Mr. Slater is also the author of California Water Law and Policy, the state's leading treatise on the subject, and has taught water law and policy courses at University of California, Santa Barbara, Pepperdine University, and the University of Western Australia, among others.

Corporate Governance

Directors of the Company hold office until the next annual meeting of stockholders or until their successors are elected and qualified. There are no family relationships between any directors or current officers of the Company. Officers serve at the discretion of the Board of Directors.

The Board of Directors is responsible for our management and direction and for establishing broad corporate policies, including our leadership structure.

Currently, Mr. Brackpool serves as Chairman of the Board and Mr. Slater serves as Chief Executive Office and President. Mr. Brackpool had previously served as Chairman and Chief Executive Officer from 2001 until January 2013. The Board separated the capacities of Chairman and Chief Executive in January 2013 for the first time since 2001. The Board believes this change provided additional independence between the Board and management and allows the Board to provide objective guidance and oversight to Mr. Slater and management as they execute the Company's business plans, carry out the Company's strategic initiatives, and confront any challenges.

Risk Oversight

Assessing and managing risk is the responsibility of the management of the Company. Our Board of Directors oversees and reviews certain aspects of the Company's risk management efforts. Annually, the Board reviews our strategic business plans, which includes evaluating the objectives of and risks associated with these plans. In addition, under its charter, the Audit Committee (acting on its behalf and concomitantly as the Risk Committee) reviews and discusses with management the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures, including the Company's risk assessment and risk management policies. The Compensation Committee reviews the risks associated with the Company's compensation policies and practices from time to time, and has determined that none of our compensation policies and practices create risks that are reasonably likely to have a material adverse effect on the Company.

Board Committees

The Board has three standing committees, an Audit Committee, a Compensation Committee and a Corporate Governance and Nominating Committee.

The Audit Committee is currently composed of Mr. Brown, Mr. Courter, Mr. Hickox and Mr. Pacini. The Board of Directors has determined that Mr. Pacini, a member of the Company's Audit Committee, is an "audit committee financial expert" as that term is defined in Item 407(d)(5) of Regulation S-K under the Securities Act.

The Compensation Committee is currently composed of Mr. Hutchison, Mr. Bohn, Mr. Pacini, Mr. Hickox, Mr. Courter and Mr. Grant.

The Corporate Governance and Nominating Committee is currently composed of Mr. Hutchison, Mr. Bohn, Mr. Pacini, Mr. Hickox and Mr. Grant. The Corporate Governance and Nominating Committee considers nominees informally suggested by stockholders on the same terms as nominees selected by the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee believes that nominees for election to the Board of Directors must possess certain minimum qualifications. The Committee will consider a candidate's judgment, skill, diversity, experience with businesses and other organizations of comparable size, financial background, beneficial ownership of the Company, and the interplay of the candidate's experience with the experience of other Board members, among other factors, in assessing a candidate. The Corporate Governance and Nominating Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at <http://www.cadizinc.com> and to any stockholder otherwise requesting a copy.

Code of Ethics

The Company has adopted a code of ethics that applies to all of our employees, including the chief executive officer and chief financial officer. A copy of the code of ethics may be found on the Company's website at <http://www.cadizinc.com>. Any employee who becomes aware of any existing or potential violation of the code of ethics is required to report it. Any waivers from and amendments to the code of ethics granted to directors or executive officers will be promptly disclosed on the Company's website at <http://www.cadizinc.com>.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the "1934 Act") requires our directors and executive officers, and persons who beneficially own more than 10% of a registered class of our equity securities ("reporting persons"), to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of common stock and other equity securities of the Company. Reporting persons are required by Commission regulations to furnish the Company with copies of all Section 16(a) forms they file.

To our knowledge, based solely on a review of the copies of reports and amendments thereto on Forms 3, 4 and 5 furnished to us by reporting persons and forms that we filed on behalf of certain directors and officers, during, and with respect to, our fiscal year ended December 31, 2018, and on a review of written representations from reporting persons to us that no other reports were required to be filed for such fiscal year, all Section 16(a) filing requirements applicable to our reporting persons were satisfied in a timely manner, except that a Form 3 filing of John A Bohn, a director of the Company in 2018, and a Form 4 filing of Water Asset Management were inadvertently filed late.

