(1) Business & Basis of Presentation

Business

We broadcast our music, sports, entertainment, comedy, talk, news, traffic and weather channels, as well as infotainment services in the United States on a subscription fee basis through our two proprietary satellite radio systems. Subscribers can also receive music and other channels, plus new features such as SiriusXM On Demand and MySXM, over the Internet, including through applications for mobile devices. We have agreements with every major automaker (“OEMs”) to offer satellite radios as factory or dealer-installed equipment in their vehicles from which we acquire a majority of our subscribers. We also acquire subscribers through marketing campaigns to owners of factory-installed satellite radios that are not currently subscribing to our services. Additionally, we distribute our satellite radios through retail locations nationwide and through our website. Satellite radio services are also offered to customers of certain daily rental car companies.

Our primary source of revenue is subscription fees, with most of our customers subscribing on an annual, semi-annual, quarterly or monthly basis. We offer discounts for prepaid and long-term subscription plans, as well as discounts for multiple subscriptions. We also derive revenue from other subscription-related fees, the sale of advertising on select non-music channels, the direct sale of satellite radios, components and accessories, and other ancillary services, such as our Internet radio, Backseat TV, data, traffic and weather services.

In certain cases, automakers and dealers include a subscription to our radio services in the sale or lease price of new or previously owned vehicles. The length of these trial subscriptions varies but is typically three to twelve months. We receive subscription payments for these trials from certain automakers. We also reimburse various automakers for certain costs associated with satellite radios installed in their vehicles.

Liberty Media Corporation beneficially owned as of June 30, 2013, directly and indirectly, over 50% of the outstanding shares of our common stock. Liberty Media owns interests in a broad range of media, communications and entertainment businesses, including its subsidiaries, Atlanta National League Baseball Club, Inc. and TruePosition, Inc., its interests in Charter Communications, Live Nation Entertainment, Barnes & Noble, and minority equity investments in Time Warner Inc. and Viacom.

Principles of Consolidation

The accompanying consolidated financial statements of Sirius XM Radio Inc. and its subsidiaries have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”), the instructions to Form 10-Q and Article 10 of Regulation S-X of the United States Securities and Exchange Commission (“SEC”) for interim financial reporting. Certain information and footnote disclosures normally included in the financial statements presented in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations.

Basis of Presentation

Certain numbers in our prior period consolidated financial statements have been reclassified to conform to our current period presentation. All significant intercompany transactions have been eliminated in consolidation. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of our unaudited consolidated financial statements as of June 30, 2013 and for the three and six months ended June 30, 2013 and 2012 have been made.

Interim results are not necessarily indicative of the results that may be expected for a full year. This Quarterly Report on Form 10-Q should be read together with our Annual Report on Form 10-K for the year ended December 31, 2012, which was filed with the SEC on February 6, 2013.

We have evaluated events subsequent to the balance sheet date and prior to the filing of this Quarterly Report on Form 10-Q for the three and six months ended June 30, 2013 and have determined that no events have occurred that would require adjustment to our unaudited consolidated financial statements. For a discussion of subsequent events refer to Note 17.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

(UNAUDITED)

(Dollar amounts in thousands, unless otherwise stated)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and footnotes. Estimates, by their nature, are based on judgment and available information. Actual results could differ materially from those estimates.

Significant estimates inherent in the preparation of the accompanying unaudited consolidated financial statements include asset impairment, depreciable lives of our satellites, share-based payment expense and income taxes.

(2) Summary of Significant Accounting Policies

Fair Value of Financial Instruments

The fair value for publicly traded instruments is determined using quoted market prices while the fair value for non-publicly traded instruments is based upon estimates from a market maker and brokerage firm. As of June 30, 2013 and December 31, 2012, the carrying value of our debt was \$3,249,777 and \$2,435,220, respectively, and the fair value approximated \$3,803,074 and \$3,055,076, respectively. The carrying value of our investment in Sirius XM Canada was \$31,852 and \$37,983 as of June 30, 2013 and December 31, 2012, respectively; the fair value approximated \$310,300 and \$290,900 as of June 30, 2013 and December 31, 2012, respectively.

Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive loss of \$161 was primarily comprised of the cumulative foreign currency translation adjustments related to our interest in Sirius XM Canada. During the three months ended June 30, 2013, we recorded a foreign currency translation adjustment loss of \$109, net of a tax benefit of \$57; during the six months ended June 30, 2013, we recorded a foreign currency translation adjustment loss of \$281, net of a tax benefit of \$140.

Recent Accounting Pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, to require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. An entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about those amounts. This standard was effective for interim and annual periods beginning after December 15, 2012 and is to be applied on a prospective basis. We adopted ASU 2013-02 and will disclose significant amounts reclassified out of accumulated other comprehensive income as such transactions arise. ASU 2013-02 affects financial statement presentation only and has no impact on our results of unaudited consolidated financial statements.

(3) Earnings per Share

We utilize the two-class method in calculating basic net income per common share, as our Series B Preferred Stock was considered to be participating securities through January 18, 2013. On January 18, 2013, Liberty Media converted its remaining 6,250,100 outstanding shares of the Series B Preferred Stock into 1,293,509,076 shares of common stock. Basic net income per common share is calculated by dividing income available to common stockholders by the weighted average common shares outstanding during each reporting period. Diluted net income per common share adjusts the weighted average number of common shares outstanding for the potential dilution that could occur if common stock equivalents (convertible debt, preferred stock, warrants, stock options and restricted stock units) were exercised or converted into common stock, calculated using the treasury stock method.

Common stock equivalents of approximately 355,918,000 and 427,160,000 for the three months ended June 30, 2013 and 2012, respectively, and 352,795,000 and 428,045,000 for the six months ended June 30, 2013 and 2012, respectively, were excluded from the calculation of diluted net income per common share as the effect would have been anti-dilutive.

(4) Accounts Receivable, net

Accounts receivable, net, are stated at amounts due from customers net of an allowance for doubtful accounts. Our allowance for doubtful accounts is based upon our assessment of various factors. We consider historical experience, the age of the receivable balances, current economic conditions and other factors that may affect the counterparty's ability to pay. Bad debt is included in Customer service and billing expense in our unaudited consolidated statements of comprehensive income.

Accounts receivable, net, consists of the following:

(5) Inventory, net

Inventory consists of finished goods, refurbished goods, chip sets and other raw material components used in manufacturing radios. Inventory is stated at the lower of cost or market. We record an estimated allowance for inventory that is considered slow moving or obsolete or whose carrying value is in excess of net realizable value. The provision related to products purchased for resale in our direct to consumer distribution channel and components held for resale by us is reported as a component of Cost of equipment in our unaudited consolidated statements of comprehensive income. The provision related to inventory consumed in our OEM and retail distribution channel is reported as a component of Subscriber acquisition costs in our unaudited consolidated statements of comprehensive income.

Inventory, net, consists of the following:

Total inventory, net	\$ 16,688	\$ 25,337

(6) Goodwill

Goodwill represents the excess of the purchase price over the estimated fair value of net tangible and identifiable intangible assets acquired in business combinations. Our annual impairment assessment is performed as of the fourth quarter of each year, and an assessment is performed at other times if an event occurs or circumstances change that would more likely than not reduce the fair value of the asset below its carrying value. If the carrying value of goodwill exceeds its fair value, an impairment loss is recognized.

As of June 30, 2013, there were no indicators of impairment, and no impairment loss was recorded for goodwill during the three and six months ended June 30, 2013 and 2012. During the three and six months ended June 30, 2012, with the release of the deferred income tax valuation allowance, we reduced goodwill by \$19,183 related to the subsequent exercise of certain stock options and vesting of certain restricted stock units that were recorded at fair value in connection with the July 2008 merger between our wholly owned subsidiary, Vernon Merger Corporation, and XM Satellite Radio Holdings Inc. ("the Merger"). As of June 30, 2013, the cumulative balance of goodwill impairments recorded since the Merger was \$4,766,190, which was recognized during the year ended December 31, 2008.

Indefinite Life Intangible Assets

We have identified our FCC licenses and the XM trademark as indefinite life intangible assets after considering the expected use of the assets, the regulatory and economic environment within which they are used and the effects of obsolescence on their use.

We hold FCC licenses to operate our satellite digital audio radio service and provide ancillary services. The following table outlines the years in which each of our licenses expires:

FCC satellite licenses	Expiration year
SIRIUS FM-1	2017
SIRIUS FM-2	2017
SIRIUS FM-3	2017
SIRIUS FM-5	2017
SIRIUS FM-6 ⁽¹⁾	
XM-1	2014
XM-2	2014
XM-3	2021
XM-4	2014
XM-5	2018

(1) We hold an FCC license for our FM-6 satellite, which will expire eight years from when this satellite is launched and placed into operation.

Prior to expiration, we are required to apply for a renewal of our FCC licenses. The renewal and extension of our licenses is reasonably certain at minimal cost, which is expensed as incurred. Each of the FCC licenses authorizes us

to use the broadcast spectrum, which is a renewable, reusable resource that does not deplete or exhaust over time.

In connection with the Merger, \$250,000 of the purchase price was allocated to the XM trademark. As of June 30, 2013, there were no legal, regulatory or contractual limitations associated with the XM trademark.

Our annual impairment assessment of our indefinite intangible assets is performed as of the fourth quarter of each year. An assessment is performed at other times if an event occurs or circumstances change that would more likely than not reduce the fair value of the asset below its carrying value. If the carrying value of the intangible assets exceeds its fair value, an

impairment loss is recognized. As of June 30, 2013, there were no indicators of impairment, and no impairment loss was recorded for intangible assets with indefinite lives during the three and six months ended June 30, 2013 and 2012.

Definite Life Intangible Assets

Subscriber relationships are amortized on an accelerated basis over 9 years, which reflects the estimated pattern in which the economic benefits will be consumed. Other definite life intangible assets include certain licensing agreements, which are amortized over a weighted average useful life of 9.1 years on a straight-line basis.

