ABOUT THIS PROSPECTUS SUPPLEMENT

We provide information to you about this offering of shares of our common stock in two separate documents: (a) the accompanying prospectus, which provides general information, some of which may not apply to this offering; and (b) this prospectus supplement, which describes the specific details regarding this offering. Generally, when we refer to this "prospectus," we are referring to both documents combined.

If information in this prospectus supplement is inconsistent with the accompanying prospectus, you should rely on this prospectus supplement.

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference contain some "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 and information relating to us that is based on the beliefs of our management, as well as assumptions made by, and the information currently available to, our management. When used in these documents, the words "believe," "expect," "anticipate," "intend," "estimate" and similar expressions are intended to identify forward-looking statements. These statements reflect our current views with respect to future events and are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in these forward-looking statements, including those risks discussed in the prospectus.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this prospectus supplement, the accompanying prospectus or the documents incorporated by reference, as the case may be. Except for special circumstances in which a duty to update arises when prior disclosure becomes materially misleading in light of subsequent events, we do not intend to update any of these forward-looking statements to reflect events or circumstances after the date of this prospectus supplement or to reflect the occurrence of unanticipated events.

USE OF PROCEEDS

We expect the net proceeds from this sale of common stock to be approximately \$18,587,500 million after deducting estimated expenses. We intend to use the net proceeds from the sale of the common stock to fund research and development, primarily in connection with our continued development of ALT-711 and other A.G.E. crosslink breakers, and for general corporate purposes, including further expansion of our product pipeline. Pending such uses, we intend to invest the net proceeds in short-term, investment grade, interest-bearing securities.

DILUTION

Our net tangible book value as of September 30, 2001 was approximately \$12,609,865 million or \$0.46 per share of common stock. Net tangible book value per share is determined by dividing our net tangible book value, which consists of tangible assets less total liabilities, by the number of shares of common stock outstanding at that date. Without taking into account any other changes in the net tangible book value after September 30, 2001, other than to give effect to our receipt of the estimated net proceeds from this sale of 4,450,000 shares of common stock at an offering price of \$4.25 per share, less estimated offering expenses, our net tangible book value as of September 30, 2001, after giving

Edgar Filing: ALTEON INC /DE - Form 424B2

effect to the items above would have been approximately \$31,197,365 million or \$0.98 per share. This represents an immediate increase in the net tangible book value per share of \$0.52 per share to existing stockholders and an immediate dilution of \$3.27 per share to new investors. The following table illustrates this per share dilution:

Offering Price		\$4.25
Net Tangible Book Value Per Share Before the Offering	\$0.46	
Increase in Net Tangible Book Value Per Share After the Offering	\$0.52	
Net Tangible Book Value Per Share After the Offering		\$0.98

Dilution Per Share to New Investors		\$3.27

This table is based on the number of outstanding shares of common stock as of September 30, 2001 and does not include the following:

S-1

- 3,581,014 shares of common stock issuable upon conversion of our outstanding Series G Preferred Stock as of September 30, 2001;
