Notes to Consolidated Financial Statements (unaudited)

1. Accounting Policies

These financial statements should be read in conjunction with the financial statement disclosures in our 2014 Form 10-K. We use the same accounting policies in preparing quarterly and annual financial statements. All adjustments necessary for a fair presentation of quarterly operating results are reflected herein and are of a normal, recurring nature. Certain prior-year amounts have been reclassified to conform to the current year presentation. Unless otherwise noted, amounts presented within the Notes to Consolidated Financial Statements refer to our continuing operations.

Due to the seasonal nature of our business, quarterly revenues, expenses, earnings and cash flows are not necessarily indicative of the results that may be expected for the full year.

2. Pharmacies and Clinics Transaction

On June 12, 2015, we entered into an asset purchase agreement with CVS Pharmacy, Inc. (CVS) to sell our pharmacy and clinic businesses for cash consideration of approximately \$1.9 billion. The closing of the transaction is subject to regulatory approval and other customary conditions. Either party will be permitted to terminate the agreement if the closing has not occurred on or before March 15, 2016 (or September 15, 2016 solely in the event that, as of March 15, 2016, all conditions other than regulatory approval have been satisfied or waived). Following the closing, CVS will operate the pharmacy and clinic businesses in our stores on a long term basis.

The agreement includes the sale of inventory and other assets. These currently held for sale assets have been classified as follows.

3. Canada Exit

Background

On January 15, 2015, Target Canada Co. and certain other wholly owned subsidiaries of Target (collectively Canada Subsidiaries), comprising substantially all of our Canadian operations and our historical Canadian Segment, filed for protection (the Filing) under the Companies' Creditors Arrangement Act (CCAA) with the Ontario Superior Court of Justice in Toronto (the Court) and were deconsolidated. The Canada Subsidiaries are executing a liquidation process. As of May 2, 2015, all stores were closed.

			Capital lease obligations	\$1,240
Accrued liabilities	\$336	\$296	Accounts payable and other liabilities	505
Total liabilities	\$336	\$296	Total liabilities	\$1,745

Accrued liabilities include estimated probable losses related to claims that may be asserted against us, primarily under guarantees of certain leases. The beneficiaries of those guarantees may seek damages or other related relief as a result of our exit from Canada. Our probable loss estimate is based on the expectation that claims will be asserted against us and negotiated settlements will be reached, and not on any determination that it is probable we would be found liable were these claims to be litigated. Our estimates involve significant judgment and are based on currently available information, an assessment of the validity of certain claims and estimated payments by the Canada Subsidiaries. We are not able to reasonably estimate a range of possible losses in excess of the accrual because there are significant factual and legal issues to be resolved. We believe that it is reasonably possible that future changes to our estimates of

loss and the ultimate amount paid on these claims could be material to our results of operations in future periods. Any such losses would be reported in discontinued operations.

Receivables from the Canada Subsidiaries primarily relate to loans made to fund the operations of the Canada Subsidiaries and receivables generated in the ordinary course of business prior to deconsolidation. To assess recoverability, we estimated the fair value of the underlying net assets of the Canada Subsidiaries available for distribution to their creditors in relation to the estimated creditor claims and the priority of these claims. Our estimates involve significant judgment and are based on currently available

7

information, an assessment of the validity of certain claims and estimated payments by the Canada Subsidiaries. Our ultimate recovery is subject to the final liquidation value of the Canada Subsidiaries.

Income Taxes

During the second quarter of 2015, we recognized a net tax benefit of \$60 million in discontinued operations, which primarily relates to our second quarter pretax exit costs and adjustments to the tax benefit from our investment loss in Canada. During the fourth quarter of 2014, we recognized a tax benefit of \$1,627 million in discontinued operations. The majority of the tax benefit was received in the first quarter of 2015, and we expect to use substantially all of the remainder to reduce our 2015 estimated tax payments.

4. Restructuring Initiatives

During the six months ended August 1, 2015, we initiated a series of headquarters workforce reductions intended to increase organizational effectiveness and provide cost savings that can be reinvested in our growth initiatives. As a result, we recorded \$11 million and \$114 million of severance and other benefits-related charges within selling, general and administrative expenses (SG&A) during the three and six months ended August 1, 2015, respectively. The vast majority of these expenses will require cash expenditures. These costs were not included in our segment results.

We review long-lived assets for impairment when events or changes in circumstances, such as a decision to relocate or close a store, make significant software changes or discontinue projects, indicate that the asset's carrying value may not be recoverable. We recognized impairment losses during each of the periods presented, primarily resulting from discontinued projects, store closures, and completed or planned land sales.

8. Data Breach

In the fourth quarter of 2013, we experienced a data breach in which an intruder stole certain payment card and other guest information from our network (the Data Breach). Based on our investigation, we believe that the intruder installed malware on our point-of-sale system in our U.S. stores and stole payment card data from up to approximately 40 million credit and debit card accounts of guests who shopped at our U.S. stores between November 27 and December 17, 2013. In addition, the intruder stole certain guest information, including names, mailing addresses, phone numbers or email addresses, for up to 70 million individuals.

Data Breach Related Accruals

Each of the four major payment card networks has made a written claim against us regarding the Data Breach, either directly or through our acquiring banks. In August 2015, we entered into a settlement agreement with Visa under which we will pay up to \$67 million to eligible Visa card issuers worldwide that issued cards that Visa claimed to have been affected by the Data Breach. Our previously recorded accrual for estimated probable losses related to Visa is consistent with the settlement. We expect to dispute the remaining unsettled claims regarding the Data Breach that have been or may be made against us by the payment card networks. With respect to the three major payment card networks other than Visa, we think it is probable that our disputes would lead to settlement negotiations. We believe such negotiations would effect a combined settlement of the payment card networks' counterfeit fraud loss allegations and their non-ordinary course operating expense allegations.

In addition, more than 100 actions were filed in courts in many states on behalf of guests, payment card issuing banks, and shareholders, seeking damages or other related relief allegedly arising out of the Data Breach. The federal court actions (the MDL Actions) have been consolidated in the U.S. District Court for the District of Minnesota (MDL Court) pursuant to the rules governing multidistrict litigation and one remaining state court action has been stayed. In March 2015, Target entered into a Settlement Agreement that, upon approval of the MDL Court, will resolve and dismiss the claims asserted in the MDL Actions on behalf of a class of guests whose information was compromised in the Data Breach. Pursuant to the Settlement Agreement, Target has agreed to pay \$10 million to class member guests, certain administrative costs associated with the settlement, and attorneys' fees and expenses to class counsel as the Court may award. The claims asserted by payment card issuing banks and shareholders in the MDL Actions remain pending. One action was filed in Canada relating to the Data Breach. That action was dismissed, but is being appealed. State and federal agencies, including State Attorneys General, and the Federal Trade Commission are

investigating events related to the Data Breach, including how it occurred, its consequences and our responses. The SEC's Enforcement Division concluded its investigation during the second quarter of 2015 and does not intend to recommend an enforcement action against us.

Our accrual for estimated probable losses for what we believe to be the vast majority of actual and potential Data Breach related claims is based on the expectation of reaching negotiated settlements, and not on any determination that it is probable we would be found liable for the losses we have accrued were these claims to be litigated. Given the varying stages of claims and related proceedings, and the inherent uncertainty surrounding them, our estimates involve significant judgment and are based on currently available information, historical precedents and an assessment of the validity of certain claims. Our estimates may change as new information becomes available, and although we do not believe it is probable, it is reasonably possible that we may incur a material loss in excess of the amount accrued. We are not able to estimate the amount of such reasonably possible excess loss exposure at

this time because many of the matters are in the early stages, alleged damages have not been specified, and there are significant factual and legal issues to be resolved.

Balance at August 1, 2015	\$168	\$55

^(a) Includes expenditures and accruals for Data Breach-related costs and expected insurance recoveries as discussed below.

We recorded \$9 million and \$12 million of pretax Data Breach-related expenses during the three and six months ended August 1, 2015, respectively, primarily for legal and other professional services. We recorded \$148 million and \$175 million of pretax Data Breach-related expenses during the three and six months ended August 2, 2014, respectively, partially offset by expected insurance recoveries of \$38 million and \$46 million, respectively. Along with legal and other professional services, these expenses included an increase to the accrual for estimated probable losses for what we believe to be the vast majority of actual and potential breach-related claims, including claims by the payment card networks. These expenses were included in our Consolidated Statements of Operations as SG&A, but were not part of our segment results.

Since the Data Breach, we have incurred \$264 million of cumulative expenses, partially offset by expected insurance recoveries of \$90 million, for net cumulative expenses of \$174 million.

Insurance Coverage

To limit our exposure to losses relating to Data Breach and other claims, we maintained \$100 million of network-security insurance coverage during the period that the Data Breach occurred, above a \$10 million deductible and with a \$50 million sublimit for settlements with the payment card networks. This coverage, and certain other customary business-insurance coverage, has reduced our exposure related to the Data Breach. We will pursue recoveries to the maximum extent available under the policies. Since the Data Breach, we have received \$35 million from our network-security insurance carriers of the \$90 million accrued.

9. Derivative Financial Instruments

Our derivative instruments primarily consist of interest rate swaps, which are used to mitigate interest rate risk. As a result of our use of derivative instruments, we have counterparty credit exposure to large global financial institutions. We monitor this concentration of counterparty credit risk on an ongoing basis. See Note 5 for a description of the fair value measurement of our derivative instruments and their classification on the Consolidated Statements of Financial Position.

As of August 1, 2015 and August 2, 2014, three interest rate swaps with notional amounts totaling \$1,250 million were designated as fair value hedges. No ineffectiveness was recognized during the three and six months ended August 1, 2015 or August 2, 2014.

Periodic payments, valuation adjustments and amortization of gains or losses on our derivative contracts had the following effect on our Consolidated Statements of Operations:

Derivative Contracts - Effect on Results of Operations (millions)		Three Months Ended		Six Months Ended	
		August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Type of Contract	Classification of (Income)/Expense				
Interest rate swaps	Net interest expense	\$(9) \$(9) \$(18) \$(13

The amount remaining on unamortized hedged debt valuation gains from terminated or de-designated interest rate swaps that will be amortized into earnings over the remaining lives of the underlying debt totaled \$25 million, \$34 million and \$43 million, at August 1, 2015, January 31, 2015 and August 2, 2014, respectively.

10. Share Repurchase

In June 2015, our Board of Directors authorized a \$5 billion expansion of our existing share repurchase program to \$10 billion. Under this program, through August 1, 2015, we have repurchased 65.1 million cumulative shares of common stock at an average price of \$67.19, for a total investment of \$4.4 billion.

In June 2015, we entered into an accelerated share repurchase agreement (ASR) to repurchase \$250 to \$350 million of our common stock under the existing share repurchase program. In July 2015, the contract was settled and we repurchased a total of 3.8 million shares under the ASR for a total cash investment of \$314 million (\$82.67 per share).

In April 2015, we entered into an ASR to repurchase \$200 to \$300 million of our common stock under the existing share repurchase program. In May 2015, the contract was settled and we repurchased a total of 3.3 million shares under the ASR for a total cash investment of \$265 million (\$80.74 per share).

Neither ASR was accounted for as a derivative instrument.

These contracts are among the investment vehicles used to reduce our economic exposure related to our nonqualified deferred compensation plans. Note 11 provides the details of our positions in prepaid forward contracts.

