NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Effective June 15, 2012, Morgan Creek Energy Corp. effected a name change on the OTC Bulletin Board to TagLikeMe Corp. (the "Company"). The Company is in the process of effecting a name change to Nola Energy Inc. The Company is a development stage company that was organized to enter into the oil and gas industry. The Company intended to locate, explore, acquire and develop oil and gas properties in the United States and within North America. In May 2012, the Company changed its business focus and plan to developing online and mobile content using search and sharing technology.

Effective June 29, 2012, the Company completed and consummated a share exchange agreement dated May 14, 2012, as fully executed on May 24, 2012 (the "Share Exchange Agreement") with Glob Media Works Inc., a company incorporated under the laws of the State of Washington ("Glob Media"), and each of the shareholders of Glob Media (collectively the "Glob Media Shareholders"), whereby the Corporation has acquired all of the issued and outstanding shares of Glob Media in exchange for the issuance of 45,378,670 shares of its restricted common stock to the Glob Media Shareholders on a pro rata basis in accordance with each Glob Media Shareholder's respective percentage equity ownership in Glob Media (Note 3). Glob Media owns intellectual property rights to its internet cloud based software application related to online search and social media developed by Glob Media. As a result of the closing of the Share Exchange Agreement, Glob Media has become the Company's direct wholly owned subsidiary.

Effective July 18, 2012, the Company completed a forward stock split by the issuance of 5 new shares for each 1 outstanding share of the Company's common stock (Note 4). Unless otherwise noted, all references herein to number of shares, price per share or weighted average shares outstanding have been adjusted to reflect this stock split on a retroactive basis.

On January 7, 2014, the Board of Directors authorized an increase in the Company's shares of common stock to 4,000,000,000 shares, par value \$0.001, and to create 20,000,000 shares of blank check preferred stock, par value \$0.001.

Effective February 10, 2014, our Board of Directors approved the designation of 2,000,000 shares of Series A preferred stock (the "Series A Preferred Stock"). The Designation of Series A Preferred Stock was filed with the Nevada Secretary of State on February 14, 2014.

On February 27, 2014, the Board of Directors authorized the execution of that certain securities exchange agreement dated February 27, 2014 (the "Securities Exchange Agreement") among the Company, Nola Energy Inc., a private Nevada corporation (the "Nola"), and the shareholders of Nola who hold of record the total issued and outstanding shares of common stock of Nola. In accordance with the terms and provisions of the Securities Exchange Agreement, the Corporation shall acquire all of the issued and outstanding shares of stock of Nola from its sole shareholder, Gerard Danos, thus making Nola its wholly-owned subsidiary, in exchange for the issuance to Gerard Danos of an aggregate 10,000 shares of its Series A preferred stock of the Corporation. The shares of Series A Preferred Stock have voting rights. Gerard Danos as holder of the Series A preferred stock shall have the right to vote on any matter to be voted on by the stockholders of the Corporation (including any election or removal of the directors of the Corporation) and including to the extent specifically required by Nevada law. The voting rights of all then issued and

outstanding shares of Series A preferred stock shall equal two times the voting rights of the then total issued and outstanding shares of common stock.

In further accordance with the terms and provisions of the Securities Exchange Agreement: (i) Gerard Danos shall be appointed as the President/Chief Executive Officer, Secretary, Treasurer/Chief Financial Officer and a member of the Board of Directors; (ii) Richard Elliot-Square shall resign from all officer positions held and retain his position as a member of the Board of Directors until both parties agree as to his resignation; (iii) execution of an executive service agreement between the Corporation and Richard Elliot-Square; and (iv) execution of a settlement agreement between the Corporation and Richard Elliot-Square regarding the settlement of \$225,000 in debt due and owing to Richard Elliot Square.

Thus, this Securities Exchange Agreement represents a change in control of the Company and has been treated as a reverse merger whereby the new operating activities of the Company are those solely of Nola. Nola has purchased leases to multiple oilfield properties primarily in southwest Texas. The Company is in the process of effecting a name change to Nola Energy Inc.

On March 13, 2014, the Board of Directors authorized an increase in the Company's shares of common stock to 7,000,000,000 shares, par value \$0.001. On March 13, 2014, the Company filed a Certificate of Amendment with the Nevada Secretary of State to increase its authorized capital to 7,000,000,000 shares of common stock, par value \$0.001.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Going concern

The Company commenced operations on October 19, 2004 and has not realized any revenues since inception. The ability of the Company to continue as a going concern is dependent on raising capital to fund ongoing operations and carry out its business plan and ultimately to attain profitable operations. Accordingly, these factors raise substantial doubt as to the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. To date the Company has funded its initial operations by way of private placements of common stock and advances from related parties.

Unaudited Interim Financial Statements

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for financial information and with the instructions to Form 10-Q of Regulation S-X. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements for the year ended December 31, 2013 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission. The unaudited financial statements should be read in conjunction with those financial statements included in the Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

Organization

The operating Company, Nola Energy Inc. was incorporated on January 16, 2014 in the State of Nevada. The Company's fiscal year end is December 31.

Basis of presentation

These financial statements are presented in United States dollars and have been prepared in accordance with United States generally accepted accounting principles.

7

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. Significant areas requiring management's estimates and assumptions are the determination of the fair value of transactions involving common stock and financial instruments. Other areas requiring estimates include deferred tax balances and asset impairment tests.

Cash and cash equivalents

For the statements of cash flows, all highly liquid investments with maturity of three months or less are considered to be cash equivalents. There were no cash equivalents as of March 31, 2014 that exceeded federally insured limits.

Financial instruments

The fair value of the Company's financial assets and financial liabilities approximate their carrying values due to the immediate or short-term maturity of these financial instruments.

Earnings (loss) per common share

Basic earnings (loss) per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Dilutive earnings (loss) per share reflects the potential dilution of securities that could share in the earnings of the Company. Dilutive earnings (loss) per share is equal to that of basic earnings (loss) per share as the effects of stock options and warrants have been excluded as they are anti-dilutive.

As of March 31, 2014, the Company has 1,205,669,062 potentially if-converted dilutive shares of common stock that are derived from the outstanding convertible notes payable.

Income taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment. As at March 31, 2014, the Company had net operating loss carryforwards, however, due to the uncertainty of realization, the Company has provided a full valuation allowance for the deferred tax assets resulting from these loss carryforwards.

Recently Issued Accounting Standards

The Company has adopted all accounting pronouncements issued since December 31, 2007, none of which had a material impact on the Company's financial statements.

Under the terms and provisions of the Convertible Note, the Corporation agreed to pay to the order of the Executive the sum of \$225,000, which amount represents those funds due and owing to the Executive commencing July 1, 2012 through April 30, 2014 for services rendered in accordance with the terms and provisions of the Executive Services Agreement. The Convertible Note shall not bear interest and is payable upon demand.

The Executive shall have the right, exercisable in whole or in part, to convert the outstanding principal into a number of fully paid and nonassessable whole shares of the Corporation's common stock. The number of whole shares of common stock into which the Convertible Note may be voluntarily converted shall be determined by dividing the aggregate principal amount borrowed by that amount equal to a 20% discount of the average trading price of the Corporation's shares of common stock on the OTC Market three days prior to receipt by the Corporation of a notice of conversion (the "Note Conversion Price").

Our board of directors approved the execution of a share exchange agreement dated effective as of May 14, 2012 as fully executed on May 21, 2012 (the "Share Exchange Agreement"), among us, Glob Media Works Inc., a private company organized under the laws of the State of Washington ("Glob Media") and the shareholders of Glob Media (the "Glob Media Shareholders"). In accordance with the terms and provisions of the Share Exchange Agreement, we acquired approximately 5,317,033 shares of common stock from the Glob Media Shareholders, which represented all of the issued and outstanding shares of Glob Media, in exchange for the issuance by us to the Glob Media Shareholders on a pro rata basis of approximately 45,378,670 shares of our restricted common stock at the rate of \$0.006 per share. This resulted in Glob Media becoming our wholly-owned subsidiary. Effective June 15, 2012, we and Glob Media and the Glob Media Shareholders, through their attorney-in-fact, approved the execution of an addendum to the Share Exchange Agreement (the "Addendum"). RESULTS OF OPERATION

Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Results of Operation for the period from inception January 16, 2014 to March 31, 2014

For the period from inception January 16, 2014 to March 31, 2014, the new operating company, Nola Energy Inc., did not have any operating activities.

Operating Activities

We have not generated positive cash flows from operating activities. For the period from January 16, 2014 to March 31, 2014, net cash flows used in operating activities was \$0.

Investing Activities

Net cash used in investing activities was \$0- for the period from January 16, 2014 to March 31, 2014.

Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity, debt and convertible debt instruments. For the period from January 16, 2014 to March 31, 2014, net cash flows provided by financing activities was \$0.

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

PLAN OF OPERATION AND FUNDING

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next six months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) oil and gas operating properties; (ii) possible drilling initiatives on current properties and future properties; and (iii) future property acquisitions. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

On May 1, 2014, the Board of Directors of Nola Energy Inc(formerly TagLikeMe Corp.), a Nevada corporation (the "Corporation"), authorized the execution of that certain six month executive service agreement dated May 1, 2014 (the "Executive Service Agreement") between the Corporation and Richard Eliot-Square, its Chief Executive Officer, Chief Financial Officer and member of the Board of Directors (the "Executive"). We do not intend to purchase any significant equipment during the next twelve months.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our December 31, 2013 and December 31, 2012 financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market risk represents the risk of loss that may impact our financial position, results of operations or cash flows due to adverse change in foreign currency and interest rates.

Exchange Rate

Our reporting currency is United States Dollars ("USD"). In the event we acquire any properties outside of the United States, the fluctuation of exchange rates may have positive or negative impacts on our results of operations. However, since all of our properties are currently located within the United States, any potential revenue and expenses will be denominated in U.S. Dollars, and the net income effect of appreciation and devaluation of the currency against the U.S. Dollar would be limited to our costs of acquisition of property.

Interest Rate

Interest rates in the United States are generally controlled. Any potential future loans will relate mainly to acquisition of properties and will be mainly short-term. However our debt may be likely to rise in connection with expansion and if interest rates were to rise at the same time, this could become a significant impact on our operating and financing activities. We have not entered into derivative contracts either to hedge existing risks for speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We have performed an evaluation under the supervision and with the participation of our management, including our chief executive officer (CEO) and chief financial officer (CFO), of the effectiveness of our disclosure controls and procedures, (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of March 31, 2014 to provide reasonable assurance that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Management's Quarterly Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Under the supervision and with the participation of the Company's management, including the chief executive officer and principal financial officer, we evaluated the effectiveness of our internal control over financial reporting as of March 31, 2014. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework.

Inherent Limitations on Effectiveness of Controls

We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives, and our CEO and our CFO have concluded that these controls and procedures are effective at the "reasonable assurance" level.

Changes in internal controls

There were no changes in internal controls for the three month period ended March 31, 2014.

AUDIT COMMITTEE REPORT

The Company previously had an audit committee with three appointed members . Two members were "independent" within the meaning of Rule 10A-3 under the Exchange Act and were in addition financial experts. As of the date of this 10-Q and with the resignation of the prior members of the board of directors and executive officers, the Company no longer has an audit committee. However, the Company intends to appoint new members to the audit committee during fiscal year 2014. The audit committee operates under a written charter adopted by the board of directors on November 20, 2004. The board of directors pursuant to a special meeting held on December 18, 2008 adopted an amended audit committee charter and responsibilities.

The audit committee's primary function is to provide advice with respect to our financial matters and to assist the board of directors in fulfilling its oversight responsibilities regarding finance, accounting, and legal compliance. The audit committee's primary duties and responsibilities will be to: (i) serve as an independent and objective party to monitor the Company's financial reporting process and internal control system; (ii) review and appraise the audit efforts of the Company's independent accountants; (iii) evaluate the Company's quarterly financial performance as well as the Company's compliance with laws and regulations; (iv) oversee management's establishment and

ITEM 5. OTHER INFORMATION

On November 5, 2012, we formally informed De Joya Griffith, LLC of their dismissal as our independent registered public accounting firm.

The reports of De Joya Griffith, LLC on our financial statements as of and for the year ended December 31, 2011, contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles, except to indicate that there was substantial doubt about our ability to continue as a going concern.

Our Board of Directors participated in and approved the decision to change independent registered public accounting firms.

During our two most recent fiscal years preceding the termination of De Joya Griffith, LLC, and through November 5, 2012, there were no disagreements with De Joya Griffith, LLC on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements if not resolved to the satisfaction of De Joya Griffith, LLC would have caused them to make reference thereto in connection with their report on the financial statements for such years.

De Joya Griffith, LLC has furnished a letter addressed to the SEC stating that it agrees with the above statements.

CHANGE IN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Effective on April 19, 2013, Patrick Rodgers, CPA, PA (“PR”), with address at 309 East Citrus Street, Altamonte Springs, Florida 32701, was engaged to serve as the Company's new independent certifying accountant to audit the Company's financial statements.

Prior to engaging PR, the Company had not consulted PR regarding the application of accounting principles to a specified transaction, completed or proposed, the type of audit opinion that might be rendered on the Company's financial statements or a reportable event, nor did the Company consult with PR regarding any disagreements with its prior auditor on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of the prior auditor, would have caused it to make a reference to the subject matter of the disagreements in connection with its reports.

The dismissal of De Joya Griffith as the Company's certifying independent accountant and the engagement of PR as its new certifying independent accountant were both approved by our board of directors.

On January 20, 2014, the Company accepted the resignation of Patrick Rodgers, CPA, P.A. (“Rodgers”) from his engagement to be the independent certifying accountant for the Company.

Effective March 6, 2014, the Public Company Accounting Oversight Board (“PCAOB”) revoked the registration of Patrick Rodgers, CPA, PA due to Rogers' violations of PCAOB rules and auditing standards in auditing the financial statements and PCAOB rules and quality control standards with respect to Rogers' clients; the Registrant was not one of the clients for which Rogers was sanctioned. You can find a copy of the order at http://pcaobus.org/Enforcement/Decisions/Documents/2014_Rodgers.pdf

Other than an explanatory paragraph included in Rodgers' audit report for the Company's fiscal year ended December 31, 2012 relating to the uncertainty of the Company's ability to continue as a going concern, the audit report of Rodgers on the Company's financial statements for the last fiscal year ended December 31, 2012 through January 20, 2014, did not contain an adverse opinion or a disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope or accounting principles.

During the Company's 2012 fiscal year and through the date of this Current Report on Form 10-K, (1) there were no disagreements with Rodgers on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of Rodgers, would have caused Rodgers to make reference to the subject matter of the disagreements in connection with their report, and (2) there were no “reportable events” as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

On January 20, 2014, the Company's Board of Directors approved the engagement of Terry L. Johnson, CPA, as the Company's independent accountant effective immediately to audit the Company's financial statements and to perform reviews of interim financial statements. During the fiscal years ended December 31, 2012 and 2011 through January 20, 2014 neither the Company nor anyone acting on its behalf consulted with Terry L. Johnson, CPA regarding (i) either the application of any accounting principles to a specific completed or contemplated transaction of the Company, or the type of audit opinion that might be rendered by Terry L. Johnson, CPA on the Company's financial statements; or (ii) any matter that was either the subject of a disagreement with Rodgers or a reportable event with respect to Rodgers. The Registrant provided Patrick Rodgers, CPA, PA with an exhibit 16.1 letter to sign but the firm refused to sign the letter.

The report of Terry L. Johnson, CPA on our financial statements for the fiscal year ended December 31, 2013 and 2012 did not contain an adverse opinion or disclaimer of opinion, nor were they modified as to uncertainty, audit

scope or accounting principles, other than to state that there is substantial doubt as to our ability to continue as a going concern. During our fiscal years ended December 31, 2013 and 2012, there were no disagreements between us and Terry L. Johnson, CPA, whether or not resolved, on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of Terry L. Johnson, CPA, would have caused Terry L. Johnson, CPA to make reference thereto in their reports on our audited financial statements.
