CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities Offered	Maximum Aggregate Offering Price	Amount of Registration Fee(1)
First Solar Inc. Knock-in REX	\$750,000	\$29.48

(1) Pursuant to Rule 457(p) under the Securities Act of 1933, filing fees of \$94,671.00 have already been paid with respect to unsold securities that were previously registered pursuant to a Registration Statement on Form F-3 (No. 333-89136) of ABN AMRO Bank N.V. (the "Prior Registration Statement"), which was initially filed on May 24, 2002 and for which a post-effective amendment was filed on September 17, 2003 and have been carried forward. ON JANUARY 23, 2009 AN ADDITIONAL FILING FEE OF \$10,000 WAS PAID. The \$29.48 fee with respect to the \$750,000 Knock-in Securities linked to the common stock of First Solar Inc. due April 29, 2009 sold pursuant to this registration statement is offset against those filing fees, and \$11,577.24 remains available for future registration fees. No additional fee has been paid with respect to this offering.

 28.00% (ANNUALIZED) KNOCK-IN REVERSE EXCHANGEABLE(SM) SECURITIES
 DUE APRIL 29, 2009 LINKED TO THE COMMON STOCK OF FIRST SOLAR, INC.

The Securities do not guarantee any return of principal at maturity. Instead, the payout at maturity will be based on the performance of the Common Stock of First Solar, Inc., which we refer to as the Underlying Shares, during the life of the Securities, and in certain circumstances described below, we will exchange each Security at maturity for a predetermined number of the Underlying Shares rather than the principal amount of the Securities. THE MARKET VALUE OF THOSE UNDERLYING SHARES WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF YOUR INITIAL PRINCIPAL INVESTMENT. YOU WILL NOT PARTICIPATE IN ANY APPRECIATION OF THE UNDERLYING SHARES.

ISSUE PRICE 100%

SETTLEMENT DATE January 29, 2009

PRICING DATE January 26, 2009

MATURITY DATE April 29, 2009

INITIAL PRICE \$139.05 (the initial price is subject to adjustment for certain corporate events affecting the Underlying Shares, which we describe in "Description of Securities -- Adjustment Events").

KNOCK-IN LEVEL \$83.43, which is 60% of the initial price.

STOCK REDEMPTION AMOUNT 7.192 Underlying Shares for each \$1,000 principal amount of the Securities, which is equal to \$1,000 divided by the initial price.

DETERMINATION DATE April 24, 2009, subject to adjustment in certain circumstances which we describe in "Description of the Securities -- Determination Date."

PAYMENT AT MATURITY The payment at maturity is based on the performance of the Underlying Shares:

- o If the closing price of the Underlying Shares on the primary U.S. exchange or market for the Underlying Shares has not fallen below the knock-in level on any trading day from but not including the pricing date to and including the determination date, we will pay you the principal amount of each Security in cash.
- o If the closing price of the Underlying Shares on the primary U.S. exchange or market for the Underlying Shares falls below the knock-in level on any trading day from but not including the pricing date to and including the determination date:
 - we will deliver to you a number of Underlying Shares equal to the stock redemption amount, in the event that the closing price of the Underlying Shares on the determination date is below the initial price (the market value of the stock redemption amount on the determination date will always be less than the principal amount of \$1,000 per Security; or
 - we will pay you the principal amount of each Security in cash, in the event that the closing price of the Underlying Shares on the determination date is at or above the initial price.

You will receive cash in lieu of fractional shares.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

If due to events beyond our reasonable control, as determined by us in our sole discretion, Underlying Shares are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Shares on the Determination Date.

The payment at maturity is subject to adjustment in certain circumstances.

GUARANTEE

The Securities will be fully and unconditionally guaranteed by ABN AMRO Holding N.V.

DENOMINATIONS

SUMMARY

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are interest paying, non-principal protected securities issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are senior notes of ABN AMRO Bank N.V. and have a maturity of three months. These Securities combine certain features of debt and equity by offering a fixed interest rate on the principal amount while the payment at maturity is determined based on the performance of the Underlying Shares. Therefore your principal is at risk but you have no opportunity to participate in any appreciation of the Underlying Shares.

The Securities have certain features that make them what we refer to as "Knock-in Reverse Exchangeable Securities." This means that if the closing price of the Underlying Shares on the primary U.S. securities exchange or organized market for the Underlying Shares, which we refer to as the relevant

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

exchange, never falls below a certain price level, which we call the knock-in level, on any trading day from but not including the pricing date to and including the determination date (such period, the "Knock-in Period"), then we will pay you in cash the principal amount of each Security at maturity. On the other hand, if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, then the payment at maturity will depend on the closing price of the Underlying Shares on the determination date. In this latter case, if the closing price of the Underlying Shares on the determination date is equal to or greater than the initial price, we will pay you in cash the principal amount of each Security you hold; if the closing price of the Underlying Shares on the determination date is less than the initial price, we will deliver to you, in exchange for each \$1,000 principal amount of Securities, a number of Underlying Shares equal to the stock redemption amount.

WHY IS THE INTEREST RATE ON THE SECURITIES HIGHER THAN THE INTEREST RATE PAYABLE ON YOUR CONVENTIONAL DEBT SECURITIES WITH THE SAME MATURITY?

The Securities offer a higher interest rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating because you, the investor in the Securities, indirectly sell a put option to us on the Underlying Shares. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher interest rate on the Securities. As explained below under "What are the consequences of the indirect put option that I have sold you?" you are being paid the premium for taking the risk that you may receive Underlying Shares with a market value less than the principal amount of your Securities at maturity, which would mean that you would lose some or all of your initial principal investment.

WHAT ARE THE CONSEQUENCES OF THE INDIRECT PUT OPTION THAT I HAVE SOLD YOU?

The put option you indirectly sell to us creates the feature of exchangeability. This feature could result in the delivery of Underlying Shares to you, at maturity, with a market value which is less than the principal amount of \$1,000 per Security. If the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, and on the determination date the closing price per Underlying Share is less than the initial price, you will receive a fixed number of Underlying Shares for each Security you hold, which we call the stock redemption amount. The market value of the stock redemption amount on the determination date will always be less than the principal amount of \$1,000 per Security. On the other hand, if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level, and on the determination date the closing price per Underlying Share is equal to or greater than the initial price, you will receive \$1,000 for each Security you hold. If the price of the Underlying Shares rises above the initial price you will not participate in any appreciation in the price of the Underlying Shares. Because of the

PS-3

exchangeability of the Securities, and because we will determine whether you will receive cash or Underlying Shares by reference to the closing price of the Underlying Shares on the determination date, such securities are generally referred to as "reverse exchangeable securities." However, because this feature of exchangeability is created only if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, we call the Securities "Knock-in Reverse Exchangeable Securities."

