89

The main trends observed in the 2003 fiscal year indicators are:

LIQUIDITY INDICES

An increase in the index can be observed with respect to September 2002 in the liquidity index as a consequence the payment of short-term bank debt, repayment of 50% of a syndicated loan, and that part of the funds obtained from the long term bonds issue of August 2002 was placed in short-term financial instruments.

With respect to December 2002, a slight decrease can be observed in the index due to the decrease of current assets in turn due to investments in related comoanies and payments of fixed asset investments.

INDEBTEDNESS INDICES

The leverage ratio has kept stable with respect to previous periods.

The distribution of short and long-term debt shows a decrease in the short-term debt, due to financing decisions carried out in 2002 fiscal year, which finished with the re-structuring of the syndicated loan.

The interest expenses coverage ratio has registered a slight decrease with respect to the previous year due to higher interest expenses originated since August 2002 onwards for bonds issued, and lower income in the present fiscal year.

PROFITABILITY INDICES

Equity and asset profitability indeces show a decrease with respect to September and December 2002, due to a lower net income in 2003.

Likewise, despite better results at related companies, lower non-operating expenses and lower price level restatements, an important decrease is shown by the non-operating result compared with the previous period, due to a negative exchange difference of Th Ch\$ 12,269.

On the other hand, return of dividends index shows a decrease with respect to the previous year, fundamentaly due to an increase in the market price of the Company's shares in the stock exchange.

2. DIFFERENCE BETWEEN BOOK VALUE AND MARKET VALUE OF MAIN ASSETS.

The financial statements as of September 30, 2003 have been prepared according to generally accepted accounting principles and general and specific norms of the Securities and Insurance Commission, which is the agency that regulates the Company. The valuation of the assets includes adjustment for currency devaluation, provisions, and technical revaluations. We believe the foregoing is a reasonable way to value the Company's permanent investments.

As of September 30, 2003 there were financial investments in shares recorded in the accounting according to their purchase price at Ch\$ 4,163 million whose market value on the same date was Ch\$ 6,072 million.

3. RESULTS AS OF SEPTEMBER 2003

3a. Consolidated Result

Cristalerias de Chile S.A. consolidates its results with Vina Santa Rita, CIECSA, Cristalchile Comunicaciones S.A., Cristalchile Inversiones S.A. and Apoger.

Cristalerias' consolidated sales reached Ch\$123,648 million, 5.9% over 2002. This sales increase results from higher sales in the glass container business (6.8%), CIECSA (12.4%), and Santa Rita (0.6%). Consolidated operating income reached Ch\$ 27,107 million, 10.2% below 2002, of which Ch\$17,356 million were contributed by the glass container business, Ch\$ 7,863 million by Santa Rita and Ch\$ 1,808 million by CIECSA.

The Company's net profit was Ch\$ 2,416 million, compared with Ch\$ 16,448 million in the same period of 2002. This result is explained by a higher non-operting loss mainly due to losses from exchange differences and lower operting results at CIECSA and Vina Santa Rita.

In 2003 the Company registered a consolidated non-operting loss of Ch\$ 21,364 million, compared with a Ch\$ 4,340 million loss in 2002. The former was mainly due to a loss from exchange differences (Ch\$ 12,269 million loss in 2003 compared with a Ch\$ 11,661 million income in 2002), partially compensated by a lower net loss from unconsolidated subsidiaries that passed from Ch\$ 9,425 million in 2002 to Ch\$ 3,959 million in 2003, mainly due to better results at Rayen Cura, CMF and Vina Los Vascos, and a lower loss at Metropolis-Intercom. The net loss from subsidiaries include a Ch\$ 3,128 million charge in 2003 (Ch\$ 3,109 million in 2002), corresponding to goodwill amortization, which does not constitute cash flow.

The following analysis explains Cristalerias' result based on individual financial statements, as well as those of its main subsidiaries.