Amortization expense for all definite life intangible assets was \$12,345 and \$13,651 for the three months ended June 30, 2013 and 2012, respectively, and \$24,936 and \$27,577 for the six months ended June 30, 2013 and 2012, respectively. Expected amortization expense for the remaining period in 2013, each of the fiscal years 2014 through 2017 and for periods thereafter is as follows:

Year ending December 31,	Amount
2013	\$22,391
2014	38,877

Thereafter	11,863
Total definite life intangible assets, net	\$160,820

(8)Interest Costs

We capitalized a portion of the interest on funds borrowed as part of the cost of constructing our satellites and related launch vehicle. We are currently capitalizing the interest associated with our FM-6 satellite and related launch vehicle and will continue to do so until its launch. We also incur interest costs on our debt instruments and on our satellite incentive agreements. The following is a summary of our interest costs:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2013	2012	2013	2012
Interest costs charged to expense	\$49,728	\$72,770	\$95,902	\$149,742

Liberty Media

In February and March 2009, we entered into several transactions to borrow up to \$530,000 from Liberty Media Corporation and its affiliates. All of these loans were repaid in 2009.

As part of the transactions with Liberty Media, in February 2009, we entered into an investment agreement (the “Investment Agreement”) with Liberty Radio, LLC, an indirect wholly-owned subsidiary of Liberty Media. Pursuant to the Investment Agreement, we issued to Liberty Radio, LLC 12,500,000 shares of our Convertible Perpetual Preferred Stock, Series B-1 (the “Series B Preferred Stock”) with a liquidation preference of \$0.001 per share in partial consideration for the loan investments. The Series B Preferred Stock was convertible into approximately 40% of our outstanding shares of common stock (after giving effect to such conversion).

In September 2012, Liberty Radio, LLC converted 6,249,900 shares of the Series B Preferred Stock into 1,293,467,684 shares of our common stock. In January 2013, the Federal Communications Commission granted Liberty Media approval to acquire de jure control of us, and Liberty Radio, LLC converted its remaining Series B Preferred Stock into

* The investment balance includes equity method goodwill and intangible assets of \$26,888 and \$27,615 as of June 30, 2013 and December 31, 2012, respectively.

We hold a non-interest bearing note issued by Sirius XM Canada Holdings Inc. We also hold an investment in CAD \$4,000 face value of 8% convertible unsecured subordinated debentures issued by Sirius XM Canada Holdings, Inc., for which the embedded conversion feature is bifurcated from the host contract. The host contract is accounted for at fair value as an available-for-sale security with changes in fair value recorded to Accumulated other comprehensive income (loss), net of tax. The embedded conversion feature is accounted for at fair value as a derivative with changes in fair value recorded in earnings as Interest and investment income (loss).

Our interest in Sirius XM Canada is accounted for under the equity method. The excess of the cost of our ownership interest in the equity of Sirius XM Canada over our share of the net assets is recognized as goodwill and intangible assets and is included in the carrying amount of our investment. Equity method goodwill is not amortized. We periodically evaluate this investment to determine if there has been an other than temporary decline below carrying value. Equity method intangible assets are amortized over their respective useful lives, which is recorded in Interest and investment income (loss).

In April 2013, Sirius XM Canada declared a quarterly cash dividend of CAD \$0.0825 per Class A share and CAD \$0.0275 per Class B share for shareholders of record on April 22, 2013. We received \$3,730 of these quarterly dividends which was recorded as a reduction of our investment balance in Sirius XM Canada for the three months ended June 30, 2013.

Related party liabilities attributable to Sirius XM Canada consisted of the following:

Deferred revenue for NHL licensing fees	\$1,170	\$—
Carrying value of deferred revenue for NHL games	20,354	21,742
Total	\$21,524	\$21,742

In 2005, XM entered into agreements to provide XM Canada, now Sirius XM Canada, with the right to offer XM satellite radio service in Canada. The agreements have an initial ten-year term, and Sirius XM Canada has the unilateral option to extend the agreements for an additional five-year term. We receive a 15% royalty for all subscriber fees earned by XM Canada each month for its basic service and an activation fee for each gross activation of an XM Canada subscriber on XM's system. Sirius XM Canada is obligated to pay us a total of \$70,300 for the rights to broadcast and market National Hockey League ("NHL") games for a ten-year term. We recognize these payments on a gross basis as a principal obligor pursuant to the provisions of ASC 605, Revenue Recognition. The estimated fair

value of deferred revenue from XM Canada as of the Merger date was approximately \$34,000, which is amortized on a straight-line basis through 2020, the end of the expected term of the agreements.

8.75% Senior Notes due 2015

In March 2010, we issued \$800,000 aggregate principal amount of 8.75% Senior Notes due 2015 (the “8.75% Notes”). Interest is payable semi-annually in arrears on April 1 and October 1 of each year at a rate of 8.75% per annum. The 8.75% Notes mature on April 1, 2015. The 8.75% Notes were issued for \$786,000, resulting in an aggregate original issuance discount of \$14,000. Substantially all of our domestic wholly-owned subsidiaries guarantee our obligations under the 8.75% Notes on a senior unsecured basis.

During the three months ended June 30, 2013, we purchased \$29,013 of the 8.75% Notes. The aggregate purchase price for these 8.75% Notes was \$32,977, including accrued interest. We recognized an aggregate loss on the extinguishment of these 8.75% Notes of \$3,755, consisting primarily of unamortized discount, deferred financing fees and repayment premium, to Loss on extinguishment of debt and credit facilities, net, during the three months ended June 30, 2013. For a discussion of subsequent events refer to Note 17.

7% Exchangeable Senior Subordinated Notes due 2014

In August 2008, we issued \$550,000 aggregate principal amount of 7% Exchangeable Senior Subordinated Notes due 2014 (the “Exchangeable Notes”). The Exchangeable Notes are senior subordinated obligations and rank junior in right of payment to our existing and future senior debt and equally in right of payment with our existing and future senior subordinated debt. Substantially all of our domestic wholly-owned subsidiaries guarantee our obligations under the Exchangeable Notes on a senior subordinated basis.

The Exchangeable Notes are exchangeable at any time at the option of the holder into shares of our common stock at an exchange rate of 543.1372 shares of common stock per \$1,000 principal amount of Exchangeable Notes, which is equivalent

to an approximate exchange price of \$1.841 per share of common stock. Interest is payable semi-annually in arrears on June 1 and December 1 of each year at a rate of 7% per annum. The Exchangeable Notes mature on December 1, 2014.

In connection with the fundamental change that occurred on January 17, 2013 and the subsequent offer that was made to each holder of the Exchangeable Notes on February 1, 2013, \$47,630 in principal amount of the Exchangeable Notes were converted resulting in the issuance of 27,687,850 shares of common stock. As a result of this conversion, we retired \$47,630 in principal amount of the Exchangeable Notes and recognized a proportionate share of unamortized discount and deferred financing fees of \$2,533 to Additional paid-in capital. No loss was recognized as a result of the exchange.

During the three and six months ended June 30, 2013 and 2012, the common stock reserved for conversion in connection with the Exchangeable Notes were considered to be anti-dilutive in our calculation of diluted net income per share.

7.625% Senior Notes due 2018

In October 2010, we issued \$700,000 aggregate principal amount of 7.625% Senior Notes due 2018 (the “7.625% Notes”). Interest is payable semi-annually in arrears on May 1 and November 1 of each year at a rate of 7.625% per annum. The 7.625% Notes mature on November 1, 2018. Substantially all of our domestic wholly-owned subsidiaries guarantee our obligations under the 7.625% Notes on a senior unsecured basis.

During the three months ended June 30, 2013, we purchased \$100,650 of the 7.625% Notes. The aggregate purchase price for these 7.625% Notes was \$112,569, including accrued interest. We recognized an aggregate loss on the extinguishment of these 7.625% Notes of \$12,622, consisting primarily of unamortized discount, deferred financing fees and repayment premium, to Loss on extinguishment of debt and credit facilities, net, during the three months ended June 30, 2013. For a discussion of subsequent events refer to Note 17.

5.25% Senior Notes due 2022

In August 2012, we issued \$400,000 aggregate principal amount of 5.25% Senior Notes due 2022 (the “5.25% Notes”). Interest is payable semi-annually in arrears on February 15 and August 15 of each year at a rate of 5.25% per annum. The 5.25% Notes mature on August 15, 2022. Substantially all of our domestic wholly-owned subsidiaries guarantee our obligations under the 5.25% Notes on a senior unsecured basis.

4.25% Senior Notes due 2020

In May 2013, we issued \$500,000 aggregate principal amount of 4.25% Senior Notes due 2020 (the “4.25% Notes”). Interest is payable semi-annually in arrears on May 15 and November 15 of each year at a rate of 4.25% per annum. The 4.25% Notes mature on May 15, 2020. Substantially all of our domestic wholly-owned subsidiaries guarantee our obligations under the 4.25% Notes on a senior unsecured basis. The 4.25% Notes were issued for \$494,375, resulting in an aggregate original issuance discount of \$5,625.

4.625% Senior Notes due 2023

In May 2013, we issued \$500,000 aggregate principal amount of 4.625% Senior Notes due 2023 (the “4.625% Notes”). Interest is payable semi-annually in arrears on May 15 and November 15 of each year at a rate of 4.625% per annum. The 4.625% Notes mature on May 15, 2023. Substantially all of our domestic wholly-owned subsidiaries guarantee our obligations under the 4.625% Notes on a senior unsecured basis. The 4.625% Notes were issued for \$494,375,

resulting in an aggregate original issuance discount of \$5,625.

Senior Secured Revolving Credit Facility

In December 2012, we entered into a five-year Senior Secured Revolving Credit Facility (the "Credit Facility") with a syndicate of financial institutions for \$1,250,000. Our obligations under the Credit Facility are guaranteed by certain of our material domestic subsidiaries and are secured by a lien on substantially all of our assets and the assets of our material domestic subsidiaries. Borrowings under the Credit Facility are used for working capital and other general corporate purposes, including dividends, financing of acquisitions and share repurchases. Interest on borrowings is payable on a quarterly basis and accrues at a rate based on LIBOR plus an applicable rate. We are also required to pay a variable fee on the average daily unused portion of the Credit Facility which is currently 0.30% per annum and is payable on a quarterly basis. The Credit Facility contains customary covenants, including a maintenance covenant, and events of default. The Credit Facility contains incremental facilities which would allow us to increase or obtain new commitments and/or incur new term loans, subject to the terms of the Credit Facility.

During the three months ended June 30, 2013, we borrowed and repaid \$150,000 under the Credit Facility. As of June 30, 2013, we had no outstanding balance and the full \$1,250,000 was available for future borrowing under the Credit Facility.

Retired Debt

9.75% Senior Secured Notes due 2015

During the three and six months ended June 30, 2012, we purchased \$38,316 and \$70,888, respectively, of our then outstanding 9.75% Senior Secured Notes (the "9.75% Notes") for an aggregate purchase price, including interest, of \$41,875 and \$77,440, respectively. We recognized an aggregate loss on the extinguishment of these 9.75% Notes of \$4,054 and \$7,832 during the three and six months ended June 30, 2012, respectively, consisting primarily of unamortized discount, deferred financing fees and repayment premium, to Loss on extinguishment of debt and credit facilities, net. The remainder of the 9.75% Notes was repurchased in the second half of 2012.

13% Senior Notes due 2013

During the three and six months ended June 30, 2012, we purchased \$62,729 and \$96,983, respectively, of our then outstanding 13% Senior Notes due 2013 (the "13% Notes") for an aggregate purchase price, including interest, of \$73,616 and \$113,226, respectively. We recognized an aggregate loss on the extinguishment of these 13% Notes of \$11,596 and \$17,789 during the three and six months ended June 30, 2012, respectively, consisting primarily of unamortized discount, deferred financing fees and repayment premium, to Loss on extinguishment of debt and credit facilities, net. The remainder of the 13% Notes was repurchased in the second half of 2012.

Covenants and Restrictions

Our debt, other than our 4.25% Notes and 4.625% Notes, generally requires compliance with certain covenants that restrict our ability to, among other things, (i) incur additional indebtedness unless our consolidated leverage would be no greater than 5.0 times consolidated operating cash flow after the incurrence of the indebtedness, (ii) incur liens, (iii) pay dividends or make certain other restricted payments, investments or acquisitions, (iv) enter into certain transactions with affiliates, (v) merge or consolidate with another person, (vi) sell, assign, lease or otherwise dispose of all or substantially all of our assets, and (vii) make voluntary prepayments of certain debt, in each case subject to exceptions. In addition, under the Credit Facility, we also must comply with a maintenance covenant that we not exceed a total leverage ratio, calculated as total consolidated debt to consolidated operating cash flow, of 5.0 to 1.0.

Our 4.25% Notes and our 4.625% Notes are subject to covenants that, among other things, (i) limit our ability and the ability of our subsidiaries to (x) create certain liens; and (y) enter into sale/leaseback transactions; and (ii) limit our ability to merge or consolidate. The indentures relating to the 4.25% Notes and the 4.625% Notes restrict our non-guarantor subsidiaries' ability to create, assume, incur or guarantee additional indebtedness without such non-guarantor subsidiary guaranteeing each such series of Notes on a pari passu basis.

Under our debt agreements, the following generally constitute an event of default: (i) a default in the payment of interest; (ii) a default in the payment of principal; (iii) failure to comply with covenants; (iv) failure to pay other indebtedness after final maturity or acceleration of other indebtedness exceeding a specified amount; (v) certain events of bankruptcy; (vi) a

judgment for payment of money exceeding a specified aggregate amount; and (vii) avoidance of subsidiary guarantees, subject to grace periods where applicable. If an event of default occurs and is continuing, our debt could become immediately due and payable.

At June 30, 2013 and December 31, 2012, we were in compliance with our debt covenants.

(13) Stockholders' Equity

Common Stock, par value \$0.001 per share

We were authorized to issue up to 9,000,000,000 shares of common stock as of June 30, 2013 and December 31, 2012. There were 6,257,721,498 and 5,262,440,085 shares of common stock issued and 6,247,221,498 and 5,262,440,085 shares outstanding as of June 30, 2013 and December 31, 2012, respectively.

As of June 30, 2013, approximately 558,569,000 shares of common stock were reserved for issuance in connection with outstanding convertible debt, warrants, incentive stock awards and common stock to be granted to third parties upon satisfaction of performance targets.

Stock Repurchase Program

In December 2012, our board of directors approved a \$2,000,000 common stock repurchase program. Shares of common stock may be purchased from time to time on the open market or in privately negotiated transactions.

During the six months ended June 30, 2013, we repurchased 352,568,635 shares of our common stock for \$1,143,789, including fees and commissions, on the open market and in privately negotiated transactions. Liberty Media did not participate in the common stock repurchases.

Common stock repurchases are retired upon settlement. As of June 30, 2013, \$35,173 of common stock repurchases had not settled and were recorded as Treasury stock within our unaudited consolidated balance sheets and unaudited consolidated statements of stockholders' equity. As of June 30, 2013, \$856,211 remained available for purchase under our stock repurchase program. For a discussion of subsequent events refer to Note 17.

Share Lending Arrangements

To facilitate the offering of the Exchangeable Notes, we entered into share lending agreements with Morgan Stanley Capital Services Inc. and UBS AG London Branch in July 2008. All loaned shares were returned to us as of October 2011, and the share lending agreements were terminated.

We recorded interest expense related to the amortization of the costs associated with the share lending arrangement and other issuance costs for our Exchangeable Notes of \$3,097 and \$3,060, respectively, for the three months ended June 30, 2013 and 2012, and \$6,306 and \$6,042, respectively, for the six months ended June 30, 2013 and 2012, respectively. As of June 30, 2013, the unamortized balance of the debt issuance costs was \$19,140, with \$18,721 recorded in Deferred financing fees, net, and \$419 recorded in Long-term related party assets. As of December 31, 2012, the unamortized balance of the debt issuance costs was \$27,652, with \$27,099 recorded in Deferred financing fees, net, and \$553 recorded in Long-term related party assets. These costs will continue to be amortized until the debt is terminated. A portion of the unamortized debt issuance costs was recognized during the six months ended June 30, 2013 in connection with the conversion of the Exchangeable Notes.

Preferred Stock, par value \$0.001 per share

We were authorized to issue up to 50,000,000 shares of undesignated preferred stock as of June 30, 2013 and December 31, 2012, respectively.

There were 6,250,100 shares of Series B Preferred Stock issued and outstanding as of December 31, 2012 held by Liberty Media. In January 2013, Liberty Media converted its remaining shares of the Series B Preferred Stock into 1,293,509,076 shares of our common stock.

Warrants

We have issued warrants to purchase shares of our common stock in connection with distribution, programming and satellite purchase agreements. As of June 30, 2013 and December 31, 2012, approximately 18,455,000 warrants to acquire an equal number of shares of common stock were outstanding and fully vested. Warrants were included in our calculation of diluted net income per common share as the effect was dilutive for the three and six months ended June 30, 2013. They were excluded from the calculation for the three and six months ended June 30, 2012 as the effect would have been anti-dilutive. The warrants expire at various times through 2015. At June 30, 2013 and December 31, 2012, the weighted average exercise price of outstanding warrants was \$2.55 per share. We did not incur warrant related expenses during the three and six months ended June 30, 2013 and 2012.

(14) Benefit Plans

We recognized share-based payment expense of \$15,494 and \$13,918 for the three months ended June 30, 2013 and 2012, respectively, and \$30,012 and \$28,869 for the six months ended June 30, 2013 and 2012, respectively.

2009 Long-Term Stock Incentive Plan

In May 2009, our stockholders approved the Sirius XM Radio Inc. 2009 Long-Term Stock Incentive Plan (the “2009 Plan”). Employees, consultants and members of our board of directors are eligible to receive awards under the 2009 Plan. The 2009 Plan provides for the grant of stock options, restricted stock, restricted stock units and other stock-based awards that the compensation committee of our board of directors may deem appropriate. Vesting and other terms of stock-based awards are set forth in the agreements with the individuals receiving the awards.

Stock-based awards granted under the 2009 Plan are generally subject to a vesting requirement. Stock-based awards generally expire ten years from the date of grant. Each restricted stock unit entitles the holder to receive one share of common stock upon vesting. As of June 30, 2013, approximately 133,184,000 shares of common stock were available for future grants under the 2009 Plan.

Other Plans

We maintain four other share-based benefit plans — the XM 2007 Stock Incentive Plan, the Amended and Restated Sirius Satellite Radio 2003 Long-Term Stock Incentive Plan, the XM 1998 Shares Award Plan and the XM Talent Option Plan. No further awards may be made under these plans.

The following table summarizes the weighted-average assumptions used to compute the fair value of options granted to employees and members of our board of directors:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2013	2012	2013	2012
Risk-free interest rate	0.7%	0.8%	0.7%	0.8%
Expected life of options — years	4.71	5.12	4.71	5.17
Expected stock price volatility	48%	53%	48%	54%
Expected dividend yield	0%	0%	0%	0%

There were no options granted to third parties during the three and six months ended June 30, 2013 and 2012. We do not intend to pay regular dividends on our common stock. Accordingly, the dividend yield percentage used in the

Black-Scholes-Merton option value is zero for all periods.

Exercisable as of June 30, 2013	81,882	\$ 2.70	4.65	\$95,545

(1) The weighted-average exercise price for options outstanding as of December 28, 2012 were adjusted in 2012 to reflect the reduction to the exercise price related to the December 28, 2012 special cash dividend.

The weighted average grant date fair value of options granted during the six months ended June 30, 2013 and 2012 was \$1.34 and \$0.94, respectively. The total intrinsic value of stock options exercised during the six months ended June 30, 2013 and 2012 was \$33,660 and \$107,560, respectively.

We recognized share-based payment expense associated with stock options of \$15,283 and \$13,047 for the three months ended June 30, 2013 and 2012, respectively, and \$29,801 and \$26,690 for the six months ended June 30, 2013 and 2012, respectively.

The following table summarizes the restricted stock unit activity under our share-based payment plans for the six months ended June 30, 2013 (shares in thousands):

	Shares	Grant Date Fair Value
Nonvested as of December 31, 2012	429	\$3.25
Granted	985	\$3.30
Vested restricted stock units	(192)	\$3.27
Forfeited	—	\$—
Nonvested as of June 30, 2013	1,222	\$3.29

The weighted average grant date fair value of restricted stock units granted during the six months ended June 30, 2013 was \$3.30. The total intrinsic value of restricted stock units that vested during the six months ended June 30, 2013 was \$605. There were no restricted stock units granted to third parties during the three and six months ended June 30, 2013 and 2012.

We recognized share-based payment expense associated with restricted stock units of \$211 during the three and six months ended June 30, 2013.

