We used in this report, the terms "Transax," "we," "our," and "us" or the "Company" refers to Transax International Limited, a Colorado corporation and its wholly-owned subsidiaries Big Tree International Co., Ltd., a Brunei company, ("BT Brunei") and Shantou Big Tree Toys Co., Ltd., a Chinese company ("BT Shantou").

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This report includes forward-looking statements that relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Words such as, but not limited to, “believe,” “expect,” “anticipate,” “estimate,” “intend,” “plan,” “targets,” “likely,” “aim,” “will,” “would,” “could,” and similar expressions or phrases identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and future events and financial trends that we believe may affect our financial condition, results of operation, business strategy and financial needs. Forward-looking statements include, but are not limited to, statements about:

- Factors affecting consumer preferences and customer acceptance of new products;
- Competition in the toy industry;
- Loss of one or more key customers;
- Dependence on third-party contract manufacturers;
- Dependence on certain key personnel;
- Inability to manage our business expansion;
- Infringement by third parties on our intellectual property rights;
- Our inadvertent infringement of third-party intellectual property rights;
- PRC government fiscal policy that affect real estate development and consumer demand;
- Availability of skilled and unskilled labor and increasing labor costs;
- Lack of insurance coverage and the impact of any loss resulting from product liability or third party liability claims or casualty losses;
- Violation of Foreign Corrupt Practices Act or China anti-corruption laws;
- Economic, legal restrictions and business conditions in China;
- Dilution attributable to our convertible preferred stock;
- Impact of proposed one for 700 reverse stock split of our outstanding common stock;
- Limited public market for our common stock; and
- Potential conflicts of interest between our controlling shareholders and our shareholders.

You should read thoroughly this report and the documents that we refer to herein with the understanding that our actual future results may be materially different from and/or worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements including those made in Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2011. Other sections of this report include additional factors which could adversely impact our business and financial performance. Moreover, we operate in an evolving environment. New risk factors emerge from time to time and it is not possible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. These forward-looking statements speak only as of the date of this report, and you should not rely on these statements without also considering the risks and uncertainties associated with these statements and our business.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

NOTE 1 – ORGANIZATION AND OPERATIONS

Transax International Limited (“we”, “us”, “our,” or the “Company”) was incorporated in the State of Colorado in 1987. Prior to December 2011, the Company, through its subsidiary, Medlink Conectividade em Saude Ltda (“Medlink Conectividade”) was an international provider of information network solutions specifically designed for healthcare providers and health insurance companies. On March 26, 2008, the Company executed a stock purchase and option agreement with Engetech, Inc., a Turks & Caicos corporation (controlled and owned 20% by Americo de Castro, director and President of Medlink Conectividade, and 80% by Flavio Gonzalez Duarte or assignees. In accordance with the terms and provisions of the agreement, the Company sold to the buyer 45% of the total issued and outstanding stock of its wholly-owned subsidiary, Transax Limited, which owned 100% of the total issued and outstanding shares of: (i) Medlink Conectividade, and (ii) Medlink Technologies, Inc., (“MTI”) a Mauritius corporation (See Note 5). However, the buyer defaulted on payments and on November 24, 2010, pursuant to an agreement, the buyer returned the 45 shares of Transax Limited held in escrow and forfeited its initial deposit of \$937,700 in full and complete satisfaction of any amounts due to the Company.

On April 4, 2011, pursuant to a Quota Purchase and Sale Agreement amongst Transax Limited, QC Holding I Participacoes S.A., a corporation organized under the laws of Brazil (“QC Holding”), and Medlink Conectividade, the Company sold 100% of its interest in Medlink Conectividade to QC Holding.

On December 30, 2011, the Company entered into a Share Exchange Agreement (the “Share Exchange Agreement”) Big Tree International Co., Ltd., a Brunei company (“BT Brunei”) and its shareholder Lins (HK) International Trading Limited (“BT Hong Kong”). Under the Share Exchange Agreement, we exchanged 6,500,000 shares of our Series C Convertible Preferred Stock (the “Series C Preferred Stock”) to acquire 100% of the issued and outstanding shares of BT Brunei from its sole shareholder BT Hong Kong. Each share of the Series C Preferred Stock is convertible into one share of our common stock after giving effect to a pending 1 for 700 reverse stock split (the “Reverse Stock Split”) and will represent approximately 65% of the issued and outstanding shares of our common stock, and is hereinafter referred to as the “Exchange”. On December 30, 2011, BT Hong Kong became a shareholder of the Company. The Share Exchange Agreement was approved by our Board of Directors on December 30, 2011 and no approval of our shareholders was necessary under Colorado law. The transaction will be accounted for as a reverse merger and recapitalization of BT Brunei whereby BT Brunei is considered the acquirer for accounting purposes and the 6,500,000 shares of our Series C Preferred Stock were accounted for as paid in capital of our company. As a result of the consummation of the Share Exchange, BT Brunei and its subsidiary, Shantou Big Tree Toys Co., Ltd., a Chinese company (“BT Shantou”), are now our wholly-owned subsidiaries.

After the acquisition of BT Brunei, we are in the business of toys sourcing, distribution and contractual manufacturing targeting international and domestic distributors and customers in the toys industry. Our main business focus is to function as a “one stop shop” for the sourcing, distribution and specialty manufacturing of toys and related products. The Company conducts these operations through both BT Brunei and our BT Shantou subsidiary. We are located in Shantou City of Guangdong province, the geographical region well-known for toys manufacturing and exporting in China. We are not a manufacturer. Since its inception in 2003, BT Shantou has provided a number of procurement services for international toy distributors and wholesalers, including identifying, evaluating, and engaging local manufacturers for supply of toys, as well as to arrange for original equipment manufacturing (“OEM”) services in which local OEMs produce toy products to the specific specifications of one of our customers. BT Brunei’s operations are focused on procurement services for export customers, although we did expand our services in 2011 and began arranging for OEM services for our customers. During 2011 approximately 65% of our revenues were

derived from procurement services and approximately 35% were derived from arranging for OEM services. We sources a wide variety of 800,000 toys made of plastic, wood, metal, wool, and electronic materials, primarily targeting children from infants to teenagers. We enable our customers to view these toys either through our website or at our extensive toy showroom of approximately 21,528 square feet located in Shantou, China. Customers can easily contact our online representatives for inquiry and place orders, or visit the toy showroom and choose from the displayed toy samples provided by our manufacturing partners.

- 4 -

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

In 2009, BT Shantou developed a proprietary construction toy consisting of plastic pieces that can plug-in together to make a wide variety of objects, and which we refer to as the Big Tree Magic Puzzle (3D). We registered the patents for its utility model and appearance design in Hong Kong and mainland China during 2010 and 2011. On June 1, 2010, BT Shantou entered into a 10-year contract manufacturing agreement with a local toy manufacturer Shantou Xinzhongyang Toy Industrial Co., Ltd. (“Xinzhongyang”) to produce this proprietary toy under the name of Big Tree Educational Magic Puzzle (the “Big Tree Magic Puzzle”).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements and related notes were prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The accompanying financial statements as of and for the three months ended March 31, 2012 and 2011, reflect the consolidated financial position and result of operations of BT Brunei and BT Shantou, as BT Shantou became the wholly-owned subsidiary of BT Brunei in 2011.

Foreign Currency Translation

Our functional currency is the Chinese Renminbi (“RMB”). In accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Section 830-20-35, the financial statements were translated into United States dollars using balance sheet date rates of exchange for assets and liabilities, and average rates of exchange for the period for the income statements. Net gains and losses resulting from foreign exchange transactions were included in the consolidated statements of operations and comprehensive income. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in other comprehensive income or loss.

RMB is not a fully convertible currency. All foreign exchange transactions involving RMB must take place either through the People’s Bank of China (the “PBOC”) or other institutions authorized to buy and sell foreign exchange. The exchange rate adopted for the foreign exchange transactions are the rates of exchange quoted by the PBOC, which are determined largely by supply and demand. Translation of amounts from RMB into United States dollars (“\$”) was made at the following exchange rates for the respective periods:

As of March 31, 2012	RMB 6.3122 to \$1.00
As of December 31, 2011	RMB 6.3523 to \$1.00
Three months ended March 31, 2012	RMB 6.2976 to \$1.00
Three months ended March 31, 2011	RMB 6.5713 to \$1.00

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the

reporting period. Significant estimates include the estimated useful lives of property and equipment. Actual results could differ from those estimates.

Cash and equivalents

We consider all highly liquid investments with maturities of three months or less to be cash and equivalents.

- 5 -

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

Accounts receivable

Accounts receivable are recorded at the invoiced amount, net of an allowance for doubtful accounts. The allowance for doubtful accounts reflects our best estimate of the amount of probable credit losses in our existing accounts receivable. We determined the allowance based on historical write-off experience, customer specific facts and economic conditions. Bad debt expense is included in general and administrative expense, if any.

Outstanding account balances are reviewed individually for collectability. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

Inventory

We value inventories, consisting of finished goods only, at the lower of cost or market value. Cost is determined on the first in-first out method. We regularly review our inventories on hand and, when necessary, record a provision for excess or obsolete inventories based primarily on the current selling price. As of March 31, 2012 and December 31, 2011, there were no charges for inventory reserve provision.

Advance to suppliers and prepaid expenses

Advance to suppliers and other prepaid expenses consist of (i) advance to suppliers for merchandise that had not yet been shipped, and (ii) prepaid advertising expenses.

Property, Plant and equipment

Property, plant and equipment are recorded at cost. Expenditures for major additions and betterments are capitalized. Maintenance and repairs are expensed as incurred. Depreciation of property and equipment is computed by the straight-line method (after taking into account their respective estimated residual values) over the assets estimated useful lives. Upon sale or retirement of property, plant and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations. Leasehold improvements, if any, are amortized on a straight-line basis over the lease period or the estimated useful life, whichever is shorter. Upon becoming fully amortized, the related cost and accumulated amortization are removed from the accounts.

Impairment of long-lived assets

In accordance with ASC 360, "Property, Plant and Equipment", our long-lived assets, which include property, equipment and automobiles are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

We assess the recoverability of our long-lived assets by comparing the projected undiscounted net cash flows associated with the related long-lived asset or group of long-lived assets over their remaining estimated useful lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. If long-lived assets are determined to be recoverable, but the newly determined remaining estimated useful lives are shorter than originally estimated, the net book values of the long-lived assets are

depreciated over the newly determined remaining estimated useful lives. We determined there were no impairments of long-lived assets as of March 31, 2012 and December 31, 2011.

Advance from customers

Advance from customers represent prepayments to us for merchandise that had not yet been shipped to customers.

- 6 -

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

Fair value of financial instruments

We adopted ASC Topic 820, “Fair Value Measurements”, for our financial instruments. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The carrying amounts of our financial assets and liabilities, such as cash, accounts receivable, prepayments and other current assets, accounts payable, accrued expenses and other current liabilities, approximate their fair values because of the short maturity of these instruments.

Revenue recognition

We follow the U.S. Securities and Exchange Commission’s Staff Accounting Bulletin (“SAB”) No. 104 for revenue recognition. Revenue is recognized when earned and is reported net of refunds.

We follow the guidance of ASC 605, "Revenue Recognition," and the Securities and Exchange Commission's Staff Accounting Bulletin (“SAB”) No. 104 and SAB Topic 13 for revenue recognition. In general, we record revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured.

Revenues for our product sales are recognized when all four of the following criteria are met: (i) persuasive evidence of an arrangement exists through a formal purchase order or contract; (ii) delivery of the products has occurred and risks and rewards of ownership have passed to the customer; (iii) the selling price is both fixed and determinable based on agreement between us and our customer; and (iv) collectability is reasonably assured. For any advance payments from customers, revenues are deferred until such a time when all the four criteria mentioned above are fully met.

In accordance with ASC 605-45, “Principal Considerations”, we report our revenue from sales of toys on the gross basis as we meet the criteria of gross revenue reporting as follows.

- We are the primary obligor to provide the product or services desired by our customers;
 - We have latitude in establishing price;
- We have credit risk – see Note 9 for customer concentrations and credit risk;
- We have general inventory risk – before customer order is placed and upon customer return; and
 - We have discretion in supplier selection.

Income taxes

We account for income taxes under ASC 740, “Expenses – Income Taxes”. ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and the tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax losses and tax credit carry forwards. ASC 740 additionally requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets.

All of BT Shantou operations are in the PRC and are governed by the Income Tax Law of the People’s Republic of China and local income tax laws (the PRC Income Tax Law”). Pursuant to the PRC Income Tax Law, we are subject to tax at a maximum statutory rate of 25% (inclusive of state and local income taxes).

Big Tree International Co., Ltd. (“BT Brunei”) was incorporated in the State of Brunei Darussalam, and is not subject to any corporate income taxes in accordance to the laws and regulations of that country.

Value added taxes

Pursuant to the Provisional Regulation of China on Value Added Tax (“VAT”) and their rules, all entities and individuals that are engaged in the sale of goods in China are generally required to pay VAT at a rate of 17.0% of the gross sales proceeds received, less any deductible VAT already paid or borne by the taxpayer. Further, when exporting goods, the exporter is entitled to a portion of or a full refund of the VAT that it has already paid or borne.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

Comprehensive income (loss)

Comprehensive income (loss) consists of net income and foreign currency translation adjustments, and is presented in our Consolidated Statements of Operations and Comprehensive Income (Loss).

Recently issued accounting pronouncements

In September 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-08, Intangibles – Goodwill and Other, which simplifies how an entity is required to test goodwill for impairment. This ASU would allow an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under the ASU, an entity would not be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The ASU includes a number of factors to consider in conducting the qualitative assessment. The ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of ASU 2011-08 did not have an impact on our consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. Under the amendments, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The presentation option under current US GAAP to present the components of other comprehensive income as part of the statement of changes in stockholders' equity has been eliminated. The amendments in this Update should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of ASU 2011-05 did not have an impact on our consolidated financial statements.

In December 2010, the FASB issued ASU No. 2010-29, Disclosure of Supplementary Pro Forma Information for Business Combinations ("ASC 805"). The objective of this standard is to address diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. This standard specifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. This standard also expands the supplemental pro forma disclosures under ASC 805 to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. This standard is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The adoption of ASU 2010-29 did not have an impact on our consolidated financial statements.

In December 2010, the FASB issued ASU No. 2010-28, Intangibles — Goodwill and Other (ASC 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts. The objective of this standard is to address questions about entities with reporting units with zero or negative carrying amounts because some entities concluded that Step 1 of the test is passed in those circumstances because the fair value of their reporting unit is greater than zero. The amendments in this standard modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. This

standard is effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. The adoption of ASU 2010-28 did not have an impact on our consolidated financial statements.

In July 2010, the FASB issued ASU No. 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses, requiring companies to improve their disclosures about the credit quality of their financing receivables and the credit reserves held against them. The extra disclosures for financing receivables include aging of past due receivables, credit quality indicators, and the modifications of financing receivables. This guidance is effective for interim and annual periods ending on or after December 15, 2010. The adoption of this guidance had no material impact on our consolidated financial position, results of operations or cash flows.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

In January 2010, the FASB issued ASU No. 2010-02, Accounting and Reporting for Decreases in Ownership of a Subsidiary, which clarifies the scope of the guidance for the decrease in ownership of a subsidiary in ASC Topic 810, "Consolidations," and expands the disclosures required for the deconsolidation of a subsidiary or de-recognition of a group of assets. This guidance was effective on January 1, 2010. We adopted this guidance and it did not have an impact on our consolidated financial statements.

In January 2010, the FASB issued ASU No. 2010-01, Accounting for Distributions to Shareholders with Components of Stock and Cash, which clarifies that the stock portion of a distribution to stockholders that allows them to elect to receive cash or stock with a potential limitation on the total amount of cash that all stockholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively and is not a stock dividend for purposes of applying ASC Topic 505, "equity," and ASC Topic 260, "Earnings Per Share." This guidance is effective for interim and annual periods ending on or after December 15, 2009, and should be applied on a retrospective basis. We adopted this guidance and it did not have an impact on our consolidated financial statements.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, we have not determined whether implementation of such proposed standards would be material to our consolidated financial statements.

NOTE 3 – ADVANCE TO SUPPLIERS AND PREPAID EXPENSES

Advance to suppliers and prepaid expenses consisted of the following:

	March 31, 2012	December 31, 2011
Advance to suppliers	\$ 76,481	\$44,442
Prepaid expenses	131,379	36,536
Total	\$ 207,860	\$80,978

Prepaid expenses reflect the amount paid for advertising that has not been utilized.

NOTE 4 – OTHER RECEIVABLE

Other receivable mainly consists of export tax refund from China's State Administration of Taxation. As a measure to encourage export, the Chinese tax code provides for a tax refund based on the amount and products exported by Chinese corporate taxpayers. The maximum statutory tax refund rate is approximately 17%. Other receivable consisted of the following:

	March 31, 2012	December 31, 2011
Tax refund receivable	\$ 268,980	\$ 247,722
Other	17,049	18,596
Total	\$ 286,029	\$ 266,318

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

NOTE 5 – PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, consisted of the following:

	Estimated March 31, Life 2012	December 31, 2011
Office equipment	5 Years \$ 26,448	\$ 25,764
Vehicles	5 Years 29,084	28,899
Machinery and Equipment	3 Years 102,341	101,696
	157,872	156,359
Less: Accumulated Depreciation	(33,423)	(24,547)
	\$ 124,449	\$ 131,812

Depreciation expenses amounted to \$8,740 and \$1,569 for the three months ended March 31, 2012 and 2011, respectively.

NOTE 6 – INTANGIBLE ASSETS

Intangible assets represent accounting software purchased in 2011, which is amortized on a straight line basis during its useful life of 5 years. For the three months ended March 31, 2012 and 2011, amortization expenses amounted to \$740 and \$0 respectively.

NOTE 7 – ADVANCE FROM CUSTOMERS

Advance from customers represent prepayment to us for merchandise that had not been shipped to customers. Advance from customers amounted to \$922,777 and \$941,750 as of March 31, 2012 and December 31, 2011, respectively.

NOTE 8 – RELATED PARTY TRANSACTIONS

Due from related parties

Due from related parties total of \$ 0 at March 31, 2012, reflect prepayments to related party suppliers for purchased toy products not received yet.

Due to related parties

On March 31, 2012 and December 31, 2011, due to related parties consisted of the following:

	March 31, 2012	December 31, 2011
Due to Wei Lin	\$ 383,995	\$ 97,375
Due to Chaojun Lin	-	12,594

Due to Guihong Zheng	31,685	28,845
Due to Universal Toys	120,740	-
Due to Xin Zhongyang	67,399	-
Total	\$ 603,819	\$ 138,814

Mr. Wei Lin is our Chairman and Chief Executive Officer. The balances of due to Mr. Lin primarily consisted of advances for working capital.

Chaojun Lin is the Deputy General Manager of BT Shantou since March 2004. The balance due to Mr. Chaojun Lin as of December 31, 2011, consisted of advances for working capital.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

Ms. Guihong Zheng is Mr. Wei Lin's wife.

The controlling shareholder of Universal Toys (HK) Ltd., and Xin Zhongyang Toys Industrial Co. Ltd., is Mr. Xiaodong Ou, brother-in-law of Mr. Wei Lin.

NOTE 9 - OTHER PAYABLE

On March 31, 2012 other payable of \$226,692 consisted of social security liability payable.

NOTE 10- CONCENTRATIONS AND CREDIT RISK

(i) Customer Concentrations

Customer concentrations for the three months ended March 31, 2012 and 2011 were as follows:

	Net Sales		Accounts Receivable	
	For three months ended March 31, 2012	2011	March 31, 2012	December 31, 2011
Pacific Toys (HK) Ltd		97.6%		22.7%
Vigtor International	14.5%			-
Goodman	12.2%		19.1%	-
Poundland Far East Ltd	17.1%		11.0%	10.2%
Dheeraj Impex				13.5%
Total	43.8%	97.6%	30.1%	46.4%

A reduction in sales from or loss of such customers would have a material adverse effect on our results of operations and financial condition

(ii) Vendor Concentrations

Vendor purchase concentrations for March 31, 2012 and 2011 were as follows:

	Net Purchases		Accounts Payable	
	For three months ended March 31, 2012	2011	March 31, 2012	December 31, 2011
Universal Toys (HK) Ltd--(1)	8.1%		14.8%	-
Changtai Toys	48.3%	-	46.5%	-
Yintai International Shares	28.7%		17.8%	11.9%
Chenghua Weida Plastic Toys		22.0%		
Yade Plastic Toys		17.2%		
Huada Toys		10.3%		
Shantou Wanshun Toys				33.5%
Changsheng Toys	-	-		24.8%
Jinwei Corp Ltd.	-	-		21.7%
Total	85.1%	49.5%	79.1%	91.9%

- (1) Universal Toys is a related party, whose sole shareholder is Mr. Xiaodong Ou, the brother-in-law of Mr. Wei Lin, our Chairman and CEO. See Note 8 – Related Party Transactions.

- 11 -

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

(iii) Credit Risk

Financial instruments that potentially subject us to significant concentration of credit risk consist primarily of cash and equivalents. As of March 31, 2012, substantially all of our cash and equivalents were held by major financial institutions located in the PRC, none of which are insured. However, we have not experienced losses on these accounts and management believes that the Company is not exposed to significant risks on such accounts.

(iv) Foreign currency risk

We cannot guarantee that the current exchange rate will not fluctuate. There is always the possibility that we could post the same amount of profit for two comparable periods, and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of RMB converted to U.S. dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

NOTE 11 - EARNINGS PER SHARE

In conjunction with the BT Brunei reverse acquisition of the Company on December 30, 2011, we issued Series B convertible preferred stock (“Series B Preferred Stock”) which is convertible into 820,016 shares of our common stock and Series C Preferred Stock which is convertible into 9,042,744 shares of our common stock, giving effect to the Reverse Stock Split. Conversion is conditioned on the Company affecting the Reverse Stock Split that has not been consummated by the end of the reporting period of this report and only after all relevant filings have been cleared and approved by regulatory agencies. Because the conditions could only be satisfied after the end of the reporting period of this report, in accordance with ASC 260 Earnings per Share, these shares were not included in the dilutive earnings per share (EPS) calculation.

NOTE 12 - STOCKHOLDERS’ EQUITY

On December 30, 2011, we entered into debt exchange agreements with the holders of \$848,878.39 in our outstanding debt whereby we exchanged 820,016 shares of our Series B Preferred Stock”) for this debt. The following table sets forth the name of the debt holder, amount of debt exchanged and number of shares exchanged:

Name of Holder of Debt	Amount of Debt to be Exchanged	No. of Shares of Series B Convertible Preferred Stock to be Exchanged
Stephen Walters	\$ 122,163	118,010
Carlingford Investments Limited	151,309	146,165
CFO Oncall, Inc.	37,094	35,831
China Direct Investments, Inc.*	538,312	520,010
Total	\$ 848,878	820,016

* China Direct Investments, Inc. purchased this debt acquired from Stephen Walters for \$75,000 pursuant to a Bill of Sale and Assignment dated December 30, 2011.

Each share of the Series B Preferred Stock is automatically convertible into one share of our common stock after giving effect to the Reverse Stock Split following the date on which we shall have filed Articles of Amendment to our Articles of Incorporation with the Secretary of State of Colorado increasing the number of our authorized shares of our

common stock or upon completion of the Reverse Stock Split without any action of the holders of the Series B Preferred Stock. The number of shares in which the Series B Preferred Stock are convertible into is not subject to adjustment unless, during the time the shares are outstanding, we were to declare a stock dividend or make other distributions of our common stock or if we were to merge with or transfer our assets to an unrelated entity.

- 12 -

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to Unaudited Consolidated Financial Statements
March 31, 2012

On December 30, 2011, we entered into a Share Exchange Agreement with BT Brunei and its shareholder BT Hong Kong. Under the Share Exchange Agreement, we exchanged 6,500,000 shares of our Series C Preferred Stock to acquire 100% of the issued and outstanding shares of BT Brunei from its sole shareholder BT Hong Kong. Each share of the Series C Preferred Stock is convertible into one share of our common stock after giving effect to the Reverse Stock Split and will represent approximately 65% of the issued and outstanding shares of our common stock. The Share Exchange Agreement was approved by our Board of Directors on December 30, 2011 and no approval of our shareholders was necessary under Colorado law. The transaction will be accounted for as a reverse merger and recapitalization of BT Brunei whereby BT Brunei is considered the acquirer for accounting purposes and the 6,500,000 shares of our Series C Preferred Stock were accounted for as paid in capital of our company. As a result of the consummation of the Share Exchange, BT Brunei and its subsidiary BT Shantou are now our wholly-owned subsidiaries.

As compensation for services under the December 30, 2011 consulting agreement we entered into with China Direct Investments, Inc. and its affiliate Capital One Resource Co., Ltd. (collectively, "China Direct"), we issued China Direct Investments, Inc. 2,542,743 shares of our Series B Preferred Stock. Each share of the Series B Preferred Stock is convertible into one share of our common stock after giving effect to the Reverse Stock Split. The services China Direct provided to us included an evaluation of several different business opportunities, including the acquisition of BT Brunei and BT Shantou. The Series B Preferred Stock issued to China Direct will be accounted for as an expense of our company prior to the reverse merger and recapitalization with BT Brunei and the resulting effect in net equity was eliminated upon completion of the reverse merger and recapitalization with BT Brunei.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operation should be read in conjunction with our unaudited consolidated financial statements and footnotes for the three months ended March 31, 2012, and 2011.

Overview

Our main business focus is to function as a “one stop shop” for the sourcing, distribution and specialty manufacturing of toys and related products. We conduct these operations through both BT Brunei, which focuses on export sales, and BT Shantou, which concentrates on domestic sales. We are located in Shantou City of Guangdong province, the geographical region well-known for toys manufacturing and exporting in China. Since its inception in 2003, BT Shantou has provided a number of procurement services for domestic and international toy distributors and wholesalers, including identifying, evaluating, and engaging local manufacturers for supply of toys, as well as to arrange for OEM services in which local OEMs produce toy products to the specific specifications of one of our customers. BT Brunei’s operations are currently focused on procurement services for export customers. We do not manufacture any products. We source a wide variety of 800,000 toys made of plastic, wood, metal, wool, and electronic materials, primarily targeting children from infants to teenagers.

We source toys to distributors, trading companies, and wholesalers primarily located in mainland China, Hong Kong, Europe, South America, and Asia. The end customers are typically children, ranging from infants to teenagers, in these countries and regions. From a geographic perspective, outside of Asia which represented a majority of our revenues, the sales to Great Britain market and the combined sales with Chile and Mexico in South America represented 29% and 8%, respectively, of our total revenues for the quarter ended March 31, 2012. We have a limited amount of sales to customers in the U.S., representing less than 1% of our sales in the first quarter of 2012.

During the first quarter of 2012, our three major customers represented approximately 43.8% of our total revenues. The products sourced to these top three customers are primarily battery-operated plastic toys and regular plastic toys. In the first quarter of 2012 one of our suppliers, Changtai Toys, accounted for 48.3% of our toy purchases while in the first quarter of 2011, our purchases were through diversified suppliers.

In 2011, we began selling our Big Tree Magic Puzzle (3D) directly to Chinese domestic end consumers including children and grown-ups through our own sales counters in Dennis Department Stores and online store at Taobao Mall (www. Tmall.com), the biggest B2C online retailing platform in China. The sales from this segment represented less than 1% of our total revenue during 2011 and the first quarter of 2012. During the rest of 2012 we expect to utilize our existing distribution channels in an effort to increase the sales of this proprietary product. In addition, and subject to the availability of additional capital, should sales of this product increase in the rest of 2012 we expect to open additional retail locations from which this propriety product can be offered. While we are in the early stages of planning these additional locations and have not finalized any of these expansion plan, including the target number of locations, we estimate that the cost for each location will be approximately \$8,000 to \$16,000.

In addition to a continued focus on increasing our revenues from our procurement and OEM sourcing services, and sales of our Big Tree Magic Puzzle (3D), our growth strategies include possibly opening satellite sales offices and branches in the U.S. and other cities in China as well as the potential acquisition of distributors. We are in the early stages of development of these plans as well and have not finalized any cost or timing estimates and are not a party to any agreements. Our ability to undertake any of these expansion plans is also dependent upon our ability to raise additional capital, of which there are no assurances.

Lastly, we are evaluating the financial and operating benefits of acquisitions which include Yunjia Fashion Clothing Co., Ltd. (“Yunjia”) and Xinzhongyang, both related parties. We believe that the possible acquisition of Yunjia which would include its commercial real estate property where our current offices and toy showroom is located, could provide us with additional space to permit us to expand our business services, including the addition of more showrooms and an OEM procurement center while controlling our overhead expenses.

- 14 -

Second, in the event sales of our Big Tree Magic Puzzle (3D) begin to build to a sustainable level, of which there are no assurances, we believe the acquisition of our contract manufacturer, Xinzhongyang, could enable us to have greater control over our production process and provide an avenue for further business expansion through the provision of contract manufacturing services to third parties. If we should determine to proceed with the acquisition of Yunjia or Xinzhongyang, or both, of which there is no assurance, it is likely that we would acquire these companies for equity in our company which will be dilutive to our existing shareholders. We are not a party to any agreements at this time for an acquisition of either Yunjia Xinzhongyang and we may determine that neither acquisition would provide a financial or operating benefit to our company.

Results of Operations

Our consolidated revenues for the first quarter of 2012 amounted to \$6.3 million, an increase of \$5.7 million over the same period in 2011. The increase in revenues for the first quarter of 2012 was primarily due to \$5.8 million of sales revenues from BT Brunei, partially offset by a decrease of \$0.1 million from BT Shantou.

In the first quarter of 2012, our consolidated revenues included sales revenues from BT Brunei and BT Shantou. During the first quarter of 2011, our consolidated revenues included sales revenues from BT Shantou only as BT Brunei was established in the second quarter 2011. Our strategy is to utilize BT Brunei to continue to increase our customer base for export sales of toys, while continuing to expand our domestic distribution sales channels within China through BT Shantou. BT Brunei is organized in the State of Brunei Darussalam which is a non-taxable jurisdiction. Sales revenues from BT Brunei are not subject to income taxes as compared to sales revenues from BT Shantou which are subject to a PRC tax rate of 25%. These operational costs savings have permitted the Company to leverage our export sales contacts to significantly expand the Company's export sales in 2011 and in the first quarter of 2012 by permitting us to be more price competitive. As of our revenues in the first quarter of 2012 were generated from exports of toys, we are susceptible to the fluctuations and uncertainty of international trading conditions, currency exchange rates, and global financial crisis. In addition, due to the inflation and continuous appreciation of RMB in the past few years which has resulted in an increase in the wholesale price of toys, we will continue to face challenges in finding ways to effectively compete in the pricing of toy products in our domestic and export markets while maintaining our margins. We expect our revenues to increase in the rest of 2012 over 2011 as we continue to expand our export sales efforts.

Cost of revenues was \$5.6 million for the first quarter of 2012, an increase of \$5.1 million over the same period of 2011, while cost of revenues as a percentage of revenues decreased to 89.1% in the first quarter of 2012 from 89.9 % in the same period of 2011. The increase in cost of revenues was primarily due to \$5.2 million of cost of sales from BT Brunei, partially offset by a decrease of \$0.1 million from BT Shantou. As a result of increased sales during the 2011 period, we were able to take advantage of more favorable pricing for both the cost of toy products from our suppliers and reduced costs in logistics services from increased volume.

Our gross profit was \$0.7 million for the first quarter of 2012, an increase of \$0.6 million over the same period of 2011. Sales attributable to BT Brunei had a gross margin of 10.9%, while sales attributable to BT Shantou had a gross margin of 10.7%. Our consolidated gross margin was 10.9% for the first quarter of 2012 as compared to 10.1% for the same period in 2011. This increase was primarily due to higher sales and the resulting volume pricing discussed above.

Operating expenses, composed of selling and general and administrative expenses, amounted to \$0.5 million for the first quarter of 2012, an increase of \$0.4 million over the same period in 2011. Selling expense increased by \$0.3 million in the first quarter of 2012 as compared to the same period in 2011, primarily due to procurement service fees paid to Universal Toys, a related party, for toy purchases. General and administrative expenses increased by \$0.2

million in the first quarter of 2012 as compared to the same period in 2011. This increase was primarily due to higher salary and employee benefits of approximately \$0.1 million due to additional sales employees. We expect operating expenses to continue to increase in 2011, including increased costs associated with our public company reporting obligations, but we are unable at this time to quantify the amount of the expected increase.

Our net income for the first quarter of 2012 amounted to \$0.2 million as compared to \$15,086 for the same period in 2011. The increase was primarily due to higher revenues and gross profit partially offset by an increase of \$0.4 million in selling, general and administrative expenses.

- 15 -

Liquidity and Capital Resources

Liquidity is the ability of a company to generate sufficient cash to meet its operational cash requirements. We had working capital of \$2.0 million, including cash on hand of \$0.2 million, as of March 31, 2012, as compared to a working capital of \$ 1.6 million as of December 31, 2011. Our primary uses of cash have been for purchases of toy products, selling, and general and administrative expenses. Our primary sources of cash are derived from revenues from the sales of our toy products.

At March 31, 2012 and December 31, 2011, we maintained cash and cash equivalents of \$172,316 and \$246,532 respectively, in financial institutions located in China. Cash held in banks in the PRC is not insured. The value of cash on deposit in China has been converted to U.S. dollars based on the exchange rate as of respective balance sheet dates. In 1996, the Chinese government introduced regulations, which relaxed restrictions on the conversion of the RMB; however restrictions still remain, including but not limited to restrictions on foreign invested entities. Foreign invested entities may only buy, sell or remit foreign currencies after providing valid commercial documents at only those banks authorized to conduct foreign exchanges. Furthermore, the conversion of RMB for capital account items, including direct investments and loans, is subject to PRC government approval. Chinese entities are required to establish and maintain separate foreign exchange accounts for capital account items. We cannot be certain Chinese regulatory authorities will not impose more stringent restrictions on the convertibility and outflow of RMB, especially with respect to foreign exchange transactions. Accordingly, cash on deposit in banks in the PRC is not readily deployable by us for purposes outside of China.

Total current assets at March 31, 2012 increased by \$1.5 million from December 31, 2011. The principal contributor to this change was an increase in accounts receivable which reflects sales increases during the first quarter of 2012, together with increases in advances to suppliers and prepaid expenses and inventories. Total current liabilities increased by \$1.0 million at March 31, 2012 primarily due to an increase in accounts payable and accrued expenses, which was a result of increased purchases to fulfill higher sales volume in the first quarter of 2012, together with increases in due to related parties and other payables. The increase in due to related parties is reflects funds advanced to us by our Chairman and CEO, as well as other related parties, for working capital. We do not have any commitments for capital expenditures and expect that our cash on hand and cash flow from operations will be sufficient to sustain our operations for at least the next twelve months. However, the following trends are reasonably likely to require us to raise additional capital.

- An increase in working capital requirements to finance near term and long term growth strategy including possible acquisitions;
- Increases in capital expenditures, marketing and administrative expenses to support the sales growth of our company;
- The costs for recruitment and retention of additional management and personnel to support our operations and expansion plans; and
- The additional costs, including legal accounting and consulting fees, associated with a public company and related compliance activities.

We do not have any external sources of working capital. We may seek to raise capital through the sale of equity in our company, however, we are not a party to any agreement or understandings at this time and there are no assurances we will be able to raise capital on terms satisfactory to us, or at all. If we are unable to raise additional capital as may be needed, our ability to grow our company and increase our revenues in future periods will be adversely impacted.

Cash Flows Analysis

NET CASH FLOW (USED IN)/ PROVIDED BY OPERATING ACTIVITIES:

Net cash used in operating activities was \$0.1 million for the first quarter of 2012, as compared to net cash used in operating activities of \$8,480 for the same period of 2011. The increase in cash outflow from operating activities for the first quarter of 2012 was primarily due to an increase of \$1.0 million in accounts receivable from higher sales and \$0.5 million used for inventory to fulfill higher customer demand, partially offset by a decrease of \$0.7 million in prepaid expenses and other current assets and an increase of \$0.5 million in account payable from higher level of products purchased.

NET CASH FLOW USED IN INVESTING ACTIVITIES:

Net cash used in investing activities amounted to \$521 for the first quarter of 2012 as a result of purchase of property, plant and equipment with no comparable amount for 2011.

- 16 -

NET CASH FLOW USED IN FINANCING ACTIVITIES:

Net cash provided by financing activities was \$20,000 for the first quarter of 2012, due to a loan we obtained for working capital purpose with no comparable amount for 2011.

Off Balance Sheet Arrangements

Under SEC regulations, we are required to disclose our off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, such as changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. An off-balance sheet arrangement means a transaction, agreement or contractual arrangement to which any entity that is not consolidated with us as a party, under which we have:

- Any obligation under certain guarantee contracts,
- Any retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets,
- Any obligation under a contract that would be accounted for as a derivative instrument, except that it is both indexed to our stock and classified in stockholder's equity in our statement of financial position, and
- Any obligation arising out of a material variable interest held by us in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to us, or engages in leasing, hedging or research and development services with us.

We do not have any off-balance sheet arrangements that we are required to disclose pursuant to these regulations. In the ordinary course of business, we enter into operating lease commitments, purchase commitments and other contractual obligations. These transactions are recognized in our financial statements in accordance with U.S. GAAP.

Critical Accounting Policies

The preparation of financial statements in conformity with U.S. GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements and accompanying notes. The SEC has defined a company's critical accounting policies as the ones that are most important to the portrayal of the company's financial condition and results of operations, and which require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, we have identified the critical accounting policies and judgments addressed below. We also have other significant accounting policies, which involve the use of estimates, judgments and assumptions that are significant to understanding our results, which are described in Note 2 to our financial statements. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

Revenue recognition

We follow the guidance of ASC 605, "Revenue Recognition," and the SEC Staff Accounting Bulletin (SAB) No. 104 and SAB Topic 13 for revenue recognition. In general, we record revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is

fixed or determinable and collectability is reasonably assured.

Revenues for our product sales are recognized when all four of the following criteria are met: (i) persuasive evidence of an arrangement exists through a formal purchase order; (ii) delivery of the products has occurred and risks and rewards of ownership have passed to the customer; (iii) the selling price is both fixed and determinable based upon an agreement between our company and our customer; and (iv) collectability is reasonably assured. For any advance payments from customers, revenues are deferred until such a time when all the four criteria mentioned above are fully met.

- 17 -

Estimates

Significant estimates for the periods reported include the allowance for doubtful accounts which is based on an evaluation of our outstanding accounts receivable including the age of amounts due, the financial condition of our specific customers and historical bad debt experience. This evaluation methodology has proven to provide a reasonable estimate of bad debt expense in the past and we intend to continue to employ this approach in our analysis of collectability. However, we are aware that given the current global economic crises, including that of the PRC, meaningful time horizons may change. We intend to enhance our focus on the evaluation of our customers' sustainability and adjust our estimates as may be indicated.

We rely on assumptions such as volatility, forfeiture rate, and expected dividend yield when calculating the fair value of our derivative liability related to common stock purchase warrants. We also rely on assumptions and estimates to calculate our reserve for obsolete inventory and the depreciation of property, plant and equipment. We make assumptions of expiration of our products held as inventory based on historical experience and if applicable, regulatory recommendation. We also group property plant and equipment into similar groups of assets and estimate the useful life of each group of assets.

Further, we rely on certain assumptions and calculations underlying our provision for taxes in the PRC. Assumptions and estimates employed in these areas are material to our reported financial conditions and results of operations. These assumptions and estimates have been materially accurate in the past and are not expected to materially change in the future. Actual results could differ from these estimates.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable for smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) that are designed to ensure that information required to be disclosed by us in reports that we file under the Exchange Act is recorded, processed, summarized and reported as specified in the SEC's rules and forms and that such information required to be disclosed by us in reports that we file under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer (CEO), and our Chief Financial Officer (CFO), to allow timely decisions regarding required disclosure. Management, with the participation of our CEO and CFO, performed an evaluation of the effectiveness of our disclosure controls and procedures as of March 31, 2012.

Based on this evaluation we concluded that as of March 31, 2012 our disclosure controls and procedures were not effective such that the information relating to our company, including our consolidated subsidiaries, required to be disclosed in our SEC reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure as a result of continuing material weaknesses in our internal control over financial reporting previously identified in our Annual Report on Form 10-K for the year ended December 31, 2011.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting identified in connection with our evaluation during our first quarter ended March 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
