TAUBMAN CENTERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Interim Financial Statements

General

Taubman Centers, Inc. (the Company or TCO), a real estate investment trust, or REIT, is the managing general partner of The Taubman Realty Group Limited Partnership (the Operating Partnership or TRG). The Operating Partnership is an operating subsidiary that engages in the ownership, management, leasing, acquisition, development, and expansion of regional and super-regional retail shopping centers and interests therein. The Operating Partnership's owned portfolio as of March 31, 2007 included 22 urban and suburban shopping centers in ten states. One new center is under construction in Michigan.

Taubman Asia, which is the platform for the Company's expansion into the Asia-Pacific region, is headquartered in Hong Kong.

Consolidation

The consolidated financial statements of the Company include all accounts of the Company, the Operating Partnership, and its consolidated subsidiaries, including The Taubman Company LLC (the Manager) and Taubman Properties Asia LLC (Taubman Asia). The Company consolidates the accounts of the owner of The Mall at Partridge Creek (Partridge Creek) (Note 3), which qualifies as a variable interest entity under FASB Interpretation No. 46 "Consolidation of Variable Interest Entities" (FIN 46R) for which the Operating Partnership is considered to be the primary beneficiary. All intercompany transactions have been eliminated.

Investments in entities not controlled but over which the Company may exercise significant influence (Unconsolidated Joint Ventures) are accounted for under the equity method. The Company has evaluated its investments in the Unconsolidated Joint Ventures and has concluded that the ventures are not variable interest entities as defined in FIN 46R. Accordingly, the Company accounts for its interests in these ventures under the guidance in Statement of Position 78-9 "Accounting for Investments in Real Estate Ventures," (SOP 78-9), as amended by FASB Staff Position 78-9-1, and Emerging Issues Task Force Issue No. 04-5 "Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights" (EITF 04-5). The Company's partners or other owners in these Unconsolidated Joint Ventures have substantive participating rights, as contemplated by paragraphs 16 through 18 of EITF 04-5, including approval rights over annual operating budgets, capital spending, financing, admission of new partners/members, or sale of the properties and the Company has concluded that the equity method of accounting is appropriate for these interests. Specifically, the Company's 79% investment in Westfarms is through a general partnership in which the other general partners have approval rights over annual operating budgets, capital spending, refinancing, or sale of the property.

Because the net equity balance (accumulated distributions from operations in excess of net income) of the outside partners in certain of the Company's consolidated joint ventures is less than zero, the interest of these outside partners is presented as a zero balance in the consolidated balance sheet as of March 31, 2007 and December 31, 2006. The income allocated to these noncontrolling partners is equal to their share of operating distributions as long as the net equity of the partners is less than zero.

The Company accounts for distributions to minority partners that result from financing transactions as a debit balance minority interest upon determination that (1) the distribution was the result of appreciation in the fair value of the property above the book value, (2) the financing was provided at a loan to value ratio commensurate with non-recourse real estate lending, and (3) the excess of the property value over the financing provides support for the

eventual recovery of the debit balance minority interest upon sale or disposal of the property. Debit balance minority interests are considered as part of the carrying value of a property for purposes of evaluating impairment, should events or circumstances indicate that the carrying value may not be recoverable.

The Company began consolidating, as of January 1, 2006, the entity that owns Cherry Creek Shopping Center (Cherry Creek), a 50% owned joint venture, pursuant to the transition methodology provided in EITF 04-5. In May 2006, Cherry Creek refinanced its debt and distributed the excess proceeds to the partners. The joint venture partner's \$45 million share of the distributed excess proceeds is classified as minority interest and included in Deferred Charges and Other Assets in the Company's consolidated balance sheet.

TAUBMAN CENTERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Ownership

In addition to the Company's common stock, there are three classes of preferred stock (Series B, G, and H) outstanding as of March 31, 2007. Dividends on the 8% Series G and 7.625% Series H preferred stocks are cumulative and are payable in arrears on or about the last day of each calendar quarter. The Company owns corresponding Series G and Series H Preferred Equity interests in the Operating Partnership that entitle the Company to income and distributions (in the form of guaranteed payments) in amounts equal to the dividends payable on the Company's Series G and Series H Preferred Stock.

The Company also is obligated to issue to partners in the Operating Partnership other than the Company, upon subscription, one share of nonparticipating Series B Preferred Stock. The Series B Preferred Stock entitles its holders to one vote per share on all matters submitted to the Company's shareholders and votes together with the common stock on all matters as a single class. The holders of Series B Preferred Stock are not entitled to dividends or earnings. Under certain circumstances, the Series B Preferred Stock is convertible into common stock at a ratio of 14,000 shares of Series B Preferred Stock for one share of common stock.

The Operating Partnership

At March 31, 2007, the Operating Partnership's equity included three classes of preferred equity (Series F, G, and H) and the net equity of the partnership unitholders. Net income and distributions of the Operating Partnership are allocable first to the preferred equity interests, and the remaining amounts to the general and limited partners in the Operating Partnership in accordance with their percentage ownership. The Series G and Series H Preferred Equity are owned by the Company and are eliminated in consolidation. The Series F Preferred Equity is owned by an institutional investor.

Because the net equity of the Operating Partnership unitholders is less than zero, \$(320) million as of March 31, 2007, the interest of the noncontrolling unitholders is presented as a zero balance in the consolidated balance sheet as of March 31, 2007 and December 31, 2006. The income allocated to the noncontrolling unitholders is equal to their share of distributions as long as the net equity of the Operating Partnership is less than zero. The net equity of the Operating Partnership is less than zero because of accumulated distributions in excess of net income and not as a result of operating losses. Distributions to partners are usually greater than net income because net income includes non-cash charges for depreciation and amortization.

The Company's ownership in the Operating Partnership at March 31, 2007 consisted of a 66% managing general partnership interest, as well as the Series G and H Preferred Equity interests. The Company's average ownership percentage in the Operating Partnership for the three months ended March 31, 2007 and 2006 was 66% and 64%, respectively. At March 31, 2007, the Operating Partnership had 81,079,641 units of partnership interest outstanding, of which the Company owned 53,602,344.

Finite Life Entities

SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" establishes standards for classifying and measuring as liabilities certain financial instruments that embody obligations of the issuer and have characteristics of both liabilities and equity. At March 31, 2007, the Company held controlling majority interests in consolidated entities with specified termination dates in 2080 and 2083. The minority owners' interests in these entities are to be settled upon termination by distribution or transfer of either cash or specific assets of the underlying entity. The estimated fair value of these minority interests were approximately \$204.2 million at

March 31, 2007, compared to a book value of \$(45.5) million, which are classified as Deferred Charges and Other Assets in the Company's consolidated balance sheet.

Other

The unaudited interim financial statements should be read in conjunction with the audited financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the financial statements for the interim periods have been made. The results of interim periods are not necessarily indicative of the results for a full year.

Dollar amounts presented in tables within the notes to the financial statements are stated in thousands, except share data or as otherwise noted.

TAUBMAN CENTERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Note 2 - Income Taxes

The Company's taxable REIT subsidiaries are subject to corporate level income taxes, which are provided for in the Company's financial statements. The Company's deferred tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities for financial reporting purposes and the bases of such assets and liabilities as measured by tax laws. Deferred tax assets are reduced, if necessary, by a valuation allowance to the amount where realization is more likely than not assured after considering all available evidence. The Company's temporary differences primarily relate to deferred compensation and depreciation. During the three months ended March 31, 2007, the Company's foreign and federal income tax expenses were each less than \$0.1 million. As of March 31, 2007, the Company had a net deferred tax asset of \$3.3 million, after a valuation allowance of \$4.7 million. As of December 31, 2006, the net deferred tax asset was \$3.3 million, after a valuation allowance of \$5.6 million.

The Company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" (FIN 48) on January 1, 2007. FIN 48 defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Adoption of FIN 48 did not have a material effect on the Company's results of operations or financial position.

The Company had no unrecognized tax benefits as of the January 1, 2007 adoption date or as of March 31, 2007. The Company expects no significant increases or decreases in unrecognized tax benefits due to changes in tax positions within one year of March 31, 2007. The Company has no interest or penalties relating to income taxes recognized in the statement of operations for the three months ended March 31, 2007 or in the balance sheet as of March 31, 2007. As of March 31, 2007, returns for the calendar years 2003 through 2006 remain subject to examination by U.S. and various state and foreign tax jurisdictions.

Note 3 - New Center Development and Services

New Center Development

The Mall at Partridge Creek

Partridge Creek, a 640,000 square foot center, is under construction in Clinton Township, Michigan. The center, which is 85% leased and committed, will be anchored by Nordstrom, Parisian, and MJR Theatres, and is scheduled to open on October 18, 2007, with Nordstrom opening in April 2008. In May 2006, the Operating Partnership engaged the services of a third-party investor to acquire certain property associated with the project, in order to facilitate a Section 1031 like-kind exchange to provide flexibility for disposing of assets in the future. The third-party investor became the owner of the project and leases the land from a subsidiary of the Operating Partnership. In turn, the owner leases the project back to the Operating Partnership. The Company consolidates the accounts of the owner.

The Pier Shops at Caesars

The Pier Shops at Caesars (The Pier Shops), located in Atlantic City, New Jersey, began opening in phases in June 2006. Gordon Group Holdings LLC developed the center, and in January 2007, the Company assumed full management and leasing responsibility for the center. In April 2007, the Company increased its ownership of The Pier Shops to 77.5% (Note 11).

The Mall at Oyster Bay

The Company is seeking a final decision in the Supreme Court of the State of New York (Suffolk County) on the Company's land use plan to build a mall in Syosset, Long Island, New York. The Company believes it will be successful in this litigation and will ultimately build the mall, which will be anchored by Neiman Marcus, Nordstrom, and Barneys New York. However, if the Company is ultimately unsuccessful it is anticipated that the recovery on this asset would be significantly less than its current investment. The Company's investment in The Mall at Oyster Bay (Oyster Bay) was \$131.3 million as of March 31, 2007.

Land

In January 2007, the Company acquired land for future development in North Atlanta, Georgia, for \$15.5 million.

TAUBMAN CENTERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Services

In January 2007, the Company announced its involvement as a third party leasing agent for a lifestyle center in the city of North Las Vegas, Nevada. This is a mixed use project that will include retail, dining, and entertainment of up to 1.3 million square feet and a residential component consisting of approximately 800 units. The shopping center is expected to open in late 2008. The developer of the residential component is a joint venture, which includes an affiliate of the Taubman family. The Taubman family affiliate also participates in the project's non-residential component.

Taubman Asia

In January 2007, Taubman Asia entered into an agreement to provide development services for a 1.2 million square foot retail and entertainment complex in New Songdo City, Incheon, South Korea. The shopping complex is scheduled to open in early 2010, with construction beginning in 2007. The Company negotiated the opportunity to invest in a portion of the broader project, which will include not only retail, but also office, hotel, and residential uses. The Company anticipates finalizing its decision on this investment in 2007.

Also in January 2007, Taubman Asia announced its involvement in the retail component of Macao Studio City on the Cotai Strip in Macao. Taubman Asia has signed a term sheet to acquire a minority position in the retail component of the project and will provide development, leasing, and management services, subject to definitive agreements to be completed in the first half of 2007.

Note 4 - Investments in Unconsolidated Joint Ventures

General Information

The Company has investments in joint ventures that own shopping centers. The Operating Partnership is the managing general partner or managing member of these Unconsolidated Joint Ventures, except for the ventures that own Arizona Mills, The Mall at Millenia, and Waterside Shops at Pelican Bay.

<u>Shopping Center</u>	Ownership as of March 31, 2007 and <u>December 31, 2006</u>
Arizona Mills	50%
Fair Oaks Mall	50
The Mall at Millenia	50
The Pier Shops at Caesars	(Notes 3 and 11)
Stamford Town Center	50
Sunvalley	50
Waterside Shops at Pelican Bay	25
Westfarms	79

The Company's carrying value of its Investment in Unconsolidated Joint Ventures differs from its share of the partnership or members equity reported in the combined balance sheet of the Unconsolidated Joint Ventures due to (i) the Company's cost of its investment in excess of the historical net book values of the Unconsolidated Joint Ventures and (ii) the Operating Partnership's adjustments to the book basis, including intercompany profits on sales of services that are capitalized by the Unconsolidated Joint Ventures. The Company's additional basis allocated to depreciable

assets is recognized on a straight-line basis over 40 years. The Operating Partnership's differences in bases are amortized over the useful lives of the related assets.

In its consolidated balance sheet, the Company separately reports its investment in joint ventures for which accumulated distributions have exceeded investments in and net income of the joint ventures. The net equity of certain joint ventures is less than zero because distributions are usually greater than net income, as net income includes non-cash charges for depreciation and amortization.

Other

In 2006, the Company collected the remaining \$9 million of receivables for the disposition of its interest in Woodland in 2005.

The Company has not yet received audited financial statements for any period after 2004 from The Mills Corporation, which manages the 50% unconsolidated joint venture, Arizona Mills. Amounts recognized relating to Arizona Mills may change as a result of the completion of prior years' Arizona Mills audits. In the first quarter of 2007, the Company received a prior period adjustment relating to accounting for lease incentives of \$0.6 million. The Company's share was a \$0.3 million reduction of income.

Note 5 - Beneficial Interest in Debt and Interest Expense

The Operating Partnership's beneficial interest in the debt, capital lease obligations, capitalized interest, and interest expense of its consolidated subsidiaries and its Unconsolidated Joint Ventures is summarized in the following table. The Operating Partnership's beneficial interest in the Consolidated Subsidiaries excludes debt and interest related to the minority interests in Cherry Creek (50%), International Plaza (49.9%), MacArthur Center (5%), and The Mall at Wellington Green (10%). The Operating Partnership's beneficial interest in Unconsolidated Joint Venture amounts excludes The Pier Shops. In April 2007, the Company increased its ownership in The Pier Shops to 77.5% and refinanced the existing construction loan (Note 11).

Debt Covenants and Guarantees

Certain loan agreements contain various restrictive covenants, including a minimum net worth requirement, minimum interest coverage ratios, a maximum payout ratio on distributions, a minimum debt yield ratio, a maximum leverage ratio, and a minimum fixed charges coverage ratio, the latter being the most restrictive. The Operating Partnership is in compliance with all of its covenants. The maximum payout ratio on distributions covenant limits the payment of distributions generally to 95% of funds from operations, as defined in the loan agreement, except as required to maintain the Company's tax status, pay preferred distributions, and for distributions related to the sale of certain assets.

Payments of principal and interest on the loans in the following table are guaranteed by the Operating Partnership as of March 31, 2007.

Borrowings under the \$350 million revolver are primary obligations of the entities owning Dolphin Mall, Fairlane Town Center (Fairlane), and Twelve Oaks Mall (Twelve Oaks), which are the collateral for the line of credit. The Operating Partnership and the entities owning Fairlane and Twelve Oaks are guarantors under the credit agreement.

The Operating partnership has also guaranteed certain obligations of Partridge Creek and the payment of \$3.2 million primarily related to certain tenant allowances for Northlake Mall.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company is required to escrow cash balances for specific uses stipulated by certain of its lenders, including ground lease payments, taxes, insurance, debt service, capital improvements, leasing costs, and tenant allowances. As of March 31, 2007 and December 31, 2006, the Company's cash balances restricted for these uses were \$2.2 million and \$2.0 million, respectively. Such amounts are included within cash and cash equivalents in the Company's consolidated balance sheet.

Note 6 - Equity Transactions

Redemption of Preferred Stock and Equity

In May 2006, the Company redeemed all of the remaining 8.3% Series A Cumulative Redeemable Preferred Stock (Series A Preferred Stock) at a price of \$25.27 per share, which included accrued and unpaid dividends. As a result of application of Emerging Issues Task Force Topic D-42 "The Effect on the Calculation of Earnings Per Share for the Redemption or Induced Conversion of Preferred Stock," the Company recognized a charge of \$4.0 million in the second quarter of 2006, representing the difference between the carrying value and the redemption price of the Series A Preferred Stock.

This Series A Preferred Stock was redeemed with the proceeds of a \$113 million private preferred stock issuance, the Series I Cumulative Redeemable Preferred Stock (Series I Preferred Stock). The Company redeemed the Series I Preferred Stock on June 30, 2006, using available cash. The Company recognized a charge of \$0.6 million at that time, representing the difference between the carrying value, which includes original issuance costs, and the redemption price of the Series I Preferred Stock.

Common Stock and Equity

In December 2005, the Company's Board of Directors authorized the purchase of up to \$50 million of the Company's common stock on the open market. For each share of stock repurchased, an equal number of Operating Partnership units will be redeemed. There were no purchases under this program in 2007 or 2006. Repurchases of common stock will be financed through general corporate funds and through borrowings under existing lines of credit.

During the three months ended March 31, 2007 and 2006, 669,809 and 906,343 shares, respectively, of Series B Preferred Stock were converted to 43 shares and 63 shares, respectively, of the Company's common stock as a result of tenders of units under the Continuing Offer (Note 8). See Note 7 for equity issuances under share-based compensation plans.

Note 7 - Share-Based Compensation

The Company provides certain share-based compensation through an incentive option plan, a long-term incentive plan, and non-employee directors' stock grant and deferred compensation plans.

The compensation cost charged to income for these share-based compensation plans was \$1.6 million and \$1.0 million for the three months ended March 31, 2007 and 2006, respectively. Compensation cost capitalized as part of properties and deferred leasing costs for the three months ended March 31, 2007 and 2006 was \$0.2 million in both periods.

Further information regarding activities relating to the incentive option plan and long-term incentive plan during the three months ended March 31, 2007 is provided below.

Incentive Options

The Company's incentive option plan (the Option Plan), which is shareholder approved, permits the grant of options to employees. The Operating Partnership's units issued in connection with the Option Plan are exchangeable for new shares of the Company's common stock under the Continuing Offer (Note 8). Options for 1.3 million partnership units have been granted and are outstanding at March 31, 2007. Of the 1.3 million options outstanding, 0.7 million have vesting schedules with one-third vesting at each of the first, second, and third years of the grant anniversary, if continuous service has been provided. Substantially all of the other 0.6 million options outstanding have vesting schedules with one-third vesting at each of the third, fifth, and seventh years of the grant anniversary, if continuous service has been provided and certain conditions dependent on the Company's market performance in comparison to its competitors have been met. The options have ten-year contractual terms. As of March 31, 2007, options for 0.9 million Operating Partnership units remain available for grant under the Option Plan.

TAUBMAN CENTERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company estimated the value of the options issued during the three months ended March 31, 2007 using a Black-Scholes valuation model based on the following assumptions and resulting in the weighted-average grant-date fair value shown below:

	2007
Expected volatility	20.76%
Expected dividend yield	3.00%
Expected terms (in years)	7
Risk-free interest rate	4.45%
Weighted-average grant-date fair value	\$11.77

Expected volatility and dividend yields are based on historical volatility and yields of the Company's stock, respectively, as well as other factors. In developing the assumption of expected term, the Company has considered the vesting and contractual terms as well as the expected terms of options disclosed by members of its peer group. The risk-free rates used are based on the U.S. Treasury yield curves in effect at the times of grants. The Company assumes no forfeitures under the Option Plan due to the small number of participants and low turnover rate.

A summary of option activity under the Option Plan for the three months ended March 31, 2007 is presented below:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Range of Exercise Prices
Outstanding at January 1, 2007	1,115,376	\$ 32.55	8.5	\$ 29.38 - \$40.39
Granted	226,875	55.90		
Outstanding at March 31, 2007	1,342,251	\$ 36.50	8.5	\$ 29.38 - \$55.90
Fully vested options at March 31, 2007	188,191	\$ 35.54	8.5	

Long-Term Incentive Plan

The Company established The Taubman Company 2005 Long-Term Incentive Plan (LTIP) in 2005. The LTIP allows the Company to make grants of restricted stock units (RSU) to employees. An aggregate of 1.1 million shares of the Company's common stock remain available for issuance under the LTIP. There were RSU for 0.4 million shares outstanding at March 31, 2007. Each RSU represents the right to receive upon vesting one share of the Company's common stock plus a cash payment equal to the aggregate cash dividends that would have been paid on such share of common stock from the date of grant of the award to the vesting date. Each RSU is valued at the closing price of the Company's common stock on the grant date. RSU vest on the third year anniversary of the grant if continuous service has been provided for that period, or upon retirement or certain other events if earlier. Based on an analysis of historical employee turnover, the Company has made an annual forfeiture assumption of 2.4% of grants when recognizing compensation costs relating to the RSU. None of the RSU outstanding at March 31, 2007 were vested.

A summary of activity for the three months ended March 31, 2007 under the LTIP is presented below:

	Restricted Stock Units	Weighted-Average Grant Date Fair Value

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Note 8 - Commitments and Contingencies

At the time of the Company's initial public offering and acquisition of its partnership interest in the Operating Partnership, the Company entered into an agreement (the Cash Tender Agreement) with A. Alfred Taubman, who owns an interest in the Operating Partnership, whereby he has the annual right to tender to the Company units of partnership interest in the Operating Partnership (provided that the aggregate value is at least \$50 million) and cause the Company to purchase the tendered interests at a purchase price based on a market valuation of the Company on the trading date immediately preceding the date of the tender. At A. Alfred Taubman's election, his family and certain others may participate in tenders. The Company will have the option to pay for these interests from available cash, borrowed funds, or from the proceeds of an offering of the Company's common stock. Generally, the Company expects to finance these purchases through the sale of new shares of its stock. The tendering partner will bear all market risk if the market price at closing is less than the purchase price and will bear the costs of sale. Any proceeds of the offering in excess of the purchase price will be for the sole benefit of the Company. The Company accounts for the Cash Tender Agreement between the Company and Mr. Taubman as a freestanding written put option. As the option put price is defined by the current market price of the Company's stock at the time of tender, the fair value of the written option defined by the Cash Tender Agreement is considered to be zero.

Based on a market value at March 31, 2007 of \$57.99 per common share, the aggregate value of interests in the Operating Partnership that may be tendered under the Cash Tender Agreement was approximately \$1.5 billion. The purchase of these interests at March 31, 2007 would have resulted in the Company owning an additional 31% interest in the Operating Partnership.

The Company has made a continuing, irrevocable offer to all present holders (other than certain excluded holders, including A. Alfred Taubman), assignees of all present holders, those future holders of partnership interests in the Operating Partnership as the Company may, in its sole discretion, agree to include in the continuing offer, and all existing and future optionees under the Operating Partnership's incentive option plan to exchange shares of common stock for partnership interests in the Operating Partnership (the Continuing Offer). Under the Continuing Offer agreement, one unit of the Operating Partnership interest is exchangeable for one share of the Company's common stock.

Neither the Company, its subsidiaries, nor any of its joint ventures is presently involved in any material litigation, nor, to its knowledge, is any material litigation threatened against the Company, its subsidiaries, or any of the properties. Except for routine litigation involving present or former tenants (generally eviction or collection proceedings), substantially all litigation is covered by liability insurance.

See Note 3 regarding obligations and commitments related to Partridge Creek and The Pier Shops and contingencies related to Oyster Bay and Note 5 for the Operating Partnership's guarantees of certain notes payable and other obligations. Also see Note 11 regarding subsequent obligations related to The Pier Shops.

Note 9 - Earnings Per Share

Basic earnings per share amounts are based on the weighted average of common shares outstanding for the respective periods. Diluted earnings per share amounts are based on the weighted average of common shares outstanding plus the dilutive effect of common stock equivalents. Common stock equivalents include outstanding partnership units exchangeable for common shares under the Continuing Offer (Note 8), outstanding options for units of partnership interest under the Operating Partnership's incentive option plan, RSU under the LTIP and deferred compensation plan (Note 7) and unissued partnership units under unit option deferral elections. In computing the potentially dilutive

effect of these common stock equivalents, partnership units are assumed to be exchanged for common shares under the Continuing Offer, increasing the weighted average number of shares outstanding. The potentially dilutive effects of partnership units outstanding and/or issuable under the unit option deferral elections are calculated using the if-converted method, while the effects of other common stock equivalents are calculated using the treasury stock method.

TAUBMAN CENTERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As of March 31, 2007, there were 9.8 million partnership units outstanding and 0.9 million unissued partnership units under unit option deferral election that may be exchanged for common shares of the Company under the Continuing Offer (Note 8). Outstanding partnership units and unissued units under unit option deferral elections were excluded from the computation of diluted earnings per share as they were anti-dilutive in all periods presented. These outstanding units and unissued units could only be dilutive to earnings per share if the minority interests' ownership share of the Operating Partnership's income was greater than their share of distributions.

Note 10 - New Accounting Pronouncements

In February 2007, the FASB Issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". This Statement permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The Statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. Statement No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, although early application is allowed. The Company is currently evaluating the application of this Statement and its effect on the Company's financial position and results of operations.

In September 2006, the FASB issued Statement No. 157 "Fair Value Measurements." This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement applies to accounting pronouncements that require or permit fair value measurements, except for share-based payments transactions under FASB Statement No. 123 (Revised) "Share-Based Payment." This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. As Statement No. 157 does not require any new fair value measurements or remeasurements of previously computed fair values, the Company does not believe adoption of this Statement will have a material effect on its financial statements.

Note 11 - Subsequent Events

In April 2007, the Company increased its ownership in The Pier Shops to a 77.5% controlling interest and placed a \$135 million loan on the property. The remaining 22.5% interest continues to be held by Gordon Group Holdings LLC, the developer of the project. The Company will begin consolidating The Pier Shops in the second quarter of 2007. At closing, the Company made a \$24.5 million equity investment in the center, bringing its total equity investment to \$28.5 million. The Company will be entitled to a 7% cumulative preferred return on its \$133.1 million total investment, including its \$104.6 million share of debt. The new \$135 million loan on the property is a 10-year, non-recourse, interest-only loan and bears interest at an all-in rate of approximately 6.1%. The Company has the

ability to borrow up to an additional \$25 million for a total borrowing capacity of \$160 million if certain center operating requirements are met. The loan proceeds were used to repay the \$88.1 million balance on the construction loan on the center and fund remaining construction costs and tenant allowances. The Company will be responsible for any additional capital requirements, estimated to be in the range of \$15 million over the next two years, on which it will receive a preferred return at a minimum of 8%.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations contains various “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent our expectations or beliefs concerning future events, including the following: statements regarding future developments and joint ventures, rents and returns, statements regarding the continuation of trends, and any statements regarding the sufficiency of our cash balances and cash generated from operating and financing activities for our future liquidity and capital resource needs. We caution that although forward-looking statements reflect our good faith beliefs and best judgment based upon current information, these statements are qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including those risks, uncertainties, and factors detailed from time to time in reports filed with the SEC, and in particular those set forth under the headings “General Risks of the Company” and “Environmental Matters” in our Annual Report on Form 10-K. The following discussion should be read in conjunction with the accompanying Consolidated Financial Statements of Taubman Centers, Inc. and the Notes thereto.

General Background and Performance Measurement

Taubman Centers, Inc. (“we”, “us”, “our” or “TCO”) owns a managing general partner's interest in The Taubman Realty Group Limited Partnership (the "Operating Partnership" or "TRG"), through which we conduct all of our operations. The Operating Partnership owns, develops, acquires, and operates regional and super-regional shopping centers. The Consolidated Businesses consist of shopping centers that are controlled by ownership or contractual agreements, development projects for future shopping centers, variable interest entities for which we are the primary beneficiary, The Taubman Company LLC ("Manager"), and Taubman Properties Asia LLC (“Taubman Asia”). Shopping centers owned through joint ventures that are not controlled by us but over which we have significant influence ("Unconsolidated Joint Ventures") are accounted for under the equity method.

References in this discussion to “beneficial interest” refer to our ownership or pro-rata share of the item being discussed. Also, the operations of the shopping centers are often best understood by measuring their performance as a whole, without regard to our ownership interest. Consequently, in addition to the discussion of the operations of the Consolidated Businesses, the operations of the Unconsolidated Joint Ventures are presented and discussed as a whole.

The comparability of information used in measuring performance is affected by the expansion and renovation at Waterside Shops at Pelican Bay (Waterside) in 2006 and The Pier Shops at Caesars (The Pier Shops), which began opening stores in late June 2006. In April 2007, we increased our ownership in The Pier Shops to 77.5% (see “Subsequent Events”). The Pier Shops has been excluded from all operating statistics. Additional “comparable center” statistics that exclude Waterside are provided to present the performance of comparable centers in our continuing operations.

Current Operating Trends

Tenant sales and sales per square foot information are operating statistics used in measuring the productivity of the portfolio and are based on reports of sales furnished by mall tenants. Our tenant sales statistics have continued to demonstrate strong growth through the first quarter of 2007, with sales per square foot increasing 8.9% over the first quarter of 2006. Tenant sales have increased every quarter for four years. Sales directly impact the amount of percentage rents certain tenants and anchors pay. The effects of increases or declines in sales on our operations are moderated by the relatively minor share of total rents that percentage rents represent. However, a sustained trend in sales does impact, either negatively or positively, our ability to lease vacancies and negotiate rents at advantageous rates. We believe these improving tenant sales provide us an opportunity to continue to increase rents in the future.

In the first quarter of 2007, occupancy increased to 89.7% compared to 88.3% in the first quarter of 2006. We continue to expect modest increases in occupancy throughout the year. See "Seasonality" for occupancy and leased space statistics. Temporary tenants, defined as those with lease terms less than 12 months, are not included in occupancy or leased space statistics. As of March 31, 2007, approximately 1.8% of space was occupied by temporary tenants.

As leases have expired in the shopping centers, we have generally been able to rent the available space, either to the existing tenant or a new tenant, at rental rates that are higher than those of the expired leases. In periods of increasing sales, rents on new leases will tend to rise as tenants' expectations of future growth become more optimistic. In periods of slower growth or declining sales, rents on new leases will grow more slowly or may decline for the opposite reason. However, center revenues nevertheless increase as older leases roll over or are terminated early and replaced with new leases negotiated at current rental rates that are usually higher than the average rates for existing leases. Rent per square foot information for comparable centers in our consolidated businesses and unconsolidated joint ventures follows:

	Three Months Ended	
	March 31	
	2007	2006
Average rent per square foot:		
Consolidated Businesses	\$ 43.88	\$ 42.84
Unconsolidated Joint Ventures	41.36	41.80
Opening base rent per square foot:		
Consolidated Businesses	\$ 55.99	\$ 44.55
Unconsolidated Joint Ventures	46.81	49.11
Square feet of GLA opened:		
Consolidated Businesses	216,190	243,601
Unconsolidated Joint Ventures	100,826	81,986
Closing base rent per square foot:		
Consolidated Businesses	\$ 40.78	\$ 43.13
Unconsolidated Joint Ventures	44.84	44.09
Square feet of GLA closed:		
Consolidated Businesses	399,647	392,128
Unconsolidated Joint Ventures	137,792	144,647
Releasing spread per square foot:		
Consolidated Businesses	\$ 15.21	\$ 1.42
Unconsolidated Joint Ventures	1.97	5.02

The spread between opening and closing rents may not be indicative of future periods, as this statistic is not computed on comparable tenant spaces, and can vary significantly from period to period depending on the total amount,

location, and average size of tenant space opening and closing in the period. Average rent per square foot for the Unconsolidated Joint Ventures was adversely impacted by a cumulative prior year adjustment at Arizona Mills related to The Mills Corporation's accounting for lease incentives.

Seasonality

The regional shopping center industry is seasonal in nature, with mall tenant sales highest in the fourth quarter due to the Christmas season, and with lesser, though still significant, sales fluctuations associated with the Easter holiday and back-to-school events. While minimum rents and recoveries are generally not subject to seasonal factors, most leases are scheduled to expire in the first quarter, and the majority of new stores open in the second half of the year in anticipation of the Christmas selling season. Additionally, most percentage rents are recorded in the fourth quarter. Accordingly, revenues and occupancy levels are generally highest in the fourth quarter. Included in revenues are gains on sales of peripheral land and lease cancellation income that may vary significantly from quarter to quarter.

	1 st Quarter 2007	Total 2006	4 th Quarter 2006	3 rd Quarter 2006	2 nd Quarter 2006	1 st Quarter 2006
(in thousands of dollars, except as indicated)

All centers	92.1	92.5	92.5	92.4	91.8	90.9

Because the seasonality of sales contrasts with the generally fixed nature of minimum rents and recoveries, mall tenant occupancy costs (the sum of minimum rents, percentage rents, and expense recoveries) as a percentage of sales are considerably higher in the first three quarters than they are in the fourth quarter.

New Center Development and Services

The Mall at Partridge Creek (Partridge Creek), a 640,000 square foot center, is under construction in Clinton Township, Michigan. The center, which is 85% leased and committed, will be anchored by Nordstrom, Parisian, and MJR Theatres, and is scheduled to open on October 18, 2007, with Nordstrom opening in April 2008. See "Liquidity and Capital Resources - The Mall at Partridge Creek Contractual Obligations" and "Liquidity and Capital Resources - Planned Capital Spending" regarding this and other projects.

In January 2007, we announced our involvement as a third-party leasing agent for a lifestyle center in the city of North Las Vegas, Nevada. This is a mixed-use project that will include retail, dining, and entertainment of up to 1.3 million square feet and a residential component consisting of approximately 800 units. The shopping center is expected to open in late 2008. The developer of the residential component is a joint venture which includes an affiliate of the Taubman family. The Taubman family affiliate also participates in the project's non-residential component.

Results of Operations

Openings

The Pier Shops, located in Atlantic City, New Jersey, began opening in phases in June 2006. Gordon Group Holdings LLC (Gordon), developed the center, and in January 2007, we assumed full management and leasing responsibility for the center. We had an effective 6% interest in The Pier Shops as of March 31, 2007, based on relative equity contributions. In April 2007, we increased our ownership of The Pier Shops to 77.5%. See "Subsequent Events."

In addition, expansions at two centers will open in fall 2007 (see "Liquidity and Capital Resources - Planned Capital Spending").

Taubman Asia

Established in 2005, Taubman Asia is the platform for our expansion into the Asia-Pacific region. Taubman Asia is headquartered in Hong Kong and is engaged in projects that leverage our strong retail planning, design and operational capabilities.

In January 2007, we entered into an agreement to provide development services for a 1.2 million square foot retail and entertainment complex in New Songdo City, Incheon, South Korea. The shopping complex is scheduled to open in early 2010, with construction beginning in 2007. We have negotiated the opportunity to invest in a portion of the broader project, which will include not only retail, but also office, hotel, and residential uses. We anticipate finalizing our decision on this investment in 2007.

Also in January 2007, we announced our involvement in the retail component of Macao Studio City on the Cotai Strip in Macao. Taubman Asia has signed a term sheet to acquire a minority position in the retail component of the project and will provide development, leasing, and management services, subject to definitive agreements to be completed in the first half of 2007.

Debt and Equity Transactions

In 2006, we completed over \$1 billion in financings related to the land under Sunvalley, Waterside, Partridge Creek, our \$350 million revolver, Dolphin Mall (Dolphin), Cherry Creek Shopping Center (Cherry Creek), and Northlake Mall (Northlake), and repaid the loans on The Shops at Willow Bend (Willow Bend) and The Mall at Oyster Bay (Oyster Bay).

In May 2006, we redeemed the remaining \$113 million of 8.3% Series A Cumulative Redeemable Preferred Stock (Series A Preferred Stock). We recognized a charge of approximately \$4 million in the second quarter of 2006, representing the difference between the carrying value and the redemption price of the Series A Preferred Stock redeemed. The Series A Preferred Stock was redeemed with the proceeds of a \$113 million private preferred issuance, the Series I Cumulative Redeemable Preferred Stock (Series I Preferred Stock). We redeemed the Series I Preferred Stock on June 30, 2006 using available cash. We recognized a charge of \$0.6 million at that time, representing the difference between the carrying value, which includes original issuance costs, and the redemption price of the Series I Preferred Stock.

See "Subsequent Events" regarding the April 2007 refinancing of The Pier Shops and "Liquidity and Capital Resources" regarding additional planned debt transactions and capital spending.

Subsequent Events

In April 2007, we increased our ownership in The Pier Shops to a 77.5% controlling interest and placed a \$135 million loan on the property. The remaining 22.5% interest continues to be held by Gordon Group Holdings LLC, the developer of the project. We will begin consolidating The Pier Shops in the second quarter of 2007. At closing, we made a \$24.5 million equity investment in the center, bringing our total equity investment to \$28.5 million. We will be entitled to a 7% cumulative preferred return on our \$133.1 million total investment, including our \$104.6 million share of debt. We believe this investment will become positive to our earnings, excluding depreciation and amortization, sometime in 2009. The new \$135 million loan on the property is a 10-year, non-recourse, interest-only loan and bears interest at an all-in rate of approximately 6.1%. We have the ability to borrow up to an additional \$25 million for a total borrowing capacity of \$160 million if certain center operating requirements are met. The loan proceeds were used to repay the \$88.1 million balance on the construction loan on the center and fund remaining construction costs and tenant allowances. We will be responsible for any additional capital requirements, estimated to be in the range of \$15 million over the next two years, on which we will receive a preferred return at a minimum of 8%. We expect The Pier Shops will have a negative impact of approximately \$4.0 million on our earnings in 2007, excluding depreciation and amortization, the amount of which will be dependent upon the allocation of the purchase price, which is yet to be completed.

New Accounting Pronouncements

In February 2007, the FASB Issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". This Statement permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The Statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. Statement No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, although early application is allowed. We are currently evaluating the application of this Statement and its effect on our financial position and results of operations.

In September 2006, the FASB issued Statement No. 157 "Fair Value Measurements." This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement applies to accounting pronouncements that require or permit fair value measurements, except for share-based payments transactions under FASB Statement No. 123 (Revised) "Share-Based Payment." This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. As Statement No. 157 does not require any new fair value measurements or remeasurements of previously computed fair values, we do not believe adoption of this Statement will have a material effect on our financial statements.

Presentation of Operating Results

Income Allocation

The following table contains the operating results of our Consolidated Businesses and the Unconsolidated Joint Ventures. Income allocated to the minority partners in the Operating Partnership and preferred interests is deducted to arrive at the results allocable to our common shareowners. Because the net equity balances of the Operating Partnership and the outside partners in certain consolidated joint ventures are less than zero, the income allocated to the minority and outside partners is equal to their share of operating distributions. The net equity of these minority and outside partners is less than zero due to accumulated distributions in excess of net income and not as a result of operating losses. Distributions to partners are usually greater than net income because net income includes non-cash charges for depreciation and amortization. Our average ownership percentage of the Operating Partnership was 66% during the three months ended March 31, 2007, and 64% during the three months ended March 31, 2006.

Use of Non-GAAP Measures

The operating results in the following table include the supplemental earnings measures of Beneficial Interest in EBITDA and Funds from Operations (FFO). Beneficial Interest in EBITDA represents our share of the earnings before interest and depreciation and amortization of our consolidated and unconsolidated businesses. We believe Beneficial Interest in EBITDA provides a useful indicator of operating performance, as it is customary in the real estate and shopping center business to evaluate the performance of properties on a basis unaffected by capital structure.

The National Association of Real Estate Investment Trusts (NAREIT) defines FFO as net income (loss) (computed in accordance with Generally Accepted Accounting Principles (GAAP)), excluding gains (or losses) from extraordinary items and sales of properties, plus real estate related depreciation and after adjustments for unconsolidated partnerships and joint ventures. We believe that FFO is a useful supplemental measure of operating performance for REITs. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, we and most industry investors and analysts have considered presentations of operating results that exclude historical cost depreciation to be useful in evaluating the operating performance of REITs. We primarily use

FFO in measuring performance and in formulating corporate goals and compensation.

