

GRAINGER W W INC
Form 10-Q
October 26, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 1-5684

W.W. Grainger, Inc.
(Exact name of registrant as specified in its charter)

Illinois 36-1150280
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

100 Grainger Parkway, Lake Forest, Illinois 60045-5201
(Address of principal executive offices) (Zip Code)
(847) 535-1000
(Registrant's telephone number including area code)

Not Applicable
(Former name, former address and former fiscal year; if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: GRAINGER W W INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

There were 56,983,188 shares of the Company's Common Stock, par value \$0.50, outstanding as of September 30, 2017.

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BACKGROUND AND BASIS OF PRESENTATION

W.W. Grainger, Inc. is a broad line, business-to-business distributor of maintenance, repair and operating (MRO) supplies, and other related products and services. W.W. Grainger, Inc.'s operations are primarily in the United States (U.S.) and Canada, with a presence in Europe, Asia and Latin America. In this report, the words "Company" or "Grainger" mean W.W. Grainger, Inc. and its subsidiaries.

The Condensed Consolidated Financial Statements of the Company and the related notes are unaudited and should be read in conjunction with the consolidated financial statements and related notes for the year ended December 31, 2016 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC).

The Condensed Consolidated Balance Sheet as of December 31, 2016 has been derived from the audited consolidated financial statements at that date, but does not include all of the disclosures required by U. S. generally accepted accounting principles (U.S. GAAP) for complete financial statements.

The unaudited financial information reflects all adjustments (primarily consisting of normal recurring adjustments) which, in the opinion of management, are necessary for a fair presentation of the statements contained herein.

Certain amounts in the Condensed Consolidated Statements of Cash Flows, as previously reported, have been reclassified to conform to the 2017 presentation. In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-09, Stock Based Compensation: Improvements to Employee Share-Based Payment Accounting, which became effective January 1, 2017. As a result, the Company reclassified \$19 million of employee taxes paid from cash flows from operating activities to cash flows from financing activities in the Consolidated Statements of Cash Flows for the nine months ended September 30, 2016.

2. NEW ACCOUNTING STANDARDS

In January 2016, the FASB issued ASU 2016-01, Financial Instruments: Recognition and Measurement of Financial Assets and Financial Liabilities. This change to the financial instrument model primarily affects the accounting for equity investments, financial liabilities under the fair value options and the presentation and disclosure requirements for financial instruments. The effective date of this ASU is for fiscal years and interim periods beginning after December 15, 2017. Certain provisions for the new guidance may be adopted early. The Company is evaluating the impact of this ASU.

In February 2016, the FASB issued ASU 2016-02, Leases. This ASU improves transparency and comparability related to the accounting and reporting of leasing arrangements. The guidance will require balance sheet recognition for assets and liabilities associated with rights and obligations created by leases with terms greater than twelve months. The effective date of this ASU is for fiscal years and interim periods beginning after December 15, 2018 and early adoption is permitted. The Company is evaluating the impact of this ASU.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments. This ASU addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. The effective date of this ASU is for fiscal years and interim periods beginning after December 15, 2017. This ASU is not expected to have a material impact on the Company's Consolidated Financial Statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. This ASU clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill and consolidation. The effective date of this ASU is for fiscal years and interim periods beginning after December 15, 2017. This ASU should be applied prospectively on or after the effective date. No disclosures are required at transition. This ASU is not expected to have a material impact on the Company's Consolidated Financial Statements.

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

In January 2017, the FASB issued ASU No. 2017-04, Intangibles-Goodwill and Other (Topic 350) Simplifying the Test for Goodwill Impairment. ASU 2017-04 simplifies the subsequent measurement of goodwill by eliminating the Step 2 procedure from the goodwill impairment test. Under the updates in ASU 2017-04, an entity should perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The amendments of this ASU are effective for annual or any interim goodwill impairment tests beginning after December 15, 2019, and early adoption is permitted for annual and interim goodwill impairment testing dates after January 1, 2017. The Company early adopted this ASU during the third quarter of 2017 and there was no impact to the financial statements.

In March 2017, the FASB issued ASU 2017-07, Compensation Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU improves the presentation of net periodic pension cost and net periodic postretirement benefit cost. The amendments in this ASU are effective for public entities for fiscal years and interim periods beginning after December 15, 2017. Early adoption is permitted. The amendments in this ASU should be applied retrospectively for the presentation of the net periodic postretirement cost components in the income statement and prospectively, on and after the effective date, for the capitalization of the service cost component of net periodic pension cost and net periodic postretirement benefit in assets. The Company is evaluating the impact of this ASU.

In May 2017, the FASB issued ASU 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. This ASU provides clarity and reduces both (1) diversity in practice and (2) cost and complexity when applying the guidance in Topic 718, Compensation-Stock Compensation, to a change to the terms or conditions of a share-based payment award. The amendments in this ASU are effective for public entities for fiscal years and interim periods beginning after December 15, 2017 and early adoption is permitted. The ASU should be applied prospectively on and after the effective date. The Company is evaluating the impact of this ASU.

REVENUE RECOGNITION STANDARDS

In July 2015, the FASB announced a one-year delay in the effective date of ASU 2014-09, Revenue from Contracts with Customers. This ASU will be effective for interim and fiscal years beginning after December 15, 2017. The standard will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of the ASU is that an entity should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contract with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net). This ASU reduces the potential for diversity in practice arising from inconsistent application of principal versus agent guidance as well as reduce the cost and complexity during the transition and on an ongoing basis.

In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing. This ASU clarifies the identification of performance obligations and the licensing implementation guidelines, while retaining the related principles of those areas.

In December 2016, the FASB issued ASU 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers. This ASU includes technical corrections and improvements to Topic 606 and other topics amended by Update 2014-09 to increase stakeholders' awareness of the proposals and to expedite improvements to ASU 2014-09.

