QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended June 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

Commission file number: 000-09165

STRYKER CORPORATION

(Exact name of registrant as specified in its charter)

Michigan

38-1239739

(State of incorporation)

(I.R.S. Employer Identification No.)

2825 Airview Boulevard, Kalamazoo, Michigan 49002

(Address of principal executive offices)

(Zip Code)

(269) 385-2600

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: STRYKER CORP - Form 10-Q

Large accelerated filer Accelerated filer

Non-accelerated filer Small reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

Number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:
374,302,065 shares of Common Stock, \$0.10 par value, on June 30, 2016.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE 1 - BASIS OF PRESENTATION

General Information

These statements should be read in conjunction with our Annual Report on Form 10-K for 2015. Management believes that the accompanying unaudited consolidated financial statements contain all adjustments, including normal recurring items, considered necessary for a fair presentation of the interim periods. However, the results of operations included in these consolidated financial statements may not necessarily be indicative of our annual results. Certain prior year amounts on the balance sheet were reclassified as a result of the adoption of Accounting Standards Update (ASU) 2015-03, Interest - Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs to conform with the current year presentation. Refer to Note 7 in the notes to our Consolidated Financial Statements for further information. Certain prior year amounts have been reclassified to conform to the current year presentation of our segment information in Note 10.

New Accounting Pronouncements Not Yet Adopted

In March 2016 the Financial Accounting Standards Board (FASB) issued ASU 2016-09, Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting. This update simplifies the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as simplifies classification in the statement of cash flows. We plan to adopt this standard on January 1, 2017. We are still evaluating the impact that this standard will have on our consolidated financial statements.

In February 2016 the FASB issued ASU 2016-02, Leases. This update requires an entity to recognize assets and liabilities for leases with lease terms of more than 12 months on the balance sheet. We plan to adopt this standard on January 1, 2019. We are still evaluating the impact that this standard will have on our consolidated financial statements.

In May 2014 the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This update outlines a single, comprehensive model for accounting for revenue from contracts with customers. We plan to adopt the standard on January 1, 2018. We are still evaluating the impact that this standard will have on our consolidated financial statements.

No other new accounting pronouncements were issued or became effective during the period that had, or are expected to have, a material impact on our consolidated financial statements.

NOTE 2 - FAIR VALUE MEASUREMENTS

Financial assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

- Level 1 Quoted market prices in active markets for identical assets or liabilities
- Level 2 Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 Unobservable inputs reflecting our assumptions or external inputs from active markets

When applying the fair value principles in the valuation of assets and liabilities, we are required to maximize the use of quoted market prices and minimize the use of unobservable inputs. We calculate the fair value of our Level 1 and Level 2 instruments based on the

exchange traded price of identical or similar instruments, where available, or based on other observable inputs taking into account our credit risk and that of our counterparties. Foreign currency exchange contracts and interest rate hedges are included in Level 2 as we use inputs other than quoted prices that are observable for the asset or liability. The Level 2 derivative instruments are primarily valued using standard calculations and models that use readily observable market data as their basis. Our Level 3 liabilities represent milestone payments for acquisitions. For certain Level 3 liabilities the Black-Scholes option pricing model was used to value the liabilities, while the fair value of remaining liabilities was estimated using a discounted cash flow technique. Significant unobservable inputs to this

Edgar Filing: STRYKER CORP - Form 10-Q

technique included our probability assessments of occurrence of triggering events, appropriately discounted considering the uncertainties associated with the obligation. We remeasure the fair value our assets and liabilities each reporting period. We record the changes in fair value within selling, general and administrative expense and the changes in the time value of money within other income (expense), net.

Valuation of Assets and Liabilities Measured at Fair Value

	June 2016	December 2015
Cash and cash equivalents	\$3,490	\$ 3,379
Trading marketable securities	87	82
Level 1 - Assets	\$3,577	\$ 3,461
Available-for-sale marketable securities:		
Corporate and asset-backed debt securities	\$47	\$ 214
Foreign government debt securities	64	96
United States agency debt securities	16	120
United States treasury debt securities	26	264
Certificates of deposit	13	8
Total available-for-sale marketable securities	\$166	\$ 702
Foreign currency exchange forward contracts	11	69
Interest rate swap asset	44	15
Level 2 - Assets	\$221	\$ 786
Total assets measured at fair value	\$3,798	\$ 4,247
Deferred compensation arrangements	\$87	\$ 82
Level 1 - Liabilities	\$87	\$ 82
Foreign currency exchange forward contracts	\$41	\$ 10
Interest rate swap liability	—	4
Level 2 - Liabilities	\$41	\$ 14
Contingent consideration:		
Beginning balance	\$56	\$ 48
Additions	13	11
Losses included in earnings	(5)—
Settlements	(2)(3)
Balance at the end of the period	\$62	\$ 56
Level 3 - Liabilities	\$62	\$ 56
Total liabilities measured at fair value	\$190	\$ 152

There were no significant transfers into or out of any level between December 31, 2015 and June 30, 2016.

