Fair Value

Measurements - Various inputs are used in determining the fair value of investments.

- These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial reporting purposes as follows:

- Level 1 — unadjusted price quotations in active

- markets/exchanges for identical assets and liabilities that the Fund has the ability to access

- Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated

inputs)

Level 3 —  
unobservable inputs  
based on the best  
information available  
in the circumstances,  
to the extent

- observable inputs are  
not available  
(including the Fund's  
own assumptions  
used in determining  
the fair value of  
investments)

The hierarchy gives the  
highest priority to  
unadjusted quoted prices in  
active markets for identical  
assets or liabilities (Level 1  
measurements) and the  
lowest priority to  
unobservable inputs (Level  
3 measurements).

Accordingly, the degree of  
judgment exercised in  
determining fair value is  
greatest for instruments  
categorized in Level 3. The  
inputs used to measure fair  
value may fall into different  
levels of the fair value  
hierarchy. In such cases, for  
disclosure purposes, the  
level in the fair value  
hierarchy within which the  
fair value measurement falls  
in its entirety is determined  
based on the lowest level  
input that is significant to  
the fair value measurement  
in its entirety.

Changes  
in  
valuation  
techniques  
may  
result in  
transfers

into or  
out of an  
assigned  
level  
within  
the  
disclosure  
hierarchy.

In  
accordance  
with the  
Fund's  
policy,  
transfers  
between  
different  
levels of  
the fair  
value  
disclosure  
hierarchy  
are  
deemed  
to have  
occurred  
as of the  
beginning  
of the  
reporting  
period.

The  
categorization  
of a value  
determined  
for  
investments  
is based  
on the  
pricing  
transparency  
of the  
investment  
and is not  
necessarily  
an  
indication  
of the  
risks  
associated  
with  
investing

in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent financial statements as contained in its annual report.

The following table summarizes the Fund's investments categorized in the disclosure hierarchy as of October 31, 2012:
