Item 8.01. Other Events.

On November 13, 2015, New Jersey Natural Gas Company (NJNG), a wholly-owned subsidiary of New Jersey Resources Corporation, filed a request with the New Jersey Board of Public Utilities (BPU) to increase base rates for delivery service by approximately \$148 million, which covers primarily the cost of constructing, operating and maintaining NJNG's infrastructure. The timing of the filing is driven by NJNG's substantial capital investment in infrastructure over the past seven years, as well as the company's agreement to file a rate case no later than November 15, 2015, in accordance with the BPU's Order with respect to the Safety Acceleration and Facility Enhancement (SAFE) and New Jersey Reinvestment in Facility Enhancements (NJ RISE) programs.

NJNG's current gas delivery rates will remain in effect until the BPU takes action on the filing. Under normal conditions, the BPU's review of NJNG's rate filing could take up to ten months. New base rates, if any, ultimately approved by the BPU may differ from what has been proposed in the November 13, 2015 filing.

A copy of the press release, dated as of November 13, 2015, announcing the filing of the base rate case is attached as Exhibit 99.1 to this report and is incorporated herein by reference. On November 13, 2015, NJR also published an Investor Fact Sheet entitled "New Jersey Natural Gas Company 2015 Base Rate Case Summary," which is attached hereto as Exhibit 99.2 and incorporated by reference herein.
