99.1 Press release regarding Flanders Q1 Earnings \$0.09 per Share

**Exhibit 99.1**

***PRESS RELEASE***

**FOR IMMEDIATE RELEASE**

**Flanders Q1 Earnings \$0.09 per Share**

**St. Petersburg, Florida, April 20, 2005** Flanders Corporation (NASDAQ:FLDR), today announced its results for the first quarter ended March 31, 2005. Earnings from operations were \$2.5 million or \$0.09 per share, up 66.7% from \$1.5 million, or \$0.06 per share for the first quarter ended March 31, 2004. Revenues for the first quarter were \$49.8 million up 10% from \$45.4 million for the first quarter 2004.

Steve Clark, President and C.E.O., commented, "We are pleased with our first quarter performance. We continued to see revenue growth amongst all product lines. We benefited from controlling operating expenses for the quarter thus enabling us to meet our operating budget for the quarter. We expect to improve our results going forward ."

Robert Amerson, Chairman of the Board, commented "Our results are a testament to the success of our integration and product expansion. We also continuing see a tremendous amount of interest in our high-end containment products for government and commercial settings. We are working on acquiring contracts in this area, and believe that success in this area should have a major impact on our operations. This is a developing market, and we have a competitive advantage with these customers, given our long experience in what was, historically, a niche specialty manufacturing area. We are also continuing the process to implement Flanders CSD (Flanders Complete Service Division), which continues our plan of using vertical markets and leveraging our success. The success of this division should continue to allow us to post record results ."

**Conference Call**

Edgar Filing: FLANDERS CORP - Form 8-K

The Company has scheduled a conference call for Thursday, April 21, 2005 at 11:00 EST. People wishing to participate in the conference call should dial 1-877-691-0877 ten minutes prior to the call.

Flanders is a leading air filtration products manufacturer. Flanders' products are utilized by many industries, including those associated with commercial and residential heating, ventilation and air conditioning systems, semiconductor manufacturing, ultra-pure materials, biotechnology, pharmaceuticals, synthetics, nuclear power and nuclear materials

processing.

This press release contains forward-looking statements that are inherently subject to risk. These forward-looking statements are not intended to be promises or predictions of the future and may be affected by a number of factors that may change the currently anticipated outcome. These factors include market acceptance of Flanders' products, competition in the marketplace for Flanders' products, the success of retailers and distributors through which Flanders sells its products, Flanders' ability to contain costs and maintain production and efficiency with a reduced workforce, a determination by potential Flanders customers that the higher cost of its high-end filtration systems can be justified for general application, Flanders' ability to successfully retrofit existing buildings with effective sophisticated filtering and air handling systems, the ability to increase its high end containment products for commercial and governmental settings, the success of Flanders CSD (Flanders Complete Services Division), the ability to continue implementation of vertical integration of our raw material supplies and the development of increased demand for its high-end products. Many of these factors are not within Flanders' control. These factors, and others, are discussed in Flanders periodic reports filed with the Securities and Exchange Commission and should be reviewed by the reader of this press release.
