VOTING

Election of directors will be decided by a plurality of the votes cast by the holders of shares of Common Stock present in person or by proxy at the meeting and entitled to vote. Approval of Item 2 will require the affirmative vote of a majority of the shares present in person or by proxy at the meeting and entitled to vote. The Company's transfer agent tabulates the votes. Abstentions and broker non-votes are each tabulated separately and are counted toward the quorum. For Item 2, shares that are the subject of an abstention are included as shares entitled to vote on the matter and, therefore, have the same effect as a vote against the matter. Shares, if any, that are the subject of a broker non-vote are not included as shares entitled to vote on the matter.

STOCKHOLDERS' PROPOSALS TO BE PRESENTED AT 2002 ANNUAL MEETING

Proposals of stockholders intended to be presented at the Annual Meeting of Stockholders scheduled to be held on May 13, 2002, must be received by the Company by December 14, 2001, and must comply with applicable Securities and Exchange Commission regulations, in order to be considered for inclusion in the Company's Proxy Statement and form of proxy relating to that meeting. If notice of a proposal intended to be presented at the Annual Meeting is not received by the Company before February 27, 2002, the persons named as proxies in the Company's 2002 proxy material will have the discretionary authority to vote on the matter in accordance with their best judgment without disclosure in the proxy statement of such matter or of how the proxy holders intend to exercise their discretionary authority to vote on the matter.

1. ELECTION OF DIRECTORS

The directors of the Company to be elected at the Annual Meeting will hold office until the next Annual Meeting of Stockholders and until their successors are elected and qualify or until their earlier death, resignation or removal. Certain biographical information concerning each of the Management's nominees are provided below. With the exception of Mr. Goldstein who is standing for election to the Company's Board for the first time, all of the nominees are currently serving as directors of the Company. The Management believes that each of the nominees will be available and able to serve as a director. However, if for any reason any of these persons should not be available or are unable to serve, all proxies will be voted for the remainder of those nominated and, unless the size of the Board of Directors is reduced, for a substituted nominee designated by the Management.

The following information with respect to the principal occupation or employment, recent employment history, age and directorships in other companies is as of March 21, 2001, and has been furnished or confirmed to the Company by the respective nominees. ATTENDANCE AT BOARD OF DIRECTORS AND COMMITTEE MEETINGS

The Board of Directors of the Company held ten meetings in 2000 and committees of the Board held a total of twenty-nine meetings. During 2000, Mr. Lowe and Mr. Olsen attended fewer than 75% of the total number of meetings of the Board of Directors and committees on which they served.

DIRECTORS' FEES

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

Each director who is not an employee of the Company or one of its subsidiaries receives an annual retainer of \$24,000 for serving as a director, an annual retainer of \$2,000 for each committee on which he or she serves, a fee of \$1,000 for each meeting of the Board attended and a fee of \$1,000 for each committee meeting attended. The Chairman of the Compensation Committee and the Chairman of the Audit Committee each receives an additional retainer of \$3,500 per year and the Chairman of the Nominating Committee receives an additional retainer of \$3,000 per year.

Each outside director who, as of December 31, 1995, had accumulated at least five years of service is entitled to receive an annual retirement benefit under the Interpublic Outside Directors' Pension Plan (the "Outside Directors' Pension Plan"). In general, the benefit becomes payable in the month following the month the director leaves the Board. The benefit is equal to the amount of the annual retainer paid to the director as a Board member in the year in which he or she ceased to serve as a director and will be paid for the same number of years as the director's years of service, up to a maximum of 15 years. In the event of the death of a director with a vested retirement benefit, the then present value of the director's unpaid retirement benefits will be paid to the surviving spouse or the estate of the director. Effective December 31, 1995, the Outside Directors' Pension Plan was terminated, except to the extent benefits were accrued prior to termination. As a result there have been no further accruals for the benefit of existing directors under the Outside Directors' Pension Plan for subsequent years. Any director with fewer than five years of service on the date that the Plan was terminated will not receive any benefits under the Plan.

In 1994, the stockholders of the Company approved the Interpublic Outside Directors' Stock Incentive Plan (formerly called the Interpublic Outside Directors' Stock Option Plan). The Outside Directors' Stock Incentive Plan (the "Outside Directors' Plan") originally provided for an annual grant of options to purchase the number of shares of Common Stock having an aggregate fair market value of \$30,000 on the date of grant. The Board of Directors has amended the Outside Directors' Plan effective as of May 17, 1999, to provide for an annual grant to each outside director of options covering 2,000 shares of Interpublic Common Stock. The exercise price of each option is equal to the fair market value of the Common Stock on the date of grant. The options become exercisable in full on the third anniversary after the date of grant and expire ten years after the date of grant.