Our presentations of EBITDA and FFO are not necessarily comparable to the similarly titled measures of other REITs due to the fact that not all REITs use the same definitions. These measures should not be considered alternatives to net income (loss) or as an indicator of our operating performance. Additionally, neither represents cash flows from operating, investing or financing activities as defined by GAAP. Reconciliations of Net Income Allocable to Common Shareowners to Funds from Operations and Net Income to Beneficial Interest in EBITDA are presented following the Comparison of the Three Months Ended March 31, 2007 to the Three Months Ended March 31, 2006.

Consolidated Businesses

Total revenues for the quarter ended March 31, 2007 were \$145.0 million, a \$7.0 million or 5.1% increase over the comparable period in 2006. Minimum rents increased \$2.7 million, primarily due to increases in tenant rollovers and occupancy. Expense recoveries increased primarily due to increases in common area maintenance and HVAC recoveries. Management, leasing, and development revenue increased primarily due to revenue on the New Songdo City development contract, which was executed in January 2007 and includes revenue related to 2006 services. We expect that management, leasing, and development revenues, less related expenses, will be in the range of \$6 million to \$7 million in 2007. Other income decreased primarily due to decreases in lease cancellation revenue. During the first quarter of 2007, we recognized our approximately \$2.6 million and \$0.3 million share of the Consolidated Businesses' and Unconsolidated Joint Ventures' lease cancellation revenue. For 2007, we are estimating that our share of lease cancellation revenue will be in the range of \$6 million to \$7 million.

Total expenses were \$127.1 million, a \$0.4 million or 0.3% decrease over the comparable period in 2006. Maintenance, taxes, and utilities expense increased primarily due to increases in maintenance costs at certain centers. Other operating expense remained relatively flat, with increases in pre-development costs and provision for bad debts being partially offset by decreases in property management costs and professional fees. We expect that pre-development costs for both our domestic and non-U.S. projects will be between \$10 million and \$11 million in 2007. Management, leasing, and development expense increased primarily due to activities related to the New Songdo City development contract. We expect that general and administrative expense will be approximately \$7.5 million for each quarter of 2007. Interest expense decreased due to the write-off of financing costs related to the pay-off of the loans on Willow Bend in 2006, reduced rates on the refinancings of Cherry Creek and Dolphin, in addition to the pay-off of the Oyster Bay loan in 2006. These decreases were offset by interest on new debt used to fund the redemption of preferred stock in June 2006. Depreciation expense decreased primarily due to fully depreciated assets at certain centers, which was partially offset by increases due to changes in depreciable lives of tenant allowances in connection with early terminations in 2007.

Gains on land sales and interest income decreased due to lower average cash balances in 2007 and a decrease in gains on peripheral land sales. There were no land sales in the first quarter of 2007. We have estimated \$3 million to \$4 million of gains on peripheral land sales in 2007, although due to the long lead time to complete land sales transactions, we believe there is a risk that gains may be \$1 million to \$2 million lower.

Unconsolidated Joint Ventures

Total revenues for the three months ended March 31, 2007 were \$63.8 million, a \$5.5 million or 9.4% increase from the comparable period in 2006. Minimum rents increased by \$3.9 million, primarily due to the opening of The Pier Shops in June 2006 and increases in occupancy. Expense recoveries increased primarily due to The Pier Shops and increases in recoverable costs at certain centers. Other income decreased primarily due to decreases in lease cancellation revenue.

Total expenses increased by \$10.1 million to \$52.1 million for the three months ended March 31, 2007. Maintenance, taxes, and utilities expense increased primarily due to The Pier Shops and increases in maintenance and electricity expense at certain centers. Other operating expense increased primarily due to The Pier Shops. Interest expense increased due to The Pier Shops and the new financing on Waterside in 2006. Depreciation expense remained flat, with increases due to The Pier Shops and the renovation at Waterside offset by decreases due primarily to changes in depreciable lives of tenant allowances in connection with early terminations in 2006.

Income of the Unconsolidated Joint Ventures decreased by \$4.3 million to \$12.2 million for the three months ended March 31, 2007 primarily due to the operations of The Pier Shops, in which we had an effective 6% interest based on relative equity contributions, prior to our acquisition of a controlling interest in April 2007 (see Results of Operations

- Subsequent Events). Our equity in income of the Unconsolidated Joint Ventures was \$8.2 million, a \$0.3 million decrease from the comparable period in 2006.

Net Income

Our income before minority and preferred interests increased by \$5.2 million to \$26.6 million for the three months ended March 31, 2007. Preferred dividends decreased due to the redemption of the Series A Preferred Stock in 2006. After allocation of income to minority and preferred interests, net income allocable to common shareowners for 2007 was \$10.4 million compared to \$5.4 million in the comparable period in 2006.

Liquidity and Capital Resources

In the following discussion, references to beneficial interest represent the Operating Partnership's share of the results of its consolidated and unconsolidated businesses. We do not have, and have not had, any parent company indebtedness; all debt discussed represents obligations of the Operating Partnership or its subsidiaries and joint ventures.

Capital resources are required to maintain our current operations, pay dividends, and fund planned capital spending for projects under construction, future developments, and other commitments and contingencies. We believe that our net cash provided by operating activities, distributions from our joint ventures, the unutilized portions of our credit facilities, and our ability to access the capital markets assure adequate liquidity to meet current and future cash requirements and will allow us to conduct our operations in accordance with our dividend and financing policies. The following sections contain information regarding our recent capital transactions and sources and uses of cash; beneficial interest in debt and sensitivity to interest rate risk; contractual obligations; covenants, commitments, and contingencies; and historical capital spending. We then provide information regarding our anticipated future capital spending and our dividend policies.

As of March 31, 2007, we had a consolidated cash balance of \$25.5 million, of which \$2.2 million is restricted to specific uses stipulated by our lenders, including ground lease payments, taxes, insurance, debt service, capital improvements, leasing costs, and tenant allowances. We also have secured lines of credit of \$350 million and \$40 million. As of March 31, 2007 the total amounts borrowed on the \$350 million and \$40 million lines of credit were \$95.0 million and \$15.6 million, respectively. Our \$350 million line of credit matures in February 2009 and has a one year extension option. The \$40 million line of credit matures in February 2008.

Operating Activities

Our net cash provided by operating activities was \$35.2 million in 2007, compared to \$34.6 million in 2006. See also "Results of Operations" for descriptions of 2007 and 2006 transactions affecting operating cash flows.

Investing Activities

Net cash used in investing activities was \$44.9 million in 2007 compared to \$38.2 million in 2006. Cash used in investing activities was impacted by the timing of capital expenditures, with additions to properties in 2007 and 2006 for the construction of Partridge Creek, the expansion and renovation at Twelve Oaks Mall (Twelve Oaks), the acquisition of land for future development, our Oyster Bay project, as well as other development activities and capital items. A tabular presentation of 2007 capital spending is shown in "Capital Spending". Contributions to Unconsolidated Joint Ventures of \$0.6 million and \$1.1 million in 2007 and 2006, respectively, were made primarily to fund the expansion at Waterside. Also in 2007, \$2.3 million was used to acquire marketable equity securities.

Sources of cash used in funding these investing activities, other than cash flow from operating activities, included distributions from Unconsolidated Joint Ventures and the transactions described under Financing Activities. Distributions in excess of earnings from Unconsolidated Joint Ventures provided \$2.7 million and \$2.8 million in 2007 and 2006, respectively. Net proceeds from sales of peripheral land were \$1.9 million in 2006. The timing of land sales is variable and proceeds from land sales can vary significantly from period to period. In addition, a \$9.0 million note received in connection with the 2005 sale of Woodland was collected during the first quarter of 2006.

Financing Activities

Net cash provided by financing activities was \$8.9 million in 2007, compared to \$21.5 million of cash used in 2006. Proceeds from the issuance of debt, net of payments and issuance costs, were \$44.9 million in 2007, compared to \$9.8

million in 2006. Total dividends and other distributions paid were \$36.0 million and \$31.3 million in 2007 and 2006, respectively.

Beneficial Interest in Debt

At March 31, 2007, the Operating Partnership's debt and its beneficial interest in the debt of its Consolidated and Unconsolidated Joint Ventures totaled \$2,630.3 million with an average interest rate of 5.69% excluding amortization of debt issuance costs and the effects of interest rate hedging instruments. These costs are reported as interest expense in the results of operations. Interest expense for the three months ended March 31, 2007 includes \$0.2 million of non-cash amortization relating to acquisitions or 0.02% of the average all-in rate. Included in beneficial interest in debt is debt used to fund development and expansion costs. Beneficial interest in construction work in process totaled \$275.0 million as of March 31, 2007, which includes \$262.8 million of assets on which interest is being capitalized. Beneficial interest in capitalized interest was \$3.5 million for the three months ended March 31, 2007. The following table presents information about our beneficial interest in debt as of March 31, 2007:

	Amount (in millions of dollars)	Interest Rate Including Spread
Fixed rate debt	2,473.7	5.66% ⁽¹⁾
Floating rate debt:		
Swapped through October 2012	15.0	5.95%
Floating month to month	141.7	6.17% ⁽¹⁾
Total floating rate debt	156.7	6.15% ⁽¹⁾
Total beneficial interest in debt	2,630.3	5.69% ⁽¹⁾
Amortization of financing costs ⁽²⁾		0.17%
Average all-in rate		5.86%

(1) Represents weighted average interest rate before amortization of financing costs.

(2) Financing costs include financing fees, interest rate cap premiums, and losses on settlement of derivatives used to hedge the refinancing of certain fixed rate debt.

(3) Amounts in table may not add due to rounding.

In April 2007, we increased our ownership in The Pier Shops to 77.5% and refinanced the existing construction loan (See "Results of Operations - Subsequent Events").

Sensitivity Analysis

We have exposure to interest rate risk on our debt obligations and interest rate instruments. We use derivative instruments primarily to manage exposure to interest rate risks inherent in variable rate debt and refinancings. We routinely use cap, swap, treasury lock, and rate lock agreements to meet these objectives. Based on the Operating Partnership's beneficial interest in floating rate debt in effect at March 31, 2007, a one percent increase or decrease in interest rates on this floating rate debt would decrease or increase cash flows by approximately \$1.4 million and, due to the effect of capitalized interest, annual earnings by approximately \$1.2 million. Based on our consolidated debt and interest rates in effect at March 31, 2007, a one percent increase in interest rates would decrease the fair value of debt by approximately \$121.1 million, while a one percent decrease in interest rates would increase the fair value of debt by approximately \$129.3 million.

Contractual Obligations

In conducting our business, we enter into various contractual obligations, including those for debt, capital leases for property improvements, operating leases for office space and land, purchase obligations (primarily for construction), and other long-term commitments. Disclosure of these items is contained in our Annual Report on Form 10-K. Updates of the 10-K disclosures for debt obligations and planned capital spending, which can vary significantly from period to period, as of March 31, 2007 are provided in the table below:

	Payments due by period			
	Less than 1 year (2007)	1-3 years (2008-2009)	3-5 years (2010-2011)	More than 5 years (2012+)

(1) The settlement periods for debt do not consider extension options. Amounts relating to interest on floating rate debt are calculated based on the debt balances and interest rates as of March 31, 2007.

(2) As of March 31, 2007, we were contractually liable for \$87.7 million of this planned spending. See "Planned Capital Spending" for detail regarding planned funding. The Pier Shops is not included in these amounts.

(3) Amounts in this table may not add due to rounding.

The Mall at Partridge Creek Contractual Obligations

In May 2006, we engaged the services of a third-party investor to acquire certain property associated with Partridge Creek, in order to facilitate a Section 1031 like-kind exchange to provide flexibility for disposing of assets in the future. The third-party investor became the owner of the project and leases the land from one of our subsidiaries. In turn, the owner leases the project back to us.

Funding for the project is expected from the following sources. We will provide approximately 45% of the project funding under a junior subordinated financing. The owner has provided \$9 million in equity. Funding for the remaining project costs is being provided by the owner's third-party construction loan, which has a balance of \$29.6 million as of March 31, 2007.

We are the construction manager for the project and have an option to purchase the property and assume the ground lease from the owner during the 30-month exchange period ending December 2008. The option, if exercised, will provide the owner a 12% cumulative return on its equity. In the event that we do not exercise our right to purchase the property from the owner, the owner will have the right to sell all of its interest in the property, provided that the purchaser shall assume all of the obligations and be assigned all of the owner's rights under the ground lease, the operating lease, and any remaining obligations under the loans.

We have guaranteed the lease payments on the operating lease (excluding annual supplemental rent equal to 1.67% of the owner's outstanding equity balance, commencing after the exchange period) as well as completion of the project. The lease payments are structured to cover debt service, ground rent payments, and other expenses of the lessor. We consolidate the accounts of the owner and the junior loan and other intercompany transactions are eliminated in consolidation.

Loan Commitments and Guarantees

Certain loan agreements contain various restrictive covenants, including a minimum net worth requirement, minimum interest coverage ratios, a maximum payout ratio on distributions, a minimum debt yield ratio, a maximum leverage ratio, and a minimum fixed charges coverage ratio, the latter being the most restrictive. The Operating Partnership is in compliance with all of its covenants.

Payments of principal and interest on the loans in the following table are guaranteed by the Operating Partnership as of March 31, 2007:

<u>Center</u>	<u>Loan balance as of 3/31/07</u>	<u>TRG's beneficial interest in loan balance as of 3/31/07</u>	<u>Amount of loan balance guaranteed by TRG as of 3/31/07</u>	<u>% of loan balance guaranteed by TRG</u>	<u>% of interest guaranteed by TRG</u>
	(in millions of dollars)				
Dolphin Mall	15.0	15.0	15.0	100%	100%
Fairlane Town Center	80.0	80.0	80.0	100%	100%
The Mall at Millenia	0.1	0.1	0.1	50%	50%
Twelve Oaks Mall	-	-	-	100%	100%

Borrowings under the \$350 million revolver are primary obligations of the entities owning Dolphin, Fairlane Town Center (Fairlane), and Twelve Oaks, which are the collateral for the line of credit. The Operating Partnership and the entities owning Fairlane and Twelve Oaks are guarantors under the credit agreement.

In addition, we have guaranteed certain obligations of Partridge Creek (see "Contractual Obligations") and the payment of \$3.2 million primarily related to certain tenant allowances for Northlake.

Cash Tender Agreement

A. Alfred Taubman has the annual right to tender units of partnership interest in the Operating Partnership (provided that the aggregate value is at least \$50 million) and cause us to purchase the tendered interests at a purchase price based on a market valuation of TCO on the trading date immediately preceding the date of the tender (the Cash Tender Agreement). At A. Alfred Taubman's election, his family, and certain others may participate in tenders. We will have the option to pay for these interests from available cash, borrowed funds, or from the proceeds of an offering of our common stock. Generally, we expect to finance these purchases through the sale of new shares of our stock. The tendering partner will bear all market risk if the market price at closing is less than the purchase price and will bear the costs of sale. Any proceeds of the offering in excess of the purchase price will be for the sole benefit of TCO. We account for the Cash Tender Agreement between us and Mr. Taubman as a freestanding written put option. As the option put price is defined by the current market price of our stock at the time of tender, the fair value of the written option defined by the Cash Tender Agreement is considered to be zero.

Based on a market value at March 31, 2007 of \$57.99 per common share, the aggregate value of interests in the Operating Partnership that may be tendered under the Cash Tender Agreement was approximately \$1.5 billion. The purchase of these interests at March 31, 2007 would have resulted in our owning an additional 31% interest in the Operating Partnership.

Capital Spending

Capital spending for routine maintenance of the shopping centers is generally recovered from tenants. 2007 capital spending through March 31, 2007, excluding acquisitions, is summarized in the following table:

	Consolidated Businesses	2007 ⁽¹⁾		Beneficial Interest in Unconsolidated Joint Ventures
		Beneficial Interest in Consolidated Businesses (in millions of dollars)	Unconsolidated Joint Ventures	
New Development Projects:				
Pre-construction development activities (2)	18.2	18.2

Corporate office improvements and equipment	0.3	0.3		
Additions to properties	37.4	37.2	9.0	3.5

(1) Costs are net of intercompany profits and are computed on an accrual basis.

(2) Primarily includes costs to acquire land for future development in North Atlanta, Georgia, and project costs of North Atlanta and Oyster Bay.

(3) Includes costs related to Partridge Creek.

(4) Includes costs related to the renovation at Stamford Town Center and the expansion at Twelve Oaks.

(5) Excludes initial lease-up costs.

(6) Amounts in this table may not add due to rounding.

For the three months ended March 31, 2007, in addition to the costs above, we incurred our \$1.4 million share of Consolidated Businesses' and \$0.4 million share of Unconsolidated Joint Ventures' capitalized leasing costs.

The following table presents a reconciliation of the Consolidated Businesses' capital spending shown above (on an accrual basis) to additions to properties (on a cash basis) as presented in our Consolidated Statement of Cash Flows for the three months ended March 31, 2007:

New Centers

Partridge Creek, a 640,000 square foot center, is under construction in Clinton Township, Michigan. The center, which is 85% leased and committed, will be anchored by Nordstrom, Parisian, and MJR Theatres, and is scheduled to open on October 18, 2007, with Nordstrom opening in April 2008. Our investment in this center will be approximately \$155 million and we are expecting a stabilized return of 9.5%.

We are negotiating agreements regarding City Creek Center, a mixed-use project in Salt Lake City, Utah. Demolition of the existing structures began in November 2006 and the project is scheduled to open in 2011. The retail component of the project will include approximately 300,000 square feet of tenant GLA and three department stores, including Dillard's, Macy's, and Nordstrom. We have been a consultant throughout the planning process for this project and will develop, manage, lease, and own the retail space. We are currently in the final stages of refining the agreements that will govern our investment in the retail portion. When complete, we will provide the anticipated costs and returns.

26

In January 2007, we entered into an agreement to provide development services for a 1.2 million square foot retail and entertainment complex in New Songdo City, Incheon, South Korea. The shopping complex is scheduled to open in early 2010, with construction beginning in 2007. We have negotiated the opportunity to invest in a portion of the broader project, which will include not only retail, but also office, hotel, and residential uses. We anticipate finalizing our decision on this investment in 2007.

Also in January 2007, we announced our involvement in the retail component of Macao Studio City on the Cotai Strip in Macao. Taubman Asia has signed a term sheet to acquire a minority position in the retail component of the project and will provide development, leasing, and management services, subject to definitive agreements to be completed in the first half of 2007.

We are seeking a final decision in the Supreme Court of the State of New York (Suffolk County) on our land use plan for our Oyster Bay project in Syosset, Long Island, New York. We believe we will be successful in this litigation and we will ultimately build the mall. Depending on the timing of the construction and opening of the mall, which will be anchored by Neiman Marcus, Nordstrom, and Barneys New York, we anticipate spending as much as \$500 million on this project. Assuming \$500 million of cost we expect a minimum return of 7%. We expect success with the litigation, but if we are ultimately unsuccessful it is anticipated that the recovery on this asset would be significantly less than our current investment. Our cost in this project as of March 31, 2007 was \$131.3 million. With capitalized interest, storage costs, and ongoing expenditures, we expect our investment to increase \$4 million to \$5 million each quarter.

Existing Centers

At Twelve Oaks, construction is underway on an addition of a 165,000 square foot Nordstrom. In addition, the project includes a 60,000 square foot expansion and renovation of Macy's, and approximately 97,000 square feet of additional new store space, which is 85% leased and committed. A grand opening is planned for September 28, 2007. We expect a return of approximately 10% on our estimated cost of \$63 million.

Construction is underway on a lifestyle component addition to Stamford Town Center, on the site once occupied by Filene's department store, and is expected to open in November 2007. The project, which is 100% leased, will consist of a mix of signature retail and restaurant offerings, creating significantly greater visibility to the city and much-needed pedestrian access to the center. In addition, we have expanded the project with the renovation of the 7th level, adding a 450-seat food court and interactive children's play area, which is also expected to open this year. With the addition of the food court budget, we expect the total cost of these projects to be about \$64 million, with a 7.5% return.

Land

In January 2007, we acquired land for future development in North Atlanta, Georgia, for \$15.5 million.

The following table summarizes planned capital spending for 2007, excluding The Pier Shops, as well as costs related to City Creek Center, Asia projects, and other projects or expansions for which budgets have not yet been approved by the Board of Directors:

	2007 ⁽¹⁾

Existing centers ⁽³⁾	81.2	78.2	55.1	28.7
Corporate office improvements and equipment	1.0	1.0		
Total	202.4	199.4	55.1	28.7

(1) Costs are net of intercompany profits.

(2) Includes costs related to Partridge Creek, Oyster Bay, and North Atlanta.

(3) Includes costs related to the renovation at Stamford Town Center and the expansion at Twelve Oaks.

(4) Amounts in this table may not add due to rounding.

Estimates of future capital spending include only projects approved by our Board of Directors and, consequently, estimates will change as new projects are approved. Costs of potential development projects, including our exploration of development possibilities in Asia, are expensed until we conclude that it is probable that the project will reach a successful conclusion.

Disclosures regarding planned capital spending, including estimates regarding capital expenditures, occupancy, and returns on new developments presented above are forward-looking statements and certain significant factors could cause the actual results to differ materially, including but not limited to: (1) actual results of negotiations with anchors, tenants, and contractors, (2) timing and outcome of litigation and entitlement processes, (3) changes in the scope, number, and valuation of projects, (4) cost overruns, (5) timing of expenditures, (6) financing considerations, (7) actual time to complete projects, (8) changes in economic climate, (9) competition from others attracting tenants and customers, (10) increases in operating costs, (11) timing of tenant openings, and (12) early lease terminations and bankruptcies.

Dividends

We pay regular quarterly dividends to our common and Series G and Series H preferred shareowners. Dividends to our common shareowners are at the discretion of the Board of Directors and depend on the cash available to us, our financial condition, capital and other requirements, and such other factors as the Board of Directors deems relevant. To qualify as a REIT, we must distribute at least 90% of our REIT taxable income to our shareowners, as well as meet certain other requirements. Preferred dividends accrue regardless of whether earnings, cash availability, or contractual obligations were to prohibit the current payment of dividends.

On March 7, 2007 we declared a quarterly dividend of \$0.375 per common share that was paid on April 20, 2007 to shareowners of record on March 30, 2007. The Board of Directors also declared a quarterly dividend of \$0.50 per share on our 8% Series G Cumulative Redeemable Preferred Stock and a quarterly dividend of \$0.4765625 per share on our 7.625% Series H Cumulative Redeemable Preferred Stock, paid on March 30, 2007 to shareholders of record on March 20, 2007.

The annual determination of our common dividends is based on anticipated Funds from Operations available after preferred dividends, as well as assessments of annual capital spending, financing considerations, our REIT taxable income, and other appropriate factors.

Any inability of the Operating Partnership or its Joint Ventures to secure financing as required to fund maturing debts, capital expenditures and changes in working capital, including development activities and expansions, may require the utilization of cash to satisfy such obligations, thereby possibly reducing distributions to partners of the Operating Partnership and funds available to us for the payment of dividends.

Additional Information

We provide supplemental investor information coincident with our earning announcements that can be found online at www.taubman.com under "Investor Relations."

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The information required by this item is included in this report at Item 2 under the caption "Liquidity and Capital Resources - Sensitivity Analysis."

Item 4. Controls and Procedures

As of the end of the period covered by this quarterly report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2007, our disclosure controls and procedures were effective to ensure the information required to be disclosed by us in reports that we file or submit

under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods prescribed by the SEC, and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