11. Pension, Postretirement Health Care and Other Benefits

Pension and Postretirement Health Care Benefits

As a result of the restructuring initiatives discussed in Note 4, we remeasured the assets and liabilities of our largest pension plan as of March 9, 2015. The remeasurement resulted in a \$208 million reduction to the projected benefit obligation, primarily resulting from a 41 basis point increase in the discount rate used, and a \$47 million reduction of plan assets. Subsequent to the remeasurement, the pension plan was overfunded, with plan assets of \$3,725 million exceeding the projected benefit obligation of \$3,604 million. We expect this remeasurement will reduce 2015 pension expense by \$26 million, \$8 million and \$11 million of which was recognized during the three and six months ended August 1, 2015, respectively.

Other Benefits

We offer unfunded nonqualified deferred compensation plans to certain team members. We mitigate some of our risk of these plans through investing in vehicles, including company-owned life insurance and prepaid forward contracts in our own common stock, that offset a substantial portion of our economic exposure to the returns of these plans. These investment vehicles are general corporate assets and are marked to market with the related gains and losses recognized in the Consolidated Statements of Operations in the period they occur.

The total change in fair value for contracts indexed to our own common stock recognized in earnings was pretax income of \$1 million and \$4 million for the three and six months ended August 1, 2015, respectively, and pretax losses of \$5 million and pretax income of \$2 million for the three and six months ended August 2, 2014, respectively. During the six months ended August 1, 2015 and August 2, 2014, we made no investments in prepaid forward contracts in our own common stock. Adjusting our position in these investment vehicles may involve repurchasing shares of Target common stock when settling the forward contracts as described in Note 10. The settlement dates of these instruments are regularly renegotiated with the counterparty.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

Second quarter 2015 includes the following notable items:

- GAAP earnings per share were \$1.18, including dilution of \$(0.03) related to discontinued operations.
- Adjusted earnings per share from continuing operations were \$1.22.
- Second quarter comparable sales grew 2.4 percent, driven primarily by growth in comparable transactions.
- Digital channel sales increased by 30 percent, contributing 0.6 percentage points to comparable sales growth.
- We returned \$1.0 billion to shareholders in the second quarter through dividends and share repurchase.

Sales were \$17,427 million for the three months ended August 1, 2015, an increase of \$470 million or 2.8 percent from the same period in the prior year. Operating cash flow provided by continuing operations was \$1,966 million and \$1,935 million for the six months ended August 1, 2015 and August 2, 2014, respectively.

Earnings Per Share from Continuing Operations	Three Months Ended			Six Months Ended			Change	
	August 1, 2015	August 2, 2014	Change	August 1, 2015	August 2, 2014	Change		
GAAP diluted earnings per share	\$1.21	\$0.61	96.8	% \$2.21	\$1.51	46.7	%	
Adjustments	0.01	0.40		0.11	0.43			
Adjusted diluted earnings per share	\$1.22	\$1.01	20.6	% \$2.32	\$1.93	20.1	%	

Note: Amounts may not foot due to rounding. Adjusted diluted earnings per share from continuing operations (Adjusted EPS), a non-GAAP metric, excludes the impact of certain matters not related to our routine retail operations and the impact of our discontinued Canadian operations. Management believes that Adjusted EPS is meaningful to provide period-to-period comparisons of our operating results. A reconciliation of non-GAAP financial measures to GAAP measures is provided on page 21.

We are reporting after-tax return on invested capital (ROIC) for continuing operations as we believe ROIC provides a meaningful measure of the effectiveness of our capital allocation over time. For the trailing twelve months ended August 1, 2015, ROIC was 13.3 percent, compared with 11.3 percent for the trailing twelve months ended August 2, 2014. A reconciliation of ROIC is provided on page 22.

Pharmacies and Clinics Transaction

On June 12, 2015 we entered into an asset purchase agreement with CVS Pharmacy, Inc. (CVS) to sell our pharmacy and clinic businesses for cash consideration of approximately \$1.9 billion. The closing of the transaction is subject to regulatory approval and other customary conditions. Either party will be permitted to terminate the agreement if the closing has not occurred on or before March 15, 2016 (or September 15, 2016 solely in the event that, as of March 15, 2016, all conditions other than regulatory approval have been satisfied or waived). Following the closing, CVS will operate the pharmacy and clinic businesses in our stores under a long term operating agreement. No profit-sharing arrangement exists, but CVS will make an ongoing annual, inflation-adjusted occupancy-related payment to us, starting at approximately \$20 million to \$25 million in the first year of the agreement. We also entered a development agreement with CVS through which we may jointly develop small-format stores.

Based on current estimates, we expect to record a pretax gain of approximately \$550 million at closing, which will be recorded outside of segment results and excluded from Adjusted EPS. Also, at closing, we expect to record deferred income of approximately \$800 million, which we will record in income evenly over 23 years following closing.

We expect to use the \$1.4 billion of after-tax proceeds to settle the approximately \$200 million of retained pharmacy and clinic net liabilities (primarily accounts payable, net of accounts receivable) and return capital to shareholders.

Had this transaction closed prior to this year, our reported sales, cost of goods sold, and SG&A expense for the six months ended August 1, 2015 would have been lower by approximately \$2.1 billion, \$1.7 billion and \$0.4 billion, respectively, with no notable affect on EBITDA and EBIT.

This transaction is expected to be accretive to EPS in every period following the Closing, and should add 50 basis points or more to ROIC over time. In addition, due to the lower sales base, we expect the transaction to have a favorable impact on our EBITDA and EBIT margin rates.

15

Refer to Note 2 of the Financial Statements for additional information about the transaction.

Comparable sales is a measure that highlights the performance of our existing stores and digital channel sales by measuring the change in sales for a period over the comparable, prior-year period of equivalent length. Comparable sales include all sales, except sales from stores open less than 13 months. Comparable sales measures vary across the retail industry. As a result, our comparable sales calculation is not necessarily comparable to similarly titled measures reported by other companies.

The collective interaction of a broad array of macroeconomic, competitive and consumer behavioral factors, as well as sales mix, and transfer of sales to new stores makes further analysis of sales metrics infeasible.

We monitor the percentage of sales that are paid for using REDcards (REDcard Penetration) because our internal analysis has indicated that a meaningful portion of the incremental purchases on REDcards are also incremental sales for Target, with the remainder representing a shift in tender type. Guests receive a 5 percent discount on virtually all purchases when they use a REDcard at Target.

Gross Margin Rate

For the three and six months ended August 1, 2015, our gross margin rate was 30.9 percent and 30.6 percent compared with 30.4 percent and 30.0 percent in the comparable period last year. The increase was primarily due to lower promotional activity relative to the highly promotional period in 2014 following the Data Breach and favorable category sales mix, partially offset by the impact of increased digital channel sales mix.

Selling, General and Administrative Expense Rate

18

For the three and six months ended August 1, 2015, our SG&A expense rate was 19.9 percent, decreasing from 20.5 percent and 20.3 percent in the comparable period last year. The decrease primarily resulted from cost saving initiatives and marketing expense timing, partially offset by increased incentive compensation.

Other Performance Factors

Consolidated Selling, General and Administrative Expenses

In addition to segment selling, general and administrative expenses, we recorded certain other expenses. For the three and six months ended August 1, 2015, these expenses included \$11 million and \$114 million, respectively, of restructuring costs and \$9 million and \$12 million, respectively, of Data Breach-related costs. For the three and six months ended August 2, 2014, these expenses included \$111 million and \$129 million, respectively, of Data Breach-related costs (net of expected insurance proceeds), \$16 million of impairments, and \$13 million of costs related to plans to convert existing co-branded REDcards to MasterCard co-

branded chip-and-PIN cards in 2015 to support the accelerated transition to chip-and-PIN-enabled REDcards. Additional information about these items is provided within the Reconciliation of Non-GAAP Financial Measures to GAAP Measures on page 21.

Net Interest Expense

Net interest expense from continuing operations was \$148 million and \$305 million for the three and six months ended August 1, 2015, respectively, compared to \$433 million and \$585 million for the three and six months ended August 2, 2014, respectively. Net interest expense for the three and six months ended August 2, 2014 included a loss on early retirement of debt of \$285 million.

Provision for Income Taxes

Our effective income tax rate from continuing operations for the three and six months ended August 1, 2015 was 34.6 percent and 34.7 percent, respectively, compared with 33.7 percent and 34.1 percent for the three and six months ended August 2, 2014. The increase was primarily due to higher pretax earnings net of the favorable resolution of various tax matters. The higher pretax earnings increased our effective income tax rate by diluting the rate impact of recurring tax deductions. The resolution of income tax matters reduced tax expense by \$5 million and \$8 million for the three and six months ended August 1, 2015, respectively, compared with \$0 million and \$1 million for the same periods in the prior year.

Discontinued Operations

Loss from discontinued operations, net of tax, was \$20 million and \$36 million for the three and six months ended August 1, 2015. In addition to costs related to our ongoing support of the liquidation process and other professional fees, we increased our accrual for the estimated probable losses related to claims that may be asserted against us, primarily under guarantees of certain leases, and made adjustments to the tax benefit from our investment loss in Canada. See Note 3 of the Financial Statements for information regarding our Canada exit.

Reconciliation of Non-GAAP Financial Measures to GAAP Measures

To provide additional transparency, we have disclosed non-GAAP adjusted diluted earnings per share from continuing operations (Adjusted EPS). This metric excludes restructuring costs, net expenses related to the 2013 data breach and other matters presented below. We believe this information is useful in providing period-to-period comparisons of the results of our continuing operations. This measure is not in accordance with, or an alternative for, generally accepted accounting principles in the United States. The most comparable GAAP measure is diluted earnings per share from continuing operations. Adjusted EPS should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate Adjusted EPS differently than we do, limiting the usefulness of the measure for comparisons with other companies. Prior year amounts have been revised to present Adjusted EPS on a continuing operations basis.

We have also disclosed after-tax return on invested capital for continuing operations (ROIC), which is a ratio based on GAAP information, with the exception of adjustments made to capitalize operating leases. Operating leases are capitalized as part of the ROIC calculation to control for differences in capital structure between us and our competitors. We believe this metric provides a meaningful measure of the effectiveness of our capital allocation over time. Other companies may calculate ROIC differently than we do, limiting the usefulness of the measure for comparisons with other companies.

Analysis of Financial Condition

Liquidity and Capital Resources

Our cash and cash equivalents balance was \$2,742 million at August 1, 2015 compared with \$766 million for the same period in 2014. Our investment policy is designed to preserve principal and liquidity of our short-term investments. This policy allows investments in large money market funds or in highly rated direct short-term instruments that mature in 60 days or less. We also place certain dollar limits on our investments in individual funds or instruments.

Cash Flows

Operations during the first six months of 2015 were funded by internally generated funds. Operating cash flow provided by continuing operations was \$1,966 million for the six months ended August 1, 2015 compared with \$1,935 million for the same period in 2014. These cash flows, combined with our prior year-end cash position, allowed us to invest in the business, pay dividends and repurchase shares under our share repurchase program.

Share Repurchases

In June 2015, our Board of Directors authorized a \$5 billion expansion of our existing share repurchase program to \$10 billion. Under this program, through August 1, 2015, we have repurchased 65.1 million cumulative shares of common stock at an average price of \$67.19, for a total investment of \$4.4 billion.

During the three months ended August 1, 2015, we repurchased 8.2 million shares of our common stock for a total investment of \$675 million (\$81.94 per share), excluding the ASR initiated and prepaid in first quarter 2015 that settled in May (described in Note 10). During the six months ended August 1, 2015, we repurchased 15.2 million shares of our common stock for a total investment of \$1,240 million (\$81.41 per share). We did not repurchase any shares on the open market during the six months ended August 2, 2014. However, we reacquired 0.6 million shares during the three and six months ended August 2, 2014 upon the noncash settlement of prepaid forward contracts related to nonqualified deferred compensation plans that had an original cash investment of \$34 million and an aggregate market value at their settlement dates of \$34.7 million.

Dividends

We paid dividends totaling \$331 million (\$0.52 per share) and \$665 million (\$1.04 per share) for the three and six months ended August 1, 2015, respectively, and \$272 million (\$0.43 per share) and \$545 million (\$0.86 per share) for the three and six months ended August 2, 2014, respectively, a per share increase of 20.9 percent. We declared dividends totaling \$356 million (\$0.56 per share) in second quarter 2015, a per share increase of 7.7 percent over the \$329 million (\$0.52 per share) of declared dividends during the second quarter of 2014. We have paid dividends every quarter since our 1967 initial public offering, and it is our intent to continue to do so in the future.

Short-term and Long-term Financing

Our financing strategy is to ensure liquidity and access to capital markets, to manage our net exposure to floating interest rate volatility and to maintain a balanced spectrum of debt maturities. Within these parameters, we seek to minimize our borrowing costs. Our ability to access the long-term debt and commercial paper markets has provided us with ample sources of liquidity. Our continued access to these markets depends on multiple factors including the condition of debt capital markets, our operating performance and maintaining strong credit ratings. As of August 1, 2015 our credit ratings were as follows:

Edgar Filing: TARGET CORP - Form 10-Q

Credit Ratings	Moody's	Standard and Poor's	Fitch
Long-term debt	A2	A	A-
Commercial paper	P-1	A-1	F2

If our credit ratings were lowered, our ability to access the debt markets and our cost of funds and other terms for new debt issuances could be adversely impacted. Each of the credit rating agencies reviews its rating periodically and there is no guarantee our current credit ratings will remain the same as described above.

As a measure of our financial condition, we monitor our ratio of pretax earnings from continuing operations before fixed charges to fixed charges. Fixed charges include interest expense and the interest portion of rent expense. For the first six months of 2015

our ratio of earnings from continuing operations to fixed charges was 7.02x compared with 4.93x for the first six months of 2014. See Exhibit (12) for a description of how the gain on sale of our U.S. credit card receivables portfolio and loss on early retirement of debt affected the 2014, 2013 and 2012 calculations.

We have additional liquidity through a committed \$2.25 billion revolving credit facility that expires in October 2018. No balances were outstanding at any time during 2015 or 2014.

Most of our long-term debt obligations contain covenants related to secured debt levels. In addition to a secured debt level covenant, our credit facility also contains a debt leverage covenant. We are, and expect to remain, in compliance with these covenants. Additionally, at August 1, 2015, no notes or debentures contained provisions requiring acceleration of payment upon a debt rating downgrade, except that certain outstanding notes allow the note holders to put the notes to us if within a matter of months of each other we experience both (i) a change in control; and (ii) our long-term debt ratings are either reduced and the resulting rating is noninvestment grade, or our long-term debt ratings are placed on watch for possible reduction and those ratings are subsequently reduced and the resulting rating is noninvestment grade.

We believe our sources of liquidity will continue to be adequate to maintain operations, finance anticipated expansion and strategic initiatives, fund obligations incurred as a result of our exit from Canada, fund obligations incurred as a result of the Data Breach and any related future technology enhancements, pay dividends and execute purchases under our share repurchase program for the foreseeable future. We continue to anticipate ample access to commercial paper and long-term financing.

Contractual Obligations and Commitments

Our 2014 Form 10-K included a summary of contractual obligations and commitments as of January 31, 2015. During the three months ended August 1, 2015, there were no material changes outside the ordinary course of business.

New Accounting Pronouncements

We do not expect any recently issued accounting pronouncements will have a material effect on our financial statements.

Forward-Looking Statements

This report contains forward-looking statements, which are based on our current assumptions and expectations. These statements are typically accompanied by the words “expect,” “may,” “could,” “believe,” “would,” “might,” “anticipates,” or words of similar import. The principal forward-looking statements in this report include: Our financial performance, statements regarding the adequacy of and costs associated with our sources of liquidity, the process, timing and effects of discontinuing our Canadian operations, the expected ability to recognize deferred tax assets and liabilities and the timing of such recognition, including net operating loss carryforwards and tax benefits related to discontinuing our Canadian operations, the anticipated sale of our pharmacy and clinic businesses and related gain, including the application of the proceeds from the sale and the impact on our future operations and financial performance, the expected benefits and timing of cash disbursements related to restructuring initiatives, the continued execution of our share repurchase program, our expected capital expenditures, the expected compliance with debt covenants, the expected impact of new accounting pronouncements, our intentions regarding future dividends, the expected outcome of, and adequacy of our reserves for, investigations, inquiries, claims and litigation, including those related to the Data Breach and discontinuing our Canadian operations, expected insurance recoveries, our adoption of chip-and-PIN technology, and the amount and timing of expense reduction resulting from remeasurement of our pension plan.

All such forward-looking statements are intended to enjoy the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, as amended. Although we believe there is a reasonable basis for the forward-looking statements, our actual results could be materially different. The most important factors which could cause our actual results to differ from our forward-looking statements are set forth on our description of risk factors in Item 1A of our Form 10-K for the fiscal year ended January 31, 2015, which should be read in conjunction with the forward-looking statements in this report. In addition, other risks and uncertainties relating to the sale of our pharmacy and clinic businesses include those relating to the certainty around satisfying the conditions to closing the transaction, how our guests react to the transaction, the effectiveness of the ongoing relationship between us and CVS Health, and whether we will recognize the expected benefits from the transaction. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Form 10-K for the fiscal year ended January 31, 2015.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the Securities and Exchange Commission (SEC) under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

No response is required under Item 103 of Regulation S-K, which requires disclosure of legal proceedings that are material, based on an analysis of the probability and magnitude of the outcome, nor have there been any material developments for any previously reported legal proceedings. For a description of other legal proceedings, including a discussion of litigation and government inquiries related to the Data Breach, see Part 1, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 8 of the Notes to Consolidated Financial Statements included in Part 1, Item 1, Financial Statements.

Item 1A. Risk Factors

There have been no material changes to the risk factors described in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In January 2012, our Board of Directors authorized the repurchase of \$5 billion of our common stock and in June 2015 expanded the program by an additional \$5 billion for a total authorization of \$10 billion. There is no stated expiration for the share repurchase program. Under this program, through August 1, 2015, we have repurchased 65.1 million cumulative shares of common stock at an average price of \$67.19, for a total investment of \$4.4 billion. The table below presents information with respect to Target common stock purchases made during the three months ended August 1, 2015, by Target or any "affiliated purchaser" of Target, as defined in Rule 10b-18(a)(3) under the Exchange Act.

^(a) The table above includes shares reacquired upon the noncash settlement of prepaid forward contracts. At August 1, 2015, we held asset positions in prepaid forward contracts for 0.4 million shares of our common stock, for a total cash investment of \$18.2 million, or an average per share price of \$41.13. During the second quarter, no shares were reacquired under such contracts. Refer to Note 11 of the Financial Statements for further details of these contracts.

^(b) Refer to Note 10 of the Financial Statements for further details about our ASR transactions.

(c) Represents the incremental shares received upon final settlement of the ASR initiated in first quarter 2015.
