The Fund's investment objective is to provide a high level of current income exempt from federal income tax.

Closed-end funds, unlike open-end funds, are not continuously offered. There is a one time public offering and once issued, shares of closed-end funds are sold in the open market through a stock exchange. Shares of closed-end funds frequently trade at a discount to net asset value. The price of the Fund's shares is determined by a number of factors, several of which are beyond the control of the Fund. Therefore, the Fund cannot predict whether its shares will trade at, below or above net asset value.

Bond investments are subject to interest-rate, credit, liquidity and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. Leverage results in additional risks and can magnify the effect of any gains or losses. Although the Fund seeks income that is exempt from federal income taxes, a portion of the Fund's distributions may be subject to federal, state and local taxes, including the alternative minimum tax.

The brand DWS represents DWS Group GmbH & Co. KGaA and any of its subsidiaries such as DWS Distributors, Inc. which offers investment products or DWS Investment Management Americas, Inc. and RREEF America L.L.C. which offer advisory services.

Table of Contents**Performance Summary****May 31, 2018 (Unaudited)**

Performance is historical, assumes reinvestment of all dividend and capital gain distributions, and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so that, when sold, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit dws.com for the Fund's most recent month-end performance.

Fund specific data and performance are provided for informational purposes only and are not intended for trading purposes.

Average Annual Total Returns as of 5/31/18

Deutsche Municipal Income Trust	6-Month	1-Year	5-Year	10-Year
Based on Net Asset Value^(a)	0.25%	1.04%	3.62%	7.29%
Based on Market Price^(a)	2.97%	13.72%	1.85%	7.01%
Bloomberg Barclays Municipal Bond Index ^(b)	0.71%	1.11%	2.92%	4.30%
Morningstar Closed-End Municipal National Long Funds Category ^(c)	0.90%	2.23%	4.70%	6.39%

Total returns shown for periods less than one year are not annualized.

- (a) Total return based on net asset value reflects changes in the Fund's net asset value during each period. Total return based on market price reflects changes in market price. Each figure assumes that dividend and capital gain distributions, if any, were reinvested. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares traded during the period. Expenses of the Fund include management fee, interest expense and other fund expenses. Total returns shown take into account these fees and expenses. The expense ratio of the Fund for the six months ended May 31, 2018 was 2.15% (0.86% excluding interest expense).
- (b) The unmanaged, unleveraged Bloomberg Barclays Municipal Bond Index covers the U.S. dollar-denominated long-term tax exempt bond market. The index has four main sectors: state and local general obligation bonds, revenue bonds, insured bonds and pre-refunded bonds. Index returns do not reflect any fees or expenses and it is not possible to invest directly into an index.
- (c) Morningstar's Closed-End Municipal National Long Funds category represents muni national long portfolios that invest in municipal bonds. Such bonds are issued by various state and local governments to fund public projects and are free from federal taxes. To lower risk, these funds spread their assets across many states and sectors. They focus on bonds with durations of seven years or more. This makes them more sensitive to interest rates, and thus riskier, than muni funds that focus on bonds with shorter maturities. Morningstar figures represent the average of the total returns based on net asset value reported by all of the closed-end funds designated by Morningstar, Inc. as falling into the Closed-End Municipal National Long Funds category. Category returns assume reinvestment of all distributions. It is not possible to invest directly in a Morningstar category.

Table of Contents**Net Asset Value and Market Price**

	As of 5/31/17	As of 11/30/17
Net Asset Value	\$ 12.18	\$ 12.50
Market Price	\$ 11.11	\$ 11.78
Premium (discount)	(8.78%)	(5.76%)

Prices and net asset value fluctuate and are not guaranteed.

Distribution Information

Six Months as of 5/31/18:

Income Dividends (common shareholders)	\$.32
Capital Gain Dividend (common shareholders)	\$.01
May Income Dividend (common shareholders)	\$.0525
Current Annualized Distribution Rate (based on Net Asset Value) as of 5/31/18	5.17%
Current Annualized Distribution Rate (based on Market Price) as of 5/31/18	5.67%
Tax Equivalent Distribution Rate (based on Net Asset Value) as of 5/31/18	8.74%
Tax Equivalent Distribution Rate (based on Market Price) as of 5/31/18	9.58%

Current annualized distribution rate is the latest monthly dividend shown as an annualized percentage of net asset value/market price on May 31, 2018. Distribution rate simply measures the level of dividends and is not a complete measure of performance. Tax equivalent distribution rate is based on the Fund's distribution rate and a marginal income tax rate of 40.8%. Distribution rates are historical, not guaranteed and will fluctuate. Distributions do not include return of capital or other non-income sources.

Portfolio Management Team

Ashton P. Goodfield, CFA, Managing Director

Portfolio Manager of the Fund. Began managing the Fund in 2014.

Joined DWS in 1986.

Co-Head of Municipal Bonds.

BA, Duke University.

Michael J. Generazo, Director

Portfolio Manager of the Fund. Began managing the Fund in 2010.

Joined DWS in 1989.

BS, Pennsylvania State University; MS, Boston College.

Peter Aloisi, CFA, Vice President

Portfolio Manager of the Fund. Began managing the Fund in 2018.

Joined DWS in 2010 with five years of industry experience; previously, served as an Associate at Banc of America Securities.

BA and MBA, Boston College.

Portfolio Summary

(Unaudited)

Asset Allocation (As a % of Investment Portfolio)	5/31/18	11/30/17
Revenue Bonds	68%	70%
Escrow to Maturity/Prerefunded Bonds	17%	15%
General Obligation Bonds	10%	11%
Lease Obligations	5%	4%
	100%	100%
Quality	5/31/18	11/30/17

Edgar Filing: DWS MUNICIPAL INCOME TRUST - Form N-CSRS

AAA	5%	4%
AA	41%	42%
A	44%	44%
BBB	5%	6%
Not Rated	5%	4%
	100%	100%

The quality ratings represent the higher of Moody's Investors Service, Inc. (Moody's), Fitch Ratings, Inc. (Fitch) or Standard & Poor's Corporation (S&P) credit ratings. The ratings of Moody's, Fitch and S&P represent their opinions as to the quality of the securities they rate. Credit quality measures a bond issuer's ability to repay interest and principal in a timely manner. Ratings are relative and subjective and are not absolute standards of quality. Credit quality does not remove market risk and is subject to change.

Table of Contents**Top Five State/Territory Allocations**

(As a % of Investment Portfolio)	5/31/18	11/30/17
Texas	11%	13%
Florida	11%	10%
New York	10%	8%
California	10%	12%
Nevada	6%	5%

Interest Rate Sensitivity

	5/31/18	11/30/17
Effective Maturity	5.2 years	5.4 years
Modified Duration	5.1 years	5.2 years

Leverage (As a % of Total Assets)

5/31/18	11/30/17
36%	36%

Effective maturity is the weighted average of the maturity date of bonds held by the Fund taking into consideration any available maturity shortening features.

Modified duration is an approximate measure of the Fund's sensitivity to movements in interest rates based on the current interest rate environment.

Leverage results in additional risks and can magnify the effect of any gains or losses to a greater extent than if leverage were not used.

Portfolio holdings and characteristics are subject to change.

For more complete details about the Fund's investment portfolio, see page 7. A fact sheet is available on dws.com or upon request. Please see the Additional Information section on page 40 for contact information.

* Variable rate demand notes are securities whose interest rates are reset periodically (usually daily mode or weekly mode) by remarketing agents based on current market levels, and are not directly set as a fixed spread to a reference rate. These securities may be redeemed at par by the holder at any time, and are shown at their current rates as of May 31, 2018. Maturity date reflects the earlier of demand date or stated maturity date.

The accompanying notes are an integral part of the financial statements.

Table of Contents

** Variable or floating rate security. These securities are shown at their current rate as of May 31, 2018. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description above. Certain variable rate securities are not based on a published reference rate and spread but adjust periodically based on current market conditions, prepayment of underlying positions and/or other variables.

(a) When-issued security.

(b) Securities represent the underlying municipal obligations of inverse floating rate obligations held by the Fund. The Floating Rate Notes represents leverage to the Fund and is the amount owed to the floating rate note holders.

(c) Security forms part of the below inverse floater. The Fund accounts for these inverse floaters as a form of secured borrowing, by reflecting the value of the underlying bond in the investments of the Fund and the amount owed to the floating rate note holder as a liability.

144A: Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

AGC: Assured Guaranty Corp.

AGMC: Assured Guaranty Municipal Corp.

AMT: Subject to alternative minimum tax.

ETM: Bonds bearing the description ETM (escrow to maturity) are collateralized usually by U.S. Treasury securities which are held in escrow and used to pay principal and interest on bonds so designated.

GTY: Guaranty Agreement

INS: Insured

LIBOR: London Interbank Offered Rate

NATL: National Public Finance Guarantee Corp.

Prerefunded: Bonds which are prerefunded are collateralized usually by U.S. Treasury securities which are held in escrow and used to pay principal and interest on tax-exempt issues and to retire the bonds in full at the earliest refunding date.

Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

Edgar Filing: DWS MUNICIPAL INCOME TRUST - Form N-CSRS

The following is a summary of the inputs used as of May 31, 2018 in valuing the Fund's investments. For information on the Fund's policy regarding the valuation of investments, please refer to the Security Valuation section of Note A in the accompanying Notes to Financial Statements.

Assets	Level 1	Level 2	Level 3	Total
Municipal Investments (d)	\$	\$ 754,077,773	\$	\$ 754,077,773
Total	\$	\$ 754,077,773	\$	\$ 754,077,773

There have been no transfers between fair value measurement levels during the period ended May 31, 2018.

(d) See Investment Portfolio for additional detailed categorizations.

^a Based on average common shares outstanding during the period.

^b Total return based on net asset value reflects changes in the Fund's net asset value during each period. Total return based on market price reflects changes in market price. Each figure assumes that dividend and capital gain distributions, if any, were reinvested. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares traded during the period.

^c Interest expense represents interest and fees on short-term floating rate notes issued in conjunction with inverse floating rate securities and interest paid to shareholders of Series MTPS.

^d The ratio of expenses (based on net assets of common and Preferred Shares, including interest expense) was 1.54%, 1.35%, 1.16%, 1.03%, 1.05% and 0.99% for the periods ended May 31, 2018, November 30, 2017, 2016, 2015, 2014 and 2013, respectively.

^e The ratio of expenses (based on net assets of common and Preferred Shares, excluding interest expense) was 0.61%, 0.62%, 0.62%, 0.64%, 0.64% and 0.63% for the periods ended May 31, 2018, November 30, 2017, 2016, 2015, 2014 and 2013, respectively.

Edgar Filing: DWS MUNICIPAL INCOME TRUST - Form N-CSRS

- ^f The ratio of net investment income after distributions paid to Remarketed Preferred Shareholders was 6.01%, 6.23% and 6.25% for the periods ended November 30, 2015, 2014 and 2013, respectively.
- ^g Asset coverage per share equals net assets of common shares plus the liquidation value of the Preferred Shares divided by the total number of Preferred Shares outstanding at the end of the period.
- * Annualized
- ** Not annualized
- *** Amount is less than \$.005.

Table of Contents

Notes to Financial Statements

(Unaudited)

A. Organization and Significant Accounting Policies

DWS Municipal Income Trust (formerly Deutsche Municipal Income Trust) (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end, diversified management investment company organized as a Massachusetts business trust.

The Fund s financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) which require the use of management estimates. Actual results could differ from those estimates. The Fund qualifies as an investment company under Topic 946 of Accounting Standards Codification of U.S. GAAP. The policies described below are followed consistently by the Fund in the preparation of its financial statements.

Security Valuation. Investments are stated at value determined as of the close of regular trading on the New York Stock Exchange on each day the exchange is open for trading.

