Form 10-Q
August 03, 2011

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

(MARK ONE)

/ X / QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended July 2, 2011.

OR

/ / TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-14225

HNI Corporation
(Exact name of registrant as specified in its charter)

Iowa (State or other jurisdiction of incorporation or organization)	42-0617510 (I.R.S. Employer Identification Number)
---------------------------------------------------------------------------	----------------------------------------------------------

P. O. Box 1109, 408 East Second Street Muscatine, Iowa 52761-0071 (Address of principal executive offices)	52761-0071 (Zip Code)
------------------------------------------------------------------------------------------------------------------	--------------------------

Registrant's telephone number, including area code: 563/272-7400

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES NO

Edgar Filing: HNI CORP - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)
YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date.

Class	Outstanding at July 2, 2011
Common Shares, \$1 Par Value	44,780,796

HNI Corporation and SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

July 2, 2011

Note A. Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The January 1, 2011 consolidated balance sheet included in this Form 10-Q was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. An adjustment was made in the first quarter of 2011 to correct a fourth quarter freight over accrual of \$0.4 million. This correction of the freight accrual was determined to be immaterial to the current and prior period financial statements. Operating results for the six-month period ended July 2, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2011. For further information, refer to the consolidated financial statements and accompanying notes included in HNI Corporation's (the "Corporation") Annual Report on Form 10-K for the fiscal year ended January 1, 2011.

Note B. Stock-Based Compensation

The Corporation measures stock-based compensation expense at grant date, based on the fair value of the award and recognizes expense over the employee requisite service period. For the three and six months ended July 2, 2011, and July 3, 2010, the Corporation recognized \$1.8 million and \$3.4 million, and \$1.6 million and \$3.1 million, respectively, of stock-based compensation expense for the cost of stock options and time-based restricted stock units issued under the HNI Corporation 2007 Stock-Based Compensation Plan and shares issued under the HNI Corporation 2002 Members' Stock Purchase Plan.

At July 2, 2011, there was \$11.6 million of unrecognized compensation cost related to nonvested stock-based compensation awards, which the Corporation expects to recognize over a weighted-average remaining requisite service period of 1.3 years.

Note C. Inventories

The Corporation values its inventory at the lower of cost or market with approximately 81% valued by the last-in, first-out ("LIFO") costing method.

(In thousands)	July 2, 2011 (Unaudited)	January 1, 2011
Finished products	\$66,850	\$43,389
Materials and work in process	58,029	49,404
LIFO allowance	(23,837)	(23,837)
	\$101,042	\$68,956

Note D. Comprehensive Income and Shareholders' Equity

The following table reconciles net income to comprehensive income attributable to HNI Corporation:

(In thousands)	Three Months Ended		Six Months Ended	
	July 2, 2011	July 3, 2010	July 2, 2011	July 3, 2010
Net income (loss)	\$4,603	\$4,765	\$2,806	\$(1,088)
Other comprehensive income, net of income tax as applicable:				
Foreign currency translation adjustments	321	151	542	146
Change in unrealized gains (losses) on marketable securities	92	—	57	—
Change in pension and postretirement liability	80	79	159	158
Change in derivative financial instruments	(348)	(310)	470	(136)
Comprehensive income (loss)	4,748	4,685	4,034	(920)
Comprehensive income (loss) attributable to noncontrolling interest	(54)	62	(96)	195
Comprehensive income (loss) attributable to HNI Corporation	\$4,802	\$4,623	\$4,130	\$(1,115)

The following table summarizes the components of accumulated other comprehensive loss and the changes in accumulated other comprehensive loss, net of tax, as applicable for the six months ended July 2, 2011:

(In thousands)	Foreign Currency Translation Adjustment	Unrealized Gains(Losses) on Marketable Securities	Pension Postretirement Liability	Derivative Financial Instruments	Accumulated Other Comprehensive Loss
Balance at January 1, 2011	\$4,415	(48)	\$(2,313)	\$(395)	\$1,659
Year-to date change	542	57	159	470	1,228
Balance at July 2, 2011	\$4,957	\$9	\$(2,154)	\$75	\$2,887

During the six months ended July 2, 2011, the Corporation repurchased 323,965 shares of its common stock at a cost of approximately \$10 million. As of July 2, 2011, \$135.8 million of the Corporation's Board of Directors' current repurchase authorization remained unspent.