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES?

The payment at maturity of the Securities will depend on (i) whether or not the closing price of the Underlying Shares fell below the knock-in level on any trading day during the Knock-in Period, and if so, (ii) the closing price of the Underlying Shares on the determination date. To determine closing prices, we look at the prices quoted by the relevant exchange.

- o If the closing price per Underlying Share on the relevant exchange has not fallen below the knock-in level on any trading day during the Knock-in Period, we will pay you the principal amount of each Security in cash.
- o If the closing price per Underlying Share on the relevant exchange has fallen below the knock-in level on any trading day during the Knock-in Period, we will either:
 - o deliver to you the stock redemption amount, in exchange for each Security, in the event that the closing price of the Underlying Shares is below the initial price on the determination date (the market value of the stock redemption amount on the determination date will always be less than the principal amount of \$1,000 per Security); or
 - o pay you the principal amount of each Security in cash, in the event that the closing price of the Underlying Shares is at or above the initial price on the determination date.

If due to events beyond our reasonable control, as determined by us in our sole discretion, Underlying Shares are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Shares on the Determination Date.

The payment at maturity is further subject to adjustment in certain circumstances, which we describe in "Description of Securities -- Adjustment Events."

HOW ARE THE STOCK REDEMPTION AMOUNT AND KNOCK-IN LEVEL DETERMINED?

The stock redemption amount for each \$1,000 principal amount of the Securities is equal to \$1,000 divided by the initial price. The value of any fractional shares you are entitled to receive, after aggregating your total holdings of the Securities, will be paid in cash based on the closing price of the Underlying Shares on the determination date.

The knock-in level is 60% of the initial price.

The initial price and consequently the stock redemption amount and knock-in level are subject to adjustment for certain corporate events affecting the Underlying Shares, which we describe in "Description of Securities -- Adjustment Events."

WHAT INTEREST PAYMENTS CAN I EXPECT ON THE SECURITIES?

The Securities pay interest at a rate of 28.00% per annum. The interest rate is fixed at issue and is payable monthly in arrears. This means that irrespective of whether the Securities are exchanged at maturity for cash or the stock redemption amount, you will be entitled to monthly interest payments on the full principal amount of the Securities you hold, payable in cash. Interest on the Securities will be computed and accrue on the basis of a

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

360-day year of twelve 30-day months, or in the case of an incomplete month, the actual number of days elapsed from and including the most recent interest payment date, or if no interest has been paid, from the issue or other interest accrual date, to but excluding the earlier of the next interest payment date or the maturity date.

CAN YOU GIVE ME AN EXAMPLE OF THE PAYMENT AT MATURITY?

If, for example, in a hypothetical offering, the interest rate was 10% per annum, the initial price of a share of underlying stock was \$45.00 and the knock-in level for such offering was 80%, then the stock redemption amount would be 22.222 shares of underlying stock, or \$1,000 divided by \$45.00, and

PS-4

the knock-in level would be \$36.00, or 80% of the initial price.

If the closing price of that hypothetical underlying stock fell below the knock-in level of \$36.00 on any trading day during the Knock-in Period, then the payment at maturity would depend on the closing price of the underlying stock on the determination date. In this case, if the closing price of the underlying stock on the determination date is \$30.00 per share at maturity, which is below the initial price level, you would receive 22.222 shares of underlying stock for each \$1,000 principal amount of the securities. (In actuality, because we cannot deliver fractions of a share, you would receive on the maturity date for each \$1,000 principal amount of the securities 22 shares of underlying stock plus \$6.66 cash in lieu of 0.222 fractional shares, determined by multiplying 0.222 by \$30.00, the closing price per shares of underlying stock on the determination date.) In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum. IN THIS HYPOTHETICAL EXAMPLE, THE MARKET VALUE OF THOSE 22 SHARES OF UNDERLYING STOCK (INCLUDING THE CASH PAID IN LIEU OF FRACTIONAL SHARES) THAT WE WOULD DELIVER TO YOU AT MATURITY FOR EACH \$1,000 PRINCIPAL AMOUNT OF SECURITY WOULD BE \$666.66, WHICH IS LESS THAN THE PRINCIPAL AMOUNT OF \$1,000, AND YOU WOULD HAVE LOST A PORTION OF YOUR INITIAL INVESTMENT. If, on the other hand, the closing price of the underlying stock on the determination date is \$50.00 per share, which is above the initial price level, you will receive \$1,000 in cash for each \$1,000 principal amount of the securities regardless of the knock-in level having been breached. In addition, over the life of the Securities you would have received interest payments at a rate of 10% per annum.

Alternatively, if the closing price of the underlying stock never falls below \$36.00, which is the knock-in level, on any trading day during the Knock-in Period, at maturity you will receive \$1,000 in cash for each security you hold regardless of the closing price of the underlying stock on the determination date. In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum.

THIS EXAMPLE IS FOR ILLUSTRATIVE PURPOSES ONLY AND IS BASED ON A HYPOTHETICAL OFFERING. FOR EACH OFFERING OF SECURITIES, WE WILL SET THE INITIAL PRICE, KNOCK-IN LEVEL AND STOCK REDEMPTION AMOUNT (SUBJECT TO ADJUSTMENT FOR CERTAIN CORPORATE EVENTS AFFECTING THE APPLICABLE UNDERLYING SHARES) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE. IT IS NOT POSSIBLE, HOWEVER, TO PREDICT THE CLOSING PRICE OF ANY OF THE UNDERLYING SHARES ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Maturity" the total return of owning the Securities through maturity for various hypothetical closing prices of the Underlying Shares on the determination date in the case where the knock-in level has been breached and in the case where the knock-in level has not been breached.

DO I GET ALL MY PRINCIPAL BACK AT MATURITY?

You are not guaranteed to receive any return of principal at maturity. If the closing price of Underlying Shares falls below the knock-in level on any trading day during the Knock-in Period, and the closing price of the Underlying Shares is below the initial price on the determination date, we will deliver to you Underlying Shares. The market value of the Underlying Shares at the time you receive those shares will be less than the principal amount of the Securities and could be zero.

IS THERE A LIMIT TO HOW MUCH I CAN EARN OVER THE LIFE OF THE SECURITIES?

Yes. The amount payable under the terms of the Securities will never exceed the principal amount of the Securities payable at maturity plus interest payments you earn over the life of the Securities.

DO I BENEFIT FROM ANY APPRECIATION IN THE UNDERLYING SHARES OVER THE LIFE OF THE SECURITIES?

No. The amount paid at maturity for each \$1,000 principal amount of the Securities will not exceed \$1,000. As a result, if the Underlying Shares have appreciated above their price level on the pricing date, the payment you receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

PS-5

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

The Securities will not be listed on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be extremely limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

TELL ME MORE ABOUT ABN AMRO BANK N.V. AND ABN AMRO HOLDING N.V.