Fair Value of Available for Sale Securities by Maturity

	June 2016	December 2015
Due in one year or less	\$ 91	\$ 588
Due after one year through three years	\$ 74	\$ 114
Due after three years	\$ 1	\$ —

On June 30, 2016 the aggregate difference between the cost and fair value of available-for-sale marketable securities was nominal.

4 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

The total of interest and marketable securities income was \$7 and \$5 in the three months 2016 and 2015 and \$12 and \$11 in the six months 2016 and 2015. We record interest and marketable securities income in other income (expense), net.

Less than 1% of our investments in available-for-sale marketable securities had a credit quality rating of less than A2 (Moody's), A (Standard & Poor's) and A (Fitch). We do not plan to sell the investments, and it is not more likely than not that we will be required to sell the investments before recovery of their amortized cost basis, which may be maturity. We do not consider these investments to be other-than-temporarily impaired on June 30, 2016.

Securities in a Continuous Unrealized Loss Position

	Number of Investments	Fair Value
Corporate and asset-backed	11	\$ 10
United States agency	1	5
Total	12	\$ 15

On June 30, 2016 substantially all our investments with unrealized losses that were not deemed to be other-than-temporarily impaired were in a continuous unrealized loss position for less than twelve months, and the losses were nominal.

Ending	\$ —	\$ (126)	\$ 24	\$ (329)	\$ (431)

NOTE 4 - DERIVATIVE INSTRUMENTS

We use operational and economic hedges, foreign currency exchange forward contracts, net investment hedges and interest rate derivative instruments to manage the impact of currency exchange and interest rate fluctuations on earnings and cash flow. At inception the derivative is designated as a cash flow hedge, a fair value hedge or a free standing derivative. We do not enter into derivative instruments for speculative purposes. We did not change our hedging strategies, accounting practices, or objectives from those disclosed in our Annual Report on Form 10-K for 2015.

Designated Net Investment Hedges

We have designated certain long-term intercompany loans payable and forward exchange contracts as net investment hedges of our investments in certain international subsidiaries that use the Euro as their functional currency. The effective portion of derivatives designated as net investment hedges are reported as a component of Accumulated Other Comprehensive Income (AOCI). On June 30, 2016 the total after-tax amount in AOCI related to our designated net investment hedges was \$13. For derivative instruments that are designated and qualify as a net investment hedge, the effective portion of the derivative's gain or loss is recognized in OCI and reported as a component of AOCI. We use the forward method to measure ineffectiveness. Under this method, for each reporting period the change in the carrying value of the Euro-denominated amounts due to remeasurement of the effective portion is reported as a component of AOCI, and the remaining change in the carrying value of the ineffective portion, if any, is recognized in other income (expense), net. The gain or loss related to settled net investment hedges will be subsequently reclassified into net earnings when the hedged net investment is either sold or substantially liquidated. We evaluate the effectiveness of our net investment hedges quarterly and did not recognize any ineffectiveness in the six months 2016.

Designated and Non-Designated Hedges

June 2016	Designated	Non-Designated	Total
Gross notional amount	\$ 1,011	\$ 2,789	\$ 3,800
Maximum term in days			546
Fair value:			
Other current assets	\$ 5	\$ 5	\$ 10
Other noncurrent assets	1	—	1
Other current liabilities	(31)	(7)	(38)
Other noncurrent liabilities	(3)	—	(3)
Total	\$ (28)	\$ (2)	\$ (30)

5 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

December 2015	Designated	Non-Designated	Total
Gross notional amount	\$ 889	\$ 4,061	\$4,950
Maximum term in days			546
Fair value:			
Other current assets	\$ 27	\$ 41	\$68
Other noncurrent assets	1	—	1
Other current liabilities	(6)	(3)	(9)
Other noncurrent liabilities	(1)	—	(1)
Total	\$ 21	\$ 38	\$59

We are exposed to credit loss in the event of nonperformance by our counterparties on our outstanding derivative instruments but do not anticipate nonperformance by any of our counterparties. Should a counterparty default, our maximum exposure to loss is the asset balance of the instrument.

Net Currency Exchange Rate Gains (Losses)

	Three Months	Six Months
Recorded In:	2016	2015
Cost of sales	\$2 \$5	\$8 \$5
Other income (expense), net	(6) (7)	(10) (11)
Total	\$(4) \$(2)	\$(2) \$(6)

On June 30, 2016 and December 31, 2015 pretax (losses) gains on derivatives designated as hedges of (\$22) and \$17, reported in AOCI, were expected to be reclassified to earnings during the next 12 months. This reclassification is primarily due to the sale of inventory that includes previously hedged purchases. There were no ineffective portions of derivatives that resulted in gains or losses in any of the periods presented.