In February 2017, the FASB issued ASU 2017-05, Other Income - Gain and Losses from the Derecognition of Nonfinancial Assets. This ASU clarifies the scope of Subtopic 610-20, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets, and adds guidance for partial sales of nonfinancial assets. Subtopic 610-20, which was issued in May 2014 as a part of ASU 2014-09, provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with non-customers.

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

The effective dates of ASU 2016-08, ASU 2016-10, ASU 2016-20 and ASU 2017-05 are consistent with ASU 2014-09. The Company has elected not to early adopt these ASUs. The standard permits the use of either the full retrospective or the modified retrospective adoption method. The Company is planning to elect the modified retrospective method and recognize the cumulative effect of initially applying the new standard as an adjustment to the opening balance of equity as of January 1, 2018.

These ASUs require expanded qualitative and quantitative disclosures of revenue and cash flows emerging from contracts with customers. The Company has evaluated the provisions of the new standard and assessed its impact on financial statement disclosures, information systems, business processes and internal controls. The standard is not expected to have a material impact on the Company's Consolidated Financial Statements.

3. DIVIDEND

On October 25, 2017, the Company's Board of Directors declared a quarterly dividend of \$1.28 per share, payable December 1, 2017, to shareholders of record on November 13, 2017.

4. GOODWILL AND OTHER INTANGIBLE ASSETS

Grainger had approximately \$1.1 billion of goodwill and intangible assets as of September 30, 2017 and December 31, 2016, or 19% and 20% of total assets, respectively. Grainger tests reporting units' goodwill and intangible assets for impairment annually during the fourth quarter and more frequently if impairment indicators exist. Accordingly, Grainger periodically performs qualitative assessments of significant events and circumstances such as reporting units' historical and current results, assumptions regarding future performance, strategic initiatives and overall economic factors to determine the existence of impairment indicators and assess if it is more likely than not that the fair value of the reporting unit or indefinite-lived intangible assets is less than its carrying value and if a quantitative impairment test is necessary. In the quantitative test, Grainger compares the carrying value of the reporting unit or an indefinite-lived intangible asset with its fair value. Any excess of the carrying value over fair value is recorded as an impairment charge.

The fair value of reporting units is calculated primarily using the discounted cash flow (DCF) method and utilizing value indicators from a market approach to evaluate the reasonableness of the resulting fair values. The DCF method incorporates various assumptions including the amount and timing of future expected cash flows, including revenues, gross margins, operating expenses, capital expenditures and working capital based on operational budgets, long-range strategic plans and other estimates. The terminal value growth rate is used to calculate the value of cash flows beyond the last projected period and reflects management's best estimates for perpetual growth for the reporting units. Estimates of market-participant risk-adjusted weighted average cost of capital are used as a basis for determining the discount rates to apply to the reporting units' future expected cash flows and terminal value.

Grainger's indefinite-lived intangibles are primarily trade names. The fair value of trade names is calculated primarily using the relief from royalty method, which estimates the expected royalty savings attributable to the ownership of the trade name asset. The key assumptions when valuing a trade name are the revenue base, the royalty rate and the discount rate.

During the quarter ended September 30, 2017, the Company performed qualitative assessments of its reporting units' goodwill and intangible assets. The operating performance of two of its reporting units has been below expectations and resulted in lowered short-term forecasts. Accordingly, the Company concluded that further evaluation was required. Based on the results of the quantitative tests, the Company concluded that there was no impairment of

goodwill or indefinitely-lived intangible assets as of September 30, 2017. The fair values of the reporting units exceeded their carrying values by approximately 31 percent for the Canada reporting unit and 15 percent for the reporting unit included in Other Businesses. Changes in assumptions regarding future performance as well as the ability to execute on growth initiatives and productivity improvements may have a significant impact on future cash flows. Likewise, unfavorable economic environment and changes in market conditions or other factors may result in future impairments of the goodwill and intangible assets.

Additionally, the Company performed an impairment test on the intangible assets subject to amortization for the two reporting units. The first step of the impairment test is to compare the undiscounted cash flows of the reporting units to their carrying values. If the results of the test determine that the undiscounted cash flows of the reporting units are less than their carrying values, then an impairment risk exists and further testing is required. An impairment charge

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

was not required as of September 30, 2017 using this test.

The balances and changes in the carrying amount of Goodwill by segment are as follows (in thousands of dollars):

	United States	Canada	Other Businesses	Total
Balance at December 31, 2016	\$202,020	\$122,140	\$202,990	\$527,150

For the nine months ended September 30, 2017 and the twelve months ended December 31, 2016, amortization expense recognized on intangible assets was \$67 million and \$82 million, respectively, and is included in Warehousing, marketing and administrative expenses on the Consolidated statement of earnings.

5. RESTRUCTURING RESERVES

The Company continues to evaluate performance and take restructuring actions such as the consolidation of the contact center network in the U.S., branch closures in the U.S. and Canada, the disposition of under performing assets in the U.S. and Canada and the wind-down of operations in Colombia which is part of the Other businesses. The purpose of these initiatives is to reduce costs in the U.S. and to streamline and focus on profitability in Canada and Other Businesses.

Edgar Filing: GRAINGER W W INC - Form 10-Q

6. SHORT-TERM AND LONG-TERM DEBT

The following summarizes information concerning short-term debt (in thousands of dollars):

	September 30, December 31,	
	2017	2016
Outstanding lines of credit	\$ 11,348	\$ 16,392
Outstanding commercial paper	—	369,748
	\$ 11,348	\$ 386,140

As of September 30, 2017 and December 31, 2016, there was \$0 million and \$370 million, respectively, of commercial paper outstanding. A portion of the proceeds from the May 2017 bond issuance (see below) was used to redeem outstanding commercial paper.

