Chief Executive Officer and the Company's Interim President, Faisal Farooq Butt were appointed as Directors to NEI's Board of Directors and each received 3.6% and 2%, respectively, of NEI's common stock.

On June 1, 2010, Faisal Farooq Butt was appointed interim President of the Company.

On June 18, 2010, the Company, through a private placement offering, sold 1,100,000 units of its common stock at \$0.10 per unit for a total of \$110,000. Each unit consists of one share of the Company's common stock.

On June 18, 2010, the Company amended the Chief Executive's employment contract whereby he will receive 1,200,000 shares of Company common stock and vest at the rate of 50,000 shares per month over a 24 month period commencing June 18, 2010.

On June 30, 2010, the Company amended its promissory note to Caete Invest Trade S.A. issued on November 1, 2009. Under the terms of the modification, the note is now convertible into common stock of the Company at a fixed price of \$0.10 per share.

On June 30, 2010, the Company amended its promissory note payable to the Chief Executive Officer issued on January 21, 2010. Under the terms of the modification, the note is now convertible into common stock of the Company at a fixed price of \$0.10 per share.

On July 2, 2010, the Board approved the issuance of 49,038 shares of its common stock to William Rosenstadt and Steven Sanders to comply with the consulting agreement dated May 1, 2009.

## RESULTS OF OPERATIONS

Operating costs for the year ended March 31, 2010 aggregated \$2,935,831 or (\$0.14) per share as compared to \$324,253 or (\$0.03) per share for the year ended March 31, 2009.

## LIQUIDITY AND CAPITAL RESOURCES

For the year ended March 31, 2010, net loss aggregated \$2,935,831. For the year ended March 31, 2010, (\$715,934) was used in operating activities, (\$10,986) was used in investing activities and \$807,366 was provided by financing activities.

For the year ended March 31, 2009, net income aggregated (\$334,867), with no net cash used by operating activities, investing activities or financing activities.

## SIGNIFICANT ACCOUNTING POLICIES

### Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Foreign Currency Translation

The Company considers the Canadian dollar to be its functional currency. Assets and liabilities were translated into US dollars at year-end exchange rates. Statement of operations amounts were translated using the average rate during the year. Gains and losses resulting from translating foreign currency financial statements were included in accumulated other comprehensive gain or loss, a separate component of stockholders' deficit.

### Cash Equivalents

For purposes of reporting cash flows, cash equivalents include investment instruments purchased with an original maturity of three months or less. There were no cash equivalents in 2010 or 2009.

### Equipment and Depreciation

Equipment is stated at cost and is depreciated using the double declining balance method over the estimated useful lives of the respective assets. Routine maintenance, repairs and replacement costs are expensed as incurred and improvements that extend the useful life of the assets are capitalized. When equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is recognized in operations.

## Consolidated Financial Statements

The financial statements include the accounts and activities of Novo Energies Corporation and its wholly-owned Canadian subsidiary, WTL Renewable Energies, Inc. All inter-company transactions have been eliminated in consolidation.

## Net Loss Per Common Share

The Company computes per share amounts in accordance with ASC Topic 260 Earnings per Share (EPS) which requires presentation of basic and diluted EPS. Basic EPS is computed by dividing the income (loss) available to Common Stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of Common Stock and Common Stock equivalents outstanding during the periods. A fully diluted calculation was not presented since the results would be anti-dilutive. During the period ended March 31, 2010, unvested common shares of 2,439,587 issued for future consulting and implement contracts were excluded from EPS calculations as they were not considered issued for accounting purposes.

## Stock Based Compensation

The Company accounts for stock issued for services in accordance with Topic ASC 718 Compensation-Stock Compensation (formerly SFAS No. 123R "Share Based Payments"). Under this topic, the Black-Scholes pricing model is used to estimate the fair value of options and warrants issued. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based upon the fair value of the equity instruments issued.

## Comprehensive Income

The Company adopted ASC 220-10, Reporting Comprehensive Income, (formerly SFAS No. 130). ASC 220-10 requires the reporting of comprehensive income in addition to net income from operations.

Comprehensive income is a more inclusive financial reporting methodology that includes disclosure of information that historically has not been recognized in the calculation of net income.

## Fair Value of Financial Instruments

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. For the loans payable, the carrying amount reported is based upon the incremental borrowing rates otherwise available to the Company for similar borrowings.

## Income Taxes

The Company accounts for income taxes utilizing the liability method of accounting. Under the liability method, deferred taxes are determined based on differences between financial statement and tax bases of assets and liabilities at enacted tax rates in effect in years in which differences are expected to reverse. Valuation allowances are established, when necessary, to reduce deferred tax assets to amounts that are expected to be realized.

### Impairment of Long-Lived Assets

Long-lived assets, primarily fixed assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. The Company does perform a periodic assessment of assets for impairment in the absence of such information or indicators. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset, a significant change in the extent or manner in which an asset is used, or a significant adverse change that would

indicate that the carrying amount of an asset or group of assets is not recoverable. For long-lived assets to be held and used, the Company recognizes an impairment loss only if its carrying amount is not recoverable through its undiscounted cash flows and measures the impairment loss based on the difference between the carrying amount and estimated fair value.

#### Fair Value Measurements

In September 2006, ASC issued 820, Fair Value Measurements. ASC 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements.

In February 2007, ASC issued 825-10 The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of ASC 320-10, ("ASC 825-10") which permits entities to choose to measure many financial instruments and certain other items at fair value at specified election dates. A business entity is required to report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date.