An outside director may exercise stock options granted prior to June 1, 1996 that are exercisable on the date of cessation of service for 90 days following cessation of service as a director, except that an outside director who is eligible to receive a benefit under the Outside Directors' Pension Plan may exercise such options for five years following the date of retirement from the Board of Directors, but in no event after the expiration of the ten-year option term. Options granted on or after June 1, 1996 that are exercisable at the time of cessation of service may be exercised for a period of three years following cessation of service, whether or not the director is eligible to receive a benefit under the Outside Directors' Pension Plan, but in no event after expiration of the ten-year option term.

The Outside Directors' Plan also provides for periodic grants of 3,000 restricted shares of the Company's Common Stock to each outside director. The first grant was made in June 1996. An additional grant of 3,000 shares will be made every fifth year thereafter while the Outside Directors' Plan remains in effect. The outside director has all rights of ownership with respect to such restricted shares, including the right to vote and to receive dividends, except that, prior to the expiration of a five-year period after the date of grant (the "Restricted Period"), the outside director is prohibited from selling or otherwise transferring the shares. If, on or after the first anniversary of the grant, an outside director's service as a

director terminates for any reason (including death) during the Restricted Period, the restrictions on transfer will lapse immediately in proportion to the number of months that have elapsed since the date of grant and the remainder of such restricted shares will be forfeited. If an outside director's service terminates for any reason (including death) before the first anniversary of the date of grant, all such restricted shares will be forfeited. The committee administering the Outside Directors' Plan may in its discretion direct the Company to make cash payments to an outside director to assist in satisfying the federal income tax liability with respect to the receipt or vesting of the restricted shares.

On June 20, 2000, Mr. Borelli, Mr. Brack, Ms. Considine, Mr. Olsen, Mr. Miles and Mr. Samper each received under the Outside Directors' Plan an award of stock options, covering 2,000 shares of Common Stock with an exercise price of \$44.47 per share. On June 7, 1996, Messrs. Borelli, Olsen and Samper each received under the Outside Directors' Plan a grant of 3,000 restricted shares. On June 6, 1997, Mr. Brack and Ms. Considine each received a grant of 3,000 restricted shares. On March 21, 2000, Mr. Miles received a grant of 3,000 restricted shares.

COMPENSATION OF EXECUTIVE OFFICERS

Dooner and Geier, each of whom served as the Chief Executive Officer during the last fiscal year, and the four other most highly compensated executive officers of the Company, who were serving as executive officers on December 31, 2000 (the "named executive officers"). In each instance, this compensation shown is for services rendered in all capacities for the three-year period ended on December 31, 2000. As used in this Proxy Statement, the executive officers of the Company are deemed to include any director of the Company who serves as the chief executive officer of McCann-Erickson WorldGroup or The Lowe Group, both agency systems of the Company.

(FOOTNOTES CONTINUED ON FOLLOWING PAGE)

(FOOTNOTES CONTINUED FROM PRECEDING PAGE)

coverage and \$29,357 paid in respect of spousal travel on behalf of Mr. Dooner; and \$200,000 in reimbursement for housing expenses paid to or on behalf of Mr. Lowe.

- (5) The number and value of shares of restricted stock held by the named executive officers at December 31, 2000 (based on the closing price of the Common Stock on December 29, 2000) are as follows: Mr. Dooner--805,148 shares (\$34,269,112); Mr. Geier--350,000 shares (\$14,896,875); Mr. Heekin--126,000 shares (\$5,362,875); Mr. Linsky--51,534 (\$2,193,416); Mr. Lowe--225,000 shares (\$9,576,563) and Mr. Orr--40,000 shares (\$1,702,500). The shares of restricted stock shown in the table as awarded to each named executive officer were granted with at least a four-year vesting period, subject to the discretion of the Committee administering the Plan to release the restrictions not earlier than one year after the grant date.

Dividends on restricted stock are paid on the same basis as ordinary dividends on the Common Stock.

- (6) Payouts under the Long-Term Performance Incentive Program are made at the end of four-year performance periods. These four-year periods begin at two-year intervals. The total payout for the 1995-1998 performance period was made in the first quarter of 1999.

As a result of the merger of operations of Ammirati Puris Lintas and The Lowe Group, the 1997-2000 performance period was reduced from a four-year to a three-year period for certain employees of these Interpublic subsidiaries. The Long-Term Performance Incentive Program (the "LTPIP") provides for awards at two-year intervals of "performance units" to select employees of the Company or its subsidiaries who are members of the Development Council of the Company and its subsidiaries. The value of the performance units is tied to the annual growth of operating profits of the office, agency or regional or worldwide agency system with which the employee is principally associated. Such performance units are awarded with a provisional value of \$100, which may increase to as much as \$175. The value may decrease to as little as zero, with the increase or decrease depending in each case on the extent to which the

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

growth rates of operating profit of the applicable operating components exceed or fall short of pre-established compound growth rates in operating profit over a period of four calendar years (a "performance period").

The threshold growth rate objective is based on 8% growth in cumulative compound operating profit of an operating component during a performance period, resulting in a threshold payout of \$20 per performance unit. Failure to reach the threshold growth rate will result in a zero award. The LTPIP does not provide for a target performance level. A target growth rate of 15% has been assumed for purposes of this presentation. This growth rate would result in a target payout of \$115 per performance unit. The maximum growth rate objective is 27% resulting in a maximum payout of \$175 per performance unit.

In connection with Mr. Dooner's promotion to Chairman of the Board and Chief Executive Officer, the Company reallocated his award under the LTPIP for the 1999-2002 performance period by reducing to 8,000 the number of performance units he was granted in 1999 attributable to the growth of McCann-Erickson WorldGroup and by granting him in 2000 12,000 performance units attributable to the growth of Interpublic.

Philip H. Geier, Jr.....	995,000	June 30, 2001

SPECIAL DEFERRED BENEFIT ARRANGEMENTS

In addition to an employment contract, each of the named executive officers has entered into special deferred benefit agreements with Interpublic as described below.

Mr. Dooner is a party to two agreements which in the aggregate provide that

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

if he dies while he is employed by the Company \$186,000 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, if he retires, resigns or is otherwise no longer in the employment of the Company on or after his 55th birthday he will be paid benefits for 15 years ranging from \$130,200 to \$186,000 per year, depending upon the year his employment terminates. In the event Mr. Dooner's employment terminates prior to his 55th birthday, other than by reason of death, he will be paid lesser sums but not less than an aggregate of \$440,000. The Company also has entered into an agreement with Mr. Dooner which provides that if he dies while he is employed by the Company, his beneficiaries will receive \$88,500 annually for 15 years. Alternatively, when he retires from the Company, the Company will pay him retirement benefits at the rate of \$88,500 per year for 15 years.

After his retirement, if he were to die before all payments were made under these agreements, the Company would make the remaining payments to his beneficiaries.

Mr. Geier is a party to two agreements which in the aggregate provide that if he dies while he is employed by the Company \$160,000 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, he will be paid benefits for 15 years of \$160,000 per year when he retires. The Company also has entered into an agreement with Mr. Geier which provides that if he dies while he is employed by the Company \$255,000 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, he will be paid an annual benefit of \$255,000 for 15 years upon his retirement from the Company.

After his retirement, if he were to die before all payments were made under these agreements, the Company would make the remaining payments to his beneficiaries.

In connection with Mr. Geier's resignation as Chairman of the Board, Chief Executive Officer and director, the Company has agreed to enter into another Special Deferred Benefit Arrangement with him. The terms of this arrangement are described in this Proxy Statement under the heading "Certain Retirement Arrangements".

13

Mr. Heekin is a party to two agreements which provide that if he dies while he is employed by the Company, an aggregate of \$202,500 will be paid to his beneficiaries for 15 years following his death. Alternatively, if he retires, resigns or is otherwise no longer employed by the Company on or after his 55th birthday he will be paid benefits for 15 years in the aggregate ranging from \$120,150 to \$202,500 per year, depending upon the year his employment terminates. In the event Mr. Heekin's employment terminates prior to his 55th birthday, other than by reason of death, he will be paid lesser sums not in excess of \$200,000. The Company also has entered into another agreement with Mr. Heekin which provides that if he dies while employed by the Company, \$50,000 will be paid to his beneficiaries for 15 years following his death. If he retires, resigns or is otherwise no longer employed by the Company on or after his 58th birthday, he will be paid benefits for 15 years ranging from \$38,000 to \$50,000 per year, depending upon the year that his employment terminates. If Mr. Heekin's employment terminates prior to his 58th birthday, other than by reason of death, he will be paid lesser sums not to exceed \$25,000.

After he retires, if he were to die before all payments were made under these agreements, the Company would make the remaining payments to his beneficiaries.

Mr. Linsky is a party to two agreements which in the aggregate provide that if he dies while he is employed by the Company \$100,560 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, if he

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

retires, resigns or is otherwise no longer in the employment of the Company on or after his 59th birthday he will be paid benefits for 15 years ranging from \$86,040 to \$100,560 per year, depending upon the year his employment with the Company terminates. With respect to the agreements discussed above, the Company and Mr. Linsky have amended one of those agreements in 2000 to provide that the annual benefit to Mr. Linsky or his beneficiaries of \$60,000 would be increased by 4% annually through 2003, provided that Mr. Linsky were to remain employed with the Company through October 2001. The Company has entered into two other agreements with Mr. Linsky. Under one of those contracts, the Company will pay Mr. Linsky upon his retirement \$258,000 per year for 15 years. Alternatively, if he dies while employed by the Company, the Company will pay his beneficiaries this annual benefit for 15 years following his death. Under the other contract, Mr. Linsky will be paid deferred compensation in the minimum amount of \$243,253 in one lump sum shortly after his retirement.

After he retires, if he were to die before any or all payments were made in full under these agreements, then the Company would make the payment or payments to his beneficiaries.

Mr. Lowe is a party to three agreements with the Company. The first agreement provides that if he dies while he is employed by the Company \$158,400 per year will be paid to his beneficiaries for 15 years following his death. If he retires on or after his 60th birthday, he will be paid a benefit of \$158,400 per year for 15 years. If he retires, resigns or his employment is terminated prior to his 60th birthday, he will be paid benefits ranging from \$110,880 to \$148,896 per year for 15 years based on the year his employment terminates. The second agreement with Mr. Lowe provides that if he dies while he is employed by the Company, an amount of \$133,200 per year will be paid to his beneficiaries for 15 years following his death. If he retires on or after his 64th birthday, he will receive a benefit of \$133,200 per year for 15 years. If he retires or resigns or his employment is terminated on or after his 60th birthday, but prior to his 64th birthday, he will receive benefits for a period of 15 years ranging from \$60,952 to \$117,216 per year, depending upon the year his employment terminates. The third agreement with Mr. Lowe provides that if he dies while employed by the Company, an amount of \$181,495 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, if he retires on or after his 64th birthday, he will receive a benefit of \$181,495 per year for 15 years. If he retires or resigns or his employment is terminated with the Company on or after his 60th birthday but prior to his 64th birthday, he will receive benefits for 15 years ranging from \$80,648 to \$154,606 per year, depending upon the year his employment terminates. In addition, if Mr. Lowe becomes permanently disabled at any time prior to January 15, 2007, he will receive a benefit of \$500,000 per year for a period of 15 years. This disability benefit would be in lieu of all other payments to be made under this Agreement and his other Special Deferred Benefit Arrangements.

14

After he retires, if he were to die before all payments were made under these agreements, the Company would make the remaining payments to his beneficiaries.

Mr. Orr is a party to an agreement which provides that if he dies while he is employed by the Company, \$165,000 per year will be paid to his beneficiaries for 15 years following his death. Alternatively, if he retires, resigns or is otherwise no longer employed by the Company on or after his 55th birthday, he will be paid benefits for 15 years ranging from \$115,500 to \$165,000 per year, depending upon the year his employment terminates. In the event Mr. Orr's employment terminates prior to his 55th birthday, other than by reason of death, he will be paid a sum of no more than \$50,000.

After he retires, if he were to die before all payments were made under

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

these agreements, the Company would make the remaining payments to his beneficiaries.

EXECUTIVE SEVERANCE AGREEMENTS

The named executive officers each have an agreement with the Company pursuant to which (a) sums previously deferred pursuant to employment agreements, and the Management Incentive Compensation Plans of the Company and its subsidiaries and amounts payable under Special Deferred Benefit Agreements would become payable within 30 days following a "Change of Control" of the Company, if the individual had so elected prior to the Change of Control, and (b) a cash severance payment would become payable to such individual if, within two years after the Change of Control, his employment should be terminated by the Company (except for "cause") or the individual should resign for "good reason".

The agreements provide that a Change of Control occurs if: (a) any person other than Interpublic or any of its subsidiaries, becomes the beneficial owner (within the meaning of Rule 13d-3 of the Securities Exchange Act of 1934, as amended) of 30% or more of the combined voting power of Interpublic's then outstanding voting securities; (b) the stockholders approve an agreement to merge or consolidate with another corporation (other than a subsidiary of Interpublic) or an agreement to sell or dispose of all or substantially all of the business or assets of Interpublic; or (c) during any period of two consecutive years, individuals who, at the beginning of such period, constituted the Board of Directors cease for any reason to constitute at least a majority thereof, unless the election or the nomination for election by Interpublic's stockholders of each new director was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of the period.

The agreements provide, for purposes of determining an executive's right to receive severance payments only, that Interpublic shall have cause to terminate an executive, following a Change of Control, if the executive: (a) engages in conduct that constitutes a felony and that results in the personal enrichment of the executive at the Company's expense; (b) refuses to substantially perform his responsibilities for the Company; or (c) deliberately and materially breaches any agreement between himself and the Company and fails to remedy that breach within a 30-day cure period.