ITEM 11. Executive Compensation

Compensation Discussion and Analysis

Overview

The Company's compensation policies and practices are developed and implemented through the Compensation Committee of the Board of Directors. The Committee's responsibility is to review and consider annually the performance of the Company's named executive officers in achieving both corporate and individual goals and objectives, and to assure that the Company's compensation policies and practices are competitive and effective in incentivizing management.

The Compensation Discussion and Analysis section provides a description of the primary elements of the Company's fiscal year 2018 compensation program and policies for the following individuals, who are referred to throughout this proxy statement as our named executive officers:

- Scott Slater, President and Chief Executive Officer
- Timothy Shaheen, Chief Financial Officer
- Keith Brackpool, Chairman of the Board

In February 2013, the Board separated the roles of Chief Executive Officer and Chairman, which had until that time been held by Mr. Brackpool. Mr. Slater manages the day-to-day operation of the Company and its projects and Mr. Brackpool, a Company founder, holds an essential role advising management in the Chairman position. Therefore, Mr. Brackpool remains among our named executive officers and his compensation is further described in this statement.

In 2018, our named executive officers effectively completed multiple transactions important to the long-term success of the Company, including:

Negotiated and entered into a Purchase Agreement for 124 miles of a 30" idle natural gas pipeline. This pipeline, together with a 96 mile segment that the Company already owns, crosses San Bernardino, Los Angeles and Kern counties, including the Barstow and Bakersfield areas, which serve as hubs for water delivered from northern and central California to communities in Southern California. We believe the pipeline could diversify delivery opportunities for the Cadiz Valley Water Conservation, Recovery and Storage Project ("Water Project") and the Company's broader water resource development efforts.

Defeated a California legislative attack on the Water Project via Senate Bill 120 and implemented a strategic plan to defeat new state legislative and administrative efforts to slow or stop implementation of the Water Project. Following successful approval of the Water Project in applicable public agency and Court venues, environmental organizations opposed to the Water Project initiated a strategy in 2017 to create new and additional regulatory hurdles for the Water Project in the California State Legislature and via the Executive Branch. This strategy began with the introduction of Assembly Bill 1000, which sought to create additional environmental review permitting for the Water Project carried out by state agencies. The Company worked with a coalition of bill opponents to educate the Legislature about its impacts, and AB 1000 was held in the Senate Appropriations subcommittee and did not advance further. In 2018, the organized opponents of the Water Project revived AB 1000 via another "gut and amend" of Senate Bill 120 in the last week of the legislative session. Again, the Company worked with a coalition of bill opponents in the condensed time frame, and successfully argued that the bill should be stopped from becoming law.

Directed ongoing permitting and technical initiatives related to implementation of Phase 1 of the Water Project. In 2018, project technical planning continued and management oversaw ongoing watershed monitoring, the preparation of construction permit applications, pilot and feasibility testing for water treatment programs, land acquisitions and technical review of hydrology and geology study at the project area.

Compensation Committee activities in 2018 included:

- Evaluating the performance of the Company's executive officers;
 - Reviewing and approving the total compensation and benefits of the Company's executive officers, including cash compensation and long-term incentive compensation; and
- Reviewing guidelines and standards regarding the Company's compensation practices and philosophy.

For the Company's named executive officers, other than Mr. Slater, the committee established compensation levels based, in part, on the recommendations of Mr. Slater as Chief Executive Officer.

This section should be read in conjunction with the "Summary Compensation Table" and related tables pertaining to the compensation earned in 2018 by the named executive officers presented in this proxy statement under the caption "Executive Compensation".

Compensation Philosophy

The Company's business plan and goals have historically been and continue to be linked to the development of the Water Project. The Company's annual cash resources are focused on funding the completion of the Water Project's development process. Due to the long-term nature of developing such a project, the progress made by the Company in the development of the Water Project and the general development of our land and water resources does not bear a direct relationship to quarterly and annual results of operations.