Interest Rate Risk on Future Debt Issuance

In the six months 2016 we terminated multiple designated interest rate cash flow hedges, recognized \$7 in OCI related to hedges on our debt issuances and recognized a nominal amount of ineffectiveness in interest expense. The remaining amounts in AOCI will be reclassified to interest expense over the term of the debt. The cash flow effect of these hedges is recognized in cash flow from operations.

Fair Value Hedges

On June 30, 2016 we had interest rate swaps with gross notional amounts of \$500 designated as fair value hedges of underlying fixed rate obligations representing a portion of our \$600 senior unsecured notes due in 2024. In the six months 2016, there was no hedge ineffectiveness recorded as a result of these fair value hedges.

Fair Value Interest Rate Hedge Instruments

	June 2016	December 2015
Gross notional amount	\$500	\$ 500
Fair value:		
Other noncurrent assets	\$44	\$ 15
Long-term debt	(44)	(15)
Total	\$—	\$ —

NOTE 5 - ACQUISITIONS

In April 2016 we completed the acquisition of Sage Products, LLC (Sage) for total consideration of approximately \$2,875. Sage develops, manufactures and distributes disposable products targeted at reducing "Never Events," primarily in the intensive care unit.

In April 2016 we completed the acquisition of Physio-Control International, Inc. (Physio) for total consideration of approximately \$1,308. Physio develops, manufactures and markets monitors/defibrillators, automated external defibrillators (AEDs) and CPR-assist devices along with data management and support services.

Edgar Filing: STRYKER CORP - Form 10-Q

Other acquisitions in 2016 include the April acquisition of Synergetics' neuro portfolio (Synergetics). The acquired portfolio of Synergetics includes the Malis generator, Spetzler Malis disposable forceps, and our existing Sonopet tips and RF generator.

Other acquisitions in 2015 include the acquisition of certain assets of CHG Hospital Beds, Inc. (CHG). CHG designs, manufactures and markets low-height hospital beds and related accessories. The measurement period for CHG is complete. Revisions to the original purchase price allocation were nominal.

These acquisitions enhanced our product offerings within our MedSurg segment. Goodwill acquired with the Sage, Synergetics and CHG acquisitions is deductible for tax purposes.

Supplemental pro forma combined statements of earnings have not been presented for the Sage and Physio acquisitions as the impact of their results of operations were not material to our Consolidated Statements of Earnings.

Purchase Price Allocation of Acquired Net Assets

	2016		2015

NOTE 6 - CONTINGENCIES AND COMMITMENTS

We are involved in various ongoing proceedings, legal actions and claims arising in the normal course of business, including proceedings related to product, labor, intellectual property and other matters that are more fully described below. The outcomes of these matters will generally not be known for prolonged periods of time. In certain of the legal proceedings, the claimants seek damages as well as other compensatory and equitable relief that could result in the payment of significant claims and settlements and/or the imposition of injunctions or other equitable relief. For legal matters for which management has sufficient information to reasonably estimate our future obligations, a liability representing management's best estimate of the probable loss, or the minimum of the range of probable losses when a best estimate within the range is not known, is recorded. The estimates are based on consultation with legal counsel, previous settlement experience and settlement strategies. If actual outcomes are less favorable than those estimated by management, additional expense may be

6 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

incurred, which could unfavorably affect future operating results. We are self-insured for product liability claims and expenses. The ultimate cost to us with respect to product liability claims could be materially different than the amount of the current estimates and accruals and could have a material adverse effect on our financial position, results of operations and cash flows.

In June 2012 we voluntarily recalled our Rejuvenate and ABG II Modular-Neck hip stems and terminated global distribution of these hip products. Product liability lawsuits relating to this voluntary recall have been filed against us. On November 3, 2014 we announced that we had entered into a settlement agreement to compensate eligible United States patients who had revision surgery to replace their Rejuvenate and/or ABG II Modular-Neck hip stem prior to that date. We continue to offer support for recall-related care and reimburse patients who are not eligible to enroll in the settlement program for testing and treatment services, including any necessary revision surgeries. In addition, some lawsuits will remain and we will continue to defend against them. Based on the information that has been received, the actuarially determined range of probable loss to resolve this matter globally is estimated to be approximately \$1,870 (\$2,102 before \$232 of third-party insurance recoveries) to \$2,411. In the three months 2016 we recognized additional charges to earnings of \$28 representing the excess of the minimum of the range over the previously recorded reserves. We have made a total of \$1,460 of recall-related payments, including \$1,359 under the United States Rejuvenate and ABG II settlement agreement. The final outcome of this matter is dependent on many factors that are difficult to predict including the number of enrollees in the settlement program and the total awards to them, the number and costs of patients not eligible for the settlement program who seek testing and treatment services and require revision surgery and the number and actual costs to resolve the remaining lawsuits. Accordingly, the ultimate cost to resolve this entire matter globally may be materially different than the amount of the current estimate and accruals and could have a material adverse effect on our financial position, results of operations and cash flows.

In 2010 we filed a lawsuit in federal court against Zimmer Biomet Holdings, Inc. (Zimmer), alleging that a Zimmer product infringed three of our patents. In 2013 following a jury trial favorable to us, the trial judge entered a judgment that, among other things, awarded us damages of \$76 and ordered Zimmer to pay us enhanced damages. Zimmer appealed this ruling. In December 2014 the Federal Circuit affirmed the damages awarded to us, reversed the order for enhanced damages and remanded the issue of attorney fees to the trial court. The Federal Circuit denied our petition for a rehearing en banc on the issue of enhanced damages. In May 2015 the trial court entered a stipulated judgment that, among other things, required Zimmer to pay us the base amount of damages and interest, while the issues of enhanced damages and attorney fees continue to be pursued. In June 2015 we recorded a \$54 gain, net of legal costs, which was recorded within selling, general and administrative expenses. On June 13, 2016 the United States Supreme Court vacated the decision of the Federal Circuit that reversed our judgment for enhanced damages and remanded the case to the Federal Circuit to reconsider the issue.

In April 2011 Hill-Rom Company, Inc. and affiliated entities (Hill-Rom) brought a lawsuit against us alleging infringement under United States patent laws with respect to nine patents related to electrical network communications for hospital beds. On March 31, 2015 the court granted the parties' joint motion to dismiss with prejudice the claims and counterclaims associated with three of these patents. The case has been stayed with respect to the remaining six patents, until reexamination proceedings at the United States Patent Office have concluded. The ultimate resolution of this

matter cannot be predicted and it is not possible at this time for us to estimate any probable loss or range of probable losses; however, the ultimate result could have a material adverse effect on our financial position, results of operations and cash flows.

NOTE 7 - DEBT AND CREDIT FACILITIES

In March 2016 we sold \$3,500 of senior unsecured notes. Our commercial paper program allows us to have a maximum of \$1,250 in commercial paper outstanding with maturities up to 397 days from the date of issuance. The weighted-average original maturity of the commercial paper outstanding was approximately 40 days. The following table is a summary of our total debt and other debt information.

June	December
2016	2015

Senior unsecured

notes:

Rate	Due

Other		36	22
Total debt		\$7,644	\$ 3,998
Less current maturities		927	768
Total long-term debt		\$6,717	\$ 3,230

Unamortized debt issuance costs \$48 \$ 24

Available borrowing capacity under all existing facilities \$1,157 \$ 1,236

Fair value of debt \$7,881 \$ 4,009

We have lines of credit issued by various financial institutions that are available to fund our day-to-day operating needs. Certain of our credit facilities require us to comply with financial and other covenants. We were in compliance with all covenants on June 30, 2016.

The fair value of debt (excluding the interest rate hedge) was based on the quoted interest rates for similar types and amounts of borrowings. Substantially all of our debt was classified within Level 1 of the fair value hierarchy, because the fair value of the debt was estimated using rates with identical terms and maturities based on quoted active market prices and yields, which took into account the underlying terms of the debt instruments.

On January 1, 2016 we retrospectively adopted ASU 2015-03, Interest - Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs. This standard update requires an entity to present debt issuance costs related to a recognized debt liability as a direct deduction from the carrying amount of that debt liability consistent with the treatment of debt discounts. The adoption of this standard resulted in the reclassification of \$24 of unamortized debt issuance costs principally from other noncurrent assets to a reduction of long term debt on our consolidated balance sheet on December 31, 2015.

NOTE 8 - CAPITAL STOCK

In February 2016 we declared a quarterly dividend of \$0.38 per share payable on April 30, 2016 to shareholders of record at the close of business on March 31, 2016. In April 2016 we declared a

7 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

quarterly dividend of \$0.38 per share payable on July 29, 2016 to shareholders at the close of business on June 30, 2016.

In the six months 2016, 135 thousand shares, repurchased at the end of 2015, were settled at a cost of \$13 under our authorized repurchase programs. The manner, timing and amount of repurchases is determined by management based on an evaluation of market conditions, stock price and other factors and is subject to regulatory considerations. Purchases are made from time-to-time in the open market, in privately negotiated transactions or otherwise. On June 30, 2016 the total dollar value of shares that could be acquired under our authorized repurchase programs was \$1,870. We have suspended our share repurchase program through the remainder of 2016.

NOTE 9 - INCOME TAXES

Our effective tax rates were 12.3% and 2.2% in the three months 2016 and 2015 and 14.5% and 20.8% in the six months 2016 and 2015. The increase in the effective income tax rate in the three months 2016 was due to tax expense related to acquisitions in the quarter, while the effective income tax rate in 2015 included decreased tax expense related to the jurisdictional allocation of tax expense on recall charges. The effective income tax rate in the six months 2016 decreased from 2015 primarily due to certain discrete 2015 tax expense related to the establishment of our European regional headquarters.

NOTE 10 - SEGMENT INFORMATION

The following table is a summary of our results of operations by reportable segments.

	Three Months		Six Months	
	2016	2015	2016	2015
Orthopaedics	\$1,082	\$1,035	\$2,139	\$2,058

Legal matters	—	53	12	53
Consolidated operating income	\$500	\$429	\$1,019	\$835

Total assets of our MedSurg segment increased to \$8,916 as a result of our recent acquisitions as discussed in Note 5. There were no other significant changes to total assets by segment from information provided in our Annual Report on Form 10-K for 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

ABOUT STRYKER

Stryker Corporation is a global leader in medical technology with revenues of \$9,946 and net earnings of \$1,439 in 2015. Stryker offers a diverse array of innovative medical technologies including orthopaedic, medical and surgical, and neurotechnology and spine products to help people lead more active and satisfying lives.

We segregate our operations into three reportable business segments: Orthopaedics, MedSurg, and Neurotechnology and Spine. Orthopaedics products consist primarily of implants used in hip and knee joint replacements and trauma and extremities surgeries. MedSurg products include surgical equipment and surgical navigation systems (Instruments), endoscopic and communications systems (Endoscopy), patient handling and emergency medical

equipment (Medical), and reprocessed and remanufactured medical devices (Sustainability) as well as other medical device products used in a variety of medical specialties. Neurotechnology and Spine products include both neurosurgical and neurovascular devices.

Overview of the Three and Six Months

In the three months we achieved sales growth of 16.8% and 17.0% in constant currency, including 10.4% from acquisitions. We reported net earnings per diluted share of \$1.00 in the three months and achieved a 15.8% growth in adjusted net earnings per diluted share.

In the six months we achieved sales growth of 10.9% and 11.6% in constant currency, including 5.3% from acquisitions. We reported net earnings per diluted share of \$2.07 in the six months and achieved a 13.9% growth in adjusted net earnings per diluted share.

A reconciliation of reported net earnings per diluted share to adjusted net earnings per diluted share is included on page 12 of this report.

Recent Developments

In April 2016 we completed the acquisitions of Sage Products, LLC (Sage) for total consideration of approximately \$2,875, Physio-Control International, Inc. (Physio) for total consideration of approximately \$1,308 and Synergetics' neuro portfolio (Synergetics). Sage develops, manufactures and distributes disposable products targeted at reducing "Never Events," primarily in the intensive care unit. Physio develops, manufactures and markets monitors/defibrillators, automated external defibrillators (AEDs) and CPR-assist devices along with data management and support services. The acquired portfolio of Synergetics includes the Malis generator, Spetzler Malis disposable forceps and our existing Sonopet tips and RF generator. Refer to Note 5 in the notes to our Consolidated Financial Statements for further information.

In March 2016 we sold \$3,500 of senior unsecured notes. Refer to Note 7 in the notes to our Consolidated Financial Statements for further information.

8 Dollar amounts are in millions except per share amounts or as otherwise specified.

Consolidated net sales of \$2,840 increased 16.8% in the three months as reported and 17.0% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.2%. Excluding the 10.4% impact of acquisitions, net sales in constant currency increased by 7.9% from increased unit volume partially offset by 1.3% due to lower prices. The unit volume increase was

primarily due to higher shipments of knees, medical, endoscopy and trauma and extremities products.

Consolidated net sales of \$5,335 increased 10.9% in the six months as reported and 11.6% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.7%. Excluding the 5.3% impact of acquisitions, net sales in constant currency increased by 7.7% from increased unit volume partially offset by 1.3% due to lower prices. The unit volume increase was primarily

9 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

due to higher shipments of knees, trauma and extremities, neurotechnology, medical, endoscopy and instruments products.

Orthopaedics Net Sales

Orthopaedics net sales of \$1,082 increased 4.6% in the three months as reported and 4.8% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.2%. Excluding the 0.3% impact of acquisitions, net sales in constant currency increased by 6.7% from increased unit volume partially offset by 2.2% due to lower prices. The unit volume increase was led primarily by higher shipments of knees and trauma and extremities products. Orthopaedics net sales of \$2,139 increased 3.9% in the six months as reported and 4.7% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.8%. Excluding the 0.2% impact of acquisitions, net sales in constant currency increased by 6.5% from increased unit volume partially offset by 1.9% due to lower prices. The unit volume increase was led primarily by higher shipments of knees and trauma and extremities products.

MedSurg Net Sales

MedSurg net sales of \$1,258 increased 33.8% in the three months as reported and 34.2% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.4%. Excluding the 25.7% impact of acquisitions, net sales in constant currency increased by 9.0% from increased unit volume partially offset by 0.5% due to lower prices. The unit volume increase was led primarily by higher shipments of medical and endoscopy products.

MedSurg net sales of \$2,216 increased 18.7% in the six months as reported and 19.5% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.8%. Excluding the 13.0% impact of acquisitions, net sales in constant currency increased by 7.0% from increased unit volume partially offset by 0.6% due to lower prices. The unit volume increase was led primarily by higher shipments of endoscopy, instruments and medical products.

Neurotechnology and Spine Net Sales

Neurotechnology and Spine net sales of \$500 increased 9.3% in the three months as reported and 9.0% in constant currency, as foreign currency exchange rates positively impacted net sales by 0.3%. Excluding the 1.5% impact of acquisitions, net sales in constant currency increased by 8.5% from increased unit volume partially offset by 1.0% due to lower prices. The unit volume increase was led primarily by higher shipments of neurotechnology products.

Neurotechnology and Spine net sales of \$980 increased 10.6% in the six months as reported and 11.0% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.4%. Excluding the 0.8% impact of acquisitions, net sales in constant currency increased by 11.9% from increased unit volume partially offset by 1.7% due to lower prices. The unit volume increase was led primarily by higher shipments of neurotechnology products.

Gross Profit

Gross profit in the three months decreased to 64.9% of sales from 66.0% in 2015 primarily due to the impact of the sale of inventory stepped up to fair value in connection with our recent acquisitions and unfavorable product mix. The gross profit decrease in the three months was partially offset by the favorable impact of the two-year suspension of the United States medical device excise tax that became effective January 1, 2016. Gross profit in the six months increased to 66.3% from 65.6% in 2015 primarily due to suspension of the United States medical device excise tax. We expect this favorable impact to gross profit as a result of the suspension of the United States medical device excise tax to continue through 2017.

	Three Months

Adjusted Gross Profit	\$3,576	67.0 %	\$3,173	66.0 %

Research, Development and Engineering Expenses

Research, development and engineering expenses increased \$29 or 18.8% to \$183 in the three months and were 6.4% of sales in 2016 compared to 6.3% in 2015. These expenses increased \$36 or 11.8% to \$342 in the six months and 6.4% of sales in both 2016 and 2015. Recent acquisitions and the timing of spending on projects and investments in new technologies contributed to the increased spending levels.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$182 or 21.1% in the three months to 36.7% of sales compared to 35.4% in 2015. Excluding the impact of the charges noted below, expenses decreased to 34.9% of sales compared to 36.1% in 2015, primarily due to disciplined expense management, partially offset by the impact of our recent acquisitions, increased compensation costs due in part to sales performance-related compensation and expenses associated with the development of a global enterprise resource planning system.

Selling, general and administrative expenses increased \$234 or 13.3% in the six months to 37.2% of sales compared to 36.4% in 2015. Excluding the impact of the charges noted below, expenses increased slightly to 36.1% of sales compared to 36.0% in 2015, primarily due to increased compensation costs due in part to sales performance-related compensation, the impact of our recent acquisitions and expenses associated with the development of a global enterprise resource planning system.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

Recall Charges

Recall charges were \$28 and \$112 in the three months and \$47 and \$166 in the six months of 2016 and 2015. The charges relate to the previously disclosed Rejuvenate and ABG II modular-neck hip stems voluntary recalls. Refer to Note 6 in the notes to our Consolidated Financial Statements for further information.

Intangibles Amortization

Intangibles amortization was \$88 and \$49 in the three months and \$141 and \$98 in the six months of 2016 and 2015. The increases were due primarily to our recent acquisitions. Refer to Note 5 in the notes to our Consolidated Financial Statements for further information.

Other Income (Expense), Net

Other income (expense), net was (\$67) and (\$28) in the three months and (\$105) and (\$57) in the six months 2016 and 2015. The increases were primarily driven by higher interest expense due to higher debt levels as a result of our March 2016 debt offering.

Income Taxes

The effective income tax rate on earnings was 12.3% and 2.2% in the three months 2016 and 2015 and 14.5% and 20.8% in the six months 2016 and 2015. The increase in the effective income tax rate in the three months 2016 was due to tax expense related to acquisitions in the quarter, while the effective income tax rate in the 2015 included decreased tax expense related to the jurisdictional allocation of tax expense on recall charges. The effective income tax rate in the six months 2016 decreased from the effective income 2015 primarily due to certain discrete 2015 tax expense related to the establishment of our European regional headquarters.

Net Earnings

Net earnings decreased to \$380 or \$1.00 per diluted share in the three months from \$392 or \$1.03 per diluted share in 2015. Adjusted net earnings per diluted share increased 15.8% to \$1.39 in the three months from \$1.20 in 2015. In addition, the impact of foreign currency exchange rates on net earnings reduced net earnings per diluted share by approximately \$0.03 and \$0.07 in the three months 2016 and 2015.

Net earnings increased to \$782 or \$2.07 per diluted share in the six months from \$616 or \$1.61 per diluted share in 2015. Adjusted net earnings per diluted share increased 13.9% to \$2.63 in the six months from \$2.31 in 2015. In addition, the impact of foreign currency exchange rates on net earnings reduced net earnings per diluted share by approximately \$0.05 and \$0.13 in the six months 2016 and 2015.

NON-GAAP FINANCIAL MEASURES

We supplement the reporting of our financial information determined under accounting principles generally accepted in the United States (GAAP) with certain non-GAAP financial measures including percentage sales growth in constant currency; percentage organic sales growth; adjusted gross profit; cost of sales excluding specified items; adjusted selling, general and administrative expenses; adjusted amortization of purchased intangible assets; adjusted operating income; adjusted effective income tax rate; adjusted net earnings; and adjusted diluted net earnings per share (Diluted EPS). We believe that these non-GAAP measures provide meaningful information to assist investors and shareholders in understanding our financial results and assessing our prospects for future performance. Management believes percentage sales growth in constant currency and the other adjusted measures described above are important indicators of our operations because they exclude items that may not be indicative of or are unrelated to our core operating results and provide a baseline for analyzing trends in our underlying businesses. Management uses these non-GAAP financial measures for reviewing the operating results of reportable business segments and analyzing potential future business trends in connection with our budget process and bases certain management incentive compensation on these non-GAAP financial measures.

To measure percentage sales growth in constant currency we remove the impact of changes in foreign currency exchange rates that affect the comparability and trend of sales. Percentage sales growth in constant currency is calculated by translating current year results at prior year average foreign currency exchange rates. To measure percentage organic sales growth we remove the impact of changes in foreign currency exchange rates and acquisitions that affect the comparability and trend of sales. Percentage organic sales growth is calculated by translating current year results at prior year average foreign currency exchange rates excluding the impact of acquisitions.

To measure earnings performance on a consistent and comparable basis we exclude certain items that affect the comparability of operating results and the trend of earnings. These adjustments are irregular in timing, may not be indicative of our past and future performance and are therefore excluded to allow investors to better understand underlying operating trends. The following are examples of the types of adjustments that may be included in a period:

1. Acquisition and integration-related costs. Costs related to integrating recently acquired businesses and specific costs related to the consummation of the acquisition process.
2. Amortization of purchased intangible assets. Periodic amortization expense related to purchased intangible assets.
3. Restructuring-related charges. Costs associated with focused workforce reductions and other restructuring activities.

11 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

4. Recall matters. Our best estimate of the minimum of the range of probable loss to resolve certain product recalls.
5. Regulatory and legal matters. Our best estimate of the minimum of the range of probable loss to resolve certain regulatory matters and other legal settlements.
6. Tax matters. Certain significant and discrete tax items and adjustments to interest expense related to the settlement of certain tax matters.

Since non-GAAP financial measures are not standardized it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for reported sales growth,

gross profit, cost of sales, selling, general and administrative expenses, amortization of purchased intangible assets, operating income, effective income tax rate, net earnings and diluted net earnings per share, the most directly comparable GAAP financial measures. These non-GAAP financial measures are an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the reconciliations to corresponding GAAP financial measures at the end of the discussion of Results of Operations below, provide a more complete understanding of our business. We strongly encourage investors and shareholders to review our consolidated financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

FINANCIAL CONDITION AND LIQUIDITY

	Six Months	
	2016	2015
Net cash provided by operating activities	\$671	\$737
Net cash (used in) provided by investing activities	(3,912)	2,226
Net cash provided by (used in) financing activities	3,342	(1,051)
Effect of exchange rate changes	10	(81)
Change in cash and cash equivalents	\$111	\$1,831

Operating Activities

Cash provided by operations was \$671 and \$737 in the six months 2016 and 2015. Operating cash flows resulted primarily from net earnings adjusted for non-cash items (depreciation and amortization, share-based compensation and deferred income taxes). The decrease was primarily due to recall-related payments associated with the Rejuvenate and ABG II recalls, higher compensation related payments and higher inventory purchases. This was partially offset by lower income tax payments. The net of accounts receivable, inventory and accounts payable resulted in the consumption of \$173 and \$11 of cash in the six months 2016 and 2015. The increase in consumption was due to higher inventory purchases in 2016. Inventory days on hand on June 30, 2016 increased by 14 days from December 31, 2015.

Investing Activities

Cash used in investing activities was \$3,912 for 2016 primarily due to cash paid for acquisitions. Cash provided by investing activities was \$2,226 in 2015 due to the sale of marketable securities in preparation for recall-related payments.

Acquisitions: Acquisitions resulted in cash consumption of \$4,219 and \$92 in the six months 2016 and 2015. In 2016 we acquired Sage, Physio, Synergetics and various other businesses and related assets. In 2015 the primary acquisition was CHG.

Capital Expenditures: Capital expenditures were \$229 and \$114 in the six months 2016 and 2015.

Marketable Securities: Net cash provided by the sale of marketable securities was \$536 and \$2,432 in the six months 2016 and 2015.

Financing Activities

Dividend Payments: Dividends paid per common share were \$0.76 in the six months 2016 and 2015. Total dividend payments to common shareholders were \$284 and \$261 in the six months 2016 and 2015.

Short-Term and Long-Term Debt: Net proceeds from borrowings were \$3,611 in the six months 2016, primarily from the issuance of \$3,500 of senior unsecured notes in March 2016. Net repayments of debt were \$498 in 2015 as we repaid all of our senior unsecured notes that were due on January 15, 2015. Refer to Note 7 in the notes to our Consolidated Financial Statements for further information.

