PART I

Item 1. Business

Woodward Governor Company was established in 1870 and incorporated in 1902. Headquartered in Rockford, Illinois and serving global markets from locations worldwide, we design, manufacture, and service energy control systems and components for aircraft and industrial engines, turbines, and other power equipment. Leading OEMs (original equipment manufacturers) throughout the world use our products and services in the power generation, process industries, transportation, and aerospace markets.

Our operations are organized based on the nature of products and related services provided and consist of two reportable segments Industrial Controls and Aircraft Engine Systems. Industrial Controls provides energy control systems and components primarily to OEMs of industrial engines, turbines, and other power equipment. Aircraft Engine Systems provides energy control systems and components primarily to OEMs of aircraft engines.

Information about our operations in 2001 and outlook for the future, including certain segment information, is included in "Management's Discussion and Analysis" on pages 14 through 21 of our 2001 Annual Report, incorporated here by reference. Additional segment information and certain geographical information is included in Note R to the Consolidated Financial Statements, on page 33 of our 2001 Annual Report, incorporated here by reference. Other information about our business follows.

Industrial Controls

We provide energy control systems and components through Industrial Controls, primarily to OEMs of industrial engines, turbines, and other power equipment. We also sell components as spares or replacements, and provide other related services to these customers and other customers. In 2001, our largest customer was General Electric Company, accounting for about 38% of Industrial Controls' sales.

We generally sell Industrial Controls' products and services directly to our customers, although we also generate sales through distributors, dealers, and independent service facilities. We carry certain finished goods and component parts inventory to meet rapid delivery requirements of customers, primarily for aftermarket needs. We do not believe Industrial Controls' sales are subject to significant seasonal variation.

During 2001, we acquired the Bryce diesel fuel injection business of Delphi Automotive Systems to extend and complement our existing products for the important medium-speed diesel market. We also acquired Hoeflich Controls, Inc. to add to our ignition systems technology for gas engines.

We believe Industrial Controls has a significant competitive position within the market for energy control systems and components for industrial engines. We compete with as many as 10 other independent manufacturers and with the in-house control operations of OEMs. While published information is not available in sufficient detail to enable an accurate assessment, we believe we hold a strong position among the independent manufacturers for power generation, transportation, and process industries markets. Companies compete principally on price, quality and customer service. We also see increasing demand for products that result in lower environmental emissions, particularly in gas turbine applications. In our opinion, our prices are generally competitive and our quality, customer service and technology used in products to reduce emissions are favorable competitive factors.

Industrial Controls' backlog orders were \$96 million at November 30, 2001, approximately 95% of which we expect to fill by September 30, 2002. Last year, Industrial Controls' backlog orders were \$97 million at November 30, 2000, approximately 94% of which we expected to fill by September 30,

2001. Backlog orders are not necessarily an indicator of future billing levels because of variations in lead times.

Industrial Controls' products make use of several patents and trademarks of various durations that we believe are collectively important. However, we do not consider our business dependent upon any one patent or trademark. Our products consist of mechanical, electronic and electromagnetic components. Mechanical components are machined primarily from aluminum, iron, and steel. Generally there are numerous sources for the raw materials and components used in our products, and they are believed to be sufficiently available to meet all Industrial Controls' requirements.

Aircraft Engine Systems

We provide energy control systems and components through Aircraft Engine Systems, primarily to OEMs of aircraft engines for use in those engines. We also sell components as spares or replacements, and provide repair and overhaul services to these customers and other customers. In 2001, our largest customer was General Electric Company, accounting for about 25% of Aircraft Engine Systems' sales.

We generally sell Aircraft Engine Systems' products and services directly to our customers, although we also generate aftermarket sales through distributors, dealers, and independent service facilities. We carry certain finished goods and component parts inventory to meet rapid delivery requirements of customers, primarily for aftermarket needs. We do not believe Aircraft Engine Systems' sales are subject to significant seasonal variation.

We believe Aircraft Engine Systems has a significant competitive position within the market for energy control systems and components for aircraft engines. We compete with several other manufacturers, including divisions of OEMs of aircraft engines. While published information is not available in sufficient detail to enable an accurate assessment, we do not believe any company holds a dominant competitive position. Companies compete principally on price, quality and customer service. In our opinion, our prices are generally competitive, and our quality and customer service are favorable competitive factors.

Edgar Filing: WOODWARD GOVERNOR CO - Form 10-K405

Aircraft Engine Systems' backlog orders were \$177 million at November 30, 2001, approximately 77% of which we expect to fill by September 30, 2002. Last year, Aircraft Engine Systems' backlog orders were \$163 million at November 30, 2000, approximately 77% of which we expected to fill by September 30, 2001. Backlog orders are not necessarily an indicator of future billing levels because of variations in lead times.

Aircraft Engine Systems' products make use of several patents and trademarks of various durations that we believe are collectively important. However, we do not consider our business dependent upon any one patent or trademark. Our products consist of mechanical, electronic, and electromagnetic components. Mechanical components are machined primarily from aluminum, iron, and steel. Generally there are numerous sources for the raw materials and components used in our products, and they are believed to be sufficiently available to meet all Aircraft Engine Systems' requirements.

Other Matters

We spent approximately \$30.4 million for company-sponsored research and development activities in 2001, \$29.1 million in 2000, and \$24.6 million in 1999.

We are currently involved in matters of litigation arising from the normal course of business, including certain environmental matters. These matters are discussed in Note P to the Consolidated Financial Statements on page 32 of our 2001 Annual Report, incorporated here by reference. We do not believe that compliance with provisions regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, will have any material effect on our financial condition and competitive position, although such matters could have a material effect on our

2

quarterly or annual operating results and cash flows (including capital expenditures) in a future period. We are not aware of any material capital expenditures that we will make for environmental control facilities through September 30, 2002.

We employed about 3,654 people at November 30, 2001.

This report and the 2001 Annual Report, sections of which have been incorporated by reference, contain forward-looking statements and should be read with the "Cautionary Statement" on page 35 of the 2001 Annual Report, incorporated here by reference.

Item 2. Properties

Our principal plants are as follows:

United States

Fort Collins, Colorado Industrial Controls' manufacturing
Loveland, Colorado Industrial Controls' manufacturing and partially leased to a third party
Rockford, Illinois Aircraft Engine Systems' manufacturing and corporate offices
Rockton, Illinois Aircraft Engine Systems' manufacturing and repair and overhaul
Memphis, Michigan (leased) Industrial Controls' manufacturing
Zeeland, Michigan Aircraft Engine Systems' manufacturing
Buffalo, New York Aircraft Engine Systems' manufacturing
Greenville, South Carolina (leased) Industrial Controls' manufacturing

Other Countries

Aken, Germany (leased) Industrial Controls' manufacturing
Tomisato, Chiba, Japan Industrial Controls' manufacturing
Hoofddorp, The Netherlands Industrial Controls' manufacturing
Cheltenham, England, United Kingdom Industrial Controls' manufacturing
Prestwick, Scotland, United Kingdom (leased) Aircraft Engine Systems' repair and overhaul

Our principal plants are suitable and adequate for the manufacturing and other activities performed at those plants, and we believe our utilization levels are generally high. With continuing advancements in manufacturing technology and operational improvements, we believe we can continue to increase production without additional plants.

In addition to the principal plants listed above, we lease several facilities in locations worldwide, used primarily for sales and service activities.

Item 3. Legal Proceedings

We are currently involved in environmental litigation. These matters are discussed in Note P to the Consolidated Financial Statements on page 32 of our 2001 Annual Report, incorporated here by reference.

Item 4. Submission of Matters to a Vote of Shareholders

There were no matters submitted to a vote of shareholders during the fourth quarter of the year ended September 30, 2001.

3

PART II

Item 5. Market for the Registrant's Common Stock and Related Shareholder Matters

Our common stock is listed on the Nasdaq National Market and at November 30, 2001, there were 1,606 holders of record. Cash dividends were declared quarterly during 2001 and 2000. The amount of cash dividends per share and the high and low sales price per share for our common stock for each fiscal quarter in 2001 and 2000 are included in the "Selected Quarterly Financial Data" on page 35 of the 2001 Annual Report, incorporated here by reference.

Item 6. Selected Financial Data

Selected financial data is included in the "Summary of Operations/Eleven-Year Record" on page 36 of our 2001 Annual Report, incorporated here by reference.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

"Management's Discussion and Analysis" is included on pages 14 through 21 of our 2001 Annual Report, incorporated here by reference. This discussion should be read with the consolidated financial statements on pages 22 through 33 of our 2001 Annual Report and the "Cautionary Statement" on page 35 of our 2001 Annual Report, both incorporated here by reference.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Disclosures about market risk are included under the captions "Other Matters Market Risks" on page 21 of our 2001 Annual Report, incorporated here by reference.

Item 8. Financial Statements and Supplementary Data

Consolidated financial statements and schedules, as listed in Item 14(a) and excluding the two items listed under the caption "Other Financial Statement Schedules", are incorporated here by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There have been no changes in or disagreements on accounting principles and financial disclosure. PricewaterhouseCoopers LLP, or its predecessors, have been our independent accountants since 1940.

4

PART III

Item 10. Directors and Executive Officers of the Registrant

Executive Officers:

John A. Halbrook, age 56 chairman and chief executive officer since January 1995; chief executive officer and president November 1993 through January 1995; president November 1991 through November 1993.

Stephen P. Carter, age 50 vice president, chief financial officer, and treasurer since January 1997; vice president and treasurer September 1996 through January 1997; and assistant treasurer January 1994 through September 1996.

Thomas A. Gendron, age 40 vice president and general manager of Industrial Controls since June 2001; vice president of Industrial Controls April 2000 through May 2001; director of global marketing and Industrial Controls' business development February 1999 through March 2000; and marketing and product support manager of Aircraft Engine Systems November 1990 through January 1999.

Ronald E. Fulkrod, age 57 vice president of the company since June 2001, vice president of Industrial Controls April 2000 through May 2001; vice president of Industrial Controls' operations January 1997 through March 2000; and vice president of the company January 1993 through December 1996.

C. Phillip Turner, age 60 vice president and general manager of Aircraft Engine Systems since 1988.

Carol J. Manning, age 51 secretary since June 1991.

With the exception of Messrs. Gendron and Fulkrod, all executive officers were elected to their current positions at the January 24, 2001, Board of Directors meeting to serve until the January 23, 2002, Board of Directors meeting, or until their successors have been elected. Messrs. Gendron and Fulkrod were appointed to their current positions at the July 25, 2001, Board of Directors meeting to serve until the January 23, 2002, Board of Directors meeting.

Other information regarding our directors and executive officers is under the captions "Board of Directors" on pages 6 through 7 and "Section 16(a) Beneficial Ownership Reporting Compliance" on page 9 of our proxy statement dated December 6, 2001, incorporated here by reference.

Item 11. Executive Compensation

Executive compensation is under the captions "Board of Directors Director Compensation" on page 8, "Executive Compensation" on pages 12 through 13, "Stock Options" on pages 13 through 14, and "Long-Term Management Incentive Compensation Plan Awards" on page 14 of our proxy statement dated December 6, 2001, incorporated here by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management

Security ownership of certain beneficial owners and management is under the tables captioned "Share Ownership of Management" and "Persons Owning More than Five Percent of Woodward Stock" on pages 8 through 9 of our proxy statement dated December 6, 2001, incorporated here by reference.

Item 13. Certain Relationships and Related Transactions

Information regarding certain relationships and related transactions is under the caption "Board of Directors Director Compensation" on page 8 of our proxy statement dated December 6, 2001, incorporated here by reference.

5

PART IV**Item 14. Exhibits, Financial Statement Schedules, and Reports on Form 8-K***(a) Index to Consolidated Financial Statements and Schedules*

	Reference	
	Form 10-K Annual Report Page	Annual Report to Shareholders Page
Annual report to shareholders for the fiscal year ended September 30, 2001, filed as Exhibit 13 to this Form 10-K and incorporated by reference:

SIGNATURES

This report has been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and the financial statements referenced have been prepared in accordance with such rules and regulations and with generally accepted accounting principles, by officers and members of Woodward Governor Company. This has been done under the general supervision of Stephen P. Carter, vice president, chief financial officer and treasurer. The consolidated financial statements have been audited by PricewaterhouseCoopers LLP, independent accountants, as indicated in their report in the annual report to shareholders for the fiscal year ended September 30, 2001.

This report contains much detailed information of which the various signatories cannot and do not have independent personal knowledge. The signatories believe, however, that the preparation and review processes summarized above are such as to afford reasonable assurance of compliance with applicable requirements.

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Shareholders
Woodward Governor Company

Our audits of the consolidated financial statements referred to in our report dated October 31, 2001, appearing on page 34 in the 2001 Annual Report to Shareholders of Woodward Governor Company (which report and consolidated financial statements are incorporated by reference in this Annual Report on Form 10-K) also included an audit of the financial statement schedule listed in Item 14(a) of this Form 10-K. In our opinion, the financial statement schedule presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements.

PricewaterhouseCoopers LLP