3b. Individual Result

The Company had non-consolidated sales of Ch\$ 54,533 million as of September 2003, which represents a 6.8% increase compared to the previous fiscal year. Volumes sold increased by 6.7% reaching 185,976 tons, mainly due to higher sales of bottles for the wine, non-returnable beer, returnable soft drinks and liquor markets.

Operating income reached Ch\$ 17,356 million, compared to Ch\$ 17,508 million in 2002. Higher costs of sales are due to products that had to be imported due to the reconstruction of furnace B.

Non-operating result was a loss of Ch\$14,052 million in 2003 (Ch\$ 2,370 million income in 2002). During 2003 a Ch\$ 9,902 million loss was recorded from exchange differences (Ch\$ 8,371 million income in 2002). In addition lower income was registered from Vina Santa Rita and CIECSA, and higher interest expenses. The former was compensated by higher income from Cristalchile Inversiones (owner of 40% of Rayen Cura) and Envases CMF, and a lower loss in Cristalchile Comunicaciones (owner of 50% of Metropolis-Intercom).

3c. Results in Subsidiaries

91

As of September 30, 2003, Santa Rita's net income amounted Ch\$ 3,735 million (Ch\$ 8,388 million in 2002). In the local market, volumes increased by 1.9% and prices dropped by 4.4% in real terms, as a result of sharp competition. During the period, exports at US\$ 41.9 million (US\$ 40.0 million in 2002) represented 54.2% of total revenues. The operating income reached Ch\$7,863 million, compared to Ch\$ 9,184 million in 2002, mainly due to lower prices in the domestic market. The average price in dollars per case for the export market for Santa Rita was US\$ 33.0 (US\$ 30.5 in 2002) whereas the average price for the industry was US\$ 23.6 per case (US\$ 23.2 in 2002). Santa Rita recorded a Ch\$ 3,177 million non-operating loss, compared to a Ch\$ 1,274 million non-operating income in 2002, mainly due a loss from exchange differences.

Red Televisiva Megavision, CIECSA's main subsidiary, registered a Ch\$1,762 million operating income, compared with an operating profit of Ch\$ 3,454 million in 2002, due to an increase in costs from higher internal productions. MEGA reached a 23.0% audience share during the period (25.9% in 2002)1. Net sales increased by 11.9% reaching Ch\$ 18,530 million, due to an increase in live programming. As of September 2003, MEGA had a net income of Ch\$ 1,026 million (Ch\$ 1,729 million in 2002). CIECSA had a Ch\$ 826 million net income, compared to a Ch\$ 1,063 million net income the previous year.

Envases CMF S.A. registered a Ch\$ 713 million net income in 2003 compared with a Ch\$464 million net income in 2002. The company increased sales by 1.8%, reaching Ch\$ 25,035 million during the period. Sales volume increased by 0.4%, reaching 16,697 tons. Operating income reached Ch\$ 2,237 million, 17.6% higher than the that obtained in 2002, mainly explained by higher operating efficiencies and the sale of better margin products.

In the cable TV business, Cristalchile Comunicaciones S.A. (99.99% owned by Cristalerias), is the owner of 50% of Cordillera Comunicaciones Ltda., which in turn is the owner of 95.60% of Metropolis-Intercom S.A.

As of September 30, 2003, Metropolis-Intercom S.A. registered sales of Ch\$ 33,763 million compared with Ch\$ 35,227 million the previous year. Metropolis-Intercom had a net loss of Ch\$ 7,394 million compared with a net loss of Ch\$ 10,525 million in 2002. This result includes a depreciation charge of Ch\$ 10,040 million (Ch\$ 8,637 million in 2002) corresponding to the HFC network adquired in July 2000. The company ended the period with 236,000 subscribers of the basic service (239,000 in 2002) and 32,000 subscribers of bradband services, 63.7% higher than in 2002.

As a result of the abovementioned and the negative goodwill amortization charge through Cordillera Comunicaciones of Ch\$ 3,128 million in the period (Ch\$ 3,109 million in 2002), Cristalchile Comunicaciones recorded a net loss of Ch\$ 5,250 million (net loss of Ch\$ 6,846 in 2002).

