Table of Contents

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended March 31, 2015

Commission file number 000-54863

EATON CORPORATION plc

(Exact name of registrant as specified in its charter)

Ireland

98-1059235

(State or other jurisdiction of incorporation or
organization)

(IRS Employer Identification Number)

Eaton House, 30 Pembroke Road, Dublin 4, Ireland
(Address of principal executive offices)

-
(Zip Code)

+1 (440) 523-5000

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year if
changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There were 467.1 million Ordinary Shares outstanding as of March 31, 2015.

EATON CORPORATION plc

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Amounts are in millions unless indicated otherwise (per share data assume dilution).

Note 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Eaton Corporation plc (Eaton or the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by United States generally accepted accounting principles (US GAAP) for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring accruals) have been made that are necessary for a fair presentation of the condensed consolidated financial statements for the interim periods.

This Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in Eaton's 2014 Form 10-K. The interim period results are not necessarily indicative of the results to be expected for the full year. Management has evaluated subsequent events through the date this Form 10-Q was filed with the Securities Exchange Commission.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (ASU 2014-09). This accounting standard supersedes all existing US GAAP revenue recognition guidance. Under ASU 2014-09, a company will recognize revenue when it transfers the control of promised goods or services to customers in an amount that reflects the consideration which the company expects to collect in exchange for those goods or services. ASU 2014-09 will require additional disclosures in the notes to the consolidated financial statements and is effective for annual and interim reporting periods beginning after December 15, 2016. In April 2015, the FASB proposed to defer the effective date of the new standard for one year. If the proposal is approved, then early adoption as of the original effective date would be permitted. Eaton is evaluating the impact of ASU 2014-09 and an estimate of the impact to the consolidated financial statements cannot be made at this time.

Note 2. ACQUISITION AND SALE OF BUSINESSES

Acquisition of UK Safety Technology Manufacturer Oxalis Group Ltd.

On January 12, 2015, Eaton acquired Oxalis Group Ltd. (Oxalis). Oxalis is a manufacturer of closed-circuit television camera stations, public address and general alarm systems and other electrical products for the hazardous area, marine and industrial communications markets. Oxalis is reported within the Electrical Systems and Services business segment.

Sale of Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions

On May 9, 2014, Eaton sold the Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses to Safran for \$270, which resulted in a pre-tax gain of \$154.

Table of Contents

Note 3. ACQUISITION INTEGRATION CHARGES

Eaton incurs integration charges related to acquired businesses. A summary of these charges follows:

	Three months ended March 31	
	2015	2014
Acquisition integration charges		
Electrical Products	\$6	\$29
Electrical Systems and Services	3	26
Hydraulics	1	4
Total business segments	10	59
Corporate	1	7
Total acquisition integration charges before income taxes	\$11	\$66
Total after income taxes	\$7	\$44
Per ordinary share - diluted	\$0.02	\$0.09

Business segment integration charges during the first three months of 2015 and 2014 were related primarily to the integration of Cooper Industries plc (Cooper) to gain efficiencies in selling, marketing, traditional back-office functions and manufacturing and distribution. These charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information the charges reduced Operating profit of the related business segment. See Note 13 for additional information about business segments.

Corporate integration charges in 2015 and 2014 were related to the acquisition of Cooper. These charges were included in Selling and administrative expense. In Business Segment Information the charges were included in Other corporate expense - net.

The Cooper integration initiatives are expected to continue throughout 2015.

Note 4. GOODWILL

A summary of goodwill follows:

	Electrical Products	Electrical Systems and Services	Hydraulics	Aerospace	Vehicle	Total
December 31, 2014	\$6,940	\$4,314	\$1,327	\$962	\$350	\$13,893
Additions	—	22	—	—	—	22
Translation adjustments	(206) (98) (51) (6) (6) (367
March 31, 2015	\$6,734	\$4,238	\$1,276	\$956	\$344	\$13,548

Note 5. RETIREMENT BENEFITS PLANS

The components of retirement benefits expense follow:

	United States		Non-United States		Other postretirement	
	pension benefit expense		pension benefit expense		benefits expense	
	Three months ended March 31					
	2015	2014	2015	2014	2015	2014
Service cost	\$31	\$29	\$18	\$16	\$2	\$4

Amortization	30	23	10	7	—	2
	34	31	21	20	7	14
Settlement loss	14	34	—	—	—	—
Total expense	\$48	\$65	\$21	\$20	\$7	\$14

Table of Contents

Note 6. LEGAL CONTINGENCIES

Eaton is subject to a broad range of claims, administrative and legal proceedings such as lawsuits that relate to contractual allegations, tax audits, patent infringement, personal injuries, antitrust matters and employment-related matters. Eaton is also subject to asbestos claims from historic products which may have contained asbestos. Historically, significant insurance coverage has been available to cover costs associated with these claims. Although it is not possible to predict with certainty the outcome or cost of these matters, the Company believes they will not have a material adverse effect on the consolidated financial statements.

In 2010, a Brazilian court held that a judgment obtained by a Brazilian company, Raysul, against another Brazilian company, Saturnia, which was sold by Eaton in 2006, could be enforced against Eaton Ltda. and Eaton Holding S.à.r.l. This judgment is based on an alleged violation of an agency agreement between Raysul and Saturnia. At March 31, 2015, the Company has a total accrual of 85 Brazilian Reais related to this matter (\$26 based on current exchange rates), comprised of 60 Brazilian Reais recognized in the fourth quarter of 2010 (\$18 based on current exchange rates) with an additional 25 Brazilian Reais recognized through March 31, 2015 (\$8 based on current exchange rates). In 2010, Eaton filed motions for clarification with the Brazilian court of appeals which were denied on April 6, 2011. Eaton filed appeals on various issues to the Superior Court of Justice in Brasilia. In April 2013, the Superior Court of Justice ruled in favor of Raysul. Additional motions for clarification have been filed with the Superior Court of Justice in Brasilia and were denied. On February 2, 2015, a final appeal was filed with the Superior Court of Justice in Brasilia. The Company expects that any sum it may be required to pay in connection with this matter will not exceed the amount of the recorded liability.

Note 7. INCOME TAXES

The effective income tax rate for the first quarter of 2015 was expense of 8% compared to expense of 3% for the first quarter of 2014. The increase in the effective income tax rate in first quarter of 2015 is primarily due to more income earned in higher tax jurisdictions including the United States.

Note 8. EQUITY

Eaton has an ordinary share repurchase program (2013 Program) that authorizes the repurchase of 40 million ordinary shares. During the first quarter of 2015, 2.4 million ordinary shares were repurchased under the 2013 Program in the open market at a total cost of \$170.

The changes in Shareholders' equity follow:

	Eaton shareholders' equity	Noncontrolling interests	Total equity
Balance at December 31, 2014	\$ 15,786	\$ 53	\$ 15,839
Net income	466	1	467
Other comprehensive loss	(634)) —	(634)
Cash dividends paid and accrued	(257)) —	(257)
Issuance of shares under equity-based compensation plans - net	19	—	19
Repurchase of shares	(170)) —	(170)
Balance at March 31, 2015	\$ 15,210	\$ 54	\$ 15,264

The changes in Accumulated other comprehensive loss follow:

	Currency translation and related hedging instruments	Pensions and other postretirement benefits	Cash flow hedges	Total
Balance at December 31, 2014	\$(1,414)) \$(1,485)) \$—	\$(2,899)

Amounts reclassified from Accumulated other	—	35	(1)) 34

Edgar Filing: Eaton Corp plc - Form 10-Q

comprehensive loss				
Net current-period Other comprehensive (loss) income	(720) 86	—	(634)
Balance at March 31, 2015	\$(2,134) \$(1,399) \$—	\$(3,533)

8

Table of Contents

The reclassifications out of Accumulated other comprehensive loss follow:

	Three months ended March 31, 2015	Consolidated statements of income classification
Amortization of pensions and other postretirement benefits items		
Actuarial loss and prior service cost	\$(54) ¹
Tax benefit	19	
Total, net of tax	(35)
Gains and (losses) on cash flow hedges		
Currency exchange contracts	2	Cost of products sold
Tax expense	(1)
Total, net of tax	1	
Total reclassifications for the period	\$(34)

¹ These components of Accumulated other comprehensive loss are included in the computation of net periodic benefit cost. See Note 5 for additional information about pension and other post retirement benefits items.

