BOARD COMMITTEES AND MEETINGS

Edgar Filing: PROVENA FOODS INC - Form DEF 14A

The Board of Directors has two committees, the audit committee and the option committee. The board has no executive, nominating or compensation committees, and the full board acts in these capacities.

The audit committee's function is to oversee the Company's financial practices and controls and its relationship with its outside auditors, as provided by the revised audit committee charter adopted by the board on April 28, 2001. The audit committee met four times in 2002. The option committee's function is to administer the Company's 1987 Incentive Stock Option Plan. The option committee did not meet in 2002.

The board held five formal meetings and acted once by unanimous written consent during 2002. All members were present at all board and committee meetings.

Directors who are not officers or employees are paid a fee of \$1,000 for each board meeting or board committee meeting attended in person and \$250 for each meeting attended by telephonic conference call.

Audit Committee Report

Beginning with the 2nd quarter of 2000, the audit committee has met at least quarterly. The outside auditors were invited to each meeting to discuss any significant matters relating to the quality and accuracy of the Company's financial reporting principles, policies and practices. The committee reviewed and discussed with the auditors and management the results of the annual audit and the audited financial statements for the year 2002. The committee also reviewed with the auditors and received a written statement from them on their independence and any relationships that might compromise that independence. Based on the foregoing, the committee recommended to the board that the financial statements be included in the Form 10-K. Each member of the audit committee is independent within the meaning of the AMEX rules.

See Incentive Stock Option Plan below for information on Incentive Stock Options. See Simplified Employee Pension Plan below for information on SEP-IRA Contributions. The cash bonuses were paid in anticipation of the adoption of a Stock Grant Plan. See Stock Grant Plan below for information on the Stock Grant Plan.

Except as authorized by the approval of the Stock Grant Plan, the Company does not currently pay bonuses or deferred compensation to executive officers. The Company does not provide executive officers with automobiles, employment contracts or golden parachute arrangements.

Simplified Employee Pension Plan

In 1988, the Company adopted a Simplified Employee Pension-Individual Retirement Accounts (SEP-IRA) plan and executed SEP-IRA Agreements with Wells Fargo Bank, N.A. and Dean Witter Reynolds Inc., covering all employees at least 18 years old who have worked at least six months and earned at least \$300

during the year, except certain union employees. Union plant employees at both divisions do not participate in the SEP-IRA plan under the terms of their current collective bargaining agreements.

The Company makes contributions under the plan in the discretion of the board, allocated in proportion to compensation, to an Individual Retirement Account (IRA) established by each eligible employee.

Contributions, up to 15% of eligible compensation, are deductible by the Company and not taxable to the employee. An employee may withdraw SEP-IRA funds from the employee's IRA. Withdrawals are taxable as ordinary income, and withdrawals before age 59-1/2 may be subject to tax penalties.

For 2002, the Company contributed \$364,421 to IRAs under the plan.

Incentive Stock Option Plan

In April 1987, the Company adopted an Incentive Stock Option Plan under Section 422A of the Internal Revenue Code of 1986. Under the plan, as amended in 1988, for a period of 10 years from the date of adoption, an Option Committee appointed by the Board of Directors was authorized in its discretion to grant to key management employees options to purchase up to an aggregate of 261,704 shares of common stock of the Company. The purchase price of shares covered by an option could not be less than the market value of the shares on the date of grant and the term of an option could not exceed 10 years.

Options may no longer be granted under the plan. No options were exercised in 2002. At December 31, 2002, outstanding options to purchase shares at \$2-9/16 per share were held 91,458 by Theodore L. Arena and 15,653 by Thomas J. Mulroney. All outstanding options are exercisable at a price which exceeds the year end stock market closing price of \$1.22 per share.

Stock Grant Plan

In 2002, the Board of Directors of the Company authorized the adoption of a Stock Grant Plan to grant shares of the Company's common stock to two executive officers of the Company, 180,000 shares to Theodore L. Arena and 100,000 shares to Thomas J. Mulroney and to pay them cash bonuses over three years beginning in 2002 to cover the income taxes they incur from receipt of the grants. The Company intends to adopt the Stock Grant Plan and grant and issue the 280,000 shares in 2003. Upon issuance, the shares will have full voting power and participate in dividends, but only 1/6 of each officer's shares will vest immediately and the balance will vest ratably over the next five years, contingent on the officer's continued employment with the Company. The market value of the 280,000 shares on the date of grant will be taxable income to the officers and an income tax deduction to the Company in the year of grant and will be compensation expense recognized by the Company ratably over the vesting period.

The issuance of the grant shares will dilute the outstanding shares. On December 31, 2002, the Company had outstanding 3,147,087 shares.

Compensation Committee Interlocks and Insider Participation

The Company has no compensation committee. All executive officers are members of the board and participate in the board's deliberations concerning executive compensation.

Board Report on Executive Compensation

The major Company policy affecting past and current executive compensation is to run the Company for the benefit of its shareholders and not for the benefit of management. The board members own close to half of the

outstanding shares of the Company. Four out of five of the executive officers are substantial shareholders of the Company. Executive officers who are substantial shareholders have the same interest as the other shareholders in the long term performance of the Company. Their stock interest causes them to be directly rewarded or penalized by whether or not and the extent to which the Company pays dividends and maintains its growth, which should ultimately be reflected in the value of the Company's stock.

The compensation of the one executive officer who is not a substantial shareholder is based upon the judgment of the board of how well the officer is performing his duties and how well the Company is performing. In 2002, an independent majority of the board authorized the Stock Grant Plan described above to increase the stock ownership of two executive officers and retain their services. There is no specific relationship between Company performance and compensation for any executive officer, other than through stock options for two executive officers.