ABN AMRO Bank N.V. is an international banking group offering a wide range of banking products and financial services worldwide through our network of offices and branches. ABN AMRO Holding N.V. is the parent company of ABN AMRO Bank N.V. Holding's main purpose is to own the Bank and its subsidiaries. All of the Securities issued by the Bank hereunder are fully and unconditionally guaranteed by Holding.

On November 2, 2007 a consortium (the "Consortium") of the Royal Bank of Scotland Group plc, Fortis SA/NV and Fortis N.V. (collectively, "Fortis"), and Banco Santander Central Hispano SA, which had made a tender offer for the shares of Holding, announced that approximately 98.8% of the shares of Holding had been tendered to the Consortium as of October 31, 2007. On September 22, 2008 the Consortium acquired the remaining shares of Holding. On October 3, 2008 Holding jointly announced with the Dutch Minister of Finance (the "Minister") that on that date the Minister acquired all shares of Fortis Bank Nederland (Holding) NV from Fortis, which effectively transferred Fortis' share in Holding to the State of the Netherlands.

Holding is no longer listed on Euronext or the New York Stock Exchange but files periodic reports with the SEC. ABN AMRO Bank N.V. is rated A+ by Standard & Poor's and Aa2 by Moody's. "See "Risk Factors--Changes to Our Credit Ratings May Affect the Market Value of Your Securities."

WHERE CAN I FIND OUT MORE ABOUT FIRST SOLAR?

Because the Underlying Shares are registered under the Securities Exchange Act of 1934, as amended, First Solar is required to file periodically certain financial and other information specified by the Commission which is available to the public. You should read "Public Information Regarding the Underlying Shares" in this Pricing Supplement to learn how to obtain public information regarding the Underlying Shares and other important information. The historical highest intra-day price, lowest intra-day price and last day closing price of the Underlying Shares for each quarter since 2003 are set forth under the heading "Public Information Regarding the Underlying Shares" in this Pricing Supplement.

WHO WILL DETERMINE WHETHER THE CLOSING PRICE OF THE UNDERLYING SHARES HAS FALLEN BELOW THE KNOCK-IN LEVEL, THE CLOSING PRICE OF THE UNDERLYING SHARES ON THE DETERMINATION DATE, THE STOCK REDEMPTION AMOUNT AND THE INITIAL PRICE?

We have appointed our affiliate ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine whether the closing price of the Underlying Shares has fallen below the knock-in level, the closing price of the Underlying Shares on

the determination date, the stock redemption amount and the initial price. The calculation agent may adjust the initial price of the Underlying Shares and consequently the stock redemption amount and knock-in level, which we describe in the section called "Description of Securities -- Adjustment Events."

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

- o seek a higher interest rate than the current dividend yield on the Underlying Shares or the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating;
- o are willing to accept the risk of owning equity in general and the Underlying Shares in particular and the risk that they could lose their entire investment;
- o do not expect to participate in any appreciation in the price of the Underlying Shares; and
- o are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you should read before making an investment in the Securities.

Some selected risk considerations include:

- o CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment or delivery required by the terms of the Securities.
- o PRINCIPAL RISK. The Securities are not principal protected, which means there is no guaranteed return of principal. If the closing price of the Underlying Shares falls below the knock-in level on any trading day during the life of the Securities and the closing price on the determination date is less than the initial price, we will deliver to you a fixed number of Underlying Shares with a market value less than the principal amount of the Securities, which value may be zero.
- o LIQUIDITY AND MARKET RISK. The Securities will not be listed on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be very limited or non-existent. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THERE IS NO GUARANTEED RETURN OF PRINCIPAL

The Securities combine limited features of debt and equity. The terms of the Securities differ from those of ordinary equity securities in that you will not participate in any appreciation of the Underlying Shares even if the price of the Underlying Shares rises above the initial price. The terms of the Securities differ from those of ordinary debt securities in that we will not pay you a fixed principal amount in cash at maturity if the closing price of the Underlying Shares has fallen below the knock-in level on any trading day during the Knock-in Period and, in addition, the closing price of the Underlying Shares is below the initial price on the determination date. In such event, we will exchange each Security you hold for a number of Underlying Shares equal to the stock redemption amount. Such shares will have a market value of less than the principal amount of the Securities, and such value may be zero. You cannot predict the future performance of the Underlying Shares based on their historical performance. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF THE AMOUNT YOU INVEST IN THE SECURITIES.

THE SECURITIES WILL NOT BE LISTED ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. The Securities will not be listed on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

regarding independent market pricing for the Securities may be very limited or non-existent. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time. In addition, the total principal amount of the Securities being offered is not being purchased by investors in the offering, and one or more of our affiliates has agreed to purchase the unsold portion. Such affiliate or affiliates intend to hold the Securities for investment purposes, for at least 30 days, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading. If a substantial portion of any Securities held by our affiliates were to be offered for sale following this offering, the market price of such Securities could fall, especially if secondary trading in such Securities is limited or illiquid.

MARKET PRICE OF THE SECURITIES INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date when the calculation agent determines the amount to be paid to the holders of the Securities on the maturity date.

Several factors, many of which are beyond our control, will influence the value of the Securities, including:

- o the market price of the Underlying Shares, in particular, whether the closing price of the Underlying Shares has fallen below the knock-in level on any trading day;
- o the volatility (frequency and magnitude of changes) in the price of the Underlying Shares;
- o the dividend rate on the Underlying Shares. While dividend payments on the Underlying Shares, if any, are not paid to holders of the Securities, such payments may have an influence on the market price of the Underlying Shares and therefore on the Securities;
- o interest and yield rates in the market;

PS-8

- o economic, financial, political and regulatory or judicial events that affect the stock markets generally and which may affect the closing price of the Underlying Shares and/or the Securities;
- o the time remaining to the maturity of the Securities;
- o the occurrence of certain events affecting the Underlying Shares which may require an adjustment to the initial price; and
- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Some or all of these factors will influence the price that you will receive if you sell your Securities in the secondary market, if any, prior to maturity. For example, you may have to sell your Securities at a substantial discount from the principal amount if at the time of sale the market price of the Underlying Shares is at, below, or not sufficiently above the knock-in level. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices."

