**PROXY STATEMENT
ANNUAL STOCKHOLDERS' MEETING
TO BE HELD JUNE 4, 2002**

GENERAL

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Option Care, Inc., a Delaware corporation (the "Company"), for use at the Annual Meeting of Stockholders to be held on Tuesday, June 4, 2002, at 10:00 a.m., local time, in the Robert Todd Lincoln Rooms 1 and 2 at The Chicago Club, 81 East Van Buren Street, Chicago, Illinois, and any adjournment thereof.

The Notice of Annual Meeting to which this Proxy Statement is attached lists the matters which the Company intends to propose at the Annual Meeting for approval and these matters are discussed in detail later in this Proxy Statement. Other than the matters listed in the Notice of Annual Meeting and discussed herein, the Board does not currently intend, nor does it know of anyone else who intends, to present any other matter for consideration at the Annual Meeting.

All proxies will be voted in accordance with the instructions contained in the proxy. If no choice is specified, proxies will be voted "FOR" the election of each of the nominees for director proposed by the Board of Directors as set forth in Proposal 1, "FOR" the amendment of the Company's Amended and Restated Stock Incentive Plan as set forth in Proposal 2, "FOR" the amendment of the Company's Certificate of Incorporation as set forth in Proposal 3 and "FOR" the appointment of Ernst & Young, LLP as independent auditors of the Company for the fiscal year 2002 as set forth in Proposal 4. If any other matters properly come before the Annual Meeting, the persons named as proxies in the accompanying Proxy Card will be authorized to vote or otherwise act on these matters using their reasonable judgment and discretion; provided, however, that proxies directing a vote against a proposal may not be voted for a proposal to adjourn the Annual Meeting to permit further solicitation in favor of the original proposal. A stockholder who executes a proxy may revoke it at any time before it is voted by delivering to the Company another proxy bearing a later date, by submitting written notice of such revocation to the Secretary of the Company, or by personally appearing at the Annual Meeting and casting a contrary vote.

The Annual Meeting will be able to consider and vote upon proposals only if at least a majority of the shares entitled to vote at the Annual Meeting are represented at the Annual Meeting in person or by proxy. Assuming the requisite number of shares are represented at the Annual Meeting, each proposal will be voted on separately and the vote required to approve each proposal is described below. A plurality of the votes cast is required for the election of directors, which means that the nominees with the two highest vote totals will be elected as directors. As a result, abstentions and broker "non-votes" do not have an effect on the results of the vote for the election of directors. Approval of the proposal to amend the Company's Amended and Restated Stock Incentive Plan requires the affirmative vote of a majority of the shares of Common Stock represented in person or by proxy at the Annual Meeting. Abstentions and broker "non-votes", therefore, will have the effect of a vote against

the proposed amendment to the Amended and Restated Stock Incentive Plan. Approval of the proposal to amend the Company's Certificate of Incorporation will require the affirmative vote of a majority of the Company's issued and outstanding shares of common stock as of the record date. This proposal will be rejected if at least a majority of the total number of shares of Common Stock issued and outstanding as of the record date do not vote "FOR" the proposal, even if approved by a majority of the shares represented at the Annual Meeting. Abstentions and broker "non-votes," therefore, will have the effect of a vote against the proposals to amend the Company's Certificate of Incorporation.

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

Each share of Common Stock entitled to vote at the Annual Meeting is entitled to one vote for each of the proposals identified in this proxy statement. The close of business on April 26, 2002 has been fixed as the record date for the determination of the holders of our Common Stock entitled to notice of and to vote at the Annual Meeting. On April 26, 2002, there were 20,489,130 shares of Common Stock outstanding and entitled to vote, subject to adjustment as described in the remainder of this paragraph. This outstanding share number includes 4,093,016 shares of Common Stock which are deemed to be issued and outstanding following a five-for-four stock split which occurred on April 10, 2002. It is possible that during the process of distributing shares of Common Stock to the Company's beneficial holders pursuant to the stock split there may be an immaterial change in the number of shares of Common Stock issued and outstanding as of April 26, 2002. The Notice of Annual Meeting, this Proxy Statement and the Proxy Card enclosed herewith are being mailed to the holders of our Common Stock as of the record date beginning on or about May 17, 2002.

**PROPOSAL 1. ELECTION OF DIRECTORS
(Proposal 1 on the Proxy Card)**

In accordance with the Company's By-laws, the size of the Board of Directors has been fixed at six members. The Board of Directors is divided into three classes with each class having two directors. Every year one class, or two of the six directors, is elected to a three year term. In November 2000, Roger Stone retired after ten years of service on the Board of Directors. The vacancy created by Mr. Stone's resignation was filled by the appointment of Rajat Rai to the Board of Directors. Mr. Rai shall serve as a director of the Company for the remainder of Mr. Stone's term, which was set to expire in 2003.

This year, the Board of Directors has selected James G. Address and Leo Henikoff as its nominees for election to a three year term as directors of the Company. Both of Messrs. Address and Henikoff currently serve as directors of the Company. Mr. Address was first elected to the Company's Board of Directors in 1991 and Mr. Henikoff became a director in November 2001 when he was appointed by the Board of Directors to fill a vacancy which had existed since June 2000 when Michael A. Rusnak retired after two and one-half years of service on the Board of Directors. A more detailed description of the qualifications and experience of the nominees for election as directors appears below.

The Company believes the above-named nominees for election will be available to serve as directors. However, if prior to the Annual Meeting the Board of Directors makes a good faith determination that either or both of the above-named nominees is unable or unwilling to serve as a

director, any proxy marked "FOR" this proposal will be voted for a substitute nominee selected by the Board of Directors.

Compensation Committee Report on Executive Compensation

The Compensation Committee of the Board of Directors during 2001 was comprised of Messrs. Andress, Hussey, Sheldon, and Stone until Mr. Stone's retirement in May 2001. Dr. Henikoff was appointed to the Compensation Committee in October 2001. All Compensation Committee members are non-employee directors of the Company. All decisions by the Compensation Committee relating to the compensation of the Company's executive officers are reviewed by the full Board. In accordance with rules of the Securities and Exchange Commission designed to enhance disclosure of companies' policies toward executive compensation, the following is a report submitted by the above-listed committee members in their capacity as the Board's Compensation Committee addressing the Company's compensation policy as it related to the named executive officers for 2001.

Compensation Philosophy

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

The goal of the Company's executive compensation policy is to ensure that an appropriate relationship exists between executive pay and the creation of stockholder value, while at the same time motivating and retaining key employees. To achieve this goal, the Company's executive compensation policies integrate annual base compensation with cash and stock bonuses based upon corporate performance and individual initiatives and stock options granted under the Company's stock-based incentive plans. Measurement of corporate performance is primarily based on Company goals and industry performance levels. Accordingly, in years in which performance goals and industry levels are achieved or exceeded, executive compensation would be higher than in years in which performance is below expectations. Annual compensation is designed to attract and retain qualified executives. All executive officers and management in general are also eligible for and participate in an incentive compensation plan that consists of cash bonuses and stock options.

Performance Measures

In evaluating annual bonuses, the Committee examines earnings per share, sales growth and operating results as well as subjective factors relating to performance of management objectives. No specific weight is assigned to any of these factors. The earnings factors are compared with designated Company performance goals, prior years' performance and performance of other companies in the industry. Accordingly, the Company believes it is important that its performance be compared to that of other specialty pharmaceutical companies in order to demonstrate the impact of management's objectives and performance.

Fiscal 2001 Compensation

For fiscal 2001, the Company's executive compensation program consisted of base salary, a cash bonus based upon the performance measurements described above and stock options. Options are granted based primarily on each such person's potential contribution to the Company's growth and profitability. The Committee believes that options and other stock-based performance compensation arrangements are an effective incentive for managers to create value for stockholders because the value of an option bears a direct relationship to the Company's stock price.

Base salary, maximum annual bonus and annual stock option grants for the Chief Executive Officer and all other executive officers were established by a combination of objective and subjective factors. Actual bonus payout is determined by a combination of objective factors relating to the Company's performance relative to targets and comparative companies, and subjective factors relating to the completion of specific management objectives.

Base salaries are believed to be within the range of those persons holding comparably responsible positions at other companies, both regionally and nationally. In addition, other factors are taken into consideration, such as cost of living increases and competitors' performance, as well as the individual's

past performance and potential with the Company. Bonus compensation is also tied to performance goals.

The Committee believes that linking executive compensation to corporate performance results in a better alignment of compensation with corporate goals and stockholder interest. If performance goals are met or exceeded, resulting in increased value to stockholders, executives are rewarded commensurately. The Committee believes that compensation levels during fiscal 2001 adequately reflect the Company's compensation goals and policies.

Chief Executive Officer and Other Senior Executives Compensation

In May 2001, Rajat Rai became the Company's Chief Executive Officer, serving as President and C.E.O. from May 2001 forward. From January through May 2001, Mr. Rai served as President and Chief Operating Officer of the Company. Mr. Rai received an annual salary of \$225,653 in 2001 for his service to the Company, and was granted a total of 312,500 stock options at various dates in 2001. Prior to Rajat Rai's promotion to Chief Executive Officer of the Company, Dr. John Kapoor held that role in addition to serving as the Company's Chairman. Dr. Kapoor received an annual salary of \$100,000 in 2001 for his services as Chairman. Dr. Kapoor was not separately compensated for his duties as Chief Executive Officer during 2001.

Compensation of Directors

Directors receive a stipend of \$1,000 for each board meeting attended in person, \$500 for each board meeting attended via telephone and \$500 for each committee meeting attended. Directors are also reimbursed for out-of-pocket expenses incurred in connection with attendance at Board of Directors and committee meetings. In addition, at the beginning of each year following a non-employee director's initial year of service on the Board, each non-employee director receives an annual grant of an option to purchase 9,375 shares of the Company's common stock at an exercise price equal to the market price on the date of grant.

In order to better and more efficiently discharge its fiduciary duties to the Company's stockholders, the Board has delegated special responsibility and authority with respect to various

12

matters to committees, each of which is intended to have a minimum of three members drawn from the full Board of Directors. During 2001, the Board maintained the following standing committees:

The function of the Audit Committee is to recommend the selection of independent auditors to the Board of Directors, review the methods used and audits made by the auditors in connection with the Company's published financial statements and review with the auditors the Company's financial and operating controls. The Audit Committee also reviews the Company's financial disclosure documents, material litigation and regulatory proceedings and other issues relating to potentially significant corporate liability. Andress, Henikoff and Sheldon are independent as that term is defined in the National Association of Securities Dealers' listing standards, as was Mr. Stone. The Audit Committee met two times during the year ended December 31, 2001.

Compensation Committee. Although primary authority to establish and review performance standards and set compensation levels below the senior office level has been delegated to the Company's President, his decisions remain subject to oversight and review by the Compensation Committee. The function of the Compensation Committee is to determine the annual salary, bonus and other benefits of selected senior officers of the Company and establish and review, as appropriate, performance standards under compensation programs for senior officers. The Compensation Committee met once during the year ended December 31, 2001.

Report of the Audit Committee of the Board of Directors

The Audit Committee assists the Board of Directors in fulfilling its obligations to the Company's stockholders by facilitating communications between, and monitoring and overseeing the performance of, the Company's management and independent auditors, Ernst & Young, LLP. The Audit Committee is not responsible for either preparing or expressing an opinion on the Company's financial statements or for matters related thereto. Management is responsible for the preparation of the Company's

13

financial statements as well as the design, implementation and functioning of the Company's financial reporting processes, including its system of internal controls. The Company's auditors are responsible for making an investigation of the Company and expressing an opinion as to whether the Company's annual financial statements have been prepared in conformity with generally accepted accounting principles.

The members of the Audit Committee are independent of the Company, its management and Ernst & Young, LLP as required by and determined in accordance with applicable standards. The Board of Directors has also determined that the members of the Audit Committee also have the required level of financial literacy to perform the duties required by members of the Audit Committee.

To fulfill its obligations to monitor and oversee the performance of management and the independent auditors, the Audit Committee meets with management and the independent auditors, both jointly and individually. In meetings with management, the Audit Committee has inquired into the quality, not just the acceptability, of the decisions made by management in preparing the financial statements. An emphasis has been placed on assessing the reasonableness of any significant judgments made by management in the preparation of the financial statements, which includes determinations made regarding the applicability of various accounting principles.

The Audit Committee has also met with the independent auditors both individually and with management present. At these meetings, the Audit Committee has considered the scope of and procedures for the Company's annual audit. The Audit Committee also discussed with the independent auditors the results of independent auditors' examination of the Company. During such discussions, the Audit Committee received the independent auditors' evaluation of the Company's system of internal controls and the overall quality of the Company's financial reporting. The Audit Committee has also reviewed with the independent auditors the quality of decisions made by management in the preparation of the financial statements and such other matters as either the Audit Committee or independent auditors deemed necessary or appropriate for both parties to discharge their respective duties, which included a discussion of the matters identified in Statement of Accounting Standards 61.

Finally, the Audit Committee has satisfied itself that Ernst & Young, LLP is independent of the Company and its management. In making this determination, the Audit Committee inquired into such matters as either it or the independent auditors obtained from the independent auditors and reviewed the written disclosure and the letter required by Independence Standards Board Standard No. 1.

Based upon the information it had gathered in its discussions with management and the independent auditors, and in reliance upon the independent auditors report on the Company's audited financial and other representations it received from management and the independent auditors, the Audit Committee has recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K (which report has been filed with the Securities and Exchange Commission and is being delivered to the Company's stockholders with this Proxy Statement).

The Audit Committee operates pursuant to a written Charter which is adopted by the Audit Committee and approved by the full Board of Directors. As dictated by applicable requirements, the Audit Committee evaluated its existing Charter in connection with preparations for this annual meeting. In the course of such evaluation, the Audit Committee determined that it should address the potential ambiguities and uncertainties which resulted from the length and complexity of its existing Charter, as well as the existing Charter's tendency to address issues and requirements that were not relevant to the proper discharge of the Audit Committee's primary responsibilities. The Audit Committee was concerned, in part, that its existing Charter did not provide a clear understanding of the Audit Committee's role and functions by the Company's stockholders.

14

At the conclusion of its evaluation of the current Charter, the Audit Committee reached unanimous agreement that the existing Charter should be replaced with a Charter in the form of Appendix A to this Proxy Statement. The Audit Committee believes that the new Charter represents a substantial improvement, primarily because it clearly and succinctly sets out the role, requirements and duties of the Audit Committee as well as the procedures to be employed by the Audit Committee. The new Charter, which is expected to provide the Company's stockholders with a clearer understanding of the benefits they can reasonably expect from the Audit Committee, was approved by the Company's Board of Directors in April 2002.

The Report of the Audit Committee contained in this Proxy Statement shall not be deemed to be incorporated by reference by any general statement which incorporates by reference this Proxy Statement into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, and it shall not otherwise be deemed filed under such Acts.

**PROPOSAL 2. RATIFICATION OF AMENDMENT TO OPTION CARE'S 1997 AMENDED
AND RESTATED STOCK INCENTIVE PLAN WHICH INCREASED THE NUMBER OF SHARES
OF OPTION CARE'S COMMON STOCK RESERVED FOR ISSUANCE UPON THE
EXERCISE OF OPTIONS GRANTED UNDER THE PLAN
(Proposal 2 on the Proxy Card)**

The Board recognizes that Option Care experiences intense competition from other companies for talented managers and employees and that Option Care's success is dependent upon its ability to attract and retain such personnel. The Board has concluded that one of the best ways to compete for key personnel is to offer significant potential rewards based upon Option Care's success through the issuance of stock options.

The Board believes that all of Option Care's employees should be provided the opportunity to acquire or increase their holdings of shares of Option Care's common stock. By increasing the number of stock options available to Option Care's current and future employees, the Board directly ties the interests of Option Care's employees with the interests of Option Care's stockholders. As Option Care's business and success continues to develop and expand through the work of its employees, the interests of Option Care's stockholders and Option Care's employees also grow together. Incentive stock options, within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options and stock appreciation rights may be granted under Option Care's 1997 Amended and Restated Stock Incentive Plan (the "Plan").

In furtherance of the above, the Board adopted amendments to the Plan in February 1995, May 1997, March 2000, March 2001 and, most recently, in March 2002 to increase the number of shares of Option Care's common stock reserved for issuance upon the exercise of options granted under the Plan from 4,375,000 shares to an aggregate of 5,625,000 shares. Option Care's Board believes that the increase in the number of shares of Option Care's common stock reserved for issuance under the Plan described above will be adequate to retain its current employees and attract and retain future employees hired by Option Care, and deems it in the best interests of Option Care and its stockholders to ratify such amendments.

The most recent amendment to the Plan as described above is subject to ratification by the stockholders.

1997 Amended and Restated Stock Incentive Plan

The Plan was adopted in 1991, and amended in February 1995, May 1997, March 2000, March 2001 and March 2002. The Plan, as amended, provides for the grant of options to purchase up to an aggregate of 5,625,000 shares of common stock, with 381,083 shares of common stock remaining available for grant as of April 10, 2002. The Plan is currently administered by the Stock Incentive Plan Committee of the Board of Directors (the "Committee") who will make discretionary grants ("discretionary grants") of incentive awards, stock options, stock appreciation rights, or combinations thereof, to employees, including employees who are officers and directors of Option Care, non-employee directors and eligible vendors of Option Care. As of December 31, 2001, there were five independent directors (as that term is used in the Plan), seven executive officers, 1,093 employees and

17

zero vendors eligible to participate in the Plan and approximately 819 actual participants in the Plan. Participants are eligible to participate in the Plan if the Committee determines that the participant has the capacity to contribute in substantial measure to the successful performance of the Company and that participation will serve as a valuable performance incentive. The Company will receive continued service by the participants as consideration for the grant of incentive awards, stock options and stock appreciation rights under the Plan. The complete text of the Plan is attached as Appendix B.

All grants and awards under the Plan shall be evidenced by written agreements between the Company and the eligible recipients. The Committee may interpret the Plan and establish rules and regulations for the administration of the Plan, including, without limitation, the imposition of conditions with respect to competitive employment and provisions accelerating vesting or exercisability.

Incentive Awards

Incentive awards, whether performance awards or fixed awards (each as described below), may be made to eligible recipients under the Plan in the form of cash, stock units, restricted shares of common stock or any combination of the foregoing.

Performance awards may be made in terms of a stated potential maximum dollar amount, percentage of compensation or number of units or shares, with the actual amount, number or percentage to be determined by reference to the level of achievement of specific objectives over a performance period of one year to five years, as determined by the Committee.

Fixed awards may be made which are not contingent on the performance of objectives, but are contingent on the recipient's continuing in the Company's employ for a period to be specified in the award, which period shall be one year to ten years from the date of the award.

Stock Options

Options granted pursuant to discretionary grants may be non-qualified stock options or incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). The selection of participants, allotment of shares, determination of price and other conditions of purchase of such options are currently determined by the Committee, in its sole discretion. Options granted under

discretionary grants are exercisable for a period of up to ten years, except that incentive stock options granted to optionees who, at the time the option is granted, own stock representing greater than 10% of the voting power of all classes or series of stock of Option Care, are exercisable for a period of up to five years. The per share exercise price of incentive stock options granted pursuant to discretionary grants must be no less than 100% of the fair market value of the common stock on the date of grant, except that the per share exercise price of incentive stock options granted to optionees who, at the time the option is granted, own stock representing greater than 10% of the voting power of all classes of stock of Option Care, must be no less than 110% of the fair market value of the common stock. The per share exercise price of non-qualified stock options granted pursuant to discretionary grants must be no less than 85% of the fair market value of the common stock on the date of grant. To the extent options are granted at less than fair market value, Option Care incurs a non-cash cost for financial reporting purposes. The pre-stock split market value of the common stock on April 10, 2002 was \$18.92.

An option to purchase 30,000 shares of Common Stock shall automatically be granted to each non-employee director of the Company and that option grant shall be deemed effective as of the initial date that each that non-employee director is first elected as a director of the Company at an annual meeting of the Company's stockholders held for the purpose of electing directors or appointed to the Company's Board. In addition, for each year that a non-employee director serves following his or her initial one-year term, an option to purchase 9,375 shares of common stock shall automatically be granted to that non-employee director and each option grant shall be deemed effective as of the date that such

non-employee director begins his or her next annual term. Notwithstanding any other provision of the Plan relating to the discretion of the Committee to determine the terms of options granted under the Plan, each option granted to the non-employee directors (i) shall be granted with an exercise price equal to the fair market value on the date of grant, (ii) shall be a nonqualified stock option, and (iii) (A) with respect to the option granted to purchase 30,000 shares, shall vest in full immediately upon the date of grant and (B) with respect to the option granted to purchase 9,375 shares, shall vest upon the expiration of the one year term for which such non-employee director was elected.

Options may be exercised during the optionee's continued employment with, or in the case of a vendor, engagement by, the Company or service on the Board, as the case may be, and for a period of ninety days following termination of such employment, engagement or service on the Board, or such other period of time provided in a relevant employment or severance agreement between the optionee and the Company; provided, however, that if employment or engagement of the optionee by the Company or service on the Board, as the case may be, shall have terminated by reason of retirement at or after age 65 or total and permanent disability, then the option may be exercised for a period of one year following termination of employment, engagement or service on the Board, or such other period of time provided in a relevant employment or severance agreement between the optionee and the Company, but in any event not after the expiration of the term of the option.

Each option will be evidenced by an option agreement containing such terms and conditions consistent with the Plan that are approved by the Committee. Option agreements may provide for the exercise of an option in whole or in part from time to time during the term of the option, or in such installments and at such times as the Committee may determine. Options granted under the Plan are non-transferable, except in the event of death of an optionee (i) during employment, engagement or service on the Board, (ii) within one year after the retirement of the employee at or after age 65 or the employee's total and permanent disability or (iii) within ninety days after termination of employment, engagement or service on the Board for any other reason in which case outstanding options may be exercised by the optionee's representative during the remainder of the period during which the optionee could have exercised the options had he or she survived, but not less than ninety days after the optionee's death. No option may be exercised after the expiration of its term. The option exercise price is payable in full upon exercise of an option. No optionee has any of the rights or privileges of a stockholder of the Company with respect to shares issuable upon exercise of an option until certificates representing such shares have been issued and delivered to the optionee.

Stock Appreciation Rights ("SAR")

Rights entitling the grantee to receive cash or shares of common stock having a fair market value equal to the appreciation in market value of a stated number of shares of common stock from the date of grant, or in the case of rights granted in tandem with or by reference to a stock option granted prior to the grant of such rights from the date of grant of the related stock option to the date of exercise, may be granted to such eligible directors, officers and other employees as may be selected by the Committee and approved by the Board. Such right shall not be exercisable unless it shall have been outstanding for at least six months, nor shall such right be exercisable more than ten years after the date of grant. Stock appreciation rights may be exercised during the individual's continued employment with, or engagement by, the Company or service on the Board, as the case may be, and for a period of ninety days following termination of employment or engagement or service, or such other period of time provided in a relevant employment or severance agreement between the individual and the Company, and only within the original term of the grant. Upon exercise of a right, the grantee shall be paid the excess of the then fair market value of the number of shares to which the right relates over the fair market value of such number of shares as of the date of the grant of the right or of the related stock option, as the case may be. Such excess shall be paid in cash or shares of Common Stock having a fair market value equal to such excess or in such combination thereof as the Committee shall determine.

Termination

The Plan will terminate on April 11, 2007, the tenth anniversary of stockholder approval of the original Plan, unless sooner terminated by action of the Board. No further grants will be made under the Plan after termination, but termination will not affect the rights of any participant under any grants made prior to termination.

The Board, in its sole discretion, may amend, change or modify the Plan in any manner as the Board shall deem advisable, except that no amendment may be made without stockholder approval if such amendment would cause the Plan to fail to comply with Rule 16b-3 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), Section 422 of the Code or any other requirement of applicable law or regulation.

Appropriate adjustments may be made by the Committee to the maximum number of shares to be issued under the Plan, the maximum number of shares to be issued pursuant to incentive awards and the number of shares subject to any option grant to give effect to any stock splits, stock dividends and other relevant changes in capitalization occurring after the effective date of the Plan.

Summary of Federal Income Tax Consequences of the Plan

The following discussion summarizes the material federal income tax consequences of participation in the Plan. This discussion is general in nature and does not address issues related to the tax circumstances of any particular employee. The discussion is based on federal income tax laws in effect on the date hereof and is, therefore, subject to possible future changes in the law. This discussion does not address state, local or foreign tax consequences.

Incentive Stock Options. An optionee will not recognize any income upon either grant or exercise of an incentive stock option, although the exercise may subject the optionee to alternative minimum tax liability in the year of exercise because the excess of the fair market value of the shares at the time of exercise over the option price of the shares is included in income for purposes of the alternative minimum tax. The treatment of any gain realized upon sale or other disposition of the Company's common stock received upon exercise of an incentive stock option will depend on the holding period. If the optionee does not dispose of the stock received within either one year after the exercise of the incentive stock option or two years after grant, any gain realized upon disposition will be characterized as long-term capital gain. If this holding period requirement is not satisfied, such disposition will be a disqualifying disposition. In such a case, the portion of the gain realized on disposition equal to the excess of the fair market value of the shares at the time the incentive stock option was exercised over the option price will be ordinary income taxable as compensation in the year of disposition. The balance, if any, of the gain will be capital gain.

The Company is entitled to a deduction with respect to an incentive stock option only in the taxable year of the Company in which a disqualifying disposition occurs. In that event, the deduction would be equal to the ordinary income, if any, recognized by the optionee upon disposition of the shares, provided that the deduction is not otherwise disallowed under the Code.

Nonqualified Stock Options. An optionee will not recognize any income upon either grant or vesting of a nonqualified stock option. Upon exercise of any part of a nonqualified stock option, the optionee will recognize ordinary income in an amount equal to the difference between the option price and the then fair market value of the shares acquired, assuming the shares are freely transferable or are not subject to a substantial risk of forfeiture. If the shares are not freely transferable and are subject to a substantial risk of forfeiture, the shares will be considered "restricted shares." An optionee who receives restricted shares on exercise of a nonqualified stock option will not be subject to tax on exercise unless the recipient makes an election under Section 83(b) of the Code. Instead, such recipient will be subject to tax at ordinary income rates at the time of the expiration or earlier termination of a

restriction period in an amount equal to the excess of the fair market value of the restricted stock at the time that the restriction period lapses or terminates over the option price. Any further gain on sale of the stock would be capital gain. If a holder makes an election under Section 83(b) of the Code, the holder will be subject to tax at ordinary income rates in an amount equal to the excess of the fair market value of the restricted stock at the date of option exercise over the option price. Any further gain on sale of the stock would be capital gain.

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

In general, upon a subsequent disposition of shares, the optionee's basis for determining taxable gain or loss would be the amount paid for such shares plus the amount that was includable in the optionee's income. Any gain recognized on such disposition would generally be taxed as long-term or short-term capital gain depending on the length of time the optionee is deemed to have held these shares and the holding period in effect at the time.

The Company will be entitled to a deduction for federal income tax purposes upon exercise of a nonqualified stock option in an amount equal to the ordinary income recognized by the optionee, provided that the deduction is not otherwise disallowed under the Code. The Company must withhold taxes from the optionee's compensation with respect to the ordinary income recognized by the optionee upon exercise.

SARs. The treatment of SARs is essentially the same as the treatment of the related options granted under the Plan.

Restricted Shares. The recipient of restricted shares will not be subject to tax upon its grant, unless the recipient makes an election under Section 83(b) of the Code. Assuming no election under Section 83(b) is made, the holder will be subject to tax at ordinary income rates at the time of the expiration or earlier termination of the restriction period in an amount equal to the excess of the fair market value of the restricted stock at the time that the restriction period lapses or terminates over the amount paid for the stock. Any further gain on sale of the stock will be capital gain. If a holder makes an election under Section 83(b) of the Code, the holder will be subject to tax at ordinary income rates based on the fair market value of the restricted stock at the date of grant. Any further gain on sale of the stock would be capital gain.

The Company must withhold taxes and will be entitled to a deduction with respect to the amount of ordinary income recognized by the employee, unless otherwise disallowed under the Code.

Cap on Company Deductions for Certain Compensation. Under the Omnibus Reconciliation Act of 1993, certain compensation payments in excess of \$1 million are subject to a cap on deductibility for the Company. The limitation on deductibility applies with respect to that portion of a compensation payment for a taxable year in excess of \$1 million to either the chief executive officer of the Company or any one of the other four highest paid executives. Certain performance-based compensation is not subject to the cap on deductibility. Stock options can qualify for this performance-based exception, but only if they are granted by the Compensation Committee, they are granted at fair market value, the total number of shares that can be granted to an executive for any period is stated, and stockholder and Board approval is obtained. The Company intends to administer the incentive stock option and nonqualified stock option portions of the Plan to comply with these performance-based criteria.

Restricted shares do not satisfy the definition of performance-based compensation unless the granting or vesting of the restricted shares are based upon the attainment of specified performance goals.

Summary of Other Amendments to Plan

In addition to increasing the number of shares of common stock reserved for issuance under the Plan, the Board also approved the following amendments to the Plan, which do not require stockholder approval:

A more limited definition of the term "Change of Control" upon the occurrence of which all unvested options become immediately exercisable. The term "Change of Control" now only includes a merger, consolidation or reorganization of or involving the Company; a sale of all or substantially all of the assets of the Company; and certain changes in the composition of the Board.

The inclusion of a definition of "Fair Market Value."

As described in more detail above, the addition of formula grants of options for non-employee directors.

More detailed provisions regarding the requirements for an option grant qualifying as an incentive stock option within the meaning of Section 422 of the Code.

A provision allowing for an optionee to make payment of the exercise price under an option through the use of a broker exercise notice.

Voting Approval Required for Proposal No. 2

The approval of the ratification of an amendment to Option Care's 1997 Amended and Restated Stock Incentive Plan to increase the number of shares of Option Care's common stock reserved for issuance upon the exercise of options granted under the Plan from 4,375,000 to 5,625,000 shares, requires the holders of a majority of the shares of Option Care's common stock represented in person or by proxy at the Annual Meeting to Vote "FOR" approval of the proposed amendment. For purposes of voting under Proposal No. 2, a quorum of the shares of Option Care's common stock must be present at the Meeting in order for the stockholders to act upon such proposal. Option Care's bylaws provide that a quorum is established if at least a majority of the total number of votes to be cast on a matter by the holders of shares that are entitled to vote and be counted collectively on such matter are represented in person or by proxy at the Meeting.

Recommendation of the Board of Directors

The Board of Directors recommends that stockholders vote "FOR" the proposal to amend the Plan to increase the number of shares which may be issued thereunder from 4,375,000 shares to 5,625,000 shares.

23

PROPOSAL 3. AMENDMENT TO OPTION CARE'S CERTIFICATE OF INCORPORATION TO (A) INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 30,000,000 SHARES TO 60,000,000 SHARES AND (B) INCREASE THE NUMBER OF AUTHORIZED, BUT UNDESIGNATED, SHARES OF PREFERRED STOCK FROM 5,000,000 SHARES TO 30,000,000 SHARES **(Proposal 3 on the Proxy Card)**

(A)

To authorize the amendment of Option Care's Certificate of Incorporation to increase the number of authorized shares of common stock from 30,000,000 shares to 60,000,000 shares.

We submit to the stockholders a proposal to increase the number of shares of common stock that Option Care is authorized to issue. The Board of directors recommends adoption of the proposal.

Option Care is currently authorized to issue 30,000,000 shares of its common stock, \$0.01 par value per share. As of April 26, 2002, the record date, approximately 20,489,130 shares of common stock were issued and outstanding. Of the remaining authorized but unissued shares, approximately 381,083 shares were reserved for issuance under Option Care's 1997 Amended and Restated Stock Incentive Plan and Option Care's Stock Purchase Plan. Based upon the foregoing, we have approximately 9,129,787 shares of common stock available for issuance for other purposes.

Option Care's board believes it is in the best interests of the Company and its stockholders to increase the number of authorized shares of common stock (a) to take into account additional shares of common stock issued in connection with the Company's five-for-four stock split which occurred on April 10, 2002 and (b) to maintain a sufficient reserve which may be available for future stock dividends or stock splits, financing and acquisition transactions, employee benefit plans and other general corporate purposes. For example, following the five-for-four stock split which occurred on April 10, 2002, the number of issued and outstanding shares of common stock increased from 16,372,256 to 20,465,272. If the amendment is approved, Option Care will have greater flexibility in the future to issue shares in excess of those presently authorized, without the expense and delay of calling and holding a special stockholders' meeting.

Except in connection with its stock incentive and stock purchase plans, Option Care's Board currently has no plans, understandings, agreements, arrangements, or commitments for the issuance of additional shares of common stock and no holder of common stock has any preemptive right with respect to the common stock. Thus, should the Board elect to issue additional shares of common stock, existing stockholders would not have any preferential rights to purchase such shares. If Option Care's Board deems it to be in the best interests of the Company and its shareholders to issue additional shares of common stock in the future, the Board generally would not seek further authorization by vote of the stockholders, unless such authorization is otherwise required by applicable law or stock exchange rules or regulations.

The proposed amendment to increase the authorized number of shares of common stock could, under certain circumstances, have an anti-takeover effect, although this is not the intention of this proposal. For example, in the event of a hostile attempt to take over control of Option Care, it may be possible for Option Care to strategize to impede the attempt by issuing shares of common stock, thereby diluting the voting power of the other outstanding shares and increasing the potential cost to acquire control of Option Care. The proposed amendment could

have the effect of discouraging unsolicited takeover attempts. By potentially discouraging initiation of any unsolicited takeover attempt, the proposed amendment may limit the opportunity for our stockholders to dispose of their shares at a higher price which may be available in a takeover attempt or under a merger proposal. However, Option Care is not aware of any attempt to take control of Option Care and the Board has not presented this proposal with the intent that it be utilized as a type of anti-takeover device.

24

(B)

To authorize the amendment of Option Care's Certificate of Incorporation to increase the number of authorized, but undesignated, shares of preferred stock from 5,000,000 shares to 30,000,000 shares.

We submit to the stockholders a proposal to increase the number of shares of preferred stock which Option Care is authorized to issue. The Board of Directors recommends adoption of the proposal.

Option Care is currently authorized to issue 5,000,000 shares of its preferred stock, \$0.01 par value per share. As of April 26, 2002, the record date, no shares of preferred stock were outstanding. Option Care's Board, with the limitations and restrictions contained in the Certificate of Incorporation and without further action required by Option Care's stockholders, has the authority to issue shares of preferred stock from time to time in one or more series and to fix the number of shares and the relative dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences and any other preferences, special rights and qualifications of any such series.

Option Care's Board believes it is desirable to increase the number of shares of preferred stock that Option Care is authorized to issue for the reasons described below and to provide Option Care with adequate flexibility in the future. If this proposal is adopted by the stockholders, the increased number of authorized shares of preferred stock will be available for issuance from time to time for such purposes and consideration as the Board may approve without further stockholder approval unless that approval is otherwise required by applicable law or stock exchange rule or regulation. Such purposes may include public or private issuances of preferred stock or other securities convertible into preferred stock in connection with financing transactions, establishing strategic relationships with other companies, acquisitions or other corporate transactions, as well as stock dividends, warrants, stock options and other stock-based incentive or compensation programs.

As discussed in (A) above, the proposed amendment to increase the authorized number of shares of preferred stock could have an anti-takeover effect, although this is not the intention of this proposal. The Board has the authority to issue shares of preferred stock without requiring prior stockholder approval, and because of this authority, it could authorize the issuance of shares of preferred stock to a party friendly to existing management to hinder the efforts of those seeking to effect a merger or gain control of Option Care. The issuance of additional shares of preferred stock could also be used to dilute the stock ownership of persons seeking to obtain control of Option Care. Shares of undesignated preferred stock could be used to make acquisitions or to enter into other transactions that might frustrate potential acquirers. This could have the effect of decreasing the market price of our common stock. In addition, any preferred stock designated and issued could have rights equal to or superior to those rights of our outstanding common stock and could be adverse to the voting or other rights of our existing stockholders. The holders of common stock do not presently have preemptive rights to subscribe for the additional shares of preferred stock proposed to be authorized. Finally, any issuance of additional stock could have the effect of diluting the earnings per share and book value per share of all outstanding shares of our common stock, and not just diluting the stock ownership or voting rights of persons seeking to obtain control of Option Care.

Under Delaware law, the proposed amendment cannot occur unless the stockholders approve the proposed amendment to Article 5 of Option Care's Certificate of Incorporation. While this proposal does permit Option Care's management to issue additional stock to attempt to thwart a hostile takeover or merger transaction, Option Care has no immediate agreements, commitments or understandings with respect to the issuance of any of the additional shares of preferred stock that would be authorized by the proposed amendment. Further, Option Care's Board does not presently contemplate the designation and issuance of any preferred stock. The availability of additional shares of preferred stock for issuance, without the delay and expense of obtaining shareholder approval, will

25

afford Option Care greater flexibility in acting upon opportunities and transactions, if any, which may arise in the future.

Proposed Amendments

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

If the proposed amendments described under (A) and (B) above are approved, the first paragraph of Article 5 of Option Care's Certificate of Incorporation would be amended to read as follows:

FIFTH: The total number of shares of all classes of stock which the Corporation shall have authority to issue is 90,000,000, consisting of two classes as follows: 30,000,000 shares of Preferred Stock, par value \$0.01 per share ("Preferred Stock"), and 60,000,000 shares of Common Stock, par value \$0.01 per share ("Common Stock").

Effective Date of Proposed Amendments

The proposed amendments of Article 5 of Option Care's Certificate of Incorporation if adopted by the required vote of the stockholders, will become effective on the date on which the Articles of Amendment to Option Care's Certificate of Incorporation are filed with the Secretary of State of the State of Delaware.

Voting Approval Required for Proposal No. 3

The affirmative vote of holders of a majority of the Company's issued and outstanding shares of common stock as of the record date is required to approve the proposed amendments contained in (A) and (B) above.

Recommendation of the Board of Directors

The Board of Directors recommends that the stockholders vote "FOR" the approval of the amendments to Article 5 of Option Care's Certificate of Incorporation to increase: (a) the number of authorized shares of common stock from 30,000,000 shares to 60,000,000 shares and (b) the number of authorized shares of preferred stock from 5,000,000 shares to 30,000,000 shares.

PROPOSAL 4. RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS (Proposal 4 on the Proxy Card)

The Board of Directors, upon recommendation of its Audit Committee, has selected the accounting firm of Ernst & Young, LLP as the Company's independent auditors with respect to the fiscal year ending December 31, 2002 and proposes the ratification by the stockholders of such selection. Ernst & Young, LLP has served as the Company's independent auditors since January 1998, is familiar with the business and operations of the Company and has offices convenient to the Company's offices.

Representatives of Ernst & Young, LLP will be present at the annual meeting. They will have the opportunity to make a statement and will be available to respond to appropriate questions.

Voting Approval Required for Proposal No. 4

The approval of the ratification of Ernst & Young, LLP as the Company's independent auditors with respect to the fiscal year ending December 31, 2002 requires the affirmative vote of the holders of a majority of the shares of common stock represented in person or by proxy at the Annual Meeting.

26

Recommendation of the Board of Directors

The Board of Directors recommends that the stockholders vote "FOR" the proposal to ratify Ernst & Young, LLP as the Company's independent auditors with respect to the fiscal year ending December 31, 2002.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that the Company's officers and directors, and persons who own more than ten percent of the Company's outstanding stock, file reports of ownership and changes in ownership with the Securities and Exchange Commission. To the knowledge of the Company, all Section 16(a) filing requirements applicable to its officers, directors and greater

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

than ten percent beneficial owners were complied with during the year ended December 31, 2001, with the exception of Cathy Bellehumeur who filed one late report on Form 4 regarding a sale of shares of Option Care common stock in March 2001. The following executive officers and directors failed to file reports to identify the granting of certain stock options in May 2001, August 2001, and November 2001 (as applicable): James Andress, Leo Henikoff, James Hussey, Kent Kerkhof, Bruce Kutinsky, Dushyant Patel, Carla Pondel, Rajat Rai and Jerome Sheldon. The Company is in the process of coordinating the filing of reports by these executive officers and directors and anticipates that filings will be made before the Annual Meeting. In making these statements, Option Care has relied upon examination of the copies of the Forms 3, 4 and 5 provided to Option Care and representations of certain of its directors, officers and 10% stockholders.

STOCKHOLDER PROPOSALS

Proposals of stockholders intended to be presented at the 2003 Annual Meeting of Stockholders are due by January 10, 2003 for inclusion in the Company's Proxy Statement and proxy relating to that meeting. Upon receipt of any such proposal, the Company will determine whether or not to include such proposal in the Proxy Statement and proxy in accordance with regulations governing the solicitation of proxies.

The By-Laws of the Company provide that stockholder proposals which do not appear in the Proxy Statement may be considered at a meeting of stockholders only if written notice of the proposal is received by the Secretary of the Company not less than 60 days and not more than 90 days before the anniversary of the prior years' Annual Meeting; provided, however, that, in the event the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice by the stockholder to be timely must be delivered not earlier than the close of business on the 90th day prior to such annual meeting and not later than the 60th day prior to such annual meeting or the close of business on the 10th day following the day on which public announcement of the date of such meeting is first made by the Company. Any such notice of a stockholder proposal by a stockholder to the Secretary of the Company must be accompanied by (a) a brief description of the business desired to be brought before the Annual Meeting and the reasons for conducting such business at the Annual Meeting, (b) the name and address of the stockholder who intends to present the proposal for a vote, (c) the class and number of shares of Company Common Stock which are beneficially owned by the stockholder, and (d) a description of any material interest of the stockholder in such business.

OPTION CARE, INC.
AMENDED AND RESTATED
STOCK INCENTIVE PLAN
(1997)

I. GENERAL

1. *Plan.* To provide incentives to employees of OPTION CARE, Inc., a Delaware Corporation (the "Company"), or its subsidiary corporations, members of the Board of Directors of the Company (the "Board") and other persons who provide services to the Company or its subsidiary corporations on a regular and substantial basis ("vendors") through rewards based upon the ownership and performance of the common stock of the Company, the Committee hereinafter designated may grant incentive awards, stock options, stock appreciation rights, or combinations thereof, to eligible officers and other employees and vendors on the terms and subject to the conditions stated in this Plan. In addition, members of the Board other than John N. Kapoor ("Directors") are or may be granted options on the terms and subject to the conditions set forth in this Plan. References hereinafter to employment by or the provision of services to the Company shall include references to its subsidiary corporations within the meaning of section 424(f) of the Internal Revenue Code of 1986, as amended (the "Code"). All employees, officers, Directors and vendors eligible to receive grants or awards under this Plan shall be collectively referred to herein as "Eligible Recipients."

2. *Eligibility.* Officers and other employees of the Company and its subsidiaries, and vendors, shall, upon selection by the Committee, be eligible to receive incentive awards, stock options or stock appreciation rights, either singly or in combination, as the Committee, in its discretion, shall determine. Directors shall receive stock options on the terms and subject to the conditions stated in this Plan.

3. *Shares to be Issued.* The maximum number of shares of common stock, par value \$0.01 per share of the Company ("Common Stock"), to be issued pursuant to all grants made under the Plan shall be 5,625,000. The number of shares of Common Stock that may be issued or transferred under this Plan upon the exercise of awards that qualify as incentive stock options may not exceed a maximum of 75,000 shares. The number of shares of Common Stock that may be issued or transferred under this Plan upon the exercise of awards that qualify as nonqualified stock options, shares of restricted stock or stock appreciation rights, may not exceed a maximum of 5,550,000 shares. Shares awarded pursuant to grants which, by reason of the expiration, cancellation or other termination of the grants prior to issuance, are not issued, shall again be available for future grants. Shares of Common Stock to be issued may be authorized and unissued shares, treasury stock or a combination thereof.

4. *Administration of the Plan.* The Plan shall be administered by a committee designated by the Board (the "Committee"). No member of the Committee shall be eligible to participate in, or within one year prior to appointment to the Committee (but disregarding any participation or eligibility for participation during any period of time before the initial registration statement under Section 12 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") of the Company or any of its affiliates becomes effective) shall have participated in or shall have been eligible to participate in, this Plan or any other stock purchase, incentive award, stock option, stock appreciation rights or other stock incentive plan of the Company, except as provided in Article III, Section I(b). The Committee shall, subject to the terms of the Plan establish selection guidelines, select officers and other employees, directors and vendors for participation, and determine the form of grant, either as an incentive award, stock option or stock appreciation rights or combination thereof, determine the form of stock option, the number of shares subject to the grant, the fair market value of the Common Stock when necessary, the time and conditions of vesting or exercise, and all other terms and conditions of the grant. All grants and awards under this Plan shall be evidenced by written agreements ("Option Agreements") between the Company and the participants and no such grant or award shall be valid until so evidenced. The Committee may interpret the Plan and establish rules and regulations for the

administration of the Plan, including without limitation, the imposition of conditions with respect to competitive employment and provisions accelerating vesting or exercisability, not inconsistent with or conflicting with the terms of the Plan. All such rules, regulations, and interpretations relating to the Plan adopted by the Committee shall be conclusive and binding on all parties. The foregoing notwithstanding, neither the Board nor the Committee shall have any discretion to alter the number of shares subject to stock options granted to directors pursuant to Article 3, Section I(b) or the terms or conditions under which such shares are granted except as provided in Article I, Section 5.

5. *Adjustments for Changes in Capitalization.* Appropriate adjustments shall be made by the Committee in the maximum number of shares to be issued under the Plan, the maximum number of shares to be issued pursuant to incentive awards and in the number of shares the subject of any option grant, to give effect to any stock splits, stock dividends and other relevant changes in capitalization occurring after the effective date of the Plan and its amendment and restatements, as applicable.

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

6. *Effective Date and Term of Plan.* The Plan as amended and restated shall be submitted to the stockholders of the Company for approval and if approved shall become effective on the date thereof (the "Effective Date"). The Plan shall terminate ten years thereafter, unless terminated earlier by action of the Board. No further grants shall be made under the Plan after termination, but termination shall not affect the rights of any participant under any grants made prior to termination.

7. *Amendments.* The Board, in its sole discretion, may amend, change or modify this Plan in such respects as the Board shall deem advisable, provided, however, that no amendment may be made without stockholder approval if such amendment would cause the Plan to fail to comply with Rule 16b-3 under the Exchange Act (as such Rule 16b-3 may be amended or applicable from time to time), Section 422 of the Code (with respect to increasing the total number of shares of Common Stock that may be issued or transferred pursuant to the second sentence of Article I, Section 3 upon the exercise of options which are intended to qualify as incentive stock options) or any other requirement of applicable law or regulation (collectively, "Applicable Law").

8. *Certain Transfer Restrictions.* Certain restricted stock awards may contain restrictions on an Eligible Recipient's ability to sell, transfer or dispose of such shares of restricted stock and those restrictions shall be set forth in the respective restricted stock agreement governing such grant.

9. *Change of Control.* Subject to the requirement of Article III, Section 2 hereof that an option must be held by an Eligible Recipient for at least one year before becoming vested with such Eligible Recipient, upon a Change of Control any other vesting period shall end and all otherwise unvested options shall become immediately exercisable. For these purposes, a "Change of Control" shall mean the occurrence of any of the following events:

(a) a merger, consolidation or reorganization of or involving the Company, in which the Company does not survive as an entity independent of other parties to such merger, consolidation or reorganizations;

(b) a sale of all or substantially all of the assets of the Company; or

(c) the date on which the individuals who are members of the Board as of the Effective Date, cease for any reason to constitute a majority of the Board, unless the election, or nomination for election by the Company's stockholders, of any new director or directors was approved by a vote of a majority of the Board, in which case such new director or directors shall, for purposes of this Plan, be considered a member or members of the Board.

10. *No Rights as a Stockholder.* No stock option or award granted under this Plan shall entitle the Eligible Recipient to any dividend, voting or other right of a stockholder unless and until the date of issuance of the shares that are the subject of such option or award, free of all applicable restrictions.

B-2

11. *Continued Employment or Services.* None of the Plan, participation in the Plan or any action by the Board or Committee taken under the Plan shall be construed as giving any person any right to be retained in the employ of the Company or limit the Company's right to terminate the employment or services of any person.

12. *Additional Provisions.*

(a) *Additional Option and/or Award Provisions.* The Board or Committee may, in its sole discretion, include additional provisions in any option or award granted under the Plan, including, without limitation, restrictions on transfer, repurchase rights, or commitments (i) to pay cash bonuses, (ii) to make, arrange for or guaranty loans, or (iii) to transfer other property to optionees upon exercise of options, or such other provisions as shall be determined by the Board or Committee; provided that such additional provisions shall not be inconsistent with any other term or condition of the Plan.

(b) *Acceleration.* The Board or Committee may, in its sole discretion, (i) accelerate the date or dates on which all or any particular option or options granted under the Plan may be exercised; or (ii) extend the dates during which all or any particular option or options granted under the Plan may be exercised; provided, however, that no such extension shall be permitted if it would cause the Plan to fail to comply with Applicable Law (as defined in Article I, Section 7).

II. INCENTIVE AWARDS

1. *Form of Award.* Incentive awards, whether Performance Awards or Fixed Awards (as described below), may be made to Eligible Recipients in the form of (i) cash, whether in an absolute amount or as a percentage of compensation, (ii) stock units, without power to vote and

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

without the entitlement to current dividends, (iii) shares of Common Stock issued to the Eligible Recipient but forfeitable and with restrictions on transfer in any form as hereinafter provided or (iv) any combination of the foregoing. In addition, in the Committee's discretion, the Company may satisfy all or any part of its obligation under an incentive award payable in cash by delivering shares of Common Stock with a then "Fair Market Value" equal to the amount of such obligation or such part thereof. For purposes of this Plan, "Fair Market Value" shall be as established in good faith by the Board or Committee or (a) if the Common Stock is listed on the Nasdaq National Market, the average of the high and low per share sales prices for the Common Stock as reported by the Nasdaq National Market for a single trading day or (b) if the Common Stock is listed on the New York Stock Exchange or the American Stock Exchange, the average of the high and low per share sales prices for the Common Stock as such price is officially quoted in the composite tape of transactions on such exchange for a single trading day. If there is no such reported price for the Common Stock for the date in question, then such price on the last preceding date for which such price exists shall be determinative of the Fair Market Value.

2. *Performance Awards.* Performance Awards may be made in terms of a stated potential maximum dollar amount, percentage or compensation, or number of units or shares, with such actual amount, percentage and number to be determined by reference to the level of achievement of corporate, group, division, individual or other specific objectives over a performance period of not less than one year nor more than five years, as determined by the Committee. No rights or interests of any kind shall be vested in an individual receiving a Performance Award until the conclusion of the performance period and the determination of the level of achievement specified in the award. The vesting period, if any, for a Performance Award shall be as specified in the applicable award or Option Agreement.

3. *Fixed Awards.* Fixed Awards may be made which are not contingent on the performance of objectives, but are contingent on the recipient's continuing in the Company's employ for a period to be specified in the award, which period shall be not less than one year nor more than ten years from the date of award.

B-3

4. *Rights with Respect to Restricted Shares.* If shares of restricted Common Stock are issued pursuant to an Incentive Award, the recipient shall have the right to vote the shares and to receive dividends thereon from the date of issuance, unless and until forfeited.

5. *Rights with Respect to Stock Units.* If stock units are credited to a recipient pursuant to an Incentive Award, amounts equal to dividends otherwise payable on a like number of shares of Common Stock after the crediting of the units shall be credited to an account for the recipient and held until the award is forfeited or paid out. Interest shall be credited on the account annually at a rate equal to the return on five year U.S. Treasury obligations.

6. *Vesting and Resultant Events.* At the time an Incentive Award vests, the award, if in stock units, shall be paid to the recipient either in shares of Common Stock equal to the number of units, in cash equal to the fair market value of such shares, or in such combination thereof as the Committee shall determine, and the recipient's account to which dividends and interest have been credited shall be paid in cash. Shares of restricted Common Stock issued pursuant to an award shall, at the time of vesting, be released from the restrictions.

III. STOCK OPTIONS FOR OFFICERS, OTHER EMPLOYEES, VENDORS AND DIRECTORS

1. *Grants of Options.*

(a) *Discretionary Grants.* The Board or Committee shall have the authority, in its sole discretion, to determine the type or types of awards to be made under the Plan. Such awards may consist of incentive stock options and/or nonqualified stock options. Options may be granted singly or in combination. Notwithstanding the foregoing, no Eligible Recipient may receive in any single calendar year, an option grant to purchase more than 600,000 shares of Common Stock. Notwithstanding the foregoing, option grants to any Independent Director (as defined below) shall be made exclusively pursuant to Article III, Section 1(b) below.

(b) *Formula Grants.* An option to purchase 30,000 shares of Common Stock shall automatically be granted to each Director (as defined in Article I, Section 1 above) of the Company who is not also an officer or employee of the Company (an "Independent Director") and each such option grant shall be deemed effective as of the initial date that each such Independent Director is first elected as a director of the Company at an annual meeting of the Company's stockholders held for the purpose of electing directors or appointed to the Company's Board. In addition, for each year that an Independent Director serves following the initial one-year term of such Director, an option to purchase 9,375 shares of Common Stock shall automatically be granted to each Independent Director and each such option grant shall be deemed effective as of the date that such Independent Director begins his or her next annual term. Notwithstanding any other provision of this Plan relating to the discretion of the Board or Committee to determine the terms of options granted pursuant hereto, each option granted pursuant to this section (i) shall be granted with an exercise price equal to the Fair Market

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

Value on the date of grant, (ii) shall be a nonqualified stock option, and (iii) (A) with respect to the option granted to purchase 30,000 shares, shall vest in full immediately upon the date of grant and (B) with respect to the option granted to purchase 9,375 shares, shall vest upon the expiration of the one year term for which such Independent Director was elected.

2. *Terms of Options.*

(a) Except as otherwise provided in Section 1(b)(iii)(A) above, no option shall be exercisable earlier than one year, nor more than ten years after the date of grant. Subject to the preceding sentence, the exercisability of an option may be conditioned upon the achievement of performance goals established by the Committee.

B-4

(b) (i) The per share option price under incentive stock options shall be not less than 100% of, and the per share option price under options granted to directors shall be 100% of, the fair market value of a share of Common Stock at the time the option is granted, provided, however, that if at the time an option designated as and intended to be an incentive stock option is otherwise to be granted pursuant to the Plan, the optionee owns directly or indirectly (within the meaning of Section 424(d) of the Code) shares of Common Stock of the Company possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or its parent or subsidiary corporations, if any within the meaning of Section 422(b) of the Code), then the option price shall be not less than 110% of the fair market value of the Common Stock as of the date the option is granted, and such option by its terms shall not be exercisable after the expiration of five (5) years from the date the option is granted.

(ii) To the extent the aggregate Fair Market Value (determined as of the date of grant) of Common Stock with respect to which incentive stock options are exercisable for the first time during any calendar year (under the Plan and all other stock option plans of the Company) exceeds \$100,000, such portion in excess of \$100,000 shall be treated as a nonqualified stock option. In the event the Eligible Recipient holds two or more such options that become exercisable for the first time in the same calendar year, such limitation shall be applied on the basis of the order in which such options are granted.

(iii) Individuals who are not employees of the Company or one of its parent corporations or subsidiary corporations may not be granted incentive stock options. For purposes of this section, "parent corporation" and "subsidiary corporation" shall have the meanings attributed to those terms for purposes of Section 422 of the Code.

(iv) To qualify for incentive stock option tax treatment, an option designated as an incentive stock option must be exercised within three months after termination, of employment for reasons other than death, except that, in the case of termination of employment due to disability, such option must be exercised within one year after such termination. Employment shall not be deemed to continue beyond the first 90 days of a leave of absence unless the recipient's reemployment rights are guaranteed by statute or contract. "Total and permanent disability" shall mean a mental or physical impairment of the Eligible Recipient that is expected to result in death or that has lasted or is expected to last for a continuous period of 12 months or more and that causes the Eligible Recipient to be unable, in the opinion of the Company and two independent physicians, to perform his or her duties for the Company and to be engaged in any substantial gainful activity. Total and permanent disability shall be deemed to have occurred on the first day after the Company and the two independent physicians have furnished their opinion of total disability to the Board or Committee.

(v) In order to obtain certain tax benefits afforded to incentive stock options under Section 422 of the Code, the Eligible Recipient must hold the shares issued upon the exercise of an incentive stock option for two years after the date of grant of the incentive stock option and one year from the date of exercise. An Eligible Recipient may be subject to the alternative minimum tax at the time of exercise of an incentive stock option. The Board or Committee may require an Eligible Recipient to give the Company prompt notice of any disposition of shares acquired by the exercise of an incentive stock option prior to the expiration of such holding periods.

(c) The Board or Committee shall establish and set forth in each instrument that evidences an option the time at which or the installments in which the option shall vest and become exercisable, which provisions may be waived by the Board or Committee at any time. To the extent that the right to purchase shares has accrued thereunder, an option may be exercised from time to

B-5

time by written notice to the Company, in accordance with procedures established by the Board or Committee, setting forth the number of shares with respect to which the option is being exercised and accompanied by payment in full as described in subsection

Edgar Filing: OPTION CARE INC/DE - Form DEF 14A

(d) below. The Board or Committee may determine at any time that an option may not be exercised as to less than 100 shares at any one time (or the lesser number of remaining shares covered by the Option).

(d) The exercise price for shares purchased under an option shall be paid in full to the Company by delivery of consideration equal to the product of the option exercise price and the number of shares purchased. Such consideration must be paid in cash or, unless the Board or Committee in its sole discretion determines otherwise, either at the time the option is granted or at any time before it is exercised, a combination of cash and delivery of a properly executed exercise notice, together with irrevocable instructions, to (i) a brokerage firm designated by the Company to deliver promptly to the Company the aggregate amount of sale or loan proceeds to pay the option exercise price and any withholding tax obligations that may arise in connection with the exercise and (ii) the Company to deliver the certificates for such purchased shares directly to such brokerage firm, all in accordance with the regulations of the Federal Reserve Board. In addition, the exercise price for shares purchased under an option may be paid, either singly or in combination with one or more of the alternative forms of payment authorized by this section, by such other consideration as the Board or Committee may permit.

(e) Options may be exercised during the individual's continued employment with, or in the case of a vendor, engagement by, the Company or service on the Board, as the case may be, and for a period of ninety days following termination of such employment, engagement or service on the Board (or such other period of time provided in a relevant employment or severance agreement between the optionee and the Company) and only within the original term of that option; provided, however, that if employment of the optionee by the Company or service on the Board, as the case may be, shall have terminated by reason of retirement at or after age 65 ("Retirement") or total and permanent disability, then the option may be exercised for a period not in excess of one year following such termination of employment or service on the Board (or such other period of time provided in a relevant employment or severance agreement between the optionee and the Company), but in any event not after the expiration of the term of the option. If and to the extent the Committee may, in its discretion, determine the change in an option holder's status from an employee to a vendor, or the transfer of an individual from the employment or engagement or vice versa, the Company or its subsidiaries to the employment or engagement of any affiliate of the Company shall not be treated as a termination of employment or engagement by the Company. The status of another entity as an affiliate of the Company shall be determined by the Committee.

(f) Options shall not be transferable, except that in the event of the death of an optionee (i) during employment, engagement or service on the Board, as the case may be, (ii) within a period not in excess of one year after termination of employment or service on the Board, as the case may be, by reason of Retirement or total and permanent disability or (iii) within ninety days after termination of employment, engagement or service on the Board, as the case may be, for any other reason, outstanding options may be exercised by the executor, administrator or personal representative at such deceased optionee during the remainder of the period during which the optionee could have exercised the option had he survived, but not less than ninety days after the death of such optionee.

3. *Withholding Tax.* An option may provide that the optionee may elect to deliver to the Company (or authorize the Company to retain from the shares purchased upon exercise of such option) whole shares of Common Stock to satisfy the Company's obligation, if any, to withhold federal, state and local income tax required to be withheld in respect of such exercise, provided, however, that in the case of an optionee who is an executive officer or director of the Company (within the meaning

B-6

of Section 16 of the Securities Exchange Act of 1934), such election may not be made during the six-month period beginning on the date of grant of such option and must be made either (i) at least six months prior to the date on which the amount of such withholding tax is determined, (ii) during the ten business day period beginning on the third business day following each release of the Company's quarterly or annual summary of sales and earnings, or (iii) in advance of such ten business day period to be effective within such ten business day period. Any such election shall be irrevocable, but subject to disapproval by the Committee.

IV. STOCK APPRECIATION RIGHTS

1. *Grants.* Rights entitling the grantee to receive cash or shares of Common Stock having a Fair Market Value equal to the appreciation in market value of a stated number of shares of Common Stock from the date of grant, or in the case of rights granted in tandem with or by reference to a stock option granted prior to the grant of such rights, from the date of grant of the related stock option to the date of exercise, may be granted to such eligible officers and other employees as may be selected by the Committee and approved by the Board.

2. *Terms of Grant.* Such rights may be granted in tandem with or with reference to a related stock option, in which event the grantee may elect to exercise either the option or the right, but not both, as to the same shares of Common Stock subject to the option and the right, or the right may be granted independently of a related stock option. In either event, the right shall not be exercisable unless it shall have been outstanding for at least 6 months nor shall such right be exercisable more than ten years after the date of grant. Stock appreciation rights shall not be transferable, except that in the event of the death of a grantee such right shall be exercisable by the same persons and for the same period of

time as the related option. Stock appreciation rights may be exercised during the individual's continued employment with the Company and for a period of ninety days following termination of employment or engagement (or such other period of time provided in a relevant employment or severance agreement between the optionee and the Company), as the case may be, and only within the original term of that grant; provided, however, that if employment of the grantee by the Company and its subsidiaries shall have terminated by reason of the grantee's death, Retirement or total and permanent disability, or if the grantee dies after termination of employment on account of such retirement or disability, then such right shall be exercisable by the same persons and for the same period of time as the related option. If and to the extent the Committee may, in its discretion, determine the change in an option holder's status from an employee to a vendor, or the transfer of an individual from the employment or engagement or vice versa, the Company or its subsidiaries to the employment or engagement of any affiliate of the Company shall not be treated as a termination of employment or engagement by the Company. The status of another entity as an affiliate of the Company shall be determined by the Committee.

3. *Payment on Exercise.* Upon exercise of a right, the grantee shall be paid the excess of the then fair market value of the number of shares to which the right relates over the fair market value of such number of shares at the date of grant of the right or of the related stock option, as the case may be. Such excess shall be paid in cash or in shares of Common Stock having a Fair Market Value equal to such excess or in such combination thereof as the Committee shall determine.
