LETTER FROM THE CHAIRMAN

Dear Shareholder:

We present this annual report for Dreyfus Municipal Income, Inc., covering the 12-month period from October 1, 2001 through September 30, 2002. Inside, you'll find valuable information about how the fund was managed during the reporting period, including a discussion with the fund's portfolio manager, Joseph Darcy.

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

As a falling stock market dominated the financial headlines during the reporting period, bonds generally produced relatively attractive returns. Prices of bonds that are more interest-rate sensitive, such as high quality municipal securities, rallied as investors revised their expectations of the direction and timing of future interest-rate changes. On the other hand, the war on terrorism, instability in the Middle East and new disclosures of questionable accounting practices among U.S. corporations generally hurt securities that are more credit sensitive, such as lower rated bonds.

Although negative investor sentiment has created a challenging market environment over the near term, we believe that the most critical issue for long-term performance is not investor psychology, but whether the economy and corporate profits achieve a sustainable uptrend. We have recently seen a number of positive fundamental factors suggesting that a moderate, if uneven, expansion of economic activity is likely.

If you have questions or are worried about current market conditions, we encourage you to talk with your financial advisor who can help you view current events from the perspective of long-term market trends. In the meantime, we at The Dreyfus Corporation intend to continue basing our investment decisions on an objective, long-term view of the financial markets.

Thank you for your continued confidence and support.

Sincerely,

/s/ Stephen E. Canter

DISCUSSION OF FUND PERFORMANCE

Joseph Darcy, Portfolio Manager

How did Dreyfus Municipal Income, Inc. perform during the period?

For the 12-month period ended September 30, 2002, the fund achieved a total return of 7.73%.⁽¹⁾ Over the same period, the fund provided income dividends of \$0.5640 per share, which is equal to a distribution rate of 5.88%.⁽²⁾

We attribute the fund's generally strong performance during the reporting period to declining interest rates, a weak economic recovery and surging investor demand for high quality, tax-exempt bonds.

What is the fund's investment approach?

The fund seeks to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital from a portfolio that, under normal market conditions, invests at least 80% of the value of its net assets in municipal obligations. Under normal market conditions, the fund invests in municipal obligations which, at the time of purchase, are rated investment grade or the unrated equivalent as determined by Dreyfus in the case of bonds, and rated in the two highest rating categories or the unrated equivalent as determined by Dreyfus in the case of short-term obligations having, or deemed to have, maturities of less than one year.

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

We generally employ two primary strategies. First, we attempt to add value by evaluating interest-rate trends and supply-and-demand factors. Based on that assessment, we look for bonds that we believe can potentially provide high current levels of income. We look at such criteria as the bond's yield, price, age, the creditworthiness of its issuer and any provisions for early redemption

Second, we actively manage the fund's average duration -- a measure of sensitivity to changes in interest rates -- in anticipation of temporary supply-and-demand changes. For example, if we expect the sup-

The Fund 3

DISCUSSION OF FUND PERFORMANCE (CONTINUED)

ply of newly issued bonds to increase temporarily, we may reduce the fund's average duration to make cash available for the purchase of what we believe can potentially be higher yielding securities. Conversely, if we expect demand for municipal bonds to surge at a time when we anticipate little issuance, we may increase the fund's average duration to maintain then current yields for as long as we deem appropriate.

When bonds held by the fund mature or are redeemed by their issuers, we generally attempt to replace them with newly issued comparable securities. We also may look to upgrade the portfolio investments, when we deem appropriate, with newly issued bonds that, in our opinion, have better structural or income characteristics than existing holdings.

What other factors influenced the fund's performance?

When the reporting period began, the 2001 recession had just been intensified by the September 11 terrorist attacks. In an attempt to stimulate renewed economic growth, the Federal Reserve Board continued to reduce short-term interest rates aggressively. Although lower interest rates effectively spurred consumer borrowing and spending, corporations continued to cancel or postpone their capital spending plans, and the 2002 economic recovery proved to be weaker than most investors expected.

In this declining interest-rate environment, municipal bonds posted highly competitive returns. Tax-exempt bond prices were further supported by surging demand from investors who flocked to municipal bonds as an alternative to a volatile stock market.

The combination of a faltering U.S. economy and low interest rates caused the national supply of newly issued municipal bonds to rise sharply compared to the same period one year earlier. States and municipalities took advantage of historically low borrowing costs, and tax-revenue shortfalls caused many to issue securities in order to bridge budget gaps. While a rising supply of securities usually leads to higher yields, robust investor demand easily absorbed the additional issuance, and yields remained low.

In this market environment, we continued our efforts to seek investment opportunities consistent with the fund's investment objective and man

4

agement policies. For example, many states have issued bonds backed by litigation settlements with the nation's tobacco companies, and these so-called "tobacco bonds" have featured relatively attractive yields.

Because the 2001 recession adversely affected tax revenues, we have attempted to reduce the fund's holdings of tax-exempt bonds issued on behalf of corporations. However, the fund's existing holdings of airline and airport bonds continued to languish after being hard-hit by the September 11 terrorist attacks. In view of

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

the rapid decline in the value of these securities after these tragic events, it has made little economic sense to us at this time to liquidate them. In the meantime, these bonds have continued to pay what we view as competitive levels of federally tax-exempt income.

Finally, despite the reporting period's low interest rates, we were able to increase the fund's dividend distribution rate during the reporting period. That's because we locked in low rates on the fund's auction-rate preferred shares, which were first issued several years ago to provide the leverage required to enhance the fund's income stream. By extending the maturities of the fund's auction-rate preferred shares to as much as one year, we have effectively locked in today's historically low borrowing costs.

What is the fund's current strategy?

The fund has remained fully invested in tax-exempt bonds, using auction-rate preferred shares to maintain a competitive income stream in today's low interest-rate environment. At the same time, we have continued to maintain a cautious posture, focusing on income and credit quality in an uncertain economic and market climate.

The Fund

NOTES TO FINANCIAL STATEMENTS

NOTE 1--Significant Accounting Policies:

Dreyfus Municipal Income, Inc. (the "fund") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a non-diversified closed-end management investment company. The fund's investment objective is to maximize current income exempt from Federal income tax to the extent consistent with the preservation of capital. The Dreyfus Corporation (the "Manager") serves as the fund's investment adviser. The Manager is a direct subsidiary of Mellon Bank, N.A. ("Mellon"), which is a wholly-owned subsidiary of Mellon Financial

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

Corporation. The fund's Common Stock trades on the New York Stock Exchange under the ticker symbol DMF.

The fund has issued and outstanding 2,000 shares of Series A and 2,000 shares of Series B Auction Preferred Stock ("APS"), with a liquidation preference of \$25,000 per share (plus an amount equal to accumulated but unpaid dividends upon liquidation). APS dividend rates are determined pursuant to periodic auctions. Bankers Trust, as Auction Agent, receives a fee from the fund for its services in connection with such auctions. The fund also compensates broker-dealers generally at an annual rate of .25% of the purchase price of the shares of APS placed by the broker-dealer in an auction.

The fund is subject to certain restrictions relating to the APS. Failure to comply with these restrictions could preclude the fund from declaring any distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of APS at liquidation value.

The holders of the APS, voting as a separate class, have the right to elect at least two directors. The holders of the APS will vote as a separate class on certain other matters, as required by law. The fund has designated Whitney I. Gerard and George L. Perry to represent holders of APS on the fund's Board of Directors.

The fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States, which

18

may require the use of management estimates and assumptions. Actual results could differ from those estimates.

(a) Portfolio valuation: Investments in municipal debt securities (excluding options and financial futures on municipal and U.S. Treasury securities) are valued daily by an independent pricing service (the "Service") approved by the Board of Directors. Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Options and financial futures on municipal and U.S. Treasury securities are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales price on the national securities market on each business day.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gain and loss from securities transactions are recorded on the identified cost basis. Interest income, adjusted for amortization of premiums and discounts on investments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date.

(c) Dividends to shareholders of Common Stock ("Common Shareholder(s)": Dividends are recorded on the ex-dividend date. Dividends from investment income-net are declared and paid monthly. Dividends from net realized capital gain, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

The Fund 19

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gain can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gain.

For Common Shareholders who elect to receive their distributions in additional shares of the fund, in lieu of cash, such distributions will be reinvested at the lower of the market price or net asset value per share (but not less than 95% of the market price) as defined in the dividend reinvestment plan

On September 27, 2002, the Board of Directors declared a cash dividend to Common Shareholders of \$.05 per share from investment income-net, payable on October 25, 2002 to Common Shareholders of record as of the close of business on October 11, 2002.

(d) Dividends to shareholders of APS: For APS, dividends are currently reset every 7 days for Series A and annually for Series B. The dividend rates in effect at September 30, 2002 were as follows: Series A 1.25% and Series B 2.00%

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax exempt dividends, by complying with the applicable provisions of the Code, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

At September 30, 2002, the components of accumulated earnings on a tax basis were as follows: undistributed tax exempt income \$3,342,621, accumulated capital losses \$8,181,604 and unrealized appreciation \$16,013,200. In addition, the fund had \$447,255 of capital losses realized after October 31, 2001, which were deferred for tax purposes to the first day of the following fiscal year.

The accumulated capital loss carryover is available to be applied against future net securities profits, if any, realized subsequent to September 30, 2002. If not applied, \$4,999,899 of the carryover expires in fiscal 2004, \$1,148,413 expires in fiscal 2008, \$619,742 expires in fiscal 2009 and \$1,413,550 expires in fiscal 2010.

20

The tax character of distributions paid to shareholders during the fiscal periods ended September 30, 2002 and September 30, 2001, respectively, were as follows: tax exempt income \$13,139,028 and \$14,116,466.

During the period ended September 30, 2002, as a result of permanent book to tax differences, the fund decreased accumulated undistributed investment income-net by \$52,176, decreased accumulated net realized gain (loss) on investments by \$491 and increased paid-in capital by \$52,667. Net assets were not affected by this reclassification.

NOTE 2--Bank Line of Credit:

The fund participates with other Dreyfus-managed funds in a \$100 million unsecured line of credit primarily to be utilized for temporary or emergency purposes. Interest is charged to the fund based on prevailing market rates in effect at the time of borrowings. During the period ended September 30, 2002, the fund did not borrow under the line of credit.

NOTE 3--Management Fee and Other Transactions With Affiliates:

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

(a) Pursuant to a management agreement ("Agreement") with the Manager, the management fee is computed at the annual rate of .70 of 1% of the value of the fund's average daily net assets and is payable monthly. The Agreement provides that if in any full fiscal year the aggregate expenses of the fund, exclusive of taxes, interest on borrowings, brokerage fees and extraordinary expenses, exceed the expense limitation of any state having jurisdiction over the fund, the fund may deduct from payments to be made to the Manager, or the Manager will bear the amount of such excess to the extent required by state law. During the period ended September 30, 2002, there was no expense reimbursement pursuant to the Agreement.

(b) The fund compensates Mellon under a transfer agency agreement for providing personnel and facilities to perform transfer agency services for the fund. During the period ended September 30, 2002, the fund was charged \$57,379 pursuant to the transfer agency agreement.

The Fund 21

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The fund compensates Mellon under a custody agreement for providing custodial services for the fund. During the period ended September 30, 2002, the fund was charged \$21,941 pursuant to the custody agreement.

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex (collectively, the "Fund Group"). Each Board member who is not an "affiliated person" as defined in the Act receives an annual fee of \$45,000 and an attendance fee of \$5,000 for each in person meeting and \$500 for telephone meetings. These fees are allocated among the funds in the Fund Group. The Chairman of the Board receives an additional 25% of such compensation. Subject to the fund's Emeritus Program Guidelines, Emeritus Board members, if any, receive 50% of the annual retainer fee and per meeting fee paid at the time the Board member achieves emeritus status.

NOTE 4--Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended September 30, 2002, amounted to \$17,177,288 and \$15,206,538, respectively.

At September 30, 2002, the cost of investments for federal income tax purposes was \$278,149,674; accordingly, accumulated net unrealized appreciation on investments was \$16,013,200, consisting of \$21,047,677 gross unrealized appreciation and \$5,034,477 gross unrealized depreciation.

NOTE 5--Change in Accounting Principle:

(a) As required, effective October 1, 2001, the fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing discount or premium on a scientific basis for debt securities on a daily basis. Prior to October 1, 2001, the fund amortized premiums on a scientific basis but recognized market discount upon disposition. The cumulative effect of this accounting change had no impact on total net assets of the fund, but resulted in a

22

\$40,967 increase in accumulated undistributed investment income-net and a corresponding \$40,967 decrease in accumulated net unrealized appreciation (depreciation), based on securities held by the fund on September 30, 2001

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

The effect of this change for the period ended September 30, 2002 was to increase net investment income by \$11,209, decrease net unrealized appreciation (depreciation) by \$8,695 and decrease net realized gains (losses) by \$2,514. The statement of changes in net assets and financial highlights for prior periods have not been restated to reflect this change in presentation.

(b) Effective October 1, 2000, the fund adopted the classification requirement of EITF D-98, Classification and Measurement of Redeemable Securities. EITF D-98 requires that preferred stock for which its redemption is outside of the fund's control should be presented outside of net assets in the statement of assets and liabilities. The redemption of the fund's preferred stock is outside of the control of the fund because of provisions in the fund's Articles Supplementary Creating Two Series of Auction Preferred Stock relating to compliance with rating agency guidelines. In adopting EITF D-98, the fund's net assets as of October 1, 2000 in the statement of changes in net assets is restated by excluding preferred stock valued at \$100,000,000 at that date. The adoption also resulted in dividends on preferred stock being reclassified from distributions on the statement of changes in net assets to a separate line item within the statement of operations. This resulted in a decrease of \$1,643,057 and \$3,354,280 to net assets from operations for the periods ended September 30, 2002 and September 30, 2001, respectively. As part of the adoption, per share distributions of dividends on preferred stock were reclassified from distributions to amounts from investment operations for each period presented in the financial highlights.

REPORT OF INDEPENDENT AUDITORS

Shareholders and Board of Directors

Dreyfus Municipal Income, Inc.

We have audited the accompanying statement of assets and liabilities of Dreyfus Municipal Income, Inc., including the statement of investments, as of September 30, 2002, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the years indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included verification by examination of securities held by the custodian as of September 30, 2002 and confirmation of securities not held by the custodian by correspondence with others. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Dreyfus Municipal Income, Inc. at September 30, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated years, in conformity with accounting principles generally accepted in the United States.

ADDITIONAL INFORMATION (Unaudited)

Dividend Reinvestment Plan

Under the fund's Dividend Reinvestment Plan (the "Plan"), a Common Shareholder who has fund shares registered in his name will have all dividends and distributions reinvested automatically by Mellon, as Plan agent (the "Agent"), in additional shares of the fund at the lower of prevailing market price or net asset value (but not less than 95% of market value at the time of valuation) unless such Common Shareholder elects to receive cash as provided below. If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price or if a cash dividend only is declared, the Agent, as agent for the Plan participants, will buy fund shares in the open market. A Plan participant is not relieved of any income tax that may be payable on such dividends or distributions.

A Common Shareholder who owns fund shares registered in nominee name through his broker/dealer (i.e., in "street name") may not participate in the Plan, but may elect to have cash dividends and distributions reinvested by his broker/dealer in additional shares of the fund if such service is provided by the broker/dealer; otherwise such dividends and distributions will be treated like any other cash dividend or distribution.

A Common Shareholder who has fund shares registered in his name may elect to withdraw from the Plan at any time for a \$5.00 fee and thereby elect to receive cash in lieu of shares of the fund. Changes in elections must be in writing, sent to Mellon Bank, c/o ChaseMellon Shareholder Services, Shareholder Investment Plan, P.O. Box 3338, South Hackensack, New Jersey 07606, should include the shareholder's name and address as they appear on the Agent's records and will be effective only if received more than ten business days prior to the record date for any distribution.

The Agent maintains all Common Shareholder accounts in the Plan and furnishes written confirmations of all transactions in the account. Shares in the account of each Plan participant will be held by the

The Fund 25

Agent in non-certificated form in the name of the participant, and each such participant's proxy will include those shares purchased pursuant to the Plan.

The fund pays the Agent's fee for reinvestment of dividends and distributions. Plan participants pay a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchases in connection with the reinvestment of dividends or distributions.

The fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to notice of the change sent to Plan participants at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by the Agent on at least 90 days' written notice to Plan participants.

Edgar Filing: DREYFUS MUNICIPAL INCOME INC - Form N-30D

Managed Dividend Policy

The fund's dividend policy is to distribute substantially all of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more consistent yield to the current trading price of shares of Common Stock of the fund, the fund may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the fund for any particular month may be more or less than the amount of net investment income earned by the fund during such month. The fund's current accumulated but undistributed net investment income, if any, is disclosed in the Statement of Assets and Liabilities, which comprises part of the Financial Information included in this report.

Benefits and Risks of Leveraging

The fund utilizes leverage to seek to enhance the yield and net asset value of its Common Stock. These objectives cannot be achieved in all interest rate environments. To leverage, the fund issues Preferred Stock, which pays dividends at prevailing short-term interest rates, and invests

26

the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the fund's Common Stock. In order to benefit Common Shareholders, the yield curve must be positively sloped: that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders. If either of these conditions change, then the risk of leveraging will begin to outweigh the benefits.

Supplemental Information

For the period ended September 30, 2002, there were: (i) no material changes in the fund's investment objectives or policies, (ii) no changes in the fund's charter or by-laws that would delay or prevent a change of control of the fund, (iii) no material changes in the principal risk factors associated with investment in the fund, and (iv) no changes in the person primarily responsible for the day-to-day management of the fund's portfolio.

The Fund 27

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby designates all the dividends paid from investment income-net during the fiscal year ended September 30, 2002 as "exempt-interest dividends" (not generally subject to regular federal income tax) .

As required by federal tax law rules, shareholders will receive notification of their portion of the fund's taxable ordinary dividends (if any) and capital gain distributions (if any) paid for the 2002 calendar year on Form 1099-DIV which will be mailed by January 31, 2003.
