SONIC CORP.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(In thousands, except per share data)****1. Basis of Presentation**

The unaudited Condensed Consolidated Financial Statements include all adjustments, consisting of normal, recurring accruals, which Sonic Corp. (the "Company") considers necessary for a fair presentation of the financial position and the results of operations for the indicated periods. In certain situations, these accruals, including franchise royalties, are based on more limited information at interim reporting dates than at the Company's fiscal year end due to the abbreviated reporting period. Actual results may differ from these estimates. The notes to the condensed consolidated financial statements should be read in conjunction with the notes to the consolidated financial statements contained in the Company's Form 10-K for the fiscal year ended August 31, 2006. The results of operations for the three- and six-month periods ended February 28, 2007, are not necessarily indicative of the results to be expected for the full year ending August 31, 2007.

2. Reclassifications

Certain amounts have been reclassified on the condensed consolidated financial statements to conform to the fiscal year 2007 presentation.

3. Net Income per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended		Six months ended	
	February 28,		February 28,	
	2007	2006	2007	2006
Numerator:				
Net income	\$ 6,225	\$ 12,904	\$ 21,511	\$ 29,334
Denominator:				
Weighted average shares outstanding – basic	67,325	86,227	71,966	86,821
Effect of dilutive employee stock options	2,701	3,034	2,791	3,070
Weighted average shares – diluted	70,026	89,261	74,757	89,891
Net income per share – basic	\$.09	\$.15	\$.30	\$.34
Net income per share – diluted	\$.09	\$.14	\$.29	\$.33

All references to numbers of shares outstanding and per share amounts in this Form 10-Q reflect the effect of the Company's three-for-two stock split in April 2006.

4. Contingencies

The Company is involved in various legal proceedings and has certain unresolved claims pending. Based on the information currently available, management believes that all claims currently pending are either covered by insurance or would not have a material adverse effect on the Company's business or financial condition.

The Company has an agreement with GE Capital Franchise Finance Corporation ("GEC"), pursuant to which GEC made loans to existing Sonic franchisees who met certain underwriting criteria set by GEC. Under the terms of the

agreement with GEC, the Company provided a guarantee of 10% of the outstanding balance of loans from GEC to the Sonic franchisees, limited to a maximum amount of \$5,000. As of February 28, 2007, the total amount guaranteed under the GEC agreement was \$2,410. The Company ceased guaranteeing new loans under the program during fiscal year 2002 and has not been required to make any payments under its agreement with GEC. Existing loans under guarantee will expire through 2012. In the event of default by a franchisee, the Company has the option to fulfill the franchisee's obligations under the note or to become the note holder, which would provide an avenue of recourse with the franchisee under the notes.

6

The Company has obligations under various lease agreements with third party lessors related to the real estate for Partner Drive-Ins that were sold to franchisees. Under these agreements, the Company remains secondarily liable for the lease payments for which it was responsible as the original lessee. As of February 28, 2007, the amount remaining under the guaranteed lease obligations totaled \$3,957.

Effective November 30, 2005, the Company extended a note purchase agreement to a bank that serves to guarantee the repayment of a franchisee loan and also benefits the franchisee with a lower financing rate. In the event of default by the franchisee, the Company would purchase the franchisee loan from the bank, thereby becoming the note holder and providing an avenue of recourse with the franchisee. As of February 28, 2007, the balance of the loan was \$2,255.

The Company has not recorded a liability for its obligations under the guarantees, other than an immaterial amount related to the fair value of the guarantee associated with the note purchase agreement, and none of the notes or leases related to the guarantees were in default as of February 28, 2007.

5. Other Comprehensive Income

In August 2006, the Company entered into a forward starting swap agreement with a financial institution to hedge part of the exposure to changing interest rates until the securitized debt, discussed in Note 8, was closed in December 2006. The forward starting swap was designated as a cash flow hedge, and was subsequently settled in conjunction with the closing of the securitized debt in December 2006, as planned. The loss resulting from settlement was recorded in accumulated other comprehensive income and will be amortized to interest expense over the remaining term of the securitized debt. The ineffective portion of the hedge was \$275 and was recorded in debt extinguishment and other costs on the income statement in the second quarter of fiscal 2007. The cash flows resulting from these hedge transactions are included in cash flows from operating activities on the statement of cash flows.

The following table presents the components of comprehensive income:

	Three months ended		Six months ended	
	February 28,		February 28,	
	2007	2006	2007	2006
Net Income	\$ 6,225	\$ 12,904	\$ 21,511	\$ 29,334
Decrease (increase) in deferred hedging loss	958	(160)	(2,593)	(160)
Total comprehensive income	\$ 7,183	\$ 12,744	\$ 18,918	\$ 29,174

6. Share Repurchase Program

In addition to shares repurchased under the tender offer described below, 3,480 shares were acquired pursuant to the Company's Board-approved share repurchase program at an average price of \$22.62 per share for a total cost of \$78,707 during the first half of fiscal 2007. On January 31, 2007, the Board of Directors approved an increase in the Company's share repurchase program from \$10,705 to \$100,000. The total remaining amount authorized for repurchase as of February 28, 2007 was \$100,000 and is currently scheduled to expire August 31, 2007. Share repurchases continued after February 28, 2007, and, through April 5, 2007, an additional 1,712 shares were repurchased at an average price of \$20.88 for a total cost of \$35,747, leaving \$64,253 authorized for repurchase.

7. Tender Offer and Related Debt

On October 13, 2006, as part of a "modified Dutch auction" tender offer, the Company repurchased 15,918 shares of its common stock that were properly tendered and not withdrawn, at a purchase price of \$23.00 per share for a total purchase price of \$366,117. Costs incurred in relation to the tender offer totaled \$1,205 and are included in treasury stock, resulting in an average cost of \$23.08 per share for the tender offer shares.

The Company originally funded the repurchase of the shares of its common stock with the proceeds from new senior secured credit facilities. The new credit facilities consisted of a \$100,000, five-year revolving credit facility and a \$486,000, seven-year term loan facility. Loan origination costs associated with this debt totaled \$4,631, and the unamortized loan origination costs of \$4,544 were expensed as debt extinguishment costs in the second fiscal quarter of 2007 as a result of the subsequent refinancing further discussed in Note 8.

7

8. Securitized Debt

On December 20, 2006, various subsidiaries of the Company issued \$600,000 of Fixed Rate Series 2006-1 Senior Notes, Class A-2 (the "Fixed Rate Notes") in a private transaction. These proceeds were used to refinance the outstanding balance under the senior secured credit facility, along with costs associated with the transaction. The Fixed Rate Notes are the first issuance under a facility that will allow Sonic to issue additional series of notes in the future subject to certain conditions. The Fixed Rate Notes have a contract monthly average fixed interest rate of 5.7%, subject to upward adjustment after the expected six-year repayment term. The effective weighted average fixed interest rate is approximately 5.9% on the Fixed Rate Notes, after giving effect to the forward starting swap discussed in Note 5. At February 28, 2007, the balance outstanding under the Fixed Rate Notes totaled \$599,761. Loan origination costs associated with this debt totaled \$23,760 and are included in debt origination costs and other assets, net as of February 28, 2007. Amortization of these loan costs produces an overall weighted average interest cost of 6.7% on the Fixed Rate Notes. The Fixed Rate Notes have an expected life of six years, with a legal final repayment date in December 2031.

In connection with the issuance of the Fixed Rate Notes, certain subsidiaries of the Company also completed a securitized financing facility of Variable Rate Series 2006-1 Senior Variable Funding Notes, Class A-1 (the "Variable Funding Notes"), which allows for the issuance of up to \$200,000 of Variable Funding Notes and certain other credit instruments, including letters of credit in support of various subsidiary obligations. As of February 28, 2007, \$21,600 was outstanding under the Variable Funding Notes at an effective borrowing rate of 6.40%. Considering the \$375 in outstanding letters of credit, \$178,025 was unused and available under the Variable Funding Notes. There is a commitment fee on the unused portion of the Variable Funding Notes facility of 0.5%.

The subsidiaries that issued the Fixed Rate Notes and the Variable Funding Notes (collectively, the "Notes") are all newly-created, special purpose, bankruptcy remote, indirect subsidiaries of the Company that hold substantially all of Sonic's franchising assets and Partner Drive-In real estate used in the operation of the Company's existing business. As of February 28, 2007, total assets for these combined indirect subsidiaries were approximately \$375,000, including receivables for royalties, Partner Drive-In real estate, intangible assets, loan origination costs and restricted cash balances of approximately \$11,500. The Notes are secured by Sonic's franchise royalty payments, certain lease and other payments and fees and, as a result, the repayment of these Notes is expected to be made solely from the income derived from these indirect subsidiaries' assets. In addition, Sonic Industries LLC, which is the subsidiary that acts as franchisor, has guaranteed the obligations of the co-issuers of the Notes and pledged substantially all of its assets to secure such obligations.

Neither the Company, nor any subsidiary of the Company other than the subsidiaries involved in the securitization, guarantee or in any way are liable for the obligations of the subsidiaries involved in the securitization in connection with the issuance of the Notes. The Company has, however, agreed to cause the performance of certain obligations of its subsidiaries, principally related to the servicing of the assets included as collateral for the Notes and certain indemnity obligations relating to the transfer of the collateral assets to the co-issuers. In connection with the Notes, there is a limitation on indebtedness that may be incurred by the Company or its direct and indirect subsidiaries (other than the subsidiaries involved in the securitization), equal to five times EBITDA and/or the satisfaction of certain conditions.

Timely payment of interest (other than contingent interest incurred after the expected repayment term of the Notes) and the outstanding principal of the Notes on the legal final payment date are guaranteed by a financial guaranty insurance policy issued by a monoline insurance company, Ambac Assurance Corporation ("Ambac"). Ambac will be the designated control party entitled to make certain decisions with respect to the Notes prior to and following any event of default with respect to the Notes.

The Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) required actions to better secure collateral upon the occurrence of certain performance-related events, (ii) application

of certain disposition proceeds as note prepayments after a set time is allowed for reinvestment, (iii) maintenance of specified reserve accounts, (iv) maintenance of certain debt service coverage ratios, (v) optional and mandatory prepayments upon change in control, (vi) indemnification payments for defective or ineffective collateral, and (vii) covenants relating to recordkeeping, access to information and similar matters. The Notes are also subject to customary rapid amortization events and events of default. Although management does not anticipate an event of default or any other event of noncompliance with the provisions of the Notes, if such an event occurred, the unpaid amounts outstanding could become immediately due and payable.

8

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Overview**

Business fundamentals at the drive-in level continued to be strong in the second quarter ended in February 2007. Overall results, however, were impacted by costs associated with the financing of the Company's tender offer and other share repurchase activities which have collectively resulted in the repurchase of approximately 23% of the Company's outstanding stock as of February 28, 2007. While the tender offer was dilutive to earnings per share in the first two quarters of fiscal 2007, we expect it to be accretive to earnings per share in the second half of fiscal year 2007 and beyond. For the second fiscal quarter of 2007, revenues increased by 8.4% and operating income increased 3.4%. Net income decreased 51.8% during the quarter and earnings per share decreased 35.7% to \$0.09 per diluted share from \$0.14 in the year earlier period. For the first half of fiscal 2007, revenues increased by 8.9% and operating income increased 7.3%. Net income decreased 26.7% during the period and earnings per share decreased 12.1% to \$0.29 per diluted share from \$0.33 in the year earlier period. The Company's earnings were reduced by special items totaling \$.07 per diluted share for the second quarter and \$.08 per diluted share for the six month period. The following table shows the impact of these special items on reported net income per diluted share:

	Three months ended February 28, 2007	Six months ended February 28, 2007
Net income per diluted share, reported	\$.09	\$.29
Debt extinguishment and refinancing charges	.05	.06
Dilution from tender offer	.03	.04
Reinstatement of tax credit program and resolution of tax case	(.01)	(.02)
Net income per diluted share before special items	\$.16	\$.37

This measure of net income per diluted share before special items provides for comparability to prior year net income per diluted share, and is useful in assessing ongoing operational performance. After adjustment for these special items, net income per diluted share increased 14% for the quarter and 12% for the six months ended February 28, 2007.

The following table provides information regarding the number of Partner Drive-Ins and Franchise Drive-Ins in operation as of the end of the periods indicated as well as the system-wide growth in sales and average unit volume. System-wide information includes both Partner and Franchise Drive-In information, which we believe is useful in analyzing the growth of the brand as well as the Company's revenues because franchisees pay royalties based on a percentage of sales.

All markets	2.0	5.5	2.7	5.0

(1) Drive-ins that are temporarily closed for various reasons (repairs, remodeling, management changes, etc.) are not considered closed unless the Company determines that they are unlikely to reopen within a reasonable time.

(2) Markets are identified based on television viewing areas and further classified as core or developing markets based upon number of drive-ins in a market and the level of advertising support. Market classifications are updated periodically.

(3) Represents percentage change for drive-ins open for a minimum of 15 months.