Various inputs are used in determining the value of the Fund s investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

Municipal debt securities are valued at prices supplied by independent pricing services approved by the Fund s Board, whose valuations are intended to reflect the mean between the bid and asked prices. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. If the pricing services are unable to provide valuations, the securities are valued at the mean of the most recent bid and asked quotations or evaluated prices, as applicable, obtained from one or more broker-dealers. These securities are generally categorized as Level 2.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value as determined in accordance with procedures approved by the Board and are generally categorized as Level 3. In accordance with the Fund s valuation procedures, factors considered in determining value may

Table of Contents

include, but are not limited to, the type of the security; the size of the holding; the initial cost of the security; the existence of any contractual restrictions on the security's disposition; the price and extent of public trading in similar securities of the issuer or of comparable companies; quotations or evaluated prices from broker-dealers and/or pricing services; information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities); an analysis of the company's or issuer's financial statements; an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold; and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination and the movement of the market in which the security is normally traded. The value determined under these procedures may differ from published values for the same securities.

Disclosure about the classification of fair value measurements is included in a table following the Fund's Investment Portfolio.

When Issued/Delayed Delivery Securities. The Fund may purchase or sell securities with delivery or payment to occur at a later date beyond the normal settlement period. At the time the Fund enters into a commitment to purchase or sell a security, the transaction is recorded and the value of the transaction is reflected in the net asset value. The price of such security and the date when the security will be delivered and paid for are fixed at the time the transaction is negotiated. The value of the security may vary with market fluctuations. At the time the Fund enters into a purchase transaction it is required to segregate cash or other liquid assets at least equal to the amount of the commitment. Additionally, the Fund may be required to post securities and/or cash collateral in accordance with the terms of the commitment.

Certain risks may arise upon entering into when-issued or delayed delivery transactions from the potential inability of counterparties to meet the terms of their contracts or if the issuer does not issue the securities due to political, economic, or other factors. Additionally, losses may arise due to changes in the value of the underlying securities.

Inverse Floaters. The Fund invests in inverse floaters. Inverse floaters are debt instruments with a weekly floating rate of interest that bears an inverse relationship to changes in the short-term interest rate market. Inverse floaters are created by depositing a fixed-rate long-term municipal bond into a special purpose Tender Offer Bond trust (the TOB Trust). In turn the TOB Trust issues a short-term floating rate note and an inverse floater. The short-term floating rate note is issued in a face amount equal to some fraction of the underlying bond's par amount and is sold to a third party, usually a tax-exempt money market fund. The Fund receives the proceeds from the sale of the short-term floating rate note and uses the cash proceeds to make additional investments. The short-term floating

Table of Contents

rate note represents leverage to the Fund. The Fund, as the holder of the inverse floater, has full exposure to any increase or decrease in the value of the underlying bond. The income stream from the underlying bond in the TOB Trust is divided between the floating rate note and the inverse floater. The inverse floater earns all of the interest from the underlying long-term fixed-rate bond less the amount of interest paid on the floating rate note and the expenses of the TOB Trust. The floating rate notes issued by the TOB Trust are valued at cost, which approximates fair value.

By holding the inverse floater, the Fund has the right to collapse the TOB Trust by causing the holders of the floating rate instrument to tender their notes at par and have the broker transfer the underlying bond to the Fund. The floating rate note holder can also elect to tender the note for redemption at par at each reset date. The Fund accounts for these transactions as a form of secured borrowing, by reflecting the value of the underlying bond in the investments of the Fund and the amount owed to the floating rate note holder as a liability under the caption "Payable for floating rate notes issued" in the Statement of Assets and Liabilities. Income earned on the underlying bond is included in interest income, and interest paid on the floaters and the expenses of the TOB Trust are included in "Interest expense on floating rate notes" in the Statement of Operations. For the six months ended May 31, 2018, interest expense related to floaters amounted to \$813,351. The weighted average outstanding daily balance of the floating rate notes issued during the six months ended May 31, 2018 was approximately \$79,706,000, with a weighted average interest rate of 2.04%.

The Fund may enter into shortfall and forbearance agreements by which the Fund agrees to reimburse the TOB Trust, in certain circumstances, for the difference between the liquidation value of the underlying bond held by the TOB Trust and the liquidation value of the floating rate notes plus any shortfalls in interest cash flows. This could potentially expose the Fund to losses in excess of the value of the Fund's inverse floater investments. In addition, the value of inverse floaters may decrease significantly when interest rates increase. The market for inverse floaters may be more volatile and less liquid than other municipal bonds of comparable maturity. The TOB Trust could be terminated outside of the Fund's control, resulting in a reduction of leverage and disposal of portfolio investments at inopportune times and prices. Investments in inverse floaters generally involve greater risk than in an investment in fixed-rate bonds.

The final rules implementing Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Volcker Rule") preclude banking entities from sponsoring and/or providing services to TOB Trusts. In response to these rules, investment market participants have developed new TOB Trust structures that are intended to ensure that

Table of Contents

banking entities do not sponsor TOB Trusts in violation of the Volcker Rule. As of July 17, 2017, the Volcker Rule's final compliance date, all Fund TOB Trusts were structured to be in compliance with the Volcker Rule. Any new TOB Trust structures must comply with the Volcker Rule. A Volcker-compliant TOB Trust structure is similar to traditional TOB Trust structures, with certain key differences. The basic features of the new Volcker-compliant TOB Trust structure currently intended to be implemented by the funds are as follows:

Portfolio management continues to make certain basic investment determinations, such as which bonds are placed in the TOB Trust, the amount of leverage for any given transaction, whether the transaction is structured as non-recourse or recourse, etc.

Similar to traditional TOB Trust structures, the fund continues to be the holder of the TOB Inverse Floater Residual Interests.

Unlike traditional TOB Trust structures, a bank or financial institution no longer serves as the sponsor, depositor, or trust administrator nor does it have any discretionary decision making authority with respect to the TOB Trust.

Consistent with traditional TOB Trust structures, a bank or financial institution serves as the trustee, liquidity provider, and remarketing agent.

A third-party administrative agent retained by the fund performs certain of the roles and responsibilities historically provided by banking entities in traditional TOB Trust structures, including certain historical sponsor/administrative roles and responsibilities.