#### Uncertainty in Income Taxes

The Company follows ASC 740-10 Accounting for Uncertainty in Income Taxes ("ASC 740-10"). This interpretation requires recognition and measurement of uncertain income tax positions using a "more-likely-than-not" approach. ASC 740-10 is effective for fiscal years beginning after December 15, 2006. Management has adopted ASC 740-10 for 2009, and they evaluate their tax positions on an annual basis, and have determined that as of March 31, 2010, no additional accrual for income taxes other than the federal and state provisions and related interest and estimated penalty accruals are considered necessary.

#### Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-02, Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary. This amendment to Topic 810 clarifies, but does not change, the scope of current US GAAP. It clarifies the decrease in ownership provisions of Subtopic 810-10 and removes the potential conflict between guidance in that Subtopic and asset derecognition and gain or loss recognition guidance that may exist in other US GAAP. An entity will be required to follow the amended guidance beginning in the period that it first adopts FAS 160 (now included in Subtopic 810 - 10). For those entities that have already adopted FAS 160, the amendments are effective at the beginning of the first interim or annual reporting period ending on or after December 15, 2009. The amendments should be applied retrospectively to the first period that an entity adopted FAS 160. The adoption of the provisions of ASU 2010-02 did not have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB issued Accounting Standards Update 2010-01, Equity (Topic 505): Accounting for Distributions to Shareholders with Components of Stock and Cash (A Consensus of the FASB Emerging Issues Task Force). This amendment to Topic 505 clarifies the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock when a limit on the amount of cash that will be distributed is not a stock dividend for purposes of applying Topics 505 and 260 effective for interim and annual periods ending on or after December 15, 2009, and would be applied on a retrospective basis. The adoption of ASU 2010-01 did not have a material effect on the financial position, results of operations or cash flows of the Company.

In September 2009, the FASB issued Update No. 2009-13, Multiple-Deliverable Revenue Arrangements—a consensus of the FASB Emerging Issues Task Force (ASU 2009-13). It updates the existing multiple-element revenue arrangements guidance currently included under ASC 605-25, which originated primarily from the guidance in EITF Issue No. 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21). The revised guidance primarily provides two significant changes: 1) eliminates the need for objective and reliable evidence of the fair value for the undelivered element in order for a delivered item to be treated as a separate unit of accounting, and 2) eliminates the residual method to allocate the arrangement consideration. In addition, the guidance also expands the disclosure requirements for revenue recognition. ASU 2009-13 will be effective for the first annual reporting period

beginning on or after June 15, 2010, with early adoption permitted provided that the revised guidance is retroactively applied to the beginning of the year of adoption. The Company does not expect this guidance to have an impact on the Company's financial statements.

Effective July 1, 2009, the Company adopted FASB ASU No. 2009-05, Fair Value Measurements and Disclosures (Topic 820) ("ASU 2009-05"). ASU 2009-05 provided amendments to ASC 820-10, Fair Value Measurements and Disclosures – Overall, for the fair value measurement of liabilities. ASU 2009-05 provides clarification that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using certain techniques. ASU 2009-05 also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of a liability. ASU 2009-05 also clarifies that both a quoted price in an active market for the identical liability at the measurement date and the quoted price for the identical liability when traded as an asset in an active market when no adjustments to the quoted price of the asset are required are Level 1 fair value measurements. Adoption of ASU 2009-05 did not have a material impact on the Company's results of operations or financial condition.

Effective June 30, 2009, the Company adopted three accounting standard updates which were intended to provide additional application guidance and enhanced disclosures regarding fair value measurements and impairments of securities. They also provide additional guidelines for estimating fair value in accordance with fair value accounting. The first update, as codified in ASC 820-10-65, provides additional guidelines for estimating fair value in accordance with fair value accounting. The second accounting update, as codified in ASC 320-10-65, changes accounting requirements for other-than-temporary-impairment (OTTI) for debt securities by replacing the current requirement that a holder have the positive intent and ability to hold an impaired security to recovery in order to conclude an impairment was temporary with a requirement that an entity conclude it does not intend to sell an impaired security and it will not be required to sell the security before the recovery of its amortized cost basis. The third accounting update, as codified in ASC 825-10-65, increases the frequency of fair value disclosures. These updates were effective for fiscal years and interim periods ended after June 15, 2009. The adoption of these accounting updates did not have a material impact on the Company's financial statements.

Effective June 30, 2009, the Company adopted a new accounting standard for subsequent events, as codified in ASC 855-10. The update modifies the names of the two types of subsequent events either as recognized subsequent events (previously referred to in practice as Type I subsequent events) or non-recognized subsequent events (previously referred to in practice as Type II subsequent events). In addition, the standard modifies the definition of subsequent events to refer to events or transactions that occur after the balance sheet date, but before the financial statements are issued (for public entities) or available to be issued (for nonpublic entities). The update did not result in significant changes in the practice of subsequent event disclosures, and therefore the adoption did not have a material impact on the Company's financial statements.

Effective January 1, 2009, the Company adopted an accounting standard update regarding the determination of the useful life of intangible assets. As codified in ASC 350-30-35, this update amends the factors considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under intangibles accounting. It also requires a consistent approach between the useful life of a recognized intangible asset under prior business combination accounting and the period of expected cash flows used to measure the fair value of an asset under the new business combinations accounting (as currently codified under ASC 850). The update also requires enhanced disclosures when an intangible asset's expected future cash flows are affected by an entity's intent and/or Company's financial statements.

Effective January 1, 2009, the Company adopted a new accounting standard update regarding business combinations. As codified under ASC 805, this update requires an entity to recognize the assets acquired, liabilities assumed,

contractual contingencies, and contingent consideration at their fair value on the acquisition date. It further requires that acquisition-related costs be recognized separately from the acquisition and expensed as incurred; that restructuring costs generally be expensed in periods subsequent to the acquisition date; and that changes in accounting for deferred tax asset valuation allowances and acquired income tax uncertainties after the measurement period be recognized as a component of provision for taxes. The adoption did not have a material impact on the Company's financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors  
Novo Energies Corporation  
Montreal, Canada

We have audited the accompanying balance sheets of Novo Energies Corporation and Subsidiary (a Development Stage Corporation) as of March 31, 2010 and 2009 and the related statements of operations, stockholders' deficit, and cash flows for each of the years in the two-year period ended March 31, 2010 and for the period October 7, 2008 (inception of Development Stage) to March 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Novo Energies Corporation and Subsidiary (a Development Stage Corporation) as of March 31, 2010 and 2009, and the results of its operations and its cash flows for each of the years in the two-year period ended March 31, 2010 and for the period October 7, 2008 (inception of Development Stage) to March 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note A to the financial statements, the Company incurred a net loss from continuing operations of \$3,260,084 in the year ended March 31, 2010 and had negative working capital of \$681,461 at March 31, 2010, and there are existing uncertain conditions the Company faces relative to its' ability to obtain capital and operate successfully. These conditions raise substantial doubt about its' ability to continue as a going concern. Management's plans regarding these matters are also described in Note A. The financial statements do not include any adjustments that may result from the outcome of this uncertainty.

NOVO ENERGIES CORPORATION AND SUBSIDIARY  
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2010

NOTE A - NATURE OF BUSINESS, GOING CONCERN, AND PRESENTATION

Nature of Business

Novo Energies Corporation (“Novo”) intends to own and operate recycling plants that will efficiently, economically, environmentally and profitably recycle scrap tires and plastics into energy and other commodities. The core of Novo’s technology to recycle tires and plastics into energy is a Multi Stage Hybrid Gasification System (“MSHG”), which undertakes the conversion of carbonaceous feedstock to a gaseous end-product with an upgraded heating value in an environmentally friendly manner, which does not involve combustion or any other reagents or other pollutants. As an interim step of Novo’s process, Novo will transform scrap tires and plastics into Synthesis gas (syngas), which then is used as a fuel for engines and turbines to produce electricity. The syngas may also be converted into transportation fuel or fuel additives using a standard catalyst-based process such as Fischer-Tropsch.

Novo formerly known as Atlantic Wine Agencies, Inc. (“Atlantic”) is organized under the laws of the State of Florida. Atlantic had vineyards and a winery in South Africa. The operations of Atlantic were spun-out to the stockholders in September 2008, and a change of control occurred on October 7, 2008 at which time the Company considered itself a Development Stage Company. The Company changed its name to Novo Energies Corporation on June 8, 2009.

On July 30, 2009, the Company formed its first wholly owned subsidiary - WTL Renewable Energy, Inc. (“WTL”). WTL was established as a Canadian Federal Corporation whose business is to initially research available technologies capable of transforming plastic and tires into useful energy commodities. Simultaneously, WTL also intends to plan, build, own, and operate renewable energy plants throughout Canada now utilizing an MSHG technology and using plastic and tire waste as feedstock.

Effective July 1, 2009, the Company adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 105-10 Generally Accepted Accounting Principles-Overall (“ASC 105-10”). ASC 105-10 establishes the FASB Accounting Standards Codification (the “Codification”) as the source of authoritative accounting principles recognized by the FASB to be applied to nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification superseded all existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The FASB will not issue new standards in the form of Statements, FASB Positions or Emerging Issue Task Force Abstracts. Instead, it will issue Accounting Standards Updates (“ASUs”). The FASB will not consider ASUs as authoritative in their own right. ASUs will serve only to update the Codification, provide background information about the guidance and provide the basis for conclusions on the change(s) in the Codification. References made to FASB guidance throughout this document have been updated for the Codification.

Going Concern

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$3,260,084 since inception of the development stage and has negative working capital of \$681,461. Management’s

plans include the raising of capital through equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and

generate adequate revenues, there can be no assurances that the revenues will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company's ability to continue as a going concern. However, the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign Currency Translation

The Company considers the Canadian dollar to be its functional currency. Assets and liabilities were translated into US dollars at year-end exchange rates. Statement of operations amounts were translated using the average rate during the year. Gains and losses resulting from translating foreign currency financial statements were included in accumulated other comprehensive gain or loss, a separate component of stockholders' deficit.

Cash Equivalents

For purposes of reporting cash flows, cash equivalents include investment instruments purchased with an original maturity of three months or less. There were no cash equivalents in 2010 or 2009.

Equipment and Depreciation

Equipment is stated at cost and is depreciated using the double declining balance method over the estimated useful lives of the respective assets. Routine maintenance, repairs and replacement costs are expensed as incurred and improvements that extend the useful life of the assets are capitalized. When equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is recognized in operations.

Consolidated Financial Statements

The financial statements include the accounts and activities of Novo Energies Corporation and its wholly-owned Canadian subsidiary, WTL Renewable Energies, Inc. All inter-company transactions have been eliminated in consolidation.

NOVO ENERGIES CORPORATION AND SUBSIDIARY  
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2010

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Loss Per Common Share

The Company computes per share amounts in accordance with ASC Topic 260 Earnings per Share (EPS) which requires presentation of basic and diluted EPS. Basic EPS is computed by dividing the income (loss) available to Common Stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of Common Stock and Common Stock equivalents outstanding during the periods. A fully diluted calculation was not presented since the results would be anti-dilutive. During the period ended March 31, 2010, unvested common shares of 2,439,587 issued for future consulting and implement contracts were excluded from EPS calculations as they were not considered issued for accounting purposes.