System-wide same-store sales increased 2.0% during the second quarter of fiscal year 2007 as a result of growth in average check, offset somewhat by a decrease in traffic (number of transactions per drive-in). The growth in same-store sales was impacted by inclement weather in a number of markets during the month of January. Traffic growth was positive in the months of December and February. The increase in average check was the result of price increases, as well as the success of the PAYS program (the installation of a credit card terminal on each menu housing) that has increased credit and debit card transactions that, on average, exceed the average cash transaction. The rollout of the PAYS program is virtually complete, now installed in over 95% of eligible drive-ins.

Looking forward, we have targeted system-wide same-store sales growth in the range of 2% to 4%. We expect that this level of increase in same-store sales, combined with new unit growth, will produce revenue growth in the 10% to 12% range in the second half of fiscal year 2007. During the month of March 2007, estimated system-wide same-store sales were above the 2% to 4% range.

We opened 29 drive-ins during the second quarter, consisting of seven Partner Drive-Ins and 22 Franchise Drive-Ins, down slightly compared to the 33 drive-in openings during the second quarter a year ago. Through the first half of fiscal 2007, the total number of drive-in openings was 66, equal to the number opened in the prior year period. Looking forward, the Company expects to open 180 to 190 new drive-ins for fiscal year 2007, including 150 to 160 by franchisees. During the third quarter, the Company expects to open 50 to 55 new drive-ins, including approximately 40 to 45 by franchisees.

We continued to implement Sonic's new retrofit program in the second quarter of 2007. Through the first half of fiscal 2007, Sonic retrofitted 54 Partner Drive-Ins, including 41 in the second quarter. Sonic began testing its new retrofit look in 2003 with certain elements being implemented on a test basis at approximately 130 Partner Drive-Ins prior to fiscal year 2007. The complete retrofit is expected to have a more significant impact on sales growth going forward. The Company plans to roll out the retrofit program to an additional 100 Partner Drive-Ins in fiscal year 2007. During the second quarter of fiscal 2007, Sonic also extended the roll-out of this program to Franchise Drive-Ins. The retrofit of five Franchise Drive-Ins was completed during the second quarter. Sonic expects to

complete 250 to 300 Franchise Drive-In retrofits during fiscal 2007.

System-wide media expenditures recently increased by \$10 million to \$170 million for fiscal 2007. These increased marketing efforts will be used primarily for network cable advertising which provides the benefit of a broader reach to the cable audience and effectively promotes overall brand awareness.

10

Results of Operations

Revenues. Total revenues increased 8.4% to \$161.4 million in the second fiscal quarter of 2007 and 8.9% to \$336.2 million for the first six months of fiscal 2007. The increase in revenues primarily relates to sales growth for Partner Drive-Ins, including the impact of acquiring eight Franchise Drive-Ins on January 1, 2007 and, to a lesser extent, a rise in franchising income.

Decrease from drive-ins sold or closed ⁽³⁾	(202)	(410)
Net increase in Partner Drive-In sales	\$ 10,631	\$ 21,628

(1) Represents the increase for 42 drive-ins for the quarter opened since the beginning of the second quarter of the prior fiscal year and 45 drive-ins for the six month period opened since the beginning of the prior fiscal year.

(2) Represents the increase for 8 drive-ins for the quarter acquired since the beginning of the second quarter of the prior fiscal year and 8 drive-ins for the six month period acquired since the beginning of the prior fiscal year.

(3) Represents the decrease for 3 drive-ins for the quarter sold or closed since the beginning of the second quarter of the prior fiscal year and 3 drive-ins for the six month period sold or closed since the beginning of the prior fiscal year.

Same-store sales at Partner Drive-Ins increased 0.7% during the second quarter, below the 2.3% increase enjoyed by our Franchise Drive-Ins. Our Partner Drive-Ins were early-on beneficiaries of several of our sales-driving initiatives including the PAYS program, which was completed at all Partner Drive-Ins in January 2005. Franchisees have been more recently benefiting from the addition of PAYS which is now implemented in over 95% of Sonic's eligible drive-ins. The Partner Drive-Ins also served as a testing ground as the look of the retrofit was refined over the last two years. We expect same-store sales growth at Partner Drive-Ins to move closer to the level of Franchise Drive-Ins as we continue the system-wide implementation of the final version of the retrofit through the remainder of fiscal 2007 and beyond.

The following table reflects the growth in franchise income (franchise royalties and franchise fees) as well as franchise sales, average unit volumes and the number of Franchise Drive-Ins. While we do not record Franchise Drive-In sales as revenues, we believe this information is important in understanding our financial performance since these sales are the basis on which we calculate and record franchise royalties. This information is also indicative of the financial health of our franchisees.