Note E. Earnings Per Share

The following table reconciles the numerators and denominators used in the calculation of basic and diluted earnings per share ("EPS"):

(In thousands, except per share data)	Three Months Ended		Six Months Ended	
	July 2, 2011	July 3, 2010	July 2, 2011	July 3, 2010
Numerators:				
Numerator for both basic and diluted EPS attributable to Parent Company net income	\$4,657	\$4,703	\$2,902	\$(1,283)
Denominators:				
Denominator for basic EPS weighted-average common shares outstanding	44,745	45,193	44,799	45,180
Potentially dilutive shares from stock-based compensation plans	922	818	934	—
Denominator for diluted EPS	45,667	46,012	45,733	45,180
Earnings per share – basic	\$0.10	\$0.10	\$0.06	\$(0.03)
Earnings per share – diluted	\$0.10	\$0.10	\$0.06	\$(0.03)

Certain exercisable and non-exercisable stock options were not included in the computation of diluted EPS at July 2, 2011 and July 3, 2010, because their inclusion would have been anti-dilutive. The number of stock options which met this anti-dilutive criterion for the three and six months ended July 2, 2011 was 1,783,651 and 1,159,965, respectively. The number of stock options outstanding which met this anti-dilutive criterion for the three months ended July 3, 2010 was 1,752,242. None of the outstanding stock options or restricted stock units were included in the computation of diluted EPS for the six-month computation of diluted EPS at July 3, 2010, as all would be anti-dilutive due to the current period loss.

Note F. Restructuring Reserve and Plant Closures

In connection with office furniture plant closures announced in 2010 and 2009, the Corporation recorded \$0.4 million of current period restructuring charges during the quarter ended July 2, 2011.

In connection with the consolidation of production at the hearth products locations, the Corporation recorded \$0.1 million of current period restructuring charges during the quarter ended July 2, 2011.

The following is a summary of changes in restructuring accruals during the six months ended July 2, 2011.

(In thousands)	Severance	Facility Exit Costs & Other	Total
Balance as of January 1, 2011	\$2,389	\$243	\$2,632
Restructuring charges	426	1,427	1,853
Cash payments	(871)	(1,449)	(2,320)
Balance as of July 2, 2011	\$1,944	\$221	\$2,165

Note G. Discontinued Operations

The Corporation completed the sale of a small, non-core business in the office furniture segment and a small non-core component of its hearth products segment during 2010. Revenues and expenses associated with these business operations are presented as discontinued operations for all periods presented in the financial statements.

Summarized financial information for discontinued operations is as follows:

(In thousands)	Three Months Ended		Six Months Ended	
	July 2, 2011	July 3, 2010	July 2, 2011	July 3, 2010
Discontinued operations:				
Operating profit (loss) before tax	\$—	\$296	\$—	\$(994)
Income tax provision (benefit)	—	118	—	(388)
Net profit (loss) from discontinued operations, net of income tax	—	178	—	(606)
Impairment loss and loss on sale of discontinued operations:				
Impairment loss and loss on sale of discontinued operations before tax	—	(1,673)	—	(3,076)
Income tax provision (benefit)	—	(668)	—	(1,144)
Net impairment loss and loss on sale of discontinued operations	—	(1,005)	—	(1,932)
Loss from discontinued operations, net of income tax benefit	\$—	\$(827)	\$—	\$(2,538)

Note H. Goodwill and Other Intangible Assets

The table below summarizes amortizable definite-lived intangible assets as of July 2, 2011 and January 1, 2011, which are reflected in the "Other Assets" line item in the Corporation's Condensed Consolidated Balance Sheets:

(In thousands)	July 2, 2011	January 1, 2011
Patents	\$18,605	\$18,605
Customer relationships and other	88,225	107,964
Less: accumulated amortization	58,197	70,139
Less: impairments	—	4,879
	\$48,633	\$51,551

Aggregate amortization expense for the six months ended July 2, 2011 and July 3, 2010 was \$2.9 million and \$4.9 million, respectively. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the following five fiscal years is as follows:

(In millions)	2011	2012	2013	2014	2015
Amortization Expense	\$5.7	\$5.1	\$4.7	\$4.1	\$3.8

As events such as potential acquisitions, dispositions or impairments occur in the future, these amounts may change.

The Corporation also owns trademarks and trade names with a net carrying amount of \$41.0 million. The trademarks are deemed to have indefinite useful lives because they are expected to generate cash flows indefinitely.

