PROXY STATEMENT

General

The enclosed Proxy is solicited on behalf of the Board of Directors of RF Industries, Ltd., a Nevada corporation (the "Company"), for use at the Annual Meeting of Stockholders ("Annual Meeting") to be held on Friday, May 30, 2003, at 1:30 p.m., local time, or at any adjournment or postponement thereof. The Annual Meeting will be held at the Mira Mesa Hotel at 9888 Mira Mesa Blvd., Function Room A, San Diego, California 92131. The Company mailed this Proxy Statement and the accompanying Proxy and Annual Report to all stockholders entitled to vote at the Annual Meeting on or about April 15, 2003.

Voting

Only stockholders of record at the close of business on April 2, 2003, will be entitled to notice of and to vote at the Annual Meeting. On April 2, 2003, there were 3,398,154 shares of Common Stock outstanding. The Company is incorporated in Nevada, and is not required by Nevada corporation law or its Articles of Incorporation to permit cumulative voting in the election of directors.

On each or any other matter properly presented and submitted to a vote at the Annual Meeting, each share will have one vote and an affirmative vote of a majority of the shares represented at the Annual Meeting and entitled to vote will be necessary to approve the matter. Shares represented by proxies that reflect abstentions or broker non-votes (that is, shares held by a broker or nominee which are represented at the meeting, but with respect to which such broker or nominee is not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Abstentions will be counted towards the tabulation of votes cast on proposals presented to the stockholders and will have the same effect as negative votes. Broker non-votes are counted towards a quorum but are not counted for any purpose in determining whether a matter has been approved. If the enclosed proxy is properly executed and returned to, and received by, the Company prior to voting at the Annual Meeting, the shares represented thereby will be voted in accordance with the instructions marked thereon. In the absence of instructions, the shares will be voted "FOR" (i) the nominees of the Board of Directors in the election of the six directors whose terms of office will extend until the 2004 Annual Meeting of Stockholders and until their respective successors are duly elected and qualified, (ii) amendment to the Company's 2000 Stock Option Plan to increase the number of shares of Common Stock reserved for issuance thereunder by 100,000 shares, and (iii) the approval of the re-appointment of J.H. Cohn LLP as the Company's independent auditors for the 2003 fiscal year.

Revocability of Proxies

When the enclosed Proxy is properly executed and returned, the shares it represents will be voted at the Annual Meeting in accordance with any directions noted thereon, and if no directions are indicated, the shares it represents will be voted in favor of the proposals set forth in the notice attached hereto. Any person giving a Proxy in the form accompanying this statement has the power to

Edgar Filing: R F INDUSTRIES LTD - Form DEF 14A

It may be revoked by filing with the Secretary of the Company's principal executive office, 7610 Miramar Road, San Diego, California 92126-4202, an instrument of revocation or a duly executed Proxy bearing a later date, or it may be revoked by attending the Annual Meeting and voting in person. Please note, however, that if your shares are held of record by a broker, bank or other nominee and you wish to vote in person at the Annual Meeting, you must obtain from the record holder a proxy issued in your name.

Solicitation

The Company will bear the entire cost of solicitation of Proxies, including the preparation, assembly, printing, and mailing of this Proxy Statement, the Proxy, and any additional material furnished to stockholders. Copies of solicitation material will be furnished to brokerage houses, fiduciaries, and custodians holding shares in their names that are beneficially owned by others to forward to such beneficial owners. In addition, the Company may reimburse such persons for their cost of forwarding the solicitation material to such beneficial owners. The solicitation of Proxies by mail may be supplemented by telephone, telegram, and/or personal solicitation by directors, officers, or employees of the Company. No additional compensation will be paid for any such services. Except as described above, the Company does not intend to solicit Proxies other than by mail.

The six candidates receiving the highest number of affirmative votes cast at the Annual Meeting shall be elected as directors of the Company. Each person nominated for election has agreed to serve if elected. If any of such nominees shall become unavailable or refuse to serve as a director (an event that is not anticipated), the Proxy holders will vote for substitute nominees at their discretion. Compliance With Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC"). Executive officers, directors and greater than 10% stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on its review of the copies of reporting forms received by the Company, the Company believes that during its most recent fiscal year ended October 31, 2002, that its officers and directors complied with the filing requirements under Section 16(a).

PROPOSAL 2 AMENDMENT OF THE 2000 STOCK OPTION PLAN

At the Annual Meeting, stockholders are being asked to approve an amendment to the Company's 2000 Stock Option Plan (the "2000 Plan") that would increase the shares reserved for issuance thereunder by 100,000 shares of Common Stock. Currently, the 2000 Plan provides that the aggregate number of options that can be awarded under the 2000 Plan shall be (i) 300,000 plus (ii) an annual increase of the lesser of 10,000 shares or 4% of the total number of shares of Common Stock outstanding. The proposes amendment would increase the minimum 300,000 shares to 400,000 shares.

General

The Company's 2000 Plan provides for the grant of options to employees and consultants of the Company. The increase in shares reserved for issuance under the 2000 Plan has been necessitated by the hiring of new employees and the grant of additional stock options to current employees as previously granted options vest and become exercisable. The Company does not believe that the shares remaining available for future grant pursuant to the 2000 Plan are sufficient to attract new employees or retain existing employees. The increase will provide sufficient additional stock to continue the Company's policy of equity ownership by employees and consultants as an incentive to contribute to the Company's success.

As of October 31, 2002, options for 262,349 shares had been granted under the 2000 Plan and 57,651 shares remained available for future grants. Shares not purchased under an option prior to its expiration will be available for future option grants under the 2000 Plan. As of October 31, 2002, the fair market value of shares subject to outstanding options was approximately \$543,000, based upon the closing price of the Common Stock as reported on the Nasdaq Stock Market system on such date.

The primary features of the 2000 Plan are summarized below.

Purpose

The purposes of the 2000 Plan are to attract and retain the best available personnel for positions of substantial responsibility, to provide additional

Edgar Filing: R F INDUSTRIES LTD - Form DEF 14A

incentive to employees and consultants of the Company and to promote the success of the Company's business.

Share Reserve

The Board of Directors and stockholders adopted the 2000 Plan in 2000. The Company has reserved for issuance under the 2000 Plan 300,000 shares of common stock plus the number of shares by which the 2000 Plan automatically increases. On January 1 of each year, starting with the year 2001, the number of shares in the reserve will automatically increase by 4% of the total number of shares of common stock of the Company that are outstanding at that time or by 10,000 shares, whichever is less. In general, if options awarded under the 2000 Plan are forfeited, then those options will again become available for grant under the 2000 Plan.

Administration

The Compensation Committee of the Board of Directors ("Committee") administers the 2000 Plan. The Committee has the complete discretion to make all decisions relating to the interpretation and operation of the 2000 Plan. The Committee has the discretion to determine who will receive an option, what type of option it will be, how many shares will be covered by the option, what the vesting requirements will be (if any), and what the other features and conditions of each option will be. The Committee may also reprice outstanding options and modify outstanding options in other ways.

Eligibility

Employees, outside directors and independent consultants and advisors to the Company and its subsidiaries are eligible to participate in the 2000 Plan.

Types of Award

The 2000 Plan provides incentive stock options to purchase shares of common stock of the Company and nonstatutory stock options to purchase shares of common stock of the Company.

Exercise Price, Payment and Transferability

An optionee who exercises an incentive stock option may qualify for favorable tax treatment under Section 422 of the Internal Revenue Code of 1986. Nonstatutory stock options, however, do not qualify for such favorable tax treatment. The exercise price for incentive stock options granted under the 2000 Plan may not be less than 100% of the fair market value of the common stock of the Company on the option grant date. In the case of nonstatutory options, the minimum exercise price is 85% of the fair market value of the common stock of the Company on the option grant date. Optionees may pay the exercise price by using the following methods of payment as determined by the Committee: cash; shares of common stock that the optionee already owns; a full-recourse promissory note, except that the par value of newly issued shares must be paid in cash; an immediate sale of the option shares through a broker designated by the Company; or a loan from a broker designated by the Company, secured by the option shares.

Options are generally not assignable or transferable other than by will or the laws of inheritance and, during the optionee's lifetime, the option may be exercised only by such optionee.

Edgar Filing: R F INDUSTRIES LTD - Form DEF 14A

Vesting of Options and Termination of Service

The options will vest at the time or times determined by the Committee. Options generally expire 10 years after they are granted, except that they generally expire earlier if the optionee's service terminates earlier. Upon the optionee's cessation of employment or service, the optionee will have a limited period of time in which to exercise his or her outstanding options for any shares in which the optionee is vested at that time. However, at any time while the options remain outstanding, the Committee will generally have discretion to extend the period following the optionee's cessation of employment or service during which his or her outstanding options may be exercised. The Committee will also have discretion to accelerate the exercisability or vesting of those options in whole or in part at any time.

Change in Control

If a change in control of the Company occurs, an option under the 2000 Plan may become fully vested and exercisable as determined by the Committee. A change in control includes: (i) a merger of the Company after which the Company's stockholders own 50% or less of the surviving corporation (or its parent company); (ii) a sale of all or substantially all of the Company's assets; (iii) a change in the composition of the Board that results in the replacement of more than one-half of the Company's incumbent directors over a 24-month period; or (iv) an acquisition of 20% or more of the Company's outstanding stock by any person or group, other than a person related to the Company (such as a holding company owned by the Company's stockholders).

Amendments

The Board may amend or terminate the 2000 Plan at any time. If the Board amends the 2000 Plan, it does not need to ask for stockholder approval of the amendment unless applicable law requires it.

Federal Income Tax Consequences

Options granted under the 2000 Plan may be either incentive stock options that satisfy the requirements of Section 422 of the Internal Revenue Code or non-statutory options that are not intended to meet such requirements. The Federal income tax treatment for the two types of options differs as follows:

Incentive Options No taxable income is recognized by the optionee at the time of the option grant, and no taxable income is generally recognized at the time the option is exercised. The optionee will, however, recognize taxable income in the year in which the purchased shares are sold or otherwise made the subject of a taxable disposition. For Federal income tax purposes, dispositions are divided into two categories: qualifying dispositions and disqualifying dispositions. A qualifying disposition occurs if the sale or other disposition is made after the optionee has held the shares for more than two (2) years after the option grant date and more than one (1) year after the exercise date. If either of these two holding periods is not satisfied, then a disqualifying disposition will result.

Upon a qualifying disposition, the optionee will recognize long-term capital gain in an amount equal to the excess of (i) the amount realized upon the sale or other disposition of the purchased shares over (ii) the exercise price paid for the shares. If there is a disqualifying disposition of the shares, then the excess of (i) the fair market value of those shares on the

Edgar Filing: R F INDUSTRIES LTD - Form DEF 14A

exercise date over (ii) the exercise price paid for the shares will be taxable as ordinary income to the optionee. Any additional gain or loss recognized upon the disposition will be recognized as a capital gain or loss by the optionee.

Non-Statutory Options No taxable income is recognized by an optionee upon the grant of a non-statutory option. The optionee will in general recognize ordinary income, in the year in which the option is exercised, equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and the optionee will be required to satisfy the tax withholding requirements applicable to such income.

The Company will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the optionee with respect to the exercised non-statutory option. The deduction will in general be allowed for the taxable year of the Company in which such ordinary income is recognized by the optionee.

Accounting Treatment

Option grants made to employees or directors under the 2000 Plan that have exercise or issue prices that are equal to or greater than the fair market value per share on the grant or issue date will not result in any direct charge to the Company's reported earnings. However, the fair value of those options is required to be disclosed in the notes to the Company's financial statements, and the Company must also disclose, in footnotes to its financial statements, the pro-forma impact those options would have upon the Company's reported earnings were the fair value of those options at the time of grant treated as a compensation expense.

Option grants or stock issuances made to employees or directors under the 2000 Plan that have exercise or issue prices that are less than the fair market value per share on the grant or issue date will result in a direct compensation expense to the Company in an amount equal to the excess of such fair market value over the exercise or issue price. The expense must be amortized against the Company's earnings over the period that the option shares or issued shares are to vest.

Option grants made to non-employee consultants under the 2000 Plan will result in a direct charge to the Company's reported earnings over the vesting period based upon the fair value of the option measured as of the grant date.

The number of outstanding options may affect the Company's earnings per share on a fully diluted basis.

Option Grants