4. CASH FLOW STATEMENT

Through January/September 2003 a total net negative flow of Ch \$14,721 million was generated, which is explained by a positive flow generated by operating activities of Ch\$26,447 million which were partially offset by a negative financing flows of Ch\$10,957 million, and a negative flow of investment activities of Ch\$28,911 million.

The operating flow corresponds basically to the collection of sales and financial interests and other income received that were reduced in part by payment to suppliers, taxes and interests.

The negative financing flow can be explained mainly by dividends paid by Ch\$ 9,030 million and net loans and Obligations with public for Ch\$ 2,317 million.

1 Measured between 7:30AM and 1:30AM; i.e: 18 hours daily, Monday through Sunday.

92

The negative investment flow is mainly explained by the incorporation of fixed assets of Ch\$ 23,204 million and permanent investments for Ch\$ 3,933 million and other investment disbursements for Ch\$ 6,212 million, which are financed, in part, with maturities of future contracts for Ch\$ 2,261 million and redemption of loans to related companies for Ch\$ 1,940 million.

The foregoing results in an decrease in the final balance of cash and cash equivalent, which passed from Ch 90,063 million as of December 31, 2002 to Ch 77,608 million as of September 30, 2003.

According to the current regulations of the SVS and the Association of Accountants of Chile, term deposits and agreements with due date less than 90 days have been considered cash and cash equivalent.

5. RISK ANALYSIS

a. Interest rates

Cristalerias and its Subsidiaries are exposed to the risk of fluctuations in interest rates on its short-term and long-term debts. As of September 30, 2003 Short-Term and Long-Term bank liabilities and obligations with the public totaled Ch\$ 134,259 million, which represents 29.7% of the Company's consolidated assets.

Bank credits totaled Ch\$ 43,304 million of which Ch\$ 36,477 million correspond to credits in foreign currency agreed at variable rates related to the six-month Libor, Ch\$ 5,886 million correspond to credits in pesos adjustable in unidades de fomento (indexed currency units) that are exposed to changes in the six-month TAB of 90 and 18 days and Ch\$ 941 million correspond to credits in pesos at an annual rate of 4.94%.

Within obligations with the public for Ch\$ 90,955, Ch\$ 70,254 million correspond to Bonds issued by the Parent Company and Ch\$ 20,701 millon issued by the subsidiary Vina Santa Rita, both at a fixed interest rate.

As of September 30, 2003, the Company had available funds of Th Ch\$ 75,710 million invested in instruments at different time periods like term deposits, bonds, fixed-rate mutual funds and resale agreements. Bonds for Ch\$ 8,870 million with maturity on September 15, 2005 and share investment for Ch\$ 4,163 million were no included.

The Company and its subsidiaries do not use secondary financial instruments at the present time to reduce risk in the event of fluctuations in interest rates. That policy will be studied permanently to evaluate the alternatives offered by the market.

b) Exchange rate

The Company and its Subsidiaries maintain liabilities in dollars of US\$ 72.8 million, which represent 10.7% of its consolidated assets, and include a long-term syndicated loan of US\$ 50 million in the Parent Company and Long-Term bank credits in Vina Santa Rita of US\$ 4.8 million.

As of September 30 the Company and its Subsidiaries maintain its investments in Dollars of US\$ 119.7 million; in time deposits, bonds and fixed rate mutual funds. In addition it also has Dollar purchase future contracts of US\$ 93.6 million.

93

On the other hand, aproximately 40% of consolidated sales are adjustment to the exchange rate variation. At the same time, the consolidated costs in foreing currency represent aproximately 27% of the total costs.

The main trends observed in the 2003 fiscal year indicators are:

LIQUIDITY INDICES

An increase in the index can be observed with respect to September 2002 in the liquidity index due to a short term bank loan payment and that the funds obtained from the long term bonds placement of August 2002 are invested in short-term financial instruments.

With respect to December 2002, an decrease in the index can be observed due to a decrease of current assets.

INDEBTEDNESS INDICES

The leverage ratio has kept almost constant for the analyzed period.

The distribution of short and long-term debt shows a decrease in the short-term debt, due to the financial resolutions carried out in 2002, which culminated with the restructuring of the syndicated loan for US\$ 50 million.

The interest expenses coverage index registered decreased with respect to the previous year due to higher interest expenses from bonds issued in August 2002 and a lower net income during the present fiscal year.

ACTIVITY INDICES

Inventory turnover and permanence indeces improved due to actions undertaken by management to reduce product stock inventories.

PROFITABILITY INDICES

Equity and asset profitability indices show a decrease with respect to September and December 2002, due to a lower net income during the present fiscal year.

Likewise, non-operating result decreased due to higher interest expenses and a negative exchange difference.

The operating income reached Ch\$7,863 million, compared to Ch\$ 9,184 million in 2002, mainly due to lower prices in the domestic market. The average price in dollars per case for the export market for Santa Rita was US\$ 33.0 (US\$ 30.5 in 2002) whereas the average price for the industry was US\$23.6 per case (US\$ 23.2 in 2002). In the cable TV business, Cristalchile Comunicaciones S.A. (99.99% owned by Cristalerias), is the owner of 50% of Cordillera Comunicaciones Ltda., which in turn is the owner of 95.60% of Metropolis-Intercom S.A.

4. CASH FLOW STATEMENT

As of September, 2003 a total net negative flow of Ch\$ 12,475 million was generated, which is explained by a positive flow generated by operating activities of Ch\$ 18,475 million, which was decreased by a negative financing flow of Ch\$7,709 million and a negative flow of investment activities for Ch\$23,241 million.

The operating flow corresponds basically to the collection of sales and interests income that were reduced by payment to suppliers, personnel and tax and interests payments.

The negative financing flow can be explained by the payment of dividends.

The investment flow is mainly explained by the incorporation of fixed assets for CH\$ 17,871 , of permanent investments for Ch\$4,022 million and other investment disbursements for Ch\$ 6,209 million. In Addition, sales of fixed assets and other investments amounted Ch\$ 418, collection of loans to related companies for Ch\$ 3,048 million and the expiry of future contracts for Ch\$ 1,469 million.

The foregoing results in an decrease in the final balance of cash and cash equivalent, which passed from Ch\$ 68,416 million as of December 31, 2002 to Ch\$ 60,693 million as of September 30, 2003.

5. INTEREST RATES AND EXCHANGE RATE RISK ANALYSIS

o Interest rates

The Company is exposed to the risk of fluctuations in interest rates on its long-term debt, corresponding to a credit of US\$50 million, which was renegotiated on October 2002 at a variable annual rate of Libor plus 0.8% percentage points. In addition, the Company issued bonds in two series, for a total of UF 4.1 million, for a period of 6 and 21 years, and which pay a fixed rate of 4.75% and 5.8% respectively (the actual placement rate was 5.3% and 6.5% respectively).

91

As of September 30, 2003, the Company had available funds in the amount of Ch\$59,112 million, invested at different terms in financial instruments such as time deposits, bonds, fixed rate mutual funds and agreements with resale

commitment. This figure does not consider Ch\$ 8,972 million in bonds with maturity on September 15, 2005 and investments in shares for Ch\$ 4,163 million.

Currently the Company does not use secondary financial instruments to reduce risk in the event of fluctuations in interest rates. This policy will be studied permanently to evaluate the alternatives offered by the market.

o Exchange rate

The Company maintains liabilities in dollars of US\$60,3 million, which represent 10.1% of its assets, and which include a balance of a long-term syndicated loan of US\$50 million.

As of September 30, the Company has investments in dollars of US\$101.7 million in time deposits, bonds and fixed rate mutual funds. In addition, it also has Dollar purchase future contracts of US\$76.6 million.