CHANGES TO OUR CREDIT RATINGS MAY AFFECT THE MARKET VALUE OF YOUR SECURITIES

ABN AMRO Bank N.V. is rated A+ by Standard & Poor's and Aa2 by Moody's. Our credit ratings are an assessment, by each rating agency, of our ability to pay our obligations, including those under the Securities. Credit ratings are subject to revision, suspension or withdrawal at any time by the assigning rating organization in their sole discretion. Consequently, actual or anticipated changes to our credit ratings may affect the market value of the Securities. However, because the return on the Securities is dependent upon factors in addition to our ability to pay our obligations under the Securities, an improvement in our credit ratings will not necessarily increase the market value of the Securities and will not reduce market risk and other investment risks related to the Securities. Credit ratings do not address the price, if any, at which the Securities may be resold prior to maturity (which may be substantially less than the issue price of the Securities) and are not recommendations to buy, sell or hold the Securities. See "Risk Factors--Market Price of the Securities Influenced by Many Unpredictable Factors"

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INCREASE IN THE VALUE OF THE UNDERLYING SHARES WILL NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning the Securities is not the same as owning the Underlying Shares. Accordingly, the market value of your Securities may not have a direct relationship with the market price of the Underlying Shares, and changes in the market price of the Underlying Shares may not result in a comparable change in the market value of your Securities. If the price per Underlying Share increases above the initial price, the market value of the Securities may not increase. It is also possible for the price of the Underlying Shares to increase while the market price of the Securities declines.

WE MAY NOT BE ABLE TO DELIVER UNDERLYING SHARES AT MATURITY

If due to events beyond our reasonable control, as determined by us in our sole discretion, Underlying Shares are not available for delivery at maturity we may pay you cash in lieu of delivering Underlying Shares. In such a case,

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

the amount of cash we will deliver will be an amount calculated by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Shares on the determination date. Accordingly, if you have sold Underlying Shares and your sale is to settle on the maturity date or you have otherwise agreed to deliver Underlying Shares on the maturity date, your trade may fail in the event we do not deliver Underlying Shares to you.

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN THE UNDERLYING SHARES HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in the Underlying Shares. In particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Shares, options contracts on Underlying Shares listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Our purchase activity, however, could potentially have increased the initial price of the Underlying Shares, and therefore increased the knock-in level, below which we would be required to deliver to you at maturity Underlying Shares, which, in turn, would have a value less than the principal amount of your Securities.

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling Underlying Shares, options contracts on Underlying Shares listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. We cannot give you any assurance that we have not or will not affect such price as a result of our hedging or trading activities. Such hedging or trading activities during the term of the Securities could adversely affect whether the price of the Underlying Shares decreases below the Knock-in Level and therefore, whether or not you will receive the stated principal amount of the Securities or Underlying Shares at maturity. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading the Underlying Shares and other investments relating to Caterpillar on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the price of the Underlying Shares and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the value of the Underlying Shares. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely effect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with Caterpillar or its affiliates could lead to actions on the part of the issuer of the stock which might adversely affect the value of the Underlying Shares.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the Underlying Shares acquired by us or our affiliates. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold Underlying Shares for the benefit of holders of the Securities in order to enable the holders to exchange their Securities for Underlying Shares under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any Underlying Shares that we or Holding own will be subject to the claims of our creditors or Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

NO SHAREHOLDER RIGHTS IN THE UNDERLYING SHARES

As a holder of the Securities, you will not have voting rights or rights to receive dividends or other distributions or other rights that holders of Underlying Shares would have.

Because neither we nor Holding nor any of our affiliates are affiliated with First Solar, we have no ability to control or predict the actions of First Solar, including any corporate actions of the type that would require the calculation agent to adjust the initial price and consequently the knock-in level and stock redemption amount, and have no ability to control the public disclosure of these corporate actions or any other events or circumstances affecting First Solar. FIRST SOLAR IS NOT INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAS NO OBLIGATION TO CONSIDER YOUR INTEREST AS AN OWNER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO FIRST SOLAR.

PS-10

INFORMATION REGARDING FIRST SOLAR

Neither we nor Holding nor any of our affiliates assume any responsibility for the adequacy of the information about First Solar contained in this Pricing Supplement or in any of First Solar's publicly available filings. AS AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO FIRST SOLAR. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH FIRST SOLAR, AND ARE NOT RESPONSIBLE FOR FIRST SOLAR'S PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC FILINGS OR OTHERWISE.

LIMITED ANTIDILUTION PROTECTION

As calculation agent, AAI, which is our affiliate, will adjust the initial price and consequently the stock redemption amount and knock-in level for certain events affecting the Underlying Shares, such as stock splits and corporate actions. The calculation agent is not required to make an adjustment for every corporate action which affects the Underlying Shares. For example, the calculation agent is not required to make any adjustments if Caterpillar or anyone else makes a partial tender or partial exchange offer for the Underlying Shares. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE CALCULATION AGENT TO ADJUST THE AMOUNT OF THE UNDERLYING SHARES PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment the portion of the Securities that has not been purchased by investors in this offering, which initially they intend to hold for investment purposes for at least 30 days. As a result, upon completion of this offering, our affiliates may own a substantial portion of the aggregate principal amount of the Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests. For example, our affiliates may attempt to sell the Securities that they had been holding for investment purposes at the same time that you attempt to sell your Securities, which could depress the price, if any, at which you can sell your Securities. Moreover, the liquidity of the market for the Securities, if any, could be substantially reduced as a result of our affiliates holding the Securities. See "--The Securities Will Not be Listed on any Securities Exchange; Secondary Trading May Be Limited." In addition, our affiliates could have substantial

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

influence over any matter subject to consent of the security holders.

POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI, which is our affiliate, will calculate the payout to you at maturity of the Securities. AAI and other affiliates may carry out hedging activities related to the Securities, including trading in the Underlying Shares, as well as in other instruments related to the Underlying Shares. AAI and some of our other affiliates also trade the Underlying Shares on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the price of the Underlying Shares and, accordingly could effect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain reorganization events occur as defined under "Description of Securities--Adjustment Events" the calculation agent may adjust the initial price and consequently the knock-in level and stock redemption amount to reflect the new securities issued in such reorganization event. The calculation agent may make such adjustment based on its assessment of the market value and volatility of those new securities, which may adversely affect the value of the Securities. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following those reorganization events. There can be no assurance that a reorganization event will not occur or that the calculation agent's adjustments upon a reorganization event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

PS-11

TAX TREATMENT

You should also consider the tax consequences of investing in the Securities. Significant aspects of the tax treatment of the Securities are uncertain. We do not plan to request a ruling from the U.S. Internal Revenue Service (the "IRS") or from the Dutch authorities regarding the tax treatment of the Securities, and the IRS, the Dutch authorities or a court may not agree with the tax treatment described in the accompanying Prospectus Supplement. Please read carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled "--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. You should consult your tax advisor about your own situation.

HYPOTHETICAL SENSITIVITY ANALYSIS OF TOTAL RETURN OF THE SECURITIES AT MATURITY

The following tables set out the total return to maturity of a Security, based on the assumptions outlined below and several variables, which include (a) whether the closing price of the Underlying Shares has fallen below the knock-in level on any trading day during the Knock-in Period and (b) several hypothetical closing prices for the Underlying Shares on the determination date. The information in the tables is based on hypothetical market values for the Underlying Shares. We cannot predict the market price or the closing price of the Underlying Shares on the determination date or at any time during the life of the Securities. THE ASSUMPTIONS EXPRESSED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND THE RETURNS SET FORTH IN THE TABLE MAY OR MAY NOT BE THE ACTUAL RATES APPLICABLE TO A PURCHASER OF THE SECURITIES.

ASSUMPTIONS

Initial Price: \$139.05 (the closing price on the date we priced the Securities)

Knock-in level: \$83.43 (60% of the Initial Price)

Annual Interest on the Securities: 28.00%

Term of the Securities: 3 months

Exchange Factor: 1.0 (we have assumed that no market disruption event occurs and the calculation agent does not need to adjust the exchange factor for any adjustment events during the term of the Securities).

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE UNDERLYING SHARES FALLS BELOW THE KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

ASSUMED FIRST SOLAR CLOSING PRICE ON DETERMINATION DATE	VALUE OF PAYMENT AT MATURITY (a)	THREE MONTHLY INTEREST PAYMENTS (c)	TOTAL RETURN (b)	
			\$	%

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE UNDERLYING SHARES NEVER FALLS

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

BELOW THE KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

ASSUMED FIRST SOLAR CLOSING PRICE ON DETERMINATION DATE	VALUE OF PAYMENT AT MATURITY (d)	THREE MONTHLY INTEREST PAYMENTS (c)	TOTAL RETURN (b) -----	
			\$	%
\$139.05 or above	\$1,000.00	\$70.00	\$1,070.00	7.00%
\$125.15	\$1,000.00	\$70.00	\$1,070.00	7.00%
\$118.89	\$1,000.00	\$70.00	\$1,070.00	7.00%
\$ 83.43	\$1,000.00	\$70.00	\$1,070.00	7.00%

- (a) Based on the assumptions set forth above, if the closing price of the Underlying Shares falls below \$83.43 on any trading day during the Knock-in Period and, in addition, the closing price of the Underlying Shares is less than \$139.05 on the determination date, the payment at maturity will be made in Underlying Shares. For determining the value of the payment at maturity, we have assumed that the closing price of the Underlying Shares will be the same on the maturity date as on the determination date.
- (b) The total return presented is exclusive of any tax consequences of owning the Securities. You should consult your tax advisor regarding whether owning the Securities is appropriate for your tax situation. See the sections titled "Risk Factors" in this Pricing Supplement and "United States Federal Taxation" and "Taxation in the Netherlands" in the accompanying Prospectus Supplement.
- (c) Interest on the Securities will be computed on the basis of a 360-day year of twelve 30-day months or, in the case of an incomplete month, the number of actual days elapsed. Accordingly, depending on the number of days in any monthly interest payment period, the coupon payable in such period and, consequently, the total interest payable over the life of the Securities, may be less than the amount reflected in this column.
- (d) Based on the assumptions set forth above, if the closing price of the Underlying Shares never falls below \$83.43 on any trading day during the Knock-in Period, the payment at maturity will be made in cash.

DESCRIPTION OF SECURITIES

Capitalized terms not defined herein have the meanings given to such terms in the accompanying Prospectus Supplement. The term "Security" refers to each \$1,000 principal amount of our 28.00% (annualized) Knock-in Reverse Exchangeable Securities due April 29, 2009 linked to the Common Stock of the Underlying Company and fully and unconditionally guaranteed by Holding.

Principal Amount:.....	\$750,000
Underlying Shares.....	Common Stock, \$0.001 par value per share, of First Solar, Inc.
Underlying Company.....	First Solar, Inc.
Settlement Date.....	January 29, 2009
Pricing Date.....	January 26, 2009
Issue Price.....	100%

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Initial Price..... \$139.05 (the Closing Price per Underlying Share when we priced the Securities on the Pricing Date, divided by the Exchange Factor).

Knock-in Level..... 60% of the Initial Price, which will be determined by the Calculation Agent. The Initial Price and consequently the Knock-in Level may be adjusted for certain corporate events affecting the Underlying Company.

Maturity Date..... April 29, 2009

Specified Currency..... U.S. Dollars

CUSIP..... 00083G4Y7

Denominations..... The Securities may be purchased in denominations of \$1,000 and integral multiples thereof.

Form of Securities..... The Securities will be represented by a single registered global security, deposited with the Depository Trust Company

Guarantee..... The payment and delivery obligations of ABN AMRO Bank N.V. under the Securities, when and as they shall become due and payable, whether at maturity or upon acceleration, are fully and unconditionally guaranteed by ABN AMRO Holding N.V.

Interest Rate..... 28.00% per annum, payable monthly in arrears commencing on February 28, 2009 and thereafter on the 29th day of each month ending on the Maturity Date, which shall represent (a) an interest coupon of 1.06% and (b) an option premium of 26.94% per annum.

Payment at Maturity..... If the Closing Price per Underlying Share has not fallen below the Knock-in Level on any Trading Day during the Knock-in Period, we will pay you the principal amount of each Security in cash. If the Closing Price per Underlying Share has fallen below the Knock-in Level on any Trading Day during the Knock-in Period, then (i) if the Closing Price per Underlying Share on the Determination Date is below the Initial Price, we will deliver to you, in exchange for each Security, a number of Underlying Shares equal to the Stock Redemption Amount or (ii) if the Closing Price per Underlying Share on the Determination Date is at or above the Initial Price, we will pay you the principal amount of each Security in cash. We will pay cash in lieu of delivering fractional Underlying Shares in an amount equal to the corresponding fractional Closing Price of the Underlying Shares, as determined by the Calculation Agent on the Determination Date. If due to events beyond our reasonable control, as determined by us in our sole discretion, Underlying Shares are not

PS-18

available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Shares on the Determination Date. Following a Reorganization Event, the amount payable at maturity is subject to adjustments as described below under "--Adjustment Events."

- Stock Redemption Amount..... The Calculation Agent will determine the Stock Redemption Amount on the Determination Date by dividing \$1,000 by the Initial Price of the Underlying Shares. The Initial Price and consequently the Stock Redemption Amount may be adjusted for certain corporate events affecting the Underlying Company. The interest payment on the Securities at maturity will be paid in cash.
- Determination Date..... April 24, 2009; provided that if such day is not a Trading Day, or if a Market Disruption Event has occurred on such a Trading Day, the Determination Date shall be the immediately succeeding Trading Day; provided, further, that the Determination Date shall be no later than the second scheduled Trading Day preceding the Maturity Date, notwithstanding the occurrence of a Market Disruption Event on such second scheduled Trading Day.
- Closing Price..... If the Underlying Shares (or any other security for which a closing price must be determined) are listed on a U.S. securities exchange registered under the Exchange Act, or are included in the OTC Bulletin Board Service, which we refer to as the OTC Bulletin Board (operated by the Financial Industry Regulatory Authority), the Closing Price for one Underlying Share (or one unit of any such other security) on any Trading Day means (i) the last reported sale price, regular way, in the principal trading session on such day on the principal securities exchange on which the Underlying Shares (or any such other security) are listed or admitted to trading or (ii) if not listed or admitted to trading on any such securities exchange or if such last reported sale price is not obtainable (even if the Underlying Shares, or other such security, are listed or admitted to trading on such securities exchange), the last reported sale price in the principal trading session on the over-the-counter market as reported on the Relevant Exchange or OTC Bulletin Board on such day. If the last reported sale price is not available pursuant to clause (i) or (ii) of the preceding sentence, the Closing Price for any Trading Day shall be the mean, as determined by the Calculation Agent, of the bid

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

prices for the Underlying Shares (or any such other security) obtained from as many dealers in such security (which may include AAI or any of our other affiliates), but not exceeding three, as will make such bid prices available to the Calculation Agent. The term "OTC Bulletin Board Service" shall include any successor service thereto.

Relevant Exchange..... The primary U.S. securities organized exchange or market of trading for the Underlying Shares. If a Reorganization Event has occurred, the Relevant Exchange will be the stock exchange or securities market on which the Exchange Property (as defined below under "--Adjustment Events") that is a listed equity security is principally traded as determined by the Calculation Agent.

Trading Day..... A day, as determined by the Calculation Agent, on which trading is generally conducted on the Relevant Exchange.

Market Disruption Event..... Means, with respect to any securities for which a Closing Price must be determined:

(i) either:

(x) any suspension of or limitation imposed on trading in such securities by the primary exchange therefore or otherwise and whether by reason of movements in price exceeding limits permitted by such exchange or otherwise or by any exchange or quotation system on which trading in futures or options contracts relating to such securities is executed, or

(y) any event (other than an event described in clause (z) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (1) to effect transactions in or obtain market values for such securities on the primary exchange therefore or (2) to effect transactions in or obtain market values for futures or options contracts relating to such securities on any other exchange, or

- (z) the closure on any Trading Day of the primary exchange for such securities, or any exchange or quotation system on which trading in future or options relating such securities is executed, prior to its scheduled closing time unless such earlier closing time is announced by such exchange at least one hour prior to the earlier of (1) the actual closing time for the regular trading session on such exchange on such Trading Day and (2) the submission deadline for orders to be entered into such exchange for execution on such Trading Day; and
- (ii) a determination by the Calculation Agent in its sole discretion that the event described in clause (i) above materially interfered with our ability or the ability of any of our affiliates to unwind or adjust all or a material portion of the hedge with respect to the Securities.

For purposes of determining whether a market disruption event has occurred: (1) a limitation on the hours or number of days of trading will not constitute a market disruption event if it results from an announced change in the regular business hours of the relevant exchange; (2) a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a market disruption event; (3) limitations pursuant to any applicable rule or regulation enacted or promulgated by the New York Stock Exchange Inc., any other self-regulatory organization or the Commission of similar scope as determined by the calculation agent on trading during significant market fluctuations shall constitute a suspension, absence or material limitation of trading; (4) a suspension of trading in a futures or options contract on such securities by the primary securities market trading in such futures or options, if available, by reason of (x) a price change exceeding limits set by such securities exchange or market, (y) an imbalance of orders relating to such contracts or (z) a disparity in bid and ask quotes relating to such contracts will constitute a suspension, absence or material limitation of trading in futures or options contracts related to such securities; and (5) a suspension, absence or material limitation of trading on the primary securities market on which futures or options contracts related to such securities are traded will not include any time when such securities market is itself closed for trading under ordinary circumstances.

The Calculation Agent shall as soon as reasonably practicable under the circumstances notify us, the trustee, the Depository Trust Company and the agents of the existence or occurrence of a Market Disruption Event on any day that but for the occurrence or existence of a Market Disruption Event would have been the Determination Date.

Exchange Factor..... The Exchange Factor will be set initially at 1.0, but will be subject to adjustment upon the occurrence of certain corporate events affecting the Underlying Shares. See "Adjustment Events" below.

Adjustment Events..... The Exchange Factor or the amounts paid at maturity will be adjusted as follows:

1. If the Underlying Shares are subject to a stock split or reverse stock split, then once such split has become effective, the Exchange Factor will be proportionately adjusted.
2. If the Underlying Shares are subject (i) to a stock dividend (i.e., the issuance of additional Underlying Shares) that is given ratably to all holders of Underlying Shares or (ii) to a distribution of the Underlying Shares as a result of the triggering of any provision of the corporate charter of the Underlying Company, in each case other than a stock split described in paragraph 1, then once the dividend has become effective and the Underlying Shares are trading ex-dividend, the Exchange Factor will be proportionally adjusted.
3. There shall be no adjustments to the Exchange Factor to reflect cash dividends or other distributions paid with respect to the Underlying Shares unless such cash dividends or other distributions constitute Extraordinary Dividends as described below (except that distributions described in paragraph 2 above shall not be subject to this paragraph). A cash dividend or other distribution with respect to the Underlying Shares shall be deemed to be an "Extraordinary Dividend" if such dividend or other distribution exceeds the immediately preceding non-Extraordinary Dividend for the Underlying Shares by an amount equal to at least 10% of the Closing Price of the Underlying Shares (as adjusted for any subsequent corporate event requiring an adjustment hereunder, such as a stock split or reverse stock split) on the Trading Day preceding the ex-dividend date for the payment of such Extraordinary

Dividend (the "ex-dividend date"). If an Extraordinary Dividend occurs with respect to the Underlying Shares, the Exchange Factor with respect to the Underlying Shares will be adjusted on the ex-dividend date with respect to such Extraordinary Dividend so that the new Exchange Factor will equal the product of (i) the then-current Exchange Factor and (ii) a fraction, the numerator of which is the Closing Price on the Trading Day preceding the ex-dividend date, and the denominator of which is the amount by which the Closing Price on the Trading Day preceding the ex-dividend date exceeds the Extraordinary Dividend Amount. The "Extraordinary Dividend Amount" with respect to an Extraordinary Dividend for the Underlying Shares shall equal (i) in the case of cash dividends or other distributions that constitute regular dividends, the amount per share of such Extraordinary Dividend minus the amount per share of the immediately preceding non-Extraordinary Dividend for the Underlying Shares or (ii) in the case of cash dividends or other distributions that do not constitute regular dividends, the amount per share of such Extraordinary Dividend. To the extent an Extraordinary Dividend is not paid in cash, the value of the non-cash component will

PS-21

be determined by the calculation agent, whose determination shall be conclusive. A distribution on the Underlying Shares described in clause (A), clause (D) or clause (E) in the definitions of "Reorganization Event" of paragraph 5 below that also constitutes an Extraordinary Dividend shall not cause an adjustment to the Exchange Factor pursuant to this paragraph 3.

