NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

Indigo International, Corp. (the Company) was incorporated under the laws of the State of Nevada, U.S. on June 2, 2010. The Company is in the development stage as defined under Statement on Financial Accounting Standards Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities. Since inception through August 31, 2011 the Company has generated \$22,000 in revenue and has accumulated losses of \$12,554. The Company operates a consulting business in commercial cultivation of white mushrooms (agaricus bisporus), including but not limited to consulting in process engineering, improvement of production methods, fruiting techniques, spore measurements, mushroom quality, packaging, changes in growing on different strains or developing more adequate harvesting methods, quality of raw materials, recipe, homogeneity, logistics, the process of composting and hygiene and instructing and training of staff in Poland.

Going Concern

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$12,554 as of August 31, 2011 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and/or private placement of common stock. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

The Company's bank accounts are deposited in insured institutions. The funds are insured up to \$250,000. At August 31, 2011, the Company's bank deposits did not exceed the insured amounts.

Basic Income (Loss) Per Share

The Company computes loss per share in accordance with ASC-260, Earnings per Share which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during the period shown.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred. The Company incurred advertising expense of \$0 from Inception (June 2, 2010) to August 31, 2011.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America (GAAP accounting). The Company has adopted November 30 fiscal year end.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long-lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stock-Based Compensation

As of August 31, 2011 the Company has not issued any stock-based payments to its employees. Stock-based compensation is accounted for at fair value in accordance with ASC 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

Revenue Recognition

The Company recognizes revenue when products are fully delivered or services have been provided and collection is reasonably assured.

Fair value of financial instruments

The estimated fair values of financial instruments were determined by management using available market information and appropriate valuation methodologies. The carrying amounts of financial instruments including cash approximate their fair value because of their short maturities.

The agreement is for twelve months beginning from the

RESULTS OF OPERATION

We are a development stage company with limited operations since our inception on June 2, 2010 to August 31, 2011. As of August 31, 2011, we had total assets of \$11,320 and total liabilities of \$274. Since our inception to August 31, 2011, we have accumulated a deficit of \$12,554. We anticipate that we will continue to incur substantial losses in the next 12 months. Our financial statements have been prepared assuming that we will continue as a going concern. We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Nine Month Period Ended August 31, 2011 Compared to the period from Inception (June 2, 2010) to August 31, 2011

Our net loss for the nine month period ended August 31, 2011 was \$11,934 compared to a net loss of \$12,554 during the period from inception (June 2, 2010) to August 31, 2011. During the nine month period ended August 31, 2011, we generated revenue of \$16,000.

During the nine month period ended August 31, 2011, we incurred general and administrative expenses and professional fees of \$33,934 compared to \$34,554 incurred during the period from inception (June 2, 2010) to August 31, 2011. The weighted average number of shares outstanding was 4,510,000 for the nine month period ended August 31, 2011.

LIQUIDITY AND CAPITAL RESOURCES

As of August 31, 2011

As at August 31, 2011, our current assets were \$11,320 compared to \$23,254 in current assets at November 30, 2010. As at August 31, 2011, our current liabilities were \$274. Current liabilities were comprised entirely of \$274 in advance from director.

Stockholders' equity decreased from \$22,980 as of November 30, 2010 to \$11,046 as of August 31, 2011.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the nine month period ended August 31, 2011, net cash flows used in operating activities was \$23,034 consisting of a net loss of \$11,934 increase in prepaid expenses of \$5,000 and increase in accounts receivable of \$6,100. Net cash flows used in operating activities was \$23,654 for the period from inception (June 2, 2010) to August 31, 2011.

Cash Flows from Investing Activities

For the nine month period ended August 31, 2011, we did not generate any cash flows from investing activities.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the nine month period ended August 31, 2011, we did not generate net cash flows from financing activities. For the period from inception (June 2, 2010) to August, 2011, net cash provided by financing activities was \$23,874 received from proceeds from issuance of common stock and advance from director.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next twelve months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our November 30, 2010 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

No report required.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of August 31, 2011. Based on that evaluation, our management concluded that our disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.