The ultimate impact of the new rules on the inverse floater market and the municipal market generally is not yet certain. Such changes could make early unwinds of TOB Trusts more likely, may make the use of TOB Trusts more expensive, and may make it more difficult to use TOB Trusts in general. The new rules may also expose the Fund to additional risks, including, but not limited to, compliance, securities law and operational risks.

Federal Income Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable and tax-exempt income to its shareholders.

At November 30, 2017, the Fund had a net tax basis capital loss carryforward of approximately \$1,797,000, which may be applied against any realized net taxable capital gains of each succeeding year until fully utilized or until November 30, 2018 (\$500,000), and November 30, 2019 (\$1,297,000), the respective expiration dates, whichever occurs first.

Table of Contents

At November 30, 2017, the aggregate cost of investments for federal income tax purposes was \$626,260,431. The net unrealized appreciation for all investments based on tax cost was \$57,305,035. This consisted of aggregate gross unrealized appreciation for all investments which there was an excess of value over tax cost of \$59,265,437 aggregate gross unrealized depreciation for all investment in which was an excess of tax cost over value of \$1,960,402.

The Fund has reviewed the tax positions for the open tax years as of November 30, 2017 and has determined that no provision for income tax and/or uncertain tax provisions is required in the Fund's financial statements. The Fund's federal tax returns for the prior three fiscal years remain open subject to examination by the Internal Revenue Service.

Distribution of Income and Gains. Distributions from net investment income of the Fund are declared and distributed to shareholders monthly. Net realized gains from investment transactions, in excess of available capital loss carryforwards, would be taxable to the Fund if not distributed, and, therefore, will be distributed to shareholders at least annually. The Fund may also make additional distributions for tax purposes if necessary.

The timing and characterization of certain income and capital gain distributions are determined annually in accordance with federal tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences primarily relate to certain securities sold at a loss, reclassification of distributions and accretion of market discount on debt securities. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the net asset value of the Fund.

The tax character of current year distributions will be determined at the end of the current fiscal year.

Preferred Shares. At May 31, 2018, the Fund had issued and outstanding 39,750 Floating Rate Municipal Term Preferred Shares (Series 2018 MTPS) with an aggregate liquidation preference of \$198,750,000 (\$5,000 per share). The Series 2018 MTPS are floating rate preferred shares with an original mandatory term redemption date of June 1, 2018, unless extended. Effective December 1, 2017, the terms of the Series 2018 MTPS were amended to extend the term redemption date of the Series 2018 MTPS to December 1, 2020. Except for the above-described extension and a related technical amendment, the other material terms and conditions of the Series 2018 MTPS remained the same. The extension did not result in any changes to the Series 2018 MTPS aggregate liquidation preference of \$198,750,000 or the Series 2018

Table of Contents

MTPS dividend rate. Dividends on the Series 2018 MTPS are set weekly to a fixed spread (dependent on the then current rating of the Series 2018 MTPS) to the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index. The average annualized dividend rate on the Series 2018 MTPS for the period December 1, 2017 through May 31, 2018 was 2.33%. In the Fund's Statement of Assets and Liabilities, the Series 2018 MTPS aggregate liquidation preference is shown as a liability since the Series 2018 MTPS have a stated mandatory redemption date. Dividends paid on the Series 2018 MTPS are treated as interest expense and recorded as incurred. For the period December 1, 2017 through May 31, 2018, interest expense related to Series 2018 MTPS amounted to \$2,360,812. Costs directly related to the issuance of Series 2018 MTPS have been deferred and are being amortized over the life of the MTPS. During the six months ended May 31, 2018, the Fund amortized \$13,355 of Series 2018 MTPS deferred costs, which are included in the Statement of Operations under Interest expense on Series 2018 MTPS. The Series 2018 MTPS are senior in priority to the Fund's outstanding common shares as to payments of dividends and distributions upon liquidation.

As a result of the Series 2018 MTPS term date extension, the Fund's leverage attributable to preferred shares remained unchanged.

Under the terms of a purchase agreement between the Fund and the initial purchaser of the Series 2018 MTPS, the Fund is subject to various investment restrictions. These investment restrictions are, in certain respects, more restrictive than those to which the Fund is otherwise subject in accordance with its investment objective and policies. Such restrictions may limit the investment flexibility that might otherwise be pursued by the Fund if the Series 2018 MTPS were not outstanding. In addition, the Fund is subject to certain restrictions on its investments imposed by guidelines of the rating agencies that rate the Series 2018 MTPS, which guidelines may be changed by the applicable rating agency, in its sole discretion, from time to time. These guidelines may impose asset coverage or portfolio composition requirements that are more stringent than those imposed on the Fund by the 1940 Act. Moreover, the Fund is required to maintain various asset coverage ratios with respect to the Series 2018 MTPS in accordance with the Fund's charter documents and the 1940 Act.

The 1940 Act requires that the preferred shareholders of the Fund, voting as a separate class, have the right to: a) elect at least two trustees at all times, and b) elect a majority of the trustees at any time when dividends on the preferred shares are unpaid for two full years. Unless otherwise required by law or under the terms of the preferred shares, each preferred shareholder is entitled to one vote and preferred shareholders will vote together with common shareholders as a single class.

Table of Contents

Leverage involves risks and special considerations for the Fund's common shareholders, including the likelihood of greater volatility of net asset value and market price of, and dividends on, the Fund's common shares than a comparable portfolio without leverage; the risk that fluctuations in interest rates will reduce the return to common shareholders; and the effect of leverage in a declining market, which is likely to cause a greater decline in the net asset value of the Fund's common shares than if the Fund were not leveraged, which may result in a greater decline in the market price of the Fund's common shares. Changes in the value of the Fund's portfolio will be borne entirely by the common shareholders. If there is a net decrease (or increase) in the value of the Fund's investment portfolio, leverage will decrease (or increase) the net asset value per share to a greater extent than if leverage were not used. It is also possible that the Fund will be required to sell assets at a time when it would otherwise not do so, possibly at a loss, in order to redeem preferred shares to comply with asset coverage or other restrictions imposed by the rating agencies that rate the preferred shares. There is no assurance that the Fund's leveraging strategy will be successful.

Statement of Cash Flows. Information on financial transactions which have been settled through the receipt and disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows represents the cash position at the Fund's custodian bank at May 31, 2018.

Contingencies. In the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet been made. However, based on experience, the Fund expects the risk of loss to be remote.

Other. Investment transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and discounts are amortized/accreted for financial reporting purposes, with the exception of securities in default of principal.

B. Purchases and Sales of Securities

During the six months ended May 31, 2018, purchases and sales of investment securities (excluding short-term investments) aggregated \$90,928,280 and \$87,690,079, respectively.

Table of Contents**C. Related Parties**

Management Agreement. Under the Investment Management Agreement with DWS Investment Management Americas, Inc. (formerly Deutsche Investment Management Americas Inc.) (DIMA or the Advisor), an indirect, wholly owned subsidiary of DWS Group GmbH & Co. KGaA (DWS Group), the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund. In addition to portfolio management services, the Advisor provides certain administrative services in accordance with the Investment Management Agreement. The management fee payable under the Investment Management Agreement is equal to an annual rate of 0.55% of the Fund's average weekly net assets, computed and accrued daily and payable monthly. Average weekly net assets, for purposes of determining the management fee, means the average weekly value of the total assets of the Fund, minus the sum of accrued liabilities of the Fund (other than the liquidation value of the Series 2018 MTPS).

Service Provider Fees. DWS Service Company (DSC), an affiliate of the Advisor, is the transfer agent, dividend-paying agent and shareholder service agent for the Fund. Pursuant to a sub-transfer agency agreement between DSC and DST Systems, Inc. (DST), DSC has delegated certain transfer agent, dividend-paying agent and shareholder service agent functions to DST. DSC compensates DST out of the shareholder servicing fee it receives from the Fund. For the six months ended May 31, 2018, the amount charged to the Fund by DSC aggregated \$10,515, of which \$6,476 is unpaid.

Typesetting and Filing Service Fees. Under an agreement with DIMA, DIMA is compensated for providing certain pre-press and regulatory filing services to the Fund. For the six months ended May 31, 2018, the amount charged to the Fund by DIMA included in the Statement of Operations under Reports to shareholders aggregated \$7,456, of which \$6,973 is unpaid.

Trustees Fees and Expenses. The Fund paid retainer fees to each Trustee not affiliated with the Advisor, plus specified amounts to the Board Chairperson and Vice Chairperson and to each committee Chairperson.

Transactions with Affiliates. The Fund may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is solely due to having a common investment adviser, common officers or common trustees. During the period ended May 31, 2018, the Fund engaged in securities purchases of \$27,210,000 and securities sales of \$23,690,000 with an affiliated fund in compliance with Rule 17a-7 under the 1940 Act.

Table of Contents

D. Share Repurchases

The Board has authorized the Fund to effect periodic repurchases of its outstanding shares in the open market from time to time when the Fund's shares trade at a discount to their net asset value. During the six months ended May 31, 2018 and the year ended November 30, 2017, the Fund did not repurchase shares in the open market.

On September 20, 2017, the Fund announced that the Fund's Board of Trustees extended the Fund's existing open market share repurchase program for an additional 12-month period. The Fund may continue to purchase outstanding shares of common stock in open-market transactions over the period from December 1, 2017 until November 30, 2018, when the Fund's shares trade at a discount to net asset value. The Board's authorization of the repurchase program extension follows the previous repurchase program, which commenced on December 1, 2016 and ran until November 30, 2017.

E. Fund Name Change

Effective July 2, 2018, the Deutsche Funds were renamed DWS Funds. As a result, Deutsche Municipal Income Trust was renamed DWS Municipal Income Trust.

Table of Contents

Dividend Reinvestment and Cash Purchase Plan

The Board of Trustees of the Fund has established a Dividend Reinvestment and Cash Purchase Plan (the Plan) for shareholders that elect to have all dividends and distributions automatically reinvested in shares of the Fund (each a Participant). DST Systems, Inc. (the Plan Agent) has been appointed by the Fund's Board of Trustees to act as agent for each Participant.

A summary of the Plan is set forth below. Shareholders may obtain a copy of the entire Dividend Reinvestment and Cash Purchase Plan by visiting the Fund's Web site at dws.com or by calling (800) 294-4366.

If you wish to participate in the Plan and your shares are held in your own name, contact DWS Service Company (the Transfer Agent) at P.O. Box 219066, Kansas City, Missouri 64121-9066 or (800) 294-4366 for the appropriate form. Current shareholders may join the Plan by either enrolling their shares with the Transfer Agent or making an initial cash deposit of at least \$250 with the Transfer Agent. First-time investors in the Fund may join the Plan by making an initial cash deposit of at least \$250 with the Transfer Agent. Initial cash deposits will be invested within approximately 30 days. If your shares are held in the name of a broker or other nominee, you should contact the broker or nominee in whose name your shares are held to determine whether and how you may participate in the Plan.

The Transfer Agent will establish a Dividend Investment Account (the Account) for each Participant in the Plan. The Transfer Agent will credit to the Account of each Participant any cash dividends and capital gains distributions (collectively, Distributions) paid on shares of the Fund (the Shares) and any voluntary cash contributions made pursuant to the Plan. Shares in a Participant's Account are transferable upon proper written instructions to the Transfer Agent.

If, on the valuation date for a Distribution, Shares are trading at a discount from net asset value per Share, the Plan Agent shall apply the amount of such Distribution payable to a Participant (less a Participant's pro rata share of brokerage commissions incurred with respect to open-market purchases in connection with the reinvestment of such Distribution) to the purchase on the open market of Shares for a Participant's Account. If, on the valuation date for a Distribution, Shares are trading at a premium over net asset value per Share, the Fund will issue on the payment date, Shares valued at net asset value per Share on the valuation date to the Transfer Agent in the aggregate amount of the funds credited to a Participant's Account. The Fund will increase the price at which Shares may be issued under the Plan to 95% of the fair market value of the

Table of Contents

Shares on the valuation date if the net asset value per Share of the Shares on the valuation date is less than 95% of the fair market value of the Shares on the valuation date. The valuation date will be the payment date for Distributions. Open-market purchases will be made on or shortly after the valuation date for Distributions, and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities law.

A Participant may from time to time make voluntary cash contributions to his or her Account in a minimum amount of \$100 in any month (with a \$36,000 annual limit) for the purchase on the open market of Shares for the Participant's Account. Such voluntary contributions will be invested by the Plan Agent on or shortly after the 15th of each month and in no event more than 30 days after such dates, except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities law. Voluntary cash contributions received from a Participant on or prior to the fifth day preceding the 15th of each month will be applied by the Plan Agent to the purchase of additional Shares as of that investment date. No interest will be paid on voluntary cash contributions held until investment. Consequently, Participants are strongly urged to ensure that their payments are received by the Transfer Agent on or prior to the fifth day preceding the 15th of any month. Voluntary cash contributions should be made in U.S. dollars and be sent by first-class mail, postage prepaid only to the following address (deliveries to any other address do not constitute valid delivery):

DWS Municipal Income Trust
Dividend Reinvestment and Cash Purchase Plan
c/o DWS Service Company
P.O. Box 219066
Kansas City, MO 64121-9066
(800) 294-4366

Participants may withdraw their entire voluntary cash contribution by written notice received by the Transfer Agent not less than 48 hours before such payment is to be invested.

The cost of Shares acquired for each Participant's Account in connection with the Plan shall be determined by the average cost per Share, including brokerage commissions, of the Shares acquired. There will be no brokerage charges with respect to Shares issued directly by the Fund as a result of Distributions. However, each Participant will pay a pro rata share of brokerage commissions incurred with respect to open market purchases.

The reinvestment of Distributions does not relieve the Participant of any tax that may be payable on the Distributions. The Transfer Agent will

Table of Contents

report to each Participant the taxable amount of Distributions credited to his or her Account. Participants will be treated for federal income tax purposes as receiving the amount of the Distributions made by the Fund, which amount generally will be either equal to the amount of the cash distribution the Participant would have received if the Participant had elected to receive cash or, for Shares issued by the Fund, the fair market value of the Shares issued to the Participant.

The Fund may amend the Plan at any time or times but, only by mailing to each Participant appropriate written notice at least 90 days prior to the effective date thereof except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority in which case such amendment shall be effective as soon as practicable. The Plan also may be terminated by the Fund.

Shareholders may withdraw from the Plan at any time by giving the Transfer Agent a written notice. A notice of withdrawal will be effective immediately following receipt of the notice by the Transfer Agent provided the notice is received by the Transfer Agent at least ten calendar days prior to the record date for the Distribution; otherwise such withdrawal will be effective after the investment of the current Distribution. When a Participant withdraws from the Plan, or when the Plan is terminated by the Fund, the Participant will receive a certificate for full Shares in the Account, plus a check for any fractional Shares based on market price; or, if a Participant so desires, the Transfer Agent will notify the Plan Agent to sell his or her Shares in the Plan and send the proceeds to the Participant, less brokerage commissions.

All correspondence and inquiries concerning the Plan, and requests for additional information about the Plan, should be directed to DWS Service Company at P.O. Box 219066, Kansas City, Missouri 64121-9066 or (800) 294-4366.

Proxy Voting

The Fund's policies and procedures for voting proxies for portfolio securities and information about how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 are available on our Web site dws.com/en-us/resources/proxy-voting or on the SEC's Web site sec.gov. To obtain a written copy of the Fund's policies and procedures without charge, upon request, call us toll free at (800) 728-3337.

Table of Contents

Portfolio Holdings Following the Fund’s fiscal first and third quarter-end, a complete portfolio holdings listing is filed with the SEC on Form N-Q. This form will be available on the SEC’s Web site at sec.gov, and it also may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the SEC’s Public Reference Room may be obtained by calling (800) SEC-0330. The Fund’s portfolio holdings as of the month-end are posted on dws.com on or after the last day of the following month. More frequent posting of portfolio holdings information may be made from time to time on dws.com.

Investment Management DWS Investment Management Americas, Inc. (DIMA or the Advisor), which is part of the DWS Group GmbH & Co. KGaA (DWS Group), is the investment advisor for the Fund. DIMA and its predecessors have more than 90 years of experience managing mutual funds and DIMA provides a full range of investment advisory services to both institutional and retail clients. DIMA is an indirect, wholly owned subsidiary of DWS Group.

DWS Group is a global organization that offers a wide range of investing expertise and resources, including hundreds of portfolio managers and analysts and an office network that reaches the world’s major investment centers. This well-resourced global investment platform brings together a wide variety of experience and investment insight across industries, regions, asset classes and investing styles.

FACTS

What Does DWS Do With Your Personal Information?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share can include:

Social Security number

Account balances

Purchase and transaction history

Bank account information

How?

Contact information such as mailing address, e-mail address and telephone number
 All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information, the reasons DWS chooses to share and whether you can limit this sharing.

Reasons we can share your personal information

Does DWS share?

Can you limit this sharing?

What we do

How does DWS protect my personal information?

To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

How does DWS collect my personal information?

We collect your personal information, for example, when you:

open an account

give us your contact information

provide bank account information for ACH or wire transactions

tell us where to send money

seek advice about your investments

Why can't I limit all sharing?

Federal law gives you the right to limit only

sharing for affiliates everyday business purposes

information about your creditworthiness

affiliates from using your information to market to you

sharing for non-affiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

Definitions

Affiliates

Companies related by common ownership or control. They can be financial or non-financial companies. Our affiliates include financial companies with the DWS or Deutsche Bank (DB) name, such as DB AG Frankfurt.

Non-affiliates

Companies not related by common ownership or control. They can be financial and non-financial companies. Non-affiliates we share with include account service providers, service quality monitoring services, mailing service providers and verification services to help in the fight against money laundering and fraud.

Joint marketing

A formal agreement between non-affiliated financial companies that together market financial products or services to you. DWS does not jointly market.

PM Team Disclosure:

As of the date of this report the Fund is managed by a Team of investment professionals who collaborate to develop and implement the Fund's investment strategy. Each Portfolio Manager on the Team has authority over all aspects of the Fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio

construction techniques, portfolio risk assessment, and the management of daily cash flows in accordance with portfolio holdings.

The following individuals handle the day-to-day management of the Fund.

Ashton P. Goodfield, CFA, Managing Director of DWS and Portfolio Manager of the Fund.

- Joined DWS in 1986 and the Fund in 2014.
- Co-Head of Municipal Bonds.
- BA, Duke University.

Michael J. Generazo, Director of DWS and Portfolio Manager of the Fund.

- Joined DWS in 1999 and the Fund in 2010.
- BS, Bryant College; MBA, Suffolk University.

Peter Aloisi, CFA, Vice President of DWS and Portfolio Manager of the Fund.

- Joined DWS in 2010 and the Fund in 2018.
- BA, MBA, Boston College.

Compensation of Portfolio Managers

The Advisor and its affiliates are part of DWS. The brand DWS represents DWS Group GmbH & KGaA and any of the subsidiaries such as DWS Investment Management Americas, Inc. and RREEF America L.L.C. which offer advisory services. As employees of DWS, portfolio managers are paid on a total compensation basis, which includes Fixed Pay (base salary) and Variable Compensation, as set forth below. The compensation information below is provided as of the Fund's most recent semiannual report dated May 31, 2018.

Fixed Pay (**FP**) is the key and primary element of compensation and reflects the value of the individual's role and function within the organization. It rewards factors that an employee brings to the organization such as skills and experience, while reflecting regional and divisional (i.e. DWS) specifics. FP levels play a significant role in ensuring competitiveness of the Advisor and its affiliates in the labor market, thus benchmarking provides a valuable input when determining FP levels.

Variable Compensation (**VC**) is a discretionary compensation element that enables the Advisor and its affiliates to provide additional reward to employees for their performance and behaviors, while reflecting DWS affordability and the financial situation of Deutsche Bank AG (the "Bank") and DWS. VC aims to:

- o Recognize that every employee contributes to the DWS Group’s success through the Bank component of VC (**Group Component**),
 - o Reflect individual performance through discretionary individual VC (**Individual Component**), and
 - o Reward outstanding contributions at the junior levels through the discretionary **Recognition Award**.

Employee seniority as well as divisional and regional specifics determine which VC elements are applicable for a given employee and the conditions under which they apply. Both Group and Individual Components may be awarded in shares or other share-based instruments and other deferral arrangements.

In general, each of the Advisor and its advisory affiliates seek to offer its investment professionals competitive short-term and long-term compensation based on continuous, above average, fund performance relative to the market. This includes measurement of short and long-term performance against industry and portfolio benchmarks. To evaluate its investment professionals in light of and consistent with the compensation principles set forth above, the Advisor and its affiliates review investment performance for all accounts managed in relation to the appropriate Morningstar peer group universe with respect to a fund, iMoneyNet peer group with respect to a money market fund or relevant benchmark index(es) set forth in the governing documents with respect to each other account type. The ultimate goal of this process is to evaluate the degree to which investment professionals deliver investment performance that meets or exceeds their clients’ risk and return objectives. When determining total compensation, the Advisor and its affiliates consider a number of quantitative, qualitative and other factors:

Quantitative measures (e.g. one-, three- and five-year pre-tax returns versus the appropriate Morningstar peer group universe for a fund, or versus the appropriate iMoneyNet peer group for a money market fund or relevant benchmark index(es) set forth in the governing documents with respect to each other account type, taking risk targets into account) are utilized to measure performance.

Qualitative measures (e.g. adherence to, as well as contributions to, the enhancement of the investment process) are included in the performance review.

Other factors (e.g. non-investment related performance, teamwork, adherence to compliance rules, risk management -and "living the values" of the Advisor and its affiliates) are included as part of a discretionary component of the review process, giving management the ability to consider additional markers of performance on a subjective basis.

Fund Ownership of Portfolio Managers

The following table shows the dollar range of Fund shares owned beneficially and of record by each member of the Fund’s portfolio management team as well as in all US registered DWS Funds advised by DWS Investment Management Americas, Inc.

(DIMA) as a group, including investments by their immediate family members sharing the same household and amounts invested through retirement and deferred compensation plans. This information is provided as of the Fund’s most recent semiannual report dated May 31, 2018.

Edgar Filing: DWS MUNICIPAL INCOME TRUST - Form N-CSRS

Ashton P. Goodfield	\$10,001-\$50,000	\$500,000-\$1,000,000
Michael J. Generazo	-	\$10,001-\$50,000
Peter Aloisi	-	\$50,001-\$100,000
Conflicts of Interest		

In addition to managing the assets of the Fund, the Fund's portfolio managers may have responsibility for managing other client accounts of the Advisor or its affiliates. The tables below show, for each portfolio manager, the number and asset size of (1) SEC registered investment companies (or series thereof) other than the Fund, (2) pooled investment vehicles that are not registered investment companies and (3) other accounts (e.g., accounts managed for individuals or organizations) managed by each portfolio manager. Total assets attributed to each portfolio manager in the tables below include total assets of each account managed by them, although the manager may only manage a portion of such account's assets. For Funds subadvised by subadvisors unaffiliated with DIMA, total assets of Funds managed may only include assets allocated to the portfolio manager and not the total assets of each Fund managed. The tables also show the number of performance-based fee accounts, as well as the total assets of the accounts for which the advisory fee is based on the performance of the account. This information is provided as of the Fund's most recent semiannual report dated May 31, 2018.

Other SEC Registered Investment Companies Managed:

Ashton P. Goodfield	-	-	-	-
Michael J. Generazo	3	\$54,259,409	-	-
Peter Aloisi	-	-	-	-

In addition to the accounts above, an investment professional may manage accounts in a personal capacity that may include holdings that are similar to, or the same as, those of the Funds. The Advisor has in place a Code of Ethics that is designed to address conflicts of interest and that, among other things, imposes restrictions on the ability of portfolio managers and other “access persons” to invest in securities that may be recommended or traded in the Funds and other client accounts.

Real, potential or apparent conflicts of interest may arise when a portfolio manager has day-to-day portfolio management responsibilities with respect to more than one fund or account, including the following:

Certain investments may be appropriate for the Fund and also for other clients advised by the Advisor, including other client accounts managed by the Fund’s portfolio management team. Investment decisions for the Fund and other clients are made with a view to achieving their respective investment objectives and after consideration of such factors as their current holdings, availability of cash for investment and the size of their investments generally. A particular security may be bought or sold for only one client or in different amounts and at different times for more than one but less than all clients. Likewise, because clients of the Advisor may have differing investment strategies, a particular security may be bought for one or more clients when one or more other clients are selling the security. The investment results achieved for the Fund may differ from the results achieved for other clients of the Advisor. In addition, purchases or sales of the same security may be made for two or more clients on the same day. In such event, such transactions will be allocated among the clients in a manner believed by the Advisor to be most equitable to each client, generally utilizing a pro rata allocation methodology. In some cases, the allocation procedure could potentially have an adverse effect or positive effect on the price or amount of the securities purchased or sold by the Fund. Purchase and sale orders for the Fund may be combined with those of other clients of the Advisor in the interest of achieving the most favorable net results to the Fund and the other clients.

To the extent that a portfolio manager has responsibilities for managing multiple client accounts, a portfolio manager will need to divide time and attention among relevant accounts. The Advisor attempts to minimize these conflicts by aligning its portfolio management teams by investment strategy and by employing similar investment models across multiple client accounts.

In some cases, an apparent conflict may arise where the Advisor has an incentive, such as a performance-based fee, in managing one account and not with respect to other accounts it manages. The Advisor will not determine allocations based on whether it receives a performance-based fee from the client. Additionally, the Advisor has in place supervisory oversight processes to periodically monitor performance deviations for accounts with like strategies.

The Advisor and its affiliates and the investment team of each Fund may manage other mutual funds and separate accounts on a long only or a long-short basis. The simultaneous management of long and short portfolios creates potential conflicts of interest including the risk that short sale activity could adversely

affect the market value of the long positions (and vice versa), the risk arising from sequential orders in long and short positions, and the risks associated with receiving opposing orders at the same time. The Advisor has adopted procedures that it believes are reasonably designed to mitigate these and other potential conflicts of interest. Included in these procedures are specific guidelines developed to provide fair and equitable treatment for all clients whose accounts are managed by each Fund’s portfolio management team. The Advisor and the portfolio management team have established monitoring procedures, a protocol for supervisory reviews, as well as compliance oversight to ensure that potential conflicts of interest relating to this type of activity are properly addressed.

Because the Advisor is majority owned by the Bank, a multi-national financial services company, the Advisor is affiliated with a variety of entities that provide, and/or engage in commercial banking, insurance, brokerage, investment banking, financial advisory, broker-dealer activities (including sales and trading), hedge funds, real estate and private equity investing, in addition to the provision of investment management services to institutional and individual investors. Since the Bank, its affiliates, directors, officers and employees (the “Firm”) are engaged in businesses and have interests in addition to managing asset management accounts, such wide ranging activities involve real, potential or apparent conflicts of interest. These interests and activities include potential advisory, transactional and financial activities and other interests in securities and companies that may be directly or indirectly purchased or sold by the Firm for its clients’ advisory accounts. The Advisor may take investment positions in securities in which other clients or related persons within the Firm have different investment positions. There may be instances in which the Advisor is purchasing or selling for its client accounts, or pursuing an outcome in the context of a workout or restructuring with respect to, securities in which the Firm is undertaking the same or differing strategy in other businesses or other client accounts. These are considerations of which advisory clients should be aware and which may cause conflicts that could be to the disadvantage of the Advisor’s advisory clients, including the Fund. The Advisor has instituted business and compliance policies, procedures and disclosures that are designed to identify, monitor and mitigate conflicts of interest and, as appropriate, to report them to a Fund’s Board.

**ITEM PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT
9. COMPANY AND AFFILIATED PURCHASERS**

Period	(a)	(b)	(c)	(d)
	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
December 1 through December 31	-	n/a	n/a	n/a
January 1 through January 31	-	n/a	n/a	n/a
February 1 through February 28	-	n/a	n/a	n/a

March 1 through March 31			
April 1 through April 30	-	n/a	n/a
May 1 through May 31	-	n/a	n/a
Total	-	n/a	n/a

The Fund may from time to time repurchase shares in the open market.

On September 20, 2017, the Fund announced that the Fund's Board of Trustees extended the Fund's existing open market share repurchase program for an additional 12 month period. The Fund may continue to purchase outstanding shares of common stock in open-market transactions over the period December 1, 2017 until November 30, 2018, when the Fund's shares trade at a discount to net asset value. The Board's authorization of the repurchase program extension follows the previous repurchase program, which commenced on December 1, 2016 and ran until November 30, 2017.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board. The primary function of the Nominating and Governance Committee is to identify and recommend individuals for membership on the Board and oversee the administration of the Board Governance Guidelines. Shareholders may recommend candidates for Board positions by forwarding their correspondence by U.S. mail or courier service to Keith R. Fox, DWS Funds Board Chair, c/o Thomas R. Hiller, Ropes & Gray LLP, Prudential Tower, 800 Boylston Street, Boston, MA 02199-3600.

ITEM 11. CONTROLS AND PROCEDURES

The Chief Executive and Financial Officers concluded that the Registrant's Disclosure Controls and (a) Procedures are effective based on the evaluation of the Disclosure Controls and Procedures as of a date within 90 days of the filing date of this report.

There have been no changes in the registrant's internal control over financial reporting that occurred (b) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal controls over financial reporting.

ITEM 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.
