Part 1 Information about the meeting

This Proxy Statement was first sent or given to stockholders on or about October 29, 2014. It is furnished in connection with the solicitation of proxies by the Board of Directors of Applied Minerals, Inc. (the “Company”) to be voted at the Annual Meeting of Stockholders for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting of Stockholders will be held at 2:30 P.M. Eastern Time on December 10, 2014 at Vanderbilt Suites, Metlife Building, 44th Street at Vanderbilt Ave., New York, New York 10166. Stockholders who execute proxies retain the right to revoke them at any time before the shares are voted by proxy at the meeting. A stockholder may revoke a proxy by delivering a signed statement to our Corporate Secretary at or prior to the Annual Meeting or by timely executing and delivering, by Internet, mail, or in person at the Annual Meeting, another proxy dated as of a later date. The Company will pay the cost of solicitation of proxies.

Internet Availability of Proxy Materials

We are furnishing proxy materials to our stockholders primarily via the Internet instead of mailing printed copies of those materials to each stockholder. By doing so, we save costs and reduce the environmental impact of our Annual Meeting. On October 29, 2014, we mailed a Notice of Internet Availability of Proxy Materials to our stockholders. The Notice of Internet Availability of Proxy Materials contains instructions about how to access our proxy materials and vote online. If you would like to receive a paper copy of our proxy materials, please follow the instructions included in the Notice of Internet Availability of Proxy Materials. If you previously chose to receive our proxy materials electronically, you will continue to receive access to these materials via e-mail unless you elect otherwise.

Participation in Electronic Meeting

You may also attend this year’s Annual Meeting of Stockholders via the Internet. To vote or to submit your questions during the Annual Meeting, please log on to www.virtualshareholdermeeting.com/AMNL2014. You will need to enter the 12-digit control number on your Notice of Internet Availability or proxy card.

Solicitation of Proxies

The Board of Directors of the Company is soliciting the proxy accompanying this Proxy Statement. Proxies may be solicited by officers, directors, and employees of the Company, none of whom will receive any additional compensation for their services. These solicitations may be made personally or by mail, facsimile, telephone, messenger, email, or the Internet. The Company will pay persons holding shares of Common Stock in their names or in the names of nominees, but not owning such shares beneficially, such as brokerage houses, banks, and other fiduciaries, for the expense of forwarding solicitation materials to their principals. The Company will pay all proxy solicitation costs.

Householding

To reduce costs and reduce the environmental impact of our Annual Meeting, a single proxy statement and annual report, along with individual proxy cards, or individual Notices of Internet Availability will be delivered in one envelope to certain stockholders having the same last name and address and to individuals with more than one account registered at our transfer agent with the same address, unless contrary instructions have been received from an affected stockholder. Stockholders participating in householding will continue to receive separate proxy cards. If you are a registered stockholder and would like to enroll in this service or receive individual copies of this year's and/or future proxy materials, please contact our transfer agent, Broadridge Corporate Issuer Solutions, by phone at 1-(800) 542-1061 or mail at Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717. If you are a beneficial stockholder, you may contact the broker or bank where you hold the account.

Table Of Contents

Record Date; Shares Eligible to Vote; Quorum

Stockholders of record at the close of business on October 15, 2014 will be entitled to vote at the meeting on the basis of one vote for each share held. On October 15, 2014, there were 95,030,371 shares of Common Stock outstanding, held of record by 1094 registered stockholders.

The presence of the holders of a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting (47,515,686 shares), in person or represented by proxy, is necessary to constitute a quorum. Abstentions and “broker non-votes” are counted as “present and entitled to vote” for purposes of determining a quorum.

Election of Directors

Six directors are to be elected at the Annual Meeting to hold office until the next Annual Meeting of Stockholders or until their respective successors are elected and qualified. If, for any reason, the directors are not elected at an Annual Meeting, they may be elected at a special meeting of stockholders called for that purpose in the manner provided by the Bylaws of the Company (“Bylaws”).

The Board of Directors expects that each of the nominees will be available for election, but if any of them is unable to serve at the time the election occurs, the proxy will be voted for the election of another nominee designated by our Board.

Voting Procedures

Eligibility to Vote

Only holders of shares of Common Stock outstanding as of October 15, 2014 are eligible to vote and each share is entitled to one vote on each matter.

Voting of Proxies

All proxies solicited by the Company, whether received by means of a proxy card or the Internet, will be voted, and where a choice is made with respect to a matter to be voted on, the shares will be voted in accordance with the specifications so made. If a proxy is submitted without indicating (i) a vote for all nominees (ii) withhold for all nominees or (iii) for all except specified nominee(s), it will be deemed to grant authority to vote FOR all nominees presented in Part 7 – Proposals to be voted on” and discussed in Part 2 “Information concerning Directors“ to serve as directors. If a Proxy is submitted without indicating voting instructions on Proposal 2 (Say-on-Pay) or 3 (ratification of independent auditor), it will be deemed to grant authority to vote FOR such Proposals.

Voting of shares held of record but not beneficially by brokers and other custodian

If you are the beneficial owner of shares held by a broker or other custodian, you may instruct your broker how to vote your shares through the voting instruction form included with this Proxy Statement or other means as specified by the broker or custodian. If you wish to vote the shares you own beneficially at the meeting, you must first request and obtain a “legal proxy” from your broker or other custodian.

Tabulation of votes

Employees of the Company will tabulate the votes cast. We expect to report the final vote tabulation in a Form 8-K filed with the SEC within four business days of the Annual Meeting.

Vote standard for election of directors; additional nominations

The directors will be elected by a plurality of the votes cast, meaning the directors receiving the largest number of “for” votes will be elected to the open positions. The Company’s ByLaws contain advance notice provisions for nominations for director by stockholders. If a stockholder makes a nomination that is not made in accordance with such advance-notice provisions, the nomination may not be voted on at the meeting. As of the date of this proxy statement, the date for stockholder to comply with the advance notice provisions, and thus to be eligible to make a nomination at the meeting nominations, has passed.

Table Of Contents**Vote required for approval; Effect of Abstentions and Uninstructed Shares (Broker Non-Votes)**

The shares of a stockholder whose proxy or ballot on any or all proposals is marked as “abstain” will be included in the number of shares present at the Annual Meeting to determine whether a quorum is present.

If you are the beneficial owner of shares held by a broker or other custodian and you choose not to provide instructions and not obtain a legal proxy, your shares are referred to as “uninstructed shares.” Whether your broker or custodian has the discretion to vote these shares on your behalf depends on the ballot item. If the broker or custodian does not have discretion, the shares are referred to as “broker non-votes.”

The following table summarizes the votes required for passage of each proposal, the effect of abstentions on the voting of shares, and the effect of uninstructed shares held by brokers or other custodians on the voting of such shares. The term “discretionary vote” means that the broker or other custodian may vote the shares and may determine how to vote such shares.

Item	Votes required for		
	approval	Abstentions	Uninstructed shares
Election of directors	Plurality of votes cast	Not voted	Not voted (Broker Non-Vote)
Advisory vote on executive compensation (“Say on Pay”)	Majority of votes cast	Not voted	Not voted (Broker Non-Vote)
Ratification of independent auditor	Majority of votes cast	Not voted	Discretionary vote ⁽¹⁾

(1) Voted as determined by broker or other custodian

Voting on other matters

Under the Company’s ByLaws, if other matters in addition to those listed in the notice are properly presented at the Annual Meeting for consideration, the persons appointed as proxies by the Board of Directors (the persons named in your proxy card if you are a stockholder of record) will have the discretion to vote the proxies they hold on those matters for you and will follow the instructions of the Board of Directors. However, the Company’s ByLaws contain advance notice provisions for proposals to be made by stockholders. If a stockholder offers a proposal for a vote that

is not made in accordance with such advance-notice provisions, the proposal may not be voted on at the meeting. As of the date of this proxy statement, the date for stockholder to comply with the advance notice provisions, and thus to be eligible to make a proposal at the meeting nominations, has passed.

In the period beginning in January 2009, Mr. Zeitoun has spearheaded efforts to stabilize the Company's balance sheet, raise critically needed capital, engage industry-leading consultants to quantify and characterize the Company's Dragon Mine resource, establish a marketing infrastructure, and sell product. During his time as President and Chief Executive Officer of the Company, Mr. Zeitoun has developed a high level of expertise in the area of the commercialization of halloysite-based applications and has developed a network of relationships with other experts within the field.

It is these attributes that led the Board to conclude that Mr. Zeitoun should continue to serve as a director of the Company.

Board Leadership

The Board believes that separating the Chair from the CEO position facilitates more effective board interaction and improves management accountability.

Mr. Zeitoun, the Chief Executive Officer, is responsible for, among other things, managing the business and affairs of the Company within the guidelines established by the Board, reporting to the Board of Directors, recommending to the Board strategic directions for the Company's business, and implementing the corresponding strategic, business and operational plans approved by the Board.

Mr. Levy, the Board Chair, sets the agenda for, and presides at, Board meetings and coordinates the Board's communication with Mr. Zeitoun and the management of the Company. The Board Chair, Mr. Levy, is fully independent.

Governance and Nominating Committee and Nomination Process.

The Board of Directors established a Nominating Committee in November, 2013. It was renamed the Governance and Nominating Committee in 2014. The Governance and Nominating Committee has a charter.

The Governance and Nominating Committee does not have any specific minimum requirements that must be met by any committee-recommended nominee for a position on the Board of Directors. Characteristics expected of all directors include independence, integrity, high personal and professional ethics, sound business judgment, and the ability and willingness to commit sufficient time to the Board. In evaluating the suitability of individual Board members, the Board takes into account many factors, including general understanding of marketing, finance, and other disciplines relevant to the success of a publicly traded company in today's business environment; understanding of the Company's business; educational and professional background; and personal accomplishment. The Board evaluates each individual in the context of the Board as a whole, with the objective of recommending a group that can best promote the success of the Company's business and represent stockholder interests through the exercise of sound judgment, using its diversity of experience. In determining whether to recommend a director for re-election, the Governance and Nominating Committee also considers the director's past attendance at meetings, participation in and contributions to the activities of the Board, and, in the future, the results of the most recent Board self-evaluation (the first self-evaluation having been completed after the Board nominated directors for election at the 2014 Annual Meeting).

The Board does not have a policy relating to diversity in connection with the identification or selection of nominees and has not considered the issue.

The Board will consider director candidates recommended by any stockholder. In evaluating candidates recommended by our stockholders, the Board of Directors has no set process for evaluating nominees, and the criteria would include the ones set forth above that are applied to nominees nominated by the Board. Any stockholder recommendations for director nominees proposed for consideration by the Board should include the candidate's name and qualifications for service as a Board member, a document signed by the candidate indicating the candidate's willingness to serve, if elected, and evidence of the stockholder's ownership of Company stock and should be addressed in writing to the President, Applied Minerals, Inc., 110 Greene St., Suite 1101, New York, New York 10012.

There have been no changes in the procedures by which stockholders may recommend candidates for director.

Mr. Levy was originally recommended for election as director by Mr. Taft, the Company's largest beneficial stockholder, who, at the time, was not a director. Mr. Taft was originally recommended by Mr. Levy and another, now former, director. Mr. Zeitoun was elected a director pursuant to the terms of the management agreement with Material Advisors LLC. Mr. Concha was originally recommended by Mr. Zeitoun; Mr. Betz by Mr. Concha; and Mr. Zamani by a security holder.

Rights of the Samlyn Entities to Nominate Directors

Samlyn Onshore Fund, LP, a Delaware limited partnership, and Samlyn Offshore Master Fund, Ltd., a Cayman Islands exempted company (collectively, the "Samlyn Entities") own in the aggregate 10,000,000 shares of Common Stock of the Company and warrants to purchase an additional 5,000,000 shares of Common Stock in the aggregate.

The Samlyn Entities jointly have the right to designate one person (the "Initial Nominee") to be nominated for election to the Board and the Board of Directors shall use commercially reasonable efforts to cause the election or appointment, as the case may be, of such nominee as a director of the Company.

In addition, until the earlier to occur of (i) a Termination Event (defined below) and (ii) December 22, 2016 if Andre Zeitoun is not serving as one of the following: a named executive officer of the Company or chairman of the Board, the Samlyn Entities jointly, during such period in which Andre Zeitoun is not serving in such capacity, shall be entitled to designate a number of additional nominees who together with the Initial Nominee, shall comprise at least 20% of the total number of directors, and the number of directors representing such 20% shall be rounded up to the nearest whole number.

Table Of Contents

If any nominee (i) is jointly designated by the Samlyn Entities at a time (A) at which such nominee cannot be included in the proxy statement prepared by management of the Company in connection with the soliciting of proxies for a meeting of the stockholders of the Company called with respect to the election of directors or (B) after which a meeting of the stockholders has been held with respect to the election of directors (clauses (i)(A) and (i)(B) collectively, the “Interim Period”) or (ii) is nominated for election to the Board but not elected by the stockholders of the Company for any reason whatsoever, the Board shall increase the number of members serving on the Board by a number of additional members equal to the number of such Nominees designated during the Interim Period and/or not elected (as applicable), and the Samlyn Entities jointly shall be entitled to promptly designate nominee(s), who shall be appointed by the Board to fill such additional member positions promptly following such meeting of the stockholders called for the election of directors.

If the Samlyn Entities, together with their respective affiliates, cease to beneficially own at least 9,700,000 shares of Common Stock (which for this purpose includes shares of Common Stock underlying unexercised Warrants), the rights of the Samlyn Entities described above shall terminate automatically (the “Termination Event”). As promptly as practicable following the Termination Event, at the request of the Board, the Samlyn Nominees shall cause each Nominee to execute and deliver a letter of resignation to the Company, which resignation shall be effective immediately with respect to the Company and, if applicable, any subsidiary of the Company for which such Nominee serves as a director, manager or other similar position.

The Samlyn Entities have not exercised their right to nominate a director and the conditions precedent to the exercise of the Additional Rights have not occurred.

Obligation to appoint independent directors

In August, 2013, the Company sold \$10.5 million of 10% PIK Election Convertible Notes due 2023 (“2023 Notes”). In connection with such sale, the Company agreed to cause one independent director to be nominated and appointed to its Board of Directors prior to December 31, 2013, and another independent director to be nominated and appointed to its Board of Directors prior to March 31, 2014. The appointment of Messrs, Concha and Betz satisfied the requirements to appoint independent directors. The holders of the 2023 Notes did not nominate either person and had no input into the Board’s decision to elect them to the Board.

Compensation Committee

The Board of Directors established a Compensation Committee and adopted a committee charter in September, 2013. The Committee is required to meet at least twice a year. The committee charter states that the committee will have the

6. Compensation Consultant Oversight.

- a. approval of the consultants' fees and other retention terms. Ensure that the compensation consultant retained by the Committee is independent of the Company.

The Compensation Committee may form and delegate authority to subcommittees and may delegate authority to one or more designated members of the Committee. The committee may delegate to the Chief Executive Officer the authority to make grants of equity-based compensation in the form of rights or options to eligible officers and employees who are not executive officers, such authority including the power to (i) designate officers and employees of the Company or of any of its subsidiaries to be recipients of such rights or options created by the Company, and (ii) determine the number of such rights or options to be received by such officers and employees; provided, however, that the resolution so authorizing the Chief Executive Officer shall specify the total number of rights or options the Chief Executive Officer may so award. The Compensation Committee has not delegated any authority to the Chief Executive Officer.

For purposes of determining CEO compensation for 2013 and 2014, the Compensation Committee engaged compensation consultants in 2012 and 2013 to conduct a competitive compensation study of the Company's President, Chief Executive Officer, and Director (the "CEO") in order to determine the competitive levels of compensation for comparable positions among similar publicly-traded companies.

The Compensation Committee Charter describes the specific responsibilities and functions of the Compensation Committee. A copy of the compensation committee charter is available at www.appliedminerals.com.

Executive Compensation

On September 6, 2012, the Board established a Compensation Committee. Prior thereto, the Board acted as a compensation committee. After establishment of the committee, compensation decisions, including 2012 bonuses, for Named Executive Officers were made by the Compensation Committee.

2009 Management Agreement

Andre Zeitoun was appointed to his positions with the Company pursuant to an agreement with Material Advisors LLC, a management services company formed to provide management services to the Company. Mr. Zeitoun is one of the three members of Material Advisors, Mr. Zeitoun being the manager.

On December 30, 2008, the Company entered into a management agreement with Material Advisors (“*2009 Management Agreement*”). The term of the 2009 Management Agreement commenced on January 1, 2009, and it had a term ending on December 31, 2010, but provided for extension through 2011. In March, 2010, the parties agreed to extend the agreement through 2011.

Under the 2009 Management Agreement, Material Advisors was to use Mr. Zeitoun and the other two members of Material Advisors (the three collectively, “*Management Personnel*”) to perform senior management services. Such services were described in the 2009 Management Agreement to include services that are customarily provided by a chief executive officer but not (unless otherwise agreed) services customarily provided by a chief financial officer (it was subsequently agreed to have a member of Material Advisors serve as Interim Chief Financial Officer, which he did from February, 2009 to May, 2012). Pursuant to the 2009 Management Agreement, through December 31, 2011, Mr. Zeitoun served as the Company’s Chief Executive Officer and as a member of the Company’s Board of Directors.

The 2009 Management Agreement specified that the senior management services that were to be provided by Material Advisors included, without limitation, consulting with the Board of Directors of the Company and the Company’s management on business and financial matters, including matters related to, among other matters, (i) new business development, creating and implementing the Company’s business plan and overseeing and supervising the Company’s operations, (ii) preparation of operating budgets and business plans, (iii) Company’s corporate and financial structure, (iv) formulation of long term business strategies, (v) recruiting senior management, (vi) financing, and (vii) resolving investigations and litigation involving the Company.

Under the 2009 Management Agreement, Material Advisors was paid an annual fee of \$1,000,000 per year, payable in equal monthly installments of \$83,333.

The 2009 Management Agreement provided that Material Advisors was solely responsible for all travel, entertainment, office and marketing expenses and all other ordinary and necessary business expenses incurred by the Material Advisors and the Management Personnel in connection with the performance of the services (“*Company Expenses*”). Such Company Expenses in 2009, 2010, and 2011 were \$468,000, \$440,500, and \$450,000, respectively.

Under the 2009 Management Agreement, the Company granted Material Advisors 6,583,277 non-qualified stock options to purchase Common Stock at \$0.70 per share (a number of shares of the Company equal to 10% of the outstanding Common Stock of the Company on a fully diluted basis, not including these options), vesting in equal monthly installments over three years (the “*\$0.70 Option*”). On December 30, 2008 (the execution date of the 2009 Management Agreement) as well as on December 29, 2008 (the day before the execution date), the reported closing stock price for the Company’s Common Stock was \$0.14.

The 2009 Management Agreement provides for the following treatment of the \$0.70 Option in the event of a “going private transaction.” Upon the consummation of a transaction resulting in (i) the Company ceasing to be a SEC reporting company, or having less than 300 stockholders of record and (ii) David A. Taft, IBS Capital LLC, The IBS Turnaround Fund L.P., The IBS Turnaround Fund (QP), The IBS Opportunity Fund (BVI). Ltd., or any of their affiliates or related entities own in the aggregate more than 50% of the outstanding equity capital of the Company immediately following such transaction (a “Going Private Transaction”), the \$0.70 Option would be cancelled and replaced by a non-qualified stock option (the “Going Private Option”), accompanied by a tandem stock appreciation right (the “SAR”). The Going Private Option would provide Material Advisors the right to purchase the same percentage of Company’s (or its successor’s) outstanding shares of Common Stock (as the \$0.70 Option provided) after giving effect to the going private transaction that were subject to the \$0.70 Option. The SAR would entitle Material Advisors to receive either shares of Common Stock or cash equal in value to the excess of the fair market value of a share of Common Stock on the date of exercise over the base price per share under the SAR.

Table Of Contents

The exercise price of the Going Private Option and the base price under the SAR would be the fair market value per share to be paid in the Going Private Transaction to stockholders who are not investing in the going private vehicle. The term of the \$0.70 Option, the Going Private Option and the SAR would be 10 years. During such periods, the Going Private Option and the SAR would fully exercisable.

Under the 2009 Management Agreement, Material Advisors was solely responsible for the compensation of the Management Personnel and the Management Personnel were not entitled to any direct compensation or benefits from the Company (including, in the case of Mr. Zeitoun, for service on the Board). The 2009 Management Agreement did not specify the levels of compensation to Mr. Zeitoun or the other members of Material Advisors. At the time the 2009 Management Agreement was entered into (i) the Company did not know, was not entitled to know, did not have any input, and was not entitled to have any input, into allocation of cash or options described above by Material Advisors to its members or the amounts paid for Company expenses and (ii) the Company did not know, and was not entitled to know, the amount of the Company Expenses.

The 2009 Management Agreement provided that if Material Advisors was terminated by the Company without Cause or Material Advisors resigned for Good Reason or the Company gave a notice of non-renewal, all unvested options would have vested and if such action occurred in 2009-2010, the remaining annual cash fee through the end of 2010 would have been paid. The 2009 Management Agreement did not provide that any adjustment in the cash fee would be made for the Company Expenses to be paid by Material Advisors in the event of termination.

The provisions of the 2009 Management Agreement were determined by negotiation and as part of the overall compensation package.

The Company did not use a compensation consultant in connection with the 2009 Management Agreement or benchmark compensation. With respect to the extension for 2011, because all unvested options would vest if the 2009 Management Agreement were not extended for 2011 and the amount of 2011 compensation was already negotiated, the use of a compensation consultant or benchmarking for 2011 would have been, in the judgment of the Board, not useful.

2012 Management Agreement

On February 8, 2011, the Board of Directors extended the 2009 Management Agreement through December 31, 2012 (“*2012 Management Agreement*”). As part of the 2012 Management Agreement, the Material Advisors were granted options to purchase 2,904,653 shares of Common Stock of the Company at \$0.83 per share with a 10-year term, vesting equally over twelve months beginning January 1, 2012. Otherwise, the 2012 Management Agreement was

essentially the same as the 2009 Management Agreement.

On January 18, 2012, the Board of Directors agreed to amend the 2012 Management Agreement so that it would provide that Company would bear the Company Expenses incurred for 2012. On the same date, the Board of Directors also awarded to Material Advisors a \$750,000 bonus payable immediately. At the time, the Board was aware of the allocation by Material Advisors to its members of compensation (both cash and options) paid to Material Advisors by the Company, with Mr. Zeitoun being entitled to allocations of 60%.

The Company did not use a compensation consultant in connection with the 2012 Management Agreement or benchmark compensation.

Table Of Contents**Transition to Direct Compensation of Management Personnel**

In November, 2012, the Board of Directors and Material Advisors agreed that Mr. Zeitoun and the other Management Personnel would become direct employees of the Company and compensation of the Management Personnel in 2014 and subsequent years would be made directly and not through Material Advisors.

Compensation analysis and discussion

Objectives and Strategy

The Company's objectives are to develop a range of commercial applications for its halloysite clay resource located at its Dragon Mine property and to market those applications to industries seeking enhanced product functionality and to market its iron oxides for pigment and other uses. We believe the successful marketing of such applications will generate material profits for the Company, which, in turn, will create significant value for its stockholders. To realize this objective, the Company must attract and retain individuals, including our Named Executive Officers ("*Named Executive Officers*"), who possess the skill sets and experience needed to effectively develop and implement the business strategies and corporate governance infrastructure necessary to achieve commercial success.

Table Of Contents

Accordingly, compensation for the Named Executive Officers is designed to:

Incentivize the Named Executive Officers to lead the Company to profitable operations and to increase stockholder value;

Assure that over time a significant part of NEO compensation is linked to the Company's long-term stock price performance, which aligns the Named Executive Officers' financial interests with those of the Company's stockholders;

Attract, motivate, and retain qualified employees;

Motivate the Named Executive Officers to develop long-term careers at the Company and contribute to its future prospects; and

Permit the Named Executive Officers to remain focused on the development of the Company's business in the midst of actual or potential change-in-control transactions.

The Company seeks to provide competitive compensation that is commensurate with individual and Company-wide performance. Accordingly, a significant portion of the total compensation paid to the Named Executive Officers over time is placed at risk through long-term, equity-based incentives that are designed to encourage the Named Executive Officers to continuously enhance the Company's financial performance and create long-term stockholder value.

The Company does not have a policy concerning minimum ownership or hedging by executive officers of Company securities.

Compensation of Mr. Zeitoun

Mr. Zeitoun has been president and CEO of the Company since 2009.

Management Agreements with Material Advisors

From 2009-2012, the Company was managed pursuant to management agreements with a limited liability company, Material Advisors, organized solely for the purpose of supplying senior management services to the Company. Material Advisors was required to provide to the Company three senior managers who were the sole members of Material Advisors. One of these individuals was Mr. Zeitoun. The three members of Material Advisors insisted that the Company engage them indirectly through the entity Material Advisors, which the members believed would provide them an added layer of protection when they assumed the management responsibilities of a company that faced a challenging liquidity situation, an SEC investigation, and a stockholder class action lawsuit.

Under the 2009 and 2012 Management Agreements, the Company compensated Material Advisors in cash and stock options. Given the Company's precarious liquidity situation, its need for a drastic operational turnaround, and the legal challenges it faced, Material Advisors sought a 10.5% equity stake (through a far out-of-the-money option grant) to assume what it considered to be a significant managerial challenge. Cognizant of the Company's need to preserve cash, Material Advisors agreed to pay certain corporate expenditures out of its management fee over the term of the 2009 Management Agreement. Additionally, Material Advisors agreed to set the exercise price of its initial option grant significantly above (500%) the market price of the Company's Common Stock to demonstrate to the Company and its largest stockholder (who had been, and would continue to be, a source of capital for the Company) its commitment to the Company.

Allocations by Material Advisors

Material Advisors, in its sole discretion, allocated amounts of the compensation it received from the Company to its three members. Material Advisors was under no obligation to tell the Company how allocations were made to its three members and, until January 2012, the Company did not know such allocations. With the exception of the bonus granted to Mr. Zeitoun in November, 2012 for 2012 performance (granted to him directly and not to Material Advisors), the members used Material Advisors as a means of bargaining as a group and they made allocations of cash and stock options by agreement among themselves. The Board's inability to control allocations effectively took the issue of internal pay equity among members of Material Advisors out of the hands of the Board.

Table Of Contents

2011 Compensation

The management agreement between the Company and Material Advisors for the 2009-2011 period (“*2009 Management Agreement*”) was negotiated in late 2008 at a time when the Company faced a precarious liquidity situation, required new capital, had generated little revenue, had no near-term revenue prospects, had no operations, was delinquent for over a year in its SEC reporting obligations, was operating without a permanent management team, and faced both a securities law class action and an SEC investigation.

The compensatory terms of the 2009 Management Agreement were, in large part, influenced by the significant operational challenges and financial risks that Material Advisors would face as management of the Company.

Under the 2009 Management Agreement, the cash compensation to Material Advisors in 2011 was \$1 million per year. From that amount, Material Advisors was required to pay certain of the Company’s expenses (marketing, office rent, and travel and entertainment, among others) (“*Company Expenses*”) amounting to \$478,000. The Board did not know the amount of these expenditures until January, 2012.

Material Advisors allocated the cash compensation it received from the Company (after payment of Company Expenses) to its members after payment of the Company Expenses. In 2011, Mr. Zeitoun was allocated \$282,000.

Under the 2009 Management Agreement, Material Advisors was granted an option to purchase 6,583,271 shares of the Company’s Common Stock. The option vested over a three-year period. The number of shares of Common Stock subject to the options was selected so that the option, vesting over a three-year period, would give Material Advisors the right to acquire 10% of the total outstanding shares of Common Stock determined as of January 1, 2009, on a fully diluted basis (including the shares subject to the grant of options to Material Advisors). The options were granted with an exercise price of \$0.70 per share at a time when the market price of the Company’s Common Stock was \$0.14 per share. Mr. Zeitoun was allocated 60% of the options granted to Material Advisors or 3,949,963 options. The Black-Scholes value of those options on the grant date was \$395,016.

For purposes of the 2009 Management Agreement, compensation to Material Advisors was not benchmarked against peers. In addition to the obvious difficulty of benchmarking compensation under a management agreement designed to compensate three individuals (as opposed to benchmarking an individual’s compensation), benchmarking compensation against peers was not meaningful as the creation of an applicable peer group was very difficult given the unique challenges facing the Company. With respect to the extension for 2011, because all unvested options would vest if the 2009 Management Agreement were not extended for 2011 and the 2011 compensation was already negotiated, the use of a compensation consultant or benchmarking for 2011 would have been, in the judgment of the Board, not useful.

At the time the Management Agreement was entered into and at the time it was extended for 2011, the directors believed that conditioning all or part of Material Advisors' compensation on the achievement of performance goals appeared inappropriate given that under the circumstances (such circumstances including no operations, no revenues, no near- or mid-term prospects of revenues, among others) and the directors believed that there was no real basis for establishing and prioritizing performance goals and time periods for their achievement. At the time, the financial (and in 2008, the legal) fates of Applied Minerals were so uncertain that the only performance goal that could be defined and measured was the Company's continuation or non-continuation.

The Board, due to the Company's tenuous financial condition, decided it was prudent to heavily weight Material Advisors' overall compensation package provided in the 2009 Management Agreement and the 2011 extension toward stock options that would have value only if the market price of the Company's stock increased significantly. In light of the extreme out-of-the-money nature of the options, the compensation package can be seen as heavily weighted toward performance pay.

Table Of Contents

2012 Compensation

In February, 2011, the Company desired to lock in an agreement for the future services of Material Advisors in order to assure continuity of management. At the same time, Material Advisors was anxious to resolve any uncertainty about its future role with the Company. Both sides agreed that it would be appropriate and more efficient to model the 2012 compensation package on the 2009 Management Agreement.

In February 2011, the Board agreed to a management agreement with Material Advisors LLC for the year 2012 (“*2012 Management Agreement*”). The 2012 Management Agreement provided for cash compensation of \$1 million. The \$1 million for 2012 was the same annual cash compensation as was paid in the 2009-2011 period. The 2012 Management Agreement required Material Advisors to pay Company Expenses (just as Material Advisors did under the 2009 Management Agreement), but Material Advisors was subsequently relieved of the responsibility, as described below.

The 2012 Management Agreement also provided for the grant of an option to acquire 2,907,653 shares of the Company’s Common Stock. Mr. Zeitoun was allocated 1,742,792 options. The Black-Scholes value of the options allocated to Mr. Zeitoun was \$1,181,637 on the grant date. The per share exercise price was the current market price on the date of grant (\$0.83 per share). The number of shares subject to the grant was equivalent to 3.5% of the number of fully diluted outstanding shares of Common stock on the date of grant (including the grant under the 2009 Management Agreement but not the grant under the 2012 Management Agreement).

The February 2011 option grant was priced at-the-money as compared to the significantly out-of-the-money option granted in December 2008. Given the operational progress and improved financial status achieved by management, the Board and Material Advisors agreed there would be no reason to grant an out-of-the-money option to Material Advisors in order for Material Advisors to demonstrate its commitment to the Company.

In considering the number of options to be granted, the Board focused primarily on the number of options as a percentage of the fully diluted shares as opposed to the Black-Scholes value.

In February 2011, the Board did not know how Material Advisors allocated cash and stock options to its members or the amount of Company Expenses borne by Material Advisors. Mr. Zeitoun’s allocation was 1,743,918 options, having a Black-Scholes value of \$1,181,637.

Although significant progress had been made by Material Advisors in resolving some of the many problems facing the Company, benchmarking compensation against peers continued to seem inappropriate because of the difficulties in

finding not only other companies managed under an agreement to supply senior executives to the Company but also other companies facing the same or a similar array of problems.

Although management had significantly resolved many of the legacy issues that had burdened the Company, it was still a pre-revenue operation focused on creating products that were to be sold into new markets. As such, establishing specific performance goals and associated timelines to evaluate management would not be feasible. Accordingly, the compensation package did not link compensation, including vesting of stock options, to the achievement of predetermined performance goals.

The Board believed that the compensation package was designed to reward short-term performance and to encourage employee retention through the salary portion of the compensation package and to reward long-term performance and sustained growth in stock price through the significant amount of shares of Common Stock available for purchase under the options granted to Material Advisors. Nevertheless, the cash portion was considered inadequate for the efforts and skill that the three members of Material Advisors would bring to the task.

In January 2012, the Board learned for the first time the amounts of Company Expenses that Material Advisors had been responsible for in 2009-2011 and the allocations that had been made by Material Advisors. It also learned that 2012 compensation to Material Advisors would be allocated 60% to Mr. Zeitoun.

Table Of Contents

In December 2011, the Company had raised \$10 million through the sale of Common Stock and warrants, without the use of an investment banker, in a complex transaction designed to limit dilution. Thereafter, the Board believed that for the first time there were sufficient funds to reward Material Advisors appropriately for its past efforts. In January, 2012, a bonus of \$750,000 in respect of outstanding performance in the 2009-2011 period was awarded to Material Advisors. The size of the cash bonus granted in January, 2012 was determined, in large part, on the amount of money Material Advisors saved the Company through (i) the assumption of the CFO position, thereby saving the Company the expense of having to hire and compensate a CFO not affiliated with Material Advisors and (ii) the fees the Company avoided paying as a result of the members of Material Advisors raising approximately \$21.6 million capital for the Company without the aid of an agent or broker. The bonus was discretionary and was not based on the achievement of any pre-determined performance standards. This \$750,000 bonus was also allocated 60% to Mr. Zeitoun (\$450,000).

After negotiations with Mr. Zeitoun on behalf of Material Advisors, the Board agreed that it was appropriate to relieve Material Advisors of its obligation to continue to pay Company Expenses (which are noted above). Relieving Material Advisors of this obligation had the effect of increasing the amount of cash distributable in 2012 by Material Advisors to its three members from approximately \$550,000 (based on 2009-2011 experience) to \$1 million.

In making these compensation decisions, the Board took into account the substantial progress that the Company had made during the 2009-2011 period, the fact that the market price of the Common Stock had increased 500% during the period of the 2009 Management Agreement, and the Company's improved financial condition (having raised \$10 million in December 2011 through the sale of stock and warrants). The Board believed that it was important to make up for what had seemed to be inadequate past compensation in order to further motivate the members of Material Advisors to perform services for the Company in the future. For largely the same reasons as noted above in connection with compensation decisions in February 2011, the Board did not believe that use of a compensation consultant or benchmarking or tying any part of cash compensation to the achievement of performance goals was appropriate.

On November 20, 2012, the Board and Material Advisors decided that the Company would deal with the three members of Material Advisors individually and, beginning in 2013, would not engage them through Material Advisors.

On November 20, 2012, the Board determined to grant Mr. Zeitoun a \$400,000 cash bonus for exceptional 2012 performance, payable in the first week of 2013. The Board believed that the additional cash bonus was an appropriate means of motivating and retaining Mr. Zeitoun. The bonus was discretionary and was not based on the achievement of any pre-determined performance standards. On Mr. Zeitoun's recommendation, no bonuses for 2012 were awarded to the other members of Material Advisors.

In February 2011, the Board believed that the structure of the compensation package was heavily weighted toward “pay-for-performance” in that the options incentivized the members of Material Advisors to manage the Company in a manner such that the market price of the Common Stock would increase. The Board did not believe that the increases in cash compensation in January 2012 and (for Mr. Zeitoun) in November, 2012 undermined the essential incentive structure of the compensation package because (i) the level of his cash compensation is less than what he had earned in past years and (ii) such a significant percentage of his future compensation is represented by his option grants. The Board believed that the increases did bring the cash component more in line with the contribution and efforts of management.

2013 Compensation

On November 20, 2012, the Board agreed to compensate the three members of Material Advisors directly beginning with calendar year 2013 and determined the 2013 compensation for such persons. The 2013 cash compensation for Mr. Zeitoun would be \$600,000. Options to purchase 1,742,581 shares of Common Stock were granted to Mr. Zeitoun (with a Black-Scholes value of \$2,408,539). The options vested over the period of the employment agreement (2013), vesting on the first day of the month following a month of the employment agreement beginning February 1, 2013 with the last vesting on January 1, 2014. The options have an exercise price equal to market price of the Common Stock on the date of grant (\$0.83). The Board also agreed that Mr. Zeitoun would be eligible for a target bonus for 2013 of \$400,000 but that the amount could be more or less depending on Mr. Zeitoun’s 2013 performance. The criteria for determining performance would be decided at the time the Board made a decision as to whether to award a bonus. These criteria could include quantitative and qualitative considerations such as sales, entering to arrangements with joint ventures and similar “reach through” arrangements, increases in market capitalization, development of corporate staff, management of plant expansions.

Table Of Contents

To assist in determining 2013 compensation for Mr. Zeitoun, the Compensation Committee sought advice from a compensation consultant from Hay Associates.

The compensation consultant used market data in his analysis that was drawn from the following sources: public peer group in the mining and metals sector (13 companies; Comstock Mining Inc., General Moly Inc., Gold Reserve Inc., Golden Minerals Co., Midway Gold Corp, Mines Management Inc, Paramount Gold and Silver, Prospect Global Resources, Rare Element Resources Ltd , Revett Minerals Inc. Ruby Creek Resources Inc., Searchlight Minerals Corp, and Vista Gold Corp) and specialty chemical sector (7 companies; Monarch Cement Co, Northern Tech Intl, ADA-ES Inc, Chase Corp, Material Sciences Corp, Senonyx Corp, and Zoltek Cos Inc); the 2012 Hay Group Global Mining Compensation Review for pay-mix purposes; and a sample of companies recently completing an initial public offering as set forth in the Hay Group IPO Reporter (Matador Resources Company, Bonanza Creek Energy, Inc., Carbonite, Inc, C&J Energy, SunCoke Energy, KiOR, Compressco Partners, L.P., Solazyme, Inc., Energy Partners LP, International Corp., Kinder Morgan, Inc., Gevo, Inc., Primo Water Corporation, Amyris, Inc., Molycorp, Inc., Oasis Petroleum LLC, Aluminum Holding Corporation, Douglas Dynamics, Inc., Global Geophysical Services, Inc., Metals USA Holdings Corp., Graham Packaging Company Inc., Cellu Tissue Holdings, Inc.) The consultant stated that the analysis focused on annual compensation mix and levels relative to market as well as CEO equity ownership relative to other companies recently completing an initial public offering. The basis for selecting peer group companies consisted of the following factors: assets, market capitalization, nature of the business, the talent market, complexity, and the market share.

Compared to the peer group companies in the mining sector as well as the specialty chemicals sector in the IPO Reporter sample, the Board determined that Mr. Zeitoun's 2012 compensation was above the 75th percentile. It also determined that Mr. Zeitoun's 2012 pay mix (as among salary, bonus, and options) was generally well aligned with the pay mixes in the samples noted above.

The consultant stated that there is no perfect model for determining what the appropriate compensation for a CEO should be. He said that the Compensation Committee would have to review the data presented in his report and use its business judgment to create a package that would be motivational to the CEO and also retain him, as the Board believed that the CEO is key to the success of the business. The compensation consultant also said that while the Company's CEO position may have a certain "market value," it is imperative that the Committee should also consider the contribution and value that Mr. Zeitoun brings to the position and, in particular, the facts that (i) Mr. Zeitoun has raised substantial sums of money without the Company having to use investment bankers thereby saving substantial commissions, (ii) Mr. Zeitoun is leading the Company's technology development to further commercialize its products, and (iii) serving multiple roles (CEO and COO).

Members of the Board noted differences between the Company and many of the mining companies in the peer group. In particular, many of the peer group companies were gold companies. They noted that entities involved in the gold-mining business are not engaged in businesses that have anywhere near the complexity of the Company's business. In particular, the Board noted that gold companies have a product with a ready market; thus, they do not

have to develop a market, as the Company must do for halloysite. The Board also noted that the stockholder return under Mr. Zeitoun's leadership and, in particular, the Company's market capitalization, had increased from \$10 million to \$150 million under Mr. Zeitoun's leadership. Mr. Zeitoun indicated that he believed that for peer-group comparison purposes, the Company was more like a developmental pharmaceutical company. Other members of the Board also agreed that the Company was more like developmental pharmaceutical, biotech and software companies.

Table Of Contents

The consultant indicated that he thought that “in this market” compensation for the CEO was \$1.2 to \$1.3 million, split 50/50 between cash and equity. Members of the Board indicated that they believed that the consultant thought a higher amount was not unjustifiable and not inconsistent with what the directors believe to be appropriate. In response, the consultant noted that the Compensation Committee could take into account a number of factors related to the business and to individual circumstances, including the fact that Mr. Zeitoun raises money for the business without receiving commissions and he has the “contacts” that drive and support the business.

The Board, without Mr. Zeitoun, independently considered Mr. Zeitoun’s value to the Company. The Board believes that he is extremely knowledgeable about the Company’s mineralization and its mining and processing activities, is crucial to its marketing and sales activities, provides strategic and day-to-day guidance to the Company, and is indispensable to, and not immediately replaceable by, the Company. Finally, the Board also considered the increase in the market price of the Common Stock during Mr. Zeitoun’s tenure, which the Board largely attributed to Mr. Zeitoun and his leadership. On the basis of the foregoing, the Board decided Mr. Zeitoun’s 2013 compensation, as set forth above.

On October 7, 2013, the Board, taking into account, quantitative and qualitative factors, including, among other things, substantial progress at the Company moving toward sales, developing a sales team, building a new processing facility, and raising \$16 million in new capital without the assistance of an investment banker, determined to award Mr. Zeitoun an \$400,000 bonus (payable in January, 2014) for exceptional performance.

Mr. Zeitoun’s compensation for 2013 as reported in the Summary Compensation Table was significantly in excess of the compensation of the next highest paid NEO and the average of compensation of three Named Executive Officers other than Mr. Zeitoun. But as noted in the footnotes to the Summary Compensation Table and in this CD&A, \$450,000 of the 2012 compensation was paid for performance in prior years and \$400,000 was awarded in 2012 but payable in 2013. To the extent that differentials in compensation between Mr. Zeitoun and the other Named Executive Officers could raise issues of internal pay equity, in the opinion of the Board, Mr. Zeitoun’s compensation was fully justified by his expertise, his role in raising capital from investors without the use of investment bankers, his general management of the Company, his role in the marketing and sales efforts of the Company and by the fact that his efforts far exceed the contributions and efforts of other employees.

Compensation of Mr. Gleeson

William Gleeson, our General Counsel, was hired as of September 15, 2011. Mr. Gleeson’s three-year employment agreement provides for annual cash compensation of \$200,000 plus a 10-year option to purchase up to 900,000 shares of Common Stock at an exercise price of \$1.90 per share, which was above the \$1.74 market price on the date of grant, September 15, 2011. The Black-Scholes value of the options was \$1,370,340 on the date of grant. The options vested in 36 monthly installments beginning September 15, 2011. Mr. Gleeson’s employment may be terminated at

will. The Company did not use a compensation consultant in connection with the employment agreement.

The compensation package in the employment agreement reflected Mr. Gleeson's familiarity with the Company and its legal issues resulting from his representation of the Company beginning in January, 2008. The relative mix of cash and options reflected the Company's strained cash position and its near-term revenue prospects at the time of the hiring, with the number of options designed to compensate for the relatively low cash compensation. The vesting of the options was not tied to any performance standards because at the time, given the Company's limited amount of sales and its lack of profitability, it was deemed that the meaningful performance standards could not be established. For the same reason, the Company did not establish performance standards for bonus awards. The Company did not use compensation consultants in connection with Mr. Gleeson's compensation and did not benchmark compensation. No cash bonus was awarded to Mr. Gleeson.

On November 20, 2012, the Board, on the recommendation of Mr., Zeitoun, awarded Mr. Gleeson 72,406 stock options with a Black-Scholes value of \$100,065 and increased his compensation to \$250,000 per year because of exemplary performance in 2012.

Table Of Contents

Compensation of Mr. Krishnamurti

In May, 2012, the Company, on the recommendation of Mr. Zeitoun, hired Mr. Krishnamurti under a three year employment agreement calling for an annual salary \$180,000 and an option grant to purchase 300,000 shares of the Company's Common Stock with Black-Scholes value of \$400,200 determined on the date of grant. The terms, including the compensation amounts and the number of options, as well as the mix between those elements, were negotiated by the parties and the Board believed that the compensation package reflected Mr. Krishnamurti's expertise and experience and gave him appropriate long-term incentive through the stock options.

In May 2013, the Board, on the recommendation of Mr. Zeitoun, increased Mr. Krishnamurti's cash compensation to \$225,000 and granted and 10-year option vesting immediately to purchase 65,000 shares of Common Stock with a Black-Scholes value of \$49,686 because of excellent performance.

Tax and Accounting Treatment of Compensation

Deductibility Cap on Executive Compensation

The Compensation Committee is aware that Section 162(m) of the Internal Revenue Code treats certain elements of executive compensation in excess of \$1 million a year as an expense not deductible by the Company for federal income tax purposes. Mr. Zeitoun's compensation for the Company's 2012 tax purposes was \$1,050,000 and was not performance-based, so that \$50,000 was not deductible. Depending on the market price of the Company's Common Stock on the date of exercise of options that are not performance-based, the compensation of certain executive officers in future years may be in excess of \$1 million for purposes of Section 162(m). The Compensation Committee reserves the right to pay compensation that may be non-deductible to the Company if it determines that it would be in the best interests of the Company

Tax and Accounting Treatment of Options

We are required to recognize in our financial statements compensation cost arising from the issuance of stock options. GAAP requires that such that compensation cost is determined using fair value principles (we use the Black-Scholes method of valuation) and is recognized in our financial statements over the requisite service period of an instrument (for 2012 and prior years, generally we used the vesting period for employee and consultant options and warrants). However, the tax deduction is only recorded on our tax return when the option is exercised. The tax benefit received at exercise and recognized in our tax return is generally equal to the intrinsic value of the option on the date of exercise.

Compensation of Policies and Practices as they relate to Risk Management

The Company does not believe that its compensation policies and practices (cash compensation and at-the-market or above-market five- and ten-year options without performance standards and with or without vesting schedules) are reasonably likely to have a material adverse effect on the Company as they relate to risk management practices and risk-taking incentives.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on such review and discussions, the Compensation Committee recommended to the Board the Discussion and Analysis be included in this Proxy Statement.

Table Of Contents**Part 5** Information concerning Independent Registered Public Accountant**Independent Registered Accountant for 2014**

EisnerAmper LLP was the Company's independent accountant for the fiscal year ending December 31, 2013 and has been selected by our Board of Directors as the Company's independent accountant for the fiscal year ending December 31, 2014. The Board asks stockholders to ratify that selection. Although current law, rules, and regulations require the Board of Directors to engage, retain, and supervise the Company's independent auditor, the Board considers the selection of the independent auditor to be an important matter of stockholder concern and is submitting the selection of EisnerAmper LLP for ratification by stockholders as a matter of good corporate practice.

The affirmative vote of holders of a majority of the shares of Common Stock cast in person or by proxy at the meeting is required to approve the ratification of the selection of EisnerAmper LLP as the Company's independent auditor for the current fiscal year. If a majority of votes cast does not ratify the selection of EisnerAmper LLP, the Board of Directors will consider the result a recommendation to consider the selection of a different firm.

Representatives of the EisnerAmper LLP are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and such representatives are expected to be available to respond to appropriate questions.

Fees to Accountants

The following table presents fees for services rendered by EisnerAmper LLP, the independent auditors for the audits of the Company's annual consolidated financial statements for the years ended December 31, 2013 and 2012, and by PMB Helin Donovan for services relating to the first quarter of 2012. Dismissal of PMB Helin Donovan LLP and Engagement of EisnerAmper LLP

On June 14, 2012, the Company, at the direction of the Board of Directors, dismissed PMB Helin Donovan LLP as its independent accountant. The directors believed that as the Company transitioned the primary place of its financial recordkeeping and accounting functions from Idaho (which was the place of the Company's headquarters until 2009) to New York City, it was appropriate to move the auditing function from Spokane, Washington to New York City.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following material weaknesses have been identified and included in management's assessment as of December 31, 2011:

1. Certain controls over equity were not effective to ensure that all transactions involving equity were recorded in an accurate and timely fashion;
2. Certain controls were not effective to ensure that all expenses were accurately categorized;
3. The Company did not have adequate control over the recording and monitoring of purchase orders and accounts receivables; and
There was an insufficient number of personnel with appropriate technical accounting and SEC reporting expertise to perform a timely financial close process, adhere to certain control disciplines, and to evaluate and properly record certain non-routine and complex transactions. This resulted in audit adjustments, which are material in the aggregate and necessary to present the annual audited financial statements in accordance with generally accepted accounting principles. In light of the actual audit adjustments required and the effect on the account balances and related disclosures in the financial statements management determined there is a more than a remote likelihood that material misstatement could occur and not be detected in the Company's interim or annual audited financial statements.

Policy on Board of Directors' Pre-Approval of Audit and Non-Audit Services of Independent Auditors

The Audit Committee has adopted a policy for the pre-approval of all audit and non-audit services provided by the Company's independent registered public accounting firm. The policy is designed to ensure that the provision of these services does not impair the registered public accounting firm's independence. Under the policy, any services provided by the independent registered public accounting firm, including audit, audit-related, tax and other services must be specifically pre-approved by the Board of Directors. The Board of Directors does not delegate responsibilities to pre-approve services performed by the independent registered public accounting firm to management. For the fiscal year ended December 31, 2013, all services provided by the Company's independent registered public accounting firm were subject to pre-approval by the Board of Directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our officers, directors, and any person who beneficially owns more than 10% of our Common Stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Executive officers, directors, and more than 10% stockholders are required by regulation to furnish us with copies of all Section 16(a) forms which they file.

During 2013, certain of our directors and executive officers filed Forms 3 or Forms 4 with the Securities and Exchange Commission. The information on these filings reflects the current ownership position of all such individuals. To the best of our knowledge, during 2013 all such filings by our officers and executive directors were made timely. However, there was one filing for Mr. Levy in 2013 relating to two 2012 option grants by the Company and one filing in 2013 for each of Messrs. Zeitoun, Krishnamurti, and Gleeson relating in each case to one 2012 option grant by the Company. Each such filing was late as a result of a Company administrative errors for which an internal control has been implemented to assure that the failure to make a timely filing does not happen again.

Part 7**Election of Directors**

Six directors have been nominated for election at the Annual Meeting to hold office until the next Annual Meeting of Stockholders. The nominees were evaluated and recommended by the Board of Directors.

The directors will be elected by a plurality of the votes cast, meaning the directors receiving the largest number of “for” votes will be elected to the open positions. Under the Company’s advance notice ByLaw, the latest date (the date was stated in last year’s Proxy Statement) on which a stockholder could provide notice of intent to make a nomination (a condition precedent to the ability to make a nomination) passed before the date of this Proxy Statement.

Our Board of Directors recommends a vote FOR the election to the Board of each of the following nominees:

Advisory Vote on Executive Compensation

As required by Section 14A of the Securities and Exchange Act of 1934, we are asking for your advisory vote on the following resolution (the “Say-on-Pay” resolution):

RESOLVED, that the stockholders approve, in a nonbinding vote, the compensation of the Company’s Named Executive Officers, as disclosed in Parts 3 and 4 of the Proxy Statement.

We currently hold our Say-on-Pay vote every year. Stockholders will have an opportunity to cast an advisory vote on the frequency of Say-on-Pay votes at least every six years. The next advisory vote on the frequency of the Say-on-Pay vote will occur no later than 2018.

The Company’s compensation objectives are (i) to develop a range of commercial applications, utilizing the halloysite clay resource located at its Dragon Mine property and market those applications to industries seeking enhanced product functionality and (ii) to market its iron oxides for pigment and other uses. We believe the successful marketing of such applications will generate material profits for the Company, which, in turn, will create significant value for its stockholders. To realize this objective, the Company must attract and retain individuals, including our Named Executive Officers, who possess the skill sets and experience needed to effectively develop and implement the business strategies and corporate governance infrastructure necessary to achieve commercial success.

Table Of Contents

Accordingly, compensation for the Named Executive Officers is designed to:

Incentivize the Named Executive Officers to lead the Company to profitable operations and to increase stockholder value;

Assure that a significant part of Named Executive Officer compensation is over time linked to the Company's long-term stock price performance, which aligns the Named Executive Officers' financial interests with those of the Company's stockholders;

Attract, motivate, and retain qualified employees;

Motivate the Named Executive Officers to develop long-term careers at the Company and contribute to its future prospects; and

Permit the Named Executive Officers to remain focused on the development of the Company's business in the midst of actual or potential change-in-control transactions.

The Company seeks to provide competitive compensation that is commensurate with individual and Company-wide performance. Accordingly, a significant portion of the total compensation that has been paid to the Named Executive Officers has been placed at risk through long-term, equity-based incentives that are designed to encourage the Named Executive Officers to continuously enhance the Company's financial performance and create long-term stockholder value.

Our Board of Directors recommends a vote FOR approval, on a non-binding, advisory basis, of the compensation paid to our Named Executive Officers.

Ratification of Independent Auditor

The Audit Committee has selected EisnerAmper LLP as the Company's independent auditor for fiscal year 2014, and the Board asks stockholders to ratify that selection.

Our Board of Directors recommends a vote FOR ratification of the independent auditor.
