BUCKEYE ANNOUNCES PARTIAL SHUTDOWN  
OF LUMBERTON, N.C. PLANT

MEMPHIS, TN April 3, 2003 - Buckeye Technologies Inc. (NYSE:BKI) today announced that it will discontinue producing cotton linter pulp at its Lumberton, North Carolina facility by mid-2003. The Company will continue to produce cosmetic cotton products at that location.

Buckeye Chairman, David B. Ferraro, stated, "While cotton linter pulp is a core Buckeye business, we can no longer economically justify operating a facility which can only produce products for paper applications. The cotton fiber paper industry has contracted by about one-third since the late 1990's. Buckeye will better meet customer needs by consolidating U.S. cotton linter pulp production at our larger Memphis, Tennessee facility which is capable of producing products for both chemical and paper applications.

This consolidation will enable us to improve our overall cotton linter pulp operating results by at least \$6 million annually on a going basis and reduce working capital needs by about \$10 million. The more efficient operating configuration will improve our results beginning in the second half of fiscal year 2004."

Mr. Ferraro further commented, "It is extremely unfortunate that business conditions are forcing us to terminate approximately 100 dedicated employees. The Company will incur one-time costs in the April-June quarter of approximately \$2 million for the partial closure, including related employee termination expenses. Additionally, we will include a non-cash asset impairment charge which relates primarily to this facility of about \$18 million after tax in our January-March financial results."

Buckeye has scheduled a conference call for 1:00 PM Central Time Friday, April 4, to further discuss the Lumberton plant partial shutdown and the Company's recent organizational changes. All interested parties are invited to dial in at 888-855-5428 (U.S.) or 719-457-2665 (International).

Buckeye, a leading manufacturer and marketer of specialty cellulose and absorbent products, is headquartered in Memphis, Tennessee, USA. The Company currently operates facilities in the United States, Germany, Canada, Ireland and Brazil. Its products are sold worldwide to makers of consumer and industrial goods.

Certain matters discussed in this press release may constitute forward-looking statements within the meaning of the federal securities laws that involve risks and uncertainties, including but not limited to economic, competitive, governmental, and technological factors affecting the Company's operations, financing, markets, products, services and prices, and other factors.
