10. Effective at the beginning of 2007, the Company adopted the provisions of FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. The adoption of FIN 48 resulted in no adjustment to beginning retained earnings.

At the beginning of 2007, the Company's liability for uncertain tax positions was \$5.5 million. Unrecognized tax benefits of \$4.9 million would affect the Company's effective tax rate if recognized. The Company records penalties and accrued interest related to uncertain tax positions in income tax expense. At the beginning of 2007, approximately \$0.6 million was included in the liability for uncertain tax positions for the possible payment of interest and penalties. There were no significant changes in components of the liability in the first half of 2007.

With few exceptions, the Company is no longer subject to U.S. federal, state and local, or foreign income tax examinations by tax authorities for years prior to 2001. The Company's U.S. income tax returns for 2004 and 2005 are currently under examination by the IRS. An estimate of the range of possible changes that may result from the examination cannot be made at this time.

Approximately \$1 million of unrecognized tax benefits relate to items that are affected by expiring statute of limitations within the next 12 months.

11. In July 2007, the Company entered into an agreement with a syndicate of lenders providing an unsecured credit facility for 5 years. The new credit facility provides \$250 million of unsecured committed credit with an option for an additional \$150 million. The facility is available for general corporate purposes, working capital needs, share repurchases and acquisitions. Borrowings under the facility bear interest at either the bank's prime rate, the federal funds effective rate plus 0.5 percent or the London Interbank Offered Rate plus a spread of between 0.23 percent and 0.57 percent, depending on the Company's cash flow leverage ratio (debt to earnings before interest, taxes, depreciation and amortization.) The Company is also required to pay a facility fee on the full amount of the loan commitment at an annual rate ranging from 0.07 percent to 0.15 percent, depending on the Company's cash flow leverage ratio. The agreement requires the Company to maintain certain financial ratios as to cash flow leverage and interest coverage.

Upon securing the new facility, certain committed lines of credit totaling \$50 million were terminated. Additional uncommitted lines totaling \$55 million will expire at the end of July 2007.

Item 2.

GRACO INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Net earnings of \$44.2 million for the quarter were 7 percent higher than net earnings in the second quarter last year. Sales of \$231.4 million were 6 percent higher than the same period last year. Year-to-date net earnings of \$77.9 million were 2 percent higher than last year and sales of \$428.9 million were up 4 percent. Higher sales in Europe and Asia were offset to a great extent by lower sales in the Americas.

Foreign currency translation rates had a favorable impact on sales and net earnings. Translated at consistent exchange rates, net earnings and sales for the quarter were each up 4 percent, and year-to-date net earnings and sales increased 1 percent and 3 percent, respectively.

Results include the operations of Lubriquip, which was acquired in July 2006. Sales of Lubriquip products contributed over 2 percentage points of sales growth for both the quarter and year-to-date. Year-to-date costs and expenses related to moving and consolidation activities (including the consolidation of Gusmer operations completed in the first quarter) totaled approximately \$1.5 million.

¹ North and South America, including the U.S.

² Europe, Africa and Middle East

Industrial segment sales increased 9 percent for the quarter and 7 percent year-to-date. For the quarter, segment sales were up in all geographic regions, with 28 percent growth in Europe. Year-to-date, a 5 percent decrease in the Americas was more than offset by double-digit percentage growth in Europe and Asia.

Contractor segment sales decreased 2 percent for the quarter and 4 percent year-to-date. Strong increases in Europe and Asia were not enough to offset the decrease in the Americas. Most of the decrease in the Americas for the quarter resulted from lower sales to the home center channel. Year-to-date, sales were down in both the home center and the professional paint store channels.

Lubrication segment sales increased 30 percent for the quarter and 29 percent year-to-date due to sales of Lubriquip products, acquired in mid-2006. Sales in this segment increased in all geographic areas.

Gross Profit

Gross profit as a percentage of sales was 52.8 percent for the quarter compared to 53.5 percent for the second quarter last year. Year-to-date gross profit percentage was 53.0 percent in 2007 compared to 53.6 percent in 2006. The decrease for both the quarter and year-to-date was due mainly to lower margin rates on Lubriquip products, consolidation costs and higher material costs, offset somewhat by the favorable impacts of currency translation and pricing.

Operating Expenses

Total operating expenses for the quarter increased 3 percent. Product development and general and administrative expenses were flat while higher selling, marketing and distribution spending was in line with the sales increase. Year-to-date operating expenses increased 6 percent, mostly due to expenses related to Lubriquip.

Income Taxes

The effective income tax rate of 34 percent for the quarter was 1 percentage point lower than last year's rate due to the recognition of benefits from foreign entities.

Liquidity and Capital Resources

Significant uses of cash in the first half of 2007 included \$78 million for purchases and retirement of Company common stock, \$22 million for capital additions and \$22 million for payment of dividends. The largest sources of cash in the first half of 2007 were from operations and borrowings. During the first half of 2006, significant uses of cash included \$46 million for purchases and retirement of Company common stock, \$9 million for capital additions and \$20 million for dividends. The largest source of cash in the first half of 2006 was from operations.

At June 29, 2007, the Company had various lines of credit totaling \$148 million, of which \$86 million was unused. In July 2007, the Company entered into an agreement with a syndicate of lenders providing \$250 million of unsecured committed credit with an option for an additional \$150 million. Upon securing the new facility, certain committed lines of credit totaling \$50 million were terminated. Additional uncommitted lines totaling \$55 million will expire at the end of July 2007.

The Company intends to use the new credit facility for general corporate purposes including acquisitions and share repurchases. The Company has authorization from its Board of Directors to repurchase up to 7 million shares of common stock. As of June 29, 2007, 3 million shares remained available for purchase under this authorization, which expires on February 29, 2008.

Internally generated funds and unused financing sources provide the Company with the financial flexibility to meet liquidity needs.

Outlook

While encouraged about the continued strength of the Company's international business and the improvement in the Industrial business in the second quarter, management believes that difficult conditions will persist for the Contractor business in the Americas for at least the rest of this year. The integration of Lubriquip is on track for completion by the end of the year and the consolidation of Gusmer operations was completed in the first quarter. These integration activities will improve the contribution of the acquired products. Management believes it can continue to drive the business to higher sales and earnings by making long-term investments in key growth strategies including new product development, expanding distribution, entering new markets and pursuing strategic acquisitions.