It is critical to the development of the Water Project that the Company attracts and retains well-qualified executives familiar with the water sector as well as long-term infrastructure and project development. As a result, the Company's executive compensation programs seek to maintain a competitive annual salary structure while emphasizing long-term incentives that are connected to the ultimate implementation of the Water Project. These programs strive to align the interests of the executive officers and management with those of the Company's stockholders through the use of equity-based programs. In doing so, the Company intentionally reduces the risk that executives will place too much focus on short-term achievements to the detriment of the long-term goals of the Company.

We welcome direct stockholder feedback on our programs. Throughout the year we have met, through meetings and telephone calls, with stockholders representing over 65% of shares outstanding and have taken into consideration the issues which have been expressed as being important to them.

Elements of Compensation

The Company's compensation program has four primary components: cash salary, performance-based cash awards, long-term incentives through equity stock awards, and benefits. Each element of the Company's compensation program has been specifically chosen to reward, motivate and incentivize the executives of the Company to complete the development and implementation of the Water Project. The Compensation Committee determines the amount for both total compensation and each compensation element through discussions with the Company's management, consideration of benchmarking data, past performance and future corporate and individual objectives.

The four basic elements of compensation, described in further detail below, are:

SALARY. Base salaries for the Company's named executives are determined by the Compensation Committee depending on a variety of factors including the scope of their responsibilities, their leadership skills and values, their performance and length of service. Salaries for our named executive officers are intended to create a minimum level of compensation that is competitive with other companies deemed comparable, depending on the prior experience and position of the executive. Salaries are typically paid in cash, but could also be paid with restricted stock awards. Decisions regarding salary increases are affected by the named executive's current salary and the amounts paid to their peers within and outside the Company.

LONG-TERM INCENTIVES. The primary form of incentive compensation that is offered to the Company's executives consists of long-term incentives in the form of equity awards. The use of such long-term incentives is intended to focus and align goals of Company executives with those of stockholders and creates a direct interest in the results of operations, long-term performance and achievement of the Company's long-term goals.

PERFORMANCE BASED CASH AWARDS. The Compensation Committee believes that it is sometimes important to offer cash incentives to executives for the achievement of specified objectives that yield increased value for stockholders and will utilize performance based cash awards from time to time to provide additional incentives.

BENEFITS. The Compensation Committee also incorporates retirement, insurance, termination and severance benefits in the compensation program for executive officers. These benefits are offered to retain top executives, maintain their health and wellness and remain competitive in the industry. The retirement and insurance benefits are consistent with those benefits offered more broadly to the Company's employees.

The Company's overall compensation packages for our named executive officers have historically emphasized equity incentives due to the long-term development timelines of our projects and the focus of the Company on achieving the implementation of these projects. Even with the emphasis on long-term incentives, the Company's overall compensation is established at a level comparable to our peer group of companies, which share a similar focus on long-term development of assets. As the Water Project has finalized numerous permitting milestones and prepares for construction and implementation, the Committee has also utilized performance based cash awards to reward achieved milestones and goals in that calendar year.

Use of Peer Group

Our main asset consists of a large land position with water rights in Southeastern California and our business is primarily focused on the permitting of a water supply and storage project at our primary property in Cadiz, California. Because no other publicly-traded company is similarly situated, it is difficult to identify directly comparable peer companies.

However, for guidance on the pay mix and compensation package of our named executive officers, we identified a peer group of companies operating in the property and asset development sectors, specifically companies with comparable market capitalization and an emphasis on the development of property and real estate in the Southwestern United States. The peer group includes the following companies:

- Alico, Inc.
- Forestar Group, Inc.
- Limoneira Company
- PICO Holdings, Inc.
- Taylor Morrison, Inc.
- Tejon Ranch Co.
- Pure Cycle Corp.

Benchmarking

The Compensation Committee believes it is important to understand and analyze the current compensation programs of other companies when making compensation decisions. We traditionally consider the compensation programs of our peers when determining compensation for the named executive officers. This year the Committee reviewed publicly available information for our peer group companies to compare the components of our compensation program for the executive officers with those of the peer group.