The changes in the carrying amount of goodwill since January 1, 2011 are as follows by reporting segment:

(In thousands)	Office Furniture	Hearth Products	Total
Balance as of January 1, 2011			
Goodwill	\$123,948	\$166,188	\$290,136
Accumulated impairment losses	(29,359) (143) (29,502
	94,589	166,045	260,634
Goodwill acquired	—	—	—
Impairment losses	—	—	—
Goodwill related to the sale of business units	—	—	—
Balance as of July 2, 2011			
Goodwill	123,948	166,188	290,136
Accumulated impairment losses	(29,359) (143) (29,502
	\$94,589	\$166,045	\$260,634

The Corporation evaluates its goodwill for impairment on an annual basis during the fourth quarter, or whenever indicators of impairment exist of which none existed during the six months ended July 2, 2011. The Corporation estimates the fair value of its reporting units using various valuation techniques, with the primary technique being a discounted cash flow method. This method employs assumptions that are market participant based.

Note I. Product Warranties

The Corporation issues certain warranty policies on its office furniture and hearth products that provide for repair or replacement of any covered product or component that fails during normal use because of a defect in design or workmanship.

A warranty reserve is determined by recording a specific reserve for known warranty issues and an additional reserve for unknown claims that are expected to be incurred based on historical claims experience. Actual claims incurred could differ from the original estimates, requiring adjustments to the reserve. Activity associated with warranty obligations was as follows during the periods noted:

(In thousands)	Six Months Ended	
	July 2, 2011	July 3, 2010
Balance at beginning of period	\$12,930	\$12,684
Accruals for warranties issued during period	7,649	7,913
Adjustments related to pre-existing warranties	(378) 750
Settlements made during the period	(7,998) (8,582
Balance at end of period	\$12,203	\$12,765

Note J. Postretirement Health Care

The following table sets forth the components of net periodic benefit cost included in the Corporation's Condensed Consolidated Statements of Income for:

(In thousands)	Six Months Ended	
	July 2, 2011	July 3, 2010
Service cost	\$ 182	\$ 181
Interest cost	402	420
Amortization of transition obligation	254	254
Amortization of (gain)/loss	(8) (9
Net periodic benefit cost	\$ 830	\$ 846

Note K. Income Taxes

The provision for income taxes for continuing operations for the three months ended July 2, 2011 and July 3, 2010 reflect an effective tax rate of 37.3 percent and 38.4 percent, respectively. The 2011 estimated annual effective tax rate is expected to be 36.1 percent.

Note L. Derivative Financial Instruments

The Corporation uses derivative financial instruments to reduce its exposure to adverse fluctuations in interest rates and diesel fuel. On the date a derivative is entered into, the Corporation designates the derivative as (i) a fair value hedge, (ii) a cash flow hedge, (iii) a hedge of a net investment in a foreign operation or (iv) a risk management instrument not designated for hedge accounting. The Corporation recognizes all derivatives on its Condensed Consolidated Balance Sheets at fair value.

Interest Rate Risk

In June 2008, the Corporation entered into an interest rate swap agreement, designated as a cash flow hedge, for purposes of managing its benchmark interest rate fluctuation risk. Under the interest rate swap agreement, the Corporation pays a fixed rate of interest and receives a variable rate of interest equal to the one-month London Interbank Offered Rate (LIBOR) as determined on the last day of each monthly settlement period on an aggregated notional principal amount of \$50 million. The net amount paid or received upon monthly settlements is recorded as an adjustment to interest expense, while the effective change in fair value is recorded as a component of accumulated other comprehensive income in the equity section of the Corporation's Condensed Consolidated Balance Sheets. The interest rate swap agreement matured on May 27, 2011.

Diesel Fuel Risk

The Corporation uses independent freight carriers to deliver its products. These carriers charge the Corporation a basic rate per mile that is subject to a mileage surcharge for diesel fuel price increases. The Corporation entered into variable to fixed rate commodity swap agreements beginning in April 2010 with two financial counterparties to manage fluctuations in fuel costs. The Corporation will hedge approximately 40% of its diesel fuel surcharge exposure for the next twelve months. The Corporation uses the hedge agreements to mitigate the volatility of diesel fuel prices and related fuel surcharges, and not to speculate the future price of diesel fuel. The hedge agreements are designed to add stability to the Corporation's costs, enabling the Corporation to make pricing decisions and lessen the economic impact of abrupt changes in diesel fuel prices over the term of the contract. The hedging instruments

consist of a series of financially settled fixed forward contracts with expiration dates ranging up to twelve months. The contracts have been designated as cash flow hedges of future diesel purchases, and as such, the net amount paid or received upon monthly settlements is recorded as an adjustment to freight expense, while the effective change in fair value is recorded as a component of accumulated other comprehensive income in the equity section of the Corporation's Condensed Consolidated Balance Sheets.

As of July 2, 2011, \$0.1 million of deferred net gains, net of tax, included in equity ("Accumulated other comprehensive income" in the Corporation's Condensed Consolidated Balance Sheets) related to the diesel hedge agreements, are expected to be reclassified to current earnings ("Selling and administrative expenses" in the Corporation's Condensed Consolidated Statements of Income) over the next twelve months.

Edgar Filing: HNI CORP - Form 10-Q

The location and fair value of derivative instruments reported in the Corporation's Condensed Consolidated Balance Sheets are as follows (in thousands):

	Balance Sheet Location	Asset (Liability) Fair Value	
		July 2, 2011	January 1, 2011
Interest rate swap	Accounts payable and accrued expenses	\$—	\$(907)
Diesel fuel swap	Accounts payable and accrued expenses	(274)	—
Diesel fuel swap	Prepaid expenses and other current assets	396	277
		\$122	\$(630)

The effect of derivative instruments on the Corporation's Condensed Consolidated Statements of Income for the six months ended July 2, 2011 was as follows (in thousands):

Derivatives in Cash Flow Hedge Relationship	Before-tax Gain (Loss) Recognized in AOCI on Derivative (Effective Portion)	Locations of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Before-Tax Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Locations of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)	Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)
Diesel fuel swap	(480)) administrative expenses	876) administrative expenses	1
Total	\$(490))	\$(22))	\$1

The effect of derivative instruments on the Corporation's Condensed Consolidated Statements of Income for the six months ended July 3, 2010 was as follows (in thousands):

Derivatives in Cash Flow Hedge Relationship	Before-tax Gain (Loss) Recognized in AOCI on Derivative (Effective Portion)	Locations of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Before-Tax Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Locations of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)	Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)
Diesel fuel swap	(931)) administrative expenses	(82)) None	—
Total	\$(1,264))	\$(1,127))	\$—

Note M. Fair Value Measurements

For recognition purposes, on a recurring basis the Corporation is required to measure at fair value its marketable securities and its investment in target funds. The marketable securities were comprised of government securities, corporate bonds and money market funds. When available the Corporation uses quoted market prices to determine fair value and classify such measurements within Level 1. In some cases where market prices are not available, the Corporation makes use of observable market-based inputs to calculate fair value, in which case the measurements are classified within Level 2.

Assets measured at fair value during the three months ended July 2, 2011 were as follows:

(In thousands)	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Government securities	\$9,216	\$—	\$9,216	\$—
Corporate bonds	\$3,738	\$—	\$3,738	\$—
Derivative financial instrument	\$(122)	\$—	\$(122)	\$—

Assets measured at fair value for the year ended January 1, 2011 were as follows:

(In thousands)	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investment in target funds	\$705	\$—	\$705	\$—
Government securities	\$8,364	\$—	\$8,364	\$—
Corporate bonds	\$1,243	\$—	\$1,243	\$—
Derivative financial instrument	\$(630)	\$—	\$(630)	\$—

In addition to the methods and assumptions the Corporation uses to record the fair value of financial instruments as discussed in the section above, it uses the following methods and assumptions to estimate the fair value of its financial instruments.

Cash and cash equivalents

The carrying amount approximated fair value.

Long-term debt (including current portion)

The carrying value of the Corporation's outstanding variable-rate, long-term debt obligations at July 2, 2011 and January 1, 2011, the end of the Corporation's 2010 fiscal year, approximated the fair value. The fair value of the Corporation's outstanding fixed-rate, long-term debt obligations is estimated to be \$160 million at July 2, 2011 and \$156 million at January 1, 2011, compared to the carrying value of \$150 million.

Note N. Commitments and Contingencies

The Corporation utilizes letters of credit in the amount of \$17 million to back certain insurance policies and payment obligations. The letters of credit reflect fair value as a condition of their underlying purpose and are subject to competitively determined fees.

The Corporation has contingent liabilities which have arisen in the ordinary course of its business, including pending litigation, environmental remediation, taxes, and other claims. It is the Corporation's opinion that liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, although such matters could have a material effect on the Corporation's quarterly or annual operating results and cash flows when resolved in a future period.

Note O. New Accounting Standards

In June 2011, the Financial Accounting Standards Board ("FASB") issued accounting guidance updating the presentation format of comprehensive income. The guidance provided two options for presenting net income and other comprehensive income. The total of comprehensive income, the components of net income and the components of other comprehensive income may be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. This guidance will be effective January 1, 2012 and the Corporation does not expect the adoption to have a material impact on its financial statements.

In May 2011, the FASB amended accounting guidance to develop common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U. S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRS"). This guidance will be effective January 1, 2012 and the Corporation does not expect the adoption to have a material impact on its financial statements.

Note P. Business Segment Information

Management views the Corporation as operating in two business segments: office furniture and hearth products with the former being the principal business segment.

The office furniture segment manufactures and markets a broad line of metal and wood office furniture which includes storage products, desks, credenzas, chairs, tables, bookcases, freestanding office partitions and panel systems and other related products. The hearth products segment manufactures and markets a broad line of manufactured gas, electric, wood and biomass burning fireplaces, inserts, stoves, facings and accessories, principally for the home.

For purposes of segment reporting, intercompany sales transfers between segments are not material and operating profit is income before income taxes exclusive of certain unallocated corporate expenses. These unallocated corporate expenses include the net cost of the Corporation's corporate operations, interest income and interest expense. Management views interest income and expense as corporate financing costs rather than a business segment cost. In addition, management applies one effective tax rate to its consolidated income before income taxes so income taxes are not reported or viewed internally on a segment basis.

The Corporation's primary market and capital investments are concentrated in the United States.

Reportable segment data reconciled to the Corporation's condensed consolidated financial statements for the three and six month periods ended July 2, 2011, and July 3, 2010, is as follows:

(In thousands)	Three Months Ended		Six Months Ended	
	July 2, 2011	July 3, 2010	July 2, 2011	July 3, 2010

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Corporation has two reportable segments: office furniture and hearth products. The Corporation is the second largest office furniture manufacturer in the world and the nation's leading manufacturer and marketer of gas- and wood-burning fireplaces. The Corporation utilizes its split and focus, decentralized business model to deliver value to its customers with its various brands and selling models. The Corporation is focused on growing its existing businesses while seeking out and developing new opportunities for growth.

Net sales for the second quarter of fiscal 2011 increased 8.7 percent to \$432.8 million when compared to the second quarter of fiscal 2010. The increase was driven by the contract and international channels of the office furniture segment and the remodel/retrofit channel of the hearth products segment. Gross margins for the quarter decreased from prior year levels due to lower price realization, increased material costs and unfavorable mix offset partially by higher volume and lower restructuring and transition costs. Selling and administrative expenses, as a percent of sales, decreased due to higher volume and lower restructuring charges partially offset by higher fuel costs, investments in growth initiatives and higher incentive-based compensation.

The Corporation recorded \$0.5 million of restructuring costs in the second quarter of fiscal 2011 in connection with previously announced office furniture plant closures and restructuring of hearth operations.

Critical Accounting Policies

The preparation of the financial statements requires the Corporation to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Corporation continually evaluates its accounting policies and estimates. The Corporation bases its estimates on historical experience and on a variety of other assumptions believed by management to be reasonable in order to make judgments about the carrying value of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. A summary of the more significant accounting policies that require the use of estimates and judgments in preparing the financial statements is provided in the Corporation's Annual Report on Form 10-K for the year ended January 1, 2011. During the first six months of fiscal 2011, there were no material changes in the accounting policies and assumptions previously disclosed.

New Accounting Standards

For information pertaining to the Corporation's adoption of new accounting standards and any resulting impact to the Corporation's financial statements, please refer to Note O. New Accounting Standards of the Notes to the Condensed Consolidated Financial Statements, in Part 1, Item 1 of this Quarterly Report on Form 10-Q.

