Gross margins as a percentage of sales in 2006 were 53.8 percent, compared with 56.8 percent in the prior year. This gross margin percentage change was primarily due to channel and product mix changes between the two periods.

During the fourth quarter, we began shipping to customers the FLX 500, our new automated programming system, said Fred Hume, president and CEO. We are pleased with our customers' reception of the FLX 500, the opportunities it provides for an expanded set of customers to automate their programming processes, and the FLX 500 as a platform for providing further customer solutions.

We are pleased that our restructuring actions taken in the third and fourth quarter were successful in adjusting the expense structure to increase profitability, said Hume.