Due to the Company's unique business plan and current focus on development of the Water Project, the Compensation Committee exercises its discretion in determining compensation packages that may differ from the peer group. Consequently, in setting executive officer compensation levels, we do not have a policy of setting compensation levels within a fixed range of benchmarks of our peer companies. Nevertheless, the peer group is instructive in assessing elements of compensation and structure for similarly situated companies.

Upon review of publicly available information for our peers, the Committee found the total compensation of our Chief Executive Officer to be among the lowest in the peer group.

Performance Objectives

The Committee emphasizes performance objectives for executives when granting long-term equity compensation awards from existing plans. Currently, as described above, the Company is focused on the performance of objectives related to implementation of the Water Project and fixes equity grants to satisfaction of such project development objectives including both restrictions as to sale and on a vesting schedule commensurate with the anticipated Water Project development timeline.

Elements of 2018 Compensation

1. **SALARY.** In evaluating base salaries for 2018, the Compensation Committee believed it was important to maintain competitive base salary compensation that would also keep cash compensation expenditures to a minimum. In 2018, Mr. Slater's, Mr. Shaheen's and Mr. Brackpool's annual base salary remained the same as in 2017.

2. **LONG-TERM INCENTIVES.** The Committee has chosen to rely upon equity instruments, such as restricted stock and options, in designing compensation packages for executives. The Committee views the grant of equity based awards as an incentive for future performance since the value of these equity based awards will increase as the Company's stock price increases, thereby satisfying the Committee's goal of linking executive compensation to share price appreciation over the longer term and promoting the retention of the key executives throughout the development process of our projects. The Committee is conscious of the potential dilutive effect arising from the use of equity incentives and tries to limit issuances to maintain appropriate ratios of overall ownership levels in the Company from year to year.

In order for us to utilize equity based awards as our primary form of incentive compensation and maintain alignment with the goals of stockholders, the Committee and the Board have created plans subject to stockholder approval. The Company's most recent equity incentive program (the "2014 Incentive Plan") was approved by stockholders at the Company's 2014 Annual Meeting of Stockholders. The 2014 Incentive Plan reserved 675,000 shares for issuance; the plan currently has 20,269 shares available for issuance. The Committee did not award restricted stock or options to the Company's named executive officers in 2018.

3. CASH AWARDS. While the Compensation Committee believes that equity based awards rather than cash based awards allow the Company to better preserve our existing cash resources and, accordingly, has relied primarily upon the grant of equity based awards to reward executive performance (see "Long-Term Incentives") of named executive officers, the Compensation Committee also believes that it is important to offer cash incentives to executives for the achievement of specified objectives that yield increased value for stockholders and to reduce the tax burdens associated with the issuance of restricted equity based awards. In 2018, Mr. Brackpool, Mr. Shaheen and Mr. Slater were each granted a \$300,000 cash award by the Board for exemplary service in implementing Company objectives throughout the course of the year, including those transactions described under "Overview", above.

4. BENEFITS. Per their 2014 amended and restated employment agreements described below, Mr. Brackpool and Mr. Shaheen received retirement benefits as part of their compensation packages in 2018. Termination and severance terms are adjusted annually in Mr. Brackpool's and Mr. Shaheen's existing employment agreements.

Agreements Governing Compensation

Mr. Scott S. Slater has served with the Company since November 2008 pursuant to an agreement with the law firm Brownstein Hyatt Farber and Schreck LLP, where Mr. Slater is also a shareholder. From 2008 – 2012, Mr. Slater was primarily focused on the development of the Company's Water Project and did not receive a base salary from the Company for his role as General Counsel (2008 – 2012) and President (2011 – 2012). Mr. Slater's compensation from the Company consisted exclusively of long-term incentives due to the nature of the development of the Water Project. In April 2011, Mr. Slater received options to purchase 100,000 shares of common stock at an exercise price of \$12.51 per share under the Company's 2009 Incentive Plan with such options vesting 1/3 when issued, 1/3 in April 2012 and 1/3 in April 2013. On February 1, 2013, Mr. Slater was named Chief Executive Officer in addition to his ongoing role as President. As a result, Mr. Slater's employment arrangements were amended to reflect the broadening of his responsibilities and leadership role over all of the Company's asset development initiatives. In consideration of Mr. Slater's agreement to serve as Chief Executive Officer and President, Mr. Slater began to receive an annual base salary from the Company of \$300,000 effective February 1, 2013.