4. If the Underlying Company issues rights or warrants to all holders of the Underlying Shares to subscribe for or purchase Underlying Shares at an exercise price per share less than the closing price of the Underlying Shares on both (i) the date the exercise price of such rights or warrants is determined and (ii) the expiration date of such rights or warrants, and if the expiration date of such rights or warrants precedes the maturity of this Note, then the Exchange Factor shall be adjusted to equal the product of the prior Exchange

Factor and a fraction, the numerator of which shall be the number of Underlying Shares outstanding immediately prior to the issuance of such rights or warrants plus the number of additional Underlying Shares offered for subscription or purchase pursuant to such rights or warrants and the denominator of which shall be the number of Underlying Shares outstanding immediately prior to the issuance of such rights or warrants plus the number of additional Underlying Shares which the aggregate offering price of the total number of shares of the Underlying Shares so offered for subscription or purchase pursuant to such rights or warrants would purchase at the closing price on the expiration date of such rights or warrants, which shall be determined by multiplying such total number of shares offered by the exercise price of such rights or warrants and dividing the product so obtained by such Closing Price.

5. If a Reorganization Event (as defined below) occurs, the payment at maturity will depend on (i) whether the Closing Price of the Underlying Shares fell below the Knock-in Level on any Trading Day from but not including the Pricing Date to and including one Trading Day prior to the date of the Reorganization Event (for purposes of this paragraph 5, we refer to such period as the "Relevant Period"), and (ii) the kind and amount of Exchange Property (as defined below) received by holders of Underlying Shares in the Reorganization Event.

In the case where the Closing Price of the Underlying Shares has fallen below the Knock-in Level on any Trading Day during the Relevant Period, each holder of a Security will receive at maturity, in respect of each \$1,000 principal amount of each Security, the lesser of: (i) \$1,000 in cash or (ii) Exchange Property in an amount with a value equal to the product of the Stock Redemption Amount times the Transaction Value (as defined below).

In the case where the Closing Price of the Underlying Shares has not fallen below the Knock-in Level on any Trading Day during the Relevant Period, then the payment at maturity will depend upon the type of Exchange Property received by holders of Underlying Shares in accordance with the following:

- (i) If the Exchange Property consists solely of equity securities listed on a securities exchange

that, in the opinion of the Calculation Agent, maintains sufficient liquidity for trading in such Exchange Property, then the payment at maturity for

PS-22

each \$1,000 principal amount of Securities will depend on whether the Closing Price of such Exchange Property has fallen below the Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date:

- (a) If the Closing Price of such Exchange Property has not fallen below the Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date, then each holder of a Security will receive the principal amount of \$1,000 in cash; or
- (b) If the Closing Price of such Exchange Property has fallen below the Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date, then (x) if the Closing Price of such Exchange Property on the Determination Date is below the Initial Price, we will deliver to you, in exchange for each Security, Exchange Property with a value equal to the product of the Stock Redemption Amount times the Transaction Value and (y) if the Closing Price of such Exchange Property on the Determination Date is at or above the Initial Price, we will pay you \$1,000 in cash.

The Calculation Agent will adjust the Initial Price and consequently the Knock-in Level to reflect the new securities delivered in such Reorganization

Event and the market value and volatility levels of such securities and any Exchange Factor adjustments to the Initial Price as of the effective date of the Reorganization Event. Following any such adjustment, the Initial Price will be such adjusted Initial Price, divided by the Exchange Factor (which shall have been reset to 1.0 immediately following the Reorganization Event). The Bank will provide notice to the Trustee and the Securities Administrator of the adjusted Knock-in Level and Initial Price as soon as practicable after the date of such Reorganization Event.

- (ii) If the Exchange Property consists solely of property other than such listed equity securities, each holder of a Security will receive, on the Maturity Date, in exchange for each \$1,000 principal amount of Securities, the lesser of: (i) \$1,000 in cash or (ii) Exchange Property in an amount with a value equal to the product of the Stock Redemption Amount times the Transaction Value as of the Determination Date. We may, in lieu of delivering such Exchange Property, pay you the cash value of such Exchange Property as of the Determination Date, as determined by the Calculation Agent. We will notify the Trustee and the Securities Administrator of the amount and type of Exchange Property to be delivered or cash to be paid.
- (iii) If the Exchange Property consists of any combination of such listed equity securities and other property, then we will (a) deliver, on the Maturity Date, the portion of Exchange Property consisting of such other property with a value equal

PS-23

to the product of the Stock Redemption Amount (prior to any

adjustment under this clause) times the Transaction Value of such portion of Exchange Property on the Determination Date or, at our election, pay the cash value thereof, as determined by the Calculation Agent, (b) proportionally adjust the Stock Redemption Amount to reflect the portion of the Exchange Property constituting such listed equity securities, (c) adjust the Initial Price and consequently the Knock-in Level to reflect such listed equity securities, the market value and volatility levels of such listed equity securities and any Exchange Factor adjustments to the Initial Price as of the effective date of the Reorganization Event and (d) reduce the principal amount of each \$1,000 of Securities to an amount equal to such adjusted Stock Redemption Amount multiplied by such adjusted Initial Price. Following such adjustments, the amount paid at maturity for each Security will be determined as set forth under clause (i) above, except references to each \$1,000 principal amount of Security and \$1,000 in cash and the reference to \$1,000 in the definition of Stock Redemption Amount shall be references to the adjusted principal amount of Securities as described in clause (d) of the preceding sentence. In addition, following any such adjustment, the Initial Price will be such adjusted Initial Price, divided by the Exchange Factor (which shall have been reset to 1.0 immediately following the Reorganization Event). The Bank will provide notice to the Trustee and the Securities Administrator of any adjustments to the Securities as a result of this clause (iii) as soon as practicable after the date of such Reorganization Event.

"Reorganization Event" means (A) there has occurred any reclassification or change with respect to the Underlying Shares, including, without limitation, as a result of the issuance of any tracking stock by the Underlying Company; (B) the Underlying Company or any surviving entity or

subsequent surviving entity of the Underlying Company (an "Underlying Company Successor") has been subject to a merger, combination or reorganization and is not the surviving entity; (C) any statutory exchange of securities of the Underlying Company or any Underlying Company Successor with another corporation occurs (other than pursuant to clause (B) above); (D) the Underlying Company is liquidated; (E) the Underlying Company issues to all of its shareholders equity securities of an issuer other than the Underlying Company (other than in a transaction described in clauses (B), (C) or (D) above) (a "Spin-off Event"); or (F) a tender or exchange offer or going-private transaction is consummated for all the outstanding Underlying Shares.

"Exchange Property" means securities, cash or any other assets distributed to holders of the Underlying Shares in any Reorganization Event, including, (A) in the case of the issuance of tracking stock or in the case of a Spin-off Event, the Underlying Shares with respect to which the tracking stock or spun-off security was issued and (B) in the case of any other Reorganization Event where the Underlying Shares continue to be held by the holders receiving such distribution, the Underlying Shares.

"Transaction Value", at any date, means (A) for any cash received as

PS-24

Exchange Property in any such Reorganization Event, the amount of cash received per Underlying Share; (B) for any property other than cash or securities received in any such Reorganization Event, the market value, as determined by the Calculation Agent, as of the date of receipt, of such Exchange Property received per Underlying Share; and (C) for any security received in any such Reorganization Event (including in the case of the issuance of tracking stock, the reclassified Underlying Shares and, in the case of a Spin-off Event, the Underlying Shares with respect to which the spun-off security was issued), an amount equal to the Closing Price, as of the determination date, per share of such security multiplied by the quantity of such security received for each Underlying Share.

For purposes of clause (iii) above, if Exchange Property consists of more than one type of property that is not listed equity securities described in clause (iii) above, holders of Securities will receive at maturity a pro rata share of each such type of Exchange Property in proportion to the quantity of such Exchange Property received in respect of each Underlying Share. If Exchange Property includes a cash component, holders will not receive any interest accrued on such cash component. In the event Exchange Property consists of securities, those securities will, in turn, be subject to the antidilution adjustments set forth in paragraphs 1 through 5.

For purposes of this paragraph 5:

- (i) in the case of a consummated tender or exchange offer or going-private transaction involving Exchange Property of a particular type, Exchange Property shall be deemed to include the amount of cash or other property paid by the offeror in the tender or exchange offer with respect to such Exchange Property (in an amount determined on the basis of the rate of exchange in such tender or exchange offer or going-private transaction); and
- (ii) in the event of a tender or exchange offer or a going-private transaction with respect to Exchange Property in which an offeree may elect to receive cash or other property, Exchange Property shall be deemed to include the kind and amount of cash and other property received by offerees who elect to receive cash.

With respect to paragraphs 1 to 5 above, no adjustments to the Exchange Factor shall be required unless such adjustment would require a change of at least 0.1% in the Exchange Factor then in effect. The Exchange Factor resulting from any of the adjustments specified above shall be rounded to the nearest one hundred-thousandth with five one-millionths being rounded upward.

No adjustments to the Exchange Factor or method of calculating the Exchange Factor shall be required other than those specified above. However, the Bank may, at its sole discretion, cause the Calculation Agent to make additional changes to the Exchange Factor upon the

occurrence of corporate or other similar events that affect or could potentially affect market prices of, or shareholders' rights in, the Underlying Shares (or other Exchange Property) but only to reflect such changes, and not with the aim of changing relative investment risk. The adjustments specified above do not cover all events that could affect the Market Price or the Closing Price of the Underlying Shares, including, without limitation, a

PS-25

partial tender or partial exchange offer for the Underlying Shares.

The Calculation Agent shall be solely responsible for the determination and calculation of any adjustments to the Exchange Factor or method of calculating the Exchange Factor and of any related determinations and calculations with respect to any distributions of stock, other securities or other property or assets (including cash) in connection with any Reorganization Event described in paragraph 5 above, and its determinations and calculations with respect thereto shall be conclusive.

The Calculation Agent will provide information as to any adjustments to the Exchange Factor or method of calculating the Exchange Factor upon written request by any holder of the Securities.

Alternate Exchange
Calculation in case of an
Event of Default.....

In case an Event of Default with respect to the Securities shall have occurred and be continuing, the amount declared due and payable upon any acceleration of any Security shall be determined by AAI, as Calculation Agent, and shall be equal to the principal amount of the Security plus any accrued interest to, but not including, the date of acceleration.

Calculation Agent.....

AAI, which is our affiliate. All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent and will, in the absence of manifest error, be conclusive for all purposes and binding on you and on us.

Additional Amounts.....

Subject to certain exceptions and limitations described in "Description of Debt Securities -- Payment of Additional Amounts" in the accompanying Prospectus, we will pay such additional amounts to holders of the Securities as may be necessary in order that the net payment of the principal of the Securities and any other amounts payable on the Securities, after withholding for or on account of any present or

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

future tax, assessment or governmental charge imposed upon or as a result of such payment by The Netherlands (or any political subdivision or taxing authority thereof or therein) or the jurisdiction of residence or incorporation of any successor corporation (other than the United States), will not be less than the amount provided for in the Securities to be then due and payable.

Book Entry..... The indenture for the Securities permits us at anytime and in our sole discretion to decide not to have any of the Securities represented by one or more registered global securities. DTC has advised us that, under its current practices, it would notify its participants of our request, but will only withdraw beneficial interests from the global security at the request of each DTC participant.

Record Date..... The "record date" for any interest payment date is the calendar day prior to that interest payment date, whether or not that date is a business day.

PS-26

USE OF PROCEEDS

The net proceeds we receive from the sale of the Securities will be used for general corporate purposes and, in part, by us or one or more of our affiliates in connection with hedging our obligations under the Securities. The issue price of the Securities includes the selling agents' commissions (as shown on the cover page of the accompanying Prospectus Supplement) paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the projected profit that our affiliates expect to realize in consideration for assuming the risks inherent in managing the hedging transactions. Since hedging our obligations entails risk and may be influenced by market forces beyond our or our affiliates' control, such hedging may result in a profit that is more or less than initially projected, or could result in a loss. See also "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Potential Conflicts of Interest; No Security Interest in the Underlying Shares Held by Us" and "Plan of Distribution" in this Pricing Supplement and "Use of Proceeds" in the accompanying Prospectus.

TAXATION

Please review carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled "--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. Prospective purchasers of the Securities should consult their own tax advisers as to the tax consequences of acquiring, holding and disposing of the Securities under the tax law of any state, local and foreign jurisdiction.

On December 7, 2007, the U.S. Treasury and the Internal Revenue Service released a notice requesting comments on the U.S. federal income tax treatment

of "prepaid forward contracts" and similar instruments. While it is not entirely clear whether the Securities are among the instruments described in the notice, it is possible that any Treasury regulations or other guidance issued after consideration of the issues raised in the notice could materially and adversely affect the tax consequences of ownership and disposition of the Securities, possibly on a retroactive basis.

The notice indicates that it is possible the IRS may adopt a new position with respect to how the IRS characterizes income or loss (including, for example, whether the option premium might be currently included as ordinary income) on the Securities for U.S. holders of the Securities.
