Port Financial Corp.
Notes to Unaudited Consolidated Financial Statements

1) Basis of Presentation

The unaudited consolidated financial statements of Port Financial Corp. ("Port" or the "Company") include the accounts of the Company and its two wholly owned subsidiaries, Cambridgeport Bank (the "Bank") and Brighton Investment Corporation. Brighton Investment Corporation engages in the investment of securities. Cambridgeport Bank is a Massachusetts-chartered savings bank with its headquarters located in Cambridge, Massachusetts. The Bank has three wholly owned subsidiaries, Temple Investment Corporation, River Investment Corporation and Cambridgeport Insurance

Edgar Filing: PORT FINANCIAL CORP - Form 10-Q

Services, Inc. Temple Investment Corporation and River Investment Corporation both invest in securities. Cambridgeport Insurance Services, Inc. was established in April 2000 and intends to provide insurance. In addition, Cambridgeport Bank is the sole member of Temple Realty LLC, which owns the Company's administrative center.

The unaudited consolidated financial statements of Port presented herein, should be read in conjunction with the audited consolidated financial statements of Port Financial Corp. as of and for the year ended December 31, 2000, and the notes thereto. The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. In the opinion of management, the unaudited consolidated financial statements presented herein reflect all adjustments (consisting only of normal adjustments) necessary for a fair presentation. Interim results are not necessarily indicative of results to be expected for the entire year.

The Company believes that the disclosures are adequate to make the information presented not misleading. However, results for the periods presented are not necessarily indicative of the results to be expected for the entire 2001 fiscal year.

2) Commitments and Contingencies

At March 31, 2001, the Company had outstanding commitments to originate loans amounting to approximately \$9.8 million, and unadvanced funds on construction loans and lines of credit amounting to approximately \$2.9 million and \$166.2 million, respectively. The Company had also entered into forward sales agreements related to its residential loan commitments intended for sale in the amount of \$9.1 million.

8

3) Earnings Per Share

Basic earnings per share represents income available to holders of common stock divided by the weighted-average number of common shares outstanding during the period. In calculating basic earnings per share, the number of shares of common stock outstanding is reduced by the number of shares held by Port's Employee Stock Ownership Plan (the "ESOP") and its 2000 Recognition and Retention Plan (the "RRP") that have not been allocated or are not committed for release to participants' individual accounts. Diluted earnings per share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed conversion. Potential common shares that may be issued by the Company relate solely to outstanding stock options and unearned RRP shares and are determined using the treasury stock method.

Earnings per share is not presented for the three month period ended March 31, 2000 because the earnings per share calculation for the period prior to April 11, 2000 (the date of conversion to a stock company) is not meaningful. Prior to April 11, 2000, the Company was a mutual holding

Edgar Filing: PORT FINANCIAL CORP - Form 10-Q

company and no stock was outstanding.

4) Book Value Per Share

Book value per share was \$20.91 as of March 31, 2001 and \$20.43 as of December 31, 2000. In calculating book value per share, the number of shares of common stock issued and outstanding is reduced by unearned RRP shares and treasury stock. For the purpose of calculating book value per share, there were 7,135,105 and 7,442,818 shares of common stock as of March 31, 2001 and December 31, 2000 respectively.

5) Quincy Branch

On February 23, 2001, the Bank sold approximately \$16.1 million of deposits that were related to its branch located in the Roche Bros. Supermarket in Quincy, Massachusetts to South Shore Savings Bank. The Bank closed the Quincy Branch on April 5, 2001 upon the termination of its lease. The deposit sale generated a pre-tax gain of \$529,000.

6) 2000 Recognition and Retention Plan

The Company adopted the Recognition and Retention Plan, which was approved by shareholders' in October 2000. The Recognition and Retention Plan is authorized to issue up to 297,713 shares of restricted stock of which 282,735 has been awarded. Each award will vest at a rate of 20% per year.

7) Employee Stock Ownership Plan

At March 31, 2001, the ESOP held 570,615 unallocated shares with an aggregate cost of \$7,213,888 and a market value of \$10,413,724. For the three month periods ended March 31, 2001 and 2000, \$91,452 and \$0 was charged to compensation and employee benefit expense respectively, related to this plan year.

9

8) Stock Repurchases

On February 22, 2001, the Company announced a repurchase program to acquire 372,140 shares of its common stock. As of March 31, 2001, the Company had purchased 10,000 shares under this program. In addition, during the quarter ended March 31, 2001, the Company completed the purchase of the 297,713 shares authorized related to the RRP.

9) Loans

The loan portfolio consisted of the following (in thousands):

	March 31, 2001 ----- (Unaudited)	December 31, 2000 -----
Real estate loans-		
Residential	\$346,547	\$ 353,518

Total term certificate accounts	301,241	308,621
	-----	-----
Total deposits	\$793,611	\$806,021
	=====	=====

10

11) Business Segments

SFAS No. 131, Disclosure About Segments of an Enterprise and Related Information, establishes standards for reporting segments of a business enterprise. Operating segments are components of an enterprise, which are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is the President and Chief Executive Officer. The adoption of SFAS No. 131 did not have a material effect on the Company's primary financial statements, but did result in the disclosure of segment information contained herein. The Company has identified its reportable operating business segment as community banking based on products and services provided to the customer. The Company's community banking business segments consist of commercial banking and retail banking. The community banking business segment derives its revenues from a wide range of banking services, including lending activities, acceptance of demand, saving and time deposits, mortgage lending and sales and servicing income from investors. Nonreportable operating segments of the Company's operations that do not have similar characteristics to the community

Edgar Filing: PORT FINANCIAL CORP - Form 10-Q

banking operations and do not meet the quantitative thresholds requiring disclosure are included in the Other category in the disclosure of business segments below. These nonreportable segments include Parent Company financial information. Consolidation adjustments are included in the consolidation adjustments category. The consolidation adjustments reflect certain eliminations of cash and Parent Company investments in subsidiaries.

The accounting policies used in the disclosure of business segments are the same as those described in the summary of significant accounting policies.

Reportable segments and reconciliation to consolidated financial information is as follows:
