### AVAILABLE INFORMATION

The Bear Stearns Companies Inc. and its subsidiaries ("Company") files current, annual and quarterly reports, proxy statements and other information required by the Securities Exchange Act of 1934, as amended, with the Securities and Exchange Commission ("SEC"). You may read and copy any document the Company files at the SEC's public reference room located at 450 Fifth Street, N.W., Washington, D.C. 20549, U.S.A. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. The Company's SEC filings are also available to the public from the SEC's internet site at <http://www.sec.gov>. Copies of these reports, proxy statements and other information can also be inspected at the offices of the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005, U.S.A.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

The Company's public internet site is <http://www.bearstearns.com>. The Company makes available free of charge through its internet site, via a link to the SEC's internet site at <http://www.sec.gov>, its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and Forms 3, 4 and 5 filed on behalf of directors and executive officers and any amendments to those reports filed or furnished pursuant to the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after it electronically files such material with, or furnishes it to, the SEC.

In addition, the Company currently makes available on <http://www.bearstearns.com> its most recent annual report on Form 10-K, its quarterly reports on Form 10-Q for the current fiscal year and its most recent proxy statement, although in some cases these documents are not available on that site as soon as they are available on the SEC's internet site. Also posted on the Company's website, and available in print upon request of any stockholder to the Investor Relations Department, are charters for the Company's Audit Committee, Compensation Committee, Corporate Governance Committee, Nominating Committee and Qualified Legal Compliance Committee. Copies of the Corporate Governance Guidelines and the Code of Business Conduct and Ethics (the "Code") governing our directors, officers and employees are also posted on the Company's website within the "Corporate Governance" section under the heading "About Bear Stearns." You will need to have on your computer the Adobe Acrobat Reader software to view these documents, which are in the .PDF format.

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Bear Stearns Companies Inc. is a holding company that, through its broker-dealer and international bank subsidiaries, principally Bear, Stearns & Co. Inc. ("Bear Stearns"), Bear, Stearns Securities Corp. ("BSSC"), Bear, Stearns International Limited ("BSIL") and Bear Stearns Bank plc ("BSB"), is primarily engaged in business as a securities broker-dealer and operates in three principal segments: Capital Markets, Global Clearing Services and Wealth Management. Capital Markets is comprised of the institutional equities, fixed income and investment banking areas. Global Clearing Services provides clearance related services for prime brokerage clients and clearance on a fully-disclosed basis for introducing broker dealers. Wealth Management is comprised of the Private Client Services ("PCS") and asset management areas. See Note 8, "Segment Data," in the Notes to Condensed Consolidated Financial Statements. The Company also conducts significant activities through other wholly owned subsidiaries including: Bear Stearns Global Lending Limited, Custodial Trust Company, Bear Stearns Financial Products Inc., Bear Stearns Capital Markets Inc., EMC Mortgage Corporation, Bear Stearns Commercial Mortgage Inc., Bear Stearns Credit Products Inc. and Bear Stearns Forex Inc.

The condensed consolidated financial statements include the accounts of The Bear Stearns Companies Inc. and its subsidiaries ("Company"). All material intercompany transactions and balances have been eliminated in consolidation. Certain prior period amounts have been reclassified to conform to the current period's presentation. The Condensed Consolidated Statement of Financial Condition as of May 31, 2004, the Condensed Consolidated Statements of Income for the three and six months ended May 31, 2004 and May 31, 2003 and the Condensed Consolidated Statements of Cash Flows for the six months ended May 31, 2004 and May 31, 2003 are unaudited. The November 30, 2003 Condensed Consolidated Statement of Financial Condition and related information was derived from the audited

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

financial statements.

The condensed consolidated financial statements are prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") with respect to the Form 10-Q and reflect all adjustments which in the opinion of management are normal and recurring, which are necessary for a fair statement of the results for the interim periods presented. In accordance with such rules and regulations, certain disclosures that are normally included in annual financial statements have been omitted. These financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended November 30, 2003 filed by the Company under the Securities Exchange Act of 1934.

The condensed consolidated financial statements include the accounts of the Company, its wholly owned subsidiaries and other entities in which the Company has a controlling financial interest. The Company's policy is to consolidate all entities in which it owns more than 50% of the outstanding voting stock unless it does not control the entity. In accordance with Financial Accounting Standards Board ("FASB") Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN No. 46"), or FIN No. 46, as revised ("FIN No. 46 (R)") issued in December 2003, the Company also consolidates any variable interest entities ("VIEs") for which it is the primary beneficiary. The assets and related liabilities of such variable interest entities have been shown in the Condensed Consolidated Statement of Financial Condition in the captions "Assets of variable interest entities" and "Liabilities of variable interest entities." See Note 10, "Consolidation of Variable Interest Entities," in the Notes to Condensed Consolidated Financial Statements.

The Company participates, through a majority-owned joint venture, in specialist activities on the NYSE, AMEX and International Securities Exchange. Due to the occurrence of a Control Event triggered in December 2003, the Company began consolidating this entity beginning in the first quarter of fiscal 2004. Included in the Condensed Consolidated Statements of Financial Condition at May 31, 2004 are total assets of \$1.8 billion, including approximately \$360 million of goodwill and identifiable intangible assets.

7

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. These principles require management to make certain estimates and assumptions, including those regarding inventory valuations, stock compensation, certain accrued liabilities and the potential outcome of litigation, which may affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ materially from these estimates. The nature of the Company's business is such that the results of any interim period may not be indicative of the results to be expected for an entire fiscal year.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

### Financial Instruments

Proprietary securities, futures and other derivatives transactions are recorded on a trade date basis. Financial instruments owned and financial instruments sold, but not yet purchased, including contractual commitments arising pursuant to futures, forward and option contracts, interest rate swaps and other derivative contracts, are recorded at fair value with the resulting net unrealized gains and losses reflected in "Principal Transactions" revenues in the Condensed Consolidated Statements of Income.

Fair value is generally based on quoted market prices. If quoted market prices are not available, or if liquidating the Company's position is reasonably expected to affect market prices, fair value is determined based on other relevant factors, including dealer price quotations, price activity for equivalent instruments and valuation pricing models. Valuation pricing models consider time value, yield curve and volatility factors, prepayment speeds, default rates, loss severity, current market and contractual prices for the underlying financial instruments, as well as other economic measurements.

Equity securities acquired as a result of leveraged acquisition transactions are reflected in the consolidated financial statements at their initial costs until significant transactions or developments indicate that a change in the carrying value of the securities is appropriate. Generally, the carrying values of these securities will be increased only in those instances where market values are readily ascertainable by reference to substantial transactions occurring in the marketplace or quoted market prices. Reductions to the carrying value of these securities are made when the Company's estimate of net realizable value has declined below the carrying value.

### Customer Transactions

Customer securities transactions are recorded on a settlement date basis, which is generally three business days after trade date, while the related commission revenues and expenses are recorded on a trade date basis. Receivables from and payables to customers include amounts related to both cash and margin transactions. Securities owned by customers, including those that collateralize margin or other similar transactions, are generally not reflected in the Condensed Consolidated Statements of Financial Condition.

### Collateralized Securities Transactions

Transactions involving purchases of securities under agreements to resell ("reverse repurchase agreements") or sales of securities under agreements to repurchase ("repurchase agreements") are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts plus accrued interest. Resulting interest income and expense is generally included in "Principal Transactions" revenues in the Condensed Consolidated Statements of Income. Reverse repurchase agreements and repurchase agreements are presented in the Condensed Consolidated Statements of Financial Condition on a net-by-counterparty basis, where permitted by generally accepted accounting principles. It is the Company's general policy to take possession of securities with a market value in excess of the principal amount

# Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

## THE BEAR STEARNS COMPANIES INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

loaned plus the accrued interest thereon, in order to collateralize reverse repurchase agreements. Similarly, the Company is generally required to provide securities to counterparties to collateralize repurchase agreements.

The Company's agreements with counterparties generally contain contractual provisions allowing for additional collateral to be obtained, or excess collateral returned. It is the Company's policy to value collateral and to obtain additional collateral, or to retrieve excess collateral from counterparties, when deemed appropriate.

Securities borrowed and securities loaned are recorded based upon the amount of cash collateral advanced or received. Securities borrowed transactions facilitate the settlement process and require the Company to deposit cash, letters of credit or other collateral with the lender. With respect to securities loaned, the Company receives collateral in the form of cash or other collateral. The amount of collateral required to be deposited for securities borrowed, or received for securities loaned, is an amount generally in excess of the market value of the applicable securities borrowed or loaned. The Company monitors the market value of securities borrowed and loaned, with additional collateral obtained, or excess collateral retrieved, when deemed appropriate.

#### Fixed Assets

Depreciation of property and equipment is provided by the Company on a straight-line basis over the estimated useful life of the asset. Amortization of leasehold improvements is provided on a straight-line basis over the lesser of the estimated useful life of the asset or the remaining life of the lease.

#### Goodwill and Identifiable Intangible Assets

The Company accounts for goodwill and identifiable intangible assets under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." In accordance with this guidance, the Company does not amortize goodwill, but amortizes identifiable intangible assets over their useful lives. Goodwill is tested at least annually for impairment and identifiable intangible assets are tested for potential impairment whenever events or changes in circumstances suggest that the carrying value of an asset or asset group may not be fully recoverable in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets."

#### Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated at period-end rates of exchange, while income statement items are translated at daily average rates of exchange during the fiscal period. Gains or losses resulting from foreign currency transactions are included in net income.

#### Income Taxes

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

The Company and certain of its subsidiaries file a consolidated federal income tax return. The Company accounts for income taxes under the provisions of SFAS No. 109, "Accounting for Income Taxes." Under SFAS No. 109, deferred income taxes are based on the net tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities. In addition, deferred income taxes are determined by the enacted tax rates and laws expected to be in effect when the related temporary differences are expected to be reversed.

9

### THE BEAR STEARNS COMPANIES INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

##### Earnings Per Share

Earnings per share ("EPS") is computed in accordance with SFAS No. 128, "Earnings Per Share." Basic EPS is computed by dividing net income applicable to common shares, adjusted for costs related to vested shares under the Capital Accumulation Plan for Senior Managing Directors, as amended ("CAP Plan"), as well as the effect of the redemption of preferred stock, by the weighted average number of common shares outstanding. Common shares outstanding includes vested units issued under certain stock compensation plans, which will be distributed as shares of common stock. Diluted EPS includes the determinants of Basic EPS and, in addition, gives effect to dilutive potential common shares related to stock compensation plans.

##### Statement of Cash Flows

For purposes of the Condensed Consolidated Statements of Cash Flows, the Company has defined cash equivalents as liquid investments not held for sale in the ordinary course of business with original maturities of three months or less. Cash payments for interest approximated interest expense for the six months ended May 31, 2004 and May 31, 2003. Income taxes paid totaled \$301.5 million and \$212.8 million for the six months ended May 31, 2004 and May 31, 2003, respectively.

##### Stock-Based Compensation

In December 2002, the FASB issued SFAS No. 148 "Accounting for Stock-Based Compensation--Transition and Disclosure," which amends SFAS No. 123, "Accounting for Stock-Based Compensation." SFAS No. 148 provides three alternative methods for a voluntary change to fair value accounting for stock-based compensation as permitted under SFAS No. 123. Effective December 1, 2002, the Company elected to adopt fair value accounting for stock-based compensation consistent with SFAS No. 123 using the prospective method with guidance provided by SFAS No. 148. As a result, commencing with options granted after November 30, 2002, the Company expenses the fair value of stock options issued to employees over the related vesting period. Prior to December 1, 2002, the Company elected to account for its stock-based compensation plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25"), as permitted by

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

SFAS No. 123. Under the provisions of APB No. 25, compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's common stock at the date of grant over the amount an employee must pay to acquire the stock. Accordingly, no compensation expense had been recognized for stock option awards granted prior to December 1, 2002 because the exercise price was at the fair market value of the Company's common stock on the grant date.

The cost related to stock-based compensation included in the determination of net income for the three months and six months ended May 31, 2004 and May 31, 2003 is less than that which would have been recognized if the fair value based method had been applied to stock option awards since the original effective date of SFAS No. 123.

10

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The following table illustrates the effect on net income and earnings per share if the fair value based method had been applied to all outstanding awards in each period.

	Three Months Ended		S
(in millions, except per share amounts)	May 31, 2004	May 31, 2003	May 200
Net income, as reported	\$347.8	\$280.4	\$70
Add: Stock-based employee compensation plans expense included in reported net income, net of related tax effects	3.7	10.5	1
Deduct: Total stock-based employee compensation plans expense determined under the fair value based method, net of related tax effects	(11.7)	(23.8)	(2
Pro forma net income	\$339.8	\$267.1	\$69
Earnings per share:			
Basic - as reported	\$2.77	\$2.27	\$5
Basic - pro forma	\$2.71	\$2.17	\$5
Diluted - as reported	\$2.49	\$2.05	\$5
Diluted - pro forma	\$2.44	\$1.96	\$4

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

### Investment Banking and Advisory Services

Underwriting revenues and fees for mergers and acquisitions advisory services are accrued when services for the transactions are substantially completed. Transaction expenses are deferred until the related revenue is recognized.

### Derivative Instruments and Hedging Activities

The Company follows SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended by SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities," and SFAS No. 149 "Amendment of Statement 133 on Derivative Instruments and Hedging Activities," which establishes accounting and reporting standards for stand-alone derivative instruments, derivatives embedded within other contracts or securities, and hedging activities. Accordingly, all derivatives, whether stand-alone or embedded within other contracts or securities (except in narrowly defined circumstances), are carried in the Company's Condensed Consolidated Statements of Financial Condition at their then fair value, with changes in fair value recorded in current earnings. Designated hedged items not carried at fair value are marked (to the extent of the profit or loss on the derivative) for the risk being hedged, with such changes in the fair value recorded in current earnings.

### Transfers and Servicing of Financial Assets and Extinguishments of Liabilities

The Company follows SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities--a Replacement of FASB Statement No. 125," to account for securitizations and other transfers of financial assets and collateral. SFAS No. 140 establishes accounting and reporting standards with a financial-components approach that focuses on control. Under this approach, financial assets or liabilities

11

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

are recognized when control is established and derecognized when control has been surrendered or the liability has been extinguished. In addition, specific implementation guidelines have been established to further distinguish transfers of financial assets that are sales from transfers that are secured borrowings.

2. FINANCIAL INSTRUMENTS

Financial instruments owned and financial instruments sold, but not yet purchased, consisting of the Company's proprietary trading inventories, at fair value, were as follows:

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

(in thousands)	May 31, 2004	November 30, 2003

-----		
	\$32,125,093	\$27,109,147
=====		

As of May 31, 2004 and November 30, 2003, all financial instruments owned that were pledged to counterparties where the counterparty has the right, by contract or custom, to rehypothecate these securities are classified as "Financial Instruments Owned, Pledged as Collateral" in the Condensed Consolidated Statements of Financial Condition.

Financial instruments sold, but not yet purchased represent obligations of the Company to deliver the specified financial instrument at the contracted price and thereby create a liability to purchase the financial instrument in the market at prevailing prices. Accordingly, these transactions result in off-balance-sheet risk as the Company's ultimate obligation to repurchase such securities may exceed the amount recognized in the Condensed Consolidated Statements of Financial Condition.

(UNAUDITED)

3. DERIVATIVES AND HEDGING ACTIVITIES

SFAS No. 133 requires that all derivatives, whether stand-alone or embedded within other contracts or securities (except in very defined circumstances) be carried on the Company's Condensed Consolidated Statement of Financial Condition at their then fair value. SFAS No. 133 requires that all derivatives be carried at fair value, including those used as hedges. SFAS No. 133 also requires items designated as being hedged, previously carried at accrued values, now be marked to market for

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

the risk being hedged, provided that the intent to hedge is fully documented. Any resultant net change in value for both the hedging derivative and the hedged item is recognized in earnings immediately, such net effect being deemed the "ineffective" portion of the hedge. The gains and losses associated with the ineffective portion of the fair value hedges are included in "Principal Transactions" revenues in the Condensed Consolidated Statements of Income and were not material for the three month and six month periods ended May 31, 2004 and May 31, 2003.

To measure derivative activity, notional or contract amounts are frequently used. Notional/contract amounts are used to calculate contractual cash flows to be exchanged and are generally not actually paid or received, with the exception of currency swaps, foreign exchange forwards and mortgage-backed securities forwards. The notional/contract amounts of financial instruments that give rise to off-balance-sheet market risk are indicative only to the extent of involvement in the particular class of financial instrument and are not necessarily an indication of overall market risk.

As of May 31, 2004 and November 30, 2003, the Company had notional/contract amounts of approximately \$3.03 trillion and \$2.15 trillion, respectively, of derivative financial instruments, of which \$687.3 billion and \$413.1 billion, respectively, were listed futures and option contracts. The aggregate notional/contract value of derivative contracts is a reflection of the level of activity and does not represent the amounts that are recorded in the Condensed Consolidated Statements of Financial Condition. The Company's derivative financial instruments outstanding, which either are used to hedge trading positions, fixed-rate debt, or are part of its derivative dealer activities, are marked to fair value.

The Company's derivatives had a weighted average maturity of approximately 3.8 years and 4.2 years at May 31, 2004 and November 30, 2003, respectively. The maturities of notional/contract amounts outstanding for derivative financial instruments as of May 31, 2004 were as follows:

(in billions)	Less Than One Year	One to Three Years	Three to Five Years	Greater Than Five Years
Swap agreements, including options, swaptions, caps, collars and floors	\$ 464.6	\$ 573.9	\$ 530.6	\$

# Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

## THE BEAR STEARNS COMPANIES INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### 4. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, the Company has commitments in connection with various activities, the most significant of which are as follows:

#### Commercial Lending

In connection with certain of the Company's business activities, the Company provides financing or financing commitments to investment-grade and non-investment-grade companies in the form of senior and subordinated debt, including bridge financing. Commitments have varying maturity dates and are generally contingent on the accuracy and validity of certain representations, warranties and contractual conditions applicable to the borrower. Commercial lending commitments to investment-grade borrowers aggregated approximately \$1.29 billion at May 31, 2004 (gross commitments of \$2.03 billion less \$740.3 million of associated hedges). Commercial lending commitments to non-investment-grade borrowers approximated \$1.31 billion at May 31, 2004.

#### Private Equity-Related Investments and Partnerships

In connection with the Company's merchant banking activities, the Company has commitments to invest in merchant banking and private equity-related investment funds as well as commitments to invest directly in private equity-related investments. At May 31, 2004, such commitments aggregated \$434.9 million. These commitments will be funded, if called, through the end of the respective investment periods, the longest of such periods ending in 2013.

#### Underwriting

In connection with the Company's mortgage-backed securitizations and fixed income/equity underwriting, the Company had commitments to purchase and sell new issues of securities aggregating \$649.7 million at May 31, 2004.

#### Commercial and Residential Loans

The Company participates in the acquisition, securitization, servicing, financing and disposition of commercial and residential loans. At May 31, 2004, the Company had entered into commitments to purchase, sell or finance mortgage loans of \$2.0 billion.

#### Letters of Credit

At May 31, 2004, the Company was contingently liable for unsecured letters of credit of approximately \$2.09 billion and letters of credit of \$1.1 billion secured by financial instruments, primarily used to provide collateral for securities borrowed and to satisfy margin requirements at option and commodity exchanges.

#### Borrow Versus Pledge

At May 31, 2004, the Company had pledged securities, primarily US government and agency securities with a market value of approximately \$3.46 billion as collateral for securities borrowed, with an approximate market value of \$3.41 billion.

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

4. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Other

The Company had commitments to purchase Chapter 13 and other credit card receivables of \$87.3 million at May 31, 2004.

The Company has entered into agreements with providers of hardware, software, data processing and systems consulting services. At May 31, 2004, commitments over the remaining life of these agreements aggregated \$62.5 million.

With respect to certain of the commitments outlined above, the Company utilizes various hedging strategies to actively manage its market, credit and liquidity exposures. Additionally, since these commitments may expire unused, the total commitment amount may not necessarily reflect the actual future cash funding requirements.

Litigation

In the normal course of business, the Company has been named as a defendant in various lawsuits that involve claims for substantial amounts. Also, the Company is involved from time to time in investigations and proceedings by governmental agencies and self-regulatory organizations. Although the ultimate outcome of the various matters cannot be ascertained at this time, it is the opinion of management, after consultation with counsel, that the resolution of the foregoing matters will not have a material adverse effect on the financial condition of the Company, taken as a whole; such resolution may, however, have a material effect on the operating results in any future period, depending on the level of income for such period.

5. GUARANTEES

In the ordinary course of business, the Company issues various guarantees to counterparties in connection with certain derivative, leasing, securitization and other transactions. The guarantees covered by FIN No. 45, "Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," include contracts that contingently require the guarantor to make payments to the guaranteed party based on changes related to an asset, a liability or an equity security of the guaranteed party, contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement and indirect guarantees of the indebtedness of others, even though the payment to the guaranteed party may not be based on changes to an asset, liability or equity security of the guaranteed party. In addition, FIN No. 45 covers certain indemnification agreements that contingently require the guarantor to make payments to the indemnified party, such as an adverse judgment in a lawsuit or the imposition of additional taxes due to either a change in

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

the tax law or an adverse interpretation of the tax law.

15

THE BEAR STEARNS COMPANIES INC.  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (UNAUDITED)

5. GUARANTEES (continued)

The following table sets forth the maximum payout/notional amounts associated with the Company's guarantees as of May 31, 2004:

(in millions)	Amount of Guarantee Ex		
	Less Than One Year	One to Three Years	Three Five Ye
Certain derivative contracts (notional) (1)	\$ 260,544	\$ 176,548	\$ 157,
Municipal securities	2,387	65	
Residual value guarantee	--	--	

(1) The carrying value of these derivatives approximated \$8.7 billion.

Derivative Contracts

The Company's dealer activities cause it to make markets and trade a variety of derivative instruments. Certain derivative contracts that the Company has entered into meet the accounting definition of a guarantee under FIN No. 45. Derivatives that meet the FIN No. 45 definition of guarantees include credit default swaps (whereby a default or significant change in the credit quality of the underlying financial instrument may obligate the Company to make a payment), certain written call and put options, swaptions, as well as floors, caps and collars. Since the Company does not track the counterparties' purpose for entering into a derivative contract, it has disclosed derivative contracts that are likely to be used to protect against a change in an underlying financial instrument, regardless of their actual use.

On certain of these contracts, such as written interest rate caps and floors and foreign currency options, the maximum payout cannot be quantified since the increase in interest rates and foreign exchange rates is not contractually limited by the terms of the contracts. As such, the Company has disclosed notional amounts as a measure of the extent of its involvement in these classes of derivatives rather than maximum payout. Notional amounts do not represent the maximum payout and generally overstate the Company's exposure to these contracts. These derivative contracts are recorded at fair value which approximated \$8.7 billion at May 31, 2004.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

In connection with these activities, the Company attempts to mitigate its exposure to market risk by entering into a variety of offsetting derivative contracts and security positions. For a discussion of derivatives, see Risk Management and Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the fiscal year ended November 30, 2003.

### Municipal Securities

In 1997, the Company established a program whereby it creates a series of municipal securities trusts in which it has retained interests. These trusts purchase fixed-rate, long-term, highly rated, insured or escrowed municipal bonds financed by the issuance of trust certificates. Certain of the trust certificates entitle the holder to receive future payments of principal and variable interest and to tender such certificates at the option of the holder on a periodic basis. The Company acts as placement agent and as liquidity provider. The purpose of the program is to allow the Company's clients to purchase synthetic short-term, floating-rate municipal debt that does not otherwise exist in the marketplace. In the Company's capacity as liquidity provider to the trusts, the maximum exposure to loss at May 31, 2004 was approximately \$2.45 billion, which represents the outstanding amount of

16

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

### 5. GUARANTEES (continued)

all trust certificates. This exposure to loss is mitigated by the underlying municipal bonds. The underlying municipal bonds in the trusts are either AAA- or AA-rated, insured or escrowed to maturity. Such bonds had a market value, net of related hedges, approximating \$2.43 billion at May 31, 2004.

#### Residual Value Guarantee

The Company has entered into an operating lease arrangement for its worldwide headquarters at 383 Madison Avenue (the "Synthetic Lease"). Under the terms of the Synthetic Lease, the Company is obligated to make monthly payments based on the lessor's underlying interest costs. The Synthetic Lease expires on August 15, 2008, after which the Company may request a renewal. If the lease renewal cannot be negotiated, the Company has the right to purchase the building for the amount of the then outstanding indebtedness of the lessor or to arrange for the sale of the property with the proceeds of the sale to be used to satisfy the lessor's debt obligation. If the sale of the property does not generate sufficient proceeds to satisfy the lessor's debt obligation, the Company is required to fund the shortfall up to a maximum residual value guarantee. As of May 31, 2004, there was no expected shortfall and the maximum residual value guarantee approximated \$570 million.

#### Indemnifications

The Company provides representations and warranties to counterparties in

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

connection with a variety of commercial transactions, including certain asset sales and securitizations and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. To mitigate these risks with respect to assets being securitized that have been originated by third parties, the Company seeks to obtain appropriate representations and warranties from such third party originators upon acquisition of such assets. The Company generally performs due-diligence on assets purchased and maintains underwriting standards for assets originated. The Company may also provide indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. Generally, there are no stated or notional amounts included in these indemnifications, and the contingencies triggering the obligation to indemnify are not expected to occur.

Maximum payout information under these indemnifications is not readily available because of the number, size, and lives of these transactions. The Company reviewed its experience with the indemnifications on these structures. Based on such experience, it is unlikely that the Company will have to make significant payments under these arrangements.

### Other Guarantees

The Company is a member of numerous exchanges and clearinghouses. Under the membership agreements, members are generally required to guarantee the performance of other members. Additionally, if a member becomes unable to satisfy its obligations to the clearinghouse, other members would be required to meet shortfalls. To mitigate these performance risks, the exchanges and clearinghouses often require members to post collateral. The Company's maximum potential liability under these arrangements cannot be quantified. However, the potential for the Company to be required to make payments under these arrangements is unlikely. Accordingly, no contingent liability is recorded in the Condensed Consolidated Financial Statements for these arrangements.

17

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

### 6. REGULATORY REQUIREMENTS

Bear Stearns and BSSC are registered broker-dealers and, accordingly, are subject to Rule 15c3-1 under the Securities Exchange Act of 1934 ("Net Capital Rule") and the capital rules of the New York Stock Exchange, Inc. ("NYSE"), the Commodity Futures Trading Commission ("CFTC") and other principal exchanges of which Bear Stearns and BSSC are members. Included in the computation of net capital of Bear Stearns, as defined, is \$686.2 million, which is net capital of BSSC in excess of 5.5% of aggregate debit items arising from customer transactions. At May 31, 2004, Bear Stearns' net capital of \$2.27 billion exceeded the minimum requirement by \$2.19 billion.

BSIL and Bear Stearns International Trading Limited ("BSIT"), London-based

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

broker-dealer subsidiaries, are subject to the regulatory capital requirements of the Financial Services Authority.

BSB, an Ireland-based bank principally involved in the trading and sales of fixed income products, is registered in Ireland and is subject to the regulatory capital requirements of the Irish Financial Services Regulatory Authority.

At May 31, 2004, Bear Stearns, BSSC, BSIL, BSIT and BSB were in compliance with their respective regulatory capital requirements.

### 7. EARNINGS PER SHARE

EPS is computed in accordance with SFAS No. 128, "Earnings Per Share." Basic EPS is computed by dividing net income applicable to common shares, adjusted for costs related to vested shares under the Capital Accumulation Plan for Senior Managing Directors, as amended ("CAP Plan"), as well as the effect of the redemption of preferred stock, by the weighted average number of common shares outstanding. Common shares outstanding includes vested units issued under certain stock compensation plans, which will be distributed as shares of common stock. Diluted EPS includes the determinants of Basic EPS and, in addition, gives effect to dilutive potential common shares related to stock compensation plans.

=====		
Basic EPS	\$ 2.77	\$
Diluted EPS	\$ 2.49	\$
=====		

(1) Includes 24,573,060 and 29,891,922 vested units for the three months ended May 31, 2004 and May 31, 2003, respectively, and 25,171,895 and 30,064,127 vested units for the six months ended May 31, 2004 and May 31, 2003, respectively, issued under certain stock compensation plans which will be distributed as shares of common stock.

### 8. SEGMENT DATA

The Company operates in three principal segments -- Capital Markets, Global Clearing Services and Wealth Management. These segments offer different products and services and are managed separately as different levels and types of expertise are required to effectively manage the segments' transactions.

The Capital Markets segment comprises the institutional equities, fixed income and investment banking areas. The Capital Markets segment operates as a single integrated unit that provides the sales, trading and origination effort for various fixed income, equity and advisory products and services. Each of the three businesses works in tandem to deliver these services to institutional and corporate clients.

Institutional equities consists of research, sales and trading in areas such as domestic and international equities, block trading, convertible bonds, over-the-counter equities, equity derivatives, risk and convertible arbitrage and through a majority-owned subsidiary, the NYSE, American Stock Exchange, Inc. ("AMEX") and International Securities Exchange specialist activities. Fixed income includes sales, trading and research provided to institutional clients across a variety of products such as mortgage- and asset-backed securities, corporate and government bonds, municipal bonds, high yield products, foreign exchange and interest rate and

19

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

### 8. SEGMENT DATA (continued)

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

credit derivatives. Investment banking provides services in capital raising, strategic advice, mergers and acquisitions and merchant banking. Capital raising encompasses the Company's underwriting of equity, investment-grade, municipal and high yield debt products.

The Global Clearing Services segment provides execution, clearing, margin lending and securities borrowing to facilitate customer short sales to clearing clients worldwide. Prime brokerage clients include hedge funds and clients of money managers, short sellers and other professional investors. Fully disclosed clients engage in either the retail or institutional brokerage business.

The Wealth Management segment is comprised of the Private Client Services ("PCS") and Asset Management areas. PCS provides high-net-worth individuals with an institutional level of investment service, including access to the Company's resources and professionals. Asset management manages equity, fixed income and alternative assets for leading corporate pension plans, public systems, endowments, foundations, multi-employer plans, insurance companies, corporations, families and high net-worth individuals in the US and abroad.

The three business segments comprise many business areas with interactions among each. Revenues and expenses include those that are directly related to each segment. Revenues from intersegment transactions are based upon specific criteria or agreed-upon rates with such amounts eliminated in consolidation. Individual segments also include revenues and expenses relating to various items, including corporate overhead and interest, which are internally allocated by the Company primarily based on balance-sheet usage or expense levels. The Company generally evaluates performance of the segments based on net revenues and profit or loss before provision for income taxes.

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

### 9. TRANSFERS OF FINANCIAL ASSETS AND LIABILITIES

#### Securitizations

The Company regularly securitizes commercial and residential mortgages, consumer receivables and other financial assets. Interests in these securitized assets may be retained in the form of senior or subordinated securities or as residual interests. These retained interests are included in "Financial Instruments Owned" in the Condensed Consolidated Statements of Financial Condition and are carried at fair value. Securitization transactions are generally treated as sales, with resulting gain or loss included in "Principal Transactions" revenue in the Condensed Consolidated Statements of Income. Consistent with the valuation of similar inventory, fair value is determined by broker-dealer price quotations and internal valuation pricing models that utilize variables such as yield curves, prepayment speeds, default rates, loss severity, interest rate volatilities and spreads. The assumptions used for pricing variables are primarily based on observable transactions in similar securities and are further verified by external pricing sources, when available.

The Company's securitization activity relating to transfers of its financial assets is detailed below:

	Agency Mortgage- Backed	Other Mortgage- Backed	Other Asset- Backed
-----			
(in billions)			
-----			
Total securitizations			
Quarter ended May 31, 2004	\$ 11.7	\$ 14.5	\$ 0.4
Quarter ended May 31, 2003	\$ 14.7	\$ 9.9	\$ 2.9
Retained interests			
As of May 31, 2004	\$ 2.4	\$ 1.0	\$ 0.1
As of November 30, 2003	\$ 1.8	\$ 1.4	\$ 0.2
-----			

The Company is an active market-maker in these securities and as a result, may retain interests in assets it securitizes, predominantly highly rated

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

or government agency-backed securities. The models employed in the valuation of retained interests use discount rates that are based on the swap curve plus a spread. Key points on the swap curve at May 31, 2004 were 2.94% for 2-year swaps and 5.13% for 10-year swaps. These models also consider prepayment speeds, as well as credit losses. Credit losses are considered through option-adjusted spreads that also utilize additional factors such as liquidity and optionality.

Key valuation assumptions used in measuring the current fair value of retained interests in assets the Company securitized at May 31, 2004 were as follows:

	Agency Mortgage-Backed	Other Mortgage-Backed	Asse
-----			
Weighted average life (years)	6.71	4.91	
Average prepayment speeds (annual rate)	7% - 37%	0% - 41%	
Credit losses	0.68%	4.35%	
-----			

22

THE BEAR STEARNS COMPANIES INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

9. TRANSFERS OF FINANCIAL ASSETS AND LIABILITIES (continued)

The following hypothetical sensitivity analysis as of May 31, 2004 illustrates the potential change in fair value of these retained interests due to a specified change in the key valuation assumptions. The interest rate changes represent a parallel shift in the swap curve. This shift considers the effect of other variables, including prepayments. The remaining valuation assumptions are changed independently.

(in millions)	Agency Mortgage-Backed	Other Mortgage-Backed	Other Asset-Backed
-----			
Interest rates			
50 basis point increase	\$ (73.1)	\$ (26.1)	\$ 0.1
100 basis point increase	(148.5)	(49.6)	(0.8)

---

The previous table should be viewed with caution since the changes in a single variable generally cannot occur without changes in other variables or conditions that may counteract or amplify the effect of the changes outlined in the table. In addition, the table does not consider the change in fair value of hedging positions which would generally offset the changes detailed in the table, nor does it consider any corrective action that the Company may take in response to changes in these conditions. The impact of hedges is not presented because hedging positions are established on a macro level and allocating the effect would not be practicable.

The following table summarizes cash flows from securitization trusts related to securitization transactions during the quarter ended May 31, 2004:

(in millions)	Agency Mortgage-Backed	Other Mortgage-Backed	As
Cash flows received from retained interests	\$ 85.9	\$ 57.5	\$
Cash flows from servicing	N/A	\$ 4.9	

---

### Collateralized Financing Arrangements

The Company enters into secured borrowing or lending agreements to obtain collateral necessary to effect settlements, finance inventory positions, meet customer needs or re-lend as part of its dealer operations.

The Company receives collateral under reverse repurchase agreements, securities borrowing transactions, derivative transactions, customer margin loans and other secured money-lending activities. In many instances, the Company is permitted to rehypothecate such securities. The Company also pledges financial instruments owned to collateralize certain financing arrangements. These securities are recorded as "Financial Instruments Owned, Pledged As Collateral" in the Condensed Consolidated Statements of Financial Condition.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

At May 31, 2004 and November 30, 2003, the Company had received securities pledged as collateral that can be repledged, delivered or otherwise used with a fair value of approximately \$246.0 billion and \$223.1 billion, respectively. This collateral was generally obtained under reverse repurchase, securities borrowing or margin lending agreements. Of these securities received as collateral, those with a fair value of approximately \$144.8 billion and \$140.7 billion were delivered or repledged, generally as collateral under repurchase or securities lending agreements or to cover short sales at May 31, 2004 and November 30, 2003, respectively.

### 10. CONSOLIDATION OF VARIABLE INTEREST ENTITIES

The Company regularly creates or transacts with entities that may be VIEs. These entities are an essential part of its securitization, asset management and structured finance businesses. In addition, the Company purchases and sells instruments that may be variable interests.

In fiscal 2003, the Company adopted the provisions of FIN No. 46, "Consolidation of Variable Interest Entities - an Interpretation of ARB No. 51," for VIEs created after January 31, 2003 and for VIEs in which the Company acquired an interest after January 31, 2003, with no material effect on the consolidated financial statements. In October 2003, the FASB deferred the effective date of FIN No. 46 for arrangements with VIEs existing prior to February 1, 2003 to fiscal periods ending after December 15, 2003. In December 2003, the FASB issued FIN No. 46 (R), a revision of FIN No. 46 to address certain technical corrections and implementation issues that have arisen. As of May 31, 2004, the Company has adopted FIN No. 46 or FIN No. 46 (R) for its variable interests. For these variable interests, the Company has consolidated those VIEs in which the Company is the primary beneficiary. In accordance with FIN No. 46 (R) the Company has deconsolidated Capital Trust III, which had issued \$262.5 million of Preferred Securities, beginning on February 29, 2004. As a result, the junior subordinated deferrable interest debentures issued by the Company to Capital Trust III are included within long-term borrowings. In addition, the Preferred Securities issued by Capital Trust III will no longer be included in the Company's Condensed Consolidated Statement of Financial Condition. The adoption of FIN No. 46 and FIN No. 46 (R) did not have a material effect on the Company's condensed consolidated financial statements.

The Company acts as transferor, seller, investor, structurer, underwriter or derivative counterparty in securitization transactions. These transactions typically involve entities that are qualifying special purpose entities as defined in SFAS No. 140. However, occasionally such entities are VIEs. The VIEs in these transactions own the securitized assets and issue beneficial interests in the assets. The holders of the beneficial interest have no recourse to the Company, only to the assets held by the VIE. In certain of these VIEs, the Company is the primary beneficiary through its ownership of certain beneficial interests, which it may sell in the normal course of business.

The Company also acts as portfolio manager and/or underwriter in several collateralized debt obligation transactions. In these transactions, the Company establishes a trust that purchases a portfolio of assets and issues trust certificates that represent interests in the portfolio of assets. In addition to receiving variable compensation for managing the portfolio, the Company may also retain certain trust certificates. In certain of these transactions, these interests result in the Company becoming the primary beneficiary of these entities. The holders of the trust certificates have recourse only to the underlying assets of the

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

trusts and not to other assets of the Company.

Assets held by VIEs, which are currently consolidated, in which the Company is the primary beneficiary, as discussed in the preceding two paragraphs, approximated \$1.1 billion. At May 31, 2004, the Company's maximum exposure to

24

### THE BEAR STEARNS COMPANIES INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### 10. CONSOLIDATION OF VARIABLE INTEREST ENTITIES (continued)

loss as a result of its relationship with these VIEs is approximately \$28.2 million, which represents the fair value of its interests and is reflected in the Company's condensed consolidated financial statements.

The Company also owns significant variable interests in several VIEs related to collateralized debt obligations or asset securitizations for which the Company is not the primary beneficiary and therefore does not consolidate these entities. In aggregate, these VIEs have assets approximating \$4.8 billion. At May 31, 2004, the Company's maximum exposure to loss from these entities approximates \$17 million, which represents the fair value of its interests and is reflected in the Company's condensed consolidated financial statements.

The Company purchases and sells interests in entities that may be deemed to be VIEs in its market-making capacity in the ordinary course of business. As a result of these activities, it is reasonably possible that such entities may be consolidated and deconsolidated at various points in time. Therefore, the Company's variable interests included above may not be consolidated or even held by the Company in future periods.

#### 11. PREFERRED STOCK ISSUED BY SUBSIDIARIES

On December 15, 2003, the Company exercised its option and prepaid all of the outstanding Debentures, resulting in the corresponding redemption of \$300.0 million aggregate principal amount of preferred securities issued by Bear Stearns Capital Trust II.

Bear Stearns Capital Trust III ("Capital Trust III"), a wholly owned subsidiary of the Company, has issued \$262.5 million (10,500,000 shares) of Guaranteed Preferred Beneficial Interests in Company Subordinated Debt Securities ("Preferred Securities"). The Preferred Securities are fixed-rate securities, which have a liquidation value of \$25 per security. Holders of the Preferred Securities are entitled to receive quarterly preferential cash distributions at an annual rate of 7.8% through May 15, 2031. The proceeds of the issuance of the Preferred Securities were used to acquire junior subordinated deferrable interest debentures ("Debentures") issued by the Company. The Debentures have terms that correspond to the terms of the Preferred Securities and are the sole assets of Capital Trust III. The Preferred Securities will mature on May 15, 2031. The Company, at its option, may redeem the Preferred Securities at their principal amount plus accrued distributions beginning May 15, 2006.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

In accordance with FIN No. 46 (R) the Company has deconsolidated Capital Trust III effective beginning with the quarter ended February 29, 2004. As a result, the Debentures issued by the Company to Capital Trust III are included within long-term borrowings. The \$262.5 million of Preferred Securities issued by Capital Trust III is still outstanding, providing the funding for such Debentures. In addition, the Preferred Securities issued by Capital Trust III will no longer be included in the Company's Condensed Consolidated Statements of Financial Condition.

25

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of  
The Bear Stearns Companies Inc.

We have reviewed the accompanying condensed consolidated statement of financial condition of The Bear Stearns Companies Inc. and subsidiaries as of May 31, 2004, and the related condensed consolidated statements of income for the three month and six month periods ended May 31, 2004 and 2003 and cash flows for the six month periods ended May 31, 2004 and 2003. These interim financial statements are the responsibility of The Bear Stearns Companies Inc.'s management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of financial condition of The Bear Stearns Companies Inc. and subsidiaries as of November 30, 2003, and the related consolidated statements of income, cash flows and changes in stockholders' equity for the fiscal year then ended (not presented herein) included in The Bear Stearns Companies Inc.'s Annual Report on Form 10-K for the fiscal year ended November 30, 2003; and in our report dated February 13, 2004, (which reports express unqualified opinions and explanatory paragraphs relating to the adoption of Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation," as amended by SFAS No. 148, "Accounting for Stock-Based Compensation--Transition and Disclosure, an amendment of FASB Statement No. 123," in 2003, discussed in note 1 to the consolidated financial statements) we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated statement of financial condition as of November 30, 2003 is fairly stated, in all

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

material respects, in relation to the consolidated statement of financial condition from which it has been derived.

### Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Bear Stearns Companies Inc. ("Company") is a holding company that through its broker-dealer and international bank subsidiaries, principally Bear, Stearns & Co. Inc. ("Bear Stearns"); Bear, Stearns Securities Corp. ("BSSC"); Bear, Stearns International Limited ("BSIL") and Bear Stearns Bank plc ("BSB") is a leading investment banking, securities and derivatives trading, clearance and brokerage firm serving corporations, governments, institutional and individual investors worldwide. The Company also conducts significant activities through other wholly owned subsidiaries including: Bear Stearns Global Lending Limited, Custodial Trust Company, Bear Stearns Financial Products Inc., Bear Stearns Capital Markets Inc., EMC Mortgage Corporation, Bear Stearns Mortgage Capital Corporation, Bear Stearns Credit Products Inc. and Bear Stearns Forex Inc. The Company is primarily engaged in business as a securities broker and dealer operating in three principal segments: Capital Markets, Global Clearing Services and Wealth Management.

For a description of the Company's business, including its trading in cash instruments and derivative products, its underwriting and trading policies, and their respective risks, and the Company's risk management policies and procedures, see the Company's Annual Report on Form 10-K for the fiscal year ended November 30, 2003.

#### Certain Factors Affecting Results of Operations

The Company's principal business activities -- investment banking, securities and derivatives sales and trading, clearance and brokerage -- are, by their nature, highly competitive and subject to various risks, including volatile trading markets and fluctuations in the volume of market activity. Consequently, the Company's net income and revenues have been, and are likely to continue to be, subject to wide fluctuations, reflecting the effect of many factors, including general economic conditions, securities market conditions, the level and volatility of interest rates and equity prices, competitive conditions, liquidity of global markets, international and regional political conditions, regulatory and legislative developments, monetary and fiscal policy, investor sentiment, availability and cost of capital, technological changes and events, outcome of legal proceedings, changes in currency values, inflation, credit ratings and the size, volume and timing of transactions.

#### Forward-Looking Statements

Certain statements contained in this discussion are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements concerning management's expectations, strategic objectives, business prospects, anticipated economic performance and financial condition and other similar matters are subject to risks and uncertainties,

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

including those described in the prior paragraph, which could cause actual results to differ materially from those discussed in the forward-looking statements. Forward-looking statements speak only as of the date of the document in which they are made. We disclaim any obligation or undertaking to provide any updates or revisions to any forward-looking statement to reflect any change in our expectations or any change in events, conditions or circumstances on which the forward-looking statement is based.

27

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Executive Overview

Revenues, net of interest expense and pre-tax earnings for the quarter ended May 31, 2004 increased 17.8% and 19.5%, respectively, from the quarter ended May 31, 2003. In addition, pre-tax profit margins increased to 29.7% when compared to 29.3% in the fiscal 2003 quarter. Return on equity was 19.6% for the quarter ended May 31, 2004 versus 19.7% in the 2003 quarter. A generally favorable operating environment characterized by active fixed income markets, a recovering US economy and improving US capital market conditions provided a healthy climate for the Company's business during the quarter.

Capital Markets net revenues increased 14.7% to \$1.35 billion from \$1.18 billion. In Institutional Equities, net revenues increased 33.1% when compared to the second quarter of fiscal 2003 reflecting increased commission revenues. In addition, net revenues include the revenues of the Company's majority-owned specialist subsidiary, Bear Wagner Specialists, LLC. The Fixed Income area achieved record revenues for the quarter, up 10.4% from a year ago, with mortgages and interest rate products reporting significant year-over-year improvement. Investment banking revenues were up 14.1% as merger and acquisition fees increased on positive market conditions. Global Clearing Services net revenues increased 19.4% due to increased customer activity and higher customer margin debt balances. In Wealth Management, revenues from private client services increased on higher levels of private client investment activity and asset management revenues rose primarily reflecting the sale of the mutual funds business to Dreyfus completed during the second quarter of 2004.

#### Business Environment

The business environment during the Company's second quarter ended May 31, 2004 was characterized by a strengthening US economy and low inflation. Consumer confidence increased during the second quarter of fiscal 2004 reflecting the largest job growth rate in four years. Despite the Federal Reserve Board's decision to leave the federal funds rate unchanged at 1.00%, the expectation of higher interest rates pushed the rate on the benchmark 10-year treasury from 3.98% to 4.66% during the quarter. As a result, refinancing volumes slowed from the record levels as mortgage rates continued to slowly rise.

The major indices were all slightly down during the quarter ended May 31, 2004. The Dow Jones Industrial Average ("DJIA") and the Standard & Poors 500 Index ("S&P 500") decreased 3.7% and 2.1%, respectively, while the NASDAQ decreased 2.1%. Average daily trading volume on the New York Stock Exchange, Inc. ("NYSE") and Nasdaq increased 4.2% and 15.8%, respectively, compared to the 2003 quarter. Continued fiscal and monetary stimulus and encouraging corporate profit reports

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

served to increase equity new issue activity as well as US announced and completed mergers and acquisitions volumes, which increased 26.7% industry-wide compared to the May 2003 quarter.

The fixed income markets continued to perform extremely well in the second quarter of fiscal 2004, benefiting from the combination of a steep yield curve and the continued low level of interest rates. However diminished refinancing activity resulted in a significant decline in agency collateralized mortgage obligation ("CMO") activity with agency industry-wide issuance down approximately 40%. The decline in CMO activity was substantially offset by higher secondary mortgage-backed securities activity levels. Also, the steepening yield curve and favorable housing market experienced during the 2004 second quarter resulted in mortgage origination volume shifting to adjustable rate mortgages, contributing to strong non-agency CMO activity. These factors led to the industry's continued solid performance in the second quarter of fiscal 2004.

Weak global and US economic conditions characterized the business environment during the second quarter of fiscal 2003. The lack of capital spending, prolonged slump in the labor markets and high energy prices contributed to difficult market conditions. The Federal Reserve Board met twice during the fiscal quarter and kept the federal funds rate unchanged at 1.25%. At its May 2003 meeting, the Federal Reserve Board changed its economic bias to weakness, citing that the balance of risks is

28

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

weighted toward economic weakness in the foreseeable future. However, geopolitical tensions subsided during the second quarter of fiscal 2003. In addition, there was growing sentiment that the economy and corporate profits were strengthening and, as a result, consumer confidence increased during the quarter. The major indices were all up for the quarter ended May 31, 2003. The DJIA increased 12.2%, while the S&P 500 and the Nasdaq Composite Index increased 14.6% and 19.3%, respectively. Weak equity market conditions continued to negatively impact equity-related businesses. Trading volumes on the exchanges were mixed. Average daily trading volume on the NYSE increased 12.4%, while average daily trading volume on the NASDAQ declined 10.1% from the quarter ended May 31, 2002. Global and US announced merger and acquisition volumes remained at low levels. However, the interest rate environment provided favorable conditions for fixed income activities. A combination of low interest rates, a steep yield curve and tightening of corporate credit spreads resulted in very strong demand for domestic debt issuances and strong secondary market activity. Mortgage-backed securities underwriting benefited from high levels of residential mortgage refinancings.

#### Results of Operations

In the discussion to follow, results for the quarter ended May 31, 2004 will be compared with the results for the quarter ended May 31, 2003 and results for the six months ended May 31, 2004 will be compared with the results for the six months ended May 31, 2003.

Three Months Ended May 31, 2004

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Compared to Three Months Ended May 31, 2003  
-----

The following table sets forth an overview of the Company's financial results:

(in thousands, except per share amounts, pre-tax profit margin and return on average common equity)	Three Months Ended	
	May 31, 2004	M
Revenues, net of interest expense	\$ 1,723,538	\$ 1,4
Income before provision for income tax	\$ 511,476	\$ 4
Net Income	\$ 347,803	\$ 2
Diluted earnings per share	\$ 2.49	\$
Pre-tax profit margin	29.7%	
Return on average common equity (annualized)	19.6%	

The Company reported net income of \$347.8 million, or \$2.49 per share (diluted), for the quarter ended May 31, 2004 which represented an increase of 24.0% from \$280.4 million, or \$2.05 per share (diluted), for the quarter ended May 31, 2003.

Revenues, net of interest expense ("net revenues") increased 17.8% to \$1.72 billion for the quarter ended May 31, 2004 from \$1.46 billion for the quarter ended May 31, 2003, due to an increase in principal transactions revenues, investment banking revenues, commission revenues and net interest revenues.

The Company's commission revenues were as follows:

(in thousands)	Three Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Institutional	\$ 155,791	\$ 135,465	15.0%
Clearance	82,557	77,124	7.0%
Retail & other	68,802	55,093	24.9%
Total commissions	\$ 307,150	\$ 267,682	14.7%

Note: Certain prior period items have been reclassified within commission revenues to conform to the current period's presentation.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Commission revenues for the 2004 quarter increased 14.7% to \$307.2 million from \$267.7 million for the 2003 quarter. Institutional commissions increased 15.0%

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

to \$155.8 million for the 2004 quarter from \$135.5 million for the 2003 quarter. The increase in institutional commissions is primarily due to increased trading volumes as well as the impact of the consolidation of Bear Wagner Specialists, LLC commencing in the first quarter of 2004. Clearance commissions increased 7.0% to \$82.6 million for the 2004 quarter from \$77.1 million for the 2003 quarter due primarily to increased levels of fully disclosed customer activity resulting from an improvement in global equity market conditions. Retail and other commissions increased 24.9% to \$68.8 million in the 2004 quarter from \$55.1 million in the 2003 quarter due to an increase in individual customer activity levels.

The Company's principal transactions revenues by reporting category were as follows:

(in thousands)	Three Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Fixed income	\$ 678,705	\$ 656,223	3.4%
Equities	93,684	42,945	118.1%
Derivative financial instruments	143,080	110,747	29.2%
Total principal transactions	\$ 915,469	\$ 809,915	13.0%

Revenues from principal transactions for the 2004 quarter increased 13.0% to \$915.5 million from \$809.9 million for the 2003 quarter, due to an increase in the Company's equities activities, derivative financial instruments activities and fixed income activities. Fixed income revenues increased 3.4% to \$678.7 million for the 2004 quarter from \$656.2 million for the 2003 quarter due primarily to increases in the mortgage-backed securities and interest rate products areas, partially offset by declines in the Company's credit products business, particularly in the high yield and corporate bonds trading areas. Mortgage-backed securities revenues achieved record levels primarily due to an increase in the volume of non-agency CMOs and the secondary trading activities. Revenues derived from equities activities increased 118.1% to \$93.7 million during the 2004 quarter from \$42.9 million in the 2003 quarter, primarily due to the impact of the consolidation of Bear Wagner Specialists, LLC. In addition, international equities revenues increased during the 2004 quarter, as a result of increased volumes triggered by increased investor confidence and improved economic conditions in international markets. Revenues from derivative financial instruments increased 29.2% to \$143.1 million in the 2004 quarter from \$110.7 million in the 2003 quarter, due to increases in fixed income derivatives and foreign exchange trading activities as a result of the favorable market environment.

The Company's investment banking revenues by reporting category were as follows:

(in thousands)	Three Months Ended		
	May 31, 2004	May 31, 2003	% Increase / (Decrease)
Underwriting	\$ 130,594	\$ 89,658	45.7%

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Advisory services	89,640	78,604	14.0%
Merchant banking	41,330	44,288	(6.7)%
-----			
Total investment banking	\$ 261,564	\$ 212,550	23.1%
=====			

Investment banking revenues increased 23.1% to \$261.6 million for the 2004 quarter from \$212.6 million for the 2003 quarter. Investment banking revenues include fees earned for underwriting public and private offerings of fixed income and equity securities and advising clients on mergers and acquisitions and other services, and merchant banking revenues. Underwriting revenues increased 45.7% to \$130.6 million for the 2004 quarter from \$89.7 million for the 2003 quarter, reflecting an increase in equity underwriting due to increased volume of new issue activity. Fixed income underwriting increased

30

MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

marginally from the 2003 quarter as a result of improved high yield underwriting revenues based on increased new issues volumes and market share. These increases were partially offset by lower high grade underwriting revenues, reflecting the impact of lower new issue activity. Advisory services revenues for the 2004 quarter increased 14.0% to \$89.6 million from \$78.6 million for the 2003 quarter reflecting increased completed mergers and acquisitions activity. Merchant banking revenues decreased 6.7% to \$41.3 million for the 2004 quarter, compared to \$44.3 million for the 2003 quarter.

Net interest revenues (interest and dividend revenue less interest expense) increased 17.1% to \$158.2 million for the 2004 quarter, from \$135.1 million for the 2003 quarter. The increase in net interest revenues was primarily attributable to higher levels of customer interest-bearing balances reflecting improved US equity market conditions. Average customer margin debt balances increased 18.2% to \$46.7 billion for the 2004 quarter from \$39.5 billion for the 2003 quarter. Average customer short balances increased 24.5% to \$77.2 billion for the 2004 quarter from \$62.0 billion for the 2003 quarter and average stock borrowed balances increased 22.5% to \$58.7 billion for the 2004 quarter from \$47.9 billion for the 2003 quarter.

Non-Interest Expenses

The Company's non-interest expenses were as follows:

(in thousands)	Three Months Ended		%In (De
	May 31, 2004	May 31, 2003	
Employee compensation and benefits	\$ 860,053	\$ 692,181	
Floor brokerage, exchange and clearance fees	59,647	47,540	
Communications and technology	88,321	90,744	
Occupancy	34,768	33,088	

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Advertising and market development	29,315	27,507
Professional fees	42,370	28,995
Other expenses	97,588	114,535
Total non-interest expenses	\$ 1,212,062	\$ 1,034,590

Employee compensation and benefits includes the cost of salaries and benefits and incentive compensation, including restricted stock and option awards. Employee compensation and benefits increased 24.3% to \$860.1 million for the 2004 quarter from \$692.2 million for the 2003 quarter, primarily due to higher discretionary compensation associated with the increase in net revenues. Employee compensation and benefits as a percentage of net revenues was 49.9% for the 2004 quarter compared to 47.3% for the 2003 quarter. Such second quarter compensation to net revenue percentages brought six months ended May 31, 2004 and May 31, 2003 amounts to 49.5% and 48.7%, respectively. Full-time employees remained relatively unchanged at 10,469 at May 31, 2004 from 10,472 at May 31, 2003.

Non-compensation expenses increased 2.8% to \$352.0 million for the 2004 quarter from \$342.4 million for the 2003 quarter. Non-compensation expenses as a percentage of net revenues decreased to 20.4% for the 2004 quarter, compared with 23.4% for the 2003 quarter, which is attributable to a relatively stable cost base combined with a significant increase in net revenues. The increase in non-compensation expenses of 2.8% when compared to the comparable prior year quarter reflects the consolidation of Bear Wagner Specialists, LLC. Non-compensation expenses related to Bear Wagner Specialists, LLC amounted to \$24.5 million for the 2004 quarter. Excluding the impact of the consolidation of Bear Wagner Specialists, LLC, non-compensation expenses declined 4.4% to \$327.5 million in the 2004 quarter. Specifically, the decline in non-compensation expenses, excluding specialist related costs, is primarily related to a reduction in other expenses of \$31.4 million, primarily attributable to a reduction in litigation and litigation-related costs.

31

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Partially offsetting these decreases was an increase in professional fees and increased floor brokerage, exchange and clearance fees. CAP Plan related costs decreased to \$44.5 million for the 2004 quarter from \$46.0 million in the comparable prior year quarter. The Company achieved a pre-tax profit margin of 29.7% for the 2004 quarter versus 29.3% for the 2003 quarter.

The Company's effective tax rate decreased to 32.0% for the 2004 quarter compared to 34.5% for the 2003 quarter.

#### Business Segments

The remainder of "Results of Operations" is presented on a business segment basis. The Company's three business segments--Capital Markets, Global Clearing Services and Wealth Management--are analyzed separately due to the distinct nature of the products they provide and the clients they serve. Certain Capital Markets products are distributed by the Wealth Management and Global Clearing Services distribution networks, with the related revenues of such intersegment

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

services allocated to the respective segments. Certain reclassifications have been made to prior period amounts to conform to the current period's presentation, including the reclassification of certain revenues within the Wealth Management segment from asset management to private client services.

The following segment operating results exclude certain unallocated revenues (predominantly interest) as well as certain corporate administrative functions, such as certain legal costs and costs related to the CAP Plan.

### Capital Markets

(in thousands)	Three Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Net revenues			
Institutional equities	\$ 252,004	\$ 189,346	33.1%
Fixed income	844,436	765,190	10.4%
Investment banking	254,872	223,439	14.1%
Total net revenues			
	\$ 1,351,312	\$ 1,177,975	14.7%
Pre-tax income			
	\$ 491,002	\$ 483,971	1.5%

The Capital Markets segment comprises the institutional equities, fixed income and investment banking areas. The Capital Markets segment operates as a single integrated unit that provides the sales, trading and origination effort for various fixed income, equity and advisory products and services. Each of the three businesses works in tandem to deliver these services to institutional and corporate clients.

Institutional equities consists of research, sales and trading in areas such as domestic and international equities, block trading, convertible bonds, over-the-counter equities, equity derivatives, risk and convertible arbitrage and through a majority-owned subsidiary, the NYSE, AMEX and International Securities Exchange specialist activities. Fixed income includes sales, trading and research provided to institutional clients across a variety of products such as mortgage- and asset-backed securities, corporate and government bonds, municipal bonds, high yield products, foreign exchange and interest rate and credit derivatives. Investment banking provides services in capital raising, strategic advice, mergers and acquisitions and merchant banking. Capital raising encompasses the Company's underwriting of equity, investment-grade, municipal and high yield debt products.

