EFC BANCORP, INC.

Notes to Consolidated Financial Statements

Note 1: BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements include the accounts of EFC Bancorp, Inc. (the Company) and its wholly-owned subsidiary, Elgin Financial Savings Bank (the Bank) and its wholly-owned subsidiary, Fox Valley Service Corporation of Elgin. Certain amounts for the prior year have been reclassified to conform to the current year presentation.

In the opinion of the management of the Company, the accompanying consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of the financial position and results of operations for the periods presented. All significant intercompany transactions have been eliminated in consolidation. These interim financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission and therefore certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. It is suggested that the accompanying unaudited consolidated financial statements be read in conjunction with the Company's 2000 Annual Report on Form 10-K. Currently, other than investing in various securities, the Company does not directly transact any material business other than through the Bank. Accordingly, the discussion herein addresses the operations of the Company as they are conducted through the Bank.

Note 2: COMPREHENSIVE INCOME

The Company's comprehensive income for the three and six month periods ended June 30, 2001 and 2000 are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2001	2000	2001	2000
Net income	\$ 961,034	999,408	\$ 1,862,608	1,962,285
Other comprehensive gain (loss), net of tax:				
Unrealized holding gains (losses) on securities arising during the period	(78,700)	(285,870)	512,641	(299,906)
Reclassification adjustment for net gain realized in net income		(43,311)		(43,311)
Comprehensive income	\$ 882,334	670,227	\$ 2,375,249	1,619,068

There were no sales of investment securities as of and for the three and six months ended June 30, 2001. During the second quarter of 2000 the sale of securities resulted in a net gain of \$68,748 (\$43,311 net of tax effect).

Note 3: COMPUTATION OF PER SHARE EARNINGS

Edgar Filing: EFC BANCORP INC - Form 10-Q

Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding adjusted for the dilutive effect of outstanding stock options. ESOP shares are only considered outstanding for earnings per share calculations when they are released or committed to be released.

4

Presented below are the calculations for the basic and diluted earnings per share:

	Three Months Ended June 30, 2001	Three Months Ended June 30, 2000	Six Months Ended June 30, 2001	Six Months Ended June 30, 2000
Basic:				
Net income	\$ 961,034	999,408	1,862,608	1,962,285

5

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following analysis discusses changes in the financial condition at June 30, 2001 and results of operations for the three and six months ended June 30, 2001, and should be read in conjunction with the Company's Unaudited Consolidated Financial Statements and the notes thereto, appearing in Part I, Item 1 of this document.

Forward-Looking Statements

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identified by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project," or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of the Company and the subsidiaries include, but are not limited to, changes in: interest rates, general economic conditions, legislative/regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality or composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in the Company's market area and accounting principles and guidelines. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Further information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included in the Company's filings with the SEC, including its 2000 Annual Report on Form 10-K.

Edgar Filing: EFC BANCORP INC - Form 10-Q

The Company does not undertake and specifically disclaims any obligation to publicly release the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Comparison of Financial Condition at June 30, 2001 and December 31, 2000

Total assets at June 30, 2001 were \$614.2 million, which represented an increase of \$31.0 million, or 5.3%, compared to \$583.2 million at December 31, 2000. The increase in total assets was primarily as a result of an increase in loans receivable of \$35.8 million, or 7.8%, to \$495.6 million at June 30, 2001 from \$459.8 million at December 31, 2000. Of the \$35.8 million increase, \$23.7 million represents loans purchased. The remaining increase in loans receivable was primarily attributable to strong loan demand during the period. The increase in loans was partially offset by decreases in cash and cash equivalents of \$6.0 million, or 22.1%, to \$21.0 million at June 30, 2001 from \$27.0 million at December 31, 2000 and investment securities of \$2.5 million, or 3.9%, to \$61.6 million at June 30, 2001 from \$64.1 million at December 31, 2000. The growth in total assets was funded by increases in borrowed money and deposits. Borrowed money, representing FHLB advances, increased by \$15.0 million to \$155.2 million at June 30, 2001 from \$140.2 million at December 31, 2000. Deposits increased \$11.8 million to \$381.3 million at June 30, 2001 from \$369.5 million at December 31, 2000. Stockholders' equity increased by \$617,000 to \$67.9 million at June 30, 2001 from \$67.3 million at December 31, 2000. The increase in stockholders' equity was primarily the result of the Company's net income during the period and a \$513,000 increase in the Company's accumulated other comprehensive

6

income relating to its available-for-sale investment portfolio, the effect of which was partially offset by stock repurchases and dividends paid.

Comparison of Operating Results For the Three Months Ended June 30, 2001 and 2000

General. The Company's net income decreased \$38,000, to \$961,000 for the three months ended June 30, 2001, from \$999,000 for the three months ended June 30, 2000.

Interest Income. Interest income increased \$1.0 million, or 10.5%, to \$10.7 million for the three months ended June 30, 2001, compared with \$9.7 million for the same period in 2000. The increase in interest income was primarily due to an increase in average interest-earning assets, which increased by \$64.9 million, or 12.3%, to \$591.5 million for the three months ended June 30, 2001 from \$526.6 million for the comparable period in 2000, offset by a decrease in the average yield on interest-earning assets by 12 basis points to 7.27% for the three months ended June 30, 2001 from 7.39% for the three months ended June 30, 2000.

Mortgage loan interest income increased by \$773,000 for the three months ended June 30, 2001 compared with the same period in 2000. The average balance of mortgage loans increased \$38.9 million, while the loan yield increased by 4 basis points from 7.50% to 7.54%. Interest income from investment securities, mortgage-backed securities and short-term deposits decreased by \$169,000 for the three months ended June 30, 2001, compared with the same period in 2000. This decrease resulted from a combination of an increase in average balance of \$3.2 million and offset by a 86 basis point decrease in yield.

Interest Expense. Interest expense increased by \$811,000, or 14.6%, to \$6.4 million for the three months ended June 30, 2001 from \$5.6 million for the three months ended June 30, 2000. This increase resulted from the combination of an increase in the average balance of interest-bearing liabilities, and an overall increase in the average rate paid on those interest-bearing liabilities. The average balance of interest-bearing liabilities increased by \$54.4 million, or 12.0%, to \$508.4 million at June 30, 2001 from \$454.0 million at June 30, 2000. This change reflects a \$25.1 million increase in the deposit accounts, which represents a \$35.6 million increase in money market accounts, partially offset by decreases of \$5.4 million and \$3.3 million in certificates of deposits and passbook savings, respectively. The remaining \$29.3 million increase is attributable to advances from the FHLB-Chicago. The average rate paid on combined deposits and borrowed money increased by 12 basis points to 5.03% for the three months ended June 30, 2001 from 4.91% for the three months ended June 30, 2000.

Net Interest Income Before Provision for Loan Losses. Net interest income before provision for loan losses increased \$208,000, or 5.0%, to \$4.4 million for the three months ended June 30, 2001 from \$4.2 million for the comparable period in 2000. The net interest margin as a percent of interest-earning assets decreased by 21 basis points to 2.95% for the three months ended June 30, 2001 from 3.16% for the comparable period in 2000.

Provision for Loan Losses. The provision for loan losses increased by \$9,000, to \$105,000 for the three months ended June 30, 2001 from \$96,000 in 2000. At June 30, 2001, December 31, 2000 and June 30, 2000, non-performing loans totaled \$3.1 million, \$4.5 million and \$911,000, respectively. At June 30, 2001, the ratio of the allowance for loan losses to non-performing loans was 63.9% compared to 41.5% at December 31, 2000 and 186.4% at June 30, 2000. The ratio of the allowance to total loans was 0.40%, 0.41% and 0.39%, at June 30, 2001, December 31, 2000 and June 30, 2000, respectively. Charge-offs totaled \$85,000 and \$3,000 for the three months ended June 30, 2001 and

2000, respectively. Management periodically calculates an allowance sufficiency analysis based upon the portfolio composition, asset classifications, loan-to-value ratios, potential impairments in the loan portfolio, and other factors.

Noninterest Income. Noninterest income totaled \$399,000 and \$359,000 for the three months ended June 30, 2001 and 2000, respectively. The increase in noninterest income is primarily attributable to an increase in insurance and brokerage commission income of \$45,000 and an increase in service fees of \$51,000, partially offset by a decrease in gain on sale of securities of \$69,000.

Noninterest Expense. Noninterest expense increased \$367,000, to \$3.2 million for the three months ended June 30, 2001 from \$2.8 million for the comparable period in 2000. Compensation and benefits increased by \$172,000. This increase was primarily due to a combination of annual salary increases and the addition of staff. The additional staff expenses are primarily attributed to the opening of the Bank's new East Dundee, Illinois branch and the hiring of human resource personnel. All other operating expenses, including advertising, marketing, postage, communications, data processing and other office expense increased by a combined \$195,000, or 15.6%, to \$1.4 million for the three months ended June 30, 2001 from \$1.2 million for the three months ended June 30, 2000. Management continues to emphasize the importance of expense management and control while continuing to provide expanded banking services to a growing market base.

Income Tax Expense. Income tax expense totaled \$496,000 and \$586,000 for the three months ended June 30, 2001 and 2000, respectively. The effective tax rate was 34.1% and 37.0% for the three months ended June 30, 2001 and 2000, respectively.

Comparison of Operating Results For the Six Months Ended June 30, 2001 and 2000

General. The Company's net income decreased \$100,000, to \$1.9 million for the six months ended June 30, 2001, from \$2.0 million for the six months ended June 30, 2000.

Interest Income. Interest income increased \$2.5 million, or 13.3%, to \$21.4 million for the six months ended June 30, 2001, compared with \$18.9 million for the same period in 2000. The increase in interest income was primarily due to an increase in average interest-earning assets, which increased by \$72.3 million, or 14.1%, to \$586.0 million for the six months ended June 30, 2001 from \$513.7 million for the comparable period in 2000, offset by a decrease in the average yield on interest-earning assets by 6 basis points to 7.31% for the six months ended June 30, 2001 from 7.37% for the six months ended June 30, 2000.

Mortgage loan interest income increased by \$1.8 million for the six months ended June 30, 2001 compared with the same period in 2000. The average balance of mortgage loans increased \$41.6 million, while the loan yield increased by 11 basis points from 7.46% to 7.57%. Interest income from investment securities, mortgage-backed securities and short-term deposits decreased by \$12,000 for the six months ended June 30, 2001, compared with the same period in 2000. This decrease resulted from a combination of an increase in average balance of \$11.6 million and offset by a 73 basis point decrease in yield.

Interest Expense. Interest expense increased by \$2.2 million, or 20.5%, to \$12.9 million for the six months ended June 30, 2001 from \$10.7 million for the six months ended June 30, 2000. This increase resulted from the combination of an increase in the average balance of interest-bearing liabilities, and an overall increase in the average rate paid on those interest-bearing liabilities. The average balance of interest-bearing liabilities increased by \$64.7 million, or 14.6%, to \$506.9 million at June 30, 2001 from \$442.2 million at June 30, 2000. This change reflects a \$26.4 million increase in the deposit accounts, which is largely attributed to a \$26.9 million increase in money market accounts. The remaining \$38.3 million increase is attributable to advances from the FHLB-Chicago. The average rate paid on combined deposits and borrowed money increased by 25 basis points to 5.08% for the six months ended June 30, 2001 from 4.83% for the six months ended June 30, 2000.

Net Interest Income Before Provision for Loan Losses. Net interest income before provision for loan losses increased \$319,000, or 3.9%, to \$8.5 million for the six months ended June 30, 2001 from

\$8.2 million for the comparable period in 2000. The net interest margin as a percent of interest-earning assets decreased by 29 basis points to 2.92% for the six months ended June 30, 2001 from 3.21% for the comparable period in 2000.