Long-term debt consisted of the following (in thousands of dollars):

	September 30, December 31,	
	2017	2016
4.60% senior notes due 2045	\$ 1,000,000	\$ 1,000,000
3.75% senior notes due 2046	400,000	400,000
4.20% senior notes due 2047	400,000	—
British pound term loan and revolving credit facility	192,903	187,506
Euro term loan and revolving credit facility	141,743	120,900
Canadian dollar revolving credit facility	116,307	100,521
Other	84,860	71,109
	2,335,813	1,880,036
Less current maturities	(41,836)	(19,966)
Debt issuance costs and discounts	(23,976)	(19,124)
	\$ 2,270,001	\$ 1,840,946

On May 22, 2017, the Company issued \$400 million of unsecured 4.20% Senior Notes (4.20% Notes) that mature on May 15, 2047. The 4.20% Notes require no principal payments until the maturity date and interest is payable semi-annually on May 15 and November 15, beginning on November 15, 2017. Prior to November 15, 2046, the Company may redeem the 4.20% Notes in whole at any time or gradually at a “make-whole” redemption price. This redemption price is calculated by reference to the then-current yield on a U.S. treasury security with a maturity comparable to the remaining term of the 4.20% Notes plus 20 basis points, together with accrued and unpaid interest, if any, at the redemption date. Additionally, if the Company experiences specific kinds of changes in control, it will be

required to make an offer to purchase the 4.20% Notes at 101% of their principal amount plus accrued and unpaid interest, if any, at the date of purchase. Costs and discounts of approximately \$5.8 million associated with the issuance of the 4.20%

Notes, representing underwriting fees and other expenses, have been recorded as a contra-liability within Long-term debt and will be amortized to interest expense over the term of the 4.20% Notes.

The estimated fair values of the Company's 4.20% Notes, 3.75% Senior Notes due 2046 (3.75% Notes) and 4.60% Senior Notes due 2045 (4.60% Notes) were based on available external pricing data and current market rates for

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

similar debt instruments, among other factors, which are classified as level 2 inputs within the fair value hierarchy. The fair value of the 4.20% Notes was approximately \$407 million as of September 30, 2017. The fair value of the 3.75% Notes was approximately \$380 million and \$371 million as of September 30, 2017 and December 31, 2016, respectively. The fair value of the 4.60% Notes was approximately \$1.1 billion as of September 30, 2017 and December 31, 2016, respectively. The carrying value of other long-term debt approximates fair value due to their variable interest rates.

On October 6, 2017, the Company replaced its \$900 million unsecured revolving line of credit with a new five-year \$750 million unsecured revolving line of credit, with the option to extend the line to up to \$1.125 billion subject to customary conditions, to be used for general corporate purposes. The terms of the new line of credit are customary for transactions of this type (including the Company's guarantee of subsidiary borrower obligation) and do not contain any financial performance covenants. The primary purpose of this credit facility is to provide support to the Company's commercial paper program. There were no borrowings outstanding under the previous line of credit, which was scheduled to mature on August 22, 2018. The preceding summary of the credit facility does not purport to be complete and is qualified in its entirety by the reference to the full text of the credit facility, a copy of which has been filed as Exhibit 10.1 to the Company's Form 8-K, previously filed on October 10, 2017.

7. EMPLOYEE BENEFITS - POSTRETIREMENT

The Company has a postretirement healthcare benefits plan that provides coverage for a majority of its U.S. employees (and their dependents) hired prior to January 1, 2013, should they elect to maintain such coverage upon retirement. Covered employees become eligible for participation when they qualify for retirement while working for the Company. Participation in the plan is voluntary and requires participants to make contributions toward the cost of the plan, as determined by the Company.

During the third quarter of 2017, the Company implemented plan design changes effective January 1, 2018 for the post-65 age group. This plan change will move all post-65 Medicare eligible retirees to healthcare exchanges and provide them a subsidy to purchase insurance. The amount of the subsidy will be based on years of service. The plan obligation was re-measured as a result of this plan design change. At re-measurement, the Company decreased the discount rate from 4.00% at December 31, 2016 to 3.55% and updated various actuarial assumptions and the fair value of plan assets. The plan re-measurement as of August 31, 2017 resulted in a decrease in the postretirement benefit obligation of \$75.7 million and a corresponding unrecognized gain recorded in Other comprehensive earnings net of tax of \$29.2 million. The Company has elected to amortize the amount of net unrecognized gains over a period equal to the average remaining service period for active plan participants expected to retire and receive benefits. The postretirement benefit obligation was \$29.0 million and \$101.5 million at September 30, 2017 and December 31, 2016, respectively. Net accumulated gains recognized in Accumulated other comprehensive losses were \$67.5 million and \$25.3 million at September 30, 2017 and December 31, 2016, respectively.

The net periodic (benefits) costs recorded in Warehousing, marketing and administrative expenses consisted of the following components (in thousands of dollars):

	Three Months		Nine Months	
	Ended September		Ended September	
	30,	30,	30,	30,
	2017	2016	2017	2016
Service cost	\$1,856	\$2,059	\$5,649	\$6,178
Interest cost	2,026	2,464	6,323	7,391
Expected return on assets	(2,957)	(2,528)	(8,670)	(7,584)

Edgar Filing: GRAINGER W W INC - Form 10-Q

Amortization of unrecognized (gains) losses	(609)	32	(1,919)	96
Amortization of prior service credits	(1,893)	(1,672)	(5,139)	(5,016)
Net periodic (benefits) costs	\$(1,577)	\$355	\$(3,756)	\$1,065

The Company has established a Group Benefit Trust (Trust) to fund postretirement healthcare benefits plan obligations and process benefit payments. The funding of the Trust is an estimated amount which is intended to allow the maximum deductible contribution under the Internal Revenue Code of 1986 (IRC), as amended. There are no minimum funding requirements and the Company intends to follow its practice of funding the maximum deductible contribution under the IRC. The Company did not make a contribution to the Trust during the nine months ended September 30, 2017.

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

8. SEGMENT INFORMATION

The Company has two reportable segments: the U.S. and Canada. The U.S. operating segment reflects the results of the Company's U.S. businesses. The Canada operating segment reflects the results for Acklands – Grainger Inc. and its subsidiaries. Other businesses include Zoro in the U.S, MonotaRO in Japan and operations in Europe, Asia and Latin America. Other businesses do not meet the definition of a reportable segment. Operating segments generate revenue almost exclusively through the distribution of MRO supplies, as service revenues account for less than 1% of total revenues for each operating segment. Following is a summary of segment results (in thousands of dollars):

	Three Months Ended September 30, 2017			
	United States	Canada	Other Businesses	Total
Total net sales	\$2,015,968	\$188,216	\$536,927	\$2,741,111

	United States	Canada	Other Businesses	Total
Segment assets:				
September 30, 2017	\$2,316,683	\$298,553	\$589,564	\$3,204,800
December 31, 2016	\$2,275,009	\$286,035	\$494,067	\$3,055,111

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Following are reconciliations of segment information with the consolidated totals per the financial statements (in thousands of dollars):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Operating earnings:				
Total operating earnings for operating segments	\$309,775	\$352,241	\$907,363	\$1,044,454
Unallocated expenses and eliminations	(28,605)	(29,654)	(98,640)	(99,185)
Total consolidated operating earnings	\$281,170	\$322,587	\$808,723	\$945,269

	September 30,	December 31,
	2017	2016
Assets:		
Total assets for operating segments	\$3,204,800	\$3,055,111
Other current and non-current assets	2,455,538	2,464,656
Unallocated assets	164,722	174,540
Total consolidated assets	\$5,825,060	\$5,694,307

Assets for reportable segments include net accounts receivable and first-in, first-out inventory which are reported to the Company's Chief Operating Decision Maker. Other current and non-current assets include all other assets of the reportable segments.

Unallocated expenses and unallocated assets primarily relate to the Company headquarter's support services, which are not part of any business segment, as well as intercompany eliminations. Unallocated expenses include payroll and benefits, depreciation and other costs associated with headquarters-related support services. Unallocated assets include non-operating cash and cash equivalents, certain prepaid expenses and property, buildings and equipment-net.

Intersegment net sales for the U.S. segment increased by \$12 million and \$40 million for the three and nine months ended September 30, 2017, respectively, compared to the prior year, driven by increased sales from the U.S. business to Zoro. Zoro's primary source of inventory is the U.S. business' supply chain network.

Basic	\$2.80	\$3.07	\$7.43	\$8.88
Diluted	\$2.79	\$3.05	\$7.39	\$8.82

10. CONTINGENCIES AND LEGAL MATTERS

From time to time the Company is involved in various legal and administrative proceedings that are incidental to its business, including claims related to product liability, general negligence, contract disputes, environmental issues, wage and hour laws, intellectual property, employment practices, regulatory compliance or other matters and actions brought by employees, consumers, competitors, suppliers or governmental entities. As a government contractor selling to federal, state and local governmental entities, the Company is also subject to governmental or regulatory inquiries or audits or other proceedings, including those related to pricing compliance. It is not expected that the ultimate resolution of any of these matters will have, either individually or in the aggregate, a material adverse effect on the Company's consolidated financial position or results of operations.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

W.W. Grainger, Inc. (Grainger) is a broad line, business-to-business distributor of maintenance, repair and operating (MRO) supplies, and other related products and services with operations primarily in the United States (U.S.) and Canada, with a presence in Europe, Asia and Latin America. More than 3.2 million businesses and institutions worldwide rely on Grainger for products such as safety, gloves, ladders, motors and janitorial supplies, along with services like inventory management and technical support. These customers represent a broad collection of industries including commercial, government, healthcare and manufacturing. They place orders online, on mobile devices, through sales representatives, over the phone and at local branches. Approximately 5,000 suppliers provide Grainger with more than 1.6 million products stocked in Grainger's distribution centers (DCs) and branches worldwide.

Business Environment

Given Grainger's large number of customers and the diverse industries it serves, several economic factors and industry trends tend to shape Grainger's business environment. The overall economy and leading economic indicators provide general insight into projecting Grainger's growth. Grainger's sales in the U.S. and Canada tend to positively correlate with Business Investment, Business Inventory, Exports and Industrial Production. In the U.S., sales tend to positively correlate with Gross Domestic Product (GDP). In Canada, sales tend to positively correlate with oil prices. The table below provides these estimated indicators for 2017:

	United States 2017 Forecast (October)	2017 Forecast (July)	Canada 2017 Forecast (October)	2017 Forecast (July)
Business Investment	3.7%	4.3%	2.3%	1.1%
Business Inventory	1.0%	0.6%	—%	—%
Exports	3.1%	2.7%	2.2%	1.2%
Industrial Production	1.8%	2.0%	6.1%	3.9%
GDP	2.2%	2.3%	3.1%	2.5%
Oil Prices		—	\$50/barrel	\$49/barrel

Source: Global Insight (October & July 2017)

In the U.S., Business Investment and Exports are two major indicators of MRO spending. Per the Global Insight October 2017 forecast, Business Investment is forecast to continue to improve in 2017 compared to 2016 primarily through equipment-related spending. Export growth has improved, as exports have responded to improved economic growth among countries that the U.S. exports to.

Per the Global Insight October 2017 forecast, Canada economic growth, as measured by GDP, is forecast to grow to 3.1% in 2017. The 2017 forecast assumes that oil prices will continue to grow and stabilize as compared to 2016 and that business nonresidential investment (a component of Business Investment) will begin to increase. The latest forecast is for the Canadian dollar to strengthen against the U.S. dollar over the next two quarters.

Outlook

On October 17, 2017, Grainger narrowed its sales and earnings per share guidance for 2017. The Company now expects 2017 sales growth of 1.5 to 2.5 percent and earnings per share of \$10.40 to \$10.90. The Company's previous 2017 guidance included sales growth of 1 to 4 percent and earnings per share of \$10.00 to \$11.30.

Matters Affecting Comparability

There were 63 sales days in the third quarter of 2017 compared to 64 sales days in 2016.

Results of Operations – Three Months Ended September 30, 2017

The following table is included as an aid to understanding the changes in Grainger's Condensed Consolidated Statements of Earnings (in millions of dollars):

Noncontrolling interest	9	8	17	%	0.3	0.3
Net earnings attributable to W.W. Grainger, Inc.	\$162	\$186	(13))%	6.1	% 7.2 %

(A) May not sum due to rounding

Grainger's net sales of \$2,636 million for the third quarter of 2017 increased 2% compared with sales of \$2,596 million for the comparable 2016 quarter. On a daily basis, sales increased 3% and consisted of the following:

	Percent Increase/(Decrease)
Volume	8
Hurricane impact 1	
Seasonal sales	(1)
Divestiture	(1)
Price	(4)
Total	3%

The increase in net sales was primarily driven by the single channel online businesses in the U.S. and Japan, as well as volume increases in the U.S. business as a result of the pricing actions. Refer to the Segment Analysis below for further details.

The U.S. business pricing actions were primarily implemented in the first and third quarters of 2017. The actions included adjusting list price and introducing new lower web prices on the entire business assortment. These actions are expected to enable faster growth through share gains with existing customers and acquisition of new customers. Herein referred to as pricing actions.

In the three months ended September 30, 2017, eCommerce sales for Grainger were \$1,387 million, an increase of 12% over the prior year. Total eCommerce sales represented 53% and 48% of total sales for the three months ended September 30, 2017 and 2016, respectively. The increase was primarily driven by Grainger.com and other electronic purchasing platforms in the U.S. business and the single channel online businesses. If the Company included KeepStock®, the electronic inventory management offering, total eCommerce and KeepStock® sales would represent 58% and 54% of total sales for the three months ended September 30, 2017 and 2016, respectively.

Gross profit of \$1,017 million for the third quarter of 2017 decreased \$23 million or 2% compared to the same quarter in 2016. The gross profit margin of 38.6% during the third quarter of 2017 decreased 1.4 percentage points when compared to the same period in 2016, driven primarily by the pricing actions in the U.S. business.

Operating expenses of \$736 million for the third quarter of 2017 increased 3% from \$717 million for the comparable 2016 quarter, driven primarily by increased employee related costs.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating earnings for the third quarter of 2017 were \$281 million, a decrease of 13% compared to the third quarter of 2016. The decrease in operating earnings was driven primarily by lower gross profit from the pricing actions in the U.S. business and increased employee related costs.

Net earnings attributable to W.W. Grainger, Inc. for the third quarter of 2017 decreased 13% to \$162 million from \$186 million in the third quarter of 2016, primarily related to lower gross profit and higher operating expenses.

Diluted earnings per share of \$2.79 in the third quarter of 2017 were down 9% versus the \$3.05 for the third quarter of 2016 due to lower earnings, partially offset by lower average shares outstanding.

The table below reconciles reported operating earnings determined in accordance with U.S. generally accepted accounting principles (GAAP) to adjusted operating earnings, a non-GAAP measure. Management believes adjusted operating earnings is an important indicator of operations because it excludes items that may not be indicative of core operating results. Because non-GAAP financial measures are not standardized, it may not be possible to compare this financial measure with other companies' non-GAAP financial measures having the same or similar names.

	Three Months Ended		
	September 30,		%
	2017	2016	
Operating earnings reported	\$281,170	\$322,587	(13)%
Restructuring (U.S.)	13,151	6,600	
Branch gains (U.S.)	(5,207)	(1,163)	
Other charges (U.S.)	(3,023)	—	
Restructuring (Canada)	4,937	4,367	
Restructuring (Other Businesses)	(210)	—	
Subtotal	9,648	9,804	
Operating earnings adjusted	\$290,818	\$332,391	(13)%

For the three months ended September 30, 2017 and 2016 the non-GAAP measure presented in the table above did not have a material impact on the financial results.

Segment Analysis

Grainger's two reportable segments are the U.S. and Canada. The U.S. operating segment reflects the results of Grainger's U.S. businesses. The Canada operating segment reflects the results for Acklands – Grainger Inc. and its subsidiaries. Other businesses include the single channel online businesses (Zoro in the U.S. and MonotaRO in Japan) and operations in Europe, Asia and Latin America.

The following comments at the segment and business unit level include external and intersegment net sales and operating earnings. See Note 8 to the Condensed Consolidated Financial Statements.

United States

Net sales were \$2,016 million for the third quarter of 2017, a decrease of 1% when compared with net sales of \$2,028 million for the same period in 2016. On a daily basis, sales increased 1% and consisted of the following:

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

	Percent Increase/(Decrease)
Volume	7
Intercompany sales to Zoro	1
Hurricane impact	1
Holiday timing	(1)
Seasonal sales	(1)
Divestiture	(1)
Price	(5)
Total	1%

Sales to customers in natural resources increased high single digits. Resellers, transportation and retail end markets increased mid-single digits, while heavy manufacturing and government increased low single digits.

In the three months ended September 30, 2017, eCommerce sales for the U.S. business were \$1,039 million, an increase of 8% over the prior year. Total eCommerce sales represented 52% and 47% of total sales for the three months ended September 30, 2017 and 2016, respectively. The increase was primarily driven by Grainger.com and other electronic purchasing platforms. If the Company included KeepStock®, the electronic inventory management offering, total eCommerce and KeepStock® sales would represent 58% and 54% of total sales for the three months ended September 30, 2017 and 2016, respectively.

The gross profit margin for the third quarter of 2017 decreased 1.9 percentage points compared to the same period in 2016 largely due to the pricing actions.

Operating expenses of \$493 million in the third quarter of 2017 were flat versus the third quarter of 2016 demonstrating leverage on volume growth as a result of pricing actions.