(1) Drive-ins that are temporarily closed for various reasons (repairs, remodeling, management changes, etc.) are not considered closed unless the Company determines that they are unlikely to reopen within a reasonable time.

(2) Represents percentage change for drive-ins open for a minimum of 15 months.

Franchise royalties increased 8.7% to \$22.5 million in the second fiscal quarter of 2007, compared to \$20.7 million in the second fiscal quarter of 2006. Of the \$1.8 million increase, approximately \$0.6 million resulted from Franchise Drive-Ins' same-store sales growth of 2.3% in the second fiscal quarter of 2007, combined with an increase in the effective royalty rate to 3.53% during the second fiscal quarter of 2007 compared to 3.46% during the same period in fiscal year 2006. Each of our license agreements contain an ascending royalty rate whereby royalties, as a percentage of sales, increase as sales increase. The balance of the increase was primarily attributable to growth in the number of franchise units over the prior period.

Franchise royalties increased 10.8% to \$47.6 million in the first two fiscal quarters of 2007, compared to \$43.0 million during the same period of the prior year. Of the \$4.6 million increase, approximately \$2.4 million resulted from Franchise Drive-Ins' same-store sales growth of 3.2% in the first six months of fiscal year 2007, combined with an increase in the effective royalty rate to 3.58% during the first two fiscal quarters of 2007 compared to 3.48% during the same period in fiscal year 2006. The balance of the increase was primarily attributable to growth in the number of franchise units over the prior period.

Franchise fees decreased slightly to \$0.7 million from \$0.9 million as franchisees opened 22 new drive-ins in the second fiscal quarter of 2007 compared to 26 new drive-ins in the second fiscal quarter of 2006. Franchise fees were virtually unchanged for the six month periods as franchisees opened 56 new drive-ins in both fiscal year 2007 and 2006.

Looking forward, franchise royalties and franchise fees will begin to be impacted positively by the recent offer the Company has made to franchisees to convert certain older forms of license agreement to a newer form. The new license will extend a franchisee's term for 20 years from the date of conversion. The new agreement will go into effect April 1, 2007. Based on initial indications of intent to convert, the Company expects incremental franchise royalty income of more than \$1.0 million in the second half of fiscal 2007 and an additional \$1.5 million to \$2.0 million in fiscal 2008.

Other income increased 30.6% to \$1.2 million in the second fiscal quarter of 2007 and 61.4% to \$3.4 million for the first half of fiscal 2007. The increase relates primarily to the settlement of non-income tax matters during the first fiscal quarter.

Operating Expenses. Overall, drive-in cost of operations, as a percentage of Partner Drive-In sales, increased to 81.8% in the second quarter of 2007 from 81.2% in the second fiscal quarter of 2006, and increased to 81.7% for the first six months of 2007 compared to 81.3% for the same period of fiscal year 2006. Minority interest in earnings of Partner Drive-Ins is included as a part of cost of sales, in the table below, since it is directly related to Partner Drive-In operations.

Operating Margins

	Three months ended February 28, 2007		Six months ended February 28, 2006	
Costs and expenses ⁽¹⁾ :				
Partner Drive-Ins:				
Food and packaging	25.7%	26.2%	26.0%	26.5%
Payroll and other employee benefits	31.9	30.8	31.3	30.5
Minority interest in earnings of Partner Drive-Ins	3.6	3.6	3.5	3.6
Other operating expenses	20.6	20.6	20.9	20.7
Total Partner Drive-In cost of operations	81.8%	81.2%	81.7%	81.3%

(1) As a percentage of Partner Drive-In sales.

Food and packaging costs decreased 0.5 percentage points for both the second quarter and first half of fiscal year 2007 compared to the same periods of fiscal year 2006 primarily as a result of menu price increases and favorable commodity prices. Looking forward, we expect food and packaging costs to continue to be favorable on a year-over-year basis for the remainder of fiscal 2007.

13

Labor costs increased by 1.1 percentage points during the second quarter of fiscal year 2007 and increased 0.8 percentage points for the first six months of fiscal year 2007 compared to the same period in fiscal year 2006. This increase was a result of lower than expected sales volumes, particularly during the month of January, as well as minimum wage increases in several states. Looking forward, while we expect leverage from sales growth and price increases to partially offset the minimum wage increases, labor costs, as a percentage of sales, are expected to continue to be unfavorable on a year-over-year basis for the next several quarters.

Minority interest, which reflects our store-level partners' pro-rata share of earnings through our partnership program, increased by \$0.5 million during the second fiscal quarter and first six months of fiscal year 2007 compared to the same periods of fiscal year 2006. While these costs increased in real terms, they declined as a percentage of Partner Drive-In sales for the six month period reflecting our partner's share of the increased operating costs experienced during the first quarter. We continue to view the partnership program as an integral part of our culture at Sonic and a large factor in the success of our business, and we are pleased that profit distributions to our partners increased during the quarter. Since we expect our average store level profits to continue to grow in fiscal year 2007, we would expect minority interest to increase in dollar terms and as a percentage of Partner Drive-In sales.

Other operating expenses remained virtually unchanged during the second quarter and increased 0.2 percentage points in the first six months of fiscal year 2007 compared to the same periods in fiscal year 2006 largely due to higher repair and maintenance expenditures. Looking forward, we expect these costs to benefit from the leverage of higher sales and to be favorable as a percentage of sales on a year-over-year basis.

To summarize, we expect overall restaurant-level margins will be flat to slightly favorable, on a year-over-year basis during the third quarter.

Selling, General and Administrative. Selling, general and administrative expenses increased 9.0% to \$14.4 million during the second fiscal quarter of 2007 compared to the same period of fiscal year 2006, and increased 11.9% to \$28.4 million for the first six months of 2007 versus the same period of 2006. The current year expense included approximately \$500 thousand related to financial advisory services provided to the Company in connection with its recent tender offer transaction. Excluding this charge, the increase was approximately 10% for the six month period. We anticipate that these costs will increase in the range of 10% to 12% during the remainder of fiscal year 2007 as compared to the prior year.

Depreciation and Amortization. Depreciation and amortization expense increased 11.0% to \$11.1 million in the second quarter of fiscal year 2007, and increased 9.9% to \$21.9 million for the first six months of 2007. Capital expenditures during the first six months of fiscal year 2007 were \$40.4 million, including \$4.2 million related to the acquisition of drive-ins. Looking forward, with approximately \$80 million in capital expenditures planned for the year, depreciation and amortization is expected to increase by approximately 10% for the remainder of fiscal year 2007.

Interest Expense. Net interest expense increased \$13.0 million to \$15.1 million for the second quarter and increased \$18.7 million to \$22.1 million for the first six months of fiscal year 2007 as compared to the same periods in fiscal year 2006. The increase is attributed to interest on increased borrowings used to fund the purchase of shares in the tender offer and subsequent repurchases, as well as \$1.3 million in debt extinguishment costs related to refinancing existing indebtedness in the first quarter of fiscal 2007, followed by \$4.8 million in debt extinguishment and other costs associated with the securitized debt refinancing that occurred in the second quarter of fiscal 2007. Going forward, we expect net interest expense to continue to increase as a result of the increased borrowings related to our recapitalization and depending upon the level of future share repurchases. Interest expense in the third quarter is expected to be in the range of \$11 to \$12 million.

Income Taxes. Our income tax rate during the second quarter was approximately 29.1%, as compared to 38.6% for the same period of 2006. The provision for income taxes reflects an effective federal and state tax rate of 33.4% for

the first half of fiscal year 2007 as compared to 38.0% in the same period of 2006. The lower rate in the second quarter resulted from the retroactive extension of the Workers Opportunity Tax Credit, in addition to the impact of the lower net income amount compared to the prior year. The lower rate for the first half of fiscal year 2007

14

was also impacted by the favorable resolution of tax matters in the first quarter. For the second half of fiscal year 2007, we expect our effective tax rate to be in the range of 35.0% to 37.0%. However, our tax rate may continue to vary significantly from quarter to quarter depending on the timing of option exercises and dispositions by option-holders and as circumstances on individual tax matters change.

Financial Position

During the first six months of fiscal year 2007, current assets increased 111.9% to \$90.1 million compared to \$42.5 million as of the prior fiscal year end as a result of a \$40.5 million increase in cash balances primarily as a result of changes in cash processing for the securitized cash flows, as well as a new cash reserve requirement of approximately \$11.4 million under the securitized debt agreements. Net property and equipment increased approximately \$9.5 million primarily as a result of capital expenditures of \$40.4 million and capital lease additions of \$5.7 million. These increases were offset by the sale of real estate of approximately \$12.6 million related to the sale and leaseback of property acquired at the end of fiscal 2006, as well as depreciation for the period. Other assets increased by \$22.5 million as a result of deferred loan origination costs related to the securitized debt. These changes combined with the increase in current assets to produce a 12.7% increase in total assets to \$719.1 million as of the end of the second quarter of fiscal year 2007.