Results of Operations

The following table presents certain key highlights from the results of operations for the periods indicated:

(In thousands)	Three Months Ended			Six Months Ended			
	July 2, 2011	July 3, 2010	Percent Change	July 2, 2011	July 3, 2010	Percent Change	
Net sales	\$432,810	\$398,222	8.7	% \$828,961	\$761,728	8.8	%
Cost of sales	285,880	256,905	11.3	% 547,307	501,231	9.2	%
Gross profit	146,930	141,317	4.0	% 281,654	260,497	8.1	%
Selling and administrative expenses	136,197	128,032	6.4	% 268,610	250,832	7.1	%
Restructuring and impairment charges	463	1,238	(62.6))% 1,853	3,072	(39.7))%
Operating income	10,270	12,047	(14.8))% 11,191	6,593	69.7	%
Interest expense, net	2,923	2,962	(1.3))% 6,379	5,597	14.0	%
Earnings before income taxes	7,347	9,085	(19.1))% 4,812	996	383.1	%
Income taxes	2,744	3,493	(21.4))% 2,006	(454)	541.9	%
Income from continuing operations	\$4,603	\$5,592	(17.7))% \$2,806	\$1,450	93.5	%

Consolidated net sales for the second quarter of 2011 increased 8.7 percent or \$34.6 million compared to the same quarter last year. The increase was driven by the contract and international channels of the office furniture segment and the remodel/retrofit channel of the hearth products segment. The increase was partially offset by decreases in the supplies-driven channel of the office furniture segment and the new construction channel of the hearth products segment.

Gross margin for the second quarter of 2011 decreased to 33.9 percent compared to 35.5 percent for the same quarter last year. The decrease in gross margin was driven by lower price realization, increased material costs and unfavorable mix offset partially by higher volume and lower restructuring and transition charges. Second quarter 2010 included \$1.1 million of accelerated depreciation and transition costs related to the closure and consolidation of office furniture manufacturing facilities.

Total selling and administrative expenses, including restructuring charges, as a percent of sales decreased to 31.6 percent for the second quarter of 2011 compared to 32.5 percent for the same quarter last year due to higher volume and lower restructuring charges partially offset by increased fuel costs, investments in growth initiatives and higher incentive-based compensation. Second quarter 2011 included \$0.5 million of restructuring charges associated with plant consolidations compared to \$1.2 million in the same period in the prior year.

Income from continuing operations for the second quarter of 2011 was \$4.6 million or \$0.10 per diluted share compared to \$5.6 million or \$0.12 per diluted share in the second quarter of 2010.

The provision for income taxes for continuing operations for the three months ended July 2, 2011 and July 3, 2010 reflect an effective tax rate of 37.3 percent and 38.4 percent, respectively. The 2011 estimated annual effective tax rate is expected to be 36.1 percent.

The Corporation completed the sale of a small, non-core business in the office furniture segment and a small non-core component of the hearth products segment during 2010. Revenues and expenses associated with these business

operations are presented as discontinued operations for all periods presented in the financial statements.

For the first six months of 2011, consolidated net sales increased \$67.2 million, or 8.8 percent, to \$829.0 million compared to \$761.7 million for the first six months of 2010. Gross margins decreased to 34.0 percent compared to 34.2 percent for the same period last year. Income from continuing operations was \$2.8 million for the first six months of 2011 compared to \$1.5 million for the first six months of 2010. Earnings per share from continuing operations increased to \$0.06 per diluted share compared to \$0.03 per diluted share for the same period last year.

Office Furniture

Second quarter 2011 sales for the office furniture segment increased 8.7 percent or \$29.9 million to \$372.6 million from \$342.7 million for the same quarter last year driven by an increase in the contract and international channels offset by a decline in the supplies-driven channel. The supplies-driven channel was adversely impacted by a substantial inventory reduction by the Corporation's large wholesale partners who took advantage of the Corporation's streamlined fulfillment model and their initiatives to improve return on invested capital. Second quarter 2011 operating profit prior to unallocated corporate expenses decreased \$4.8 million to \$17.9 million as a result of lower price realization, higher input costs, unfavorable mix and investments in strategic growth initiatives. These were partially offset by higher volume and lower restructuring and transition costs. Second quarter 2011 included \$0.4 million of restructuring costs compared to \$2.4 million of restructuring and transition costs including accelerated depreciation in second quarter 2010.

Net sales for the first six months of 2011 increased 9.5 percent or \$61.0 million to \$703.8 million compared to \$642.7 million for the same period in 2010. Operating profit for the first six months of 2011 decreased 10.4 percent or \$3.0 million to \$26.0 million compared to \$29.0 million for the same period in 2010.

Hearth Products

Second quarter 2011 net sales for the hearth products segment increased 8.4 percent or \$4.6 million to \$60.2 million from \$55.5 million for the same quarter last year driven by an increase in the remodel-retrofit channel partially offset by a decline in the new construction channel. Operating profit prior to unallocated corporate expenses increased \$1.7 million to a \$1.0 million loss due to increased volume and higher price realization offset partially by higher material costs and incentive-based compensation. Second quarter 2011 included \$0.1 million of restructuring costs.

Net sales for the first six months of 2011 increased 5.2 percent or \$6.2 million to \$125.2 million compared to \$119.0 million for the same period in 2010. Operating profit increased \$4.0 million to a \$1.5 million loss when compared to the same period last year.

Liquidity and Capital Resources

Cash Flow – Operating Activities

Operating activities used \$8.4 million of cash in the first six months of 2011 compared to generating \$1.5 million in the first six months of 2010. Working capital performance resulted in a \$52.2 million use of cash in the first six months of the current fiscal year compared to a \$38.8 million use of cash in the same period of the prior year. Inventory increased \$18 million from the same period last year due to the timing of large contract projects that will ship in the third quarter of the current fiscal year, an inventory investment made to level load production which is expected to ship in the balance of 2011 and increased volume and higher material costs. Cash flow from operating activities is expected to be positive for the year.

Cash Flow – Investing Activities

Capital expenditures including capitalized software for the first six months of fiscal 2011 were \$14.6 million compared to \$12.4 million in the same period of fiscal 2010 and were primarily for tooling and equipment for new products. For the full year 2011, capital expenditures are expected to be approximately \$30 to \$35 million, primarily focused on new product development and related tooling.

Cash Flow – Financing Activities

During the first six months of fiscal 2011, net borrowings under the revolving credit facility peaked at \$55 million. The net borrowings at the end of second quarter were \$50 million and are classified as short-term as the Corporation expects to repay the borrowings within a year.

The credit agreement governing the Corporation's revolving credit facility contains a number of covenants, including covenants requiring maintenance of the following financial ratios as of the end of any fiscal quarter:

• a consolidated interest coverage ratio of not less than 4.0 to 1.0, based upon the ratio of (a) consolidated EBITDA (as defined in the credit agreement) for the last four fiscal quarters to (b) the sum of consolidated interest charges; and
• a consolidated leverage ratio of not greater than 3.0 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness (as defined in the credit agreement) to (b) consolidated EBITDA for the last four fiscal quarters.

The note purchase agreement pertaining to the Corporation's Senior Notes also contains a number of covenants, including a covenant requiring maintenance of consolidated debt to consolidated EBITDA (as defined in the note purchase agreement) of not greater than 3.5 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness (as defined in the note purchase agreement) to (b) consolidated EBITDA for the last four fiscal quarters.

The revolving credit facility and Senior Notes are the primary sources of committed funding from which the Corporation finances its planned capital expenditures, strategic initiatives, such as acquisitions, repurchases of common stock and certain working capital needs. Non-compliance with the various financial covenant ratios could prevent the Corporation from being able to access further borrowings under the revolving credit facility, require immediate repayment of all amounts outstanding with respect to the revolving credit facility and Senior Notes and/or increase the cost of borrowing.

The most restrictive of the financial covenants is the consolidated leverage ratio requirement of 3.0 to 1.0 included in the credit agreement governing the revolving credit facility. Under that credit agreement, adjusted EBITDA is defined as consolidated net income before interest expense, income taxes and depreciation and amortization of intangibles, as well as non-cash, nonrecurring charges and all non-cash items increasing net income. At July 2, 2011, the Corporation was well below this ratio and was in compliance with all of the covenants and other restrictions in the credit agreement and the note purchase agreement. The Corporation currently expects to remain in compliance over the next twelve months.

The Corporation's Board of Directors (the "Board") declared a regular quarterly cash dividend of \$0.23 per share on the Corporation's common stock on May 10, 2011, to shareholders of record at the close of business on May 20, 2011. The dividend was paid on June 1, 2011.

During the six months ended July 2, 2011, the Corporation repurchased 323,965 shares of common stock at a cost of approximately \$10.0 million, or an average price of \$30.87 per share. As of July 2, 2011, approximately \$135.8 million of the Board's current repurchase authorization remained unspent.

Off-Balance Sheet Arrangements

The Corporation does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on the Corporation's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations

Contractual obligations associated with ongoing business and financing activities will result in cash payments in future periods. A table summarizing the amounts and estimated timing of these future cash payments was provided in the Corporation's Annual Report on Form 10-K for the year ended January 1, 2011. During the first six months of fiscal 2011 there were no material changes outside the ordinary course of business in the Corporation's contractual obligations or the estimated timing of the future cash payments.

Commitments and Contingencies

The Corporation is involved in various kinds of disputes and legal proceedings that have arisen in the ordinary course of business, including pending litigation, environmental remediation, taxes and other claims. It is the Corporation's opinion that liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, although such matters could have a material effect on the Corporation's quarterly or annual operating results and cash flows when resolved in a future period.

Looking Ahead

Management is optimistic about the office furniture and hearth products markets and the prospects for its businesses. The Corporation continues its investments in selling, marketing and product initiatives to drive growth. Management believes the Corporation is well positioned for growth.

The Corporation continues to focus on creating long-term shareholder value by growing its businesses through investment in building brands, product solutions and selling models, enhancing its strong member-owner culture and remaining focused on its long-standing continuous improvement programs to build best total cost and a lean enterprise.

Forward-Looking Statements

Statements in this report that are not strictly historical, including statements as to plans, outlook, objectives and future financial performance, are "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words, such as "anticipate," "believe," "could," "confident," "estimate," "expect," "forecast," "hope," "intend," "likely," "may," "plan," "possible," "potential," "predict," "project," "should," "will," "would" and variations of such words and similar expressions identify forward-looking statements. Forward-looking statements involve known and unknown risks, which may cause the Corporation's actual results in the future to differ materially from expected results. These risks include, without limitation: the Corporation's ability to realize financial benefits from its (a) price increases, (b) cost containment and business simplification initiatives for the entire Corporation, (c) investments in strategic acquisitions, new products and brand building, (d) investments in distribution and rapid continuous improvement, (e) ability to maintain its effective tax rate, (f) repurchases of common stock and (g) consolidation and logistical realignment initiatives; uncertainty related to the availability of cash and credit, and the terms and interest rates on which credit would be available, to fund operations and future growth; lower than expected demand for the Corporation's products due to uncertain political and economic conditions, slow or negative growth rates in global and domestic economies and the protracted decline in the housing market; lower industry growth than expected; major disruptions at our key facilities or in the supply of any key raw materials, components or finished goods; uncertainty related to disruptions of business by terrorism, military action, epidemic, acts of God or other Force Majeure events; competitive pricing pressure from foreign and domestic competitors; higher than expected costs and lower than expected supplies of materials (including steel and petroleum based materials); higher than expected costs for energy and fuel; changes in the mix of products sold and of customers purchasing; relationships with distribution channel partners, including the financial viability of distributors and dealers; restrictions imposed by the terms of the Corporation's revolving credit facility and note purchase agreement; currency fluctuations and other factors described in the Corporation's annual and quarterly reports filed with the Securities and Exchange Commission on Forms 10-K and 10-Q. The Corporation undertakes no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of July 2, 2011, there were no material changes to the financial market risks that affect the quantitative and qualitative disclosures presented in Item 7A of the Corporation's Annual Report on Form 10-K for the year ended January 1, 2011.

Item 4. Controls and Procedures

Disclosure controls and procedures are designed to ensure information required to be disclosed by the Corporation in the reports it files or submits under the Securities Exchange Act of 1934 (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of management, the chief executive officer and chief financial officer of the Corporation carried out an evaluation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rules 13a – 15(e) and 15d – 15(e). As of July 2, 2011, based on this evaluation, the chief executive officer and chief financial officer have concluded these disclosure controls and procedures are effective.

Furthermore, there have been no changes in the Corporation's internal control over financial reporting during the fiscal quarter covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

There are no new legal proceedings or material developments to report other than ordinary routine litigation incidental to the business.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Corporation's Annual Report on Form 10-K for the year ended January 1, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Corporation did not repurchase any of its shares during the second quarter ended July 2, 2011. As of July 2, 2011, \$135.8 million was authorized and available for the repurchase of shares by the Corporation.

Item 6. Exhibits

See Exhibit Index.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
