NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Communications Systems, Inc. (herein collectively called CSI or the Company) is a Minnesota corporation organized in 1969 that operates primarily as a holding company conducting its business through three business units having operations in the United States, Costa Rica, the United Kingdom and China. Through its Suttle business unit, the Company is principally engaged in the manufacture and sale of copper and fiber connectivity systems, enclosure systems, and active technologies for voice, data and video communications. Through its Transition Networks business unit, the Company is engaged in the manufacture of network interface devices, media converters, network interface cards, Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network. Through its JDL Technologies business unit, the Company provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

Financial Statement Presentation

The condensed consolidated balance sheets and condensed consolidated statement of changes in stockholders' equity as of June 30, 2014 and the related condensed consolidated statements of income and comprehensive income, and the condensed consolidated statements of cash flows for the periods ended June 30, 2014 and 2013 have been prepared by Company management. In the opinion of management, all adjustments (which include only normal recurring adjustments, except where noted) necessary to present fairly the financial position, results of operations, and cash flows at June 30, 2014 and 2013 and for the periods then ended have been made.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. We recommend these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2013 Annual Report to Shareholders on Form 10-K. The results of operations for the periods ended June 30, 2014 are not necessarily indicative of operating results for the entire year.

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the balance sheet date, and the reported amounts of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying condensed consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances as of the time of the financial statements. Actual results could differ from those estimates.

Except to the extent updated or described below, the significant accounting policies set forth in Note 1 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, appropriately represent, in all material respects, the current status of accounting policies, and are incorporated herein by reference.

Table of ContentsRecent Accounting Pronouncements

In May 2014, the FASB issued guidance for revenue recognition for contracts, superseding the previous revenue recognition requirements, along with most existing industry-specific guidance. The guidance requires an entity to review contracts in five steps: 1) identify the contract, 2) identify performance obligations, 3) determine the transaction price, 4) allocate the transaction price, and 5) recognize revenue. The new standard will result in enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue arising from contracts with customers. The standard is effective for our reporting year beginning January 1, 2017 and early adoption is not permitted. We are currently evaluating the impact, if any, this new accounting pronouncement will have on our financial statements.

Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive income, net of tax, are as follows:

	June 30 2014	December 31 2013

The Company tests for other than temporary losses on a quarterly basis and has considered the unrealized losses indicated above to be temporary in nature. The Company intends to hold the investments until it can recover the full principal amount and has the ability to do so based on other sources of liquidity. The Company expects these recoveries to occur prior to the contractual maturities. All unrealized losses as of June 30, 2014 were in a continuous unrealized loss position for less than twelve months and are not deemed to be other than temporarily impaired as of June 30, 2014.

The following table summarizes the estimated fair value of our investments, designated as available-for-sale and classified by the contractual maturity date of the securities as of June 30, 2014:

	Amortized Cost	Estimated Market Value
Due within one year	\$ 5,869,780	\$ 5,876,551
Due after one year through five years	10,627,595	10,624,217
	\$ 16,497,375	\$ 16,500,768

The Company did not recognize any gross realized gains, and gross realized losses were immaterial, during the six-month periods ending June 30, 2014 and 2013, respectively. If the Company had realized gains or losses, they would be included within investment and other income in the accompanying consolidated results of operations.

NOTE 3 - STOCK-BASED COMPENSATION

Employee Stock Purchase Plan

Under the Company's Employee Stock Purchase Plan (ESPP), employees are able to acquire shares of common stock at 90% of the price at the end of each current quarterly plan term. The most recent term ended June 30, 2014. The ESPP is considered compensatory under current Internal Revenue Service rules. At June 30, 2014, after giving effect to the shares issued as of that date, 29,013 shares remain available for purchase under the ESPP.

2011 Executive Incentive Compensation Plan

On March 28, 2011 the Board adopted and on May 19, 2011 the Company's shareholders approved the Company's 2011 Executive Incentive Compensation Plan (2011 Incentive Plan). The 2011 Incentive Plan authorizes incentive awards to officers, key employees and non-employee directors in the form of options (incentive and non-qualified), stock appreciation rights, restricted stock, restricted stock units, performance stock units (deferred stock), performance cash units, and other awards in stock, cash, or a combination of stock and cash. Up to 1,000,000 shares of our common stock may be issued pursuant to awards under the 2011 Incentive Plan.

During 2014, stock options covering 300,246 shares were awarded to key executive employees and directors, which options expire seven years from the date of award and vest 25% each year beginning one year after the date of award. The Company also granted deferred stock awards of 43,824 shares to key employees during 2014 under the Company's long-term incentive plan that vest over three years with the first vesting period at March 28, 2015.

At June 30, 2014, 279,768 shares remained available for future issuance under the 2011 Incentive Plan.

Stock Option Plan for Directors

Shares of common stock are reserved for issuance to non-employee directors under options granted by the Company prior to 2011 under its Stock Option Plan for Non-Employee Directors (the Director Plan). Under the Director Plan nonqualified stock options to acquire shares of common stock were automatically granted to each non-employee director concurrent with annual meetings of shareholders in 2010 and earlier years, with the exercise price of options granted being the fair market value of the common stock on the date of the respective shareholder meetings. Options granted under the Director Plan expire 10 years from date of grant.

No options were granted under the Director Plan in 2013 or 2014. The Director Plan was amended as of May 19, 2011 to prohibit option grants in 2011 and future years.

1992 Stock Plan

Under the Company's 1992 Stock Plan (the Stock Plan), shares of common stock may be issued pursuant to stock options, restricted stock or deferred stock grants to officers and key employees. Exercise prices of stock options under the Stock Plan cannot be less than fair market value of the stock on the date of grant. Rules and conditions governing awards of stock options, restricted stock and deferred stock are determined by the Compensation Committee of the Board of Directors, subject to certain limitations in the Stock Plan. When seeking approval of the 2011 Incentive Plan at the 2011 Annual Meeting of Shareholders, the Company committed to amending the Stock Plan to prohibit the issuance of future equity awards if such approval was given. Effective August 11, 2011, the amendment to prohibit future stock options or other equity awards was approved by the Board.

Table of Contents

At June 30, 2014, after reserving for stock options and deferred stock awards granted in prior years and adjusting for forfeitures and issuances during the year, there were 60,598 shares reserved for issuance under the Stock Plan. The Company has not awarded stock options or deferred stock under this plan in 2013 or 2014.

Changes in Stock Options Outstanding

The following table summarizes changes in the number of outstanding stock options under the 2011 Incentive Plan, the Director Plan and Stock Plan over the period December 31, 2013 to June 30, 2014:

Table of Contents

Amortization expense on these identifiable intangible assets was \$54,000 and \$50,000 in 2014 and 2013, respectively. The amortization expense is included in selling, general and administrative expenses.

NOTE 6 WARRANTY

We provide reserves for the estimated cost of product warranties at the time revenue is recognized. We estimate the costs of our warranty obligations based on our warranty policy or applicable contractual warranty, historical experience of known product failure rates, and use of materials and service delivery costs incurred in correcting product failures. Management reviews the estimated warranty liability on a quarterly basis to determine its adequacy. The actual warranty expense could differ from the estimates made by the Company based on product performance.

The following table presents the changes in the Company's warranty liability for the six-month periods ended June 30, 2014 and 2013, respectively, the majority of which relates to a five-year obligation to provide for potential future liabilities for network equipment sales.

	2014	2013
Beginning balance	\$ 564,000	\$ 590,000
Amounts charged to expense	(10,000)	149,000
Actual warranty costs paid	(60,000)	(147,000)
Ending balance	\$ 494,000	\$ 592,000

NOTE 7 CONTINGENCIES

In the ordinary course of business, the Company is exposed to legal actions and claims and incurs costs to defend against these actions and claims. Company management is not aware of any outstanding or pending legal actions or claims that could materially affect the Company's financial position or results of operations.

