Richardson Reports 7.6% Sales Growth in the Second Quarter

LaFox, IL, Thursday December 18, 2003: Richardson Electronics, Ltd. (NASDAQ: RELL) today reported results for the second quarter of fiscal 2004, which ended November 29, 2003. Sales in the second quarter of 2004 were \$128.1 million, an increase of 7.6% from the prior year. Net income was \$1.6 million, or \$0.11 per share, in the quarter compared to \$1.2 million, or \$0.09 per share, in the same quarter last year.

Each of the Company's business units recorded sales growth over the prior year for the fourth consecutive quarter led by strong, broad-based demand in the Industrial Power Group and Security Systems Division. The sales increase was 14.5% and 8.8%, respectively. RF/Wireless Communications sales increased 7.3% over the prior year primarily due to stronger demand in network access and fiber products. Sales in the Display Systems Group were slightly up 0.2% in the quarter with sales of medical monitors and stereo monitors for satellite imagery increasing, offset by declines in custom displays due to the timing of project based business.

For the quarter, the Company achieved record sales levels in Europe of \$31.6 million and in Asia of \$25.2 million. For Europe, the sales represented an increase of 23.5% over the prior year with all four business units recording growth. Strong demand in wireless and industrial power products led the sales growth in Asia which increased 27.7% from the prior year. The Company's sales in North America declined 3.2% in the quarter, primarily due to the completion of a large wireless infrastructure project in the prior year. Sales in Latin America decreased 8.0% over the prior year,

mostly due to reduced demand in Central America, partially offset by increases in Mexico and Brazil.

For the six-month period, sales increased 8.7% from the prior year to \$247.4 million. Net income was \$2.1 million, or \$0.15 per share, in the six months compared to \$1.5 million, or \$0.11 per share a year ago, before the cumulative effect of accounting change which affected the prior year's six months as noted in the financial tables at the end of this release.

As part of its fiscal second quarter financial reporting process, the Company identified an accounting error that occurred in a foreign subsidiary which affected previously reported interest expense for the prior seven quarters. The correcting adjustment included a cumulative charge of \$0.7 million in the second quarter of fiscal 2004.

"We are pleased to report another solid quarter of sales and net income growth with positive cash flow," Edward J. Richardson, Chairman of the Board and Chief Executive Officer, said. "Our engineered solutions strategy is providing increasing levels of new opportunities for all of our strategic business units. Demand continues to strengthen as new orders increased 18% sequentially from the prior quarter, providing a solid order backlog for continued growth."

On Friday, December 19, 2003 at 9:00 a.m. CST, Mr. Edward J. Richardson, Chairman and Chief Executive Officer will host a conference call to discuss the release. A question and answer session will be included as part of the call's agenda. To listen to the call, please dial 800-450-0788 approximately five minutes prior to the start of the call. A replay of the call will be available from 12:30 p.m. on December 19, 2003 through March 23, 2004. The telephone numbers for the replay are (USA) 800-475-6701 and (International) 320-365-3844; access code 712128.

This release includes certain "forward-looking" statements as defined by the SEC. Statements in this press release regarding the Company's business, which are not historical facts, represent "forward-looking statements" that involve risks and uncertainties. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" in the Company's Annual Report on Form 10-K for the most recently ended fiscal year. The Company assumes no responsibility to update the forward-looking statements in this release as a result of new information, future events, or otherwise.

About Richardson Electronics

Richardson Electronics, Ltd. is a global provider of "engineered solutions," serving the RF and wireless communications, industrial power conversion, security and display systems markets. The Company delivers engineered solutions for its customers' needs through product manufacturing, systems integration, prototype design and manufacture, testing and logistics. Press announcements and other information about Richardson are available on the World Wide Web at <http://www.rell.com/investor.asp>.