Operating earnings of \$298 million for the third quarter of 2017 decreased 13% from \$343 million for the third quarter of 2016, primarily driven by the pricing actions.

Canada

Net sales were \$188 million for the third quarter of 2017, an increase of \$9 million, or 5%, when compared with \$179 million for the same period in 2016. On a daily basis, sales increased 7% and consisted of the following:

	Percent Increase
Foreign exchange	5
Volume	2
Total	7%

In the three months ended September 30, 2017, eCommerce sales in the Canadian business were \$33 million, an increase of 41% over the prior year. Total eCommerce sales represented 17% and 13% of total sales for the three months ended September 30, 2017 and 2016, respectively. If the Canadian business included KeepStock®, the electronic inventory management offering, total eCommerce and KeepStock® sales would represent 32% and 26% of total sales for the three months ended September 30, 2017 and 2016, respectively.

The gross profit margin improved 0.8 percentage points in the third quarter of 2017 versus the third quarter of 2016 primarily due to improved management and disposition of obsolete or discontinued inventory and thus lower inventory reserve requirements in 2017 and incremental vendor rebates.

Operating expenses increased \$4 million, or 6% in the third quarter of 2017 versus the third quarter of 2016, primarily related to foreign exchange and higher employee related costs.

Operating losses of \$15 million for the third quarter of 2017 were flat versus the third quarter of 2016.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Other Businesses

Net sales for other businesses were \$537 million for the third quarter of 2017, an increase of \$55 million, or 11%, when compared with net sales of \$482 million for the same period in 2016. On a daily basis, sales increased 13% and consisted of the following:

	Percent Increase/(Decrease)
Price/volume	15
Foreign exchange (2)	
Total	13%

Operating earnings were \$27 million for the third quarter of 2017 up \$2 million compared to the third quarter of 2016. The operating earnings included strong results from the single channel online businesses.

Other Income and Expense

Other income and expense was \$31 million of expense in the third quarter of 2017 compared to \$29 million of expense in the third quarter of 2016. The increase in expense was primarily due to interest expense from the additional \$400 million in long-term debt issued in May 2017.

Income Taxes

For the quarter, the effective tax rate was 31.7% versus 34.0% in 2016. The decrease is primarily due to higher benefits primarily from the Company's investments in clean energy along with solar energy and higher foreign tax credits.

Matters Affecting Comparability

There were 191 sales days in the nine months ended September 30, 2017 compared to 192 sales days in 2016.

Results of Operations – Nine Months Ended September 30, 2017

The following table is included as an aid to understanding the changes in Grainger's Condensed Consolidated Statements of Earnings (in millions of dollars):

	Nine Months Ended September 30,				As a Percent of	
	2017	2016	Percent Increase/(Decrease)		Net Sales

(A) May not sum due to rounding

Grainger's net sales of \$7,792 million for the nine months ended September 30, 2017 increased 2% compared with sales of \$7,666 million for the comparable 2016 period. On a daily basis, sales increased 2% and consisted of the

following:

23

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

	Percent Increase/(Decrease)
Volume	7
Seasonal sales (1)	
Price	(4)
Total	2%

The increase in net sales was primarily driven by the single channel online businesses, as well as volume increases in the U.S. business as a result of the pricing actions. Refer to the Segment Analysis below for further details.

In the nine months ended September 30, 2017, eCommerce sales for Grainger were \$4,029 million, an increase of 14% over the prior year. Total eCommerce sales represented 52% and 46% of total sales for the nine months ended September 30, 2017 and 2016, respectively. The increase was primarily driven by Grainger.com and other electronic purchasing platforms in the U.S. and the single channel online businesses. If the Company included KeepStock®, the electronic inventory management offering, total eCommerce and KeepStock® sales would represent 58% and 52% of total sales for the nine months ended September 30, 2017 and 2016, respectively.

Gross profit of \$3,076 million for the nine months ended September 30, 2017 decreased 2% compared with \$3,125 million in the same period in 2016. The gross profit margin during the nine months ended September 30, 2017 decreased 1.3 percentage points when compared to the same period in 2016, driven primarily by the pricing actions in the U.S. business.

Operating expenses of \$2,268 million for the nine months ended September 30, 2017 increased 4% compared with \$2,180 million for the comparable 2016 period. The increase was primarily due to the following: \$2 million, net in restructuring in the U.S., primarily related to the costs incurred in the consolidation of the contact center network and asset write-downs, offset by gains on the sales of branches compared to \$12 million, net in 2016. These costs primarily related to involuntary employee termination costs offset by gains on the sales of branches. \$27 million in restructuring due to branch closures and asset write-downs in Canada compared to \$15 million in 2016. \$41 million in restructuring in other businesses, primarily related to the wind-down of operations in Colombia. Excluding restructuring costs, gains on the sale of assets and other charges in both periods, operating expenses increased 3%, driven primarily by higher employee related costs.

Operating earnings for the nine months ended September 30, 2017 were \$809 million, a decrease of \$137 million or 14%, compared to the nine months ended September 30, 2016. Excluding restructuring costs, gains on the sale of assets and other charges in both periods, operating earnings decreased \$117 million or 12%, driven primarily by lower gross profit and higher operating expenses.

Net earnings attributable to W.W. Grainger, Inc. for the nine months ended September 30, 2017 decreased 20% to \$435 million from \$545 million in the nine months ended September 30, 2016.

Diluted earnings per share of \$7.39 in the nine months ended September 30, 2017 were 16% lower than the \$8.82 for the nine months ended September 30, 2016, due to lower earnings partially offset by lower average shares outstanding.

The table below reconciles reported operating earnings determined in accordance with generally accepted accounting principles in the U.S. to adjusted operating earnings, a non-GAAP measure. Management believes adjusted operating earnings is an important indicator of operations because it excludes items that may not be indicative of core operating results. Because non-GAAP financial measures are not standardized, it may not be possible to compare this financial

measure with other companies' non-GAAP financial measures having the same or similar names.

Segment Analysis

The following comments at the segment and business unit level include external and intersegment net sales and operating earnings. See Note 8 to the Condensed Consolidated Financial Statements.

United States

Net sales were \$5,969 million for the nine months ended September 30, 2017 and were relatively flat when compared with net sales of \$5,973 million for the same period in 2016. On a daily basis, sales were flat and consisted of the following:

	Percent Increase/(Decrease)
Volume	5
Intercompany sales to Zoro	1
Seasonal sales	(1)
Price	(5)
Total	0%

Sales to customers in natural resources and retail end markets increased mid-single digits, while heavy manufacturing and government increased low single digits. The sales growth was partially offset by declines in contractors and commercial services. Volume increased year over year primarily driven by the pricing actions.

In the nine months ended September 30 2017, eCommerce sales for the U.S. business were \$3,024 million, an increase of 10% over the prior year. Total eCommerce sales represented 51% and 46% of total sales for the nine months ended September 30, 2017 and 2016, respectively. The increase was primarily driven by Grainger.com and other electronic purchasing platforms. If the Company included KeepStock®, the electronic inventory management offering, total eCommerce and KeepStock® sales would represent 57% and 53% of total sales for the nine months ended September 30, 2017 and 2016, respectively.

The gross profit margin for the nine months ended September 30, 2017 decreased 1.6 percentage points compared to the same period in 2016, primarily driven by the pricing actions.

Operating expenses were flat for the nine months ended September 30, 2017 versus the nine months ended September 30, 2016. Excluding restructuring costs, net gains on the sale of assets and divestiture and other charges in both

periods mentioned above, operating expenses increased 1%.

25

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating earnings of \$923 million for the nine months ended September 30, 2017 decreased 10% from \$1,023 million for the nine months ended September 30, 2016. Excluding restructuring costs, gains on the sale of assets and divestiture and other charges in both periods, operating earnings decreased 11%, driven primarily by the pricing actions.

Canada

Net sales of \$563 million for the nine months ended September 30, 2017 an increase of 2% when compared with \$552 million for the same period in 2016. On a daily basis, sales increased 3% and consisted of the following:

	Percent Increase/(Decrease)
Volume	3
Wildfire impact	1
Foreign exchange	1
Holiday timing	(1)
Price	(1)
Total	3%

In the nine months ended September 30, 2017, eCommerce sales for the Canadian business were \$96 million, an increase of 35% over the prior year. Total eCommerce sales represented 17% and 13% of total sales for the nine months ended September 30, 2017 and 2016, respectively. If the Canadian business included KeepStock®, the electronic inventory management offering, total eCommerce and KeepStock® sales would represent 31% and 25% of total sales for the nine months ended September 30, 2017 and 2016, respectively.

The gross profit margin increased 0.9 percentage points in the nine months ended September 30, 2017 versus the nine months ended September 30, 2016, largely due to a favorable comparison to an inventory adjustment in the second quarter of 2016 that did not repeat in 2017, partially offset by price deflation, cost inflation and higher freight costs from an increase in shipping directly to customers in 2017.

Operating expenses in the nine months ended September 30, 2017 were \$229 million compared to \$216 million for the nine months ended September 30, 2016. Excluding restructuring costs in both periods, operating expenses would have increased 1%.

Operating losses were \$59 million for the nine months ended September 30, 2017 versus \$55 million in the nine months ended September 30, 2016. Excluding the restructuring costs and the inventory adjustment, operating losses would have been \$33 million compared to \$30 million in the prior year. The higher loss was primarily driven by higher operating expenses.

Other Businesses

Net sales for other businesses, were \$1,561 million for the nine months ended September 30, 2017, an increase of \$160 million or 11% when compared with net sales of \$1,401 million for the same period in 2016. On a daily basis, sales increased 12% and consisted of the following:

	Percent Increase/(Decrease)
Volume	15
Foreign exchange	(3)
Total	12%

Operating earnings of \$44 million in the nine months ended September 30, 2017 decreased by \$32 million compared to \$76 million in the nine months ended September 30, 2016. Operating earnings in 2017 included a \$41 million

charge primarily for the wind-down of the business in Colombia partially offset by strong performance from the single channel online businesses.

Other Income and Expense

Other income and expense was \$81 million of expense in the nine months ended September 30, 2017 compared to \$72 million of expense in the nine months ended September 30, 2016. The increase in expense was primarily due to

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

interest expense from the \$400 million of additional long-term debt issued in May 2017, as well as increased losses from the Company's investments in clean energy.

Income Taxes

Grainger's effective tax rates were 36.7% and 35.4% for the nine months ended September 30, 2017 and 2016, respectively. The increase was primarily due to the wind-down of the business in Colombia and the inability to realize the associated tax benefits, partially offset by incremental tax credits from the Company's investment in clean energy and the benefit of stock awards. The 2016 tax rate also included a benefit from the federal income tax audit resolution for the tax years 2009 through 2012 and other discrete items.

Financial Condition

Cash Flow

Net cash provided by operating activities was \$721 million and \$689 million for the nine months ended September 30, 2017 and 2016, respectively. The increase in cash provided is primarily the result of lower payments related to employee benefits, partially offset by lower earnings and higher working capital. Net cash provided had been reported as \$670 million in the prior year. The \$689 million is based on the adoption of ASU 2016-09, which required retrospective reclassification of \$19 million from operating activities to financing activities. The reclassification relates to employee taxes paid as part of the exercise of stock options.

Net cash used in investing activities was \$100 million and \$185 million in the nine months ended September 30, 2017 and 2016, respectively. The decrease in net cash used was driven by lower additions to property, buildings and equipment compared to the prior year and higher proceeds from the sales of branch real estate assets and the U.S. specialty business divestiture when compared to the prior year.