Total unrecognized compensation costs related to unvested share-based payment awards for stock options, restricted stock units and shares granted to employees and members of our board of directors at June 30, 2013 and December 31, 2012, net of estimated forfeitures, were \$116,474 and \$129,010, respectively. The total unrecognized compensation costs at June 30, 2013 are expected to be recognized over a weighted-average period of 2.5 years.

401(k) Savings Plan

We sponsor the Sirius XM Radio 401(k) Savings Plan (the “Sirius XM Plan”) for eligible employees. The Sirius XM Plan allows eligible employees to voluntarily contribute from 1% to 50% of their pre-tax eligible earnings, subject to certain defined limits. We match 50% of an employee’s voluntary contributions, up to 6% of an employee’s pre-tax salary, in cash which is used to purchase shares of our common stock on the open market. During the three and six months ended June 30, 2013, we contributed approximately \$968 and \$2,387, respectively, to the Sirius XM Plan in fulfillment of our matching obligation. During the three and six months ended June 30, 2012, employer matching contributions were made in the form of shares of our common stock. Employer matching contributions under the Sirius XM Plan vest at a rate of 33.33% for each year of employment and are fully vested after three years of employment for all current and future contributions. Share-based payment expense resulting from the matching contribution to the Sirius XM Plan for the three and six months ended June 30, 2012 was \$871 and \$2,179, respectively.

(15) Commitments and Contingencies

The following table summarizes our expected contractual cash commitments as of June 30, 2013:

(1) The table does not include our reserve for uncertain tax positions, which at June 30, 2013 totaled \$1,460, as the specific timing of any cash payments cannot be projected with reasonable certainty.

Long-term debt obligations. Long-term debt obligations include principal payments on outstanding debt and capital lease obligations.

Cash interest payments. Cash interest payments include interest due on outstanding debt and capital lease payments through maturity.

Satellite and transmission. We have entered into agreements with third parties to operate and maintain the off-site satellite telemetry, tracking and control facilities and certain components of our terrestrial repeater networks. We have also entered into various agreements to design and construct a satellite and related launch vehicle for use in our systems.

Programming and content. We have entered into various programming agreements. Under the terms of these agreements, our obligations include fixed payments, advertising commitments and revenue sharing arrangements. Our future revenue sharing costs are dependent upon many factors and are difficult to estimate; therefore, they are not included in our minimum contractual cash commitments.

Marketing and distribution. We have entered into various marketing, sponsorship and distribution agreements to promote our brand and are obligated to make payments to sponsors, retailers, automakers and radio manufacturers under these agreements. Certain programming and content agreements also require us to purchase advertising on properties owned or controlled by the licensors. We also reimburse automakers for certain engineering and development costs associated with the incorporation of satellite radios into vehicles they manufacture. In addition, in the event certain new products are not shipped by a distributor to its customers within 90 days of the distributor's receipt of goods, we have agreed to purchase and take title to the product.

Satellite incentive payments. Boeing Satellite Systems International, Inc., the manufacturer of four of XM's in-orbit satellites, may be entitled to future in-orbit performance payments with respect to two of XM's satellites. As of June 30, 2013, we have accrued \$27,890 related to contingent in-orbit performance payments for our XM-3 and XM-4 satellites based on expected operating performance over their fifteen-year design life. Boeing may also be entitled to an additional \$10,000 if our XM-4 satellite continues to operate above baseline specifications during the five years beyond the satellite's fifteen-year design life.

Space Systems/Loral, a manufacturer of our in-orbit satellites, may be entitled to future in-orbit performance payments. As of June 30, 2013, we have accrued \$7,563 and \$22,241 related to contingent performance payments for our FM-5 and XM-5 satellites, respectively, based on their expected operating performance over their fifteen-year design life.

Operating lease obligations. We have entered into both cancelable and non-cancelable operating leases for office space, equipment and terrestrial repeaters. These leases provide for minimum lease payments, additional operating expense charges, leasehold improvements and rent escalations that have initial terms ranging from one to fifteen years, and certain leases that have options to renew. The effect of the rent holidays and rent concessions are recognized on a straight-line basis over the lease term, including reasonably assured renewal periods.

Other. We have entered into various agreements with third parties for general operating purposes. In addition to the minimum contractual cash commitments described above, we have entered into agreements with other variable cost arrangements. These future costs are dependent upon many factors, including subscriber growth, and are difficult to anticipate; however, these costs may be substantial. We may enter into additional programming, distribution, marketing and other agreements that contain similar variable cost provisions.

We do not have any other significant off-balance sheet financing arrangements that are reasonably likely to have a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

Legal Proceedings

In the ordinary course of business, we are a defendant or party to various claims and lawsuits, including those discussed below. These claims are at various stages of arbitration or adjudication.

State Consumer Investigations. A Multistate Working Group of 32 State Attorneys General, led by the Attorney General of the State of Ohio, is investigating certain of our consumer practices. The investigation focuses on practices relating to the cancellation of subscriptions; automatic renewal of subscriptions; charging, billing, collecting, and refunding or crediting of payments from consumers; and soliciting customers.

A separate investigation into our consumer practices is being conducted by the Attorneys General of the State of Florida and the State of New York. We are cooperating with these investigations and believe our consumer practices comply with all applicable federal and state laws and regulations.

Other Matters. In the ordinary course of business, we are a defendant in various other lawsuits and arbitration proceedings, including derivative actions; actions filed by subscribers, both on behalf of themselves and on a class action basis; former employees; parties to contracts or leases; and owners of patents, trademarks, copyrights or other intellectual property. None of these other actions are, in our opinion, likely to have a material adverse effect on our business, financial condition or results of operations.

(16) Income Taxes

Income tax (expense) benefit for the three months ended June 30, 2013 and 2012 was \$(76,659) and \$2,996,549, respectively, and \$(155,699) and \$2,993,747, for the six months ended June 30, 2013 and 2012, respectively.

We estimate our annual effective tax rate for the year ending December 31, 2013 will be 38.2%. For the three months ended June 30, 2012, we did not have any federal income tax expense as it was offset by a corresponding release of the valuation allowances related to our deferred tax assets. The income tax benefit of \$2,993,747 recognized in the six months ended June 30, 2012 relates to the reversal of substantially all of our deferred income tax valuation allowance. As of June 30,

Special Note Regarding Forward-Looking Statements

The following cautionary statements identify important factors that could cause our actual results to differ materially from those projected in forward-looking statements made in this Quarterly Report on Form 10-Q and in other reports and documents published by us from time to time. Any statements about our beliefs, plans, objectives, expectations, assumptions, future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "intend," "plan," "projection" and "outlook." Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this Quarterly Report on Form 10-Q and in other reports and documents published by us from time to time, particularly the risk factors described under "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2012 and "Management's Discussion and Analysis of Financial Condition and Results of Operations" herein and in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2012.

Among the significant factors that could cause our actual results to differ materially from those expressed in the forward-looking statements are:

- we face substantial competition and that competition is likely to increase over time;
- our business depends in large part upon automakers;
- general economic conditions can affect our business;
- failure of our satellites would significantly damage our business;
- our ability to attract and retain subscribers at a profitable level in the future is uncertain;
- royalties for music rights have increased and may continue to do so in the future;

our business could be adversely affected if we fail to attract and retain qualified executive officers;
the unfavorable outcome of pending or future litigation could have a material adverse effect;
rapid technological and industry changes could adversely impact our services;
failure of third parties to perform could adversely affect our business;
changes in consumer protection laws and their enforcement could damage our business;
failure to comply with FCC requirements could damage our business;
other existing or future government laws and regulations could harm our business;
interruption or failure of our information technology and communication systems could negatively impact our results and brand;

- if we fail to protect the security of personal information about our customers, we could be subject to costly government enforcement actions or private litigation and our reputation could suffer;
- we may from time to time modify our business plan, and these changes could adversely affect us and our financial condition;
- our indebtedness could adversely affect our operations and could limit our ability to react to changes in the economy or our industry;
- our broadcast studios, terrestrial repeater networks, satellite uplink facilities or other ground facilities could be damaged by natural catastrophes or terrorist activities;
- our principal stockholder has significant influence over our management and over actions requiring stockholder approval and its interests may differ from the interests of other holders of common stock;
- we are a "controlled company" within the meaning of the NASDAQ listing rules and, as a result, qualify for, and rely on, exemptions from certain corporate governance requirements; and
- our business may be impaired by third-party intellectual property rights.

Because the risk factors referred to above could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any of these forward-looking statements. In addition, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which the statement is made, to reflect the occurrence of unanticipated events or otherwise. New factors emerge from time to time, and it is not possible for us to predict which will arise or to assess with any precision the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Executive Summary

We broadcast our music, sports, entertainment, comedy, talk, news, traffic and weather channels, as well as infotainment services in the United States on a subscription fee basis through our two proprietary satellite radio systems. Subscribers can also receive our music and other channels, plus new features such as SiriusXM On Demand and MySXM, over the Internet, including through applications for mobile devices.

We have agreements with every major automaker ("OEMs") to offer satellite radios as factory or dealer-installed equipment in their vehicles from which we acquire a majority of our subscribers. We also acquire subscribers through marketing campaigns to owners of factory-installed satellite radios that are not currently subscribing to our services. Additionally, we distribute our satellite radios through retail locations nationwide and through our website. Satellite radio services are also offered to customers of certain daily rental car companies.

As of June 30, 2013, we had 25,068,988 subscribers of which 20,297,736 were self-pay subscribers and 4,771,252 were paid promotional subscribers. Our subscriber totals include subscribers under our regular pricing plans; discounted pricing plans; subscribers that have prepaid, including payments either made or due from automakers for subscriptions included in the sale or lease price of a vehicle; certain radios activated for daily rental fleet programs; subscribers to our Internet services who do not also have satellite radio subscriptions; and certain subscribers to our weather, traffic, data and Backseat TV services.

Our primary source of revenue is subscription fees, with most of our customers subscribing on an annual, semi-annual, quarterly or monthly basis. We offer discounts for prepaid and long-term subscription plans, as well as discounts for multiple subscriptions. We also derive revenue from other subscription-related fees, the sale of advertising on select non-music channels, the direct sale of satellite radios, components and accessories, and other ancillary services, such as our Internet radio, Backseat TV, data, traffic and weather services.

In certain cases, automakers and dealers include a subscription to our radio services in the sale or lease price of new vehicles or previously owned vehicles. The length of these trial subscriptions varies but is typically three to twelve months. We receive subscription payments for these trials from certain automakers. We also reimburse various automakers for certain costs associated with satellite radios installed in their vehicles.

Liberty Media Corporation beneficially owned as of June 30, 2013, directly and indirectly, over 50% of the outstanding shares of our common stock. Liberty Media owns interests in a broad range of media, communications and entertainment businesses, including its subsidiaries, Atlanta National League Baseball Club, Inc. and TruePosition, Inc., its

Table of Contents

interests in Charter Communications, Live Nation Entertainment, Barnes & Noble, and minority equity investments in Time Warner Inc. and Viacom.

We also have an equity interest in Sirius XM Canada which offers satellite radio services in Canada. Subscribers to the Sirius XM Canada service are not included in our subscriber count.

We have been discussing with our board of directors the desirability of undertaking a corporate reorganization that would create a new holding company structure pursuant to which: Sirius XM Radio Inc., its business operations and its subsidiaries, would operate as a wholly owned subsidiary of the new holding company. However, no action has yet been taken by our board of directors to approve any reorganization. As a consequence, the timing of any such reorganization, if it were to occur, is uncertain. The business operations of our company - Sirius XM Radio Inc. - and its subsidiaries would not change as a result of the reorganization. As part of such a reorganization, we would form a new parent company, called Sirius XM Holdings Inc. Outstanding shares of our common stock would be automatically converted, on a share for share basis, into identical shares of common stock of Sirius XM Holdings Inc. The certificate of incorporation, the bylaws, the executive officers and the board of directors of the new holding company would be the same as those of our company in effect immediately prior to the reorganization. The common stock of the new holding company would continue to be listed on the NASDAQ Global Select Market.

Total Revenue

Subscriber Revenue includes subscription, activation and other fees.

For the three months ended June 30, 2013 and 2012, subscriber revenue was \$814,718 and \$730,285, respectively, an increase of 12%, or \$84,433. For the six months ended June 30, 2013 and 2012, subscriber revenue was \$1,598,060 and \$1,430,526, respectively, an increase of 12%, or \$167,534. These increases were primarily attributable to a 9% increase in the daily weighted average number of subscribers, the impact of the increase in certain of our subscription rates beginning in January 2012 as more subscribers migrate to the higher rate, and an increase in subscriptions to premium services, including data services and Internet streaming. These increases were partially offset by subscription discounts offered through customer acquisition and retention programs, and an increasing number of lifetime subscription plans that have reached full revenue recognition.

We expect subscriber revenues to grow based on the growth of our subscriber base, promotions, subscription plan mix, and identification of additional revenue streams from subscribers.

Advertising Revenue includes the sale of advertising on certain non-music channels, net of agency fees. Agency fees are based on a contractual percentage of the gross advertising revenue.

For the three months ended June 30, 2013 and 2012, advertising revenue was \$21,757 and \$20,786, respectively, an increase of 5%, or \$971. For the six months ended June 30, 2013 and 2012, advertising revenue was \$41,968 and \$39,456, respectively, an increase of 6%, or \$2,512. These increases were primarily due to a greater number of spots sold and broadcast, and increases in the rates charged per spot.

We expect our advertising revenue to grow as advertisers are attracted to our national platform and growing subscriber base.

Equipment Revenue includes revenue and royalties from the sale of satellite radios, components and accessories.

For the three months ended June 30, 2013 and 2012, equipment revenue was \$18,443 and \$16,417, respectively, an increase of 12%, or \$2,026. For the six months ended June 30, 2013 and 2012, equipment revenue was \$36,599 and \$33,370, respectively, an increase of 10%, or \$3,229. These increases were driven by higher OEM production and mix of royalty eligible vehicles and, to a lesser extent, higher sales of aftermarket radios to distributors.

We expect equipment revenue to fluctuate based on OEM production for which we receive royalty payments for our technology and, to a lesser extent, on the volume and mix of equipment sales in our aftermarket and direct to consumer business.

Other Revenue includes amounts earned from subscribers for the U.S. Music Royalty Fee, revenue from our Canadian affiliate and ancillary revenues.

For the three months ended June 30, 2013 and 2012, other revenue was \$85,192 and \$70,055, respectively, an increase of 22%, or \$15,137. For the six months ended June 30, 2013 and 2012, other revenue was \$160,881 and \$138,912, respectively, an increase of 16%, or \$21,969. These increases were driven by the U.S. Music Royalty Fee as our subscriber base increased and subscribers on the 12.5% rate increased. The increase was also partially driven by higher royalty revenue from Sirius XM Canada, as their self-pay subscriber base grew.

We expect other revenue to increase as our subscriber base drives higher U.S. Music Royalty Fees as more subscribers migrate to the higher rate and as the performance of our Canadian affiliate improves.

Operating Expenses

Revenue Share and Royalties include distribution and content provider revenue share, advertising revenue share, and broadcast and web streaming royalties. Advertising revenue share is recognized in revenue share and royalties in the period in which the advertising is broadcast.

For the three months ended June 30, 2013 and 2012, revenue share and royalties were \$155,859 and \$135,426, respectively, an increase of 15%, or \$20,433, and increased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, revenue share and royalties were \$304,390 and \$267,537, respectively, an increase of 14%, or \$36,853, and increased as a percentage of total revenue. These increases were primarily attributable to greater revenues subject to royalty and/or revenue sharing arrangements, a 12.5% increase in the statutory royalty rate for the performance of sound recordings, and increased OEM revenue share, partially offset by an increase in the benefit to earnings from the amortization of deferred credits on executory contracts initially recognized in purchase price accounting associated with the Merger.

We expect our revenue share and royalty costs to increase as our revenues grow. Under the terms of the Copyright Royalty Board's decision, we paid royalties of 9.0% and 8.0% of gross revenues, subject to certain exclusions, for the three and six months ended June 30, 2013, and 2012, respectively, and will pay 9.5% in 2014. The deferred credits on executory contracts initially recognized in purchase price accounting associated with the Merger are expected to provide increasing benefits to revenue share and royalties through the expiration of the acquired executory contracts in 2013.

Programming and Content includes costs to acquire, create, promote and produce content. We have entered into various agreements with third parties for music and non-music programming that require us to pay license fees and other amounts.

For the three months ended June 30, 2013 and 2012, programming and content expenses were \$70,381 and \$65,169, respectively, an increase of 8%, or \$5,212, but decreased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, programming and content expenses were \$144,991 and \$135,265, respectively, an increase of 7%, or \$9,726, but decreased as a percentage of total revenue. These increases were primarily due to reductions in the benefit to earnings from purchase price accounting adjustments associated with the Merger attributable to the amortization of the deferred credit on acquired programming executory contracts and increased personnel costs.

Excluding the impact from purchase accounting adjustments, based on our current programming offerings, we expect our programming and content expenses to decrease as agreements expire and are renewed or replaced on cost effective terms, offset by increases as we offer additional programming. The impact of purchase price accounting adjustments associated with the Merger attributable to the amortization of the deferred credit on acquired programming executory contracts will continue to decline, in absolute amount and as a percentage of reported programming and content costs, through 2015. Substantially all of the deferred credits on executory contracts will be amortized by the end of 2013.

Customer Service and Billing includes costs associated with the operation and management of third party customer service centers, and our subscriber management systems as well as billing and collection costs, transaction fees and bad debt expense.

For the three months ended June 30, 2013 and 2012, customer service and billing expenses were \$80,290 and \$68,679, respectively, an increase of 17%, or \$11,611, and increased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, customer service and billing expenses were \$160,684 and \$134,866, respectively, an increase of 19%, or \$25,818, and increased as a percentage of total revenue. These increases were primarily due to efforts to improve our customer service experience, resulting in higher spend on customer service

agents, staffing and training, higher subscriber volume driving increased subscriber contacts, increased bad debt expense and higher technology costs.

We expect our customer service and billing expenses to increase as our subscriber base grows and as we continue to improve the customer service experience for our subscribers.

Table of Contents

Satellite and Transmission consists of costs associated with the operation and maintenance of our satellites; satellite telemetry, tracking and control systems; terrestrial repeater networks; satellite uplink facilities; broadcast studios; and delivery of our Internet streaming service.

For the three months ended June 30, 2013 and 2012, satellite and transmission expenses were \$19,493 and \$17,551, respectively, an increase of 11%, or \$1,942, but remained flat as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, satellite and transmission expenses were \$39,188 and \$35,661, respectively, an increase of 10%, or \$3,527, but remained flat as a percentage of total revenue. These increases were primarily due to increased costs associated with our streaming operations and in-orbit insurance.

We expect overall satellite and transmission expenses to increase as we enhance our Internet-based service and add functionality, expand our terrestrial repeater network, launch our FM-6 satellite and incur in-orbit insurance costs.

Cost of Equipment includes costs from the sale of satellite radios, components and accessories and provisions for inventory allowance attributable to products purchased for resale in our direct to consumer distribution channels.

For the three months ended June 30, 2013 and 2012, cost of equipment was \$5,442 and \$7,150, respectively, a decrease of 24%, or \$1,708, and decreased as a percentage of equipment revenue. For the six months ended June 30, 2013 and 2012, cost of equipment was \$12,469 and \$12,956, respectively, a decrease of 4%, or \$487, and decreased as a percentage of equipment revenue. These decreases were primarily due to lower average cost per product sold and lower inventory reserves, partially offset by higher direct to consumer volume for the current periods compared to the prior year periods.

We expect cost of equipment to vary with changes in sales, supply chain management and inventory valuations.

Subscriber Acquisition Costs include hardware subsidies paid to radio manufacturers, distributors and automakers, including subsidies paid to automakers who include a satellite radio and subscription to our service in the sale or lease price of a new vehicle; subsidies paid for chip sets and certain other components used in manufacturing radios; device royalties for certain radios and chip sets; commissions paid to automakers as incentives to purchase, install and activate satellite radios; product warranty obligations; freight; and provisions for inventory allowances attributable to inventory consumed in our OEM and retail distribution channels. The majority of subscriber acquisition costs are incurred and expensed in advance of, or concurrent with, acquiring a subscriber. Subscriber acquisition costs do not include advertising, marketing, loyalty payments to distributors and dealers of satellite radios or revenue share payments to automakers and retailers of satellite radios.

For the three months ended June 30, 2013 and 2012, subscriber acquisition costs were \$129,992 and \$119,475, respectively, an increase of 9%, or \$10,517, but decreased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, subscriber acquisition costs were \$246,103 and \$235,596, respectively, an increase of 4%, or \$10,507, but decreased as a percentage of total revenue. These increases were primarily a result of increased OEM installations occurring in advance of acquiring the subscriber and lower benefit to earnings from the amortization of the deferred credit for acquired executory contracts recognized in purchase price accounting associated with the Merger.

We expect total subscriber acquisition costs to fluctuate with increases or decreases in OEM installations and changes in our gross subscriber additions. Changes in contractual OEM subsidy rates and the cost of subsidized radio components will also impact total subscriber acquisition costs. The impact of purchase price accounting adjustments associated with the Merger attributable to the amortization of the deferred credit for acquired executory contracts will conclude at the expiration of the acquired contracts in 2013. We intend to continue to offer subsidies, commissions and other incentives to acquire subscribers.

Table of Contents

Sales and Marketing includes costs for advertising, media and production, including promotional events and sponsorships; cooperative marketing; customer acquisition and retention, and personnel. Cooperative marketing costs include fixed and variable payments to reimburse retailers and automakers for the cost of advertising and other product awareness activities performed on our behalf. Customer acquisition and retention costs include expenses related to direct mail, outbound telemarketing and email communications.

For the three months ended June 30, 2013 and 2012, sales and marketing expenses were \$68,058 and \$57,422, respectively, an increase of 19%, or \$10,636, and increased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, sales and marketing expenses were \$133,956 and \$115,781, respectively, an increase of 16%, or \$18,175, but remained flat as a percentage of total revenue. These increases were primarily due to additional subscriber communications and retention programs associated with a greater number of subscribers and promotional trials.

We anticipate that sales and marketing expenses will increase as changes in certain contractual marketing agreements become effective and as we expand programs to retain our existing subscribers, win-back former subscribers, and attract new subscribers. The impact of purchase price accounting adjustments associated with the Merger attributable to the amortization of the deferred credit on acquired sales and marketing contracts will conclude at the expiration of the acquired contracts in 2013.

Engineering, Design and Development includes costs to develop chip sets and new products and services, research and development for broadcast information systems and costs associated with the incorporation of our radios into vehicles manufactured by automakers.

For the three months ended June 30, 2013 and 2012, engineering, design and development expenses were \$15,052 and \$6,272, respectively, an increase of 140%, or \$8,780, and increased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, engineering, design and development expenses were \$29,894 and \$18,962, respectively, an increase of 58%, or \$10,932, and increased as a percentage of total revenue. These increases were driven primarily by the reversal of certain non-recurring engineering charges that were recorded in the second quarter of 2012, as well as higher product development costs and costs related to enhanced subscriber features and functionality for our service.

We expect engineering, design and development expenses to increase in future periods as we develop products.

General and Administrative includes executive management, rent and occupancy, finance, legal, human resources, information technology, and insurance costs.

For the three months ended June 30, 2013 and 2012, general and administrative expenses were \$60,392 and \$65,664, respectively, a decrease of 8%, or \$5,272, and decreased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, general and administrative expenses were \$116,732 and \$125,550, respectively, a decrease of 7%, or \$8,818, and decreased as a percentage of total revenue. These decreases were primarily due to lower legal, personnel costs and share-based payment expense.

We expect our general and administrative expenses to increase in future periods as a result of, among other things, enhanced information technology and personnel costs to support the growth of our business.

Depreciation and Amortization represents the recognition in earnings of the acquisition cost of assets used in operations, including our satellite constellations, property, equipment and intangible assets, over their estimated service lives.

For the three months ended June 30, 2013 and 2012, depreciation and amortization expense was \$67,415 and \$66,793, respectively, an increase of 1%, or \$622, but decreased as a percentage of total revenue. For the six months ended June 30, 2013 and 2012, depreciation and amortization expense was \$134,433 and \$132,910, respectively, an increase of 1%, or \$1,523, but decreased as a percentage of total revenue. These increases were driven by additional assets placed in-service.

We expect depreciation expense to decrease in future periods due to reduced amortization associated with the stepped-up basis in assets acquired in the Merger (including intangible assets, satellites, property and equipment) through the end of their estimated service lives, principally through 2017. These decreases will be partially offset by increased depreciation resulting from the launch of our FM-6 satellite.

Table of Contents

Other Income (Expense)

Interest Expense, Net of Amounts Capitalized, includes interest on outstanding debt, reduced by interest capitalized in connection with the construction of our satellites and related launch vehicles.

For the three months ended June 30, 2013 and 2012, interest expense was \$49,728 and \$72,770, respectively, a decrease of 32%, or \$23,042. For the six months ended June 30, 2013 and 2012, interest expense was \$95,902 and \$149,742, respectively, a decrease of 36%, or \$53,840. These decreases were primarily due to a lower average outstanding debt balance combined with lower interest rates.

We expect interest expense to increase in future periods as we issue new debt to maintain our target leverage ratio and as total debt outstanding increases.

Loss on Extinguishment of Debt and Credit Facilities, Net, includes losses incurred as a result of the conversion and retirement of certain debt.

For the three months ended June 30, 2013 and 2012, loss on extinguishment of debt and credit facilities, net, was \$16,377 and \$15,650, respectively, an increase of \$727. For the six months ended June 30, 2013 and 2012, loss on extinguishment of debt and credit facilities, net, was \$16,377 and \$25,621, respectively, a decrease of \$9,244. During the three months ended June 30, 2013, a \$16,377 loss was recorded on the partial repayment of our 7.625% Senior Notes due 2018 and our 8.75% Senior Notes due 2015. During the three months ended June 30, 2012, a \$15,650 loss was recorded on the partial repayment of our 13% Senior Notes due 2013 and our 9.75% Senior Secured Notes due 2015. During the six months ended June 30, 2012, a \$25,621 loss was recorded on the partial repayment of our 13% Senior Notes due 2013 and our 9.75% Senior Secured Notes due 2015.

Interest and Investment Income (Loss) includes realized gains and losses, interest income, and our share of the income (loss) of Sirius XM Canada.

For the three months ended June 30, 2013, interest and investment income was \$294 compared to a loss of \$(1,728) in the 2012 period. For the six months ended June 30, 2013, interest and investment income was \$1,932 compared to a loss of \$(2,871) in the 2012 period. The interest and investment income for 2013 was primarily due to our share of Sirius XM Canada's net income, partially offset by the amortization expense related to our equity method intangible assets. The interest and investment loss for 2012 was primarily the result of our share of Sirius XM Canada's net loss in that period.

Income Taxes

Income Tax (Expense) Benefit includes the change in our deferred tax assets, foreign withholding taxes and current federal and state tax expenses.

For the three months ended June 30, 2013 income tax expense was \$(76,659) and for the three months ended June 30, 2012 income tax benefit was \$2,996,549. For the six months ended June 30, 2013 income tax expense was \$(155,699) and for the six months ended June 30, 2012 income tax benefit was \$2,993,747. We estimate that our annual effective tax rate for the year ending December 31, 2013 will be 38.2%. In 2012, we did not have any federal income tax expense as it was offset by a corresponding release of the valuation allowances related to deferred tax assets. Through 2012, the income tax provision includes a discrete benefit of approximately \$2,989,000 related to the reversal of substantially all of our deferred income tax valuation allowance and a discrete benefit of approximately \$9,000 related to changes in the effective tax rate on certain deferred taxes.

Subscribers. At June 30, 2013, we had 25,068,988 subscribers, an increase of 2,149,526 subscribers, or 9%, from the 22,919,462 subscribers as of June 30, 2012.

For the three months ended June 30, 2013 and 2012, net additions were 715,762 and 622,042, respectively, an increase of 15%, or 93,720. For the six months ended June 30, 2013 and 2012, net additions were 1,168,652 and 1,026,638, respectively, an increase of 14%, or 142,014. The increase in gross subscriber additions for the three month period of 174,484 was due to higher new vehicle shipments and light vehicle sales, higher new and used car vehicle conversions from unpaid promotional trials, and higher returning activation volumes. The increase in deactivated subscribers of 80,764 was due to an increase in paid promotional trial deactivations driven by the growth of paid trials and increased self-pay deactivations from our larger subscriber base. The year to date increase in gross subscriber additions of 522,705 was due to higher new vehicle shipments and light vehicle sales, higher new and used car vehicle conversions from unpaid promotional trials, and higher returning activation volumes. The increase in deactivated subscribers of 380,691 was due to an increase in paid promotional trial deactivations driven by the growth of paid trials and increased self-pay deactivations from our larger subscriber base.

Average Self-pay Monthly Churn is derived by dividing the monthly average of self-pay deactivations for a quarter by the average self-pay subscriber balance for a quarter. (See accompanying glossary on pages 40 through 47 for more details.)

For the three months ended June 30, 2013 and 2012, our average self-pay monthly churn rate was 1.7% and 1.9%, respectively. For the six months ended June 30, 2013 and 2012, our average self-pay monthly churn rate was 1.8% and 1.9%, respectively. Average self-pay monthly churn decreased due to a higher mix of existing subscribers migrating to paid trials on vehicle purchases rather than deactivating as a result of trading in or selling their previous vehicle.

Table of Contents

New Vehicle Consumer Conversion Rate is the percentage of owners and lessees of new vehicles that receive our service and convert to become self-paying subscribers after an initial promotional period. The metric excludes rental and fleet vehicles. (See accompanying glossary on pages 40 through 47 for more details).

For the three months ended June 30, 2013 and 2012, the new vehicle consumer conversion rate was 45%. For the six months ended June 30, 2013 and 2012, the new vehicle consumer conversion rate was 44% and 45%, respectively. The decrease in the new vehicle consumer conversion rate for the six month period was primarily due to the mix of sales among OEMs.

Adjusted Results of Operations

In this section, we present certain financial performance measures that are not calculated and presented in accordance with generally accepted accounting principles in the United States of America ("Non-GAAP"). These Non-GAAP financial measures include: average monthly revenue per subscriber, or ARPU; customer service and billing expenses, per average subscriber; subscriber acquisition cost, or SAC, per gross subscriber addition; free cash flow; and adjusted EBITDA. These measures exclude the impact of certain purchase price accounting adjustments. We use these Non-GAAP financial measures to manage our business, to set operational goals and as a basis for determining performance-based compensation for our employees.

The purchase price accounting adjustments include the elimination of the earnings benefit of deferred revenue associated with our investment in Sirius XM Canada, the recognition of subscriber revenues not recognized in purchase price accounting and the elimination of the earnings benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and certain programming providers.

We believe the exclusion of share-based payment expense from functional operating expenses is useful given the significant variation in expense that can result from changes in the fair value as determined by the Black-Scholes-Merton model, which varies based on assumptions used for the expected life, expected stock price volatility and risk-free interest rates, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our operating costs.

Free cash flow is a metric that our management and board of directors use to evaluate the cash generated by our operations, net of capital expenditures and other investment activity. In a capital intensive business, with significant historical and current investments in satellites, we look at our operating cash flow, net of these investing cash outflows, to determine cash available for future subscriber acquisition and capital expenditures, to repurchase or retire debt, to acquire other companies and to evaluate our ability to return capital to stockholders. We believe free cash flow is an indicator of the long-term financial stability of our business. Free cash flow, which is reconciled to "Net cash provided by operating activities", is a non-GAAP financial measure. This measure can be calculated by deducting amounts under the captions "Additions to property and equipment" and deducting or adding Restricted and other investment activity from "Net cash provided by operating activities" from the consolidated statements of cash flows. Free cash flow should be used in conjunction with other GAAP financial performance measures and may not be comparable to free cash flow measures presented by other companies. Free cash flow should be viewed as a supplemental measure rather than an alternative measure of cash flows from operating activities, as determined in accordance with GAAP. Free cash flow is limited and does not represent remaining cash flows available for discretionary expenditures due to the fact that the measure does not deduct the payments required for debt maturities. We believe free cash flow provides useful supplemental information to investors regarding our current and projected cash flow, along with other GAAP measures (such as cash flows from operating and investing activities), to determine our financial condition, and to compare our operating performance to other communications, entertainment and media companies.

We believe these Non-GAAP financial measures provide useful information to investors regarding our financial condition and results of operations. We believe investors find these Non-GAAP financial performance measures useful in evaluating our core trends because it provides a direct view of our underlying contractual costs. We believe investors use our current and projected adjusted EBITDA to estimate our current or prospective enterprise value and to make investment decisions. By providing these Non-GAAP financial measures, together with the reconciliations to the most directly comparable GAAP measure, we believe we are enhancing investors' understanding of our business and our results of operations.

These Non-GAAP financial measures should be viewed in addition to, and not as an alternative for or superior to, our reported results prepared in accordance with GAAP. Please refer to the glossary (pages 40 through 47) for a further discussion of such Non-GAAP financial measures and reconciliations to the most directly comparable GAAP measure.

Table of Contents

The following table contains our key operating metrics based on our adjusted results of operations for the three and six months ended June 30, 2013 and 2012, respectively:

	Unaudited Adjusted			
	For the Three Months Ended		For the Six Months Ended June	
(in thousands, except for per subscriber amounts)	June 30,		30,	
	2013	2012	2013	2012
ARPU	\$12.28	\$11.97	\$12.16	\$11.87
SAC, per gross subscriber addition	\$52	\$54	\$51	\$57
Customer service and billing expenses, per average subscriber	\$1.08	\$1.01	\$1.09	\$1.00
Free cash flow	\$236,560	\$230,018	\$379,041	\$244,779
Adjusted EBITDA	\$282,979	\$237,096	\$544,850	\$445,257

Note: See pages 40 through 47 for a reconciliation to GAAP in the accompanying glossary.

ARPU is derived from total earned subscriber revenue, net advertising revenue and other subscription-related revenue, net of purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. (For a reconciliation to GAAP see the accompanying glossary on pages 40 through 47 for more details.)

For the three months ended June 30, 2013 and 2012, ARPU was \$12.28 and \$11.97, respectively. For the six months ended June 30, 2013 and 2012, ARPU was \$12.16 and \$11.87, respectively. The increase was driven primarily by the contribution of the U.S. Music Royalty Fee, the impact of the increase in certain of our subscription rates beginning in January 2012, and an increase in subscriptions to premium services, partially offset by subscription discounts offered through customer acquisition and retention programs, and lifetime subscription plans that have reached full revenue recognition.

SAC, Per Gross Subscriber Addition, is derived from subscriber acquisition costs and margins from the sale of radios, components and accessories, excluding share-based payment expense and purchase price accounting adjustments, divided by the number of gross subscriber additions for the period. (For a reconciliation to GAAP see the accompanying glossary on pages 40 through 47 for more details.)

For the three months ended June 30, 2013 and 2012, SAC, per gross subscriber addition, was \$52 and \$54, respectively. For the six months ended June 30, 2013 and 2012, SAC, per gross subscriber addition, was \$51 and \$57, respectively. These decreases were primarily due to lower contractual subsidies on OEM installations and activations, higher margin on equipment sales and the benefit of returning activations with limited costs, partially offset by higher OEM installation volume and higher migrations of self-pay subscribers to paid trials.

Customer Service and Billing Expenses, Per Average Subscriber, is derived from total customer service and billing expenses, excluding share-based payment expense, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. (For a reconciliation to GAAP see the accompanying glossary on pages 40 through 47 for more details.)

For the three months ended June 30, 2013 and 2012, customer service and billing expenses, per average subscriber, were \$1.08 and \$1.01, respectively. For the six months ended June 30, 2013 and 2012, customer service and billing expenses, per average subscriber, were \$1.09 and \$1.00, respectively. These increases were primarily due to higher spend to increase agent staffing and training, increased bad debt expense and higher technology costs.

Table of Contents

Free Cash Flow includes the net cash provided by operations, additions to property and equipment, and other investing activity. (For a reconciliation to GAAP see the accompanying glossary on pages 40 through 47 for more details.)

For the three months ended June 30, 2013 and 2012, free cash flow was \$236,560 and \$230,018, respectively, an increase of \$6,542. For the six months ended June 30, 2013 and 2012, free cash flow was \$379,041 and \$244,779, respectively, an increase of \$134,262. The increases were primarily driven by higher net cash provided by operating activities resulting from improved operating performance, lower interest payments, and higher collections from subscribers and distributors, partially offset by the purchase of certain long lead parts.

Adjusted EBITDA. EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax benefit (expense) and depreciation and amortization. Adjusted EBITDA removes the impact of other income and expense, losses on extinguishment of debt as well as certain other charges, such as goodwill impairment; certain purchase price accounting adjustments and share-based payment expense. (For a reconciliation to GAAP see the accompanying glossary on pages 40 through 47 for more details):

For the three months ended June 30, 2013 and 2012, adjusted EBITDA was \$282,979 and \$237,096, respectively, an increase of 19%, or \$45,883. For the six months ended June 30, 2013 and 2012, adjusted EBITDA was \$544,850 and \$445,257, respectively, an increase of 22%, or \$99,593. The increase was primarily due to increases in adjusted revenues, partially offset by increases in expenses included in adjusted EBITDA. The increase in adjusted revenues was primarily due to the increase in our subscriber base and the increase in certain of our subscription rates. The increase in expenses was primarily driven by higher revenue share and royalties expenses associated with growth in revenues, higher customer service and billing costs related to increased staffing and higher subscriber volume, and higher sales and marketing costs related to subscriber communications, retention marketing, and SAC.

Liquidity and Capital Resources

Cash Flows for the Six Months Ended June 30, 2013 Compared with the Six Months Ended June 30, 2012

As of June 30, 2013 and December 31, 2012, we had \$651,769 and \$520,945, respectively, of cash and cash equivalents. The following table presents a summary of our cash flow activity for the periods set forth below:

	For the Six Months Ended June 30,		2013 vs. 2012
	2013	2012	
Net cash provided by operating activities	\$442,021	\$293,723	\$148,298
Net cash used in investing activities	(62,980)	(48,944)	(14,036)
Net cash used in financing activities	(248,217)	(150,439)	(97,778)
Net increase in cash and cash equivalents	130,824	94,340	36,484
Cash and cash equivalents at beginning of period	520,945	773,990	(253,045)
Cash and cash equivalents at end of period	\$651,769	\$868,330	\$(216,561)

Cash Flows Provided by Operating Activities

Cash flows provided by operating activities increased by \$148,298 to \$442,021 for the six months ended June 30, 2013 from \$293,723 for the six months ended June 30, 2012.

Our largest source of cash provided by operating activities is generated by subscription and subscription-related revenues. We also generate cash from the sale of advertising on certain non-music channels and, to a lesser extent, the

sale of satellite radios, components and accessories. Our primary uses of cash from operating activities include revenue share and royalty payments to distribution and content providers, and payments to radio manufacturers, distributors and automakers. In addition, uses of cash from operating activities include payments to various vendors to service, maintain and acquire subscribers, general corporate expenditures, and compensation and related costs.

Table of Contents

Cash provided by operating activities consists of net income adjusted for certain non-cash items, including depreciation, amortization, loss on extinguishment of debt, share-based payment expense, deferred income taxes and other non-cash purchase price adjustments.

The adjustments for the non-cash items increased from the six months ended June 30, 2012 to the six months ended June 30, 2013 due to the \$2,989,000 discrete non-cash deferred tax allowance reversal during the second quarter of 2012.

Cash Flows Used in Investing Activities

Cash flows used in investing activities consists of capital expenditures for property and equipment. We will continue to incur significant costs to improve our terrestrial repeater network and broadcast and administrative infrastructure. In addition, we will continue to incur capital expenditures associated with our FM-6 satellite. The launch of our FM-6 satellite has been delayed from its scheduled August 2013 launch as a result of a recent third party launch failure. The FM-6 launch has not yet been rescheduled. We have recently ordered certain long lead parts and may take other actions that would accelerate the build of a replacement satellite if FM-6 is not able to commence in orbit operations following its launch.

The increase in cash flows used in investing activities was primarily due to an increase in spending to enhance our terrestrial repeater network and the purchase of certain long lead parts.

Cash Flows Used in Financing Activities

Cash flows used in financing activities consists of the issuance and repayment of long-term debt and related party debt, cash proceeds from exercise of stock options and the purchase of common stock under our share repurchase program. Proceeds from long-term debt, related party debt and equity issuances have been used to fund our operations, construct and launch new satellites and invest in other infrastructure improvements.