The Company's Chief Financial Officer, Mr. Timothy J. Shaheen, entered into an amended and restated employment agreement with the Company effective July 1, 2014 replacing a May 2009 employment agreement. Mr. Shaheen serves as the Principal Financial Officer of the Company and as Chairman and Chief Executive of the Board of Managers of Cadiz Real Estate LLC, our subsidiary holding title to the Company's land and water assets. Mr. Shaheen also oversees the Company's agricultural operations. Mr. Shaheen's amended and restated agreement provided for a new base salary compensation structure and established milestone principles for further long-term incentive equity awards.

Pursuant to the amended and restated agreement, Mr. Shaheen's annual base cash compensation was reduced for 2014, 2015 and 2016 in exchange for equity based salary in the form of restricted stock units ("RSUs") that vested ratably during those years. Effective July 1, 2014, Mr Shaheen's salary was decreased to \$200,000 per annum, and he received a total of 62,500 RSUs, 12,500 in 2014, and 25,000 each in 2015 and 2016. In addition, Mr. Shaheen received a long-term equity incentive milestone award of 100,000 shares of the Company's stock in the form of 100,000 RSUs. These RSUs were earned and issued in June 2017. No RSUs have been granted in 2018 to Mr. Shaheen. In accordance with the terms of his amended and restated employment agreement, effective January 1, 2017 the base cash salary for Mr. Shaheen automatically reverted to \$350,000, representing his salary as in effect immediately prior to the 2014 RSU grants.

Mr. Keith Brackpool entered into an amended and restated employment agreement effective July 1, 2014 ("2014 Amended Agreement") replacing a May 2009 employment agreement. The 2014 Amended Agreement provided for a new base salary compensation structure and established milestone principles for further long-term incentive equity awards. Pursuant to the 2014 Amended Agreement, Mr. Brackpool's annual base cash compensation was reduced for 2014, 2015 and 2016 in exchange for equity based salary in the form of restricted stock units ("RSUs") that vested ratably during those years. Effective July 1, 2014, Mr Brackpool's salary was decreased to \$35,000 per annum, and he received a total of 100,000 RSUs, 20,000 in 2014 and 40,000 each in 2015 and 2016. In addition, Mr. Brackpool received a long-term equity incentive milestone award of 100,000 shares of the Company's stock in the form of 100,000 RSUs. These RSUs were earned and issued in June 2017. No RSUs have been granted in 2018 to Mr. Brackpool. In accordance with the terms of his amended and restated employment agreement, effective January 1, 2017 the base cash salary for Mr. Brackpool automatically reverted to \$275,000, representing his salary as in effect immediately prior to the RSU grants.

Severance and Change in Control Provisions

The Company's current compensation agreements with Messrs. Brackpool and Shaheen provide for certain severance provisions and benefits associated with various termination scenarios, as well as certain vesting acceleration for equity-based compensation in the event of a change-in-control. The severance and change in control provisions were determined largely by negotiations between the parties as one of the many elements of a larger negotiation involving the particular executive's employment or consulting agreement with the Company. These agreements are designed to be competitive in the marketplace and provide security for these executives in the event that the Company is acquired and their position is impacted. This will allow the Company's executives to consider and implement transformative transactions of significant benefit to our stockholders without undue concern over their own financial situations. Nevertheless, if an executive leaves under circumstances that call into question whether any compensation amounts paid to him or her were validly earned, we would pursue any legal rights we deemed appropriate under the circumstances.

A summary of the severance and change-in-control provisions applicable to compensation arrangements with the Company's executive officers named in the Summary Compensation Table, along with a quantification of the benefits available to each named officer as of December 31, 2018, can be found in the section captioned "Potential Payments upon Termination or Change in Control". The Company does not provide excise tax gross-ups as part of these benefits.

Tax and Accounting Considerations

Impact of Code Section 162(m)

The Compensation Committee has considered the impact of provisions of the Internal Revenue Code of 1986, specifically Code Section 162(m). Section 162(m) limits to \$1 million the Company's deduction for compensation paid to each of our executive officers, which does not qualify as "performance based". The 2014 Equity Incentive Plan was designed to permit grant awards that qualify as performance-based compensation, thereby permitting the Company to receive a federal income tax deduction in connection with the awards.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the disclosures required by Item 402 of Regulation S-K with management of the Company. Based on this review and discussion, we recommend to the Board of Directors that the disclosures required by Item 402 of Regulation S-K be included in this Form 10-K/A.

Employment Arrangements

Mr. Scott S. Slater has served with the Company since November 2008 pursuant to an agreement with the law firm Brownstein Hyatt Farber and Schreck LLP, where Mr. Slater is also a shareholder. From 2008 – 2012, Mr. Slater was primarily focused on the development of the Company's Water Project and did not receive a base salary from the Company for his role as General Counsel (2008 – 2012) and President (2011 – 2012). Mr. Slater's compensation from the Company consisted exclusively of long-term incentives due to the nature of the development of the Water Project. In April 2011, Mr. Slater received options to purchase 100,000 shares of common stock at an exercise price of \$12.51 per share under the Company's 2009 Incentive Plan with such options vesting 1/3 when issued, 1/3 in April 2012 and 1/3 in April 2013. On February 1, 2013, Mr. Slater was named Chief Executive Officer in addition to his ongoing role as President. As a result, Mr. Slater's employment arrangements were amended to reflect the broadening of his responsibilities and leadership role over all of the Company's asset development initiatives. The Company's Chief Financial Officer, Mr. Timothy J. Shaheen, entered into an amended and restated employment agreement with the Company effective July 1, 2014 replacing a May 2009 employment agreement. Mr. Shaheen's amended and restated agreement provided for a new base salary compensation structure and established milestone principles for further long-term incentive equity awards. Pursuant to the amended and restated agreement, Mr. Shaheen's annual base cash compensation was reduced for 2014, 2015 and 2016 in exchange for equity based salary in the form of restricted stock units ("RSUs") that vested ratably during those years. Effective July 1, 2014, Mr. Shaheen's salary was decreased to \$200,000 per annum, and he received a total of 62,500 RSUs, 12,500 in 2014, and 25,000 each in 2015 and 2016. No RSUs have been granted in 2018 to Mr. Shaheen. In accordance with the terms of his amended and restated employment agreement, effective January 1, 2017 the base cash salary for Mr. Shaheen automatically reverted to \$350,000, representing his salary as in effect immediately prior to the 2014 RSU grants.

Mr. Keith Brackpool entered into an amended and restated employment agreement effective July 1, 2014 ("2014 Amended Agreement") replacing a May 2009 employment agreement. Pay Ratio Disclosure

Pursuant to the Dodd-Frank Act, the Securities and Exchange Commission adopted a rule requiring annual disclosure of the ratio of the total annual compensation of the principal executive officer ("CEO") to the median employee's annual total compensation. Mr. Scott Slater is the Company's Chief Executive Officer. In the pay ratio table below, Mr. Slater's total compensation as reflected in the foregoing Summary Compensation Table, is compared to the median employee's total compensation. For simplicity, the value of the Company's retirement plan was excluded for Mr. Slater and all permanent employees, as all employees, including the CEO, are offered the same benefits. In determining the median employee, a listing was prepared of all employees that were actively employed as of December 31, 2018, with the exception of Mr. Slater. All wages, bonuses and stock awards paid to each employee were deemed to be the employee's total compensation. If a permanent employee was not employed by the Company for the entirety of the year, an annualized total compensation was calculated for that employee. The below table presents the ratio of the total annual compensation of the Company's Chief Executive Officer, Mr. Slater, to the median employee's annual total compensation:

Mr. Scott Slater (CEO) total annual compensation	\$ 600,000
Median Employee total annual compensation	\$ 190,900
Ratio of CEO to Median Employee total annual compensation	3.14:1.00

Compensation Committee Interlocks and Insider Participation

In fiscal 2018, there were no Compensation Committee interlocks and no insider participation in Compensation Committee decisions that were required to be reported under the rules and regulations of the 1934 Act.

All persons named have sole voting power and investment power over their shares except as otherwise noted.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

Certain Relationships and Related Transactions

There have been no transactions since the beginning of our fiscal year commencing January 1, 2018 in which any of our directors, officers or beneficial owners of more than five percent of our voting securities or any of their affiliates participated as "related persons" and which required disclosure pursuant to Item 404 of Regulation S-K.

Policies and Procedures with Respect to Related Party Transactions

Our Audit Committee Charter requires that the Audit Committee review and approve all related-party transactions between the Company, on the one hand, and directors, officers, employees, consultants, and any of their family members, on the other hand. In addition, the Company's written Conflicts of Interest policy provides that no employee, officer or director may use or attempt to use his or her position at the Company to obtain any improper personal benefit for himself or herself, for his or her family, or for any other person.

25

In order to implement these requirements, the Company requires that, prior to entering into any transaction with the Company, a related party must advise Company management of the potential transaction. Management will, in turn, provide to the Audit Committee a description of the material terms of the transaction, including the dollar amount, the nature of the related party's direct or indirect interest in the transaction, and the benefits to be received by the Company from the transaction. The Audit Committee may make such other investigations as it considers appropriate under the circumstances. The Audit Committee will also consider whether the benefits of the proposed transaction could be obtained by the Company upon better terms from non-related parties, and whether the transaction is one that would be reportable by the Company in our public filings. The Audit Committee will then make a determination as to whether the proposed transaction is in the best interests of the Company and should therefore be approved.

Director Independence

Mr. Bohn, Mr. Brown, Mr. Courter, Mr. Grant, Mr. Hickox, Mr. Hutchison, Mr. Nevins, and Mr. Pacini have all been affirmatively determined by the Board to be "independent" under the securities laws and regulations of the SEC and regulations and pertinent listing standards of the NASDAQ Global Market, as in effect from time to time. In February 2017, the directors unanimously elected Mr. Grant as the Company's lead independent director to further enhance independent director oversight of management. There are no relationships or transactions that involve the previously mentioned directors that the Board considered in assessing their independence that are not otherwise disclosed.

The Company's independent directors meet routinely in executive session without the presence of management. Independent directors met in executive session at each regularly scheduled meeting of the Board, at least four (4) times annually, in each case outside the presence of any director who also serves as an executive officer. In addition to regularly scheduled board meetings, the Board of Directors and various committees of the Board regularly meet to receive and discuss operating and financial reports presented by the Chief Executive Officer and other members of management as well as reports by experts and other advisors.

Independence of Committee Members

The Board maintains three committees, as described above. The Board has determined that all members of its committees are independent for the purpose of Board service generally and for the purposes of Board committee service, as applicable. Each Board committee is chaired by an independent director and maintains a written charter detailing its authority and responsibilities. These charters are reviewed periodically as legislative and regulatory developments and business circumstances warrant and are available in their entirety on the Company's website at <http://www.cadizinc.com> and to any stockholder otherwise requesting a copy.

ITEM 14. Principal Accounting Fees and Services

For the fiscal years ended December 31, 2018 and 2017, professional services were performed by PricewaterhouseCoopers LLP. PricewaterhouseCoopers LLP has served as the Company's independent auditor since at least 1995. The Company's Audit Committee annually approves the engagement of outside auditors for audit services in advance. The Audit Committee has also established complementary procedures to require pre-approval of all audit-related, tax and permitted non-audit services provided by PricewaterhouseCoopers LLP, and to consider whether the outside auditors' provision of non-audit services to the Company is compatible with maintaining the independence of the outside auditors. The Audit Committee may delegate pre-approval authority to one or more of its members. Any such fees pre-approved in this manner shall be reported to the Audit Committee at its next scheduled meeting. All services described below were pre-approved by the Audit Committee.

All fees for services rendered by PricewaterhouseCoopers LLP aggregated \$328,900 and \$270,000 during the fiscal years ended December 31, 2018 and 2017, respectively, and were composed of the following:

Audit Fees. Audit Related Fees. No audit-related fees were billed by PricewaterhouseCoopers LLP to the Company during the fiscal years ended December 31, 2018 and 2017.