NOTE 8 INCOME TAXES

In the preparation of the Company's consolidated financial statements, management calculates income taxes based upon the estimated effective rate applicable to operating results for the full fiscal year. This includes estimating the current tax liability as well as assessing differences resulting from different treatment of items for tax and book accounting purposes. These differences result in deferred tax assets and liabilities, which are recorded on the balance sheet. These assets and liabilities are analyzed regularly and management assesses the likelihood that deferred tax assets will be recovered from future taxable income.

At June 30, 2014 there was \$243,000 of net uncertain tax benefit positions that would reduce the effective income tax rate if recognized. The Company records interest and penalties related to income taxes as income tax expense in the Condensed Consolidated Statements of Income.

The Company is subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The tax years 2010-2012 remain open to examination by the Internal Revenue Service and the years 2009-2012 remain open to examination by various state tax departments. During the second quarter, the IRS completed an examination of our 2011 federal income tax return. There were no material changes to the return as filed. The tax years from 2010-2012 remain open in Costa Rica.

Table of Contents

The Company's effective income tax rate was 35.5% for the first six months of 2014. The effective tax rate differs from the federal tax rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and settlement of uncertain tax positions. The effect of the foreign operations is an overall rate increase of approximately 3.5% for the six months ended June 30, 2014. There were no additional uncertain tax positions identified in the first six months of 2014. The Company's effective income tax rate for the six months ended June 30, 2013 was 36.4%, and differed from the federal tax rate due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges, and the effect of operations conducted in lower foreign tax rate jurisdictions.

NOTE 9 SEGMENT INFORMATION

Effective January 1, 2014, the Company realigned the financial reporting for its business units. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as "Other" are now included within the three business units as fully allocated costs. The Company classifies its businesses into three segments as follows:

Suttle manufactures and markets copper and fiber connectivity systems, enclosure systems, xDSL filters and splitters, and active technologies for voice, data and video communications;

Transition Networks manufactures network interface devices (NIDs), media converters, network interface cards (NICs), Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network; and

JDL Technologies provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

Management has chosen to organize the enterprise and disclose reportable segments based on our products and services. There are no material inter-segment revenues. In order to conform to the 2014 presentation, the Company has reclassified the previously non-allocated Corporate expenses within the business segments.

Information concerning the Company's continuing operations in the various segments for the three and six-month periods ended June 30, 2014 and 2013 is as follows:

NOTE 10 PENSIONS

The Company's U.K. based subsidiary Austin Taylor maintains defined benefit pension plans. The Company does not provide any other post-retirement benefits to its employees. Components of net periodic benefit cost of the pension plans for the three-months and six-months ended June 30, 2014 and 2013 were:

	Three Months Ended June 30		Six Months Ended June 30	
	2014	2013	2014	2013
Service cost	\$ 2,000	\$ 64,000	\$ 3,000	\$ 129,000

Net periodic pension (benefit) cost	\$ (10,000)	\$ 61,000	\$ (19,000)	\$ 121,000

NOTE 11 NET INCOME PER SHARE

Basic net income per common share is based on the weighted average number of common shares outstanding during each year. Diluted net income per common share takes into effect the dilutive effect of potential common shares outstanding. The Company's only potential common shares outstanding are stock options and shares associated with the long-term incentive compensation plans, which resulted in a dilutive effect of 23,118 and 23,297 shares for the three and six-months ended 2014, respectively. The dilutive effect of stock options for the three and six-month periods ended June 30, 2013 was 3,596 shares and 6,132 shares, respectively. The Company calculates the dilutive effect of outstanding options using the treasury stock method. Options totaling 202,897 were excluded from the calculation of diluted earnings per share for the three and six months ended June 30, 2014 because the exercise price was greater than the average market price of common stock during the period and deferred stock awards totaling 171,544 shares were not included for the three and six month period ended June 30, 2014 because of unmet performance conditions. Options totaling 106,746 were excluded from the calculation of diluted earnings per share for the three and six months ended June 30, 2013 because the exercise price was greater than the average market price of common stock during the period and deferred stock awards totaling 273,571 shares were not included for the three and six month period ended June 30, 2013 because of unmet performance conditions.

NOTE 12 FAIR VALUE MEASUREMENTS

The accounting guidance establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date.

Level 2 Observable inputs such as quoted prices for similar instruments and quoted prices in markets that are not active, and inputs that are directly observable or can be corroborated by observable market data. The types of assets and liabilities included in Level 2 are typically either comparable to actively traded securities or contracts, such as treasury securities with pricing interpolated from recent trades of similar securities, or priced with models using highly observable inputs, such as commodity options priced using observable forward prices and volatilities.

Table of Contents

Level 3 Significant inputs to pricing that have little or no observability as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as the complex and subjective models and forecasts used to determine the fair value of financial instruments.

Financial assets and liabilities measured at fair value as of June 30, 2014 and December 31, 2013, are summarized below:

The change in the estimated contingent consideration during the six months was due to \$565,647 in payments and \$6,846 in foreign currency gains.

We record transfers between levels of the fair value hierarchy, if necessary, at the end of the reporting period. There were no transfers between levels during the six months ended June 30, 2014.

NOTE 13 RESTRUCTURING CHARGES

During the six-months ended June 30, 2014, the Company recorded \$238,000 in restructuring expense. This consisted of severance and related benefits costs due to the restructuring within the Transition Networks business segment, including ongoing costs related to the closure of the China facility. The facility was completely closed in the second quarter of 2014. The Company paid \$684,000 in restructuring charges during the first six months of 2014 and had \$40,000 in restructuring accruals recorded in accrued compensation and benefits at June 30, 2014 that are expected to be paid during 2014.

NOTE 14 SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the date of this filing. We do not believe there are any material subsequent events that would require further disclosure.

Forward-looking statements

In this report and, from time to time, in reports filed with the Securities and Exchange Commission, in press releases, and in other communications to shareholders or the investing public, the Company may make forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 concerning possible or anticipated future financial performance, business activities, plans, pending claims, investigations or litigation which are typically preceded by the words believes, expects, anticipates, intends or similar expressions. For these forward-looking statements, the Company claims the protection of the safe harbor for forward-looking statements contained in federal securities laws. Shareholders and the investing public should understand that these forward-looking statements are subject to risks and uncertainties that could cause actual performance, activities, anticipated results, outcomes or plans to differ significantly from those indicated in the forward-looking statements. These risks and uncertainties include, but are not limited to:

General Risks and Uncertainties;

The success of the holding company restructuring plan that we implemented in September 2013;
the ability of the CSI parent to oversee the Company's three operating units function in an efficient and cost-effective manner;
the ability of our three business operating units to operate profitably; and
the impact of changing economic circumstances on government expenditures in our markets.

Subtle Risks and Uncertainties:

Subtle's dependence upon its sales to major communication service providers and their continued investment and deployment into building out their networks;
Subtle's ability to continue to introduce and sell new G.hn products and FTTx (fiber-to-the-home or node) products; and
the continued recovery of the housing market in the United States.

Transition Networks Risks and Uncertainties:

The ability of Transition Networks to develop and introduce new products into new and existing markets at a level adequate to counter the decline from its traditional products and markets;
Transition Networks' ability to profitably penetrate certain international markets.

JDL Technologies Risks and Uncertainties:

JDL's ability to continue to obtain business from its traditional South Florida school districts;
JDL's ability to profitably expand outside its South Florida education market to small and medium sized commercial businesses;
and
JDL's ability to establish and maintain a productive and efficient workforce in light of revenues that have fluctuated significantly from period to period, in part due to the uncertainty and timing of federal government funding of school initiatives.

In addition, the Company will discuss other factors from time to time in its filings with the Securities and Exchange Commission, including risk factors presented under Item 1A of the Company's most recently filed annual report on Form 10-K or quarterly reports on Form 10-Q.

Table of ContentsCompany ResultsThree Months Ended June 30, 2014 Compared to
Three Months Ended June 30, 2013

Consolidated sales increased 4% in 2014 to \$33,209,000 compared to \$31,937,000 in 2013. Consolidated operating income in 2014 decreased to \$2,406,000 compared to \$2,567,000 in the second quarter of 2013. Net income in 2014 decreased to \$1,437,000 or \$0.17 per share compared to \$1,639,000 or \$0.19 per share in the second quarter of 2013.

Method of Presentation

Effective January 1, 2014, the Company realigned the financial reporting for its business units to reflect its move to a holding company business structure that supports self-sustaining business units and to provide increased focus on opportunities to cut indirect corporate charges. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as "Other" in Company financial statements are now included within the business unit level as fully allocated costs in this Form 10-Q. The Company has reclassified its 2013 results to conform to this new format.

Suttle Results

Suttle sales increased 37% in the second quarter of 2014 to \$19,006,000 compared to \$13,852,000 in the same period of 2013 due to revenue generated from new FTTx (fiber to the home or node) product platforms. Sales by customer groups in the second quarter of 2014 and 2013 were:

Sales to the major communication service providers increased 50% in 2014 due to growth in core high-speed copper connectivity products and success in securing new business in multiple FTTx domains. Sales to major communication service providers accounted for 84% of Suttle's sales in the second quarter of 2014 compared to 77% of sales in 2013. Sales to distributors remained flat in 2014. This customer segment accounted for 8% and 11% of sales in the second quarters of 2014 and 2013, respectively. International sales decreased 14% and accounted for 7% of Suttle's second quarter 2014 sales, due to a reduction in revenue from Austin Taylor legacy products, in part due to the Company's termination of a non-profitable OEM contract.

Table of Contents

Sales of structured cabling products increased 33%. Sales of DSL products decreased 24% and modular connecting products sales decreased 11% due to shifts in technology.

Suttle's gross margin increased 62% in the second quarter of 2014 to \$6,275,000 compared to \$3,862,000 in the same period of 2013. Gross margin as a percentage of sales increased to 33% from 28% in the same period of 2013 due to the introduction of new FTTx products, focused value engineering and cost optimization efforts, and economies of scale. Selling, general and administrative expenses increased 23% to \$3,358,000 in the second quarter of 2014 compared to \$2,727,000 in the same period in 2013 due to investment and recruitment of expertise in sales, operations, technology, product management, and engineering. Suttle's operating income was \$2,917,000 in the second quarter of 2014 compared to \$1,135,000 in 2013.

Transition Networks Results

Transition Networks sales increased 11% to \$11,567,000 in the second quarter of 2014 compared to \$10,462,000 in 2013 due to increased activity in the North American and Rest of World markets. Transition Networks organizes its sales force by channel to market and segments its customers geographically. Second quarter sales by region are presented in the following table:

	Transition Networks Sales by Region	
	2014	2013
North America	\$ 8,215,000	\$ 7,332,000
Europe, Middle East, Africa (EMEA)	1,115,000	1,257,000
Rest of World	2,237,000	1,873,000
	\$ 11,567,000	\$ 10,462,000

The following table summarizes Transition Networks' 2014 and 2013 second quarter sales by its major product groups:

	Transition Networks Sales by Product Group	
	2014	2013
Media converters	\$ 7,181,000	\$ 6,249,000
Ethernet switches	1,484,000	1,368,000
Ethernet adapters	958,000	796,000
Other products	1,944,000	2,049,000
	\$ 11,567,000	\$ 10,462,000

Sales in North America increased 12% or \$883,000 due to improving conditions at key customers. International sales increased \$222,000, or 7%, mainly due to increased sales in Latin America. Sales of media converters increased 15% or \$932,000 due to several North and Latin America projects that closed in the quarter.

Gross margin on second quarter Transition Networks' sales decreased 5% to \$5,386,000 in 2014 from \$5,675,000 in 2013. Gross margin as a percentage of sales decreased to 47% in 2014 from 54% in 2013 due to unfavorable product mix and pricing pressure. Selling, general and administrative expenses increased 1% to \$5,609,000 in 2014 compared to \$5,572,000 in 2013 due to additional costs associated with the closing of our China facility. Operating loss was \$223,000 in 2014 compared to operating income of \$103,000 in 2013.

JDL Technologies, Inc. sales decreased 65% to \$2,635,000 in the second quarter of 2014 compared to \$7,623,000 in 2013.

JDL's revenues by customer group were as follows:

	JDL Revenue by Customer Group	
	2014	2013
Broward County FL schools	\$ 2,025,000	\$ 3,205,000
Miami Dade County FL schools	0	3,970,000

Revenues earned from Broward County Public Schools, Florida decreased \$1,180,000 or 37% in the second quarter of 2014 as compared to the 2013 second quarter due to the Federal government's decision to withhold all priority two E-Rate funding for the current fiscal year, which required the district to find alternate funding sources for planned projects. Revenues earned from Miami-Dade County Public Schools in the second quarter of 2013 are related to the district's "Bringing Wireless to the Classroom" initiative for which the district received federal funding under the E-Rate program to expand wireless connectivity for students and staff. This was completed in the first quarter of 2014. Revenue from JDL Technologies' sales to small and medium-sized commercial businesses (SMBs) increased by 36% to \$610,000 as a result of an ongoing initiative to expand its reach in the South Florida commercial and healthcare markets.

Gross margin decreased 78% to \$433,000 in the second quarter of 2014 compared to \$1,991,000 in the same period in 2013. Gross margin as a percentage of sales decreased to 16% in 2014 from 26% in 2013 due to a change in the mix of revenue, with an increase in Broward Schools infrastructure sales, which have lower margins. Selling, general and administrative expenses increased 9% in 2014 to \$721,000 compared to \$663,000 in 2013. JDL Technologies reported an operating loss of \$288,000 in the second quarter of 2014 compared to operating income of \$1,328,000 in the same period of 2013.

Other

The Company's income before income taxes decreased to \$2,275,000 in 2014 compared to \$2,578,000 in 2013. The Company's effective income tax rate was 36.8% in 2014 and 36.4% in 2013. This effective tax rate differs from the federal tax rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and settlement of uncertain tax positions.

Sales to major communication service providers accounted for 84% of Suttle s sales in the first six months of 2014 compared to 76% of sales in 2013. Sales to distributors decreased 5% in 2014. This customer segment accounted for 9% and 12% of sales in the first six months of 2014 and 2013, respectively. International sales decreased 30% and accounted for 6% of Suttle s first six months 2014 sales, due to a reduction in revenue from Austin Taylor legacy products, in part due to the Company s termination of a non-profitable OEM contract.

Sales of structured cabling products increased 31%. Sales of DSL products decreased 34% and modular connecting products sales decreased 7% due to shifts in technology.

Suttle s gross margin increased 36% in the first six months of 2014 to \$9,765,000 compared to \$7,178,000 in the same period of 2013. Gross margin as a percentage of sales increased to 31% from 27% in 2013 due to introduction of new FTTx products, focused value engineering and cost optimization efforts, and economies of scale. Selling, general and administrative expenses increased 21% to \$6,496,000 in the first six months of 2014 compared to \$5,355,000 in the same period in 2013 due to investment and recruitment of expertise in sales, operations, technology, product management, and engineering. Suttle s operating income was \$3,270,000 in the first six months of 2014 compared to \$1,823,000 in 2013.

Other products	3,660,000	3,604,000
	\$ 21,317,000	\$ 21,275,000

Sales in North America increased 8% or \$1,080,000 due to increased sales into the Federal government channel. International sales decreased \$1,038,000, or 14%, due mainly to a weaker first quarter of this year compared to last year, with several customers mainly in northern Europe. Sales of media converters decreased 2% or \$268,000 due to continued competitive pressures and delays in new product introduction.

Gross margin on first six months Transition Networks sales decreased 11% to \$10,092,000 in 2014 from \$11,396,000 in 2013. Gross margin as a percentage of sales decreased to 47% in 2014 from 54% in 2013 due to unfavorable product mix and competitive prices. Selling, general and administrative expenses decreased 7% to \$10,789,000 in the first half of 2014 compared to \$11,617,000 in 2013 due to restructuring of certain go-to-market functions in the last three quarters of 2013 and higher ERP related expenses in the same period. Operating loss increased to \$935,000 in 2014 compared to an operating loss of \$221,000 in 2013, primarily as a result of a much weaker 2014 first quarter.