Cash flows used in financing activities in 2013 were primarily due to the repurchase of approximately 342,068,635 shares of common stock under our share repurchase program for \$1,108,616, and the open market purchases of \$29,013 of our 8.75% Senior Notes due 2015 and \$100,650 of our 7.625% Senior Notes due 2018. In 2013, we issued \$500,000 aggregate principal amount of 4.25% Senior Notes due 2020 and \$500,000 aggregate principal amount of 4.625% Senior Notes due 2023. Cash flows used in financing activities during the six months ended June 30, 2012 were primarily driven by the partial repayment of \$96,983 of our 13% Senior Notes due 2013 and \$70,888 of our 9.75% Senior Secured Notes due 2015.

Future Liquidity and Capital Resource Requirements

We have entered into various agreements to design, construct and launch our satellites in the normal course of business. As disclosed in Note 15 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q, as of June 30, 2013, we expect to incur satellite and transmission related expenditures of approximately \$65,107 for the remainder of 2013 and \$28,699 in 2014, the majority of which is attributable to the construction and expected launch of our FM-6 satellite and related launch vehicle, and an additional \$42,028 thereafter.

Based upon our current business plans, we expect to fund operating expenses, capital expenditures, working capital requirements, interest payments, taxes and scheduled maturities of our debt with existing cash, cash flow from operations and borrowings under our Credit Facility. We believe that we have sufficient cash and cash equivalents as well as debt capacity to cover our estimated short-term and long-term funding needs, stock repurchases and strategic opportunities. For a discussion of our Credit Facility, refer to Note 12 to our unaudited consolidated financial

statements in Item 1 of this Quarterly Report on Form 10-Q.

Our ability to meet our debt and other obligations depends on our future operating performance and on economic, financial, competitive and other factors. We continually review our operations for opportunities to adjust the timing of expenditures to ensure that sufficient resources are maintained.

We regularly evaluate our business plans and strategy. These evaluations often result in changes to our business plans and strategy, some of which may be material and significantly change our cash requirements. These changes in our business plans or strategy may include: the acquisition of unique or compelling programming; the introduction of new features or services; significant new or enhanced distribution arrangements; investments in infrastructure, such as satellites, equipment or radio spectrum; and acquisitions, including acquisitions that are not directly related to our satellite radio business.

Table of Contents

Stock Repurchase Program

In December 2012, our board of directors approved a \$2,000,000 common stock repurchase program. Shares of common stock may be purchased from time to time on the open market or in privately negotiated transactions.

As of June 30, 2013, we had repurchased 352,568,635 shares of common stock for \$1,143,789, including fees and commissions, on the open market and in privately negotiated transactions. Liberty Media did not participate in the common stock repurchases.

Common stock repurchases are retired upon settlement. As of June 30, 2013, \$35,173 of common stock repurchases had not settled and were recorded as Treasury stock within our unaudited consolidated balance sheets and unaudited consolidated statements of stockholders' equity. As of June 30, 2013, \$856,211 remains available under our stock repurchase program. We expect to fund future repurchases through a combination of cash on hand, cash generated by operations and borrowings under our Credit Facility.

Debt Covenants

The indentures and the agreement governing our Credit Facility include restrictive covenants. As of June 30, 2013, we were in compliance with the indentures and the agreement governing our Credit Facility. For a discussion of our “Debt Covenants”, refer to Note 12 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q.

Off-Balance Sheet Arrangements

We do not have any significant off-balance sheet arrangements other than those disclosed in Note 15 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q that are reasonably likely to have a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

Contractual Cash Commitments

For a discussion of our “Contractual Cash Commitments,” refer to Note 15 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q.

Related Party Transactions

For a discussion of “Related Party Transactions,” refer to Note 10 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q.

Critical Accounting Policies and Estimates

For a discussion of our “Critical Accounting Policies and Estimates,” refer to “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2012. There have been no material changes to our critical accounting policies and estimates since December 31, 2012.

Glossary

Adjusted EBITDA - EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax expense and depreciation and amortization. We adjust EBITDA to remove the impact of other income and expense, loss on extinguishment of debt as well as certain other charges discussed below. This measure is one of the primary Non-GAAP financial measures on which we (i) evaluate the performance of our businesses, (ii) base our internal budgets and (iii) compensate management. Adjusted EBITDA is a Non-GAAP financial performance measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the Merger, (ii) depreciation and amortization and (iii) share-based payment expense. The purchase price accounting adjustments include: (i) the elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. We believe adjusted EBITDA is a useful measure of the underlying trend of our operating performance, which provides useful information about our business apart from the costs associated with our physical plant, capital structure and purchase price accounting. We believe investors find this Non-GAAP financial measure useful when analyzing our results and comparing our operating performance to the performance of other communications, entertainment and media companies. We believe investors use current and projected adjusted EBITDA to estimate our current and prospective enterprise value and to make investment decisions. Because we fund and build-out our satellite radio system through the periodic raising and expenditure of large amounts of capital, our results of operations reflect significant charges for depreciation expense. The exclusion of depreciation and amortization expense is useful given significant variation in depreciation and amortization expense that can result from the potential variations in estimated useful lives, all of which can vary widely across different industries or among companies within the same industry. We also believe the exclusion of share-based payment expense is useful given the significant variation in expense that can result from changes in the fair value as determined using the Black-Scholes-Merton model which varies based on assumptions used for the expected life, expected stock price volatility and risk-free interest rates.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to our statements of comprehensive income of certain expenses, including share-based payment expense and certain purchase price accounting for the Merger. We endeavor to compensate for the limitations of the Non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate our operating results after giving effect for these costs, should refer to net income as disclosed in our consolidated statements of comprehensive income. Since adjusted EBITDA is a Non-GAAP financial performance measure, our calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of net income to the adjusted EBITDA is calculated as follows (in thousands):

Adjusted Revenues and Operating Expenses - We define this Non-GAAP financial measure as our actual revenues and operating expenses adjusted to exclude the impact of certain purchase price accounting adjustments and share-based payment expense. We use this Non-GAAP financial measure to manage our business, to set operational goals and as a basis for determining performance-based compensation for our employees. The following tables reconcile our actual revenues and operating expenses to our adjusted revenues and operating expenses for the three and six months ended June 30, 2013 and 2012:

ARPU - is derived from total earned subscriber revenue, advertising revenue and other subscription-related revenue, net of purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. Other subscription-related revenue includes the U.S. Music Royalty Fee. Purchase price accounting adjustments include the recognition of deferred subscriber revenues not recognized in purchase price accounting associated with the Merger. ARPU is calculated as follows (in thousands, except for subscriber and per subscriber amounts):

Customer service and billing expenses, per average subscriber - is derived from total customer service and billing expenses, excluding share-based payment expense, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. We believe the exclusion of share-based payment expense in our calculation of customer service and billing expenses, per average subscriber, is useful given the significant variation in expense that can result from changes in the fair market value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our customer service and billing expenses. Customer service and billing expenses, per average subscriber, is calculated as follows (in thousands, except for subscriber and per subscriber amounts):

New vehicle consumer conversion rate - is defined as the percentage of owners and lessees of new vehicles that receive our service and convert to become self-paying subscribers after the initial promotion period. At the time satellite radio enabled vehicles are sold or leased, the owners or lessees generally receive trial subscriptions ranging from three to twelve months. Promotional periods generally include the period of trial service plus 30 days to handle the receipt and processing of payments. We measure conversion rate three months after the period in which the trial service ends. The metric excludes rental and fleet vehicles.

Subscriber acquisition cost, per gross subscriber addition - or SAC, per gross subscriber addition, is derived from subscriber acquisition costs and margins from the sale of radios and accessories, excluding purchase price accounting adjustments, divided by the number of gross subscriber additions for the period. Purchase price accounting adjustments associated with the Merger include the elimination of the benefit of amortization of deferred credits on executory contracts recognized at the Merger date attributable to an OEM. SAC, per gross subscriber addition, is calculated as follows (in thousands, except for subscriber and per subscriber amounts):

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISKS

As of June 30, 2013, we did not hold any free-standing derivatives. We hold investments in marketable securities consisting of money market funds and investments in debt and equity securities of other entities. We classify our investments in marketable securities as available-for-sale. These securities are consistent with the investment objectives contained within our investment policy. The basic objectives of our investment policy are the preservation of capital, maintaining sufficient liquidity to meet operating requirements and maximizing yield.

Our debt includes fixed rate instruments and the fair market value of our debt is sensitive to changes in interest rates. Under our current policies, we do not use interest rate derivative instruments to manage our exposure to interest rate fluctuations.

ITEM 4. CONTROLS AND PROCEDURES**Controls and Procedures**

As of June 30, 2013, an evaluation was performed under the supervision and with the participation of our management, including James E. Meyer, our Chief Executive Officer, and David J. Frear, our Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as that term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act). Based on that evaluation, our management, including our Chief Executive Officer and our Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2013.

There has been no change in our internal control over financial reporting (as that term is defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the quarter ended June 30, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

In the ordinary course of business, we are a defendant or party to various claims and lawsuits, including those discussed below. These claims are at various stages of arbitration or adjudication.

State Consumer Investigations. A Multistate Working Group of 32 State Attorneys General, led by the Attorney General of the State of Ohio, is investigating certain of our consumer practices. The investigation focuses on practices relating to the cancellation of subscriptions; automatic renewal of subscriptions; charging, billing, collecting, and refunding or crediting of payments from consumers; and soliciting customers.

A separate investigation into our consumer practices is being conducted by the Attorneys General of the State of Florida and the State of New York. We are cooperating with these investigations and believe our consumer practices comply with all applicable federal and state laws and regulations.

Other Matters. In the ordinary course of business, we are a defendant in various other lawsuits and arbitration proceedings, including derivative actions; actions filed by subscribers, both on behalf of themselves and on a class action basis; former employees; parties to contracts or leases; and owners of patents, trademarks, copyrights or other intellectual property.

Table of Contents

None of these other actions are, in our opinion, likely to have a material adverse effect on our business, financial condition or results of operations.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in response to Part I, Item 1A, of our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about our purchases of equity securities registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended, during the quarter ended June 30, 2013:
