Both are expected to be effective about November , 2016.

WE ARE NOT ASKING YOU FOR A PROXY
AND YOU ARE REQUESTED NOT TO SEND US A PROXY

VOTE REQUIRED

The vote required to approve the Proposal is the affirmative vote of the holders of a majority of the Company's Voting Capital Stock. Each holder of Common Stock is entitled to one vote for each share held. The record date for purposes of determining the number of outstanding shares of Common Stock of the Company, and for determining stockholders entitled to vote, is the close of business on October 11, 2016 (the "Record Date"). On October 12, 2016, the Board of Directors of the Company adopted the resolution setting forth and recommending the Amendment that was approved by a written consent of majority stockholders. As of the Record Date, the Company had outstanding 1,835,648,615 shares of Common Stock.

VOTE OBTAINED - SECTION 607.0704 FLORIDA BUSINESS CORPORATION LAW

Section 607.0704 of the Florida Business Corporation Law (the "Florida Law") provides that the written consent of the holders of the outstanding shares of Voting Capital Stock, having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted, may be substituted for such a special meeting. Pursuant to Section 607.1003 of the Florida Business Corporation Law and the Bylaws of the Company, a majority of the outstanding shares of Capital Stock entitled to vote thereon is required in order to amend the Certificate of Incorporation. In order to eliminate the costs and management time involved in holding a special meeting and in order to effect the Amendment as early as possible

in order to accomplish the purposes of the Company as hereafter described, the Board of Directors of the Company voted to utilize, and did in fact obtain, the written consent of the holders of a majority in the interest of the Capital Stock of the Company.

Pursuant to Section 607.0704 of the Florida Business Corporation Law, the Company is required to provide prompt notice of the taking of the corporate action without a meeting to the stockholders of record who have not consented in writing to such action. This Information Statement is intended to provide such notice. No dissenters' or appraisal rights under the Florida Law are afforded to the Company's stockholders as a result of the approval of the Proposal.

PROPOSAL TO REVERSE SPLIT OF
COMMON STOCK OF THE COMPANY

GENERAL

On October 12, 2016, the Board of Directors approved, with a written consent by majority stockholders, an Amendment to the Company's Certificate of Incorporation to effectuate a reverse split at a ratio of one for one hundred.

As of the Record Date on October 11, 2016, the Company had outstanding 1,835,648,615 shares of Common Stock held by approximately 31 shareholders of record. A copy of the Company's proposed Certificate of Amendment effectuating the increase is attached hereto as Appendix A.

CERTAIN MATTERS RELATED TO THE PROPOSAL

The Amendment will become effective upon filing the Amendment to the Company's Certificate of Incorporation.

SECURITY OWNERSHIP OF
CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information known to the Company regarding the beneficial ownership of each class of the Company's voting securities as of October 11, 2016, by (a) each beneficial owner of more than 5% of the Company's Common Stock, (b) the executive officers of the Company; (c) each director of the Company and (d) all directors and executive officers of the Company as a group. Except as otherwise indicated, each person has sole voting and investment power with respect to all shares shown as beneficially owned, subject to community property laws where applicable. The Common Stock shareholders, holding 999,643,537 votes or approximately 54.46 % of the voting equity of the Company, has voted in favor of the Amendment, thereby satisfying the requirement that at least a majority of the voting equity vote in favor of a corporate action by written consent.

Title of Class	Nature of Name and Address of Beneficial Owner	Amount and Percent of Beneficial Ownership
Common Stock	Yuejian Wang 431 Fairway Drive, Suite 200 Deerfield Beach	915,000,000 49.9%
Common Stock	Tangiers Investment Group, LLC 2251 San Diego Avenue, Suite B150 San Diego CA 92110	84,643,537 4.56%
Common Stock	All Directors and Officers as a group (one person)	915,000,000 49.9%

The Company believes that the beneficial owners of securities listed above, based on information furnished by such owners, have sole investment and voting power with respect to such shares, subject to community property laws where applicable. Beneficial ownership is determined in accordance with the rules of the Commission and generally includes voting or investment power with respect to securities. Shares of stock subject to options or warrants currently exercisable, or exercisable within 60 days, are deemed outstanding for purposes of computing the percentage of the person holding such options or warrants, but are not deemed outstanding for purposes of computing the

percentage of any other person.

On October 12, 2016, our Board acted by unanimous written consent to adopt the Amendment to Article FOURTH of our Certificate of Incorporation effecting a Reverse Split of our Common Stock at a ratio of one for one hundred and with such Reverse Split to be effected on November , 2016. Effecting the Reverse Split requires that Article FOURTH of our Certificate of Incorporation be amended to include a reference to the Reverse Split. The additional text added to Article FOURTH is attached as Appendix A to this Information Statement. In addition, the Board of Directors approved an Amendment to the Company's Certificate of Incorporation to increase the authorized capital stock to 9,520,000,000 shares from 2,520,000,000 shares, which will include an increase of the authorized shares of common stock, par value \$0.0001 per share, to 9,500,000,000 shares from 2,500,000,000 shares and no increase in the number of authorized shares of preferred stock, par value \$0.0001 per share, 20,000,000. On October 11, 2016, the Proposal was approved by written consent of holders of a majority of the Company's common Stock. The Amendment will be effective upon the filing of the Certificate of Incorporation (or on such date and time as specified therein) in the form attached as Appendix A with the Secretary of State of the State of Florida with such filing to occur.

- 2 -

The intent of the Reverse Split is to increase the per share trading price of our Common Stock, which is currently trading on the OTC, to a level sufficiently for visibility and liquidity in the public market.

One principal effect of the Reverse Split would be to decrease the number of outstanding shares of our Common Stock. Except for de minimus adjustments that may result from the treatment of fractional shares as described below, the Reverse Split will not have any dilutive effect on our stockholders since each stockholder would hold the same percentage of our Common Stock outstanding immediately following the Reverse Split as such stockholder held immediately prior to the Reverse Split. The relative voting and other rights that accompany the shares of Common Stock would not be affected by the Reverse Split. The table below sets forth the number of shares of our Common Stock outstanding before and after the Reverse Split based on 1,835,648,615 shares of Common Stock outstanding as of the Record Date.

	Prior to the Reverse Split	After to the Reverse Split
A g g r e g a t e Number of Shares o f C o m m o n Stock*	1,835,648,615	18,356,486

* The numbers in the table above do not reflect the possible exercise of outstanding options, warrants and convertible preferred stock which will be proportionately adjusted to give effect to the completion of the Reverse Stock Split.

The post-split shares estimate a specific number of rounded shares.

Although the Reverse Split will not have any dilutive effect on our stockholders, the proportion of shares owned by our stockholders relative to the number of shares authorized for issuance will decrease because the Reverse Split does not change the current authorized number of shares of capital stock from 9,520,000,000 shares, consisting of 9,500,000,000 shares of Common Stock and 20,000,000 shares of Preferred Stock. The remaining authorized shares of Common Stock and Preferred Stock may be used for various purposes, including, without limitation, raising capital, providing equity incentives to employees, officers or directors, effecting stock dividends, establishing strategic relationships with other companies and/or expanding our business through the acquisition of other businesses or products. By not reducing the number of authorized shares of Common Stock, the Company will have additional authorized but unissued shares of Common Stock available for any proper corporate purpose. As of the mailing date of this Information Statement, the Company has no specific definitive terms for the issuance of its Common Stock and/or Preferred Stock to raise capital. Nevertheless, in order to support our projected need for additional capital and to provide flexibility to raise the capital as necessary, our Board believes the number of authorized shares of Common Stock and Preferred Stock should remain at 9,500,000,000 and 20,000,000, respectively. It should be noted that as of the Record Date, the Company has outstanding 1,006 shares of Series A Preferred Stock.

Reasons for the increase of authorized common stock

The Board of Directors of the Company approved, declared it advisable and in the Company's best interests and directed that there be submitted to the holders of a majority of the Company's Voting Capital Stock for action by written consent the proposed amendment to Article IV of the Company's Certificate of Incorporation to approve an amendment to the Certificate of Incorporation to increase the authorized capital stock to 9,520,000,000 shares from 2,520,000,000 shares, which will include an increase of the authorized shares of common stock, par value \$0.0001

per share, to 9,500,000,000 shares from 2,500,000,000 shares and no increase in the number of authorized shares of preferred stock, par value \$0.0001 per share, 20,000,000 shares. The Board of Directors has fixed the close of business on October 11, 2016 as the record date for the determination of shareholders who are entitled to give consent and receive this information statement. As of the Record Date, the Company had outstanding 1,835,648,615 shares of Common Stock held by approximately 31 shareholders of record, 1,006 shares of Series A Preferred Stock held by 2 shareholders of record. A copy of the Company's proposed Certificate of Amendment effectuating the increase is attached hereto as Appendix A.

Reasons for increasing authorized shares of common stock

As previously disclosed by the company's periodic Form 10-K and 10-Q SEC filings, the Company needs to pay off both aged and new convertible notes in the event that note holders decide to convert their notes to the shares of the Company's common stock.

On July 30, 2014, the Company closed a senior secured revolving credit facility agreement (the "Credit Agreement") with TCA Global Credit Master Fund, LP ("TCA"), a Cayman Islands limited partnership. Pursuant to the Credit Agreement, TCA agreed to loan the Company up to a maximum of \$5 million for working capital purposes. The initial credit line is \$2,000,000 subject to funding in the discretion of TCA. In connection with the closing, an initial take down of \$650,000 was funded by TCA. Any increase in the amount of the credit line from the initial amount up to the maximum amount is at the discretion of TCA. On July 31, 2014, the Company issued 3,154,115 restricted shares of our common stock valued at about \$0.06 per share to TCA for a total of \$175,000 for advisory services provided. Based on the Credit Agreement, upon an event of default, the lender may convert all or any portion of the outstanding principal and accrued interest payables into shares of the Company's common stock equal to the 85% of the average of the lowest daily volume weighted average price ("VWAP") of the five business days prior to the conversion day. On October 15, 2015, the Company and TCA entered into a settlement agreement pursuant to which both parties agreed that the outstanding obligations the Company owed to TCA should be \$1,036,032 as of October 8, 2015, including \$765,133 for the principal, accrued and unpaid interest and other fees and charges and \$270,899 for the advisory fees. The total obligation of \$1,036,032 was split into two separate and distinct replacement notes for the balance of \$50,000 and \$986,032. According to the terms agreed upon in the settlement agreement, the Company should make monthly payments to TCA in the amount of \$40,000 commencing on November 30, 2015 until the complete repayment of all payables due to TCA. On December 9, 2015, the Company entered into a note purchase agreement with an institutional investor to sell \$100,000 of this TCA loan. From December 14, 2015 to December 22, 2015, the institutional investor converted the debt purchased into a total of 82,688,447 shares of CDII common stock to make \$100,000 repayment to TCA. The Company has accrued principal, unpaid interest and other fees and charges of \$763,257, advisory fees of \$270,900, and other legal expenses of \$40,342 as of September 30, 2015.

On April 7, 2014, China Direct Investments borrowed \$600,000 from Kong Tung, who was a former Director of the Company. The Company recorded this loan and interest payable as a related party transaction. Since Kong Tung resigned his position as a Director of the Company on March 26, 2015, the Company reclassified the principal of the related party loan of \$600,000 and related party interest payable of \$141,600 as of March 31, 2015 to loan payable and interest payable, respectively. On January 7, 2015, the Company and Kong Tung entered into an amendment to a promissory note, where the maturity date of the note is extended to December 31, 2015 and a conversion option is added. Pursuant to the amendment to promissory note, after the maturity date of the note, the note holder shall have the right, at any time and from time to time, to convert the outstanding principal amount and accrued interest into CDII's common stock. The conversion price shall be equal to 85% of the closing price of CDII common stock on the date of conversion. On October 14, 2015, the Company and an institutional investor entered into a convertible promissory note pursuant to which the institutional investor agreed to purchase the loan from Kong Tung with the principal balance of \$600,000 and accrued interest of \$214,000 in accordance with the terms specified in the note depending on the availability of the funding. On October 15, 2015, Kong Tung and an institutional investor entered into a note purchase agreement pursuant to which the institutional investor agreed to purchase \$50,000 of the \$600,000 note from Kong Tung.

On October 13, 2015, the Company issued a convertible promissory note to an institutional investor and the principal is \$25,000 with a 10% original discount. The conversion price is 60% of the lowest trade price in the 25 trading days previous to the conversion date. The Company has the option to pre-pay the loan within 90 days with no interest. After 90 days, the note will bear a 12% one-time interest charge. This note becomes due and payable on October 12, 2017.

On October 15, 2015, the Company issued a convertible promissory note for the amount of \$25,000 to an institutional investor, at a 10% annual interest rate. This note provides conversion features equal to 55% of the lowest trading price

of the Company's common stock during the 10 consecutive trading days prior to the date of conversion. This note becomes due and payable on October 15, 2016. The sum of \$20,000 was remitted and delivered to the Company and the remaining \$5,000 was retained by the purchaser through an original issue discount for due diligence and legal bills related to the transaction. Additional interest will accrue from the date of event of default at the rate equal to the lower of 18% per annum or the highest rate permitted by law.

On October 16, 2015, the Company entered into an amendment to a promissory note (Amendment I) for a total amount of \$700,000 with Yewen Xi, pursuant to which Yewen Xi has rights, at any time, to convert the outstanding principal amount and accrued interest into the Company's common shares. The conversion price is equal to 75% of the average closing price of the Company's common stock for five consecutive days prior to the conversion. On January 5, 2016, the Company and Yewen Xi entered into another amendment to the promissory note (Amendment II), pursuant to which the maturity date of \$500,000 out of the total \$700,000 is extended to September 30, 2016, and the holder of the note has the right to convert the outstanding balance and accrued interest after January 1, 2016 at the same conversion price stated in Amendment I.

On October 20, 2015, the Company issued a convertible promissory note for the amount of \$40,000 to an institutional investor, at a 10% annual interest rate. This note provides conversion features, and the conversion price is the lower of (1) the closing sale price of the common stock on the principal market on the trading day immediately preceding the closing date, and (2) 60% of the lowest trading price of the Company's common stock during the 20 consecutive trading days prior to the date of conversion. This note becomes due and payable on October 20, 2016 and is guaranteed by all the subsidiaries of the Company.

On October 22, 2015, the Company issued a convertible note to an institutional investor for the principal amount of \$25,000 with interest rate of 8% and maturity date of October 22, 2016. The holder of the note is entitled to convert the note into the Company's common stock at a price equal to 60% of the lowest trading price for the last 20 trading days prior to conversion.

On January 25, 2016, the Company issued a convertible promissory note for the amount of \$35,000 to an institutional investor, at a 12% annual interest rate. This note becomes due and payable on January 25, 2017. This note provides a conversion rate equal to 55% of the lowest trading price of the Company's common stock during the 10 consecutive trading days prior to the date of conversion.

On March 2, 2016, the Company issued a convertible promissory note for the amount of \$56,750 to an institutional investor, at a 10% annual interest rate and default interest rate at 24%. This note becomes due and payable on December 2, 2016. This note provides conversion features equal to 55% of the lowest trading price of the Company's common stock during the 25 consecutive trading days prior to the date of conversion. On March 11, 2016, the Company received \$45,000 in cash and \$11,750 was retained by the institutional investor through an original issue discount for due diligence and legal bills related to this transaction.

On April 5, 2016, the Company issued a convertible promissory note for the amount of \$60,000 to an institutional investor, at a 10% annual interest rate. This note becomes due and payable on April 5, 2017. This note provides conversion features equal to 55% of the lowest trading price of the Company's common stock during the 10 consecutive trading days prior to the date of conversion. On April 8, 2016, the Company received \$50,000 in cash and \$10,000 was retained by the institutional investor through OID.

On April 19, 2016, the Company issued a convertible promissory note for the amount of \$15,000 to an institutional investor, at a 12% annual interest rate. This note becomes due and payable on January 19, 2017. This note provides conversion features equal to 55% of the lowest trading price of the Company's common stock during the 15 consecutive trading days prior to the date of conversion. On April 29, 2016, the Company received \$11,700 in cash and \$3,300 was retained by the institutional investor through OID.

On April 20, 2016 and May 18, 2016, the Company issued a convertible promissory note for the amount of \$24,000 and \$24,000 to an institutional investor, at 8% annual interest rate, respectively. These notes become due and payable on April 20, 2017 and May 18, 2017, respectively. These notes provide conversion features equal to 55% and 50% of the lowest trading price of the Company's common stock during the 15 consecutive trading days prior to the date of conversion, respectively. On April 28, 2016 and June 1, 2016, the Company received \$20,000 in cash and \$4,000 was retained by the institutional investor through OID, respectively.

The additional authorized shares also will be available for issuance from time to time by the Company in the discretion of the Board of Directors, normally without further stockholder action (except as may be required for a particular transaction by applicable law, requirements of regulatory agencies or by stock exchange rules), for any proper corporate purpose including, among other things future acquisitions of property or securities of other corporations, stock dividends, stock splits, stock options, convertible debt and equity financing. The availability of additional authorized but unissued shares will be achieved by increasing the authorized common stock, par value

\$0.0001 per share, to 9,500,000,000 shares from 2,500,000,000 shares. In the judgment of the Board of Directors, this increase is necessary in order to attract potential new equity capital and carry out the Company's business objectives.

Reasons for the Reverse Split

The primary objective of the Reverse Split is to raise the per share trading price of our Common Stock, which is currently trading only on the OTC, to allow for visibility of the stock in the public market.

Our Board has determined that by increasing the market price per share of our Common Stock, we would increase visibility and liquidity of the company's common stock. Our Board concluded that the liquidity and marketability of our Common Stock may be adversely affected if its price is trading too low. Our Board believes that current and prospective investors and the brokerage community may view an investment in our Common Stock more favorably if the stock price is trading at a higher level.

Our Board also has confidence that the Reverse Split and any resulting increase in per share price of our Common Stock should enhance the acceptability and marketability of our Common Stock to the financial community and investing public. Many institutional investors have policies prohibiting them from holding lower-priced stocks in their portfolios, which reduces the number of potential buyers of our Common Stock, although we have not been told by them that is the reason for not investing in our Common Stock. Additionally, analysts at many brokerage firms are reluctant to recommend lower-priced stocks to their clients or monitor the activity of lower-priced stocks. Brokerage houses frequently have internal practices and policies that discourage individual brokers from dealing in lower-priced stocks. Further, because brokers' commissions on lower-priced stock generally represent a higher percentage of the stock price than commissions on higher priced stock, investors in lower-priced stocks pay transaction costs which are a higher percentage of their total share value, which may limit the willingness of individual investors and institutions to purchase our Common Stock.

Potential Disadvantages of the Reverse Split

As noted above, the principal purpose of the Reverse Split would be to potentially increase the per share market price of our Common Stock by factor of two hundred. We cannot assure you, however, that the Reverse Split will accomplish this objective for any meaningful period of time. While we expect that the reduction in the number of outstanding shares of Common Stock will increase the market price of our Common Stock, we cannot assure you that the Reverse Split will increase the market price of our Common Stock by an equivalent multiple, or result in any permanent increase in the market price of our Common Stock. The price of our Common Stock is dependent upon many factors, including our business and financial performance, general market conditions and prospects for future success. If the per share market price does not increase proportionately as a result of the Reverse Split, then the value of our Company as measured by our stock capitalization will be reduced, perhaps significantly.

Although our Board believes that the decrease in the number of shares of our Common Stock outstanding as a consequence of the Reverse Split and the anticipated increase in the market price of our Common Stock could encourage interest in our Common Stock and possibly promote greater liquidity for our stockholders, such liquidity could also be adversely affected by the reduced number of shares outstanding after the Reverse Split.

Effecting the Reverse Split

Upon filing the definitive information statement with the SEC, the Amendment will be filed with the Secretary of State of the State of Florida twenty (20) days after mailing the definitive information statement to stockholders, which date is anticipated to be approximately November , 2016.

Upon the filing of the Amendment, without further action on our part or our stockholders, the outstanding shares of Common Stock held by stockholders of record as of the Effective Time would be converted into a lesser number of shares of Common Stock. For example, if you presently hold one hundred shares of our Common Stock, you would hold one share of our Common Stock following the Reverse Split.

Effect on Outstanding Shares, Options and Certain Other Securities

When the Reverse Split is implemented, the number of shares our Common Stock owned by each stockholder will be reduced in the same proportion as the reduction in the total number of shares outstanding, such that the percentage of our Common Stock owned by each stockholder will remain unchanged except for any de minimus change resulting from rounding up to the nearest number of whole shares so that we are not obligated to issue cash in lieu of any fractional shares that such stockholder would have received as a result of the Reverse Split. The number of shares of our Common Stock that may be purchased upon exercise of outstanding options or other securities convertible into, or exercisable or exchangeable for, shares of our Common Stock, and the exercise or conversion prices for these securities, will also be ratably adjusted in accordance with their terms as of the Effective Time.

- 6 -

Fractional Shares; Exchange of Stock Certificates

Our Board does not currently intend to issue fractional shares in connection with the Reverse Split. Therefore, we do not expect to issue certificates representing fractional shares. In lieu of any fractional shares, we will issue to stockholders of record who would otherwise hold a fractional share because the number of shares of Common Stock they hold before the Reverse Split is not evenly divisible by the Reverse Split ratio that number of shares of Common Stock as rounded up to the nearest whole share. For example, if a stockholder holds three hundred shares of Common Stock following the Reverse Split, that stockholder will receive a certificate representing one share of Common Stock. No stockholders will receive cash in lieu of fractional shares.

As of the Record Date, we had 31 holders of record of our Common Stock (although we have significantly more beneficial holders), and 2 holders of Series A Preferred Stock. We do not expect the Reverse Split and the rounding up of fractional shares to whole shares to result in a reduction in the number of record holders.

On or after October , 2016, we will mail a letter of transmittal to each common stockholder. Each common stockholder will be able to obtain a certificate evidencing his, her or its post-Reverse Split shares only by sending Vstock Transfer as the exchange agent, the stockholder's old stock certificate(s), together with the properly executed and completed letter of transmittal and such evidence of ownership of the shares as we may require. Common stockholders will not receive certificates for post-Reverse Split shares unless and until their old certificates are surrendered. Common stockholders should not forward their certificates to the exchange agent until they receive the letter of transmittal, and they should only send in their certificates with the letter of transmittal. The exchange agent will send each common stockholder a new stock certificate after receipt of that common stockholder's properly completed letter of transmittal and old stock certificate(s). Preferred stockholders do not have to exchange their existing stock certificates for new certificates.

Common stockholders who hold shares in street name through a nominee (such as a bank or broker) will be treated in the same manner as common stockholders whose shares are registered in their names, and nominees will be instructed to effect the Reverse Split for their beneficial holders. However, nominees may have different procedures and common stockholders holding shares in street name should contact their nominees. Common stockholders will not have to pay any service charges in connection with the exchange of their certificates.

Authorized Shares

When effectuating the Reverse Split, the authorized number of shares of our Common Stock will be increased to 9,500,000,000 from 2,500,000,000. As a result, the proportion of shares owned by our stockholders relative to the number of shares authorized for issuance will decrease and the additional authorized shares of Common Stock will be available for issuance at such times and for such purposes as our Board may deem advisable without further action by our stockholders, except as required by applicable laws and regulations.

The Reverse Split will have no effect on our authorized preferred stock except to proportionately adjust the conversion and voting ratios.

In accordance with our Certificate of Incorporation and Florida law, our shareholders do not have any preemptive rights to purchase or subscribe for any of our unissued or treasury shares. No dissenters' or appraisal rights under the Florida Law are afforded to the Company's stockholders as a result of the approval of the Proposal.

Accounting Consequences

There will be no change in our par value per share of our Common Stock. Accordingly, as of the Effective Time, the stated capital attributable to Common Stock on our balance sheet will be reduced proportionately based on the Reverse Split ratio (including a retroactive adjustment of prior periods), and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. Reported per share net income or loss will be higher because there will be fewer shares of our Common Stock outstanding.

Federal Income Tax Consequences

The following summary describes certain material U.S. federal income tax consequences of the Reverse Split to holders of our Common Stock. This summary addresses the tax consequences only to a beneficial owner of our Common Stock that is a citizen or individual resident of the United States, a corporation organized in or under the laws of the United States or any state thereof or the District of Columbia or otherwise subject to U.S. federal income taxation on a net income basis in respect of our Common Stock (a "U.S. holder"). This summary does not address all of the tax consequences that may be relevant to any particular stockholder, including tax considerations that arise from rules of general application to all taxpayers or to certain classes of taxpayers or that are generally assumed to be known by investors. This summary also does not address the tax consequences to persons that may be subject to special treatment under U.S. federal income tax law or persons that do not hold our Common Stock as "capital assets" (generally, property held for investment). This summary is based on the provisions of the Internal Revenue Code of 1986, as amended, U.S. Treasury regulations, administrative rulings and judicial authority, all as in effect as of the date hereof. Subsequent developments in U.S. federal income tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the U.S. federal income tax consequences of the Reverse Stock Split.

If a partnership (or other entity classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of our Common Stock, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Partnerships that hold our Common Stock, and partners in such partnerships, should consult their own tax advisors regarding the U.S. federal income tax consequences of the Reverse Split.

Each stockholder should consult his, her or its own tax advisor regarding the U.S. federal, state, local and foreign income and other tax consequences of the Reverse Stock Split.

The Reverse Split should be treated as a recapitalization for U.S. federal income tax purposes. Therefore, no gain or loss should be recognized by a U.S. holder upon the Reverse Split. Accordingly, the aggregate tax basis in the Common Stock received pursuant to the Reverse Split should equal the aggregate tax basis in the Common Stock surrendered and the holding period for the Common Stock received should include the holding period for the Common Stock surrendered.

APPENDIX A

ARTICLES OF AMENDMENT
TO
ARTICLES OF INCORPORATION
OF
CD International Enterprises, Inc.
(After Issuance of Stock)

Pursuant to the provisions of Section 607.1006, Florida Statutes, this Florida profit corporation adopts the following articles of amendment to its articles of incorporation:

FIRST: Article IV of the Articles of Incorporation is amended and restated in its entirety as follows:

"Article IV

Upon the effectiveness (the "Effective Time") of this Certificate of Amendment to the Certificate of Incorporation of the Corporation, each share of Common Stock, par value \$.0001 per share, issued and outstanding immediately prior to the Effective Time will be automatically combined and converted into that fraction of a share of Common Stock, par value \$.0001 per share, of ratio at one for one hundred (the "Consolidation"). Notwithstanding the foregoing, no fractional shares shall be issued in connection with the Consolidation. Fractional shares shall be rounded up to the nearest whole share. Each certificate that immediately prior to the Effective Time represented shares of Common Stock ("Old Certificates"), shall thereafter and without the necessity for presenting the same represent that number of shares of Common Stock into which the shares of Common Stock represented by the Old Certificate shall have been combined, subject to the rounding up of any fractional share interests as described above.

This Corporation is authorized to issue two classes of shares of stock to be designated as "Common Stock" and "Preferred Stock". The total number of shares of Common Stock which this Corporation is authorized to issue is nine billion and five hundred million (9,500,000,000) shares of commons stock, par value \$0.0001 per share, and twenty million (20,000,000) shares of preferred stock, par value \$0.0001 per share.

The shares of common Stock may be issued from time to time in one or more series. The Board of Directors of the Corporation (the "Board of Directors") is expressly authorized to provide for the issue of all or any of the shares of the Preferred Stock in one or more series, and to fix the number of shares and to determine or alter for each such series, such voting powers, full or limited, or no voting powers, and such designations, preferences, and relative, participating, optional, or other rights and such qualifications, limitations, or restrictions thereof, as shall be stated and expressed in the resolution or resolutions adopted by the Board of Directors providing for the issue of such shares (a "Preferred Stock Designation") and as may be permitted by the General Corporation Law of the State of Florida. The Board of Directors is also expressly authorized to increase or decrease (but not below the number of shares of such series then outstanding) the number of shares of any series subsequent to the issue of shares of that series. In case the number of shares of any such series shall be so decreased, the shares constituting such decrease shall resume the status that they had prior to the adoption of the resolution originally fixing the number of shares of such series."

SECOND: This amendment was adopted by unanimous resolution of the Board of Directors on October 11, 2016, and by written consent of a majority of the shareholders of the Corporation on October 12, 2016. The number of votes cast for the amendment by the shareholders was sufficient for approval.

IN WITNESS WHEREOF, I have hereunto subscribed to and executed this Amendment to Articles of Incorporation as of this 12th day of October 2016.
