#### Convertible Debentures Due 2023 and Common Shares Issuable Upon Conversion, Redemption, Purchase or Payment of the Convertible Debentures

In accordance with the multijurisdictional disclosure system adopted by the U.S. Securities and Exchange Commission (the SEC) and the provincial securities regulators in Canada, Inco Limited (Inco) filed a registration statement (the Shelf Registration Statement) with the Ontario Securities Commission and the SEC, which included a base shelf prospectus dated April 29, 2003, as amended and restated June 5, 2003 (the Prospectus), in order to register in the United States resales of Inco s Convertible Debentures due 2023 (the Debentures) and the common shares issuable upon the conversion, redemption, purchase or payment of the Debentures (the Underlying Shares).

# Investing in Inco s common shares or the Debentures involves risks. Please carefully consider the Risk Factors section beginning on page 4 of the Prospectus.

The holders of the Debentures and the Underlying Shares (together, the Registrable Securities ) are entitled to the benefits of a registration rights agreement, entered into as of March 7, 2003 among Inco and the several Initial Purchasers referred to therein, for whom Morgan Stanley & Co. Incorporated and Salomon Smith Barney Inc. (now Citigroup Global Markets Inc.) are acting as representatives (the Registration Rights Agreement ). Under the Registration Rights Agreement, any holder of Registrable Securities wishing to sell Registrable Securities pursuant to the Shelf Registration Statement must deliver a Notice and Questionnaire to Inco (each such holder which has delivered a Notice and Questionnaire is referred to as an Electing Holder ). Upon receipt of a completed and signed Notice and Questionnaire, Inco has agreed to file such documents as may be required to include the Registrable Securities covered thereby in the Shelf Registration Statement.

Inco is filing this Prospectus Supplement so as to include in the Shelf Registration Statement the Registrable Securities of Electing Holders who have signed, completed and returned a Notice and Questionnaire to Inco after the date of the Prospectus as most recently supplemented, and also to provide current information regarding earnings coverage and information regarding the documents incorporated by reference. **Please see Earnings Coverage on page S-2 and Documents Incorporated by Reference on page S-3.** A list of all of the Electing Holders as of the date

#### EARNINGS COVERAGE

For 2002, Inco recorded total non-cash charges of \$1,626 million, net of deferred income and mining taxes of \$789 million, under Canadian GAAP. As a result of these non-cash charges, Inco had a net loss, before deduction of interest and income and mining taxes, of \$2,070 million

hereof is attached as Schedule A to this Prospectus Supplement.

for the twelve months ended December 31, 2002 and, after giving effect to the initial offering of Debentures and the concurrent offering of 3½% Subordinated Convertible Debentures due 2052 (the Subordinated Debentures ), as if made as of January 1, 2002, Inco would have had a deficiency of \$2,181 million in the amount required to cover its interest requirement of \$111 million. Excluding these non-cash charges, after giving effect to the initial offering of Debentures and the concurrent offering of Subordinated Debentures, as if made as of January 1, 2002, consolidated net earnings, before deduction of interest and income and mining taxes of \$345 million for the twelve months ended December 31, 2002, would have been 3.1 times Inco s interest requirement for 2002 of \$111 million. If the initial offering of Debentures and the concurrent offering of Subordinated Debentures had been made as of April 1, 2002, excluding non-cash charges of \$1,613 million, net of deferred income and mining taxes of \$785 million, consolidated net earnings, before deduction of interest and income and mining taxes of \$302 million for the twelve months ended March 31, 2003 would have been 2.7 times Inco s interest requirement of \$112 million. As Inco s zero coupon convertible notes (LYON Notes), Debentures and Subordinated Debentures are treated as equity for Canadian GAAP purposes, Inco s interest requirement does not include the carrying charges associated with these securities. Had Inco accounted for the LYON Notes, the Debentures and the Subordinated Debentures as debt, as is required by U.S. GAAP, the carrying charges of the LYON Notes, the Debentures and the Subordinated Debentures would have been reflected in interest expense and Inco would have had a deficiency of \$2,193 million and \$2,220 million in the amount required to cover its interest requirement for the twelve months ended December 31, 2002 and March 31, 2003, respectively.

The information included in this section is based upon Inco s audited financial statements prepared in accordance with Canadian GAAP, which differ in certain material respects from U.S. GAAP. As a result of the above-referenced non-cash charges, which totaled \$2,247 million, net of deferred income and mining taxes of \$947 million, for U.S. GAAP purposes, Inco had a net loss, before deduction of the cumulative effect of a change in accounting principles of \$18 million, interest and income and mining tax expenses, of \$2,867 million for the twelve months ended December 31, 2002 and, after giving effect to the initial offering of Debentures and the concurrent offering of Subordinated Debentures, as if made as of January 1, 2002, Inco would have had a deficiency of \$2,990 million in the amount required to cover its interest requirement of \$123 million for the twelve months ended December 31, 2002. Excluding these non-cash charges, after giving effect to the initial offering of Debentures as if made as of January 1, 2002, consolidated net earnings, before deduction of interest and income and mining taxes of \$327 million for the twelve months ended December 31, 2002, would have been 2.7 times Inco s interest requirement of \$123 million. If the offering of Debentures and the concurrent offering of Subordinated Debentures had been made as of April 1, 2002, excluding the cumulative effect of a change in accounting principles of \$18 million, non-cash charges of \$2,234 million, net of deferred income and mining taxes of \$943 million, consolidated net earnings, before deduction of interest and income and mining taxes of \$12003, would have been 2.3 times Inco s interest requirement of \$124 million. For further information regarding the differences between Canadian GAAP and U.S. GAAP, see Note 22 to Inco s consolidated financial statements included as an Exhibit to its 2002 10-K .
