EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended March 31, 2014 of UDR, Inc., a Maryland corporation, and United Dominion Realty, L.P., a Delaware limited partnership, of which UDR, Inc. is the parent company and sole general partner. Unless the context otherwise requires, all references in this Report to “we,” “us,” “our,” the “Company,” “UDR” or “UDR, Inc.” refer collectively to UDR, Inc., together with its consolidated subsidiaries and joint ventures, including the Operating Partnership. Unless the context otherwise requires, the references in this Report to the “Operating Partnership” or the “OP” refer to United Dominion Realty, L.P. together with its consolidated subsidiaries. “Common stock” refers to the common stock of UDR and “stockholders” means the holders of shares of UDR’s common stock and preferred stock. The limited partnership interests of the Operating Partnership are referred to as the “OP Units” and the holders of the OP Units are referred to as “unitholders”. This combined Form 10-Q is being filed separately by UDR and the Operating Partnership.

There are a number of differences between our Company and our Operating Partnership, which are reflected in our disclosure in this report. UDR is a real estate investment trust (a “REIT”), whose most significant asset is its ownership interest in the Operating Partnership. UDR also conducts business through other subsidiaries, including its taxable REIT subsidiary (“TRS”), whose activities include development of land and land entitlement. UDR acts as the sole general partner of the Operating Partnership, holds interests in subsidiaries and joint ventures, owns and operates properties, issues securities from time to time and guarantees debt of certain of our subsidiaries. The Operating Partnership conducts the operations of a substantial portion of the business and is structured as a partnership with no publicly traded equity securities. The Operating Partnership has guaranteed certain outstanding debt of UDR. As of March 31, 2014, UDR owned 110,883 units (100%) of the general partnership interests of the Operating Partnership and 173,848,891 units (or approximately 94.9%) of the limited partnership interests of the Operating Partnership. UDR conducts a substantial amount of its business and holds a substantial amount of its assets through the Operating Partnership, and, by virtue of its ownership of the OP Units and being the Operating Partnership’s sole general partner, UDR has the ability to control all of the day-to-day operations of the Operating Partnership. Separate financial statements and accompanying notes, as well as separate discussions under “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” are provided for each of UDR and the Operating Partnership.

UDR, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2014

1. CONSOLIDATION AND BASIS OF PRESENTATION

Consolidation and Basis of Presentation

UDR, Inc., collectively with our consolidated subsidiaries (“UDR,” the “Company,” “we,” “our,” or “us”) is a self-administered real estate investment trust, or REIT, that owns, operates, acquires, renovates, develops, redevelops, and manages apartment communities. The accompanying consolidated financial statements include the accounts of UDR and its subsidiaries, including United Dominion Realty, L.P. (the “Operating Partnership” or the “OP”). As of March 31, 2014, there were 183,278,698 units in the Operating Partnership outstanding, of which 173,959,774 units or 94.9% were owned by UDR and 9,318,924 units or 5.1% were owned by limited partners. The consolidated financial statements of UDR include the noncontrolling interests of the unitholders in the Operating Partnership.

The accompanying interim unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted according to such rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments and eliminations necessary for the fair presentation of our financial position as of March 31, 2014, and results of operations for the three months ended March 31, 2014 and 2013 have been included. Such adjustments are normal and recurring in nature. The interim results presented are not necessarily indicative of results that can be expected for a full year. The accompanying interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the year ended December 31, 2013 appearing in UDR’s Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 25, 2014.

The accompanying interim unaudited consolidated financial statements are presented in accordance with U.S. generally accepted accounting principles (“GAAP”). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the dates of the interim unaudited consolidated financial statements and the amounts of revenues and expenses during the reporting periods. Actual amounts realized or paid could differ from those estimates. All significant intercompany accounts and transactions have been eliminated in consolidation.

The Company evaluated subsequent events through the date its financial statements were issued. No significant recognized or non-recognized subsequent events were noted other than those mentioned in Note 5, Joint Ventures and Partnerships, and Note 6, Secured and Unsecured Debt.

2. SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which incorporates a requirement that a disposition represent a strategic shift in an entity’s operations into the definition of a discontinued operation. In accordance with the ASU, a discontinued operation represents (1) a component of an entity or group of components that has been disposed of or is classified as held for sale in a single transaction and represents a strategic shift that has or will have a major effect on an entity’s financial results, or (2) an acquired business that is classified as held for sale on the date of acquisition. A strategic shift could include a disposal of (1) a separate major line of business, (2) a separate major geographic area of operations, (3) a major equity method investment, or (4) other major parts of an entity. The standard requires prospective application and will be effective for interim and annual periods beginning on or after December 15, 2014 with early adoption permitted. The early adoption provision excludes components of an entity that were sold or classified as held for sale prior to the adoption of the standard.

The Company elected to early adopt this standard effective January 1, 2014, which had a significant impact on the Company's consolidated financial statements as further discussed in Note 4, Discontinued Operations and Assets Held for Sale. Subsequent to the Company's adoption of ASU 2014-08, the sale of real estate that does not meet the definition of a

9

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

discontinued operation under the standard is included in Gain/(loss) on sale of real estate owned, net of tax on the Consolidated Statements of Operations.

As of March 31, 2014 and December 31, 2013, the Company had one operating property that was classified as held for sale and was not subject to early adoption of the ASU. Therefore, as of March 31, 2014, this property was included in Real estate sold or held for disposition on the Consolidated Balance Sheets and Income/(loss) from discontinued operations, net of tax on the Consolidated Statements of Operations. Upon the sale of this property, a gain/(loss) will be reported as discontinued operations.

Revenue and Real Estate Sales Gain Recognition

Rental income related to leases is recognized on an accrual basis when due from residents and tenants in accordance with GAAP. Rental payments are generally due on a monthly basis and recognized when earned. The Company recognizes interest income, management and other fees and incentives when earned, and the amounts are fixed and determinable.

For sale transactions meeting the requirements for full accrual profit recognition, we remove the related assets and liabilities from our Consolidated Balance Sheets and record the gain or loss in the period the transaction closes. For sale transactions that do not meet the full accrual sale criteria due to our continuing involvement, we evaluate the nature of the continuing involvement and account for the transaction under an alternate method of accounting. Unless certain limited criteria are met, non-monetary transactions, including property exchanges, are accounted for at fair value.

Sales to entities in which we retain or otherwise own an interest are accounted for as partial sales. If all other requirements for recognizing profit under the full accrual method have been satisfied and no other forms of continuing involvement are present, we recognize profit proportionate to the outside interest in the buyer and defer the gain on the interest we retain. The Company recognizes any deferred gain when the property is sold to a third party. In transactions accounted for by us as partial sales, we determine if the buyer of the majority equity interest in the venture was provided a preference as to cash flows in either an operating or a capital waterfall. If a cash flow preference has been provided, we recognize profit only to the extent that proceeds from the sale of the majority equity interest exceed costs related to the entire property.

Notes Receivable

The following table summarizes our notes receivable, net as of March 31, 2014 and December 31, 2013 (dollars in thousands):

	Balance outstanding		Interest rate	
	March 31, 2014	December 31, 2013		
Note due June 2014 (a)	\$ 40,800	\$ 40,800	3.91	%
Note due February 2017 (b)	15,008	14,580	10.00	%
Note due July 2017 (c)	2,500	1,400	8.00	%
Note due June 2022 (net of discount of \$240 and \$247, respectively) (d)	26,260	26,253	7.00	%
Total notes receivable, net	\$ 84,568	\$ 83,033		

(a) In the fourth quarter of 2013, in conjunction with the sale of its 95% interest in the Lodge at Stoughton, one of its unconsolidated joint ventures, the Company provided the buyer with a \$40.8 million loan secured by the property at LIBOR plus a spread of 350 basis points with two three-month extension options at increased rates and a financing fee. In the first quarter of 2014, the buyer exercised its first option to extend the maturity date to June 15, 2014.

(b) The Company has a secured note receivable with an unaffiliated third party with an aggregate commitment of \$15.0 million, which bears an interest rate of 10.00% per annum. During the three months ended March 31, 2014, the

Company loaned an additional \$428,000 under the note. Interest payments are due monthly. The note matures at the earliest of the following: (a) the closing of any private or public capital raising in the amount of \$5.0 million or greater; (b) an acquisition; (c) acceleration in the event of default; or (d) the fifth anniversary of the date of the note (February 2017).

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

(c) The Company has a secured note receivable with an unaffiliated third party with an aggregate commitment of \$2.5 million, which bears an interest rate of 8.00% per annum. During the three months ended March 31, 2014, the Company loaned an additional \$1.1 million. Interest payments are due monthly. The note matures at the earliest of the following: (a) the closing of any private or public capital raising in the amount of \$5.0 million or greater; (b) an acquisition; (c) acceleration in the event of default; or (d) the fifth anniversary of the date of the note (July 2017). (d) In 2012, the Company purchased a "B" Note secured by a first mortgage on a class A community in West Los Angeles. The \$26.5 million loan was purchased at a yield of 7.25% and bears a coupon rate of 7.00%. Interest payments are due monthly and the note is due June 2022. The discount is amortized using the effective interest method.

During the three months ended March 31, 2014 and 2013, the Company recognized \$1.2 million and \$1.0 million of interest income, net of accretion, from these notes receivable, of which \$0 and \$181,000 was related party interest income, respectively. Interest income is included in Interest and other income/(expense), net on the Consolidated Statements of Operations.

Comprehensive Income/(Loss)

Comprehensive income/(loss), which is defined as the change in equity during each period from transactions and other events and circumstances from nonowner sources, including all changes in equity during a period except for those resulting from investments by or distributions to stockholders, is displayed in the accompanying Consolidated Statements of Comprehensive Income/(Loss). For the three months ended March 31, 2014 and 2013, the Company's other comprehensive income/(loss) consisted of the gain/(loss) (effective portion) on derivative instruments that are designated as and qualify as cash flow hedges, (gain)/loss on derivative instruments reclassified from other comprehensive income/(loss) into earnings, and the allocation of other comprehensive income/(loss) to redeemable noncontrolling interests. The (gain)/loss on derivative instruments reclassified from other comprehensive income/(loss) is included in Interest expense on the Consolidated Statements of Operations. See Note 10, Derivatives and Hedging Activity, for further discussion. The allocation of other comprehensive income/(loss) to redeemable noncontrolling interests during the three months ended March 31, 2014 and 2013 was \$56,000 and \$87,000, respectively.

Income Taxes

Due to the structure of the Company as a REIT and the nature of the operations for the operating properties, no provision for federal income taxes has been provided for at UDR. Historically, the Company has generally incurred only state and local excise and franchise taxes. UDR has elected for certain consolidated subsidiaries to be treated as taxable REIT subsidiaries ("TRS"), primarily those engaged in development activities.

Income taxes for our TRS, RE³, are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rate is recognized in earnings in the period of the enactment date. The Company's deferred tax assets are generally the result of differing depreciable lives on capitalized assets and timing of expense recognition for certain accrued liabilities. As of March 31, 2014, UDR recorded a net income tax receivable of \$991,000 and a net deferred tax asset of \$35.9 million (net of a valuation allowance of \$1.3 million), which are included in Other assets on the Consolidated Balance Sheets.

GAAP defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. GAAP also provides guidance on derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition.

The Company recognizes its tax positions and evaluates them using a two-step process. First, UDR determines whether a tax position is more likely than not (greater than 50 percent probability) to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Second, the Company will determine the amount of benefit to recognize and record the amount that is more likely than not to be realized upon ultimate settlement.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

UDR had no material unrecognized tax benefit, accrued interest or penalties at March 31, 2014. UDR and its subsidiaries are subject to federal income tax as well as income tax of various state and local jurisdictions. The tax years 2010 through 2013 remain open to examination by tax jurisdictions to which we are subject. When applicable, UDR recognizes interest and/or penalties related to uncertain tax positions in Tax benefit, net on the Consolidated Statements of Operations.

3. REAL ESTATE OWNED

Real estate assets owned by the Company consist of income producing operating properties, properties under development, land held for future development, and sold or held for disposition properties. As of March 31, 2014, the Company owned and consolidated 143 communities in 10 states plus the District of Columbia totaling 41,455 apartment homes. The following table summarizes the carrying amounts for our real estate owned (at cost) as of March 31, 2014 and December 31, 2013 (dollars in thousands):

	March 31, 2014	December 31, 2013
Land and land improvements	\$1,966,204	\$1,847,127
Depreciable property — held and used:		
Building, improvements, and furniture, fixtures and equipment	6,109,595	5,876,717
Under development:		
Land and land improvements	47,038	110,769
Construction in progress	175,563	356,644
Real estate sold or held for disposition:		
Land and land improvements	10,751	10,751
Building, improvements, and furniture, fixtures and equipment	5,969	5,969
Real estate owned	8,315,120	8,207,977
Accumulated depreciation	(2,279,928)	(2,208,794)
Real estate owned, net	\$6,035,192	\$5,999,183

Predevelopment, development, and redevelopment projects and related costs are capitalized and reported on the Consolidated Balance Sheets as Total real estate owned, net of accumulated depreciation. The Company capitalizes costs directly related to the predevelopment, development, and redevelopment of a capital project, which include, but are not limited to, interest, real estate taxes, insurance, and allocated development and redevelopment overhead related to support costs for personnel working on the capital projects. We use our professional judgment in determining whether such costs meet the criteria for capitalization or must be expensed as incurred. These costs are capitalized only during the period in which activities necessary to ready an asset for its intended use are in progress and such costs are incremental and identifiable to a specific activity to get the asset ready for its intended use. These costs, excluding the direct costs of development and redevelopment and capitalized interest, for the three months ended March 31, 2014 and 2013, were \$3.4 million and \$3.0 million, respectively. During the three months ended March 31, 2014 and 2013, total interest capitalized was \$5.3 million and \$8.4 million, respectively. As each home in a capital project is completed and becomes available for lease-up, the Company ceases capitalization on the related portion and depreciation commences over the estimated useful life.

In January 2014, the Company acquired a fully-entitled land parcel for future development located in Huntington Beach, California for approximately \$78.0 million.

During the three months ended March 31, 2014, the Company sold one operating property and an adjacent parcel of land in San Diego, CA for gross proceeds of \$48.7 million, resulting in net proceeds of \$47.9 million. The Company recognized a \$24.4 million gain, which is included in Gain/(loss) on sale of real estate owned, net of tax on the

Consolidated Statements of Operations. There was no real estate sold during the three months ended March 31, 2013.

In October 2012, Hurricane Sandy hit the East Coast, affecting three of the Company's operating communities located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Company had insurance policies that provided coverage for property damage and business interruption, subject to applicable retentions.

12

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

During the three months ended March 31, 2013, the Company recorded \$3.0 million of insurance recovery related to the business interruption losses associated with Hurricane Sandy. This recovery was included in Casualty-related (recoveries)/charges, net on the Consolidated Statements of Operations for the three months ended March 31, 2013.

During the three months ended March 31, 2014, we recorded a \$500,000 casualty-related loss for one property damaged during an earthquake in California.

4. DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

Effective January 1, 2014, UDR prospectively adopted ASU No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, for all communities not previously sold or classified as held for sale. The standard had a material impact on the Company's consolidated financial statements. As a result of adopting the ASU, a \$23.3 million gain from disposition of real estate, excluding a \$1.1 million gain related to the sale of land, during the three months ended March 31, 2014 was included in Gain/(loss) on sale of real estate owned, net of tax on the Consolidated Statements of Operations rather than in Income/(loss) from discontinued operations, net of tax on the Consolidated Statements of Operations.

Prior to the prospective adoption of ASU 2014-08, FASB ASC Subtopic 205.20, required, among other things, that the primary assets and liabilities and the results of operations of UDR's real properties that have been sold or are held for disposition, be classified as discontinued operations and segregated in UDR's Consolidated Statements of Operations and Consolidated Balance Sheets. Consequently, the primary assets and liabilities and the net operating results of those properties sold or classified as held for disposition prior to January 1, 2014 are accounted for as discontinued operations for all periods presented. This presentation does not have an impact on net income available to common stockholders, it only results in the reclassification of the operating results within the Consolidated Statements of Operations for the periods ended March 31, 2014 and 2013, and the reclassification of the assets and liabilities within the Consolidated Balance Sheets as of March 31, 2014 and December 31, 2013.

As of March 31, 2014 and December 31, 2013, the Company had one operating property that was classified as held for sale and was not subject to early adoption. Therefore, as of March 31, 2014, this property was included in Real estate sold or held for disposition on the Consolidated Balance Sheets, and its operating results for the three months ended March 31, 2014 and 2013 are included in Income/(loss) from discontinued operations, net of tax on the Consolidated Statements of Operations. Upon the sale of this property, a gain/(loss) will be reported as discontinued operations.

In December 2013, the Company sold two communities with 914 apartments in the Sacramento market. The operating results related to these communities for the three months ended March 31, 2013 are included in Income/(loss) from discontinued operations, net of tax on the Consolidated Statements of Operations.

The following is a summary of income/(loss) from discontinued operations, net of tax for the three months ended March 31, 2014 and 2013 (dollars in thousands):

	Three Months Ended March 31,	
	2014	2013
Rental income	\$48	\$2,340
Rental expenses	125	872
Property management	1	64
Real estate depreciation	—	544
Other operating expenses	9	7
Income/(loss) from discontinued operations, net of tax	\$(87)) \$853
Income/(loss) from discontinued operations attributable to UDR, Inc.	\$(84)) \$823

5. JOINT VENTURES AND PARTNERSHIPS

UDR has entered into joint ventures and partnerships with unrelated third parties to acquire real estate assets that are either consolidated and included in Real estate owned on the Consolidated Balance Sheets or are accounted for under the equity method of accounting, and are included in Investment in and advances to unconsolidated joint ventures, Net on the Consolidated Balance Sheets. The Company consolidates the entities that we control as well as any variable interest entity where we are the primary beneficiary. In addition, the Company consolidates any joint venture or partnership in which we are the general partner or managing member and the third party does not have the ability to substantively participate in the decision-making process nor the ability to remove us as general partner or managing member without cause.

UDR's joint ventures and partnerships are funded with a combination of debt and equity. Our losses are limited to our investment and except as noted below, the Company does not guarantee any debt, capital payout or other obligations associated with our joint ventures and partnerships.

Consolidated Joint Ventures

In December 2013, the Company consolidated its 95%/5% development joint ventures 13th and Market JV in San Diego, CA and Domain College Park JV in Metropolitan, D.C. The consolidation was due to the Company becoming the managing member of each of the joint ventures pursuant to amendments to the limited liability company agreement for each joint venture. In connection with the amendments, our partner received equity distributions reducing its capital account balances to zero, the Company replaced our partner as the managing member, and our partner no longer has the ability to substantively participate in the decision-making process, with only protective rights remaining. We accounted for the consolidations as asset acquisitions since the joint ventures were under development and not complete at the time of consolidation resulting in no gain or loss upon consolidation and increasing our real estate owned by \$129.4 million and our debt by \$63.6 million. In addition pursuant to the amendments, the Company paid a non-refundable deposit to our partner in January 2014 of \$2.0 million for each joint venture, or \$4.0 million in total, for the right to exercise options in 2014 to acquire our partner's upside participation in the joint ventures. The non-refundable deposits will be applied towards the future purchase price, which will be equivalent to our partner's right to receive certain upside participation from the developments.

Unconsolidated Joint Ventures and Partnerships

The Company recognizes earnings or losses from our investments in unconsolidated joint ventures and partnerships consisting of our proportionate share of the net earnings or losses of the joint ventures and partnerships. In addition, we may earn fees for providing management services to the unconsolidated joint ventures and partnerships.

The number of apartment homes for the communities under development presented in the table above is based on the projected number of total homes. As of March 31, 2014, no apartment homes had been completed at UDR/MetLife 399 Fremont.

(a) On March 31, 2014, the Company sold its minority ownership interests in two small operating communities located in Los Angeles, CA to MetLife for cash proceeds of approximately \$3 million. An immaterial gain upon the sale of the two operating communities was recognized in connection with the transaction. On April 21, 2014, the Company increased its ownership interest in the remaining six operating communities in the UDR/MetLife I Joint Venture from 12 percent to 50 percent and MetLife and the Company contributed the communities to the UDR/MetLife II Joint Venture. The Company paid MetLife approximately \$82 million for the additional ownership interests. The remaining assets in the UDR/MetLife I Joint Venture are comprised of seven potential development land sites in which the Company owns approximately four percent. The Company will continue to manage

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

the operating communities that were contributed to the UDR/MetLife II Joint Venture as well as the two operating communities in which it sold its minority ownership interests.

As of March 31, 2014 and December 31, 2013, the Company had deferred fees and deferred profit from the sale of properties to joint ventures or partnerships of \$25.6 million and \$25.4 million, respectively, which will be recognized through earnings over the weighted average life of the related properties, upon the disposition of the properties to a third party, or upon completion of certain development obligations.

The Company recognized \$3.3 million and \$2.7 million of management fees during the three months ended March 31, 2014 and 2013, respectively, for our management of the joint ventures and partnerships. The management fees are included in Joint venture management and other fees on the Consolidated Statements of Operations.

The Company may, in the future, make additional capital contributions to certain of our joint ventures and partnerships should additional capital contributions be necessary to fund acquisitions or operations.

We evaluate our investments in unconsolidated joint ventures and partnerships when events or changes in circumstances indicate that there may be an other-than-temporary decline in value. We consider various factors to determine if a decrease in the value of the investment is other-than-temporary. The Company did not recognize any other-than-temporary decreases in the value of its investments in unconsolidated joint ventures or partnerships during the three months ended March 31, 2014 and 2013.

Total Debt	\$3,628,246	\$3,523,703	3.95	% 4.3
------------	-------------	-------------	------	-------

Our secured debt instruments generally feature either monthly interest and principal or monthly interest-only payments with balloon payments due at maturity. For purposes of classification of the above table, variable rate debt with a derivative financial instrument designated as a cash flow hedge is deemed as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instrument. Secured debt encumbers \$2.3 billion or 27.7% of UDR's total real estate owned based upon gross book value (\$6.0 billion or 72.3% of UDR's real estate owned based on gross book value is unencumbered) as of March 31, 2014.

18

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

(a) At March 31, 2014, fixed rate mortgage notes payable are generally due in monthly installments of principal and interest and mature at various dates from December 2014 through May 2019 and carry interest rates ranging from 3.43% to 5.94%.

The Company will from time to time acquire properties subject to fixed rate debt instruments. In those situations, the Company records the secured debt at its estimated fair value and amortize any difference between the fair value and par to interest expense over the life of the underlying debt instrument. During the three months ended March 31, 2014 and 2013, the Company had \$1.3 million of a reduction to interest expense based on the amortization of the fair market adjustment of debt assumed in the acquisition of properties, respectively. The unamortized fair market adjustment was a net premium of \$10.6 million and \$11.8 million at March 31, 2014 and December 31, 2013, respectively.

(b) UDR has three secured credit facilities with Fannie Mae with an aggregate commitment of \$836.8 million at March 31, 2014. The Fannie Mae credit facilities are for terms of seven to ten years (maturing at various dates from May 2017 through July 2023) and bear interest at floating and fixed rates. At March 31, 2014, we have \$625.4 million of the outstanding balance fixed at a weighted average interest rate of 4.99% and the remaining balance of \$211.4 million on these facilities is currently at a weighted average variable interest rate of 1.59%.

Further information related to these credit facilities is as follows (dollars in thousands):

	March 31, 2014	December 31, 2013		
Borrowings outstanding	\$836,837	\$838,076		
Weighted average borrowings during the period ended	837,194	839,597		
Maximum daily borrowings during the period ended	837,564	841,494		
Weighted average interest rate during the period ended	4.1	4.2	%	%
Weighted average interest rate at the end of the period	4.1	4.1	%	%

(c) The variable rate mortgage notes payable that secure tax-exempt housing bond issues mature on August 2019 and March 2032, respectively. Interest on these notes is payable in monthly installments. The variable rate mortgage notes have interest rates of 0.78% and 0.82%, respectively, as of March 31, 2014.

(d) As of March 31, 2014, the Company has a \$900 million unsecured revolving credit facility that matures in December 2017. The credit facility has a six month extension option and contains an accordion feature that allows us to increase the facility to \$1.45 billion. Based on the Company's current credit rating, the credit facility carries an interest rate equal to LIBOR plus a spread of 110 basis points and a facility fee of 20 basis points.

The following is a summary of short-term bank borrowings under UDR's bank credit facility at March 31, 2014 and December 31, 2013 (dollars in thousands):

	March 31, 2014	December 31, 2013		
Total revolving credit facility	\$900,000	\$900,000		
Borrowings outstanding at end of period (1)	287,500	—		
Weighted average daily borrowings during the period ended	232,750	169,844		
Maximum daily borrowings during the period ended	303,000	372,000		
Weighted average interest rate during the period ended	1.2	1.2	%	%
Interest rate at end of the period	1.1	1.3	%	%

(1) Excludes \$2.2 million and \$2.2 million of letters of credit at March 31, 2014 and December 31, 2013, respectively.

(e) The Operating Partnership is a guarantor at March 31, 2014 and December 31, 2013.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

(f) In April 2014, we paid off \$128.5 million of 5.50% medium-term notes due April 2014 with borrowings under the Company's \$900 million unsecured revolving credit facility.

The aggregate maturities, including amortizing principal payments of unsecured and secured debt, of total debt for the next five calendar years subsequent to March 31, 2014 are as follows (dollars in thousands):

Year	Total Fixed Secured Debt	Total Variable Secured Debt	Total Secured Debt	Total Unsecured Debt (a)	Total Debt
2014	\$43,147	\$—	\$43,147	\$127,820	\$170,967
2015	196,539	—	196,539	324,383	520,922
2016	138,222	68,149	206,371	82,478	288,849
2017	177,941	65,000	242,941	287,500	530,441
2018	176,382	50,000	226,382	648,646	875,028
Thereafter	336,384	191,109	527,493	714,546	1,242,039
Total	\$1,068,615	\$374,258	\$1,442,873	\$2,185,373	\$3,628,246

(a) With the exception of the 1.41% Term Notes due June 2018 and the revolving credit facility which carry a variable interest rate, all unsecured debt carries fixed interest rates.

We were in compliance with the covenants of our debt instruments at March 31, 2014.

7. INCOME/(LOSS) PER SHARE

The following table sets forth the computation of basic and diluted income/(loss) per share for the periods presented (dollars and shares in thousands, except per share data):

	Three Months Ended March 31,	
	2014	2013
Numerator for income/(loss) per share:		
Income/(loss) from continuing operations	\$(5,195) \$(1,162
Gain/(loss) on sale of real estate owned, net of tax	24,294	—
(Income)/loss from continuing operations attributable to redeemable noncontrolling interests in the Operating Partnership	(650) 75
(Income)/loss from continuing operations attributable to noncontrolling interests	(4) (4
Income/(loss) from continuing operations attributable to UDR, Inc.	18,445	(1,091
Distributions to preferred stockholders - Series E (Convertible)	(931) (931
Income/(loss) from continuing operations attributable to common stockholders	\$17,514	\$(2,022
Income/(loss) from discontinued operations, net of tax	\$(87) \$853
(Income)/loss from discontinued operations attributable to redeemable noncontrolling interests in the Operating Partnership	3	(30
Income/(loss) from discontinued operations attributable to common stockholders	\$(84) \$823
Net income/(loss) attributable to common stockholders	\$17,430	\$(1,199
Denominator for income/(loss) per share:		
Weighted average common shares outstanding	251,213	250,500
Non-vested restricted stock awards	(1,036) (583
Denominator for basic income/(loss) per share	250,177	249,917
Incremental shares issuable from assumed conversion of:		
Stock options and unvested restricted stock	1,645	—
Denominator for diluted income/(loss) per share	251,822	249,917
Income/(loss) per weighted average common share-basic:		
Income/(loss) from continuing operations attributable to common stockholders	\$0.07	\$(0.01
Income/(loss) from discontinued operations attributable to common stockholders	\$(0.00) \$0.00
Net income/(loss) attributable to common stockholders	\$0.07	\$0.00
Income/(loss) per weighted average common share-diluted:		
Income/(loss) from continuing operations attributable to common stockholders	\$0.07	\$(0.01
Income/(loss) from discontinued operations attributable to common stockholders	\$0.00	\$0.00
Net income/(loss) attributable to common stockholders	\$0.07	\$0.00

Basic income/(loss) per common share is computed based upon the weighted average number of common shares outstanding. Diluted income/(loss) per share is computed based upon the weighted average number of common shares outstanding plus the common shares issuable from the assumed conversion of the OP Units, convertible preferred stock, stock options, and restricted stock. Only those instruments having a dilutive impact on our basic income/(loss) per share are included in diluted income/(loss) per share during the periods.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

During the three months ended March 31, 2013, the effect of the conversion of the OP Units, convertible preferred stock, stock options and restricted stock was not dilutive, and was therefore not included in the above calculations as the Company reported a loss from continuing operations attributable to common stockholders.

The following table sets forth the additional shares of common stock outstanding by equity instrument if converted to common stock for each of the three months ended March 31, 2014 and 2013 (shares in thousands):

	Three Months Ended March 31,	
	2014	2013
OP Units	9,319	9,381
Preferred stock	3,036	3,036
Stock options and unvested restricted stock	1,645	1,293

8. NONCONTROLLING INTERESTS**Redeemable Noncontrolling Interests in the Operating Partnership**

Interests in the Operating Partnership held by limited partners are represented by OP Units. The income is allocated to holders of OP Units based upon net income attributable to common stockholders and the weighted average number of OP Units outstanding to total common shares plus OP Units outstanding during the period. Capital contributions, distributions, and profits and losses are allocated to noncontrolling interests in accordance with the terms of the individual partnership agreements.

Limited partners have the right to require the Operating Partnership to redeem all or a portion of the OP Units held by the limited partners at a redemption price equal to and in the form of the Cash Amount as defined in the Amended and Restated Agreement of Limited Partnership of the Operating Partnership (the "Operating Partnership Agreement"), provided that such OP Units have been outstanding for at least one year. UDR, as the general partner of the Operating Partnership may, in its sole discretion, purchase the OP Units by paying to the limited partner either the Cash Amount or the REIT Share Amount (generally one share of common stock of the Company for each OP Unit), as defined in the Operating Partnership Agreement. Accordingly, the Company records the OP Units outside of permanent equity and reports the OP Units at their redemption value using the Company's stock price at each balance sheet date.

The following table sets forth redeemable noncontrolling interests in the Operating Partnership for the following period (dollars in thousands):

Redeemable noncontrolling interests in the Operating Partnership, December 31, 2013	\$217,597
Mark-to-market adjustment to redeemable noncontrolling interests in the Operating Partnership	24,957
Net income/(loss) attributable to redeemable noncontrolling interests in the Operating Partnership	647
Distributions to redeemable noncontrolling interests in the Operating Partnership	(2,549)
Allocation of other comprehensive income/(loss)	56
Redeemable noncontrolling interests in the Operating Partnership, March 31, 2014	\$240,708

The following sets forth net income/(loss) attributable to common stockholders and transfers from redeemable noncontrolling interests in the Operating Partnership for the following periods (dollars in thousands):

	Three Months Ended March 31,	
	2014	2013
Net income/(loss) attributable to common stockholders	\$17,430	\$(1,199)
Conversion of OP Units to UDR Common stock	—	1,649
Change in equity from net income/(loss) attributable to common stockholders and conversion of OP Units to UDR Common Stock	\$17,430	\$450

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

Noncontrolling Interests

Noncontrolling interests represent interests of unrelated partners in certain consolidated affiliates, and are presented as part of equity in the Consolidated Balance Sheets since these interests are not redeemable. During the three months ended March 31, 2014 and 2013, net (income)/loss attributable to noncontrolling interests was \$(4,000) and \$(4,000), respectively.

9. FAIR VALUE OF DERIVATIVES AND FINANCIAL INSTRUMENTS

Fair value is based on the price that would be received to sell an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level valuation hierarchy prioritizes observable and unobservable inputs used to measure fair value. The fair value hierarchy consists of three broad levels, which are described below:

Level 1 — Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 — Observable inputs other than prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated with observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The estimated fair values of the Company's financial instruments either recorded or disclosed on a recurring basis as of March 31, 2014 and December 31, 2013 are summarized as follows (dollars in thousands):

Description:	Total Carrying Amount in Statement of Financial Position at March 31, 2014	Fair Value Estimate at March 31, 2014	Fair Value at March 31, 2014, Using Quoted Prices		
			in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(c) See Note 6, Secured and Unsecured Debt.

(d) See Note 8, Noncontrolling Interests.

There were no transfers into or out of each of the levels of the fair value hierarchy.

Financial Instruments Carried at Fair Value

The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The fair values of interest rate options are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities.

The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2014 and December 31, 2013, the Company has assessed the significance of the impact of the credit valuation adjustments on the

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. In conjunction with the FASB's fair value measurement guidance, the Company made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio. Redeemable noncontrolling interests in the Operating Partnership have a redemption feature and are marked to their redemption value. The redemption value is based on the fair value of the Company's common stock at the redemption date, and therefore, is calculated based on the fair value of the Company's common stock at the balance sheet date. Since the valuation is based on observable inputs such as quoted prices for similar instruments in active markets, redeemable noncontrolling interests in the Operating Partnership are classified as Level 2.

Financial Instruments Not Carried at Fair Value

At March 31, 2014, the fair values of cash and cash equivalents, restricted cash, accounts receivable, prepaids, real estate taxes payable, accrued interest payable, security deposits and prepaid rent, distributions payable and accounts payable approximated their carrying values because of the short term nature of these instruments. The estimated fair values of other financial instruments were determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is necessary to interpret market data and develop estimated fair values. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company would realize on the disposition of the financial instruments. The use of different market assumptions or estimation methodologies may have a material effect on the estimated fair value amounts.

We estimate the fair value of our notes receivable and debt instruments by discounting the remaining cash flows of the debt instrument at a discount rate equal to the replacement market credit spread plus the corresponding treasury yields. Factors considered in determining a replacement market credit spread include general market conditions, borrower specific credit spreads, time remaining to maturity, loan-to-value ratios and collateral quality, where applicable (Level 3).

We record impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by the future operation and disposition of those assets are less than the net book value of those assets. Our cash flow estimates are based upon historical results adjusted to reflect our best estimate of future market and operating conditions and our estimated holding periods. The net book value of impaired assets is reduced to fair value. Our estimates of fair value represent our best estimate based upon Level 3 inputs such as industry trends and reference to market rates and transactions. We consider various factors to determine if a decrease in the value of our investment in and advances to unconsolidated joint ventures, net is other-than-temporary. These factors include, but are not limited to, age of the venture, our intent and ability to retain our investment in the entity, the financial condition and long-term prospects of the entity, and the relationships with the other joint venture partners and its lenders. Based on the significance of the unobservable inputs, we classify these fair value measurements within Level 3 of the valuation hierarchy. The Company did not incur any other-than-temporary decrease in the value of its investments in unconsolidated joint ventures during the three months ended March 31, 2014 and 2013, respectively.

After determining an other-than-temporary decrease in the value of an equity method investment has occurred, we estimate the fair value of our investment by estimating the proceeds we would receive upon a hypothetical liquidation of the investment at the date of measurement. Inputs reflect management's best estimate of what market participants would use in pricing the investment giving consideration to the terms of the joint venture agreement and the estimated discounted future cash flows to be generated from the underlying joint venture assets. The inputs and assumptions utilized to estimate the future cash flows of the underlying assets are based upon the Company's evaluation of the economy, market trends, operating results, and other factors, including judgments regarding costs to complete any

construction activities, lease up and occupancy rates, rental rates, inflation rates, capitalization rates utilized to estimate the projected cash flows at the disposition, and discount rates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

10. DERIVATIVES AND HEDGING ACTIVITY

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and through the use of derivative financial instruments. Specifically, the Company may enter into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up front premium.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in Accumulated other comprehensive income(loss), net in the Consolidated Balance Sheets and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the three months ended March 31, 2014 and 2013, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the three months ended March 31, 2014 and 2013, the Company recorded no ineffectiveness and less than a \$1,000 loss from ineffectiveness in earnings attributable to an index mismatch between the derivative and the hedged item, respectively.

Amounts reported in Accumulated other comprehensive income (loss), net in the Consolidated Balance Sheets related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. Through March 31, 2015, the Company estimates that an additional \$3.7 million will be reclassified as an increase to interest expense.

As of March 31, 2014, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk (dollars in thousands):

Interest Rate Derivative	Number of Instruments	Notional
Interest rate swaps	11	\$419,787
Interest rate caps	6	\$274,291

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements of GAAP.

Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings and resulted in a gain/(loss) of \$0 and \$(2,000) for the three months ended March 31, 2014 and 2013, respectively.

As of March 31, 2014, the Company had the following outstanding derivatives that were not designated as hedges in qualifying hedging relationships (dollars in thousands):

Product	Notional
---------	----------

	Number of Instruments	
Interest rate caps	2	\$155,197

Credit-risk-related Contingent Features

The Company has agreements with some of its derivative counterparties that contain a provision where (1) if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations; or (2) the Company could be declared in default on its derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on the indebtedness.

Certain of the Company's agreements with its derivative counterparties contain provisions where if there is a change in the Company's financial condition that materially changes the Company's creditworthiness in an adverse manner, the Company may be required to fully collateralize its obligations under the derivative instrument.

The Company also has an agreement with a derivative counterparty that incorporates the loan and financial covenant provisions of the Company's indebtedness with a lender affiliate of the derivative counterparty. Failure to comply with these covenant provisions would result in the Company being in default on any derivative instrument obligations covered by the agreement.

As of March 31, 2014, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$4.0 million. As of March 31, 2014, the Company has not

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

posted any collateral related to these agreements. If the Company had breached any of these provisions at March 31, 2014, it may have been required to settle its obligations under the agreements at their termination value of \$4.0 million.

Tabular Disclosure of Offsetting Derivatives

Company has elected not to offset derivative positions in the consolidated financial statements. The tables below present the effect on its financial position had the Company made the election to offset its derivative positions as of March 31, 2014 and December 31, 2013 (dollar in thousands):

	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Consolidated Balance Sheets	Net Amounts of Assets Presented in the Consolidated Balance Sheets (a)	Financial Instruments	Gross Amounts Not Offset in the Consolidated Balance Sheets Cash Collateral Received	Net Amount

Commitments

Real Estate Under Development

The following summarizes the Company's real estate commitments at March 31, 2014 (dollars in thousands):

	Number of Properties	Costs Incurred to Date	Expected Costs to Complete	Average Ownership Stake	
Wholly-owned — under development	3	\$222,601	(a) \$177,799	100	%
Wholly-owned — redevelopment	2	145,589	(a) 32,394	100	%
Joint ventures:					
Unconsolidated joint ventures	1	79,703	120,004	(b) 51	%
Participating loan investments	1	23,199	68,810	(c) 0	%
		\$471,092	\$399,007		

(a) Costs incurred to date include \$23.6 million and \$4.0 million of accrued fixed assets for development and redevelopment, respectively.

(b) Represents UDR's remaining equity commitment in unconsolidated joint ventures.

(c) Represents UDR's remaining participating loan commitment for Steele Creek.

Contingencies

Litigation and Legal Matters

The Company is subject to various legal proceedings and claims arising in the ordinary course of business. The Company cannot determine the ultimate liability with respect to such legal proceedings and claims at this time. The Company believes that such liability, to the extent not provided for through insurance or otherwise, will not have a material adverse effect on our financial condition, results of operations or cash flow.

13. REPORTABLE SEGMENTS

GAAP guidance requires that segment disclosures present the measure(s) used by the chief operating decision maker to decide how to allocate resources and for purposes of assessing such segments' performance. UDR's chief operating decision maker is comprised of several members of its executive management team who use several generally accepted industry financial measures to assess the performance of the business for our reportable operating segments. UDR owns and operates multifamily apartment communities that generate rental and other property related income through the leasing of apartment homes to a diverse base of tenants. The primary financial measures for UDR's apartment communities are rental income and net operating income ("NOI"). Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. NOI is defined as rental income less direct property rental expenses. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover the regional supervision and accounting costs related to consolidated property operations, and land rent. UDR's chief operating decision maker utilizes NOI as the key measure of segment profit or loss. UDR's two reportable segments are Same-Store Communities and Non-Mature Communities/Other:

Same-Store Communities represent those communities acquired, developed, and stabilized prior to January 1, 2013 and held as of March 31, 2014. A comparison of operating results from the prior year is meaningful as these communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior period, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months.

Non-Mature Communities/Other represent those communities that do not meet the criteria to be included in Same-Store Communities, including, but not limited to, recently acquired, developed, redeveloped, and the non-apartment components of mixed use properties.

Management evaluates the performance of each of our apartment communities on a Same-Store Community and Non-Mature Community/Other basis, as well as individually and geographically. This is consistent with the aggregation criteria under GAAP as each of our apartment communities generally has similar economic characteristics, facilities, services, and tenants. Therefore, the Company's reportable segments have been aggregated by geography in a manner identical to that which is provided to the chief operating decision maker.

All revenues are from external customers and no single tenant or related group of tenants contributed 10% or more of UDR's total revenues during the three months ended March 31, 2014 and 2013.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2014

The following table details rental income and NOI from continuing and discontinued operations for UDR's reportable segments for the three months ended March 31, 2014 and 2013, and reconciles NOI to Net Income/(Loss) Attributable to UDR, Inc. in the Consolidated Statements of Operations (dollars in thousands):

UNITED DOMINION REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2014

1. CONSOLIDATION AND BASIS OF PRESENTATION

Consolidation and Basis of Presentation

United Dominion Realty, L.P. (“UDR, L.P.,” the “Operating Partnership,” “we” or “our”) is a Delaware limited partnership, that owns, acquires, renovates, redevelops, manages, and disposes of multifamily apartment communities generally located in high barrier to entry markets located in the United States. The high barrier to entry markets are characterized by limited land for new construction, difficult and lengthy entitlement process, expensive single-family home prices and significant employment growth potential. UDR, L.P. is a subsidiary of UDR, Inc. (“UDR” or the “General Partner”), a self-administered real estate investment trust, or REIT, through which UDR conducts a significant portion of its business. During the three months ended March 31, 2014 and 2013, rental revenues of the Operating Partnership represented 53% and 54%, respectively, of the General Partner’s consolidated rental revenues (including those classified within discontinued operations). At March 31, 2014, the Operating Partnership’s apartment portfolio consisted of 67 communities located in 17 markets consisting of 20,482 apartment homes.

Interests in UDR, L.P. are represented by operating partnership units (“OP Units”). The Operating Partnership’s net income is allocated to the partners, which is initially based on their respective distributions made during the year and secondly, their percentage interests. Distributions are made in accordance with the terms of the Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. (the “Operating Partnership Agreement”), on a per unit basis that is generally equal to the dividend per share on UDR’s common stock, which is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “UDR”.

As of March 31, 2014, there were 183,278,698 OP Units outstanding, of which, 173,959,774 or 94.9% were owned by UDR and affiliated entities and 9,318,924 or 5.1% were owned by non-affiliated limited partners. See Note 9, Capital Structure.

The accompanying interim unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted according to such rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments and eliminations necessary for the fair presentation of our financial position as of March 31, 2014, and results of operations for the three months ended March 31, 2014 and 2013 have been included. Such adjustments are normal and recurring in nature. The interim results presented are not necessarily indicative of results that can be expected for a full year. The accompanying interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the year ended December 31, 2013 included in the Annual Report on Form 10-K filed by UDR and the Operating Partnership with the SEC on February 25, 2014.

The accompanying interim unaudited consolidated statements are presented in accordance with U.S. generally accepted accounting principles (“GAAP”). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the dates of the interim unaudited consolidated financial statements and the amounts of revenues and expenses during the reporting periods. Actual amounts realized or paid could differ from those estimates. All intercompany accounts and transactions have been eliminated in consolidation.

The Operating Partnership evaluated subsequent events through the date its financial statements were issued. No recognized or non-recognized subsequent events were noted.

2. SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which incorporates a requirement that a disposition represent a strategic shift in an entity’s operations into the definition of a

40

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

discontinued operation. In accordance with the ASU, a discontinued operation represents (1) a component of an entity or group of components that has been disposed of or is classified as held for sale in a single transaction and represents a strategic shift that has or will have a major effect on an entity's financial results, or (2) an acquired business that is classified as held for sale on the date of acquisition. A strategic shift could include a disposal of (1) a separate major line of business, (2) a separate major geographic area of operations, (3) a major equity method investment, or (4) other major parts of an entity. The standard requires prospective application and will be effective for interim and annual periods beginning on or after December 15, 2014 with early adoption permitted. The early adoption provision excludes components of an entity that were sold or classified as held for sale prior to the adoption of the standard. The Company elected to early adopt this standard effective January 1, 2014, which had a significant impact on the Company's consolidated financial statements as further discussed in Note 4, Discontinued Operations and Assets Held for Sale. Subsequent to the Company's adoption of ASU 2014-08, the sale of real estate that does not meet the definition of a discontinued operation under the standard is included in Gain/(loss) on sale of real estate owned on the Consolidated Statements of Operations.

Revenue and Real Estate Sales Gain Recognition

Rental income related to leases is recognized on an accrual basis when due from residents and tenants in accordance with GAAP. Rental payments are generally due on a monthly basis and recognized when earned. The Operating Partnership recognizes interest income, management and other fees and incentives when earned, fixed and determinable.

For sale transactions meeting the requirements for full accrual profit recognition, we remove the related assets and liabilities from our Consolidated Balance Sheets and record the gain or loss in the period the transaction closes. For sale transactions that do not meet the full accrual sale criteria due to our continuing involvement, we evaluate the nature of the continuing involvement and account for the transaction under an alternate method of accounting. Unless certain limited criteria are met, non-monetary transactions, including property exchanges, are accounted for at fair value.

Sales to entities in which we or our General Partner retain or otherwise own an interest are accounted for as partial sales. If all other requirements for recognizing profit under the full accrual method have been satisfied and no other forms of continuing involvement are present, we recognize profit proportionate to the outside interest in the buyer and defer the gain on the interest we or our General Partner retain. The Operating Partnership recognizes any deferred gain when the property is sold to a third party. In transactions accounted for as partial sales, we determine if the buyer of the majority equity interest in the venture was provided a preference as to cash flows in either an operating or a capital waterfall. If a cash flow preference has been provided, we recognize profit only to the extent that proceeds from the sale of the majority equity interest exceed costs related to the entire property.

Comprehensive Income/(Loss)

Comprehensive income/(loss), which is defined as the change in equity during each period from transactions and other events and circumstances from nonowner sources, including all changes in equity during a period except for those resulting from investments by or distributions to stockholders, is displayed in the accompanying Consolidated Statements of Comprehensive Income/(Loss). For the three months ended March 31, 2014 and 2013, the Operating Partnership's other comprehensive income/(loss) consisted of the gain/(loss) (effective portion) on derivative instruments that are designated as and qualify as cash flow hedges and (gain)/loss reclassified from other comprehensive income/(loss) into earnings. The (gain)/loss reclassified from other comprehensive income/(loss) is included in Interest expense on the Consolidated Statements of Operations. See Note 8, Derivatives and Hedging Activity, for further discussion.

Income Taxes

The taxable income or loss of the Operating Partnership is reported on the tax returns of the partners. Accordingly, no provision has been made in the accompanying financial statements for federal or state income taxes on income that is passed through to the partners. However, any state or local revenue, excise or franchise taxes that result from the operating activities of the Operating Partnership are recorded at the entity level. The Operating Partnership's tax returns are subject to examination by federal and state taxing authorities. Net income for financial reporting purposes differs from the net income for income tax reporting purposes primarily due to temporary differences, principally real estate depreciation and the tax deferral of certain

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

gains on property sales. The differences in depreciation result from differences in the book and tax basis of certain real estate assets and the differences in the methods of depreciation and lives of the real estate assets.

The Operating Partnership evaluates the accounting and disclosure of tax positions taken or expected to be taken in the course of preparing the Operating Partnership's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management of the Operating Partnership is required to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which include federal and certain states. The Operating Partnership has no examinations in progress and none are expected at this time.

Management of the Operating Partnership has reviewed all open tax years (2010 through 2013) of tax jurisdictions and concluded there is no tax liability resulting from unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken in future tax returns.

3. REAL ESTATE OWNED

Real estate assets owned by the Operating Partnership consists of income producing operating properties, properties under development, land held for future development, and sold or held for disposition properties. At March 31, 2014, the Operating Partnership owned and consolidated 67 communities in nine states plus the District of Columbia totaling 20,482 apartment homes. The following table summarizes the carrying amounts for our real estate owned (at cost) as of March 31, 2014 and December 31, 2013 (dollars in thousands):

	March 31, 2014	December 31, 2013
Land	\$996,448	\$1,004,447
Depreciable property — held and used:		
Buildings, improvements, and furniture, fixture and equipment	3,079,424	3,103,970
Under development:		
Land	9,447	9,447
Construction in progress	80,391	70,616
Real estate owned	4,165,710	4,188,480
Accumulated depreciation	(1,268,617)	(1,241,574)
Real estate owned, net	\$2,897,093	\$2,946,906

The Operating Partnership did not have any acquisitions during the three months ended March 31, 2014 and 2013, respectively.

Predevelopment, development, and redevelopment projects and related costs are capitalized and reported on the Consolidated Balance Sheets as Total real estate owned, net of accumulated depreciation. The Operating Partnership capitalizes costs directly related to the predevelopment, development, and redevelopment of a capital project, which include, but are not limited to, interest, real estate taxes, insurance, and allocated development and redevelopment overhead related to support costs for personnel working on the capital projects. We use our professional judgment in determining whether such costs meet the criteria for capitalization or must be expensed as incurred. These costs are capitalized only during the period in which activities necessary to ready an asset for its intended use are in progress and such costs are incremental and identifiable to a specific activity to get the asset ready for its intended use. These costs, excluding the direct costs of development and redevelopment and capitalized interest, for the three months ended March 31, 2014 and 2013 were \$755,000 and \$673,000, respectively. During the three months ended March 31, 2014 and 2013, total interest capitalized was \$1.0 million and \$1.3 million, respectively. As each home in a capital project is completed and becomes available for lease-up, the Company ceases capitalization on the related portion and depreciation commences over the estimated useful life.

During the three months ended March 31, 2014, the Operating Partnership sold one operating property and an adjacent parcel of land in San Diego, CA for gross proceeds of \$48.7 million, resulting in net proceeds of \$47.9 million. The Operating

42

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

Partnership recognized a \$24.4 million gain, which is included in Gain/(loss) on sale of real estate owned on the Consolidated Statements of Operations. There was no real estate sold during the three months ended March 31, 2013.

In October 2012, Hurricane Sandy hit the East Coast, affecting two of the Operating Partnership's operating communities located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Operating Partnership had insurance policies that provided coverage for property damage and business interruption, subject to applicable retentions.

During the three months ended March 31, 2013, the Operating Partnership recorded \$2.0 million of insurance recovery related to the business interruption losses associated with Hurricane Sandy. This recovery was included in Casualty-related (recoveries)/charges, net on the Consolidated Statements of Operations for the three months ended March 31, 2013.

During the three months ended March 31, 2014, we recorded a \$500,000 casualty-related loss for one property damaged during an earthquake in California.

4. DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

Effective January 1, 2014, UDR prospectively adopted ASU No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, for all communities not previously sold or classified as held for sale. The standard had a material impact on the Company's consolidated financial statements. As a result of adopting the ASU, a \$23.3 million gain from disposition of real estate, excluding a \$1.1 million gain related to the sale of land, during the three months ended March 31, 2014 was included in Gain/(loss) on sale of real estate owned on the Consolidated Statements of Operations rather than in Income/(loss) from discontinued operations, net of tax on the Consolidated Statements of Operations.

Prior to the prospective adoption of ASU 2014-08, FASB ASC Subtopic 205.20, required, among other things, that the primary assets and liabilities and the results of operations of UDR's real properties that have been sold or are held for disposition, be classified as discontinued operations and segregated in UDR's Consolidated Statements of Operations and Consolidated Balance Sheets. Consequently, the primary assets and liabilities and the net operating results of those properties sold or classified as held for disposition prior to January 1, 2014 are accounted for as discontinued operations for all periods presented. This presentation does not have an impact on net income available to common stockholders, it only results in the reclassification of the operating results within the Consolidated Statements of Operations for the periods ended March 31, 2014 and 2013, and the reclassification of the assets and liabilities within the Consolidated Balance Sheets as of March 31, 2014 and December 31, 2013.

In 2013, the Company sold two communities with 914 apartments in the Sacramento market. The operating results related to these communities for the three months ended March 31, 2013 are included in Income/(loss) from discontinued operations, net of tax on the Consolidated Statements of Operations.

The following is a summary of income/(loss) from discontinued operations for the three months ended March 31, 2014 and 2013 (dollars in thousands):

	Three Months Ended March 31,	
	2014	2013
Rental income	\$—	\$2,290
Rental expenses	—	785
Property management	—	63
Real estate depreciation	—	537

Edgar Filing: UDR, Inc. - Form 10-Q

Income/(loss) from discontinued operations	\$—	\$905
Income/(loss) from discontinued operations attributable to UDR, Inc.	\$—	\$905

5. DEBT

Our secured debt instruments generally feature either monthly interest and principal or monthly interest-only payments with balloon payments due at maturity. For purposes of classification in the following table, variable rate debt with a derivative financial instrument designated as a cash flow hedge is deemed as fixed rate debt due to the Operating Partnership having effectively established the fixed interest rate for the underlying debt instrument. Secured debt consists of the following as of March 31, 2014 and December 31, 2013 (dollars in thousands):

	Principal Outstanding		As of March 31, 2014		Number of Communities Encumbered
	March 31, 2014	December 31, 2013	Weighted Average Interest Rate	Weighted Average Years to Maturity	
Fixed Rate Debt					
Mortgage notes payable	\$384,699	\$386,803	5.44	% 2.3	5
Fannie Mae credit facilities	378,878	379,003	4.71	% 5.2	10
Total fixed rate secured debt	763,577	765,806	5.08	% 3.8	15
Variable Rate Debt					
Tax-exempt secured note payable	27,000	27,000	0.82	% 18.0	1
Fannie Mae credit facilities	142,059	142,059	1.88	% 7.5	5
Total variable rate secured debt	169,059	169,059	1.71	% 9.2	6
Total Secured Debt	\$932,636	\$934,865	4.47	% 4.7	21

As of March 31, 2014, the General Partner had secured credit facilities with Fannie Mae with an aggregate commitment of \$836.8 million with \$836.8 million outstanding. The Fannie Mae credit facilities are for an initial term of seven to 10 years and bear interest at floating and fixed rates. At March 31, 2014, \$625.4 million of the outstanding balance was fixed at a weighted average interest rate of 4.99% and the remaining balance of \$211.4 million on these facilities had a weighted average variable interest rate of 1.59%.

The following information relates to the credit facilities allocated to the Operating Partnership (dollars in thousands):

	March 31, 2014	December 31, 2013	
Borrowings outstanding	\$520,937	\$521,062	
Weighted average borrowings during the period ended	521,159	522,007	
Maximum daily borrowings during the period	521,389	523,187	
Weighted average interest rate during the period ended	4.1	% 4.2	%
Interest rate at the end of the period	4.1	% 4.1	%

The Operating Partnership may from time to time acquire properties subject to fixed rate debt instruments. In those situations, management will record the secured debt at its estimated fair value and amortize any difference between the fair value and par to interest expense over the life of the underlying debt instrument. The unamortized fair value adjustment of the fixed rate debt instruments on the Operating Partnership's properties was a net premium of \$9.0 million and \$10.0 million at March 31, 2014 and December 31, 2013, respectively.

Fixed Rate Debt

Mortgage notes payable. Fixed rate mortgage notes payable are generally due in monthly installments of principal and interest and mature at various dates from December 2015 through May 2019 and carry interest rates ranging from 3.43% to 5.94%.

Secured credit facilities. At March 31, 2014, the General Partner had borrowings against its fixed rate facilities of \$625.4 million, of which \$378.9 million was allocated to the Operating Partnership based on the ownership of the

assets securing the

44

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

debt. As of March 31, 2014, the fixed rate Fannie Mae credit facilities allocated to the Operating Partnership had a weighted average fixed interest rate of 4.71%.

Variable Rate Debt

Tax-exempt secured note payable. The variable rate mortgage note payable that secures tax-exempt housing bond issues matures March 2032. Interest on this note is payable in monthly installments. The mortgage note payable has an interest rate of 0.82% as of March 31, 2014.

Secured credit facilities. At March 31, 2014, the General Partner had borrowings against its variable rate facilities of \$211.4 million of which \$142.1 million was allocated to the Operating Partnership based on the ownership of the assets securing the debt. As of March 31, 2014, the variable rate borrowings under the Fannie Mae credit facilities allocated to the Operating Partnership had a weighted average floating interest rate of 1.88%.

The aggregate maturities of the Operating Partnership's secured debt due during each of the next five calendar years subsequent to March 31, 2014 are as follows (dollars in thousands):

Year	Fixed		Variable		Total
	Mortgage Notes	Credit Facilities	Tax Exempt Notes Payable	Credit Facilities	
2014	\$5,441	\$258	\$—	\$—	\$5,699
2015	191,893	366	—	—	192,259
2016	133,798	385	—	—	134,183
2017	1,442	15,640	—	6,566	23,648
2018	1,577	161,754	—	46,272	209,603
Thereafter	50,548	200,475	27,000	89,221	367,244
Total	\$384,699	\$378,878	\$27,000	\$142,059	\$932,636

Guarantor on Unsecured Debt

The Operating Partnership is a guarantor on the General Partner's unsecured revolving credit facility with an aggregate borrowing capacity of \$900 million, \$250 million of term notes due June 2018, \$100 million of term notes due June 2018, \$300 million of medium-term notes due June 2018, \$300 million of medium-term notes due October 2020, and \$400 million of medium-term notes due January 2022. As of March 31, 2014, the outstanding balance under the unsecured revolving credit facility was \$287.5 million. As of December 31, 2013, there were no outstanding borrowings under the unsecured revolving credit facility.

6. RELATED PARTY TRANSACTIONS**Payable/(Receivable) Due To/(From) the General Partner**

The Operating Partnership participates in the General Partner's central cash management program, wherein all the Operating Partnership's cash receipts are remitted to the General Partner and all cash disbursements are funded by the General Partner. In addition, other miscellaneous costs such as administrative expenses are incurred by the General Partner on behalf of the Operating Partnership. As a result of these various transactions between the Operating Partnership and the General Partner, the Operating Partnership had net receivable balance of \$44.0 million and \$9.9 million at March 31, 2014 and December 31, 2013, respectively, which is reflected as a reduction of capital, respectively, on the Consolidated Balance Sheets.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

Allocation of General and Administrative Expenses

The General Partner provides various general and administrative and other overhead services for the Operating Partnership including legal assistance, acquisitions analysis, marketing and advertising, and allocates these expenses to the Operating Partnership first on the basis of direct usage when identifiable, with the remainder allocated based on its pro-rata portion of UDR's total apartment homes. During the three months ended March 31, 2014 and 2013, the general and administrative expenses allocated to the Operating Partnership by UDR were \$6.7 million and \$5.3 million, respectively, and are included in General and administrative on the Consolidated Statements of Operations. In the opinion of management, this method of allocation reflects the level of services received by the Operating Partnership from the General Partner.

During the three months ended March 31, 2014 and 2013, the Operating Partnership incurred \$3.1 million and \$3.0 million, respectively, of related party management fees related to a management agreement entered into in 2011 with wholly-owned subsidiaries of RE³. (See further discussion in paragraph below.) These related party management fees are initially recorded in General and administrative on the Consolidated Statements of Operations, and a portion related to management fees charged by the Taxable REIT Subsidiary ("TRS") of the General Partner is reclassified to Property management on the Consolidated Statements of Operations. (See further discussion below.)

Management Fee

In 2011, the Operating Partnership entered into a management agreement with wholly owned subsidiaries of RE³. Under the management agreement, the Operating Partnership is charged a management fee equal to 2.75% of gross rental revenues, which is classified in Property Management on the Consolidated Statements of Operations.

Notes Payable to General Partner

As of March 31, 2014 and December 31, 2013, the Operating Partnership had \$88.7 million of unsecured notes payable to the General Partner at annual interest rates between 5.18% and 5.337%. Certain limited partners of the Operating Partnership have provided guarantees related to these notes payable. The guarantees were provided by the limited partners in conjunction with their contribution of properties to the Operating Partnership. The notes mature on August 31, 2021 and December 31, 2023 and interest payments are made monthly. The Operating Partnership recognized \$1.2 million and \$267,000 of interest expense on the notes payable during the three months ended March 31, 2014 and 2013, respectively.

7. FAIR VALUE OF DERIVATIVES AND FINANCIAL INSTRUMENTS

Fair value is based on the price that would be received to sell an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level valuation hierarchy prioritizes observable and unobservable inputs used to measure fair value. The fair value hierarchy consists of three broad levels, which are described below:

Level 1 — Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 — Observable inputs other than prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated with observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

(a) See Note 8, Derivatives and Hedging Activity.

(b) See Note 5, Debt.

Financial Instruments Carried at Fair Value

The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The fair values of interest rate options are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

The General Partner, on behalf of the Operating Partnership, incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Operating Partnership has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the General Partner, on behalf of the Operating Partnership, has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2014 and December 31, 2013, the Operating Partnership has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Operating Partnership has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. In conjunction with the FASB's fair value measurement guidance, the Operating Partnership made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

Financial Instruments Not Carried at Fair Value

At March 31, 2014, the fair values of cash and cash equivalents, restricted cash, accounts receivable, prepaids, real estate taxes payable, accrued interest payable, security deposits and prepaid rent, distributions payable and accounts payable approximated their carrying values because of the short term nature of these instruments. The estimated fair values of other financial instruments were determined by the Operating Partnership using available market information and appropriate valuation methodologies. Considerable judgment is necessary to interpret market data and develop estimated fair values. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Operating Partnership would realize on the disposition of the financial instruments. The use of different market assumptions or estimation methodologies may have a material effect on the estimated fair value amounts. Fair value of our debt instruments is estimated by discounting the remaining cash flows of the debt instrument at a discount rate equal to the replacement market credit spread plus the corresponding treasury yields. Factors considered in determining a replacement market credit spread include general market conditions, borrower specific credit spreads, time remaining to maturity, loan-to-value ratios and collateral quality (Level 3).

The Operating Partnership records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by the future operation and disposition of those assets are less than the net book value of those assets. Cash flow estimates are based upon historical results adjusted to reflect management's best estimate of future market and operating conditions and our estimated holding periods. The net book value of impaired assets is reduced to fair value. The General Partner's estimates of fair value represent management's estimates based upon Level 3 inputs such as industry trends and reference to market rates and transactions.

8. DERIVATIVES AND HEDGING ACTIVITY

Risk Management Objective of Using Derivatives

The Operating Partnership is exposed to certain risks arising from both its business operations and economic conditions. The General Partner principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The General Partner manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and through the use of derivative financial instruments. Specifically, the General Partner enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The General Partner's and the

Operating Partnership's derivative financial instruments are used to manage differences in the amount, timing, and duration of the General Partner's known or expected cash payments principally related to the General Partner's borrowings.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

Cash Flow Hedges of Interest Rate Risk

The General Partner's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the General Partner primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the General Partner making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up front premium.

A portion of the General Partner's interest rate derivatives have been allocated to the Operating Partnership based on the General Partner's underlying debt instruments allocated to the Operating Partnership. (See Note 5, Debt.)

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in Accumulated other comprehensive income/(loss), net in the Consolidated Balance Sheets and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the three months ended March 31, 2014 and 2013, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the three months ended March 31, 2014 and 2013, the Operating Partnership recorded no ineffectiveness and less than \$1,000 loss from ineffectiveness in earnings attributable to an index mismatch between the derivative and the hedged item, respectively.

Amounts reported in Accumulated other comprehensive income/(loss), net related to derivatives will be reclassified to interest expense as interest payments are made on the General Partner's variable-rate debt that is allocated to the Operating Partnership. During the next twelve months through March 31, 2015, we estimate that an additional \$1.9 million will be reclassified as an increase to interest expense.

As of March 31, 2014, the Operating Partnership had the following outstanding interest rate derivatives designated as cash flow hedges of interest rate risk (dollars in thousands):

Interest Rate Derivative	Number of Instruments	Notional
Interest rate swaps	2	\$96,974
Interest rate caps	6	\$255,561

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements of GAAP.

Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings and resulted in losses of \$0 and \$2,000 for the three months ended March 31, 2014 and 2013, respectively.

As of March 31, 2014, we had the following outstanding derivatives that were not designated as hedges in qualifying hedging relationships (dollars in thousands):

Product	Number of Instruments	Notional
Interest rate caps	1	\$83,289

Credit-risk-related Contingent Features

The General Partner has agreements with some of its derivative counterparties that contain a provision where (1) if the General Partner defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the General Partner could also be declared in default on its derivative obligations; or (2) the General Partner could be declared in default on its derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to the General Partner's default on the indebtedness.

Certain of the General Partner's agreements with its derivative counterparties contain provisions where if there is a change in the General Partner's financial condition that materially changes the General Partner's creditworthiness in an adverse manner, the General Partner may be required to fully collateralize its obligations under the derivative instrument. At March 31, 2014 and December 31, 2013, no cash collateral was posted or required to be posted by the General Partner or by a counterparty.

The General Partner also has an agreement with a derivative counterparty that incorporates the loan and financial covenant provisions of the General Partner's indebtedness with a lender affiliate of the derivative counterparty. Failure to comply with these covenant provisions would result in the General Partner being in default on any derivative instrument obligations covered by the agreement.

The General Partner has certain agreements with some of its derivative counterparties that contain a provision where in the event of default by the General Partner or the counterparty, the right of setoff may be exercised. Any amount payable to one party by the other party may be reduced by its setoff against any amounts payable by the other party. Events that give rise to default by either party may include, but are not limited to, the failure to pay or deliver payment under the derivative contract, the failure to comply with or perform under the derivative agreement, bankruptcy, a merger without assumption of the derivative agreement, or in a merger, a surviving entity's creditworthiness is materially weaker than the original party to the derivative agreement.

As of March 31, 2014, the fair value of derivatives in a net liability position that were allocated to the Operating Partnership, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$2.5 million. As of March 31, 2014, the General Partner has not posted any collateral related to these agreements. If the General Partner had breached any of these provisions at March 31, 2014, it would have been required to settle its obligations under the agreements at their termination value of \$2.5 million.

MARCH 31, 2014

9. CAPITAL STRUCTURE

General Partnership Units

The General Partner has complete discretion to manage and control the operations and business of the Operating Partnership, which includes but is not limited to the acquisition and disposition of real property, construction of buildings and making capital improvements, and the borrowing of funds from outside lenders or UDR and its subsidiaries to finance such activities. The General Partner can generally authorize, issue, sell, redeem or purchase any OP Unit or securities of the Operating Partnership without the approval of the limited partners. The General Partner can also approve, with regard to the issuances of OP Units, the class or one or more series of classes, with designations, preferences, participating, optional or other special rights, powers and duties including rights, powers and duties senior to limited partnership interests without approval of any limited partners except holders of Class A Partnership Units. There were 110,883 General Partnership units outstanding at March 31, 2014 and December 31, 2013, all of which were held by UDR.

Limited Partnership Units

At March 31, 2014 and December 31, 2013, there were 183,167,815 limited partnership units outstanding, of which 1,873,332 were Class A Limited Partnership Units. UDR owned 173,848,891 or 94.9% at March 31, 2014 and December 31, 2013, of which 121,661 were Class A Limited Partnership Units. The remaining 9,318,924 or 5.1% OP Units outstanding, were held by non-affiliated partners at March 31, 2014 and December 31, 2013, of which 1,751,671 were Class A Limited Partnership Units.

Subject to the terms of the Operating Partnership Agreement, the limited partners have the right to require the Operating Partnership to redeem all or a portion of the OP Units held by the limited partner at a redemption price equal to and in the form of the Cash Amount (as defined in the Operating Partnership Agreement), provided that such OP Units have been outstanding for at least one year. UDR, as general partner of the Operating Partnership may, in its sole discretion, purchase the OP Units by paying to the limited partner either the Cash Amount or the REIT Share Amount (generally one share of common stock of UDR for each OP Unit), as defined in the Operating Partnership Agreement.

The non-affiliated limited partners' capital is adjusted to redemption value at the end of each reporting period with the corresponding offset against UDR's limited partner capital account based on the redemption rights noted above. The aggregate value upon redemption of the then-outstanding OP Units held by limited partners was \$240.7 million and \$217.6 million as of March 31, 2014 and December 31, 2013, respectively, based on the value of UDR's common stock at each period end. A limited partner has no right to receive any distributions from the Operating Partnership on or after the date of redemption of its OP Units.

Class A Limited Partnership Units

Class A Partnership Units have a cumulative, annual, non-compounded preferred return, which is equal to 8% based on a value of \$16.61 per Class A Partnership Unit.

Holders of the Class A Partnership Units exclusively possess certain voting rights. The Operating Partnership may not do the following without approval of the holders of the Class A Partnership Units: (i) increase the authorized or issued amount of Class A Partnership Units, (ii) reclassify any other partnership interest into Class A Partnership Units, (iii) create, authorize or issue any obligations or security convertible into or the right to purchase any Class Partnership units, (iv) enter into a merger or acquisition, or (v) amend or modify the Agreement of Limited Partnership of the Operating Partnership in a manner that adversely affects the relative rights, preferences or privileges of the Class A Partnership Units.

Allocation of Profits and Losses

Profit of the Operating Partnership is allocated in the following order: (i) to the General Partner and the Limited Partners in proportion to and up to the amount of cash distributions made during the year, and (ii) to the General

Partner and Limited Partners in accordance with their percentage interests. Losses and depreciation and amortization expenses, non-recourse liabilities are allocated to the General Partner and Limited Partners in accordance with their percentage interests. Losses allocated to the Limited Partners are capped to the extent that such an allocation would not cause a deficit in the Limited Partners' capital account. Such losses are, therefore, allocated to the General Partner. If any Partner's capital balance were to fall into a deficit, any income and gains are allocated to each Partner sufficient to eliminate its negative capital balance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

10. INCOME/(LOSS) PER OPERATING PARTNERSHIP UNIT

Basic income/(loss) per OP Unit is computed by dividing net income/(loss) attributable to general and limited partner unitholders by the weighted average number of general and limited partner units (including redeemable OP Units) outstanding during the period. Diluted income/(loss) per OP Unit reflects the potential dilution that could occur if securities or other contracts to issue OP Units were exercised or converted into OP Units or resulted in the issuance of OP Units and then shared in the income/(loss) of the Operating Partnership. For the three months ended March 31, 2014 and 2013, there were no dilutive instruments outstanding, and therefore, diluted income/(loss) per OP Unit and basic income/(loss) per OP Unit are the same. See note 9, Capital Structure, for further discussion on redemption rights of OP Units.

The following table sets forth the computation of basic and diluted income/(loss) per OP Unit for the periods presented (dollars in thousands, except per OP Unit data):

	Three Months Ended March 31,	
	2014	2013
Numerator for income/(loss) per OP Unit — basic and diluted:		
Income/(loss) from continuing operations	\$6,411	\$6,869
Gain/(loss) on sale of real estate owned	24,402	—
(Income)/loss from continuing operations attributable to noncontrolling interests	(280) (45
Income/(loss) from continuing operations attributable to OP unitholders	\$30,533	\$6,824
Income/(loss) from discontinued operations	\$—	\$905
(Income)/loss from discontinued operations attributable to noncontrolling interests	—	—
Income/(loss) from discontinued operations attributable to OP unitholders	\$—	\$905
Net income/(loss)	\$30,813	\$7,774
Net (income)/loss attributable to noncontrolling interests	(280) (45
Net income/(loss) attributable to OP unitholders	\$30,533	\$7,729
Denominator for income/(loss) per OP Unit — basic and diluted:		
Weighted average OP Units outstanding — basic and diluted	183,279	184,281
Income/(loss) per weighted average OP Unit — basic and diluted:		
Income/(loss) from continuing operations attributable to OP unitholders	\$0.17	\$0.04
Income/(loss) from discontinued operations attributable to OP unitholders	\$—	\$0.00
Net income/(loss) attributable to OP unitholders	\$0.17	\$0.04

MARCH 31, 2014

11. COMMITMENTS AND CONTINGENCIES

Commitments

Real Estate Under Development

The following summarizes the Operating Partnership's real estate commitments at March 31, 2014 (dollars in thousands):

	Number of Properties	Costs Incurred to Date (a)	Expected Costs to Complete (unaudited)
Real estate communities — under development	1	\$89,838	\$42,162
Real estate communities — redevelopment	1	76,083	3,900
		\$165,921	\$46,062

(a) Includes \$9.0 million and \$1.0 million of accrued fixed assets for development and redevelopment, respectively.

Contingencies

Litigation and Legal Matters

The Operating Partnership is subject to various legal proceedings and claims arising in the ordinary course of business. The Operating Partnership cannot determine the ultimate liability with respect to such legal proceedings and claims at this time. The General Partner believes that such liability, to the extent not provided for through insurance or otherwise, will not have a material adverse effect on the Operating Partnership's financial condition, results of operations or cash flow.

12. REPORTABLE SEGMENTS

GAAP guidance requires that segment disclosures present the measure(s) used by the chief operating decision maker to decide how to allocate resources and for purposes of assessing such segments' performance. The Operating Partnership has the same chief operating decision maker as that of its parent, the General Partner. The chief operating decision maker consists of several members of UDR's executive management team who use several generally accepted industry financial measures to assess the performance of the business for our reportable operating segments.

The Operating Partnership owns and operates multifamily apartment communities throughout the United States that generate rental and other property related income through the leasing of apartment homes to a diverse base of tenants. The primary financial measures of the Operating Partnership's apartment communities are rental income and net operating income ("NOI"), and are included in the chief operating decision maker's assessment of the Operating Partnership's performance on a consolidated basis. Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. NOI is defined as total revenues less direct property operating expenses. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover the regional supervision and accounting costs related to consolidated property operations, and land rent. The chief operating decision maker of the General Partner utilizes NOI as the key measure of segment profit or loss.

The Operating Partnership's two reportable segments are Same-Store Communities and Non-Mature Communities/Other:

- Same-Store Communities represent those communities acquired, developed, and stabilized prior to January 1, 2013 and held as of March 31, 2014. A comparison of operating results from the prior year is meaningful as these communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior period, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within the current year. A community is considered to have stabilized occupancy once it

achieves 90% occupancy for at least three consecutive months.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2014

Non-Mature Communities/Other represent those communities that do not meet the criteria to be included in Same-Store Communities, including, but not limited to, recently acquired, developed, redeveloped, and the non-apartment components of mixed use properties.

Management of the General Partner evaluates the performance of each of the Operating Partnership's apartment communities on a Same-Store Community and Non-Mature Community/Other basis, as well as individually and geographically. This is consistent with the aggregation criteria of Topic 280 as each of the apartment communities generally has similar economic characteristics, facilities, services, and tenants. Therefore, the Operating Partnership's reportable segments have been aggregated by geography in a manner identical to that which is provided to the chief operating decision maker.

All revenues are from external customers and no single tenant or related group of tenants contributed 10% or more of the Operating Partnership's total revenues during the three months ended March 31, 2014 and 2013.

The following table details rental income and NOI from continuing and discontinued operations for the Operating Partnership's reportable segments for the three months ended March 31, 2014 and 2013, and reconciles NOI to Net Income/(Loss) Attributable to OP Unitholders in the Consolidated Statements of Operations (dollars in thousands):

Item 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements include, without limitation, statements concerning property acquisitions and dispositions, development activity and capital expenditures, capital raising activities, rent growth, occupancy, and rental expense growth. Words such as “expects,” “anticipates,” “intends,” “plans,” “likely,” “will,” “believes,” “seeks,” “estimates,” and variations of such words and similar expressions are intended to identify such forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from the results of operations or plans expressed or implied by such forward-looking statements. Such factors include, among other things, unfavorable changes in the apartment market, changing economic conditions, the impact of inflation/deflation on rental rates and property operating expenses, expectations concerning availability of capital and the stabilization of the capital markets, the impact of competition and competitive pricing, acquisitions, developments and redevelopments not achieving anticipated results, delays in completing developments, redevelopments and lease-ups on schedule, expectations on job growth, home affordability an demand/supply ratio for multifamily housing, expectations concerning development and redevelopment activities, expectations on occupancy levels, expectations concerning the joint ventures with third parties, expectations that automation will help grow net operating income, and expectations on annualized net operating income.

The following factors, among others, could cause our future results to differ materially from those expressed in the forward-looking statements:

- general economic conditions;
- unfavorable changes in apartment market and economic conditions that could adversely affect occupancy levels and rental rates;
- the failure of acquisitions to achieve anticipated results;
- possible difficulty in selling apartment communities;
- competitive factors that may limit our ability to lease apartment homes or increase or maintain rents;
- insufficient cash flow that could affect our debt financing and create refinancing risk;
- failure to generate sufficient revenue, which could impair our debt service payments and distributions to stockholders;
- development and construction risks that may impact our profitability;
- potential damage from natural disasters, including hurricanes and other weather-related events, which could result in substantial costs to us;
- risks from extraordinary losses for which we may not have insurance or adequate reserves;
- uninsured losses due to insurance deductibles, self-insurance retention, uninsured claims or casualties, or losses in excess of applicable coverage;

- delays in completing developments and lease-ups on schedule;
- our failure to succeed in new markets;
- changing interest rates, which could increase interest costs and affect the market price of our securities;
- potential liability for environmental contamination, which could result in substantial costs to us;
- the imposition of federal taxes if we fail to qualify as a REIT under the Code in any taxable year;

Table of Contents

- our internal control over financial reporting may not be considered effective which could result in a loss of investor confidence in our financial reports, and in turn have an adverse effect on our stock price; and

• changes in real estate laws, tax laws and other laws affecting our business.

A discussion of these and other factors affecting our business and prospects is set forth in Part II, Item 1A. Risk Factors. We encourage investors to review these risk factors.

Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore such statements included in this Report may not prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved.

Forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this Report, and we expressly disclaim any obligation or undertaking to update or revise any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based, except to the extent otherwise required by law.

UDR, Inc.:

Business Overview

UDR, Inc. is a self-administered real estate investment trust, or REIT, that owns, acquires, renovates, develops, and manages apartment communities. We were formed in 1972 as a Virginia corporation. In September 2003, we changed our state of incorporation from Virginia to Maryland. Our subsidiaries include an operating partnership, United Dominion Realty, L.P., a Delaware limited partnership. Unless the context otherwise requires, all references in this Report to “we,” “us,” “our,” “the Company,” or “UDR” refer collectively to UDR, Inc., its subsidiaries and its consolidated joint ventures.

At March 31, 2014, our consolidated real estate portfolio included 143 communities in 10 states plus the District of Columbia totaling 41,455 apartment homes. In addition, we had an ownership interest in 35 communities with 9,791 apartment homes through unconsolidated operating communities. The same-store community apartment home population for the three months ended March 31, 2014 was 36,817.

Table of Contents

The following table summarizes our market information by major geographic markets as of March 31, 2014.

Same-Store Communities	As of March 31, 2014				For the Three Months Ended March 31, 2014

Total Accumulated Depreciation				(2,279,928)		
Total Real Estate Owned, Net of Accumulated Depreciation				\$6,035,192		

(a) Monthly Income per Occupied Home represents total monthly revenues divided by the product of occupancy and the number of mature apartment homes.

(b) The Company is currently developing three wholly-owned communities with 874 apartment homes, of which none have been completed.

We report in two segments: Same-Store Communities and Non-Mature Communities/Other.

Our Same-Store Communities segment represents those communities acquired, developed, and stabilized prior to January 1, 2013 and held as of March 31, 2014. These communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior period, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months.

Table of Contents

Our Non-Mature Communities/Other segment represent those communities that do not meet the criteria to be included in Same-Store Communities, including, but not limited to, recently acquired, developed, redeveloped, and the non-apartment components of mixed use properties.

Liquidity and Capital Resources

Liquidity is the ability to meet present and future financial obligations either through operating cash flows, sales of properties, borrowings under our credit agreements, and/or the issuance of debt and/or equity securities. Our primary source of liquidity is our cash flow from operations related to our portfolio of apartment homes and borrowings under our credit agreements. We routinely use our unsecured credit facility to temporarily fund certain investing and financing activities prior to arranging for longer-term financing or the issuance of equity or debt securities. During the past several years, proceeds from the sale of real estate have been used for both investing and financing activities as we repositioned our portfolio.

We expect to meet our short-term liquidity requirements generally through net cash provided by property operations and borrowings under our credit agreements. We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, the repayment of financing on development activities, and potential property acquisitions, through secured and unsecured borrowings, the issuance of debt or equity securities, and/or the disposition of properties. We believe that our net cash provided by property operations and borrowings under our credit agreements will continue to be adequate to meet both operating requirements and the payment of dividends by the Company in accordance with REIT requirements. Likewise, the budgeted expenditures for improvements and renovations of certain properties are expected to be funded from property operations, borrowings under credit agreements, the issuance of debt or equity securities, and dispositions of properties.

Future Capital Needs

Future development and redevelopment expenditures may be funded through borrowings under unsecured or secured credit facilities, proceeds from the issuance of equity or debt securities, sales of properties, and, to a lesser extent, from cash flow provided by property operations. Acquisition activity in strategic markets may be funded through joint ventures, by the reinvestment of proceeds from the sale of properties, through the issuance of equity or debt securities, the issuance of operating partnership units and the assumption or placement of secured and/or unsecured debt.

We have a shelf registration statement filed with the Securities and Exchange Commission, or “SEC” which provides for the issuance of an indeterminate amount of common stock, preferred stock, guarantees of debt securities, warrants, subscription rights, purchase contracts and units to facilitate future financing activities in the public capital markets.

Access to capital markets is dependent on market conditions at the time of issuance.

As of March 31, 2014, we had approximately \$43.1 million of secured debt maturing, inclusive of principal amortization, and \$127.8 million, net of discount, of unsecured debt maturing during the remainder of 2014. We paid off \$128.5 million of 5.5% medium-term notes due April 2014 with borrowings under the Company’s \$900 million unsecured revolving credit facility.

We anticipate repaying that debt with cash flow from our operations, proceeds from debt or equity offerings, proceeds from dispositions of properties, or from borrowings under our credit agreements.

Critical Accounting Policies and Estimates and New Accounting Pronouncements

Our critical accounting policies are those having the most impact on the reporting of our financial condition and results and those requiring significant judgments and estimates. These policies include those related to (1) capital expenditures, (2) impairment of long-lived assets, (3) real estate investment properties, and (4) revenue recognition.

Our critical accounting policies are described in more detail in the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in UDR’s Annual Report on Form 10-K, filed with the SEC on February 25, 2014. There have been no significant changes in our critical accounting policies from those reported in our Form 10-K filed with the SEC on February 25, 2014. With respect to these critical accounting policies, we believe that the application of judgments and assessments is consistently applied and produces financial information that fairly depicts the results of operations for all periods presented.

Effective January 1, 2014, UDR prospectively adopted Accounting Standards Update (“ASU”) No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, for all communities not previously sold or classified as held for sale. ASU 2014-08 incorporates into the definition of a discontinued operation a

requirement that a disposition represent a strategic shift in an entity's operations, which resulted in UDR no longer classifying the sale of

61

communities as a discontinued operation. See Note 2, Significant Accounting Policies, to the UDR Consolidated Financial Statements for more information on the new accounting pronouncement.

Statements of Cash Flows

The following discussion explains the changes in net cash provided by operating activities, net cash provided by/(used in) investing activities, and net cash provided by/(used in) financing activities that are presented in our Consolidated Statements of Cash Flows for the three months ended March 31, 2014 and 2013.

Operating Activities

For the three months ended March 31, 2014, our net cash flow provided by operating activities was \$82.5 million compared to \$66.7 million for the comparable period in 2013. The increase in cash flow from operating activities is primarily due to improved income from continuing operations.

Investing Activities

For the three months ended March 31, 2014, net cash provided by/(used in) investing activities was \$(136.7) million compared to \$(101.0) million for the comparable period in 2013. The change in investing activities was due to changes in the level of investment activities, which reflect our strategy as it relates to our investments in unconsolidated joint ventures and partnerships, dispositions, capital expenditures, and development activities, all of which are discussed in further detail throughout this Report.

Acquisitions

In January 2014, the Company acquired a fully-entitled land parcel for future development located in Huntington Beach, California for approximately \$78.0 million.

Disposition of Investments

During the three month ended March 31, 2014, UDR sold one operating property and an adjacent land parcel in San Diego, CA for gross proceeds of \$48.7 million, resulting in net proceeds of \$47.9 million. UDR recognized gains on the sale of \$24.4 million, which is included in Income/(loss) on sale of real estate owned, net of tax on the UDR Consolidated Statements of Operations. Proceeds were used primarily to fund development and redevelopment activities and to reduce debt.

Capital Expenditures

In conformity with GAAP, we capitalize those expenditures that materially enhance the value of an existing asset or substantially extend the useful life of an existing asset. Expenditures necessary to maintain an existing property in ordinary operating condition are expensed as incurred.

Total capital expenditures, which in aggregate include recurring capital expenditures and major renovations, of \$20.1 million or \$499 per stabilized home were spent on all of our communities, excluding development and commercial properties, for the three months ended March 31, 2014 as compared to \$30.0 million or \$723 per stabilized home for the comparable period in prior year.

The decrease in total capital expenditures was primarily due to:

a decrease in major renovations of 48.9% or \$11.2 million. Major renovations of \$11.7 million or \$290 per home were spent for the three months ended March 31, 2014 as compared to \$22.9 million or \$551 per home for the comparable period in the prior year. Major renovations for the three months ended March 31, 2014 were primarily attributable to the redevelopment of two wholly-owned communities (1,423 of 1,670 apartment homes being redeveloped, 1,146 of which have been completed) with a budget of \$178.0 million, of which we have \$145.6 million of costs incurred at March 31, 2014.

This decrease was partially offset by:

an increase of 373.9% or \$1.4 million in revenue-enhancing capital expenditures, such as kitchen and bath remodels.

The following table outlines capital expenditures and repair and maintenance costs for all of our communities, excluding real estate under development and commercial properties, for the three months ended March 31, 2014 and 2013:

	Three Months Ended March 31, (dollars in thousands)			Per Home Three Months Ended March 31,			
	2014	2013	% Change	2014	2013	% Change	
Turnover capital expenditures	\$2,593	\$2,334	11.1	% \$64	\$56	14.3	%
Asset preservation expenditures	4,008	4,428	(9.5))% 100	107	(6.5))%
Total recurring capital expenditures	6,601	6,762	(2.4))% 164	163	0.6	%
Revenue enhancing improvements	1,815	383	373.9	% 45	9	400.0	%
Major renovations	11,694	22,874	(48.9))% 290	551	(47.4))%
Total capital expenditures	\$20,110	\$30,019	(33.0))% \$499	\$723	(31.0))%
Repair and maintenance expense	\$7,523	\$7,742	(2.8))% \$187	\$186	0.5	%
Average stabilized home count (a)	40,300	41,626					

(a) Average number of homes is calculated based on the number of stabilized homes outstanding at the end of each month.

We intend to continue to selectively add revenue enhancing improvements which we believe will provide a return on investment in excess of our cost of capital. Our objective in redeveloping a community is twofold: we aim to meaningfully grow rental rates while also achieving cap rate compression through asset quality improvement. Recurring capital expenditures during 2014 are projected to be approximately \$1,100 per home.

Real Estate Under Development and Redevelopment

As of March 31, 2014, our development pipeline for three wholly-owned communities totaled 874 homes, of which none have been completed, with a budget of \$400.4 million, in which we have a carrying value of \$222.6 million. The estimated completion date for these communities will be through the second quarter of 2015.

As of March 31, 2014, the Company is redeveloping 1,423 apartment homes, 1,146 of which have been completed, at two wholly-owned communities with 1,670 total apartment homes.

Consolidated Joint Ventures

In December 2013, the Company consolidated its 95%/5% development joint ventures 13th and Market JV in San Diego, CA and Domain College Park JV in Metropolitan, D.C. The consolidation was due to the Company becoming the managing member of each of the joint ventures pursuant to amendments to the limited liability company agreement for each joint venture. In connection with the amendments, our partner received equity distributions reducing its capital account balances to zero, the Company replaced our partner as the managing member, and our partner no longer has the ability to substantively participate in the decision-making process, with only protective rights remaining. We accounted for the consolidations as asset acquisitions since the joint ventures were under development and not complete at the time of consolidation resulting in no gain or loss upon consolidation and increasing our real estate owned by \$129.4 million and our debt owed by \$63.6 million. In addition pursuant to the amendments, the Company paid a non-refundable deposit to our partner in January 2014 of \$2.0 million for each joint venture, or \$4.0 million in total, for the right to exercise options in 2014 to acquire our partner's upside participation in the joint

ventures. The non-refundable deposits will be applied towards the future purchase price, which will be equivalent to our partner's right to receive certain upside participation from the developments.

Unconsolidated Joint Ventures and Partnerships

The Company recognizes earnings or losses from our investments in unconsolidated joint ventures and partnerships consisting of our proportionate share of the net income or losses of the joint ventures and partnerships. In addition, we may earn fees for providing management services to the unconsolidated joint ventures and partnerships.

The following table summarizes the Company's investment in and advances to unconsolidated joint ventures and partnerships, net which are accounted for under the equity method of accounting as of March 31, 2014 and December 31, 2013 (dollars in thousands):

Joint Venture	Location of Properties	Number of Properties 2014	Number of Apartment Homes 2014	Investment at		UDR's Ownership Interest

(*) The number of apartment homes for the communities under development presented in the table above is based on the projected number of total homes. As of March 31, 2014, no apartment homes have been completed at

UDR/MetLife 399 Fremont.

(a) On March 31, 2014, the Company sold its minority ownership interests in two small operating communities located in Los Angeles, CA to MetLife for cash proceeds of approximately \$3 million. An immaterial gain upon the sale of the two operating communities was recognized in connection with the transaction. On April 21, 2014, the Company increased its ownership interest in the remaining six operating communities in the UDR/MetLife I Joint Venture from 12 percent to 50 percent

64

and MetLife and the Company contributed the communities to the UDR/MetLife II Joint Venture. The Company paid MetLife approximately \$82 million for the additional ownership interests. The remaining assets in the UDR/MetLife I Joint Venture are comprised of seven potential development land sites in which the Company owns approximately four percent. The Company will continue to manage the operating communities that were contributed to the UDR/MetLife II Joint Venture as well as the two operating communities in which it sold its minority ownership interests.

The Company may, in the future, make additional capital contributions to certain of our joint ventures and partnerships should additional capital contributions be necessary to fund acquisitions or operations.

We evaluate our investments in unconsolidated joint ventures and partnerships when events or changes in circumstances indicate that there may be an other-than-temporary decline in value. We consider various factors to determine if a decrease in the value of the investment is other-than-temporary. The Company did not recognize any other-than-temporary decreases in the value of its investments in unconsolidated joint ventures and partnerships during the three months ended March 31, 2014 and 2013.

Financing Activities

For the three months ended March 31, 2014, our net cash provided by/(used in) financing activities was \$39.8 million compared to \$29.4 million for the comparable period of 2013.

The following significant financing activities occurred during the three months ended March 31, 2014:

• net borrowings of \$287.5 million under the Company's \$900 million unsecured revolving credit facility; and
• repaid \$184.0 million of 5.13% unsecured medium-term notes due January 2014.

Credit Facilities

As of March 31, 2014, the Company has secured credit facilities with Fannie Mae with an aggregate commitment of \$836.8 million with \$836.8 million outstanding. The Fannie Mae credit facilities are for terms of seven to ten years and bear interest at floating and fixed rates. The Company has \$625.4 million of the funded balance fixed at a weighted average interest rate of 4.99%, and the remaining balance of \$211.4 million on these facilities is currently at a weighted average variable rate of 1.59% at March 31, 2014.

As of March 31, 2014, the Company has a \$900 million unsecured revolving credit facility that matures in December 2017. The credit facility has a six month extension option and contains an accordion feature that allows us to increase the facility to \$1.45 billion. Based on the Company's current credit rating, the credit facility carries an interest rate equal to LIBOR plus a spread of 110 basis points and a facility fee of 20 basis points. As of March 31, 2014, we had \$287.5 million outstanding borrowings under the credit facility, leaving \$612.5 million of unused capacity (excluding \$2.2 million of letters of credit at March 31, 2014).

The Fannie Mae credit facilities and the bank unsecured revolving credit facility are subject to customary financial covenants and limitations.

Derivative Instruments

As part of UDR's overall interest rate risk management strategy, we use derivatives as a means to fix the interest rates of variable rate debt obligations or to hedge anticipated financing transactions. UDR's derivative transactions used for interest rate risk management include interest rate swaps with indexes that relate to the pricing of specific debt instruments of UDR. We believe that we have appropriately controlled our interest rate risk through the use of derivative instruments to minimize any unintended effect on consolidated earnings. Derivative contracts did not have a material impact on the results of operations during the three months ended March 31, 2014 (see Note 10, Derivatives and Hedging Activity, in the Notes to the UDR Consolidated Financial Statements included in this Report).

Interest Rate Risk

We are exposed to interest rate risk associated with variable rate notes payable and maturing debt that has to be refinanced. We do not hold financial instruments for trading or other speculative purposes, but rather issue these financial instruments to finance our portfolio of real estate assets. Interest rate sensitivity is the relationship between changes in market interest rates and the fair value of market rate sensitive assets and liabilities. Our earnings are affected as changes in short-term interest rates impact our cost of variable rate debt and maturing fixed rate debt. We had \$696.8 million in variable rate debt that is not subject to interest rate swap contracts as of March 31, 2014. If

market interest rates for variable rate debt increased by 100 basis points,

65

our interest expense for the three months ended March 31, 2014 would increase by \$1.8 million based on the average balance outstanding during the period.

These amounts are determined by considering the impact of hypothetical interest rates on our borrowing cost. This analysis does not consider the effects of the adjusted level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management would likely take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no change in our financial structure.

The Company also utilizes derivative financial instruments to manage interest rate risk and generally designates these financial instruments as cash flow hedges. See Note 10, Derivatives and Hedging Activities, in the Notes to the UDR Consolidated Financial Statements included in this Report for additional discussion of derivative instruments.

Funds from Operations, Funds from Operations as Adjusted, and Adjusted Funds from Operations

Funds from Operations

Funds from operations (“FFO”) is defined as net income (computed in accordance with GAAP, excluding impairment write-downs of depreciable real estate or of investments in non-consolidated investees that are driven by measurable decreases in the fair value of depreciable real estate held by the investee, gains (or losses) from sales of depreciable property, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. This definition conforms with the National Association of Real Estate Investment Trust’s (“NAREIT”) definition issued in April 2002. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Thus, NAREIT created FFO as a supplemental measure of a REIT’s operating performance. In the computation of diluted FFO, OP Units, unvested restricted stock, stock options, and the shares of Series E Cumulative Convertible Preferred Stock are dilutive; therefore, they are included in the diluted share count.

Activities of taxable REIT subsidiary (“TRS”), include development and land entitlement. From time to time, we develop and subsequently sell a TRS property which results in a short-term use of funds that produces a profit that differs from the traditional long-term investment in real estate for REITs. We believe that the inclusion of these TRS gains in FFO is consistent with the standards established by NAREIT as the short-term investment is incidental to our main business. TRS gains on sales, net of taxes, are defined as net sales proceeds less a tax provision and the gross investment basis of the asset before accumulated depreciation.

We consider FFO a useful metric for investors as we use FFO in evaluating property acquisitions and our operating performance, and believe that FFO should be considered along with, but not as an alternative to, net income and cash flow as a measure of our activities in accordance with GAAP. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of funds available to fund our cash needs.

Funds from Operations as Adjusted

FFO as Adjusted is defined as FFO excluding the impact of acquisition-related costs and other non-comparable items including, but not limited to, prepayment costs/benefits associated with early debt retirement, gains on sales of marketable securities and TRS property, deferred tax valuation allowance increases and decreases, storm-related expenses and recoveries, severance costs and legal costs. Management believes that FFO as Adjusted is useful supplemental information regarding our operating performance as it provides a consistent comparison of our operating performance across time periods and allows investors to more easily compare our operating results with other REITs.

FFO as Adjusted is not intended to represent cash flow or liquidity for the period, and is only intended to provide an additional measure of our operating performance. We believe that net income attributable to UDR, Inc. is the most

directly comparable GAAP financial measure to FFO as Adjusted. However, other REITs may use different methodologies for calculating FFO as Adjusted or similar FFO measures and, accordingly, our FFO as Adjusted may not always be comparable to FFO as Adjusted or similar FFO measures calculated by other REITs. FFO as Adjusted should not be considered as an alternative to net income (determined in accordance with GAAP) as an indication of financial performance, or as an alternative to cash flows from operating activities (determined in accordance with GAAP) as a measure of our liquidity.

Adjusted Funds from Operations

Adjusted FFO, or “AFFO”, is a non-GAAP financial measure that management uses as a supplemental measure of our performance. AFFO is defined as FFO as Adjusted less recurring capital expenditures that are necessary to help preserve the value of and maintain functionality at our communities. Therefore, management considers AFFO a useful supplemental performance metric for investors as it is more indicative of the Company’s operational performance than FFO or FFO as Adjusted.

AFFO is not intended to represent cash flow or liquidity for the period, and is only intended to provide an additional measure of our operating performance. We believe that net income attributable to UDR, Inc. is the most directly comparable GAAP financial measure to AFFO. Management believes that AFFO is a widely recognized measure of the operations of REITs, and presenting AFFO will enable investors to assess our performance in comparison to other REITs. However, other REITs may use different methodologies for calculating AFFO and, accordingly, our AFFO may not always be comparable to AFFO calculated by other REITs. AFFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indication of financial performance, or as an alternative to cash flows from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make distributions.

The following table outlines our reconciliation of Net Income/(Loss) Attributable to UDR, Inc. to FFO, FFO as Adjusted, and AFFO for the three months ended March 31, 2014 and 2013 (dollars in thousands):

	Three Months Ended March 31,	
	2014	2013

A presentation of cash flow metrics based on GAAP is as follows (dollars in thousands):

	Three Months Ended March 31,	
	2014	2013
Net cash provided by operating activities	\$82,521	\$66,660
Net cash provided by/(used in) investing activities	\$(136,709) \$(101,017
Net cash provided by/(used in) financing activities	\$39,830	\$29,363
Results of Operations		

The following discussion explains the changes in results of operations that are presented in our Consolidated Statements of Operations for the three months ended March 31, 2014 and 2013, and includes the results of both continuing and discontinued operations for the periods presented.

Net Income/(Loss) Attributable to Common Stockholders

Net income attributable to common stockholders was \$17.4 million (\$0.07 per diluted share) for the three months ended March 31, 2014 as compared to a net loss attributable to common stockholders of \$1.2 million (\$0.00 per diluted share) for the comparable period in the prior year. The increase in net income/(loss) attributable to common stockholders for the three months ended March 31, 2014 resulted primarily from the following items, all of which are discussed in further detail elsewhere within this Report:

- a gain of \$24.4 million on the sale of one property and an adjacent land parcel in San Diego, CA in 2014; and

- an increase in total property NOI primarily due to higher occupancy and higher revenue per occupied home, and NOI from the homes placed in service related to development and redevelopment projects completed in 2013 and 2014, partially offset by the disposition of two communities in 2013.

This was partially offset by:

- an increase in depreciation and amortization expense primarily from the homes placed in service related to development and redevelopment projects completed 2013 and 2014, partially offset by a decrease from properties contributed to one of our unconsolidated joint ventures and fully depreciated assets; and

Table of Contents

hurricane-related recoveries in 2013 resulting from the effects of Hurricane Sandy on three of our New York, New York communities in 2012 (see Note 3, Real Estate Owned, in the Notes to the UDR Consolidated Financial Statements for more details).

Apartment Community Operations

Our net income results are primarily from NOI generated from the operation of our apartment communities.

The following table summarizes the operating performance of our total property NOI (which includes discontinued operations) for each of the periods presented (dollars in thousands):

	Three Months Ended March 31,			
	(a) 2014	2013	% Change	
Same-Store Communities:				
Same-store rental income	\$ 161,468	\$ 154,513	4.5	%
Same-store operating expense (b)	(49,268) (48,226) 2.2	%

Three Months Ended March 31, 2014 vs. Three Months Ended March 31, 2013

Same-Store Communities

Our Same-Store Community properties (those acquired, developed, and stabilized prior to January 1, 2013 and held as of March 31, 2014) consisted of 36,817 apartment homes and provided 85% of our total NOI for the three months ended March 31, 2014.

NOI for our Same-Store Community properties increased 5.6% or \$5.9 million for the three months ended March 31, 2014 compared to the same period in 2013. The increase in property NOI was attributable to a 4.5% or \$7.0 million increase in property rental income, which was partially offset by a 2.2% or \$1.0 million increase in operating expenses. The increase in property income was primarily driven by a 3.3% or \$5.0 million increase in rental rates, a 6.9% or \$860,000 increase in reimbursement and fee income and an 11.8% or \$760,000 decrease in vacancy loss and bad debt. Physical occupancy increased 0.4% to 96.2% and total monthly income per occupied home increased 4.0% to \$1,520.

The increase in operating expenses was primarily driven by a 7.2% or \$557,000 increase in utility costs and a 2.9% or \$487,000 increase in real estate taxes.

As a result of the percentage changes in property rental income and property operating expenses, the operating margin (property net operating income divided by property rental income) increased to 69.5% for the three months ended March 31, 2014 as compared to 68.8% for the comparable period in 2013.

Table of Contents

Non-Mature Communities/Other

The remaining 15% or \$19.9 million of our total NOI during the three months ended March 31, 2014 was generated from our Non-Mature Communities/Other. UDR's Non-Mature Communities/Other represent those communities that do not meet the criteria to be included in Same-Store Communities, including, but not limited to, recently acquired, developed, redeveloped, and the non-apartment components of mixed use properties. NOI from Non-Mature Communities/Other increased by 4.7% or \$0.9 million for the three months ended March 31, 2014 as compared to the same period in 2013. The increase was primarily driven by an increase in NOI of \$4.0 million and \$2.0 million from development and redevelopment communities completed in 2013 and 2014, respectively, and an increase of \$453,000 from communities acquired in 2013, which was partially offset by a decrease in NOI of \$3.8 million from communities sold or held for disposition in 2013 and 2014 and a decrease of \$1.8 million from commercial and other communities.

Real Estate Depreciation and Amortization

For the three months ended March 31, 2014, real estate depreciation and amortization on both continuing and discontinued operations increased 6.1% or \$5.1 million as compared to the comparable period in 2013. The increase in depreciation and amortization for the three months ended March 31, 2014 was primarily due to homes delivered from our development and redevelopment communities, offset by the contribution of operating communities to an unconsolidated joint venture in 2013.

General and Administrative

For the three months ended March 31, 2014, general and administrative expense increased 26.6% or \$2.5 million as compared to the comparable periods in 2013. The increase in general and administrative expense for the three months ended March 31, 2014 was primarily due to an increase in stock based compensation expense for the long-term incentive plan and salary increases.

Casualty-Related (Recoveries)/Charges, Net

In October 2012, Hurricane Sandy hit the East Coast, affecting three of the Company's operating communities located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Company had insurance policies that provided coverage for property damage and business interruption, subject to applicable retentions.

During the three months ended March 31, 2013, the Company recorded \$3.0 million of insurance recovery related to the business interruption losses associated with Hurricane Sandy. This recovery was included in Casualty-related (recoveries)/charges, net on the UDR Consolidated Statements of Operations.

During the three months ended March 31, 2014, we recorded a \$500,000 casualty-related loss for one property damaged during an earthquake in California.

Interest Expense

For the three months ended March 31, 2014, interest expense increased by 6.1% or \$1.9 million as compared to the comparable period in 2013. The increase in interest expense for the three months ended March 31, 2014 was primarily due to less interest capitalized in 2014 as a result of completed developments, partially offset by a decrease in interest expense due to replacement of debt at lower rates.

Gain/(Loss) on Sale of Real Estate Owned, Net of Tax

During the three months ended March 31, 2014, we recognized \$24.4 million of gains on the sales of one operating property and an adjacent parcel of land in San Diego, CA. Due to the Company's adoption ASU 2014-08, Reporting

Discontinued Operations and Disclosures of Disposals of Components of an Entity, effective January 1, 2014, this gain was included in Gain/(loss) on sale of real estate owned, net of tax on the UDR Consolidated Statements of Operations. See Note 2, Significant Accounting Policies, in the Notes to the UDR Consolidated Financial Statements included in this Report for additional information.

Table of Contents

Inflation

We believe that the direct effects of inflation on our operations have been immaterial. While the impact of inflation primarily impacts our results through wage pressures, utilities and material costs, the majority of our leases are for a term of fourteen months or less, which generally enables us to compensate for any inflationary effects by increasing rents on our apartment homes. Although an extreme escalation in energy and food costs could have a negative impact on our residents and their ability to absorb rent increases, we do not believe this has had a material impact on our results for the three months ended March 31, 2014.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources that are material.

United Dominion Realty, L.P.:

Business Overview

United Dominion Realty, L.P. (the “Operating Partnership” or “UDR, L.P.”), is a Delaware limited partnership formed in February 2004 and organized pursuant to the provisions of the Delaware Revised Uniform Limited Partnership Act (as amended from time to time, or any successor to such statute, the “Act”). The Operating Partnership is the successor-in-interest to United Dominion Realty, L.P., a limited partnership formed under the laws of Virginia, which commenced operations on November 4, 1995. Our sole general partner is UDR, Inc., a Maryland corporation (“UDR” or the “General Partner”), which conducts a substantial amount of its business and holds a substantial amount of its assets through the Operating Partnership. At March 31, 2014, the Operating Partnership’s real estate portfolio included 67 communities located in nine states and the District of Columbia with a total of 20,482 apartment homes.

As of March 31, 2014, UDR owned 110,883 units of our general limited partnership interests and 173,848,891 units of our limited partnership interests (the “OP Units”), or approximately 94.9% of our outstanding OP Units. By virtue of its ownership of our OP Units and being our sole general partner, UDR has the ability to control all of the day-to-day operations of the Operating Partnership. Unless otherwise indicated or unless the context requires otherwise, all references in this Report to the Operating Partnership or “we,” “us” or “our” refer to UDR, L.P. together with its consolidated subsidiaries. We refer to our General Partner together with its consolidated subsidiaries (including us) and the General Partner’s consolidated joint ventures as “UDR” or the “General Partner.”

UDR is a self-administered real estate investment trust, or REIT that owns, acquires, renovates, develops, and manages apartment communities. The General Partner was formed in 1972 as a Virginia corporation and changed its state of incorporation from Virginia to Maryland in September 2003. At March 31, 2014, the General Partner’s consolidated real estate portfolio included 143 communities located in 10 states and the District of Columbia with a total of 41,455 apartment homes. In addition, the General Partner had an ownership interest in 35 communities with 9,791 completed apartment homes through unconsolidated operating communities. The Operating Partnership’s same-store community apartment home population for the three months ended March 31, 2014 was 19,010.

Table of Contents

The following table summarizes our market information by major geographic markets as of March 31, 2014.

Same-Store Communities	As of March 31, 2014				For the Three Months Ended March 31, 2014	
	Number of Apartment Communities	Number of Apartment Homes	Percentage of Total Carrying Value	Total Carrying Value (in thousands)	Average Physical Occupancy	Monthly Income per Occupied Home (a)

Total Real Estate Owned, Net of Accumulated Depreciation				\$2,897,093		

(a) Monthly Income per Occupied Home represents total monthly revenues divided by the product of occupancy and the number of mature apartment homes.

(b) As of March 31, 2014, the Operating Partnership was developing one wholly-owned community with 332 apartment homes, none of which were completed.

We report in two segments: Same-Store Communities and Non-Mature Communities/Other.

Our Same-Store Communities segment represents those communities acquired, developed, and stabilized prior to January 1, 2013 and held as of March 31, 2014. These communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior period, there is no plan to conduct substantial redevelopment activities, and the communities are not held for disposition within the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months.

Our Non-Mature Communities/Other segment represent those communities that do not meet the criteria to be included in Same-Store Communities, including, but not limited to, recently acquired, developed, redeveloped, and the non-apartment components of mixed use properties.

Table of Contents

Liquidity and Capital Resources

Liquidity is the ability to meet present and future financial obligations either through operating cash flows, the sale of properties, and the issuance of debt. Both the coordination of asset and liability maturities and effective capital management are important to the maintenance of liquidity. The Operating Partnership's primary source of liquidity is cash flow from operations as determined by rental rates, occupancy levels, and operating expenses related to our portfolio of apartment homes and borrowings allocated to us under the General Partner's credit agreements. The General Partner will routinely use its unsecured credit facility to temporarily fund certain investing and financing activities prior to arranging for longer-term financing or the issuance of equity or debt securities. During the past several years, proceeds from the sale of real estate have been used for both investing and financing activities as we repositioned our portfolio.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations and borrowings allocated to us under the General Partner's credit agreements. We expect to meet certain long-term liquidity requirements such as scheduled debt maturities and potential property acquisitions through borrowings and the disposition of properties. We believe that our net cash provided by operations and borrowings will continue to be adequate to meet both operating requirements and the payment of distributions. Likewise, the budgeted expenditures for improvements and renovations of certain properties are expected to be funded from property operations, and borrowings allocated to us under the General Partner's credit agreements.

Future Capital Needs

Future capital expenditures are expected to be funded with proceeds from the issuance of secured debt or unsecured debt, sales of properties, borrowings allocated to us under our General Partner's credit agreements, and to a lesser extent, from cash flows provided by operating activities.

As of March 31, 2014, the Operating Partnership had approximately \$5.7 million of principal payments on secured debt maturing in 2014. We anticipate that we will repay that debt with operating cash flows or proceeds from borrowings allocated to us under our General Partner's credit agreements. The repayment of debt will be recorded as an offset to the Payable/(receivable) due to/(from) General Partner.

Critical Accounting Policies and Estimates and New Accounting Pronouncements

Our critical accounting policies are those having the most impact on the reporting of our financial condition and results and those requiring significant judgments and estimates. These policies include those related to (1) capital expenditures, (2) impairment of long-lived assets, (3) real estate investment properties, and (4) revenue recognition. Our critical accounting policies are described in more detail in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Operating Partnership's current Report on Form 10-K, filed with the SEC on February 25, 2014. There have been no significant changes in our critical accounting policies from those reported in Operating Partnership's Form 10-K filed with the SEC on February 25, 2014. With respect to these critical accounting policies, we believe that the application of judgments and assessments is consistently applied and produces financial information that fairly depicts the results of operations for all periods presented.

Effective January 1, 2014, the Operating Partnership prospectively adopted Accounting Standards Update ("ASU") No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, for all communities not previously sold or classified as held for sale. ASU 2014-08 incorporates into the definition of a discontinued operation a requirement that a disposition represent a strategic shift in an entity's operations, which resulted in UDR no longer classifying the sale of communities as a discontinued operation. See Note 2, Significant Accounting Policies, to the Operating Partnership's Consolidated Financial Statements for more information on the new accounting pronouncement.

Statements of Cash Flows

The following discussion explains the changes in net cash provided by operating activities, net cash provided by/(used in) investing activities, and net cash provided by/(used in) financing activities that are presented in our Consolidated Statements of Cash Flows for the three months ended March 31, 2014 and 2013.

Operating Activities

For the three months ended March 31, 2014, net cash flow provided by operating activities was \$48.7 million compared to \$42.6 million for the comparable period in 2013. The increase in net cash flow from operating activities

was primarily due to improved income from continuing operations.

75

Table of Contents

Investing Activities

For the three months ended March 31, 2014, net cash provided by/(used in) investing activities was \$28.9 million compared to \$(26.7) million for the comparable period in 2013. The change was primarily due to the increase in dispositions in the three months ended March 31, 2014 as compared to prior year. Changes in the level of investment activities from period to period reflect our strategy as it relates to development activities, capital expenditures, and dispositions.

Disposition of Investments

During the three month ended March 31, 2014, the Operating Partnership sold one operating property and an adjacent land parcel in San Diego, CA for gross proceeds of \$48.7 million, resulting in net proceeds of \$47.9 million. The Operating Partnership recognized gains of \$24.4 million, which is included in Income/(loss) on sale of real estate owned on the Operating Partnership's Consolidated Statements of Operations. Proceeds were used primarily to fund development and redevelopment activities and to reduce debt.

Real Estate Under Development and Redevelopment

At March 31, 2014, the Operating Partnership was developing one wholly-owned community totaling 332 homes, none of which have been completed, with a budget of \$132.0 million, in which we had a carrying value of \$89.8 million. The estimated completion date for this community will be through the third quarter of 2014.

At March 31, 2014, the Operating Partnership was redeveloping 748 apartment homes, 726 of which have been completed, at one wholly-owned community with 964 apartment homes. The estimated completion date for this community will be through the second quarter of 2014.

Financing Activities

For the three months ended March 31, 2014, our net cash provided by/(used in) financing activities was \$(78.6) million compared to \$(15.7) million for the comparable period of 2013. The increase in cash used in financing activities was primarily due to a increase in advances from the General Partner.

Credit Facilities

As of March 31, 2014, the General Partner had secured credit facilities with Fannie Mae with an aggregate commitment of \$836.8 million with \$836.8 million outstanding. The Fannie Mae credit facilities are for terms of seven to ten years and bear interest at floating and fixed rates. At March 31, 2014, \$625.4 million of the funded balance was fixed at a weighted average interest rate of 4.99%, and the remaining balance on these facilities was at a weighted average variable rate of 1.59%. At March 31, 2014, there was a total of \$520.9 million of these credit facilities allocated to the Operating Partnership based on the ownership of the assets securing the debt.

The Operating Partnership is a guarantor on the General Partner's unsecured revolving credit facility with an aggregate borrowing capacity of \$900 million, \$250 million of term notes due June 2018, \$100 million of term notes due June 2018, \$300 million of medium-term notes due June 2018, \$300 million of medium-term notes due October 2020, and \$400 million of medium-term notes due January 2022. As of March 31, 2014 and December 31, 2013 there was \$287.5 million and \$0.0 million outstanding borrowings under the unsecured revolving credit facility.

The credit facilities are subject to customary financial covenants and limitations.

Derivative Instruments

As part of our General Partner's overall interest rate risk management strategy, our General Partner uses derivatives as a means to fix the interest rates of variable rate debt obligations or to hedge anticipated financing transactions. Our General Partner's derivative transactions used for interest rate risk management include interest rate swaps with indexes that relate to the pricing of specific debt instruments of our General Partner that are allocated to the Operating Partnership. The General Partner believes that we have appropriately controlled our interest rate risk through the use of derivative instruments (allocated to the Operating Partnership based on the General Partner's underlying debt instruments allocated to the Operating Partnership) to minimize any unintended effect on consolidated earnings. Derivative contracts did not have a material impact on the results of operations during the three months ended March 31, 2014 (see Note 8, Derivatives and Hedging Activity, in the Notes to the Operating Partnership's Consolidated Financial Statements included in this Report).

Table of Contents

Interest Rate Risk

We are exposed to interest rate risk associated with variable rate notes payable and maturing debt that has to be refinanced. We do not hold financial instruments for trading or other speculative purposes, but rather issue these financial instruments to finance our portfolio of real estate assets. Interest rate sensitivity is the relationship between changes in market interest rates and the fair value of market rate sensitive assets and liabilities. Our earnings are affected as changes in short-term interest rates impact our cost of variable rate debt and maturing fixed rate debt. We had \$169.1 million in variable rate debt that is not subject to interest rate swap contracts as of March 31, 2014. If market interest rates for variable rate debt increased by 100 basis points, our interest expense for three month ended March 31, 2014 would increase by \$423,000 based on the average balance outstanding during the period.

These amounts are determined by considering the impact of hypothetical interest rates on our borrowing cost. These analyses do not consider the effects of the adjusted level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management would likely take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no change in our financial structure.

The General Partner also utilizes derivative financial instruments allocated to the Operating Partnership to manage interest rate risk and generally designates these financial instruments as cash flow hedges. See Note 8, Derivatives and Hedging Activities, in the Notes to the Operating Partnership's Consolidated Financial Statements for additional discussion of derivative instruments.

Results of Operations

The following discussion explains the changes in results of operations that are presented in our Consolidated Statements of Operations for the three months ended March 31, 2014 and 2013, and includes the results of both continuing and discontinued operations for the periods presented.

Net Income/(Loss) Attributable to OP Unitholders

Net income attributable to OP unitholders was \$30.5 million (\$0.17 per diluted OP Unit) for the three months ended March 31, 2014 as compared to net income of \$7.7 million (\$0.04 per diluted OP Unit) for the comparable period in the prior year. The increase in net income attributable to OP unitholders resulted primarily from the following items, all of which are discussed in further detail elsewhere within this Report:

- a gain of \$24.4 million on the sale of one property and an adjacent land parcel in San Diego, CA in 2014; and
- an increase in total property NOI primarily due to higher occupancy and higher revenue per occupied home, NOI from the homes placed in service related to development and redevelopment projects completed in 2013 and 2014, partially offset by the disposition of two communities in 2013.

This was partially offset by:

- hurricane-related recoveries in 2013 resulting from the effects of Hurricane Sandy on two of our New York, New York communities in 2012 (see Note 3, Real Estate Owned, in the Notes to the Operating Partnership's Consolidated Financial Statements for more details).

Apartment Community Operations

Our net income results primarily from net operating income ("NOI") generated from the operation of our apartment communities. The Operating Partnership defines NOI, which is a non-GAAP financial measure, as rental income less direct property rental expenses. Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover regional supervision and accounting costs related to consolidated property operations, and land rent.

Table of Contents

The following table summarizes the operating performance of our total portfolio (which includes discontinued operations) for the three months ended March 31, 2014 and 2013 (dollars in thousands):

	Three Months Ended March 31,			
	2014	2013	% Change	
Same-Store Communities:				
Same-store rental income	\$91,032	\$86,446	5.3	%
Same-store operating expense (a)	(26,730) (26,157) 2.2	%
Same-store NOI	64,302	60,289	6.7	%
Non-Mature Communities/Other NOI:				
Acquired communities NOI	3,814	3,361	13.5	%
Sold and held for sale communities NOI	11	2,197	(99.5))%
Redeveloped communities NOI	2,892	2,576	12.3	%
Commercial NOI and other	1,398	1,700	(17.8))%
Total non-mature communities/other NOI	8,115	9,834	(17.5))%
Total Property NOI	\$72,417	\$70,123	3.3	%

(a) Excludes depreciation, amortization, and property management expenses.

The following table is our reconciliation of total property NOI to Net Income/(Loss) Attributable to OP Unitholders as reflected, for both continuing and discontinued operations, for the three months ended March 31, 2014 and 2013 (dollars in thousands):

	Three Months Ended March 31,		
	2014	2013	
Total property NOI	\$72,417	\$70,123	
Property management	(2,815) (2,752)
Other operating expenses	(1,436) (1,386)
Real estate depreciation and amortization	(44,271) (45,393)
General and administrative	(6,970) (5,575)
Casualty-related recoveries/(charges), net	(500) 2,019	
Interest expense	(10,014) (9,262)
Gain/(loss) on sale of real estate owned	24,402	—	
Net (income)/loss attributable to noncontrolling interests	(280) (45)
Net income/(loss) attributable to OP unitholders	\$30,533	\$7,729	

Three Months Ended March 31, 2014 vs. Three Months Ended March 31, 2013

Same-Store Communities

Our Same-Store Community properties (those acquired, developed, and stabilized prior to January 1, 2013 and held as of March 31, 2014) consisted of 19,010 apartment homes and provided 88.8% of our total NOI for the three months ended March 31, 2014.

NOI for our Same-Store Community properties increased 6.7% or \$4.0 million for the three months ended March 31, 2014 compared to the same period in 2013. The increase in property NOI was primarily attributable to a 5.3% or \$4.6 million increase in property rental income, which was partially offset by a 2.2% or \$573,000 increase in operating expenses. The increase in revenues was primarily driven by a 3.6% or \$3.1 million increase in rental rates, a 19.0% or \$789,000 decrease in vacancy loss and bad debt, and a 7.3% or \$516,000 increase in fee and reimbursement income.

Physical occupancy increased

Table of Contents

0.4% to 95.8% and total income per occupied home increased 4.9% to \$1,667 for the three months ended March 31, 2014 compared to the same period in 2013.

The increase in property operating expenses was primarily driven by a 7.1% or \$295,000 increase in utilities expense and a 28.2% or \$284,000 increase in insurance expense.

As a result of the percentage changes in property rental income and property operating expenses, the operating margin (property net operating income divided by property rental income) increased to 70.6% for the three months ended March 31, 2014 as compared to 69.7% for the comparable period in 2013.

Non-Mature Communities/Other

The remaining 11.2% or \$8.1 million of our total NOI during the three months ended March 31, 2014, was generated from our Non-Mature Communities. The Operating Partnership's Non-Mature Communities/Other represent those communities that do not meet the criteria to be included in Same-Store Communities, including, but not limited to, recently acquired, developed, redeveloped, and the non-apartment components of mixed use properties. NOI from Non-Mature Communities/Other decreased 17.5% or \$1.7 million for the three months ended March 31, 2014 compared to the same period in 2013. The decrease was primarily driven by a decrease in NOI of \$2.2 million from sold properties, which was partially offset by an increase in NOI of \$453,000 from acquired properties.

Real Estate Depreciation and Amortization

For the three months ended March 31, 2014, real estate depreciation and amortization from continuing and discontinued operations decreased by 2.5% or \$1.1 million as compared to the comparable period in 2013. The decreased in depreciation and amortization for the three months ended March 31, 2014 was primarily from disposition of assets in 2013, partially offset by the depreciation from developed and redeveloped units placed in service in 2013.

Casualty-Related (Recoveries)/Charges, Net

In October 2012, Hurricane Sandy hit the East Coast, affecting two of the Operating Partnership's operating communities located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Operating Partnership had insurance policies that provided coverage for property damage and business interruption, subject to applicable retentions.

During the three months ended March 31, 2013, the Operating Partnership recorded \$2.0 million of insurance recovery related to the business interruption losses associated with Hurricane Sandy. This recovery was included in Casualty-related (recoveries)/charges, net on the Operating Partnership's Consolidated Statements of Operations.

During the three months ended March 31, 2014, we recorded a \$500,000 casualty-related loss for one property damaged during an earthquake in California.

Interest Expense

For the three months ended March 31, 2014, interest expense increased by 8.1% or \$752,000 as compared to the comparable periods in 2013. The increase in interest expense for the three months ended March 31, 2014 was primarily due to lower portion of interest capitalized in 2014 partially offset by a decrease in interest expense due to replacement of debt at lower rates.

Gain/(Loss) on Sale of Real Estate Owned

During the three months ended March 31, 2014, the Operating Partnership recognized \$24.4 million of gains on the sales of one operating property and an adjacent parcel of land in San Diego, CA. Due to the Company's adoption ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, effective January 1, 2014, this gain was included in Gain/(loss) on sale of real estate owned on the Operating Partnership's Consolidated Statements of Operations. See Note 2, Significant Accounting Policies, in the Notes to the Operating

Partnership's Consolidated Financial Statements included in this Report for additional information.

Table of Contents

Inflation

We believe that the direct effects of inflation on our operations have been immaterial. While the impact of inflation primarily impacts our results through wage pressures, utilities and material costs, substantially all of our leases are for a term of one year or less, which generally enables us to compensate for any inflationary effects by increasing rents on our apartment homes. Although an extreme escalation in energy and food costs could have a negative impact on our residents and their ability to absorb rent increases, we do not believe this has had a material impact on our results for the three months ended March 31, 2014.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources that are material.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company and the Operating Partnership are exposed to interest rate changes associated with our unsecured credit facility and other variable rate debt as well as refinancing risk on our fixed rate debt. The Company's and the Operating Partnership's involvement with derivative financial instruments is limited and we do not expect to use them for trading or other speculative purposes. The Company and the Operating Partnership use derivative instruments solely to manage their exposure to interest rates.

See our Annual Report on Form 10-K for the year ended December 31, 2013 under the heading "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" for a more complete discussion of our interest rate sensitive assets and liabilities. As of March 31, 2014, our market risk has not changed materially from the amounts reported in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 4. CONTROLS AND PROCEDURES

The disclosure controls and procedures of the Company and the Operating Partnership are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. As a result, our disclosure controls and procedures are designed to provide reasonable assurance that such disclosure controls and procedures will meet their objectives.

As of March 31, 2014, we carried out an evaluation, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer of the Company, of the effectiveness of the design and operation of the disclosure controls and procedures of the Company and the Operating Partnership. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer of the Company concluded that the disclosure controls and procedures of the Company and the Operating Partnership are effective at the reasonable assurance level described above.

There have not been any changes in either the Company's or the Operating Partnership's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the first fiscal quarter to which this report relates that materially affected, or are reasonably likely to materially affect, the internal control over financial reporting of either the Company or the Operating Partnership.

Table of Contents

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company is a party to various claims and routine litigation arising in the ordinary course of business. We do not believe that the results of any such claims and litigation, individually or in the aggregate, will have a material adverse effect on our business, financial position or results of operations.

Item 1A. RISK FACTORS

There are many factors that affect the business and the results of operations of the Company and the Operating Partnership, some of which are beyond the control of the Company and the Operating Partnership. The following is a description of important factors that may cause the actual results of operations of the Company and the Operating Partnership in future periods to differ materially from those currently expected or discussed in forward-looking statements set forth in this Report relating to our financial results, operations and business prospects. Forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this Report, and we expressly disclaim any obligation or undertaking to update or revise any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based, except to the extent otherwise required by law.

Risks Related to Our Real Estate Investments and Our Operations

Unfavorable Apartment Market and Economic Conditions Could Adversely Affect Occupancy Levels, Rental Revenues and the Value of Our Real Estate Assets. Unfavorable market conditions in the areas in which we operate and unfavorable economic conditions generally may significantly affect our occupancy levels, our rental rates and collections, the value of the properties and our ability to strategically acquire or dispose of apartment communities on economically favorable terms. Our ability to lease our properties at favorable rates is adversely affected by the increase in supply in the multifamily and other rental markets and is dependent upon the overall level in the economy, which is adversely affected by, among other things, job losses and unemployment levels, recession, personal debt levels, a downturn in the housing market, stock market volatility and uncertainty about the future. Some of our major expenses, including mortgage payments and real estate taxes, generally do not decline when related rents decline. We would expect that declines in our occupancy levels, rental revenues and/or the values of our apartment communities would cause us to have less cash available to pay our indebtedness and to distribute to UDR's stockholders, which could adversely affect our financial condition and the market value of our securities. Factors that may affect our occupancy levels, our rental revenues, and/or the value of our properties include the following, among others:

- downturns in the national, regional and local economic conditions, particularly increases in unemployment;
- declines in mortgage interest rates, making alternative housing more affordable;
- government or builder incentives which enable first time homebuyers to put little or no money down, making alternative housing options more attractive;
- local real estate market conditions, including oversupply of, or reduced demand for, apartment homes;
- declines in the financial condition of our tenants, which may make it more difficult for us to collect rents from some tenants;
- changes in market rental rates;
- our ability to renew leases or re-lease space on favorable terms;
- the timing and costs associated with property improvements, repairs or renovations;

declines in household formation; and

rent control or stabilization laws, or other laws regulating rental housing, which could prevent us from raising rents to offset increases in operating costs.

81

Table of Contents

We May Be Unable to Renew Leases or Relet Apartment Units as Leases Expire. When our residents decide to leave our apartments, whether because they decide not to renew their leases or they leave prior to their lease expiration date, we may not be able to relet their apartment units. Even if the residents do renew or we can relet the apartment units, the terms of renewal or reletting may be less favorable than current lease terms. If we are unable to promptly renew the leases or relet the apartment units, or if the rental rates upon renewal or reletting are significantly lower than expected rates, then our results of operations and financial condition may be adversely affected. If residents do not experience increases in their income, we may be unable to increase rent and/or delinquencies may increase.

Continued Economic Weakness Following the Economic Recession that the U.S. Economy Recently Experienced May Materially and Adversely Affect our Financial Condition and Results of Operations. The U.S. economy continues to experience some weakness following a severe recession, including relatively high levels of unemployment and weak consumer spending. In addition, while the Federal Reserve took policy actions to promote market liquidity and encourage economic growth following the recession, such actions are now being curtailed as signs of improvement in the economy have emerged, and the impact of these monetary policy actions on the economy is uncertain. If the economic recovery slows or stalls, or if the economy experiences another recession, we may experience adverse effects on our occupancy levels, our rental revenues and the value of our properties, any of which could adversely affect our cash flow, financial condition and results of operations. We are also exposed to risks relating to the housing market recovery that has accompanied the economic recovery, to the extent that when demand for single family homes increases, demand for apartments may decline, which could adversely affect our cash flow, financial condition and results of operations.

Substantial International, National and Local Government Spending and Increasing Deficits May Adversely Impact Our Business, Financial Condition and Results of Operations. The values of, and the cash flows from, the properties we own are affected by developments in global, national and local economies. As a result of the most recent recession and the significant government interventions, federal, state and local governments have incurred record deficits and assumed or guaranteed liabilities of private financial institutions or other private entities. These increased budget deficits and the weakened financial condition of federal, state and local governments may lead to reduced governmental spending, tax increases, public sector job losses, increased interest rates, currency devaluations or other adverse economic events, which may directly or indirectly adversely affect our business, financial condition and results of operations.

Risk of Inflation/Deflation. Substantial inflationary or deflationary pressures could have a negative effect on rental rates and property operating expenses. The general risk of inflation is that interest on our debt and general and administrative expenses increase at a rate faster than increases in our rental rates. The predominant effects of deflation include high unemployment and credit contraction. Restricted lending practices could impact our ability to obtain financing or refinancing for our properties.

We Are Subject to Certain Risks Associated with Selling Apartment Communities, Which Could Limit Our Operational and Financial Flexibility. We periodically dispose of apartment communities that no longer meet our strategic objectives, but adverse market conditions may make it difficult to sell apartment communities like the ones we own. We cannot predict whether we will be able to sell any property for the price or on the terms we set, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a property. Furthermore, we may be required to expend funds to correct defects or to make improvements before a property can be sold. These conditions may limit our ability to dispose of properties and to change our portfolio promptly in order to meet our strategic objectives, which may in turn have a material adverse effect on our financial condition and the market value of our securities. We are also subject to the following risks in connection with sales of our apartment communities:

a significant portion of the proceeds from our overall property sales may be held by intermediaries in order for some sales to qualify as like-kind exchanges under Section 1031 of the Internal Revenue Code of 1986, as amended, or the "Code," so that any related capital gain can be deferred for federal income tax purposes. As a result, we may not have immediate access to all of the cash proceeds generated from our property sales; and

•

federal tax laws limit our ability to profit on the sale of communities that we have owned for less than two years, and this limitation may prevent us from selling communities when market conditions are favorable.

Competition Could Limit Our Ability to Lease Apartment Homes or Increase or Maintain Rents. Our apartment communities compete with numerous housing alternatives in attracting residents, including other apartment communities, condominiums and single-family rental homes, as well as owner occupied single-and multi-family homes. Competitive housing in a particular area could adversely affect our ability to lease apartment homes and increase or maintain rents, which could materially adversely affect our results of operations and financial condition.

Table of Contents

We May Not Realize the Anticipated Benefits of Past or Future Acquisitions, and the Failure to Integrate Acquired Communities and New Personnel Successfully Could Create Inefficiencies. We have selectively acquired in the past, and if presented with attractive opportunities we intend to selectively acquire in the future, apartment communities that meet our investment criteria. Our acquisition activities and their success are subject to the following risks:

- we may be unable to obtain financing for acquisitions on favorable terms or at all;

- even if we are able to finance the acquisition, cash flow from the acquisition may be insufficient to meet our required principal and interest payments on the acquisition;

- even if we enter into an acquisition agreement for an apartment community, we may be unable to complete the acquisition after incurring certain acquisition-related costs;

- we may incur significant costs and divert management attention in connection with the evaluation and negotiation of potential acquisitions, including potential acquisitions that we are subsequently unable to complete;

- when we acquire an apartment community, we may invest additional amounts in it with the intention of increasing profitability, and these additional investments may not produce the anticipated improvements in profitability;

- the expected occupancy rates and rental rates may differ from actual results; and

we may be unable to quickly and efficiently integrate acquired apartment communities and new personnel into our existing operations, and the failure to successfully integrate such apartment communities or personnel will result in inefficiencies that could adversely affect our expected return on our investments and our overall profitability.

Competition Could Adversely Affect Our Ability to Acquire Properties. In the past, other real estate investors, including insurance companies, pension and investment funds, developer partnerships, investment companies and other public and private apartment REITs, have competed with us to acquire existing properties and to develop new properties, and such competition in the future may make it more difficult for us to pursue attractive investment opportunities on favorable terms, which could adversely affect our ability to grow or acquire properties profitably or with attractive returns.

Development and Construction Risks Could Impact Our Profitability. In the past we have selectively pursued the development and construction of apartment communities, and we intend to do so in the future as appropriate opportunities arise. Development activities have been, and in the future may be, conducted through wholly-owned affiliated companies or through joint ventures with unaffiliated parties. Our development and construction activities are subject to the following risks:

- we may be unable to obtain construction financing for development activities under favorable terms, including but not limited to interest rates, maturity dates and/or loan to value ratios, or at all which could cause us to delay or even abandon potential developments;

- we may be unable to obtain, or face delays in obtaining, necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations, which could result in increased development costs, could delay initial occupancy dates for all or a portion of a development community, and could require us to abandon our activities entirely with respect to a project for which we are unable to obtain permits or authorizations;

- yields may be less than anticipated as a result of delays in completing projects, costs that exceed budget and/or higher than expected concessions for lease up and lower rents than expected;

- if we are unable to find joint venture partners to help fund the development of a community or otherwise obtain acceptable financing for the developments, our development capacity may be limited;

• we may abandon development opportunities that we have already begun to explore, and we may fail to recover expenses already incurred in connection with exploring such opportunities;

• we may be unable to complete construction and lease-up of a community on schedule, or incur development or construction costs that exceed our original estimates, and we may be unable to charge rents that would compensate for any increase in such costs;

Table of Contents

occupancy rates and rents at a newly developed community may fluctuate depending on a number of factors, including market and economic conditions, preventing us from meeting our profitability goals for that community; and

• when we sell to third parties communities or properties that we developed or renovated, we may be subject to warranty or construction defect claims that are uninsured or exceed the limits of our insurance.

In some cases in the past, the costs of upgrading acquired communities exceeded our original estimates. We may experience similar cost increases in the future. Our inability to charge rents that will be sufficient to offset the effects of any increases in these costs may impair our profitability.

Bankruptcy or Defaults of Our Counterparties Could Adversely Affect Our Performance. We have relationships with and, from time to time, we execute transactions with or receive services from many counterparties, such as general contractors engaged in connection with our development activities. As a result, bankruptcies or defaults by these counterparties could result in services not being provided, projects not being completed on time, or on budget, or at all, or volatility in the financial markets and economic weakness could affect the counterparties' ability to complete transactions with us as intended, both of which could result in disruptions to our operations that may adversely affect our business and results of operations.

Property Ownership Through Joint Ventures May Limit Our Ability to Act Exclusively in Our Interest. We have in the past and may in the future develop and/or acquire properties in joint ventures with other persons or entities when we believe circumstances warrant the use of such structures. We currently have 10 active joint ventures and partnerships, excluding our participating loan investment, with a total equity investment of \$494.7 million. We could become engaged in a dispute with one or more of our joint venture partners which might affect our ability to operate a jointly-owned property. Moreover, joint venture partners may have business, economic or other objectives that are inconsistent with our objectives, including objectives that relate to the appropriate timing and terms of any sale or refinancing of a property. In some instances, joint venture partners may have competing interests in our markets that could create conflicts of interest. Also, our joint venture partners might refuse to make capital contributions when due and we may be responsible to our partners for indemnifiable losses. Frequently, we and our partners may each have the right to trigger a buy-sell arrangement, which could cause us to sell our interest, or acquire our partners' interest, at a time when we otherwise would not have initiated such a transaction and may result in the valuation of our interest in the joint venture (if we are the seller) or of the other partner's interest in the joint venture (if we are the buyer) at levels which may not be representative of the valuation that would result from an arm's length marketing process.

We are also subject to risk in cases where an institutional owner is our joint venture partner, including (i) a deadlock if we and our joint venture partner are unable to agree upon certain major and other decisions, (ii) the limitation of our ability to liquidate our position in the joint venture without the consent of the other joint venture partner, and (iii) the requirement to provide guarantees in favor of lenders with respect to the indebtedness of the joint venture.

We Could Incur Significant Insurance Costs and Some Potential Losses May Not Be Adequately Covered by Insurance. We have a comprehensive insurance program with limits of liability customary within the multi-family industry covering our property and operating activities. We believe the policy specifications and insured limits of these policies are adequate and appropriate. There are, however, certain types of extraordinary losses which may not be adequately covered under our insurance program. In addition, we will sustain losses due to insurance deductibles, self-insured retention, uninsured claims or casualties, or losses in excess of applicable coverage.

If an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue from the property. In such an event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the property. Material losses in excess of insurance proceeds may occur in the future. If one or more of our significant properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our cash flow and ability to make distributions to UDR's stockholders.

As a result of our substantial real estate holdings, the cost of insuring our apartment communities is a significant component of expense. Insurance premiums are subject to significant increases and fluctuations, which are generally outside of our control. We insure our properties with insurance companies that we believe have a good rating at the time our policies are put into effect. The financial condition of one or more of our insurance companies that we hold policies with may be negatively impacted resulting in their inability to pay on future insurance claims. Their inability to pay future claims may have a negative impact on our financial results. In addition, the failure of one or more insurance companies may increase the costs to renew our insurance policies or increase the cost of insuring additional properties and recently developed or redeveloped properties.

Table of Contents

Failure to Succeed in New Markets May Limit Our Growth. We have acquired in the past, and we may acquire in the future if appropriate opportunities arise, apartment communities that are outside of our existing markets. Entering into new markets may expose us to a variety of risks, and we may not be able to operate successfully in new markets.

These risks include, among others:

- inability to accurately evaluate local apartment market conditions and local economies;

- inability to hire and retain key personnel;

- lack of familiarity with local governmental and permitting procedures; and

- inability to achieve budgeted financial results.

Potential Liability for Environmental Contamination Could Result in Substantial Costs. Under various federal, state and local environmental laws, as a current or former owner or operator of real estate, we could be required to investigate and remediate the effects of contamination of currently or formerly owned real estate by hazardous or toxic substances, often regardless of our knowledge of or responsibility for the contamination and solely by virtue of our current or former ownership or operation of the real estate. In addition, we could be held liable to a governmental authority or to third parties for property damage and for investigation and clean-up costs incurred in connection with the contamination. These costs could be substantial, and in many cases environmental laws create liens in favor of governmental authorities to secure their payment. The presence of such substances or a failure to properly remediate any resulting contamination could materially and adversely affect our ability to borrow against, sell or rent an affected property.

In addition, our properties are subject to various federal, state and local environmental, health and safety laws, including laws governing the management of wastes and underground and aboveground storage tanks.

Noncompliance with these environmental, health and safety laws could subject us to liability. Changes in laws could increase the potential costs of compliance with environmental laws, health and safety laws or increase liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect our operations.

As the owner or operator of real property, we may also incur liability based on various building conditions. For example, buildings and other structures on properties that we currently own or operate or those we acquire or operate in the future contain, may contain, or may have contained, asbestos-containing material, or ACM. Environmental, health and safety laws require that ACM be properly managed and maintained and may impose fines or penalties on owners, operators or employers for non-compliance with those requirements.

These requirements include special precautions, such as removal, abatement or air monitoring, if ACM would be disturbed during maintenance, renovation or demolition of a building, potentially resulting in substantial costs. In addition, we may be subject to liability for personal injury or property damage sustained as a result of exposure to ACM or releases of ACM into the environment.

We cannot assure you that costs or liabilities incurred as a result of environmental issues will not affect our ability to make distributions to our shareholders, or that such costs or liabilities will not have a material adverse effect on our financial condition and results of operations.

Our Properties May Contain or Develop Harmful Mold or Suffer from Other Indoor Air Quality Issues, Which Could Lead to Liability for Adverse Health Effects or Property Damage or Cost for Remediation. When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our properties could require us to

undertake a costly remediation program to contain or remove the mold or other airborne contaminants or to increase ventilation. In addition, the presence of significant mold or other airborne contaminants could expose us to liability from our tenants or others if property damage or personal injury occurs.

Compliance or Failure to Comply with the Americans with Disabilities Act of 1990 or Other Safety Regulations and Requirements Could Result in Substantial Costs. The Americans with Disabilities Act generally requires that public buildings, including our properties, be made accessible to disabled persons. Noncompliance could result in the imposition of fines by the federal government or the award of damages to private litigants. From time to time claims may be asserted against us with

Table of Contents

respect to some of our properties under this Act. If, under the Americans with Disabilities Act, we are required to make substantial alterations and capital expenditures in one or more of our properties, including the removal of access barriers, it could adversely affect our financial condition and results of operations.

Our properties are subject to various federal, state and local regulatory requirements, such as state and local fire and life safety requirements. If we fail to comply with these requirements, we could incur fines or private damage awards. We do not know whether existing requirements will change or whether compliance with future requirements will require significant unanticipated expenditures that will affect our cash flow and results of operations.

Real Estate Tax and Other Laws. Generally we do not directly pass through costs resulting from compliance with or changes in real estate tax laws to residential property tenants. We also do not generally pass through increases in income, service or other taxes, to tenants under leases. These costs may adversely affect net operating income and the ability to make distributions to stockholders. Similarly, compliance with or changes in (i) laws increasing the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions or (ii) rent control or rent stabilization laws or other laws regulating housing, such as the Americans with Disabilities Act and the Fair Housing Amendments Act of 1988, may result in significant unanticipated expenditures, which would adversely affect funds from operations and the ability to make distributions to stockholders.

Risk of Damage from Catastrophic Weather and Natural Events and Potential Climate Change. Certain of our communities are located in areas that may experience catastrophic weather and other natural events from time to time, including mudslides, fires, hurricanes, tornadoes, snow or ice storms, or other severe inclement weather. These adverse weather and natural events could cause damage or losses that may be greater than insured levels. In the event of a loss in excess of insured limits, we could lose our capital invested in the affected community, as well as anticipated future revenue from that community. We would also continue to be obligated to repay any mortgage indebtedness or other obligations related to the community. Any such loss could materially and adversely affect our business and our financial condition and results of operations.

To the extent that we experience any significant changes in the climate in areas where our communities are located, we may experience extreme weather conditions and prolonged changes in precipitation and temperature, all of which could result in physical damage to, and/or a decrease in demand for, our communities located in these areas. Should the impact of such climate change be material in nature, or occur for lengthy periods of time, our financial condition and results of operations may be adversely affected.

Risk of Earthquake Damage. Some of our communities are located in the general vicinity of active earthquake faults. We cannot assure you that an earthquake would not cause damage or losses greater than insured levels. In the event of a loss in excess of insured limits, we could lose our capital invested in the affected community, as well as anticipated future revenue from that community. We would also continue to be obligated to repay any mortgage indebtedness or other obligations related to the community. Any such loss could materially and adversely affect our business and our financial condition and results of operations. Insurance coverage for earthquakes can be costly due to limited industry capacity. As a result, we may experience shortages in desired coverage levels if market conditions are such that insurance is not available or the cost of insurance makes it, in management's view, economically impractical.

Risk of Accidental Death Due to Fire, Natural Disasters or Other Hazards. The accidental death of persons living in our communities due to fire, natural disasters or other hazards could have a material adverse effect on our business and results of operations. Our insurance coverage may not cover all losses associated with such events, and we may experience difficulty marketing communities where such any such events have occurred, which could have a material adverse effect on our business and results of operations.

Actual or Threatened Terrorist Attacks May Have an Adverse Effect on Our Business and Operating Results and Could Decrease the Value of Our Assets. Actual or threatened terrorist attacks and other acts of violence or war could have a material adverse effect on our business and operating results. Attacks that directly impact one or more of our apartment communities could significantly affect our ability to operate those communities and thereby impair our ability to achieve our expected results. Further, our insurance coverage may not cover all losses caused by a terrorist attack. In addition, the adverse effects that such violent acts and threats of future attacks could have on the U.S. economy could similarly have a material adverse effect on our business and results of operations.

Mezzanine Loan Assets Involve Greater Risks of Loss than Senior Loans Secured by Income-producing Properties. We may acquire mezzanine loans, which take the form of subordinated loans secured by second mortgages on the underlying property or loans secured by a pledge of the ownership interests of either the entity owning the property or a pledge of the

86

Table of Contents

ownership interests of the entity that owns the interest in the entity owning the property. Mezzanine loans may involve a higher degree of risk than long-term senior mortgage lending secured by income-producing real property, because the loan may become unsecured as a result of foreclosure by the senior lender and because it is in second position and there may not be adequate equity in the property. In the event of a bankruptcy of the entity providing the pledge of its ownership interests as security, we may not have full recourse to the assets of such entity, or the assets of the entity may not be sufficient to satisfy our mezzanine loan. If a borrower defaults on our mezzanine loan or debt senior to our loan, or in the event of a borrower bankruptcy, our mezzanine loan will be satisfied only after the senior debt. As a result, we may not recover some of or all our initial expenditure. In addition, mezzanine loans may have higher loan-to-value ratios than conventional mortgage loans, resulting in less equity in the property and increasing the risk of loss of principal.

We May Experience a Decline in the Fair Value of Our Assets and Be Forced to Recognize Impairment Charges, Which Could Materially and Adversely Impact Our Financial Condition, Liquidity and Results of Operations and the Market Price of UDR's Common Stock. A decline in the fair value of our assets may require us to recognize an impairment against such assets under GAAP if we were to determine that, with respect to any assets in unrealized loss positions, we do not have the ability and intent to hold such assets to maturity or for a period of time sufficient to allow for recovery to the amortized cost of such assets. If such a determination were to be made, we would recognize unrealized losses through earnings and write down the amortized cost of such assets to a new cost basis, based on the fair value of such assets on the date they are considered to be impaired. Such impairment charges reflect non-cash losses at the time of recognition; subsequent disposition or sale of such assets could further affect our future losses or gains, as they are based on the difference between the sale price received and adjusted amortized cost of such assets at the time of sale. If we are required to recognize asset impairment charges in the future, these charges could materially and adversely affect our financial condition, liquidity, results of operations and the per share trading price of UDR's common stock.

Any Material Weaknesses Identified in Our Internal Control Over Financial Reporting Could Have an Adverse Effect on UDR's Stock Price. Section 404 of the Sarbanes-Oxley Act of 2002 requires us to evaluate and report on our internal control over financial reporting. If we identify one or more material weaknesses in our internal control over financial reporting, we could lose investor confidence in the accuracy and completeness of our financial reports, which in turn could have an adverse effect on UDR's stock price.

Our Business and Operations Would Suffer in the Event of System Failures or Breaches in Data Security. Despite system redundancy, the implementation of security measures and the existence of a disaster recovery plan for our internal information technology systems, our systems are vulnerable to damages from any number of sources, including computer viruses, unauthorized access, energy blackouts, natural disasters, terrorism, war, and telecommunication failures. We rely on information technology networks and systems, including the Internet, to process, transmit and store electronic information and to manage or support a variety of our business processes, including financial transactions and keeping of records, which may include personal identifying information of tenants and lease data. We rely on commercially available systems, software, tools and monitoring to provide security for processing, transmitting and storing confidential tenant information, such as individually identifiable information relating to financial accounts. Although we take steps to protect the security of the data maintained in our information systems, it is possible that our security measures will not be able to prevent the systems' improper functioning, or the improper disclosure of personally identifiable information, such as in the event of cyber attacks. Security breaches, including physical or electronic break-ins, computer viruses, attacks by hackers and similar breaches, can create system disruptions, shutdowns or unauthorized disclosure of confidential information. Any failure to maintain proper function, security and availability of our information systems could interrupt our operations, damage our reputation, subject us to liability claims or regulatory penalties and could materially and adversely affect us.

Our Success Depends on Our Senior Management. Our success depends upon the retention of our senior management, whose continued service is not guaranteed. We may not be able to find qualified replacements for the individuals who make up our senior management if their services should no longer be available to us. The loss of services of one or more members of our senior management team could have a material adverse effect on our business, financial condition and results of operations.

We May be Adversely Affected by New Federal Laws and Regulations. The United States Administration and Congress have enacted, or called for consideration of, proposals relating to a variety of issues, including with respect to health care, financial regulation reform, climate change, executive compensation and others. We believe that these and other potential proposals could have varying degrees of impact on us ranging from minimal to material. At this time, we are unable to predict with certainty what level of impact specific proposals could have on us.

Federal rulemaking and administrative efforts that may have an impact on us focus principally on the areas perceived as contributing to the global financial crisis and the recent economic downturn. These initiatives have created a degree of uncertainty regarding the basic rules governing the real estate industry and many other businesses that is unprecedented in the

Table of Contents

United States at least since the wave of lawmaking and regulatory reform that followed in the wake of the Great Depression. The federal legislative response in this area culminated in the enactment on July 21, 2010 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). Many of the provisions of the Dodd-Frank Act have extended implementation periods and delayed effective dates and will require extensive rulemaking by regulatory authorities; thus, the impact on us may not be known for an extended period of time. The Dodd-Frank Act, including future rules implementing its provisions and the interpretation of those rules, along with other legislative and regulatory proposals that are proposed or pending in the United States Congress, may limit our revenues, impose fees or taxes on us, and/or intensify the regulatory framework in which we operate in ways that are not currently identifiable.

Changing laws, regulations and standards relating to corporate governance and public disclosure in particular, including certain provisions of the Dodd-Frank Act and the rules and regulations promulgated thereunder, have created uncertainty for public companies like ours and could significantly increase the costs and risks associated with accessing the U.S. public markets. Because we are committed to maintaining high standards of internal control over financial reporting, corporate governance and public disclosure, our management team will need to devote significant time and financial resources to comply with these evolving standards for public companies. We intend to continue to invest appropriate resources to comply with both existing and evolving standards, and this investment has resulted and will likely continue to result in increased general and administrative expenses and a diversion of management time and attention from revenue generating activities to compliance activities.

We May be Adversely Affected by New State and Local Laws and Regulations. We are subject to state and local laws, regulations and ordinances at locations where we operate and to the rules and regulations of various local authorities regarding a wide variety of matters that could affect, directly or indirectly, our operations. We cannot predict what matters might be considered in the future by these state and local authorities, nor can we judge what impact, if any, the implementation of new legislation might have on our business.

Derivatives Legislation Adopted by Congress Could Have an Adverse Impact on our Ability to Hedge Risks Associated with our Business. The Dodd-Frank Act regulates derivative transactions, which include certain instruments used in our risk management activities. The Dodd-Frank Act contemplates that most swaps will be required to be cleared through a registered clearing facility and traded on a designated exchange or swap execution facility. There are some exceptions to these requirements for entities that use swaps to hedge or mitigate commercial risk and REITs meeting certain criteria. While we may ultimately be eligible for such exceptions, we cannot ensure we will qualify for them. Although the Dodd-Frank Act includes significant new provisions regarding the regulation of derivatives, the impact of those requirements will not be known definitively until regulations have been adopted and fully implemented by both the SEC and the Commodities Futures Trading Commission, and market participants establish and operate registered clearing facilities under those regulations. The Dodd-Frank Act provisions regarding derivatives and the implementing regulations could increase the operational and transactional cost of derivatives contracts and affect the number and/or creditworthiness of available hedge counterparties to us.

Changes in the System for Establishing U.S. Accounting Standards May Materially and Adversely Affect Our Reported Results of Operations. Accounting for public companies in the United States has historically been conducted in accordance with generally accepted accounting principles as in effect in the United States (“GAAP”). GAAP is established by the Financial Accounting Standards Board (the “FASB”), an independent body whose standards are recognized by the SEC as authoritative for publicly held companies. The International Accounting Standards Board (the “IASB”) is a London-based independent board established in 2001 and charged with the development of International Financial Reporting Standards (“IFRS”). IFRS generally reflects accounting practices that prevail in Europe and in developed nations around the world.

IFRS differs in material respects from GAAP. Among other things, IFRS has historically relied more on “fair value” models of accounting for assets and liabilities than GAAP. “Fair value” models are based on periodic revaluation of assets and liabilities, often resulting in fluctuations in such values as compared to GAAP, which relies more frequently on historical cost as the basis for asset and liability valuation.

We are monitoring the SEC’s activity with respect to the proposed adoption of IFRS by United States public companies. It is unclear at this time how the SEC will propose that GAAP and IFRS be harmonized if the proposed

change is adopted. In addition, switching to a new method of accounting and adopting IFRS would be a complex undertaking. We would potentially need to develop new systems and controls based on the principles of IFRS. Since these are new endeavors, and the precise requirements of the pronouncements ultimately to be adopted are not now known, the magnitude of costs associated with this conversion are uncertain.

We are currently evaluating the impact of the adoption of IFRS on our financial position and results of operations. Such evaluation cannot be completed, however, without more clarity regarding the specific IFRS standards that would potentially be

Table of Contents

adopted. Until there is more certainty with respect to the IFRS standards that could be adopted, prospective investors should consider that our conversion to IFRS could have a material adverse impact on our reported results of operations.

Risks Related to Our Indebtedness and Financings

Insufficient Cash Flow Could Affect Our Debt Financing and Create Refinancing Risk. We are subject to the risks normally associated with debt financing, including the risk that our operating income and cash flow will be insufficient to make required payments of principal and interest, or could restrict our borrowing capacity under our line of credit due to debt covenant restraints. Sufficient cash flow may not be available to make all required principal payments and still satisfy UDR's distribution requirements to maintain its status as a REIT for federal income tax purposes. In addition, the full limits of our line of credit may not be available to us if our operating performance falls outside the constraints of our debt covenants. We are also likely to need to refinance substantially all of our outstanding debt as it matures. We may not be able to refinance existing debt, or the terms of any refinancing may not be as favorable as the terms of the existing debt, which could create pressures to sell assets or to issue additional equity when we would otherwise not choose to do so. In addition, our failure to comply with our debt covenants could result in a requirement to repay our indebtedness prior to its maturity, which could have an adverse effect on our cash flow, increase our financing costs and impact our ability to make distributions to UDR's stockholders.

Failure to Generate Sufficient Revenue Could Impair Debt Service Payments and Distributions to Stockholders. If our apartment communities do not generate sufficient net rental income to meet rental expenses, our ability to make required payments of interest and principal on our debt securities and to pay distributions to UDR's stockholders will be adversely affected. The following factors, among others, may affect the net rental income generated by our apartment communities:

• the national and local economies;

• local real estate market conditions, such as an oversupply of apartment homes;

• tenants' perceptions of the safety, convenience, and attractiveness of our communities and the neighborhoods where they are located;

• our ability to provide adequate management, maintenance and insurance;

• rental expenses, including real estate taxes and utilities;

• competition from other apartment communities;

• changes in interest rates and the availability of financing;

• changes in governmental regulations and the related costs of compliance; and

• changes in tax and housing laws, including the enactment of rent control laws or other laws regulating multi-family housing.

Expenses associated with our investment in an apartment community, such as debt service, real estate taxes, insurance and maintenance costs, are generally not reduced when circumstances cause a reduction in rental income from that community. If a community is mortgaged to secure payment of debt and we are unable to make the mortgage payments, we could sustain a loss as a result of foreclosure on the community or the exercise of other remedies by the mortgage holder.

Our Debt Level May Be Increased. Our current debt policy does not contain any limitations on the level of debt that we may incur, although our ability to incur debt is limited by covenants in our bank and other credit agreements. We manage our debt to be in compliance with these debt covenants, but subject to compliance with these covenants, we

may increase the amount of our debt at any time without a concurrent improvement in our ability to service the additional debt.

Financing May Not Be Available and Could Be Dilutive. Our ability to execute our business strategy depends on our access to an appropriate blend of debt financing, including unsecured lines of credit and other forms of secured and unsecured debt, and equity financing, including common and preferred equity. We and other companies in the real estate industry have experienced limited availability of financing from time to time. If we issue additional equity securities to finance developments and acquisitions instead of incurring debt, the interests of our existing stockholders could be diluted.

Table of Contents

Failure To Maintain Our Current Credit Ratings Could Adversely Affect Our Cost of Funds, Related Margins, Liquidity, and Access to Capital Markets. Moody's and Standard & Poor's, the major debt rating agencies, routinely evaluate our debt and have given us ratings on our senior unsecured debt and preferred stock. These ratings are based on a number of factors, which included their assessment of our financial strength, liquidity, capital structure, asset quality, and sustainability of cash flow and earnings. Due to changes in market conditions, we may not be able to maintain our current credit ratings, which could adversely affect our cost of funds and related margins, liquidity, and access to capital markets.

Disruptions in Financial Markets May Adversely Impact Availability and Cost of Credit and Have Other Adverse Effects on Us and the Market Price of UDR's Stock. Our ability to make scheduled payments or to refinance debt obligations will depend on our operating and financial performance, which in turn is subject to prevailing economic conditions and to financial, business and other factors beyond our control. During the past several years, the United States stock and credit markets have experienced significant price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks to fluctuate substantially and the spreads on prospective debt financings to widen considerably. These circumstances have materially impacted liquidity in the financial markets at times, making terms for certain financings less attractive, and in some cases have resulted in the unavailability of financing. The potential downgrade of the U.S.'s credit rating and the European debt crisis recently contributed to instability in global credit markets. Continued uncertainty in the stock and credit markets may negatively impact our ability to access additional financing for acquisitions, development of our properties and other purposes at reasonable terms, which may negatively affect our business. Additionally, due to this uncertainty, we may be unable to refinance our existing indebtedness or the terms of any refinancing may not be as favorable as the terms of our existing indebtedness. If we are not successful in refinancing this debt when it becomes due, we may be forced to dispose of properties on disadvantageous terms, which might adversely affect our ability to service other debt and to meet our other obligations. A prolonged downturn in the financial markets may cause us to seek alternative sources of potentially less attractive financing, and may require us to adjust our business plan accordingly. These events also may make it more difficult or costly for us to raise capital through the issuance of UDR's common or preferred stock. The disruptions in the financial markets have had and may continue to have a material adverse effect on the market value of UDR's common shares and other adverse effects on us and our business.

Prospective buyers of our properties may also experience difficulty in obtaining debt financing which might make it more difficult for us to sell properties at acceptable pricing levels. Tightening of credit in financial markets and high unemployment rates may also adversely affect the ability of tenants to meet their lease obligations and for us to continue increasing rents on a prospective basis. Disruptions in the credit and financial markets may also have other adverse effects on us and the overall economy.

A Change in U.S. Government Policy Regarding Fannie Mae or Freddie Mac Could Have a Material Adverse Impact on Our Business. Fannie Mae and Freddie Mac are a major source of financing for secured multifamily rental real estate. We and other multifamily companies depend heavily on Fannie Mae and Freddie Mac to finance growth by purchasing or guaranteeing apartment loans. In September 2008, the U.S. government assumed control of Fannie Mae and Freddie Mac and placed both companies into a government conservatorship under the Federal Housing Finance Agency. The Administration and lawmakers have proposed potential options for the future of mortgage finance in the U.S. that could involve the phase out of Fannie Mae and Freddie Mac. While we believe Fannie Mae and Freddie Mac will continue to provide liquidity to our sector, should they discontinue doing so, have their mandates changed or reduced or be disbanded or reorganized by the government, it would significantly reduce our access to debt capital and adversely affect our ability to finance or refinance existing indebtedness at competitive rates and it may adversely affect our ability to sell assets. Uncertainty in the future activity and involvement of Fannie Mae and Freddie Mac as a source of financing could negatively impact our ability to make acquisitions and make it more difficult or not possible for us to sell properties or may adversely affect the price we receive for properties that we do sell, as prospective buyers may experience increased costs of debt financing or difficulties in obtaining debt financing.

The Soundness of Financial Institutions Could Adversely Affect Us. We have relationships with many financial institutions, including lenders under our credit facilities, and, from time to time, we execute transactions with counterparties in the financial services industry. As a result, defaults by, or even rumors or questions about, financial

institutions or the financial services industry generally, could result in losses or defaults by these institutions. In the event that the volatility of the financial markets adversely affects these financial institutions or counterparties, we or other parties to the transactions with us may be unable to complete transactions as intended, which could adversely affect our business and results of operations.

Changing Interest Rates Could Increase Interest Costs and Adversely Affect Our Cash Flow and the Market Price of Our Securities. We currently have, and expect to incur in the future, interest-bearing debt at rates that vary with market interest rates. As of March 31, 2014, UDR had approximately \$696.8 million of variable rate indebtedness outstanding, which constitutes approximately 19.2% of total outstanding indebtedness as of such date. As of March 31, 2014, the Operating Partnership had approximately \$169.1 million of variable rate indebtedness outstanding, which constitutes approximately

Table of Contents

18.1% of total outstanding indebtedness to third parties as of such date. An increase in interest rates would increase our interest expenses and increase the costs of refinancing existing indebtedness and of issuing new debt. Accordingly, higher interest rates could adversely affect cash flow and our ability to service our debt and to make distributions to security holders. The effect of prolonged interest rate increases could negatively impact our ability to make acquisitions and develop properties. In addition, an increase in market interest rates may lead our security holders to demand a higher annual yield, which could adversely affect the market price of UDR's common and preferred stock and debt securities.

Interest Rate Hedging Contracts May Be Ineffective and May Result in Material Charges. From time to time when we anticipate issuing debt securities, we may seek to limit our exposure to fluctuations in interest rates during the period prior to the pricing of the securities by entering into interest rate hedging contracts. We may do this to increase the predictability of our financing costs. Also, from time to time we may rely on interest rate hedging contracts to limit our exposure under variable rate debt to unfavorable changes in market interest rates. If the terms of new debt securities are not within the parameters of, or market interest rates fall below that which we incur under a particular interest rate hedging contract, the contract is ineffective. Furthermore, the settlement of interest rate hedging contracts has involved and may in the future involve material charges. In addition, our use of interest rate hedging arrangements may expose us to additional risks, including a risk that a counterparty to a hedging arrangement may fail to honor its obligations. Developing an effective interest rate risk strategy is complex and no strategy can completely insulate us from risks associated with interest rate fluctuations. There can be no assurance that our hedging activities will have desired beneficial impact on our results of operations or financial condition. Termination of these hedging agreements typically involves costs, such as transaction fees or breakage costs.

Risks Related to Tax Laws

We Would Incur Adverse Tax Consequences if UDR Failed to Qualify as a REIT. UDR has elected to be taxed as a REIT under the Code. Our qualification as a REIT requires us to satisfy numerous requirements, some on an annual and quarterly basis, established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. We intend that our current organization and method of operation enable us to continue to qualify as a REIT, but we may not so qualify or we may not be able to remain so qualified in the future. In addition, U.S. federal income tax laws governing REITs and other corporations and the administrative interpretations of those laws may be amended at any time, potentially with retroactive effect. Future legislation, new regulations, administrative interpretations or court decisions could adversely affect our ability to qualify as a REIT or adversely affect UDR's stockholders.

If we fail to qualify as a REIT in any taxable year, we would be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates, and would not be allowed to deduct dividends paid to UDR's stockholders in computing our taxable income. Also, unless the Internal Revenue Service granted us relief under certain statutory provisions, we could not re-elect REIT status until the fifth calendar year after the year in which we first failed to qualify as a REIT. The additional tax liability from the failure to qualify as a REIT would reduce or eliminate the amount of cash available for investment or distribution to UDR's stockholders. This would likely have a significant adverse effect on the value of our securities and our ability to raise additional capital. In addition, we would no longer be required to make distributions to UDR's stockholders. Even if we continue to qualify as a REIT, we will continue to be subject to certain federal, state and local taxes on our income and property.

Dividends Paid By REITs Generally Do Not Qualify for Reduced Tax Rates. In general, the maximum U.S. federal income tax rate for dividends paid to individual U.S. shareholders is 20%. Unlike dividends received from a corporation that is not a REIT, our distributions to individual shareholders generally are not eligible for the reduced rates.

UDR May Conduct a Portion of Our Business Through Taxable REIT Subsidiaries, Which are Subject to Certain Tax Risks. We have established several taxable REIT subsidiaries. Despite UDR's qualification as a REIT, its taxable REIT subsidiaries must pay income tax on their taxable income. In addition, we must comply with various tests to continue to qualify as a REIT for federal income tax purposes, and our income from and investments in our taxable REIT

subsidiaries generally do not constitute permissible income and investments for these tests. While we will attempt to ensure that our dealings with our taxable REIT subsidiaries will not adversely affect our REIT qualification, we cannot provide assurance that we will successfully achieve that result. Furthermore, we may be subject to a 100% penalty tax, we may jeopardize our ability to retain future gains on real property sales, or our taxable REIT subsidiaries may be denied deductions, to the extent our dealings with our taxable REIT subsidiaries are not deemed to be arm's length in nature or are otherwise not respected.

REIT Distribution Requirements Limit Our Available Cash. As a REIT, UDR is subject to annual distribution requirements, which limit the amount of cash we retain for other business purposes, including amounts to fund our growth. We generally must distribute annually at least 90% of our net REIT taxable income, excluding any net capital gain, in order for our

Table of Contents

distributed earnings not to be subject to corporate income tax. We intend to make distributions to UDR's stockholders to comply with the requirements of the Code. However, differences in timing between the recognition of taxable income and the actual receipt of cash could require us to sell assets or borrow funds on a short-term or long-term basis to meet the 90% distribution requirement of the Code.

Certain Property Transfers May Generate Prohibited Transaction Income, Resulting in a Penalty Tax on Gain Attributable to the Transaction. From time to time, we may transfer or otherwise dispose of some of our properties. Under the Code, any gain resulting from transfers of properties that we hold as inventory or primarily for sale to customers in the ordinary course of business would be treated as income from a prohibited transaction and subject to a 100% penalty tax. Since we acquire properties for investment purposes, we do not believe that our occasional transfers or disposals of property are prohibited transactions. However, whether property is held for investment purposes is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. The Internal Revenue Service may contend that certain transfers or disposals of properties by us are prohibited transactions. If the Internal Revenue Service were to argue successfully that a transfer or disposition of property constituted a prohibited transaction, then we would be required to pay a 100% penalty tax on any gain allocable to us from the prohibited transaction and we may jeopardize our ability to retain future gains on real property sales. In addition, income from a prohibited transaction might adversely affect UDR's ability to satisfy the income tests for qualification as a REIT for federal income tax purposes.

We Could Face Possible State and Local Tax Audits and Adverse Changes in State and Local Tax Laws. As discussed in the risk factors above, because UDR is organized and qualifies as a REIT it is generally not subject to federal income taxes, but it is subject to certain state and local taxes. From time to time, changes in state and local tax laws or regulations are enacted, which may result in an increase in our tax liability. A shortfall in tax revenues for states and municipalities in which we own apartment communities may lead to an increase in the frequency and size of such changes. If such changes occur, we may be required to pay additional state and local taxes. These increased tax costs could adversely affect our financial condition and the amount of cash available for the payment of distributions to UDR's stockholders. In the normal course of business, entities through which we own real estate may also become subject to tax audits. If such entities become subject to state or local tax audits, the ultimate result of such audits could have an adverse effect on our financial condition.

The Operating Partnership Intends to Qualify as a Partnership, But Cannot Guarantee That It Will Qualify. The Operating Partnership intends to qualify as a partnership for federal income tax purposes at any such time that the Operating Partnership admits additional limited partners other than UDR. If classified as a partnership, the Operating Partnership generally will not be a taxable entity and will not incur federal income tax liability. However, the Operating Partnership would be treated as a corporation for federal income tax purposes if it were a "publicly traded partnership," unless at least 90% of the Operating Partnership's income was qualifying income as defined in the Code. A "publicly traded partnership" is a partnership whose partnership interests are traded on an established securities market or are readily tradable on a secondary market (or the substantial equivalent thereof). Although the Operating Partnership's partnership units are not traded on an established securities market, because of the redemption right, the Operating Partnership's units held by limited partners could be viewed as readily tradable on a secondary market (or the substantial equivalent thereof), and the Operating Partnership may not qualify for one of the "safe harbors" under the applicable tax regulations. Qualifying income for the 90% test generally includes passive income, such as real property rents, dividends and interest. The income requirements applicable to REITs and the definition of qualifying income for purposes of this 90% test are similar in most respects. The Operating Partnership may not meet this qualifying income test. If the Operating Partnership were to be taxed as a corporation, it would incur substantial tax liabilities, and UDR would then fail to qualify as a REIT for tax purposes, unless it qualified for relief under certain statutory savings provisions, and our ability to raise additional capital would be impaired.

Qualifying as a REIT Involves Highly Technical and Complex Provisions of the Code. Our qualification as a REIT involves the application of highly technical and complex Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent violation could jeopardize our REIT qualification. Moreover, new legislation, court decisions or administrative guidance, in each case possibly with retroactive effect, may make it more difficult or impossible for us to qualify as a REIT. Our qualification as a REIT will depend on our

satisfaction of certain asset, income, organizational, distribution, shareholder ownership and other requirements on a continuing basis. Our ability to satisfy the REIT income and asset tests depends upon our analysis of the characterization and fair market values of our assets, some of which are not susceptible to a precise determination and for which we will not obtain independent appraisals, and upon our ability to successfully manage the composition of our income and assets on an ongoing basis. In addition, our ability to satisfy the requirements to qualify as a REIT depends in part on the actions of third parties over which we have no control or only limited influence, including in cases where we own an equity interest in an entity that is classified as a partnership for U.S. federal income tax purposes.

Table of Contents

Risks Related to Our Organization and Ownership of UDR's Stock

Changes in Market Conditions and Volatility of Stock Prices Could Adversely Affect the Market Price of UDR's Common Stock. The stock markets, including the New York Stock Exchange ("NYSE"), on which we list UDR's common stock, have experienced significant price and volume fluctuations. As a result, the market price of UDR's common stock could be similarly volatile, and investors in UDR's common stock may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. In addition to the risks listed in this "Risk Factors" section, a number of factors could negatively affect the price per share of UDR's common stock, including:

• general market and economic conditions;

• actual or anticipated variations in UDR's quarterly operating results or dividends or UDR's payment of dividends in shares of UDR's stock;

• changes in our funds from operations or earnings estimates;

• difficulties or inability to access capital or extend or refinance existing debt;

• decreasing (or uncertainty in) real estate valuations;

• changes in market valuations of similar companies;

• publication of research reports about us or the real estate industry;

• the general reputation of real estate investment trusts and the attractiveness of their equity securities in comparison to other equity securities (including securities issued by other real estate companies);

• general stock and bond market conditions, including changes in interest rates on fixed income securities, that may lead prospective purchasers of UDR's stock to demand a higher annual yield from future dividends;

• a change in analyst ratings;

• additions or departures of key management personnel;

• adverse market reaction to any additional debt we incur in the future;

• speculation in the press or investment community;

• terrorist activity which may adversely affect the markets in which UDR's securities trade, possibly increasing market volatility and causing the further erosion of business and consumer confidence and spending;

• failure to qualify as a REIT;

• strategic decisions by us or by our competitors, such as acquisitions, divestments, spin-offs, joint ventures, strategic investments or changes in business strategy;

• failure to satisfy listing requirements of the NYSE;

• governmental regulatory action and changes in tax laws; and

the issuance of additional shares of UDR's common stock, or the perception that such sales might occur, including under UDR's at-the-market equity distribution program.

Many of the factors listed above are beyond our control. These factors may cause the market price of shares of UDR's common stock to decline, regardless of our financial condition, results of operations, business or our prospects.

We May Change the Dividend Policy for UDR's Common Stock in the Future. The decision to declare and pay dividends on UDR's common stock, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our board of directors and will depend on our earnings, funds from operations, liquidity, financial condition,

Table of Contents

capital requirements, contractual prohibitions or other limitations under our indebtedness, the annual distribution requirements under the REIT provisions of the Code, state law and such other factors as our board of directors considers relevant. Any change in our dividend policy could have a material adverse effect on the market price of UDR's common stock.

Maryland Law May Limit the Ability of a Third Party to Acquire Control of Us, Which May Not be in UDR's Stockholders' Best Interests. Maryland business statutes may limit the ability of a third party to acquire control of us. As a Maryland corporation, we are subject to various Maryland laws which may have the effect of discouraging offers to acquire our Company and of increasing the difficulty of consummating any such offers, even if our acquisition would be in UDR's stockholders' best interests. The Maryland General Corporation Law restricts mergers and other business combination transactions between us and any person who acquires beneficial ownership of shares of UDR's stock representing 10% or more of the voting power without our board of directors' prior approval. Any such business combination transaction could not be completed until five years after the person acquired such voting power, and generally only with the approval of stockholders representing 80% of all votes entitled to be cast and 66 2/3% of the votes entitled to be cast, excluding the interested stockholder, or upon payment of a fair price. Maryland law also provides generally that a person who acquires shares of our equity stock that represents 10% (and certain higher levels) of the voting power in electing directors will have no voting rights unless approved by a vote of two-thirds of the shares eligible to vote.

Limitations on Share Ownership and Limitations on the Ability of UDR's Stockholders to Effect a Change in Control of Our Company Restricts the Transferability of UDR's Stock and May Prevent Takeovers That are Beneficial to UDR's Stockholders. One of the requirements for maintenance of our qualification as a REIT for U.S. federal income tax purposes is that no more than 50% in value of our outstanding capital stock may be owned by five or fewer individuals, including entities specified in the Code, during the last half of any taxable year. Our charter contains ownership and transfer restrictions relating to UDR's stock primarily to assist us in complying with this and other REIT ownership requirements; however, the restrictions may have the effect of preventing a change of control, which does not threaten REIT status. These restrictions include a provision that generally limits ownership by any person of more than 9.9% of the value of our outstanding equity stock, unless our board of directors exempts the person from such ownership limitation, provided that any such exemption shall not allow the person to exceed 13% of the value of our outstanding equity stock. Absent such an exemption from our board of directors, the transfer of UDR's stock to any person in excess of the applicable ownership limit, or any transfer of shares of such stock in violation of the ownership requirements of the Code for REITs, will be considered null and void, and the intended transferee of such stock will acquire no rights in such shares. These provisions of our charter may have the effect of delaying, deferring or preventing someone from taking control of us, even though a change of control might involve a premium price for UDR's stockholders or might otherwise be in UDR's stockholders' best interests.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sales of Equity Securities

From time to time the Company issues shares of the Company's common stock in exchange for operating partnership units ("OP Units") tendered to the Operating Partnership, for redemption in accordance with the provisions of the Operating Partnership's limited partnership agreement. The holders of limited partnership OP Units have the right to require the Operating Partnership to redeem all or a portion of their limited partnership OP Units in exchange for a cash payment based on the market value of our common stock at the time of redemption. However, the Operating Partnership's obligation to pay the cash amount is subject to the prior right of the Company to acquire such OP Units in exchange for either the Cash Amount or the number of shares of the Company's common stock equal to the number of OP Units being redeemed. During the quarter ended March 31, 2014, we did not issue any shares of our common stock upon redemption of OP Units.

Repurchase of Equity Securities

In February 2006, UDR's Board of Directors authorized a 10 million share repurchase program. In January 2008, our Board of Directors authorized a new 15 million share repurchase program. Under the two share repurchase programs, UDR may repurchase shares of our common stock in open market purchases, block purchases, privately negotiated transactions or otherwise. As reflected in the table below, no shares of common stock were repurchased under these

programs during the quarter ended March 31, 2014.

94

Table of Contents

Period	Total Number of Shares Purchased	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
Beginning Balance	9,967,490	\$22.00	9,967,490	15,032,510
January 1, 2014 through January 31, 2014	—	—	—	15,032,510
February 1, 2014 through February 28, 2014	—	—	—	15,032,510
March 1, 2014 through March 31, 2014	—	—	—	15,032,510
Balance as of March 31, 2014	9,967,490	\$22.00	9,967,490	15,032,510

(1) This number reflects the amount of shares that were available for purchase under our 10,000,000 share repurchase program authorized in February 2006 and our 15,000,000 share repurchase program authorized in January 2008.

EXHIBIT INDEX

Exhibit No.	Description
3.1	Articles of Restatement of UDR, Inc. (incorporated by reference to Exhibit 3.09 to UDR, Inc.'s Current Report on Form 8-K dated July 27, 2005 and filed with the SEC on August 1, 2005).
3.2	Articles of Amendment to the Articles of Restatement of UDR, Inc. dated and filed with the State Department of Assessments and Taxation of the State of Maryland on March 14, 2007 (incorporated by reference to Exhibit 3.2 to UDR, Inc.'s Current Report on Form 8-K dated March 14, 2007 and filed with the SEC on March 15, 2007).
3.3	Articles of Amendment to the Articles of Restatement of UDR, Inc. dated and filed with the State Department of Assessments and Taxation of the State of Maryland on August 30, 2011 (incorporated by reference to Exhibit 3.1 to UDR, Inc.'s Current Report on Form 8-K dated and filed with the SEC on September 1, 2011).
3.4	Certificate of Limited Partnership of United Dominion Realty, L.P. dated February 19, 2004 (incorporated by reference to Exhibit 3.4 to United Dominion Realty, L.P.'s Post-Effective Amendment No. 1 to Registration Statement on Form S-3 dated and filed with the SEC on October 15, 2010).
3.5	Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. dated as of February 23, 2004 (incorporated by reference to Exhibit 10.23 to UDR, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2003).
3.6	First Amendment to the Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. dated June 24, 2005 (incorporated by reference to Exhibit 10.06 to UDR, Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2005).
3.7	Second Amendment to the Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. dated February 23, 2006 (incorporated by reference to Exhibit 10.6 to UDR, Inc.'s Quarterly Report on Form 10-Q for the quarter ended March 31, 2006).
3.8	Third Amendment to the Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. dated February 2, 2007 (incorporated by reference to Exhibit 99.1 to UDR, Inc.'s Quarterly Report on Form 10-Q for the quarter ended September 30, 2009).
3.9	Fourth Amendment to the Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. dated December 27, 2007 (incorporated by reference to Exhibit 10.25 to UDR, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2007).

EXHIBIT 12.1

UDR, Inc.

Computation of Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends

(Dollars in thousands)

	Three Months Ended March 31,		
	2014	2013	
Earnings:			
Income/(loss) from continuing operations	\$(5,195)	\$(1,162)	
Add (from continuing operations):			
Interest on indebtedness (1)	32,884	30,981	
Portion of rents representative of the interest factor	564	521	
Total earnings	\$28,253	\$30,340	
Fixed charges and preferred stock dividends (from continuing operations):			
Interest on indebtedness (1)	\$32,884	\$30,981	
Interest capitalized	5,308	8,371	
Portion of rents representative of the interest factor	564	521	
Fixed charges	\$38,756	\$39,873	
Add:			
Preferred stock dividends	\$931	\$931	
Combined fixed charges and preferred stock dividends	\$39,687	\$40,804	
Ratio of earnings to fixed charges	—	(2)—	(2)
Ratio of earnings to combined fixed charges and preferred stock dividends	—	(3)—	(3)

(1) Includes interest expense of consolidated subsidiaries, amortization of deferred loan costs, realized losses related to hedging activities and amortization of premiums and discounts related to indebtedness.

(2) The ratio was less than 1:1 for the three months ended March 31, 2014 and 2013 as earnings were inadequate to cover fixed charges by deficiencies of approximately \$10.5 million and \$9.5 million, respectively.

(3) The ratio was less than 1:1 for the three months ended March 31, 2014 and 2013 as earnings were inadequate to cover combined fixed charges and preferred stock dividends by deficiencies of approximately \$11.4 million and \$10.5 million, respectively.

CERTIFICATION

I, Thomas W. Toomey, certify that:

1. I have reviewed this quarterly report on Form 10-Q of UDR, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