For purposes of determining an executive's right to receive severance payments only, an executive under the terms of the agreements may resign for "good reason" if, without his consent, in any circumstance other than his disability, his office in the Company or the geographical area of his employment should be changed or his compensation should not continue to be paid and increased on the same basis as had been in effect prior to the Change of Control or the individual should determine in good faith that the Company had, without his consent, effected a significant change in his status within, or the nature or scope of his duties or responsibilities with, the Company and the Company failed to cure such situation within 30 days after written notice from the individual.

The severance payment would be either three times (for Messrs. Dooner, Geier, Lowe, Heekin and Orr) or two times (for Mr. Linsky) the individual's average annual compensation during the two calendar years ended prior to the date of the Change of Control, plus a partial annual bonus based on the prior year's bonus prorated for the elapsed portion of the year in which employment terminated. The average compensation used in calculating the severance payment would be the individual's taxable compensation plus any deferred compensation accrued during the two relevant years, but would not include any deferred

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

compensation earned in prior years but paid during the two years and would not include any taxable compensation relating to any stock option or restricted stock plan of the Company.

Each contract includes the agreement of the individual providing that if the individual's employment terminates in circumstances entitling him to a severance payment, he will, for a period of 18 months following the termination of his employment, neither (a) solicit any employee of the Company or any of its subsidiaries to leave such employ to enter into the employ of the individual, or any person or entity with which the individual is associated, nor (b) solicit or handle, on his own behalf or on behalf of any person or entity with which he is associated, the advertising, public relations, sales promotion or market research business of any advertiser which was a client of the Company or any of its subsidiaries on the date the individual's employment terminates.

The agreements give the individuals who are parties thereto an option to limit payment under the agreements to such sum as would avoid subjecting the individual to the excise tax imposed by Section 4999 of the Internal Revenue Code.

CERTAIN RETIREMENT ARRANGEMENTS

After a forty-five year career with Interpublic, Mr. Geier resigned his positions as director and as Chairman of the Board and Chief Executive Officer, effective December 15, 2000. His current employment agreement with the Company will expire on June 30, 2001. During that period of time, he will continue to receive his salary at the rate of \$995,000 per year in the capacity of Chairman Emeritus.

Effective as of July 1, 2001, Mr. Geier has agreed to enter into an employee consultancy agreement with Interpublic for a minimum of two and one-half years at a yearly salary of \$995,000. In recognition of his many years of service and his contribution to the exceptional growth and profitability of Interpublic, the Company has agreed to provide Mr. Geier with (a) a Special Deferred Benefit Arrangement of \$1,200,000 per year, payable for 15 years beginning after his retirement from Interpublic(1); and (b) office facilities and other support staff through December 2005 that are comparable to those provided to him prior to December 2000. Additionally, the Company has agreed that Mr. Geier will become fully-vested in his award of performance units and stock options under Interpublic's Long-Term Performance Incentive Program for the 1999-2002 performance period. With respect to the 2001-2004 performance period under the Long-Term Performance Incentive Program, Mr. Geier received on January 2, 2001 a grant from the Company of 15,000 performance units attributable to the growth of Interpublic and an option covering 60,000 shares of Common Stock at an exercise price of \$40.4688 per share. These grants will vest pro-rata through his date of retirement.

Additional information with respect to equity grants made by the Company to Mr. Geier during 2000 is disclosed in this Proxy Statement under the headings "Summary Compensation Table" and "Stock Option Grants In 2000".

RETIREMENT PLAN

As of January 1, 1992, the Company adopted the Interpublic Retirement Account Plan to provide benefits under a "cash balance formula" to employees of Interpublic and most of its domestic subsidiaries who have at least five years of service. Each year a participant's account balance is credited with an amount equal to a percentage of the participant's annual compensation and interest credits. The percentage of annual compensation varies based on the sum of the participant's age and years of service from 1.5% for participants with a sum less than 40 years to 5% for participants with a sum of 80 or more years.

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

Interest credits are based on the 1-year U.S. Treasury bill rate plus 1 percentage point, compounded quarterly, and are guaranteed to be at least 5% per year, compounded quarterly.

- (1) The Company maintains a company-owned life insurance policy on the life of Mr. Geier which will, upon his death, pay to the Company the after tax cost of the benefits and premiums paid for the Special Deferred Benefit Agreement discussed above.

