Item 8.01 Other Events

Intel Corporation ("Intel") is filing this Current Report on Form 8-K to revise the presentation of its financial results to reflect its new operating segments with respect to the financial information contained in Intel's Annual Report on Form 10-K for the year ended December 27, 2014 ("2014 Form 10-K").

During the first quarter of 2015, we changed our organizational structure to combine the PC Client Group and the Mobile and Communications Group to create the Client Computing Group. The new group was created to address all aspects of the client computing market segment and utilize Intel's intellectual property to offer compelling customer solutions. We began to report our results under the new organization structure with the filing on April 27, 2015 of our Form 10-Q for the quarter ended March 28, 2015.

The information included in this Form 8-K is presented for information purposes only in connection with the reporting changes described above. We have also reflected our previously announced proposed acquisition of Altera Corporation as a subsequent event in the notes to the audited consolidated financial statements. The revisions do not represent a restatement of previously issued financial statements. This Form 8-K does not reflect events occurring after we filed our 2014 Form 10-K, other than the subsequent event relating to our proposed acquisition of Altera Corporation, and is presented to illustrate the realignment of our organizational structure as described above. As a result, the information in this Form 8-K, including exhibits, should be read in conjunction with the sections of our 2014 10-K that have not been included in this Form 8-K and in conjunction with information disclosed in our Securities and Exchange Commission filings made after the date of the 2014 10-K, including our quarterly filings on Forms 10-Q.

The information in this report shall be treated as filed for purposes of the Securities Exchange Act of 1934, as amended.