JDL Technologies, Inc. Results

JDL Technologies, Inc. sales decreased 56% to \$5,202,000 in the first six months of 2014 compared to \$11,850,000 in 2013.

Revenues by customer group were as follows:

	JDL Revenue by Customer Group

Table of Contents

Revenues earned through sales to Broward County Public Schools, increased \$54,000 in the first six months of 2014 as compared to the 2013 first six months due to the combination of a multi-school network refresh initiative that started in late 2013 and was completed in the first quarter of 2014, along with several key network core infrastructure upgrades during the 2014 first quarter. Revenues earned through sales to Miami-Dade County Public Schools in the first six months of both 2014 and 2013 are related to the district's Bringing Wireless to the Classroom initiative for which the district received federal funding under the E-Rate program to expand wireless connectivity for students and staff. This was completed in the first quarter of 2014. Revenue from JDL Technologies' sales to small and medium sized commercial businesses (SMBs) increased by 42% or \$337,000 as a result of continued successful marketing and sales efforts.

Gross margin decreased 55% to \$1,224,000 in the first six months of 2014 compared to \$2,731,000 in the same period in 2013. Gross margin as a percentage of sales increased to 24% in 2014 from 23% in 2013 reflecting the fact that a significant portion of its 2013 revenue was hardware-based, rather than the more traditional value-added service. Selling, general and administrative expenses remained flat in 2014 at \$1,406,000 compared to \$1,395,000 in 2013. JDL Technologies reported an operating loss of \$181,000 in the first six months of 2014 compared to operating income of \$1,336,000 in the same period of 2013.

Because federal and local funding for investments in IT infrastructure and services for K-12 schools varies substantially from year to year, JDL Technologies has experienced large swings in quarterly and annual revenues. We expect this volatility in revenues to continue in the balance of 2014 and future years. Based on recent indications from the federal government, we anticipate that the E-Rate program will be insufficiently funded to enable the Miami-Dade and Broward school districts to complete all the IT projects slated for 2014. While additional federal government funding may still materialize in 2014 and 2015, if it does not we may experience delay or cancellation of present or future wireless infrastructure projects in the districts. As previously reported, our 2013 results included approximately \$23.0 million in revenue from a wireless connectivity project for the Miami- Dade County Public School district.

To reduce dependence on government funding, JDL Technologies continues to aggressively pursue opportunities to provide managed services, migration to the cloud, virtualization HIPAA-compliant IT services, and other network services to SMBs with a focus on healthcare, legal and financial services and logistics markets. As part of this initiative, JDL Technologies has adopted HIPAA standards that enable it to serve healthcare providers as a compliant Business Associate.

Other

The Company's income before income taxes decreased to \$2,010,000 in 2014 compared to \$2,959,000 in 2013. The Company's effective income tax rate was 35.5% in 2014 and 36.4% in 2013. This effective tax rate differs from the federal tax rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and settlement of uncertain tax positions. The effect of the foreign operations is an overall rate increase of approximately 3.5% in the first six months of 2014.

Liquidity and Capital Resources

As of June 30, 2014, the Company had approximately \$31,453,000 in cash, cash equivalents and investments. Of this amount, \$5,198,000 was invested in short-term money market funds that are not considered to be bank deposits and are not insured or guaranteed by the FDIC or other government agency. These money market funds seek to preserve the value of the investment at \$1.00 per share; however, it is possible to lose money investing in these funds. The remainder in cash and cash equivalents is operating cash and certificates of deposit which are fully insured through the FDIC. The Company also had \$16,501,000 in investments consisting of certificates of deposit and corporate notes and bonds that are traded on the open market and are classified as available-for-sale at June 30, 2014.

The Company had working capital of \$61,766,000, consisting of current assets of approximately \$76,181,000 and current liabilities of \$14,415,000 at June 30, 2014 compared to working capital of \$70,599,000, consisting of current assets of \$83,672,000 and current liabilities of \$13,073,000 at December 31, 2013. The Company's working capital at June 30, 2014 decreased slightly from year-end due to the fact that the Company increased its ownership of long-term investments to \$10,624,000 from \$3,921,000.

Cash flow provided by operating activities was approximately \$7,553,000 in the first six months of 2014 compared to \$9,279,000 used in the same period of 2013. Significant working capital changes from December 31, 2013 to June 30, 2014 included a decrease in receivables of \$3,743,000 due to the receipt of outstanding receivables at JDL Technologies related to the Miami Dade project primarily completed in 2013, partially offset by an increase in sales at Suttle during the quarter and an increase in Suttle-related inventory and related accounts payable.

Net cash used in investing activities was \$9,332,000 in the first six months of 2014 compared to \$4,538,000 provided in the same period of 2013. The Company continued to make capital investments and purchases of certificates of deposit and other marketable securities, moving more of its capital into longer term investments.

Net cash used by financing activities was \$3,353,000 in the first six months of 2014 compared to \$1,529,000 in the same period of 2013. The Company made \$566,000 in contingent consideration payments related to the Patapasco acquisition. Cash dividends paid on common stock increased to \$2,801,000 in 2014 (\$0.32 per common share) from \$1,364,000 in 2013 due to an accelerated payment of the dividend declared and paid in December 2012. Proceeds from common stock issuances, principally shares sold to the Company's Employee Stock Ownership Plan and under the Company's Employee Stock Purchase Plan, totaled approximately \$180,000 in 2014 and \$206,000 in 2013. The Company did not repurchase any shares in 2014 or 2013 under the Board authorized program. At June 30, 2014, Board of Director authority to purchase approximately 411,910 additional shares remained in effect. The Company acquired \$2,000 and \$0 in 2014 and 2013, respectively, of Company stock from employees in order to satisfy withholding tax obligations related to share-based compensation, pursuant to terms of Board and shareholder-approved compensation plans.

The Company has a \$10,000,000 line of credit from Wells Fargo Bank. Interest on borrowings on the credit line is at LIBOR plus 1.1% (1.3% at June 30, 2014). There were no borrowings on the line of credit during the first six months of 2014 or 2013. The credit agreement expires October 31, 2014 and is secured by assets of the Company. The Company intends to renew the agreement in 2014.

In the opinion of management, based on the Company's current financial and operating position and projected future expenditures, sufficient funds are available to meet the Company's anticipated operating and capital expenditure needs.

Enterprise Resource Planning

On April 4, 2013, our Transition Networks business unit and the parent Communications Systems, Inc. went live on a new Enterprise Resource Planning (ERP) system. Due to the restructuring of the Company into a holding company structure with greater focus on our three operating business units, we are moving more deliberately to implement the new ERP system in the rest of the Company. We expect Suttle to adopt the new ERP system in 2015.

Critical Accounting Policies

Our critical accounting policies, including the assumptions and judgments underlying them, are discussed in our 2013 Form 10-K in Note 1 Summary of Significant Accounting Policies included in our Consolidated Financial Statements. There were no significant changes to our critical accounting policies during the six months ended June 30, 2014.

The Company's accounting policies have been consistently applied in all material respects and disclose such matters as allowance for doubtful accounts, sales returns, inventory valuation, warranty expense, income taxes, revenue recognition, asset impairment recognition and foreign currency translation. On an ongoing basis, we evaluate our estimates based on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Results may differ from these estimates due to actual outcomes being different from those on which we based our assumptions. Management reviews these estimates and judgments on an ongoing basis.

Recently Issued Accounting Pronouncements

We do not believe there are any recently issued accounting standards that have not yet been adopted that will have a material impact on the Company's financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The Company has no freestanding or embedded derivatives. The Company's policy is to not use freestanding derivatives and to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The vast majority of our transactions are denominated in U.S. dollars; as such, fluctuations in foreign currency exchange rates have historically not been material to the Company. At June 30, 2014 our bank line of credit carried a variable interest rate based on LIBOR plus 1.1%.

Based on the Company's operations, in the opinion of management, no material future losses or exposure exist relative to market risk.

Table of Contents

Item 4. Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in the Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

There was no change in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