16

Until July 31, 1987, employees of the Company and most of its domestic subsidiaries were entitled in general to receive at retirement a monthly retirement benefit pursuant to a defined benefit pension formula computed as a percentage of average monthly compensation during the five consecutive calendar years with highest compensation with certain exclusions. The percentage of average monthly compensation used to calculate the monthly benefit was determined by multiplying the number of years of accredited service (which is defined in the Plan as the period of participation in the Plan) by 1.3%.

Beginning July 31, 1987, the method of calculating the pension benefit was changed to a career average formula based on annual compensation. The percentage of annual compensation used to calculate the benefit was 1% of each year's compensation up to \$15,000 plus 1.3% of any compensation in excess of that amount.

Participants under the defined benefit pension formula on December 31, 1991, had their normal retirement benefit converted on an actuarial basis into an "opening cash balance" as of January 1, 1992. In addition, participants continued to accrue benefits pursuant to the career average formula and became eligible to receive upon retirement the higher of (1) the participant's benefit under the cash balance formula or (2) the participant's accrued retirement benefit under the career average formula as of December 31, 1991, plus any accrual after that date calculated pursuant to the career average formula. Employees joining the Company after December 31, 1991, were eligible to accrue benefits only under the cash balance formula.

With certain minor exceptions, "compensation" under the career average formula as well as the cash balance formula includes all compensation subject to federal income tax withholding. Annual compensation for pension accruals since December 31, 1988 has been limited by federal tax law.

In December 1997, the Board of Directors of the Company adopted a resolution to freeze benefit accruals under the Interpublic Retirement Account Plan as of March 31, 1998. Retirement account balances as of that date will continue to be credited with interest until benefits begin in accordance with the generally applicable Plan provisions, but additional Company allocations have been discontinued as of March 31, 1998. In accordance with the resolution, Retirement Account Plan participants whose benefits were not already vested became fully vested as of April 1, 1998.

In addition, effective April 1, 1998, employees with five or more years of Retirement Account Plan participation began to participate in a new Compensation Plan. Under the new Compensation Plan, an account is established for each eligible employee and credited with up to ten annual allocations depending on the employee's years of participation in the Retirement Account Plan. Each annual allocation approximates the discontinued allocations under the Retirement Account Plan. In general, the balance in each employee's account begins to vest gradually after five years of participation in the new Compensation Plan. Payouts generally are made while the employee is still employed by the Company

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

or one of its subsidiaries.

The estimated annual retirement benefit that each of the named executive officers (other than Mr. Orr) would receive at normal retirement age, payable as a straight life annuity together with the annual benefit under the new Compensation Plan, is as follows: Mr. Dooner--\$90,200; Mr. Geier--\$140,000; Mr. Heekin--\$16,089; Mr. Linsky--\$93,647 and Mr. Lowe--\$13,217. Alternatively, each of them could take the benefit as a lump sum estimated as follows: Mr. Dooner--\$976,963; Mr. Geier--\$1,483,619; Mr. Heekin--\$171,908; Mr. Linsky--\$1,014,298 and Mr. Lowe--\$141,221.

Mr. Orr is not entitled to receive these benefits because he was hired by Interpublic after the Retirement Account Plan was frozen.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

COMPENSATION POLICIES FOR EXECUTIVE OFFICERS

The Company's overall business strategy is to increase shareholder value over the long term. Consistent with this strategy, the Compensation Committee has endeavored to develop and administer compensation policies that are linked to the successful achievement of the Company's strategy.

The objective of the Company's executive compensation program is to provide key executives with short-term and long-term compensation opportunities that will enhance shareholder value by motivating executives, increasing retention and rewarding outstanding individual and Company performance.

The compensation paid to executives consists of a base salary and incentive compensation which may be earned only if the Company's financial performance meets or exceeds annual growth targets. Incentive opportunities for the most part are long term, as well as at risk and equity oriented. Those incentive opportunities are provided pursuant to one or more of the following programs covered under the Company's shareholder-approved 1997 Performance Incentive Plan:

- Management Incentive Compensation Program (the "MICP"), which is an annual bonus plan that establishes a bonus pool based on profits for the last-completed fiscal year. Individual awards are made based on performance and are typically paid in cash but may be paid in stock.
- Long-Term Performance Incentive Program (the "LTPIP"), which provides for biennial awards of performance units each having a four-year term. These awards entitle a participating executive to receive cash payments based on the extent to which long-term operating profit targets are achieved by the division or entity of the Company for which the executive is responsible.
- Stock Incentive Program, which provides for the issuance of stock options and restricted stock. These instruments increase in value over time only if the market price of Interpublic Common Stock increases. They are usually forfeited in the absence of action by the Committee if an executive leaves the Company within a specified period following the date of the award.

The determination of the amount and form of executive compensation, including incentive compensation, paid to each executive officer of the Company is made by the Committee based on a discretionary evaluation, after taking into account a range of factors that include:

- (i) The financial results of the Company and the anticipated developments in

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

the advertising industry.

- (ii) The total annualized compensation for the particular executive based on salary, bonus and incentive compensation.
- (iii) The accumulated value of incentive compensation previously provided such as stock options, restricted stock or performance units.
- (iv) The current and future financial and tax impact on the Company and on the executive of benefits under the Company's compensation plans.
- (v) The particular achievements measured against pre-determined annual objectives of the executive.
- (vi) The talents and unique qualities of the executive and the value of his or her accumulated experience with the Company as those factors are relevant to the future management of the Company.

There is no pre-determined weight assigned to any of the above factors; however compensation decisions by the Committee are greatly influenced by the annual financial performance of the Company.

18

The Committee's overall knowledge and experience of executive compensation practices provide the basis for making the subjective evaluations which in part determine the salaries paid and the incentive awards made to the executive officers.

In 2000, the Compensation Committee of the Company consisted of six outside directors. Most of the members of the Compensation Committee have served and continue to serve on a number of other corporate boards in a similar capacity. All members have extensive knowledge of compensation practices in the private business sector generally.

2000 COMPENSATION OF EXECUTIVE OFFICERS

BASE SALARIES

Base salaries for certain employee directors were increased during 2000 as well as for some executive officers other than those listed on the Summary Compensation Table. Salary increases for executive officers and employee directors are based on professional merit performance, promotions and overall financial results.

MICP

Under the Management Incentive Compensation Program, annual bonuses to officers and key employees of the Company and its subsidiaries are paid from an annual bonus pool that may not exceed 5% of the amount by which consolidated pre-tax income on a worldwide basis exceeds 15% of the average equity capital of the Company in the immediately preceding calendar year. In 2000, total MICP payments to executive officers were lower than in 1999.

LTIIP

The Long-Term Performance Incentive Program comprises a significant portion of the total compensation for executive officers of Interpublic and key employees of its subsidiaries. Awards under the LTIIP, consisting of performance units each having a four-year term, generally are granted biennially in odd-numbered years. Additional grants of performance units for the 1999-2002 four year performance period were made to executive officers including those

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

listed in the Long-Term Incentive Plan Table. In granting individual LTPIP awards for this performance period to executive officers the Committee considered a number of factors including, but not limited to, tenure with the Company, history of past grants, performance and current job level of the executive or significant changes in the executive's responsibilities.

EQUITY GRANTS

Under the shareholder-approved 1997 Performance Incentive Plan, stock options and restricted stock may be awarded to officers and key employees of the Company and its subsidiaries. Stock options are granted on such terms as are approved by the Committee, provided that the term of the option may not exceed ten years and the exercise price may not be less than the fair market price of the Common Stock on the date of grant. Shares of restricted stock granted are restricted as to the selling or transferring of the shares typically for a minimum of five years from date of grant and are forfeited if the executive should leave the employment of the Company, unless the Committee deems otherwise. In determining individual grants of stock options and restricted stock the Committee takes into consideration the number of years since previous grants, the financial performance of the Company over recent years in terms of annual operating margin, revenue and operating profit growth and the growth of shareholder value and the overall compensation and performance of the executive. The Committee also reviews various outside survey data pertaining to the pattern of grants made by other companies having approximate capitalization and growth similar to those of Interpublic (including several of the companies in the Peer Group Indices appearing in the two performance graphs that follow this Report).

19

Restricted stock grants are periodically granted by the Committee to executive officers and are designed to focus key executives on the long-term performance of the Company. During 2000 no restricted shares or stock options were granted to key executives other than the named executive officers. Grants to the named executive officers are shown in the preceding tables.

TAX LAW

Under the federal income tax laws, the deduction that a publicly-held company is allowed for compensation paid to the chief executive officer and to its other four most highly compensated executive officers generally is limited to \$1 million exclusive of qualifying performance-based compensation. The Committee has and will continue to consider ways to maximize the deductibility of executive compensation, including the utilization of performance-based plans, while retaining the discretion the Committee deems necessary to compensate executive officers in a manner commensurate with performance and the competitive environment for executive talent. The 1997 Performance Incentive Plan contains provisions relating to MICP Awards, LTPIP Awards, stock option grants and performance units that are intended to make the awards eligible for exclusion from the \$1 million limitation.

COMPENSATION OF CHIEF EXECUTIVE OFFICERS

During 2000 Mr. Geier relinquished his position of Chairman and Chief Executive Officer and Mr. Dooner was promoted from President and Chief Operating Officer to Chairman and Chief Executive Officer. Mr. Geier will remain an employee as Chairman Emeritus.

