Report of Independent Registered Public Accounting Firm

Plan Administrator and Trustee  
Interface, Inc. Savings and Investment Plan  
Atlanta, Georgia

We have audited the accompanying statements of net assets available for benefits of Interface, Inc. Savings and Investment Plan (Plan) as of December 31, 2007 and 2006, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal controls over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Description  
of Plan

The following description of the Interface, Inc. Savings and Investment Plan ("Plan") provides only general information. Participants should refer to Plan's Summary Plan Description and Plan document for a more complete description of the Plan's provisions.

- a. General - The Plan is a defined contribution plan established on October 1, 1988 covering substantially all full-time employees of Interface, Inc. and adopting domestic subsidiaries (the "Company") who have six months of service and are age eighteen or older. The Plan also covers part-time employees of the Company who have twelve months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

As of September 1, 2005, employees hired on or after this date are automatically enrolled in the Plan at a three percent contribution rate. Effective January 1, 2007, employees hired prior to September 1, 2005 and who were not enrolled in the Plan were automatically enrolled at a three percent contribution rate. Employees that do not want to participate in the Plan are required to elect out of the Plan.

On July 16, 2007, Interface, Inc. sold its Fabrics Group business segment (comprised of InterfaceFABRIC, Inc. and its related subsidiaries) to a third party. As a result of this transaction, employees of the Fabrics Group ceased to be employees of subsidiaries of Interface, Inc., and the Interface, Inc. Administrative Committee agreed to transfer the Plan accounts, including outstanding loan balances, of those Fabrics Group employees who had account balances under the Plan to a newly established 401(k) plan of the purchaser, effective October 1, 2007. Fabrics Group employees were not entitled to a distribution from the Plan as a result of the transfer.

- b. Contributions - Each year, participants may contribute up to 40 percent of pretax annual compensation, as defined in the Plan, up to a maximum of \$15,500 and \$15,000 for 2007 and 2006, respectively. Participants who have attained age 50 before the end of the plan year were eligible to make catch-up contributions of \$5,000 for both 2007 and 2006. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a common and collective trust, a Company common stock fund, and twenty-one mutual funds as well as a self-directed brokerage account option as investment options for participants. Effective January 1, 2007, the Company contributes 50 percent of the first 6 percent (previously up to the first 4 percent) of base compensation that a participant contributes to the Plan. Employees of certain subsidiaries in the Fabrics Group also received an additional matching contribution of 25 percent of base compensation that a participant contributed to the Plan between 4 percent and 5 percent of compensation, which matching contributions ceased on July 15, 2007. Additional profit-sharing amounts may be contributed at the option of the Company's Board of Directors in the form of cash or Company common stock. No additional profit-sharing amounts were made by the Company to the Plan during the years ended December 31, 2007 and 2006. Contributions are subject to certain limitations.
- c. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, (b) Plan earnings, and charged with an allocation of certain administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service beginning with 20 percent after year one.

- e. **Participant Loans** - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator on the date of the loan. Interest rates are currently equal to the prime rate plus one percent. Principal and interest are paid ratably through payroll deductions.
- f. **Payment of Benefits** - On termination of service due to death, disability, retirement, or separation of service, a participant is eligible to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan
- g. **Forfeited Accounts** - Forfeited nonvested accounts are used to reduce employer contributions. During the Plan years ended December 31, 2007 and 2006, forfeited amounts were not material to the financial statements.
- h. **Administrative Expenses** - The Company pays the majority of the Plan's administrative expenses. Fees recorded in the Plan for the 2007 and 2006 Plan years relate to recordkeeping fees and participant loans, and are charged directly to those participant accounts.

2. Summary of  
Significant  
Accounting  
Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, "Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans" (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of the mutual funds are valued at the net asset value of shares held by the Plan at year end. Common collective trusts are valued at contract value. Participant loans are valued at their outstanding balances, which approximate fair value. The Company common stock fund is valued based upon the quoted market price for Interface, Inc. Class A Common Stock.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

3. Investments                                      The fair market value of individual investments that represent 5 percent or more of the Plan's net assets are as follows:

December 31,	2007	2006
T. Rowe Price Stable Value Fund (Common and collective trust)	\$ 16,564,594	\$ 28,082,027
T. Rowe Price Balanced Fund	10,586,925	10,296,168
T. Rowe Price Blue Chip Growth Fund	11,859,517	13,505,791
T. Rowe Price Equity Income Fund	14,619,111	18,780,071
Interface, Inc. Stock Fund	10,656,920	10,881,145
Delaware Select Growth Fund	*	6,626,337

\*Represents less than 5% of net assets available for benefits in the respective year.

4. Related Party Transactions                                      Certain Plan investments are shares of mutual funds and units of a stable value fund managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is a trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

At December 31, 2007 and 2006, the Plan held 652,998 and 765,200 shares, respectively, of common stock of Interface, Inc., the sponsoring employer. The Plan also issues loans to participants, which are secured by the balances in the participants' accounts.

5. Plan Termination                                      Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to amend or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

6. Tax Status    The Internal Revenue Service has determined and informed the Company by a letter dated December 12, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since reviewing the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

7. Risks and Uncertainties                                      The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the trustees (or other persons who administer the employee benefit plan) have duly caused this annual report to be signed on its behalf by the undersigned hereunto duly authorized.