Net Income per Ordinary Share

A summary of the calculation of net income per ordinary share attributable to shareholders follows:

	Three months ended	
	March 31	
(Shares in millions)	2015	2014
Net income attributable to Eaton ordinary shareholders	\$466	\$439
Weighted-average number of ordinary shares outstanding - diluted	470.0	478.8
Less dilutive effect of equity-based compensation	2.1	3.0
Weighted-average number of ordinary shares outstanding - basic	467.9	475.8
Net income per ordinary share		
Diluted	\$0.99	\$0.92
Basic	1.00	0.92

For the first quarter 2015 and 2014, 0.9 million and 0.1 million stock options, respectively, were excluded from the calculation of diluted net income per ordinary share because the exercise price of the options exceeded the average market price of the ordinary shares during the period and their effect, accordingly, would have been antidilutive.

Note 9. EQUITY-BASED COMPENSATION

In February 2015, the Compensation and Organization Committee of the Board of Directors approved the grant of performance share units (PSUs) to certain employees that vest based on the satisfaction of a three-year service period and the achievement of certain performance metrics. The maximum number of ordinary shares that may be issued under this grant award is 911,050. The fair value of these PSUs is determined based on the closing market price of the Company's ordinary shares at the date of grant. Equity-based compensation expense is recognized over the period an employee is required to provide service based on the number of PSUs for which achievement of the performance objectives is probable.

Note 10. FAIR VALUE MEASUREMENTS

Fair value is measured based on an exit price, representing the amount that would be received to sell an asset or paid to satisfy a liability in an orderly transaction between market participants. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy is established, which categorizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs,

other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

9

Table of Contents

A summary of financial instruments recognized at fair value, and the fair value measurements used, follows:

	Total	Level 1	Level 2	Level 3
March 31, 2015				
Cash	\$ 663	\$ 663	\$—	\$—
Short-term investments	139	139	—	—
Net derivative contracts	129	—	129	—
Long-term debt converted to floating interest rates by	(122) —	(122) —
interest rate swaps - net				
December 31, 2014				
Cash	\$ 781	\$ 781	\$—	\$—
Short-term investments	245	245	—	—
Net derivative contracts	70	—	70	—
Long-term debt converted to floating interest rates by	(74) —	(74) —
interest rate swaps - net				

Eaton values its financial instruments using an industry standard market approach, in which prices and other relevant information is generated by market transactions involving identical or comparable assets or liabilities. No financial instruments were recognized using unobservable inputs.

Other Fair Value Measurements

Long-term debt and the current portion of long-term debt had a carrying value of \$9,073 and fair value of \$9,679 at March 31, 2015 compared to \$9,032 and \$9,509, respectively, at December 31, 2014. The fair value of Eaton's debt instruments were estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities and are considered a Level 2 fair value measurement.

Note 11. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, Eaton is exposed to certain risks related to fluctuations in interest rates, currency exchange rates and commodity prices. The Company uses various derivative and non-derivative financial instruments, primarily interest rate swaps, currency forward exchange contracts, currency swaps and, to a lesser extent, commodity contracts, to manage risks from these market fluctuations. The instruments used by Eaton are straightforward, non-leveraged instruments. The counterparties to these instruments are financial institutions with strong credit ratings. Eaton maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit rating of these institutions. Such instruments are not purchased and sold for trading purposes.

Derivative financial instruments are accounted for at fair value and recognized as assets or liabilities in the Condensed Consolidated Balance Sheets. Accounting for the gain or loss resulting from the change in the fair value of the derivative financial instrument depends on whether it has been designated, and is effective, as part of a hedging relationship and, if so, as to the nature of the hedging activity. Eaton formally documents all relationships between derivative financial instruments accounted for as designated hedges and the hedged item, as well as its risk-management objective and strategy for undertaking the hedge transaction. This process includes linking derivative financial instruments to a recognized asset or liability, specific firm commitment, forecasted transaction, or net investment in a foreign operation. These financial instruments can be designated as:

- Hedges of the change in the fair value of a recognized fixed-rate asset or liability, or the firm commitment to acquire such an asset or liability (a fair value hedge); for these hedges, the gain or loss from the derivative financial instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, are recognized in income during the period of change in fair value.
- Hedges of the variable cash flows of a recognized variable-rate asset or liability, or the forecasted acquisition of such an asset or liability (a cash flow hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same

period when the gain or loss on the hedged item is included in income.

10

Table of Contents

Hedges of the currency exposure related to a net investment in a foreign operation (a net investment hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss related to the net investment in the foreign operation is included in income.

The gain or loss from a derivative financial instrument designated as a hedge that is effective is classified in the same line of the Consolidated Statements of Income as the offsetting loss or gain on the hedged item. The change in fair value of a derivative financial instrument that is not effective as a hedge is immediately recognized in income.

For derivatives that are not designated as a hedge, any gain or loss is immediately recognized in income. The majority of derivatives used in this manner relate to risks resulting from assets or liabilities denominated in a foreign currency and certain commodity contracts that arise in the normal course of business. Gains and losses associated with commodity hedge contracts are classified in Cost of products sold.

Eaton uses certain of its debt denominated in foreign currency to hedge portions of its net investments in foreign operations against foreign currency exposure (net investment hedges). Foreign currency denominated debt designated on an after-tax basis as non-derivative net investment hedging instruments was \$83 and \$84 at March 31, 2015 and December 31, 2014, respectively.

Derivative Financial Statement Impacts

The fair value of derivative financial instruments recognized in the Condensed Consolidated Balance Sheets follows:

	Notional amount	Other current assets	Other noncurrent assets	Other current liabilities	Other noncurrent liabilities	Type of hedge	Term
March 31, 2015							
Derivatives designated as hedges							
Fixed-to-floating interest rate swaps	\$3,440	\$—	\$122	\$—	\$—	Fair value	2 to 20 years
Currency exchange contracts	412	16	—	8	8	Cash flow	1 to 36 months
Commodity contracts	1	—	—	—	—	Cash flow	1 to 12 months
Total		\$16	\$122	\$8	\$8		
Derivatives not designated as hedges							
Currency exchange contracts	\$4,313	\$52		\$45			1 to 12 months
Total		\$52		\$45			
December 31, 2014							
Derivatives designated as hedges							
Fixed-to-floating interest rate swaps	\$3,440	\$—	\$84	\$—	\$10	Fair value	2 to 19 years
Currency exchange contracts	432	8	1	5	3	Cash flow	1 to 36 months
Commodity contracts	1	—	—	—	—	Cash flow	1 to 12 months
Total		\$8	\$85	\$5	\$13		
Derivatives not designated as hedges							
Currency exchange contracts	\$4,447	\$47		\$52			1 to 12 months
Total		\$47		\$52			

The currency exchange contracts shown in the table above as derivatives not designated as hedges are primarily contracts entered into to manage currency volatility or exposure on intercompany sales and loans. While Eaton does

not elect hedge accounting treatment for these derivatives, Eaton targets managing 100% of the intercompany balance sheet exposure to minimize the effect of currency volatility related to the movement of goods and services in the normal course of its operations. This activity represents the great majority of these currency exchange contracts.

Table of Contents

Amounts recognized in Accumulated other comprehensive loss follow:

	Gain recognized in other comprehensive (loss) income Three months ended March 31		Location of gain reclassified from Accumulated other comprehensive loss	Gain reclassified from Accumulated other comprehensive loss Three months ended March 31	
	2015	2014		2015	2014

Note 12. INVENTORY

The components of inventory follow:

	March 31, 2015	December 31, 2014
Raw materials	\$1,088	\$924
Work-in-process	295	422
Finished goods	1,161	1,201
Inventory at FIFO	2,544	2,547
Excess of FIFO over LIFO cost	(120) (119
Total inventory	\$2,424	\$2,428

Note 13. BUSINESS SEGMENT INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated on a regular basis by the chief operating decision maker, or decision making group, in deciding how to allocate resources to an individual segment and in assessing performance. Eaton's operating segments are Electrical Products, Electrical Systems and Services, Hydraulics, Aerospace and Vehicle. Operating profit includes the operating profit from intersegment sales. For additional information regarding Eaton's business segments, see Note 14 to the Consolidated Financial Statements contained in the 2014 Form 10-K.

Table of Contents

	Three months ended March 31		
	2015	2014

Note 14. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

On November 20, 2012, Eaton Corporation issued senior notes totaling \$4,900 to finance part of the cash portion of the acquisition of Cooper. On November 14, 2013, the senior notes were exchanged for senior notes registered under the Securities Act of 1933 (the Senior Notes). Eaton and certain other of Eaton's 100% owned direct and indirect subsidiaries (the Guarantors) fully and unconditionally guaranteed (subject, in case of the Guarantors, other than Eaton, to customary release provisions as described below), on a joint and several basis, the Senior Notes. The following condensed consolidating financial statements are included so that separate financial statements of Eaton, Eaton Corporation and each of the Guarantors are not required to be filed with the Securities and Exchange Commission. The consolidating adjustments primarily relate to eliminations of investments in subsidiaries and intercompany balances and transactions. The condensed consolidating financial statements present investments in subsidiaries using the equity method of accounting.

The guarantee of a Guarantor that is not a parent of the issuer will be automatically and unconditionally released and discharged in the event of any sale of the Guarantor or of all or substantially all of its assets, or in connection with the release or termination of the Guarantor as a guarantor under all other U.S. debt securities or U.S. syndicated credit facilities, subject to limitations set forth in the indenture. The guarantee of a Guarantor that is a direct or indirect parent of the issuer will only be automatically and unconditionally released and discharged in connection with the release or termination of such Guarantor as a guarantor under all other debt securities or syndicated credit facilities (in both cases, U.S. or otherwise), subject to limitations set forth in the indenture.

During the third quarter of 2014, the Company undertook certain steps to restructure ownership of various subsidiaries. The transactions were entirely among wholly-owned subsidiaries under the common control of Eaton. This restructuring has been reflected as of the beginning of the earliest period presented below.

Table of ContentsITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS.

Amounts are in millions of dollars or shares unless indicated otherwise (per share data assume dilution).

COMPANY OVERVIEW

Eaton Corporation plc (Eaton or the Company) is a power management company with 2014 net sales of \$22.6 billion. The Company provides energy-efficient solutions that help its customers effectively manage electrical, hydraulic, and mechanical power more efficiently, safely, and sustainably. Eaton has approximately 102,000 employees in over 60 countries and sells products to customers in more than 175 countries.

Summary of Results of Operations

A summary of Eaton's Net sales, Net income attributable to Eaton ordinary shareholders, and Net income per ordinary share-diluted follows:

	Three months ended	
	March 31	
	2015	2014
Net sales	\$5,223	\$5,492
Net income attributable to Eaton ordinary shareholders	466	439
Net income per ordinary share - diluted	\$0.99	\$0.92

RESULTS OF OPERATIONS

Non-GAAP Financial Measures

The following discussion of Consolidated Financial Results and Business Segment Results of Operations includes certain non-GAAP financial measures. These financial measures include operating earnings, operating earnings per ordinary share, and operating profit before acquisition integration charges for each business segment as well as corporate, each of which excludes amounts that differ from the most directly comparable measure calculated in accordance with generally accepted accounting principles (GAAP). A reconciliation of operating earnings and operating earnings per ordinary share to the most directly comparable GAAP measure is included in the table below. Operating profit before acquisition integration charges is reconciled in the discussion of the operating results of each business segment. Management believes that these financial measures are useful to investors because they exclude transactions of an unusual nature, allowing investors to more easily compare Eaton's financial performance period to period. Management uses this information in monitoring and evaluating the on-going performance of Eaton and each business segment. For additional information on acquisition integration charges, see Note 3 to the Condensed Consolidated Financial Statements.

Table of Contents

Consolidated Financial Results

	Three months ended		Increase (decrease)	
	March 31			
	2015	2014		
Net sales	\$5,223	\$5,492	(5)%
Gross profit	1,630	1,634	—	%
Percent of net sales	31.2	% 29.8	%	
Income before income taxes	505	453	11	%
Net income	\$467	\$441	6	%
Less net income for noncontrolling interests	(1) (2)	
Net income attributable to Eaton ordinary shareholders	466	439	6	%
Excluding acquisition integration charges (after-tax)	7	44		
Operating earnings	\$473	\$483	(2)%
Net income per ordinary share - diluted	\$0.99	\$0.92	8	%
Excluding per share impact of acquisition integration charges costs (after-tax)	0.02	0.09		
Operating earnings per ordinary share	\$1.01	\$1.01	—	%

Net Sales

Net sales in the first quarter of 2015 decreased 5% compared to the first quarter of 2014 due to a decrease of 6% from the impact of currency translation, partially offset by an increase of 1% in organic sales. The increase in organic sales is primarily due to growth in the Company's end markets, particularly in North America.

Gross Profit

The gross profit margin increased from 29.8% in the first quarter of 2014 to 31.2% in the first quarter of 2015. The increase in the gross profit margin in the first quarter of 2015 was primarily due to higher organic sales volumes, as noted above, and actions taken over the last year to realize greater efficiencies.

Income Taxes

The effective income tax rate for the first quarter of 2015 was expense of 8% compared to expense of 3% for the first quarter of 2014. The increase in the effective income tax rate in first quarter of 2015 is primarily due to more income earned in higher tax jurisdictions including the United States.

Operating Earnings

Operating earnings, a non-GAAP measure discussed on page 20, of \$473 in the first quarter of 2015 decreased 2% compared to operating earnings of \$483 in the first quarter of 2014. Operating earnings per ordinary share of \$1.01 in the first quarter of 2015 were flat with the first quarter of 2014, primarily due to the negative impact from lower currency translation and a higher tax rate, offset by lower pension benefits expense and the impact of share repurchases over the last year.

Business Segment Results of Operations

The following is a discussion of Net sales, operating profit and operating margin by business segment, which includes a discussion of operating profit and operating profit margin before acquisition integration charges. For additional information related to acquisition integration charges, see Note 3 to the Condensed Consolidated Financial Statements.

Table of Contents

Electrical Products

	Three months ended		Increase (decrease)	
	March 31			
	2015	2014		
Net sales	\$1,691	\$1,726	(2)%
Operating profit	\$260	\$250	4	%
Operating margin	15.4	% 14.5	%	
Acquisition integration charges	\$6	\$29		

Before acquisition integration charges

Operating profit	\$266	\$279	(5)%
Operating margin	15.7	% 16.2	%	

Net sales decreased 2% in the first quarter of 2015 compared to the first quarter of 2014 due to a decrease of 6% from the impact of currency translation, partially offset by an increase in organic sales of 4%. Organic sales growth in the first quarter of 2015 was due to strength in North American markets.

Operating margin before acquisition integration charges decreased from 16.2% in the first quarter of 2014 to 15.7% in the first quarter of 2015. The decrease in operating margin in the first quarter of 2015 was primarily due to unfavorable mix and the impact of exchange on sales to Canada.

Electrical Systems and Services

	Three months ended		Increase (decrease)	
	March 31			
	2015	2014		
Net sales	\$1,448	\$1,524	(5)%
Operating profit	\$186	\$169	10	%
Operating margin	12.8	% 11.1	%	
Acquisition integration charges	\$3	\$26		

Before acquisition integration charges

Operating profit	\$189	\$195	(3)%
Operating margin	13.1	% 12.8	%	

Net sales decreased 5% in the first quarter of 2015 compared to the first quarter of 2014 due to a decrease of 4% from the impact of currency translation and a decrease in organic sales of 1%. The organic sales decline during the first quarter of 2015 was primarily due to a decline in large projects in the Americas.

Operating margin before acquisition integration charges increased from 12.8% in the first quarter of 2014 to 13.1% in the first quarter of 2015. The increase in operating margin in the first quarter of 2015 was primarily due to operational efficiency improvements.

Table of Contents

Hydraulics

	Three months ended		Decrease
	March 31		
	2015	2014	
Net sales	\$665	\$782	(15)%
Operating profit	\$66	\$108	(39)%
Operating margin	9.9	% 13.8	%
Acquisition integration charges	\$1	\$4	

Before acquisition integration charges

Operating profit	\$67	\$112	(40)%
Operating margin	10.1	% 14.3	%

Net sales decreased 15% in the first quarter of 2015 compared to the first quarter of 2014 due to a decrease of organic sales of 9% and a decrease of 6% from the impact of currency translation. The decrease in organic sales in the first quarter of 2015 was primarily due to weakness in the global agricultural equipment market and the China construction equipment market.

Operating margin before acquisition integration charges decreased from 14.3% in the first quarter of 2014 to 10.1% in the first quarter of 2015. The decrease in operating margin in the first quarter of 2015 was primarily due to lower sales volumes, as noted above, unfavorable mix, and the cost of restructuring initiatives.

Aerospace

	Three months ended		Increase
	March 31		
	2015	2014	
Net sales	\$464	\$464	— %
Operating profit	\$77	\$62	24 %
Operating margin	16.6	% 13.4	%

Net sales in the first quarter of 2015 were the same as the first quarter of 2014, reflecting an increase in organic sales of 8%, offset by a decrease of 5% from the divestiture of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses in 2014 and a decrease of 3% from the impact of currency translation. The increase in organic sales in the first quarter of 2015 was primarily due to higher after-market sales and continued strength in commercial OEM markets.

Operating margin increased from 13.4% in the first quarter of 2014 to 16.6% in the first quarter of 2015. The increase in operating margin in the first quarter of 2015 was primarily due to higher organic sales volumes, as noted above, and favorable mix.

Vehicle

	Three months ended		Increase (decrease)
	March 31		
	2015	2014	
Net sales	\$955	\$996	(4)%
Operating profit	\$164	\$151	9 %
Operating margin	17.2	% 15.2	%

Net sales decreased 4% in the first quarter of 2015 compared to the first quarter of 2014 due to a decrease of 8% from the impact of currency translation, partially offset by an increase in organic sales of 4%. The increase in organic sales in the first quarter of 2015 was primarily due to improved demand in the North American truck and automotive markets, partially offset by weakness in South American markets.

Table of Contents

Operating margin increased from 15.2% in the first quarter of 2014 to 17.2% in the first quarter of 2015. The increase in operating margin in the first quarter of 2015 was primarily due to higher organic sales, as noted above, and the favorable impact of certain restructuring activities taken in 2014 to generate ongoing efficiencies.

Corporate Expense

	Three months ended		Decrease
	March 31 2015	2014	
Amortization of intangible assets	102	110	(7)%
Interest expense - net	57	62	(8)%
Pension and other postretirement benefits expense	28	51	(45)%
Other corporate expense - net	61	64	(5)%
Total corporate expense	\$248	\$287	(14)%

Total Corporate expense decreased 14% from \$287 in the first quarter of 2014 to \$248 in the first quarter of 2015 primarily due to lower Pension and other postretirement benefits expense related to lower lump sum settlements in the first quarter of 2015. Higher settlement expense in the first quarter of 2014 was related to the expiry of restrictions on lump sum settlements.

LIQUIDITY, CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

Financial Condition and Liquidity

Eaton's objective is to finance its business through operating cash flow and an appropriate mix of equity and long-term and short-term debt. By diversifying its debt maturity structure, Eaton reduces liquidity risk. The Company maintains access to the commercial paper markets through a commercial paper program, which is supported by credit facilities in the aggregate principal amount of \$2,000. There were no borrowings outstanding under these revolving credit facilities at March 31, 2015. Over the course of a year, cash, short-term investments and short-term debt may fluctuate in order to manage global liquidity. Eaton believes it has the operating flexibility, cash flow, cash and short-term investment balances, and access to capital markets in excess of the liquidity necessary to meet future operating needs of the business as well as scheduled payments of long-term debt.

Eaton was in compliance with each of its debt covenants for all periods presented.

Sources and Uses of Cash Flow

Operating Cash Flow

Net cash provided by operating activities was \$77 in the first three months of 2015, an increase of \$65 compared to \$12 in the first three months of 2014. The increase in net cash provided by operating activities was primarily due to a decrease in contributions of \$52 in pension and other postretirement benefit plans, which totaled \$232 in the first three months of 2015 compared to \$284 in 2014.

Investing Cash Flow

Net cash used in investing activities was \$53 in the first three months of 2015, a decrease \$357 compared to net cash provided by investing activities of \$304 in the first three months of 2014. The decline in investing cash flows was primarily the result of a decrease in sales of short-term investments of \$332 and an increase in cash paid for acquisitions of businesses of \$38 during 2015.

Financing Cash Flow

Net cash used in financing activities was \$127 in the first three months of 2015, a decrease of \$316 in the use of cash compared to \$443 in the first three months of 2014. The lower use of cash was primarily due to an increase in proceeds from borrowings, which totaled \$266 in the first three months of 2015 compared to \$0 in 2014. In addition, payments on borrowings totaled \$3 in the first three months of 2015 compared to \$257 in 2014. Financing cash inflows were offset with \$170 of share repurchases during the first three months of 2015 compared to \$0 in 2014 and dividends increased \$22 to \$251 in 2015 compared to \$229 in 2014.

FORWARD-LOOKING STATEMENTS

This Form 10-Q Report contains forward-looking statements concerning litigation developments, capital expenditures and restructuring charges, amount other matters. These statements may discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to Eaton, based on current beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking statements generally will be accompanied by words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “guidance,” “intend,” “may,” “possible,” “potential,” “predict,” “project” or other similar words or expressions. These statements should be used with caution and are subject to various risks and uncertainties, many of which are outside Eaton’s control. The following factors could cause actual results to differ materially from those in the forward-looking statements: unanticipated changes in the markets for the Company’s business segments; unanticipated downturns in business relationships with customers or their purchases from us; the availability of credit to customers and suppliers; competitive pressures on sales and pricing; unanticipated changes in the cost of material and other production costs, or unexpected costs that cannot be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected claims, charges, litigation or dispute resolutions; strikes or other labor unrest; the impact of acquisitions and divestitures; unanticipated difficulties integrating acquisitions; new laws and governmental regulations; interest rate changes; tax rate changes or exposure to additional income tax liability; stock market and currency fluctuations; war, civil or political unrest or terrorism; and unanticipated deterioration of economic and financial conditions in the United States and around the world. Eaton does not assume any obligation to update these forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in exposures to market risk since December 31, 2014.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures - Pursuant to SEC Rule 13a-15, an evaluation was performed under the supervision and with the participation of Eaton’s management, including Alexander M. Cutler - Principal Executive Officer; and Richard H. Fearon - Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, management concluded that Eaton’s disclosure controls and procedures were effective as of March 31, 2015.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in Eaton’s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Eaton’s reports filed under the Exchange Act is accumulated and communicated to management, including Eaton’s Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

During the first quarter of 2015, there was no change in Eaton's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Information regarding the Company's current legal proceedings is presented in Note 6 of the Notes to the Condensed Consolidated Financial Statements.

ITEM 1A. RISK FACTORS.

“Item 1A. Risk Factors” in Eaton's 2014 Form 10-K includes a discussion of the Company's risk factors. There have been no material changes from the risk factors described in the 2014 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

(c) Issuer's Purchases of Equity Securities

During the first quarter of 2015, 2.4 million ordinary shares were repurchased in the open market at a total cost of \$170 million. These shares were repurchased under the program announced and approved by shareholders on April 24, 2013 and on April 23, 2014, and approved by the Board of Directors on October 22, 2013. A summary of the shares repurchased in the first quarter of 2015 follows:

Month	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs
February	1,890,821	\$71.45	1,890,821	28,550,017
March	518,200	\$67.52	518,200	28,031,817
Total	2,409,021	\$70.60	2,409,021	

ITEM 6. EXHIBITS.