Stock Based Compensation

The Company accounts for stock issued for services in accordance with Topic ASC 718 Compensation-Stock Compensation (formerly SFAS No. 123R "Share Based Payments"). Under this topic, the Black-Scholes pricing model is used to estimate the fair value of options and warrants issued. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based upon the fair value of the equity instruments issued.

Comprehensive Income

The Company adopted ASC 220-10, Reporting Comprehensive Income, (formerly SFAS No. 130). ASC 220-10 requires the reporting of comprehensive income in addition to net income from operations.

Comprehensive income is a more inclusive financial reporting methodology that includes disclosure of information that historically has not been recognized in the calculation of net income.

Fair Value of Financial Instruments

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. For the loans payable, the carrying amount reported is based upon the incremental borrowing rates otherwise available to the Company for similar borrowings.

Income Taxes

The Company accounts for income taxes utilizing the liability method of accounting. Under the liability method, deferred taxes are determined based on differences between financial statement and tax bases of

assets and liabilities at enacted tax rates in effect in years in which differences are expected to reverse. Valuation allowances are established, when necessary, to reduce deferred tax assets to amounts that are expected to be realized.

NOVO ENERGIES CORPORATION AND SUBSIDIARY  
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2010

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of Long-Lived Assets

Long-lived assets, primarily fixed assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. The Company does perform a periodic assessment of assets for impairment in the absence of such information or indicators. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset, a significant change in the extent or manner in which an asset is used, or a significant adverse change that would indicate that the carrying amount of an asset or group of assets is not recoverable. For long-lived assets to be held and used, the Company recognizes an impairment loss only if its carrying amount is not recoverable through its undiscounted cash flows and measures the impairment loss based on the difference between the carrying amount and estimated fair value.

Fair Value Measurements

In September 2006, ASC issued 820, Fair Value Measurements. ASC 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements.

In February 2007, ASC issued 825-10 The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of ASC 320-10, ("ASC 825-10") which permits entities to choose to measure many financial instruments and certain other items at fair value at specified election dates. A business entity is required to report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date.

Uncertainty in Income Taxes

The Company follows ASC 740-10 Accounting for Uncertainty in Income Taxes ("ASC 740-10"). This interpretation requires recognition and measurement of uncertain income tax positions using a "more-likely-than-not" approach. ASC 740-10 is effective for fiscal years beginning after December 15, 2006. Management has adopted ASC 740-10 for 2009, and they evaluate their tax positions on an annual basis, and have determined that as of March 31, 2010, no additional accrual for income taxes other than the federal and state provisions and related interest and estimated penalty accruals are considered necessary.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-02, Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary. This amendment to Topic 810 clarifies, but does not change, the scope of current US GAAP. It clarifies the decrease in ownership provisions of Subtopic 810-10 and removes the potential conflict between guidance in that Subtopic and asset derecognition and gain or loss recognition guidance that may exist in other US GAAP. An entity will be required to follow the amended guidance beginning in the period that

it first adopts FAS 160 (now included in Subtopic 810 - 10). For those entities that have already adopted FAS 160, the amendments are effective at the beginning of the first interim or annual reporting period ending on or after December 15, 2009. The amendments should be applied retrospectively to the first period that an

entity adopted FAS 160. The adoption of the provisions of ASU 2010-02 did not have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB issued Accounting Standards Update 2010-01, Equity (Topic 505): Accounting for Distributions to Shareholders with Components of Stock and Cash (A Consensus of the FASB Emerging Issues Task Force). This amendment to Topic 505 clarifies the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock when a limit on the amount of cash that will be distributed is not a stock dividend for purposes of applying Topics 505 and 260 effective for interim and annual periods ending on or after December 15, 2009, and would be applied on a retrospective basis. The adoption of ASU 2010-01 did not have a material effect on the financial position, results of operations or cash flows of the Company.

In September 2009, the FASB issued Update No. 2009-13, Multiple-Deliverable Revenue Arrangements—a consensus of the FASB Emerging Issues Task Force (ASU 2009-13). It updates the existing multiple-element revenue arrangements guidance currently included under ASC 605-25, which originated primarily from the guidance in EITF Issue No. 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21). The revised guidance primarily provides two significant changes: 1) eliminates the need for objective and reliable evidence of the fair value for the undelivered element in order for a delivered item to be treated as a separate unit of accounting, and 2) eliminates the residual method to allocate the arrangement consideration. In addition, the guidance also expands the disclosure requirements for revenue recognition. ASU 2009-13 will be effective for the first annual reporting period beginning on or after June 15, 2010, with early adoption permitted provided that the revised guidance is retroactively applied to the beginning of the year of adoption. The Company does not expect this guidance to have an impact on the Company's financial statements.

Effective July 1, 2009, the Company adopted FASB ASU No. 2009-05, Fair Value Measurements and Disclosures (Topic 820) ("ASU 2009-05"). ASU 2009-05 provided amendments to ASC 820-10, Fair Value Measurements and Disclosures – Overall, for the fair value measurement of liabilities. ASU 2009-05 provides clarification that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using certain techniques. ASU 2009-05 also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of a liability. ASU 2009-05 also clarifies that both a quoted price in an active market for the identical liability at the measurement date and the quoted price for the identical liability when traded as an asset in an active market when no adjustments to the quoted price of the asset are required are Level 1 fair value measurements. Adoption of ASU 2009-05 did not have a material impact on the Company's results of operations or financial condition.

Effective June 30, 2009, the Company adopted three accounting standard updates which were intended to provide additional application guidance and enhanced disclosures regarding fair value measurements and impairments of securities. They also provide additional guidelines for estimating fair value in accordance with fair value accounting. The first update, as codified in ASC 820-10-65, provides additional guidelines for estimating fair value in accordance

with fair value accounting. The second accounting update, as codified in ASC 320-10-65, changes accounting requirements for other-than-temporary-impairment (OTTI) for debt securities by replacing the current requirement that a holder have

the positive intent and ability to hold an impaired security to recovery in order to conclude an impairment was temporary with a requirement that an entity conclude it does not intend to sell an impaired security and it will not be required to sell the security before the recovery of its amortized cost basis. The third accounting update, as codified in ASC 825-10-65, increases the frequency of fair value disclosures. These updates were effective for fiscal years and interim periods ended after June 15, 2009. The adoption of these accounting updates did not have a material impact on the Company's financial statements.

Effective June 30, 2009, the Company adopted a new accounting standard for subsequent events, as codified in ASC 855-10. The update modifies the names of the two types of subsequent events either as recognized subsequent events (previously referred to in practice as Type I subsequent events) or non-recognized subsequent events (previously referred to in practice as Type II subsequent events). In addition, the standard modifies the definition of subsequent events to refer to events or transactions that occur after the balance sheet date, but before the financial statements are issued (for public entities) or available to be issued (for nonpublic entities). The update did not result in significant changes in the practice of subsequent event disclosures, and therefore the adoption did not have a material impact on the Company's financial statements.

Effective January 1, 2009, the Company adopted an accounting standard update regarding the determination of the useful life of intangible assets. As codified in ASC 350-30-35, this update amends the factors considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under intangibles accounting. It also requires a consistent approach between the useful life of a recognized intangible asset under prior business combination accounting and the period of expected cash flows used to measure the fair value of an asset under the new business combinations accounting (as currently codified under ASC 850). The update also requires enhanced disclosures when an intangible asset's expected future cash flows are affected by an entity's intent and/or Company's financial statements.

Effective January 1, 2009, the Company adopted a new accounting standard update regarding business combinations. As codified under ASC 805, this update requires an entity to recognize the assets acquired, liabilities assumed, contractual contingencies, and contingent consideration at their fair value on the acquisition date. It further requires that acquisition-related costs be recognized separately from the acquisition and expensed as incurred; that restructuring costs generally be expensed in periods subsequent to the acquisition date; and that changes in accounting for deferred tax asset valuation allowances and acquired income tax uncertainties after the measurement period be recognized as a component of provision for taxes. The adoption did not have a material impact on the Company's financial statements.

NOTE C - DISCONTINUED OPERATIONS AND CHANGE OF CONTROL

On September 22, 2009, the Company entered into a material definitive agreement with Fairhurst Properties, S.A. ("Fairhurst") which was finalized on October 7, 2008. Fairhurst is a company owned 100% by the Company's former

NOTE E - NOTE PAYABLE TO CAETE INVEST TRADE, S.A.

On November 1, 2009, the Company issued a \$242,000 promissory note to Caete Invest Trade, S.A. maturing on October 31, 2010. The note bears interest at the rate of 10% per annum and is payable at maturity. The Company's Chief executive Officer has a beneficial ownership interest in Caete Invest Trade, S.A. The face amount of the note

plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price ("VWAP") of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing "VWAP" of common stock during the five days prior to the conversion date. The Company, in accordance with EITF 98-5 and 00-27, utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$36,300 which is being accreted monthly from the issuance date of the promissory note through maturity and is being recorded as additional interest expense. On February 4, 2010, \$62,428 of the loan was repaid. Accordingly, at March 31, 2010, the loan balance is \$163,215 net of the discount \$16,357 and amortized discount of \$26,993 which has been charged to interest expense and includes a \$7,050 loss on early repayment of principal. On June 30, 2010, the Company modified the conversion feature to be convertible into common stock at a fixed price of \$0.10 per share. See Note N- Subsequent Events.

NOTE F - RELATED PARTY PAYABLES

At March 31, 2010, the related party payables of \$261,355 consists of: (a) expenses paid by the Chief Executive Officer on behalf of the Company aggregating \$15,596; (b) compensation due other consultants deemed to be shareholders aggregating \$114,808; (c) expenses advanced by other shareholders in the amount of \$59,451, primarily for travel related expenses; and (d) unpaid rent payable to Lusierna Asset Management, Ltd., a company owned and controlled by the Chief Executive Officer aggregating \$71,500.

NOTE G - NOTE PAYABLE TO CHIEF EXECUTIVE OFFICER

On January 21, 2010, the Company owed its Chief Executive Officer approximately \$376,560 for salary and expenditures paid by him on behalf of the company. The company and its Chief Executive Officer agreed to formalize a portion of the debt and issued a \$172,364 promissory note maturing on January 21, 2012. The note bears interest at the rate of 10% per annum and is payable at maturity. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price ("VWAP") of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing "VWAP" of common stock during the five days prior to the conversion date. The Company in accordance with EITF 98-5 and 00-27 utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$25,855 which will be accreted monthly from the issuance date of the promissory note through maturity and will be recorded as additional interest expense. Accordingly, at March 31, 2010, the loan has been recorded at \$148,782, net of the discount \$23,582, which will be credited to additional paid in capital. On June 30, 2010, the Company modified the conversion feature to be convertible into common stock at a fixed price of \$0.10 per share. See Note N-Subsequent Events.

NOTE H - CONVERTIBLE DEBENTURE

On January 26, 2010, the Company issued at par, a \$500,000 Secured Convertible Debenture maturing on January 26, 2011. The debenture bears interest at the rate of 10% per annum and is payable monthly. The Company has granted a security interest in substantially all of the assets of the Company as collateral for the debenture. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price ("VWAP") of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing "VWAP" of common stock during the five days prior to the conversion date. Additionally, the Company issued commitment shares totaling 6,085,193 equivalent to \$1,500,000 at the closing date to obtain the loan. The Company in accordance with APB 14 utilized the Market Approach to value the debt instrument and allocated the net proceeds from the issuance of the debenture based upon the pro rata portion of the face value of the debentures and the undiscounted value of the commitment shares. Additionally, 15% of the Debenture was allocated to a beneficial conversion feature in accordance with EITF 98-5 and EITF 00-27. The Company concluded that the 15% discount created a beneficial conversion feature at the commitment date since the effective conversion price of the shares was less than the stock price at the commitment

date. The beneficial conversion feature and the pro rata value of the commitment shares aggregated \$395,521 which will be accreted monthly from the issuance date of the Debenture through maturity and will be recorded as additional interest expense. Accordingly, at March 31, 2010, the loan has been recorded at \$138,169, net of the discount \$361,831 which was credited to additional paid in capital.

NOTE K - FAIR VALUE MEASUREMENTS

On January 1, 2008, the Company adopted ASC 820 which defines fair value, provides a consistent framework for measuring fair value under generally accepted accounting principles and expands fair value financial statement disclosure requirements. ASC 820's valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect our market assumptions.

ASC 820 classifies these inputs into the following hierarchy:

Level 1 inputs: Quoted prices for identical instruments in active markets.

Level 2 inputs: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 inputs: Instruments with primarily unobservable value drivers.

The following table summarizes the activity of the warrants issued by the Company during the year ended March 31, 2010:

On February 3, 2010, the Company entered into a new material supply contract with Royal Mat, Inc. to provide tire derived fuel chips for a plant to be built in Quebec, Canada. The initial term of the contract will be from the startup date of the plant scheduled for the fourth quarter of 2010 until December 2011. The term could be extended for an additional three year term. Royal Mat, Inc. will receive \$45 per ton.

NOTE N – SUBSEQUENT EVENTS

On May, 15, 2010, the Company entered into a consulting agreement with Pierre Paffenhoff to assist the company in developing a business strategy, an acquisition, strategy, developing sales and marketing strategies and other services. The consultant will be paid \$1,500 per month. The agreement can be terminated on a 15 day notice by either party. The consultant will also be paid in cash 10% of proceeds from an equity or debt financing whereby he introduced the arrangement to the Company and 3% of the shares to be issued in any equity financing.

On May 28, 2010, the Company entered into a Technology Co-operation Agreement with Novo Energies International, Ltd. (NEI) that permits NEI to utilize the Company's technology and know-how for the sole purpose of building and operating facilities at NEI's expense that incorporate all or any portion of the Company's technology throughout the entire world except for all of the countries within North America, Central America and South America for a term of 10 years which may be renewed for an additional 10 year term. As consideration for the know-how and other technical information, the Company will receive 12.5% of NEI's issued and outstanding shares with anti-dilution rights. Such anti-dilution rights shall expire when NEI raises a minimum of 3,000,000 British pounds. In connection with the agreement, the Company's Chief Executive Officer and the Company's Interim President, Faisal Farooq Butt were appointed as Directors to NEI's Board of Directors and each received 3.6% and 2%, respectively, of NEI's common stock.

On June 1, 2010, Faisal Farooq Butt was appointed interim President of the Company.

On June 18, 2010, the Company, through a private placement offering, sold 1,100,000 units of its common stock at \$0.10 per unit for a total of \$110,000. Each unit consists of one share of the Company's common stock.

On June 18, 2010, the Company amended the Chief Executive's employment contract whereby he will receive 1,200,000 shares of Company common stock and vest at the rate of 50,000 shares per month over a 24 month period commencing June 18, 2010.

On June 30, 2010, the Company amended its promissory note to Caete Invest Trade S.A. issued on November 1, 2009. Under the terms of the modification, the note is now convertible into common stock of the Company at a fixed price of \$0.10 per share.

On June 30, 2010, the Company amended its promissory note payable to the Chief Executive Officer issued on January 21, 2010. Under the terms of the modification, the note is now convertible into common stock of the Company at a fixed price of \$0.10 per share.

On July 2, 2010, the Board approved the issuance of 49,038 shares of its common stock to William Rosenstadt and Steven Sanders to comply with the consulting agreement dated May 1, 2009.

## ITEM 9A(T). CONTROLS AND PROCEDURES

**Responsibility For Financial Information** — Management is responsible for the preparation, accuracy, integrity and objectivity of the Consolidated Financial Statements and the other financial information included in this report. Such information has been prepared in conformity with accounting principles generally accepted in the United States of America and accordingly, includes certain amounts that represent management's best estimates and judgments. Actual amounts could differ from those estimates.

**Responsibility for Internal Controls** — Management is also responsible for establishing and maintaining adequate internal controls over financial reporting. These internal controls consist of policies and procedures that are designed to assess and monitor the effectiveness of the control environment including: risk identification, governance structure, delegations of authority, information flow, communications and control activities. While no system of internal controls can ensure elimination of all errors and irregularities, Novo Energies Corporation's internal controls, which are reviewed and modified in response to changing conditions, have been designed to provide reasonable assurance that assets are safeguarded, policies and procedures are followed, transactions are properly executed and reported, and appropriate disclosures are made. The concept of reasonable assurance is based on the recognition that there are limitations in all systems of internal control and that the costs of such systems should be balanced with their benefits.

**Report On Internal Control Over Financial Reporting** — The Company's Chief Executive Officer and Chief Financial Officer have evaluated the Company's internal control over financial reporting as of March 31, 2010. This evaluation was based on criteria for effective internal control over financial reporting set forth in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management has concluded that the Company's internal control over financial reporting is not effective as of March 31, 2010 due to the following material weaknesses: (a) we have a single director, (b) we do not have an audit committee, and (c) there is no segregation of duties in connection with our accounting. The Company is striving to improve on timely reporting and financial controls. The Company has determined that the material weaknesses identified by the Chief Executive Officer and Chief Financial Officer were in effect for the entire year ended March 31, 2010. The Company recognizes the material weaknesses and is taking the following action to mitigate them: (1) we are adding two additional members to our Board of Directors, one being an outside director, (2) we have retained a local accounting firm to assist us in expediting our financial reporting process and (3) we continue to pursue new methods for making our financial reporting process more effective and efficient. This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting that has materially affected or is reasonably likely to materially affect our internal controls over financial reporting.

**Report On Disclosure Controls And Procedures** — As of March 31, 2010, management carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, it concluded that the Company's disclosure controls and procedures are not effective in ensuring that information required to be disclosed in its periodic filings under the Exchange Act is accumulated and communicated to us to allow timely decisions regarding required disclosures, and such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT

OFFICERS AND DIRECTORS

Messr. Antonio Treminio is the sole director of the Company. The Company's director is elected at each Annual Meeting of Shareholders. The sole director currently serving on the Company's Board and the executive officers are set forth in the table below:

Name	Age	Positions and Offices With The Company
Antonio Treminio	40	Chief Executive Officer and Chairman of the Board
Faisal Butt	26	Interim President
Andre L'Heureux	51	Chief Technical Officer

No director holds any directorship in a company with a class of securities registered pursuant to Section 12 of the Securities Exchange Act of 1934 or subject to the requirements of Section 15(d) of such Act. No director holds any directorship in a company registered as an investment company under the Investment Company Act of 1940.

As the Board of Directors only has one director and three employees, no Audit or Strategy Committee has been established. The Company does not have a standing nominating committee or any committee performing a similar function. For the above reasons, the Company has not adopted a code of ethics.

The following is a biographical summary of the directors and officers of the Company:

Antonio Treminio

Since 1996 Mr. Antonio Treminio, has been involved as a consultant to public traded companies, participating in structuring mergers and acquisition, re-capitalization, financing in the mining / precious metals & energy sector. Since 2003, Mr. Treminio has been the president of Lusierna Asset Management Ltd. In 1993, after finishing his attending his studies in Business Administration at Loyalist College in Belleville, Ontario, Mr. Treminio started his career in the private banking sector with Dean Witter Reynolds. In 1995, he joined PaineWebber to further his career while focusing on establishing Strategic Alliances and/or Referral Agreements with top-tier Latin American financial institutions. Mr. Treminio currently serves as Chief Executive Officer and Chairman of the Board of Blackbird Petroleum Corp., a company quoted on the Over-the-Counter Bulletin Board under the symbol "BBRD".

Faisal Butt

Mr. Butt initiated his career in the financial services industry with Alegro Capital; a London, UK based financial advisory and M&A firm. His primary focus at Alegro Capital was mergers and acquisitions, restructuring for the European Retail, TMT and Energy sector. Prior to this, Mr. Butt worked in various capacities in New York and Montreal in the financial services sector. He completed his Advance Level studies in Economics and Mathematics from University of Cambridge, UK (UCLES). Mr. Butt graduated from McGill University, Montreal, Canada with bachelors in Finance and Economics.

Andre L'Heureux

Mr. L'Heureux has over 25 years of experience in the chemical and biotechnological sector. He will be responsible for the planning, implementation and production of our proposed first operating plastics and synthetic tire depolymerization plants in Quebec, Canada. Previously, Mr. L'Heureux was the President of Chemco Inc., a private

chemical company for industrial water treatment products. Mr. L'Heureux has been a researcher in the development of polymer and biopolymer products. In 1984, he finished his studies as mechanical technologist from Limoilou College. Mr. L'Heureux continued his studies in the field of business administration at the University of Quebec.

#### COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Securities Exchange Act of 1934 requires executive officers and directors who beneficially own more than ten percent (10%) of the Company's Common Stock to file initial reports of ownership and reports of changes of ownership with the Securities and Exchange Commission. Executive officers, directors and greater than ten percent (10%) beneficial owners are required by Commission regulations to furnish the Company with copies of all Section 16(a) forms they file.

The information required to be compliant with Section 16(a) is found herein. However, at the present time the required individuals have not filed the appropriate Section 16(a) forms although it has been represented to the Company that such are being prepared and will be filed shortly after the filing of this annual report.

#### ITEM 11. EXECUTIVE COMPENSATION

Except as set out below, the Company has not paid in either 2010 or 2009 any annual or long-term compensation through the latest practicable date to the Chief Executive Officer of the Company and sole director of the Company or to any executive officers of the Company or directors of the Company who held such positions during 2009.