In 2000 the Compensation Committee granted to Mr. Geier 200,000 shares of restricted stock which will lapse on April 3, 2004 and 300,000 stock options at an exercise price of \$47.1250 per share. The options vest on January 1, 2002 and are exercisable any time thereafter up to ten years from date of grant. These awards were made in recognition of Mr. Geier's forty-six years of Company

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

service of which twenty-one were as Chairman and Chief Executive Officer.

Mr. Geier also received a 2000 MICP award of \$1,600,000 in recognition of Interpublic's achieving its 2000 financial growth targets. The award to Mr. Geier was based on financial results which included an increase of 24% in net income (before non-recurring items), an increase of 22% in diluted earnings per share (before non-recurring items) and an increase of 13% in revenue, which in the opinion of the Compensation Committee contributed to an increase in shareholder value.

In 2001, Mr. Geier was granted an LTPIP award for the 2001-2004 performance period consisting of 15,000 performance units and 60,000 stock options at an exercise price of \$40.4688 which will become exercisable January 1, 2005. The LTPIP grant was deemed by the Committee to be at an appropriate level for the future role and responsibilities Mr. Geier will perform for the Company as Chairman Emeritus. The award was also in recognition of the fact that while Chairman and Chief Executive Officer, Mr. Geier provided long-term strategic leadership and achieved certain business objectives from which the Company will benefit in the years to come.

Mr. Dooner was appointed President and Chief Operating Officer in March, 2000. He formerly was Chairman and Chief Executive Officer of McCann-Erickson WorldGroup, Interpublic's largest operating company and has been continuously employed with the Company at various subsidiaries since May 21, 1973. In recognition of his promotion to President and Chief Operating Officer, Mr. Dooner's cash base salary was increased to \$1,250,000 per year which represented an increase of \$380,000 per year over his previous cash base salary. In addition, Mr. Dooner was granted 150,000 shares of restricted stock which will lapse March 24, 2005 if he is still in the employ of the Company and 200,000 stock options at an exercise price of \$43.6875 per share. The stock option will become exercisable 40% after three years from date of grant, 30% four years after date of grant and 30% five years after date of grant. In addition, Mr. Dooner's LTPIP grant for the 1999-2002 performance period was increased from 12,000 to 16,000 performance units with an additional grant of 48,000 stock options granted at an exercise price of \$43.6875

20

per share. The stock options will be fully exercisable at the conclusion of the LTPIP 1999-2002 performance period, January 1, 2003. These various adjustments were made by the Committee to bring Mr. Dooner's compensation up to internal and external competitive practices and levels.

Upon Mr. Dooner's promotion to Chairman and Chief Executive Officer in December, the Committee granted him 200,000 restricted shares which will lapse December 15, 2005, 200,000 stock options at an exercise price of \$41.8438 per share, 40% of which will become exercisable after three years from the date of grant, 30% of which will become exercisable after four years and 30% of which will become exercisable after five years. In addition, Mr. Dooner received a grant of 100,000 stock options at an exercise price of \$60 per share which will become fully exercisable on or after December 15, 2001 if and when the market price of Interpublic common stock is equal to or greater than \$60.00 per share. Mr. Dooner's 1999-2002 LTPIP grant was increased in recognition of his promotion to Chairman and Chief Executive Officer. The increase in Mr. Dooner's LTPIP grant consisted of 4,000 additional performance units, for a total of 20,000 performance units and the issuance of an additional 20,000 stock options, for a total of 188,000 for the performance period, at an exercise price of \$41.8438 per share. The options will be exercisable any time after January 1, 2003 up to ten years from date of grant. As supplemented by the additional grants made in connection with the 1999-2002 performance period under the LTPIP, Mr. Dooner received the maximum individual grant for a participant of performance units available under the LTPIP which has been the consistent practice of the

Edgar Filing: INTERPUBLIC GROUP OF COMPANIES INC - Form DEF 14A

Committee for the position of Chairman and Chief Executive Officer. The Committee through application and practice has continuously sought to provide the Chairman and Chief Executive Officer with a highly leveraged incentive compensation package which only rewards for excellent to outstanding financial performance and stock growth.

Mr. Dooner received a 2000 MICP award of \$1,500,000. In considering Mr. Dooner's 2000 MICP award the Committee primarily recognized the achievement of the Company in meeting its financial targets similar to those used in determining Mr. Geier's award for the year of 2000.

The Committee in making these various compensation adjustments, awards and grants to Messrs. Geier and Dooner took into consideration many factors including but not limited to competitive outside compensation practices of other marketing communications companies as well as the continued professional long-term achievements of each executive to the substantial growth of the Company and shareholder value.
