Item 2.05 Costs Associated with Exit or Disposal Activities.

On May 22, 2015, management of DENTSPLY International Inc. (the “Company”) approved a restructuring plan for portions of its laboratory business within the Dental Consumables, Endodontic and Dental Laboratory Businesses segment. The realignment of the lab business is designed to increase emphasis on innovative prosthetic materials while exiting portions of the lab equipment and fabrication businesses. The majority of the restructuring will be implemented during the remainder of fiscal 2015 and 2016.

As a result of this decision, management expects to record total costs of \$33 to \$38 million associated with this initiative, the majority of which will be recorded in the second quarter of 2015. Approximately 85% of the costs will be cash outlays, including those relating to severance and employee related costs, and are anticipated to substantially occur during the remainder of 2015. This initiative impacts certain manufacturing operations from two sites in Germany, one of which will be closed and another that will be downsized.

The Company is still finalizing amounts related to this action and it is possible that charges in addition to those described above may be recognized in future periods. The Company will provide additional details in its Form 10-Q for the quarter ended June 30, 2015.

A copy of the Company’s press release announcing this action is attached hereto as Exhibit 99 and is incorporated herein by reference.
