Exhibit 99.1

PAR TECHNOLOGY CORPORATION
-REPORTS SECOND QUARTER RESULTS-

NEW HARTFORD, NY, PAR TECHNOLOGY CORPORATION (NYSE:PTC)

Edgar Filing: PAR TECHNOLOGY CORP - Form 8-K

New Hartford, NY--July 23, 2003--PAR Technology Corporation (NYSE:PTC - News) today announced results for the second quarter ended June 30, 2003. PAR reported second quarter revenues of \$32 million, a 6% decrease from the \$33.9 million reported in the same period a year ago. Income from continuing operations for the second quarter was \$351,000 compared with \$702,000 reported in the second quarter of 2002. The Company reported diluted earnings per share from continuing operations of \$0.04 for the second quarter of 2003, compared to diluted earnings per share of \$0.08 for the second quarter of last year. Net income for the second quarter 2003 was \$308,000 or \$0.04 diluted earnings per share. This compares to \$188,000 net income and \$0.02 diluted earnings per share in the second quarter 2002. For the six months ended June 30, 2003, PAR Technology Corporation reported revenues from continuing operations of \$62.6 million, an 8% decrease from the \$67.6 million reported one year ago. The Company also reported income from continuing operations of \$607,000 in the first six months of 2003 versus \$1.5 million for the first six months of 2002. Diluted net income per share from continuing operations for the first six months of 2003 was reported at \$0.07, compared to diluted net income per share of \$0.19 reported for the same period in 2002. Net income for the first six months of 2003 was \$537,000 or \$0.06 diluted earnings per share. This compares to net income of \$699,000 and \$0.09 diluted earnings per share for the first six months of 2002.

John W. Sammon, PAR Chairman and CEO commented on the results. "The financial results for the quarter are generally within our expected range of performance. The continued depressed global hospitality technology market has limited our pace of improvement during the first six months of this year. There is, however, a growing sense that conditions are improving within our industry. As reflected in actions from customers and statements from market analysts, the demand for hospitality technology is increasing. We expect that these trends will translate into improving revenues for both our technology products and service offerings."

"As for our Government Services business, we are pleased with the year over year revenue gain of 13% in the quarter. This growth is consistent with our plan and is expected to accelerate as we expand our work under existing contracts. This growth once again confirms our position as a leading provider of technical IT outsourcing services and applied technology to the Department of Defense, the Intelligence Community and to State Government Agencies."

Sammon also added, "As PAR concentrates on increasing our revenue base, we will continue to focus on close control of expenses and cash, with an eye to balancing our short-term and long-term needs. Taken as a whole, the events of the second quarter affirm our decision making and strategic direction."

Forward-looking statements in this release are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that all forward-looking statements involve risks and uncertainties, including without limitation, risks in technology development and commercialization, risks in product development and market acceptance of and demand for the Company's products, risks of downturns in economic conditions generally, and in the quick service sector of the restaurant market specifically, risks of intellectual property rights and litigation, risks associated with government contracting, risks associated with foreign sales and high customer concentration and other risks detailed in the Company's filings with the Securities and Exchange Commission.

ABOUT PAR TECHNOLOGY

PAR Technology Corporation develops, markets and supports hardware and software products that improve the ability of business professionals to make timely, fact-based business decisions. The Company is the world's largest supplier of

Edgar Filing: PAR TECHNOLOGY CORP - Form 8-K

Point-of-Sale systems to the quick service restaurant market with over 30,000 systems installed in over 95 countries.