Provision for Loan Losses. The provision for loan losses increased by \$39,000, to \$195,000 for the six months ended June 30, 2001 from \$156,000 in 2000. At June 30, 2001, December 31, 2000 and June 30, 2000, non-performing loans totaled \$3.1 million, \$4.5 million and

Edgar Filing: EFC BANCORP INC - Form 10-Q

\$911,000, respectively. At June 30, 2001, the ratio of the allowance for loan losses to non-performing loans was 63.9% compared to 41.5% at December 31, 2000 and 186.4% at June 30, 2000. The ratio of the allowance to total loans was 0.40%, 0.41% and 0.39%, at June 30, 2001, December 31, 2000 and June 30, 2000, respectively. Charge-offs totaled \$85,000 and \$3,000 for the six months ended June 30, 2001 and 2000, respectively. Management periodically calculates an allowance sufficiency analysis based upon the portfolio composition, asset classifications, loan-to-value ratios, potential impairments in the loan portfolio, and other factors.

Noninterest Income. Noninterest income totaled \$741,000 and \$625,000 for the six months ended June 30, 2001 and 2000, respectively. The increase in noninterest income is primarily attributable to an increase in insurance and brokerage commission income of \$105,000 and an increase in service fees of \$71,000, partially offset by a decrease in gain on sale of securities of \$69,000.

Noninterest Expense. Noninterest expense increased \$585,000, to \$6.2 million for the six months ended June 30, 2001 from \$5.6 million for the comparable period in 2000. Compensation and benefits increased by \$329,000. This increase was primarily due to a combination of annual salary increases and the addition of staff. The additional staff expenses are primarily attributed to the opening of the Bank's new East Dundee, Illinois branch and the hiring of human resource personnel. All other operating expenses, including advertising, marketing, postage, communications, data processing and other office expense increased by a combined \$256,000, or 10.1%, to \$2.8 million for the six months ended June 30, 2001 from \$2.5 million for the six months ended June 30, 2000. Management continues to emphasize the importance of expense management and control while continuing to provide expanded banking services to a growing market base.

Income Tax Expense. Income tax expense totaled \$1.0 million and \$1.1 million for the six months ended June 30, 2001 and 2000, respectively. The effective tax rate was 35.0% and 35.7% for the six months ended June 30, 2001 and 2000, respectively.

Liquidity and Capital Resources

The Bank's primary sources of funds are savings deposits, proceeds from the principal and interest payments on loans and proceeds from the maturity of securities and borrowings from the FHLB-Chicago. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit outflows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition.

The primary investing activities of the Bank are the origination of residential one-to-four-family loans and, to a lesser extent multi-family and commercial real estate, construction and land, commercial and consumer loans and the purchase of mortgage-backed and mortgage-related securities. In addition, the Bank purchases loans, consisting of single-family, multi-family and commercial real estate. Deposit flows are affected by the level of interest rates, the interest rates and products offered by the local competitors, the Bank and other factors.

In addition to the primary investing activities of the Bank, the Company has repurchased shares of its common stock from time to time in the open market. The Company is in the process of its fifth stock repurchase program.

9

The Bank's most liquid assets are cash and interest-bearing demand accounts. The levels of these assets are dependent on the Bank's operating, financing, lending and investing activities during any given period. At June 30, 2001, cash and interest-bearing demand accounts totaled \$21.0 million, or 3.4% of total assets.

See the "Consolidated Statements of Cash Flows" in the Unaudited Consolidated Financial Statements included in this Form 10-Q for the sources and uses of cash flows for operating, investing and financing activities for the six months ended June 30, 2001 and 2000.

At June 30, 2001, the Bank exceeded all of its regulatory capital requirements. The following is a summary of the Bank's regulatory capital ratios at June 30, 2001:

Total Capital to Total Assets	10.25%
Total Capital to Risk-Weighted Assets	15.54%
Tier I Leverage Ratio	10.22%
Tier I to Risk-Weighted Assets	15.43%

At June 30, 2001, the Company had a Total Capital to Total Assets ratio of 11.05%.

On June 7, 2001, the Company announced its second quarter dividend of \$0.1250 per share, which represents an increase from the first quarter dividend of \$0.1225 per share. The dividend was paid on July 10, 2001 to stockholders of record on June 29, 2001.

Recent Accounting Pronouncements

Edgar Filing: EFC BANCORP INC - Form 10-Q

"SFAS" No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities", was issued by the "FASB" in September 2000. SFAS No. 140 supercedes and replaces FASB SFAS No. 125, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". Accordingly, SFAS No. 140 is now the authoritative accounting literature for transfers and servicing of financial assets and extinguishments of liabilities. SFAS No. 140 also includes several additional disclosure requirements in the area of securitized financial assets and collateral arrangements. The provisions of SFAS No. 140 related to transfers of financial assets are to be applied to all transfers of assets occurring after March 31, 2001. The collateral recognition and disclosure provisions in SFAS No. 140 were effective for fiscal years ending December 31, 2000. The adoption of SFAS No. 140 did not have a material impact on the Company's results of operations or financial condition.

In July 2001, the FASB issued SFAS No. 141, "*Business Combinations*" (SFAS No. 141) and SFAS No. 142, "*Goodwill and Other Intangible Assets*" (SFAS No. 142). SFAS No. 141 requires that all business combinations initiated after June 30, 2001 be accounted for under the purchase method and addresses the initial recognition and measurement of goodwill and other intangible assets acquired in a business combination. SFAS No. 142 addresses the initial recognition and measurement of intangible assets acquired outside of a business combination and the accounting for goodwill and other intangible assets subsequent to their acquisition. SFAS No. 142 provides that intangible assets with finite useful lives be amortized and that goodwill and intangible assets with indefinite lives will not be amortized, but will rather be tested at least annually for impairment. SFAS No. 142 is effective January 1, 2002 for calendar year companies, however, any acquired goodwill or intangible assets recorded in transactions closed subsequent to June 30, 2001 will be subject immediately to the nonamortization and amortization provisions of SFAS No. 142. The Company anticipates that the adoption of SFAS No. 141 and No. 142 will not have a material impact on the Company's results of operations or financial condition.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Bank's interest rate sensitivity is monitored by management through the use of a Net Portfolio Value Model which generates estimates of the change in the Bank's net portfolio value ("NPV") over a range of interest rate scenarios. NPV is the present value of expected cash flows from assets, liabilities, and off-balance sheet contracts. The NPV ratio, under any interest rate scenario, is defined as the NPV in that scenario divided by the market value of assets in the same scenario. The model assumes estimated prepayment rates, reinvestment rates and deposit decay rates. The Sensitivity Measure is the decline in the NPV ratio, in basis points, caused by a 2% increase or decrease in rates, whichever produces a larger decline. The higher the institution's Sensitivity Ratio, the greater its exposure to interest rate risk is considered to be. The following NPV Table sets forth the Bank's NPV as of June 30, 2001.

(In thousands)

Change in Interest Rates in Basis Points (Rate Shock)	Net Portfolio Value			NPV as % of Portfolio Value of Assets	
	Amount	\$ Change	% Change	NPV Ratio	% Change
+300	\$ 49,707	\$ (31,358)	(38.68)%	8.35%	(35.17)%
+200	59,064	(22,001)	(27.14)	9.76	(24.22)
+100	70,093	(10,972)	(13.53)	11.35	(11.88)
Static	81,065			12.88	
-100	89,007	7,942	9.80	13.94	8.23
-200	91,878	10,813	13.34	14.30	11.02
-300	96,600	15,535	19.16	14.89	15.61

Certain shortcomings are inherent in the methodology used in the above interest rate risk measurements. Modeling changes in NPV require the making of certain assumptions which may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the NPV Table presented assumes that the composition of the Bank's interest sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and also assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration to maturity or repricing of specific assets and liabilities. Accordingly, although the NPV Table provides an indication of the Bank's interest rate risk exposure at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on the Bank's net interest income and may differ from actual results.