Total current liabilities increased \$0.7 million or 0.9% during the first six months of fiscal year 2007. Accounts payable increased \$4.1 million due to the timing of payments and the current portion of capital leases and long-term debt increased \$5.1 million as a result of the new payment requirements of the securitized debt agreement. These increases were offset by a decrease in accrued and tax liabilities due to the timing of payments. The noncurrent portion of long-term debt increased \$495.5 million or 422.9%, largely as a result of the debt used to fund the purchase of shares in the tender offer. Overall, total liabilities increased \$499.0 million or 202.6% as a result of the items discussed above.

Stockholders' equity decreased \$417.9 million or 106.7% during the first six months of fiscal year 2007 primarily resulting from stock repurchase activity during the period. The Company completed a "modified Dutch auction" tender offer in October 2006, repurchasing 15.9 million shares at a purchase price of \$23.00 per share for a total of \$366.1 million, and incurred costs related to the transaction totaling \$1.2 million that are included in stockholders' equity. Subsequent to the tender offer, additional repurchases totaling approximately \$78.7 million were completed under the Board-approved share repurchase program. The stock repurchase activity was offset by earnings during the period of \$21.5 million and proceeds and the related tax benefits from the exercise of stock options. At the end of the second fiscal quarter of 2007, our debt-to-EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio was 3.6.

Liquidity and Sources of Capital

Operating Cash Flows. Net cash provided by operating activities decreased \$10.4 million or 21.6% to \$37.7 million in the first six months of fiscal year 2007 as compared to \$48.0 million in the same period of fiscal year 2006. The decrease relates primarily to lower net income as a result of increased interest expense associated with the securitization debt. We anticipate continuing to generate positive free cash flow going forward; however, interest expense is expected to continue to have a similar effect on cash flows from operations through the first quarter of fiscal year 2008. We believe free cash flow, which we define as net income plus depreciation and amortization and stock-based compensation expense less capital expenditures, is useful in evaluating the liquidity of the Company by assessing the level of funds available for share repurchases, acquisitions of Franchise Drive-Ins, and repayment of debt.

Investing Cash Flows. We opened ten newly constructed Partner Drive-Ins and acquired eight drive-ins from franchisees during the first two fiscal quarters of 2007. During the first six months of this fiscal year, we used cash generated by operating activities and borrowings to fund capital additions totaling \$40.4 million, which included \$4.2

million related to the acquisition of drive-ins, as well as the cost of newly opened drive-ins, retrofits of existing drive-ins, new equipment for existing drive-ins, drive-ins under construction and other capital expenditures. We also entered into a sale-leaseback agreement during the first quarter and disposed of the real estate underlying drive-ins that were acquired in the fourth quarter of fiscal year 2006 for proceeds of approximately \$12.6 million. During the six months ended February 28, 2007, we purchased the real estate for eight of the ten newly constructed drive-ins.

15

Financing Cash Flows. In December 2006, the Company closed on a securitized financing facility of Variable Rate Series 2006-1 Senior Variable Funding Notes, Class A-1, which provides for the issuance of up to \$200 million of Variable Funding Notes and certain other credit instruments, including letters of credit. As of February 28, 2007, our outstanding Variable Funding Notes totaled \$21.6 million at an effective borrowing rate of 6.40%, as well as \$0.4 million in outstanding letters of credit. The amount available under the Variable Funding Notes as of February 28, 2007, was \$178.0 million. In addition to the Variable Funding Notes, the Company issued \$600 million of Fixed Rate Series 2006-1 Senior Notes, Class A-2 in a private transaction in December 2006. This new debt has an effective borrowing rate of 6.7%. Debt issuance costs totaling \$23.8 million were incurred in conjunction with the securitized debt transactions closed in December 2006. We currently have long-term debt maturing in fiscal years 2007 and 2008 of \$6.7 million and \$20.6 million, respectively. We believe that free cash flow will be adequate for repayment of any long-term debt that does not get refinanced or extended. We plan to use our Variable Funding Notes to finance the opening of newly constructed drive-ins, acquisitions of existing drive-ins, purchases of the Company's common stock and for other general corporate purposes, as needed. See Note 9 of the Notes to Consolidated Financial Statements in the Company's Form 10-K for the fiscal year ended August 31, 2006 for additional information regarding our long-term debt.

The tender offer in October 2006 resulted in total cash outflow of \$366.1 million, along with related costs totaling \$1.2 million. Subsequent to the tender offer, under the share repurchase program authorized by our Board of Directors, the Company acquired 3.5 million shares at an average price of \$22.62 per share for a total cost of \$78.7 million. On January 31, 2007, the Board of Directors approved an increase in the Company's share repurchase program from \$10.7 million to \$100.0 million. As of February 28, 2007, the entire \$100.0 million remained available under the program. Share repurchases continued after February 28, 2007, and, through April 5, 2007, an additional 1.7 million shares were repurchased at an average price of \$20.88 for a total cost of \$35.7 million, leaving \$64.3 million authorized for repurchase.

We plan capital expenditures of approximately \$80 million in fiscal year 2007, excluding potential acquisitions and share repurchases. These capital expenditures primarily relate to the development of additional Partner Drive-Ins, retrofit of existing Partner Drive-Ins and other drive-in level expenditures. We expect to fund these capital expenditures through cash flow from operations and borrowings under the Variable Funding Notes.

As of February 28, 2007, our total cash balance of \$50.1 million reflected the impact of the cash generated from operating activities, borrowing activity, and capital expenditures mentioned above. We believe that existing cash and funds generated from operations, as well as borrowings under available Variable Funding Notes, will meet our needs for the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

At the time the Company filed its Form 10-K for the year ended August 31, 2006, the Company had refinanced the debt outstanding as of year-end with variable rate debt and had borrowed additional amounts for the tender offer. The market risk disclosure in the Form 10-K therefore addressed interest rate risk based upon \$486 million of variable rate debt. Since closing the securitized debt in December 2006, our exposure to interest rate risk is now based on fixed rate debt with an effective rate of 5.7%, before amortization of debt-related costs. The aggregate balance outstanding at February 28, 2007 was \$600.0 million, and the estimated fair value of the Fixed Rate Notes exceeded the carrying amount by approximately \$4.0 million. Should interest rates increase or decrease by one percentage point, the estimated fair value of the Fixed Rate Notes would decrease or increase by approximately \$25 million, respectively.

There have been no other material changes in the Company's exposure to market risk for the quarter ended February 28, 2007.

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-14 under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective. There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

16

PART II – OTHER INFORMATION**Item 1. Legal Proceedings**

The Company is involved in various legal proceedings and has certain unresolved claims pending. Based on information currently available, management believes that all claims currently pending are either covered by insurance or would not have a material adverse effect on the Company's business or financial condition.

Item 1A. Risk Factors

There has been no material change in the risk factors set forth in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**(c) Issuer Purchases of Equity Securities**

Shares repurchased during the second quarter of fiscal 2007 are as follows (in thousands, except per share amounts):

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Dollar Value that May Yet Be Purchased Under the Program
December 1, 2006 through December 31, 2006	15	\$ 23.03	15	\$ 49,276
January 1, 2007 through January 31, 2007	1,779	\$ 22.45	1,717	\$ 100,000
February 1, 2007 through February 28, 2007	--	\$ --	--	\$ 100,000
Total	1,794	\$ 22.46	1,732	

1) During the second quarter of fiscal 2007, 62 shares were tendered to the Company as payment for the exercise of options in connection with the Company's share-based compensation plans. There is no maximum amount of shares that the Company may repurchase under these plans.

2) The Company's share repurchase program was first publicly announced on April 14, 1997. In January 2007, the Company's Board of Directors approved an increase in the share repurchase authorization from \$10,705 to \$100,000 and maintained the expiration for the program as August 31, 2007.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

On January 31, 2007, the Company held its annual meeting of stockholders, at which the stockholders re-elected J. Clifford Hudson, Federico F. Peña, and Robert M. Rosenberg as directors for three-year terms expiring at the annual meeting to be held in 2010. As well, the stockholders elected J. Larry Nichols as director for a two-year term expiring

at the annual meeting to be held in 2009. The following table sets forth the voting results for the directors:

Director	Votes For	Votes Withheld
J. Clifford Hudson	59,545,121	4,709,929
Federico F. Peña	64,088,426	166,624
Robert M. Rosenberg	59,542,771	4,712,279
J. Larry Nichols	64,036,267	218,783

Other directors of the Company whose terms continued after the meeting are Leonard Lieberman, H.E. “Gene” Rainbolt, Michael J. Maples, and Frank Richardson.

Voting results for the other matters voted upon at the meeting are set forth in the following table:

	Votes For	Votes Against	Votes Abstained
Approval of Independent Registered Public Accounting Firm	59,074,093	5,155,901	25,056

Item 5. Other Information

None.