Net cash used in financing activities was \$619 million compared to \$518 million in the nine months ended September 30, 2017 and 2016, respectively. The increase in net cash used in financing activities of \$101 million was primarily driven by lower proceeds of long-term debt and higher net payments of commercial paper, offset by lower stock repurchases in 2017 compared to 2016 and lower payments of long-term debt.

Working Capital

Working capital consists of current assets (less non-operating cash) and current liabilities (less short-term debt and current maturities of long-term debt).

Working capital at September 30, 2017 was \$1,740 million, an increase of \$18 million when compared to \$1,722 million at December 31, 2016, primarily due to an increase in accounts receivable partially offset by increases in current liabilities. The working capital assets to working capital liabilities ratio decreased to 2.3 at September 30, 2017, from 2.4 at December 31, 2016.

Debt

Grainger maintains a debt ratio and liquidity position that provide flexibility in funding working capital needs and long-term cash requirements. In addition to internally generated funds, Grainger has various sources of financing available, including bank borrowings under lines of credit. Total interest-bearing debt as a percent of total capitalization was 55.0% at September 30, 2017 and 54.1% at December 31, 2016.

Critical Accounting Policies and Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the financial statements. Management bases its estimates on historical experience and other assumptions, which it believes are reasonable. If actual amounts are ultimately different from these estimates, the revisions are included in Grainger's results of operations for the period in which the actual amounts become known.

Accounting policies are considered critical when they require management to make assumptions about matters that are highly uncertain at the time the estimates are made and when there are different estimates that management reasonably could have made, which would have a material impact on the presentation of Grainger's financial condition,

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

changes in financial condition or results of operations. For a description of Grainger's critical accounting policies see Grainger's Annual Report on Form 10-K for the year ended December 31, 2016.

Forward-Looking Statements

From time to time, in this Quarterly Report on Form 10-Q, as well as in other written reports, communications and verbal statements, Grainger makes forward-looking statements that are not historical in nature but concern forecasts of future results, business plans, analyses, prospects, strategies, objectives and other matters that may be deemed to be "forward-looking statements" under the federal securities laws. Such forward-looking statements are identified by words such as "anticipate," "estimate," "believe," "expect," "could," "forecast," "may," "intend," "plan," "predict," "project" and similar expressions.

Grainger cannot guarantee that any forward-looking statement will be realized, although Grainger does believe that its assumptions underlying its forward-looking statements are reasonable. Achievement of future results is subject to risks and uncertainties, many of which are beyond the Company's control, which could cause Grainger's results to differ materially from those that are presented.

Important factors that could cause actual results to differ materially from those presented or implied in a forward-looking statement include, without limitation: higher product costs or other expenses; a major loss of customers; loss or disruption of source of supply; increased competitive pricing pressures; failure to develop or implement new technologies or business strategies; the implementation, timing and results of the Company's strategic pricing actions and other responses to market pressures; the outcome of pending and future litigation or governmental or regulatory proceedings, including with respect to wage and hour, anti-bribery and corruption, environmental, advertising, privacy and cybersecurity matters; investigations, inquiries, audits and changes in laws and regulations; disruption of information technology or data security systems; general industry or market conditions; general global economic conditions; currency exchange rate fluctuations; market volatility; commodity price volatility; labor shortages; facilities disruptions or shutdowns; higher fuel costs or disruptions in transportation services; natural and other catastrophes; unanticipated weather conditions; loss of key members of management; the Company's ability to operate, integrate and leverage acquired businesses; changes in credit ratings; changes in effective tax rates; and other factors identified under Item 1A: Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, as updated in the Company's Quarterly Reports on Form 10-Q.

Caution should be taken not to place undue reliance on Grainger's forward-looking statements and Grainger undertakes no obligation to publicly update any of its forward-looking statements, whether as a result of new information, future events or otherwise.

W.W. Grainger, Inc. and Subsidiaries

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For quantitative and qualitative disclosures about market risk, see “Item 7A: Quantitative and Qualitative Disclosures About Market Risk” in Grainger's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Grainger carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of Grainger's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that Grainger's disclosure controls and procedures were effective as of the end of the period covered by this report in (i) ensuring that information required to be disclosed by Grainger in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in Grainger's internal control over financial reporting that occurred during the third quarter that have materially affected, or are reasonably likely to materially affect, Grainger's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

As previously disclosed, on April 5, 2013, David Davies filed a putative class action lawsuit in the Circuit Court of Cook County, Illinois under the Telephone Consumer Protection Act of 1991, as amended by the Junk Fax Prevention Act of 2005, and sought certification of a class of persons who may have received one or more faxes the Company sent in connection with a 2009 marketing campaign. The Company removed the suit to the Federal District Court for the Northern District of Illinois (the “District Court”). On June 27, 2014, the District Court refused to certify the class. The United States Court of Appeals for the Seventh Circuit denied Davies' petition for immediate review of that ruling. The Company has now entered into an individual settlement with Davies resolving all of his claims on terms not material to the Company. The case was dismissed with prejudice on September 28, 2017.

W.W. Grainger, Inc. and Subsidiaries

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Issuer Purchases of Equity Securities – third quarter

Period	Total Number of Shares Purchased (A)	Average Price Paid per Share (B)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (C)	Maximum Number of Shares That May Yet be Purchased Under the Plans or Programs
July 1 – July 31	245,081	\$170.24	245,081	4,187,194
Aug. 1 – Aug. 31	342,665	\$163.10	342,665	3,844,529
Sept. 1 – Sept. 30	131,462	\$170.47	131,462	3,713,067
Total	719,208	\$166.88	719,208	

(A) There were no shares withheld to satisfy tax withholding obligations.

(B) Average price paid per share includes any commissions paid and includes only those amounts related to purchases as part of publicly announced plans or programs.

(C) Purchases were made pursuant to a share repurchase program approved by Grainger's Board of Directors on April 6, 2015. The program has no specified expiration date. Activity is reported on a trade date basis.