#### SUMMARY COMPENSATION TABLE

Name and principal position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Nonqualified Incentive Deferred Compensation		All Other Compensation (\$)	Total (\$)

Hakim Zahar	2010	40,000		88,600					128,600

#### Employment Contracts

On May 1, 2009, the Company executed an employment agreement with Andre L'Heureux to be the Company's President and Chief Operating Officer. The agreement commenced immediately and can be terminated by either party upon written notice. The agreement called for a base salary of \$6,500 per month effective August 1, 2009 and the issuance of 3,000,000 shares at \$0.10 per share of the Company's common stock to vest over a 36 month period. The executive would also participate in a Company stock option plan. The individual has since resigned the positions of President and Chief Operating officer and accepted employment as the company's Chief Technical Officer. The monthly base salary has been modified to \$3,000 per month effective February 1, 2010 leaving all other employee incentives intact.

Edgar Filing: Novo Energies Corp - Form 10-K/A

Effective October 23, 2009, the Company entered into an employment agreement with Hakim Zahar as the President of the Company. The agreement calls for base salary of \$10,000 per month with first payment starting November 15, 2009. The executive shall receive a minimum of 50,000 shares of the Company's common stock per month starting on the effective date of this agreement. This agreement can be terminated by either party at will and has been terminated on May 29, 2010 retroactive to February 15, 2011. Mr. Zahar is asserting that his remuneration should be paid to date of termination.

On July 10, 2009, the Company executed an employment agreement with Antonio Treminio to be the Company's Chief Executive Officer and Chairman of the Board of Directors. The agreement can be terminated by either party. The agreement calls for a base salary of \$10,000 per month effective September 22, 2008 and the issuance of incentive stock options equal to Five Percent (5%) of all of the Company's issued and outstanding common stock on September 22, 2008 (the "Stock Options"). Twenty Percent (20%) of the Stock Options shall vest for each plastic and/or tire facility constructed during the five years subsequent to the date herein so long as each plastic facility has a capacity to process 15 tons of plastic waste per day and/or each tire facility has the capacity to process 30 tons of tire waste per day. One Hundred Percent (100%) of the Stock Options shall vest upon the occurrence of a Change of Control as it is defined in the employment agreement. The Company will create an incentive stock option plan and award stock options equal to 5% of the Company's issued and outstanding common stock at the date of the agreement. On June 18, 2010, the Company amended the agreement to award 1,200,000 shares of its common stock to be vested over the succeeding 24 months.

On January 21, 2010, the Company owed its Chief Executive Officer approximately \$376,560 for salary and expenditures paid by him on behalf of the company. The Company and its Chief Executive Officer agreed to formalize a portion of the debt and issued a \$172,364 promissory note maturing on January 21, 2012. The note bears interest at the rate of 10% per annum and is payable at maturity. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price ("VWAP") of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing "VWAP" of common stock during the five days prior to the conversion date. The Company in accordance with EITF 98-5 and 00-27 utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$25,855 which will be accreted monthly from the issuance date of the promissory note through maturity and will be recorded as additional interest expense. Accordingly, at March 31, 2010, the loan has been recorded at \$148,782, net of the discount \$23,582, which will be credited to additional paid in capital. On June 30, 2010, the Company modified the conversion feature to be convertible into common stock at a fixed price of \$0.10 per share. See Note N-Subsequent Events.

At March 31, 2010, the related party payables of \$261,355 consists of: (a) expenses paid by the Chief Executive Officer on behalf of the Company aggregating \$15,596; (b) compensation due other consultants deemed to be shareholders aggregating \$114,808; (c) expenses advanced by other shareholders in the amount of \$59,451, primarily for travel related expenses; and (d) unpaid rent payable to Lusierna Asset Management, Ltd., a company owned and controlled by the Chief Executive Officer aggregating \$71,500.

**ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.**

**Security Ownership of Certain Beneficial Owners**

The following table sets forth information regarding the beneficial ownership of the shares of the Common Stock (the only class of shares previously issued by the Company) at June 15, 2010, by (i) each person known by the Company to be the beneficial owner of more than five percent (5%) of the Company's outstanding shares of Common Stock, (ii) each director of the Company, (iii) the executive officers of the Company, and (iv) by all directors and executive officers of the Company as a group. Each person named in the table, has sole voting and investment power with respect to all shares shown as beneficially owned by such person and can be contacted at the address of the Company.

**ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE.**

On April 1, 2009, the Company entered into a lease with Lusierna Asset Management Ltd. which is controlled by the Chief Executive Officer. The lease is for a period of one year commencing April 1, 2009 to 2010 with a monthly rent of \$6,500. The lease was extended for 1 year to April 2011 for the same monthly rent. The office facility is now owned by the wife of the Chief Executive Officer.

On September 22, 2009, the Company entered into a material definitive agreement with Fairhurst Properties, S.A. ("Fairhurst") which was finalized on October 7, 2008. Fairhurst is a company owned 100% by the Company's former

principal shareholder and Chief Executive Officer. The spin-out agreement provides for the split-off of all of the Company's interests in two wholly owned subsidiaries, Mount Rozier Properties (Pty) Ltd. and Mount Rozier Estate (Pty) Ltd. located in South Africa. The wholly owned subsidiaries owned all of the assets of the Company. In exchange for all of the assets surrendered and spun-off, Fairhurst assumed all of the debt and obligations of the

subsidiaries. Simultaneously, on October 7, 2008 a group of shareholders purchased approximately 50% of the outstanding shares (6,930,258 shares purchased) of the company in a private transaction for \$200,000 and Mr. Antonio Treminio became the Company's sole Director, Chief Executive Officer and Chief Financial Officer representing a change in control.