Share Repurchases: Share repurchases were \$13 and \$324 in the six months 2016 and 2015. We have suspended our share repurchase program through the remainder of 2016.

Liquidity

Cash, cash equivalents and marketable securities were \$3,656 and \$4,079 on June 30, 2016 and December 31, 2015. Current assets exceeded current liabilities by \$4,219 and \$4,441 on June 30, 2016 and December 31, 2015. We anticipate being able to support our short-term liquidity and operating needs, including acquisitions and recall-related payments related to the Rejuvenate and ABG II recalls

from a variety of sources including cash from operations, commercial paper and existing credit lines.

We raised funds in the capital markets and may continue to do so from time to time. As a result of the issuance of senior unsecured notes in March of 2016, Moody's downgraded our unsecured note ratings to Baa1 from A3, and Standard & Poor's downgraded our corporate credit and long-term issue-level rating to A from A+ and our short-term rating to A-1 from A-1+. Nevertheless we continue to have strong investment-grade short-term and long-term debt ratings that we believe should enable us to refinance our debt as it becomes due.

We have existing credit facilities should additional funds be required. On June 30, 2016 we had approximately \$1,157 of borrowing capacity available under all of our existing credit facilities.

On June 30, 2016 approximately 62% of our consolidated cash, cash equivalents and marketable securities were held in locations outside the United States compared to 46% on December 31, 2015. Our remaining cash held in locations outside the United States is considered to be indefinitely reinvested. We intend to use this cash to expand operations organically and through acquisitions.

Critical Accounting Policies

There were no changes to our critical accounting policies from those disclosed in our Annual Report on Form 10-K for 2015.

New Accounting Pronouncements Not Yet Adopted

Refer to Note 1 in the notes to our Consolidated Financial Statements for further information.

Guarantees and Other Off-Balance Sheet Arrangements

We do not have guarantees or other off-balance sheet financing arrangements including variable interest entities of a magnitude that we believe could have a material impact on our financial condition or liquidity.

OTHER MATTERS

Legal and Regulatory Matters

As further described in Note 6 to our Consolidated Financial Statements, we recorded additional charges to earnings of \$28 representing the excess of the minimum of the range of probable loss to resolve the Rejuvenate and ABG II recalls over the previously recorded reserves. Based on the information that has been received the actuarially determined range of probable loss to resolve this matter is estimated to be approximately \$1,870 (\$2,102 before \$232 of third-party insurance recoveries) to \$2,411. The final outcome of this matter is dependent on many variables that are difficult to predict. The ultimate cost to entirely resolve this matter may be materially different than the amount of the current estimate and could have a material adverse effect on our financial position, results of operations and cash flows.

FORWARD-LOOKING STATEMENTS

This report contains statements referring to us that are not historical facts and are considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which are intended to take advantage of the "safe harbor" provisions of the Reform Act, are based on current projections about operations, industry conditions, financial condition and liquidity. Words that identify forward-looking statements include words such as "may," "could," "will," "should," "would," "possible," "plan," "predict," "forecast," "potential," "anticipate," "estimate," "expect," "project," "intend," "believe," "may impact," "on track," and words and terms of similar substance used in connection with any discussion of future operating or financial performance, an acquisition or our businesses. In addition, any

13 Dollar amounts are in millions except per share amounts or as otherwise specified.

STRYKER CORPORATION 2016 Second Quarter Form 10-Q

statements that refer to expectations, projections or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. These forward-looking statements are not guarantees and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results could differ materially and adversely from these statements.

Some important factors that could cause our actual results to differ from our expectations in any forward-looking statements include those risks discussed in Item 1A. "Risk Factors" of our Annual Report on Form 10-K for 2015.

This Form 10-Q should be read in conjunction with our consolidated financial statements and accompanying notes to our consolidated financial statements in our Annual Report on Form 10-K for 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We consider our greatest potential area of market risk exposure to be exchange rate risk. Quantitative and qualitative disclosures about exchange rate risk are included in the "Other Information" section of Management's Discussion and Analysis of Financial Condition in Item 7 of our Annual Report on Form 10-K for 2015 under the caption "Hedging and Derivative Financial Instruments." There were no material changes from the information provided therein.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures on June 30, 2016 was carried out under the supervision and with the participation of our management including our Chairman and Chief Executive Officer and our Vice President, Chief Financial Officer (the Certifying Officers). Based on that evaluation the Certifying Officers concluded that our disclosure controls and procedures are effective.

Changes in Internal Controls Over Financial Reporting

There was no change to our internal control over financial reporting in the six months 2016 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) We issued 5,787 shares of our common stock in the three months 2016 as performance incentive awards to certain employees. These shares were not registered under the Securities Act of 1933 based on the conclusion that the awards would not be events of sale within the meaning of Section 2(a)(3) of the Act.

ITEM 6. EXHIBITS
