Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of  
The Ford Motor Company Tax-Efficient  
Savings Plan for Hourly Employees

We have audited the accompanying statements of net assets available for benefits of the Ford Motor Company Tax-Efficient Savings Plan for Hourly Employees as of December 31, 2004 and the related statement of changes in net assets available for plan benefits for the one day period ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2004, and the changes in net assets for the one day period ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Notes to Financial Statements  
December 31, 2004 and December 30, 2004**

**Note 1 - Description of the Plan**

The following description of the Ford Motor Company Tax-Efficient Savings Plan for Hourly Employees (the "Plan") provides only general information. The Plan was established effective January 1, 1985. Participants should refer to the provisions of the Plan that are governed in all respects by the detailed terms and conditions contained in the Tax Efficient Savings Agreement and Plan in Volume III of the agreement between the UAW and the Ford Motor Company (the "Company") dated September 15, 2003.

**Type and Purpose of the Plan** - The Plan is a defined contribution plan established to encourage and facilitate systematic savings and investment by eligible hourly employees of the Company and to provide them with an opportunity to become stockholders of the Company. The Plan includes provisions for voting shares of Company stock. It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA) applicable to defined contribution pension plans.

**Eligibility and Vesting** - Hourly employees are eligible to participate in the Plan three months after their original date of hire. Certain other part-time and temporary employees may also be eligible to participate in the Plan. Participation in the Plan is voluntary. Employees immediately vest 100 percent in the Plan.

**Contributions** - Participants can contribute to the Plan on both a pretax and after-tax basis. Effective April 1, 2004, under the Plan and subject to limits required by the Internal Revenue Code (IRC), participants may elect to contribute up to an aggregate 50 percent of their eligible wages on a pretax and/or after-tax basis. Participants may also elect to contribute all, or a portion of their distributions under the Company's Profit Sharing Plan to the Plan on a pretax basis. Pretax contributions are excluded from participant's federal and most state and local taxable income.

Subject to Ford Motor Company approval, participants may elect to roll over amounts from other qualifying plans or arrangements in accordance with the Internal Revenue Code.

**Participant Accounts** - A participant's account balance is comprised of their contributions and investment income earned from the individual investment options selected by the participant. Certain investment options will charge a fee on short-term transfers which is paid from the participant's account. The benefit to which a participant is entitled is determined from the participant's vested account balance.

**Master Trust Investment Options and Participation** - Participant contributions are invested in accordance with the participant's election in one or more investment, which is held in the Ford Defined Contribution Plans Master Trust (the "Master Trust") (see Note 3). **Investment Contracts with Insurance Companies** - The Interest Income Fund is a stable value investment option of the Master Trust comprised of short-term fixed income securities and insurance contracts that seek to preserve principal. There is no immediate recognition of investment gains and losses on fixed income securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the contracts.

There were no reserves against contract value for credit risk of the contract issuer or otherwise during 2004. The average yield and crediting interest rate was approximately 4.00 percent for 2004. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0 percent. Such interest rates are reviewed on an annual basis for resetting.

**Transfers of Assets** - The Plan permits the transfer of assets among investment options held by the Master Trust, subject to certain trading restrictions imposed on some of the investment options.

**Participant Loans** - The Plan permits loans to participants from both their pretax and after-tax accounts. Monthly loan interest rates are based on the prime rate published in The Wall Street Journal on the last business day of the prior month.

A participant is eligible to take out one loan per calendar year, and to have only four loans outstanding at any one time. Regular loans may be for a minimum of one year, but not exceeding five years. Home loans are for a period of ten years. Participant loans are included in the statements of net assets available for benefits. Loans that are considered to be in default by the Plan are reclassified as withdrawals.

**Notes to Financial Statements  
December 31, 2004 and December 30, 2004**

**Note 1 - Description of the Plan (Continued)**

**Related-Party Transactions** - Certain Master Trust investment options are mutual funds and other investment products managed by Fidelity Management and Research Company, which is a wholly owned subsidiary of FMR Corp.. Fidelity Management Trust Company, also a wholly owned subsidiary of FMR Corp, is the trustee as defined by the Plan. Fidelity Investments Institutional Operations Company, Inc., also a wholly owned subsidiary of FMR Corp., is the administrator for the Plan. Additionally, Barclays Global Investors and World Asset Management are paid investment management fees by the Company on behalf of the Plan. Fees paid to these entities for trustee, administrative, and other fees qualify as related party transactions.

**Note 2 - Summary of Significant Accounting Policies**

**Basis of Accounting** - The financial statements of the Plan are prepared under the accrual method of accounting.

**Investments** - The mutual funds and common/collective trust funds are at net asset value of the shares/units held. The investment in the Ford Stock Fund and the investments in all other funds, except the Interest Income Fund, are valued on the basis of quoted year-end market prices. The Interest Income Fund is stated at contract value, which approximates fair value. Contract value represents contributions made under the contracts, plus interest at the annual contract rate, less withdrawals paid out to participants. Participant loans are valued at cost, which approximates fair value. The average S&P and Moody's credit quality ratings for the underlying investments of the Interest Income Fund were AA+ and Aa1, respectively. The Common Stock Index Fund and the U.S. Extended Market Index Fund are stated at the aggregate market value of the individual collective pools included in each respective fund.

Purchases and sales of investments by the Master Trust are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Income from other investments of the Master Trust is recorded as earned on an accrual basis.

**Contributions** - Contributions to the Plan from participants are recorded in the period that payroll deductions are made from Plan participants.

**Payment of Benefits** - Benefits are recorded when paid.

---

**Notes to Financial Statements  
December 31, 2004 and December 30, 2004**

**Note 2 - Summary of Significant Accounting Policies (Continued)**

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

**Risks and Uncertainties** - The Master Trust's invested assets consist of Company stock, equity and fixed income mutual funds, equity and fixed income commingled institutional pools, and stable value investments. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

**New Accounting Pronouncements** - In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP). This FSP makes the definition of benefit-responsive more restrictive so that certain investment contracts currently reported at contract value may need to be reported at fair value. Management has not yet determined the impact this standard, which is effective for the plan year ending December 31, 2006, will have on the Plan's financial statements.

**Note 3 - The Master Trust**

The Company established the Master Trust pursuant to a trust agreement between the Company and Fidelity Management Trust Company, as trustee of the funds, in order to permit the commingling of trust assets of several employee benefit plans for investment and administrative purposes. The assets of the Master Trust are held by Fidelity Management Trust Company.