Net revenues for Capital Markets increased 14.7% to \$1.4 billion for the 2004 quarter from \$1.2 billion for the 2003 quarter. Pre-tax income for Capital Markets increased 1.5% to \$491.0 million for the 2004 quarter from \$484.0 million for the 2003 quarter. Pre-tax profit margin was 36.3% for the 2004 quarter compared to 41.1% for the 2003 quarter.

Institutional equities net revenues for the 2004 quarter increased 33.1% to \$252.0 million from \$189.3 million for the 2003 quarter. During the 2004 quarter, US equity market conditions showed improvement when compared to the 2003 quarter which stimulated activity across the Company's equity franchise. As a result, institutional equities

MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

commissions in the Company's US-listed and over-the-counter businesses increased, reflecting increased trading volume and improved market share. International equity sales and trading net revenues also increased significantly, reflecting more favorable global equity market conditions and increased customer order flow. Included within the Company's institutional equities revenues for the 2004 quarter are the revenues of the Company's majority-owned specialist subsidiary, Bear Wagner Specialists, LLC. These results, which were consolidated beginning with the first quarter of 2004, resulted in an increase in net revenues from specialist activities of approximately \$50 million over the 2003 quarter. These increases are partially offset by lower levels of equity derivative and convertible arbitrage revenues resulting from reduced customer activity along with lower equity market volatility.

Fixed income net revenues increased 10.4% to \$844.4 million for the 2004 quarter from \$765.2 million from the 2003 quarter, primarily reflecting strong results from the Company's mortgage and interest rate product areas. The mortgage-backed securities business achieved record levels of net revenues during the quarter reflecting a significant increase in the volume of secondary trading activity. In addition, despite the decline in mortgage origination volume caused by the increase in interest rates, adjustable rate mortgage volumes increased significantly due to the steepening yield curve. As a result, the Company's non-agency CMO activity increased significantly. Secondary trading revenues also increased due to higher levels of customer activity and the diminished supply of new issue agency mortgage-backed securities. In addition, the Company's interest rate businesses again achieved near record results on increased customer order flow and a favorable market environment. In particular, interest rate derivatives and foreign exchange businesses continued to deliver strong results reflecting increased volatility levels, customer volumes and market share. These results were partially offset by reduced net revenues from the Company's credit businesses which decreased from the record results they achieved in the 2003 quarter.

Investment banking revenues increased 14.1% to \$254.9 million for the 2004 quarter from \$223.4 million for the 2003 quarter. Investment banking revenues include fees earned for underwriting public and private offerings of fixed income and equity securities and advising clients on mergers and acquisitions and other services, and merchant banking revenues. Underwriting revenues increased 32.1% to \$140.2 million for the 2004 quarter from \$106.2 million for the 2003 quarter, reflecting an increase in equity underwriting due to increased volume of secondary offerings and private placements. Fixed income underwriting increased marginally from the 2003 quarter due to improved high yield underwriting revenues based on increased new issues volumes and market share. These increases were partially offset by lower high grade underwriting revenues, reflecting the impact of reduced new issue activity. Advisory services revenues for the 2004 quarter increased slightly to \$73.3 million from \$72.9 million for the 2003 quarter reflecting an increase in advisory fees caused by increased mergers and acquisitions activity. Merchant banking revenues decreased 6.7% to \$41.3 million for the 2004 quarter, compared to \$44.3 million for the 2003 quarter.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

### Global Clearing Services

(in thousands)	Three Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Net revenues	\$ 223,676	\$ 187,405	19.4%
Pre-tax income	\$ 86,705	\$ 37,798	129.4%

The Global Clearing Services segment provides execution, clearing, margin lending and securities borrowing to facilitate customer short sales to clearing clients worldwide. Prime brokerage clients include hedge funds and clients of money managers, short sellers, arbitrageurs and other professional investors. Fully disclosed clients engage in either the retail or institutional brokerage business. At May 31, 2004 and May 31, 2003, the Company held approximately \$225 billion and \$177 billion, respectively, in equity in Global Clearing Services client accounts.

33

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net revenues for Global Clearing Services increased 19.4% to \$223.7 million for the 2004 quarter from \$187.4 million in the 2003 quarter. Commission revenues increased 7.1% to \$82.6 million for the 2004 quarter, from \$77.1 million for the 2003 quarter reflecting increased levels of fully disclosed customer activity. Net interest revenues increased 25.5% to \$134.6 million for the 2004 quarter, from \$107.3 million for the 2003 quarter, primarily reflecting increased customer margin and short sale balances. Pre-tax income increased 129.4% to \$86.7 million, from \$37.8 million for the 2003 quarter, reflecting higher net revenues and reduced expenses. Pre-tax profit margin was 38.8% for the 2004 quarter compared to 20.2% for the quarter ended May 31, 2003.

Average customer margin balances were \$46.7 billion during the 2004 quarter compared to \$39.5 billion during the 2003 quarter. Customer margin balances totaled \$44.4 billion at May 31, 2004, an increase from \$44.1 billion at May 31, 2003. Average customer short balances were \$77.2 billion during the 2004 quarter compared to \$62.0 billion during the 2003 quarter and totaled \$74.9 billion at May 31, 2004, an increase from \$66.2 billion at May 31, 2003. Average stock borrowed balances were \$58.7 billion during the 2004 quarter compared to \$47.9 billion for the 2003 quarter and totaled \$53.6 billion at May 31, 2004, an increase from \$48.6 billion at May 31, 2003. Average free credit balances were \$28.1 billion during the 2004 quarter compared to \$19.3 billion during the 2003 quarter and totaled \$28.8 billion at May 31, 2004, an increase from \$20.4 billion at May 31, 2003.

Wealth Management

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

(in thousands)	Three Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Net revenues			
Private Client Services	\$ 117,272	\$ 91,142	28.7%
Asset Management	59,244	33,263	78.1%
Total net revenues	\$ 176,516	\$ 124,405	41.9%
Pre-tax income	\$ 25,719	\$ 4,948	419.8%

Note: Certain prior period items have been reclassified within the Wealth Management segment to conform to the current period's presentation.

The Wealth Management segment is composed of the Private Client Services ("PCS") and asset management areas. PCS provides high-net-worth individuals with an institutional level of investment service, including access to the Company's resources and professionals. At May 31, 2004, PCS has approximately 500 account executives in its principal office, six regional offices and two international offices. Asset management manages equity, fixed income and alternative assets for corporate pension plans, public systems, endowments, foundations, multi-employer plans, insurance companies, corporations, families and high-net-worth individuals in the US and abroad.

Net revenues for Wealth Management increased 41.9% to \$176.5 million for the 2004 quarter, from \$124.4 million for the 2003 quarter. PCS revenues increased 28.7% to \$117.3 million for the 2004 quarter from \$91.1 million for the 2003 quarter reflecting increased levels of retail investor activity on improving US equity markets as well as the continued expansion of the Company's PCS sales force. Asset management revenues increased 78.1% to \$59.2 million for the 2004 quarter, from \$33.3 million for the 2003 quarter. This increase reflects the sale of the mutual funds business to Dreyfus, resulting in an increase to net revenues of approximately \$22 million. In addition, asset management revenues increased on higher management fees attributable to increased assets under management in both traditional and alternative investment products. Pre-tax income for Wealth Management increased 419.8% to \$25.7 million in the 2004 quarter from \$4.9 million for the 2003 quarter, reflecting higher net revenues. The current quarter included approximately \$7 million of non-recurring transaction costs related to the mutual fund sale.

Assets under management were \$27.3 billion at May 31, 2004, reflecting a 11.7% increase from \$24.4 billion in assets under management at May 31, 2003. Assets under management include \$6.2 billion of assets from alternative investment products at May 31, 2004, an increase of 9.3% from \$5.7 billion at May 31, 2003.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Compared to Six Months Ended May 31, 2003  
-----

The following table sets forth an overview of the Company's financial results:

(in thousands, except per share amounts, pre-tax profit margin and return on average common equity)	Six Months Ended	
	May 31, 2004	Ma 2
Revenues, net of interest expense	\$ 3,449,461	\$ 2,9
Income before provision for income tax	\$ 1,042,454	\$ 8
Net Income	\$ 708,868	\$ 5
Diluted earnings per share	\$ 5.07	\$
Pre-tax profit margin	30.2%	
Return on average common equity (annualized)	20.5%	

The Company reported net income of \$708.9 million, or \$5.07 per share (diluted), for the six months ended May 31, 2004 which represented an increase of 27.8% from \$554.7 million, or \$4.05 per share (diluted), for the six months ended May 31, 2003.

Revenues, net of interest expense ("net revenues") increased 15.8% to \$3.5 billion for the six months ended May 31, 2004 from \$3.0 billion for the six months ended May 31, 2003 due to increases in investment banking revenues, principal transactions revenues, commission revenues and net interest revenues.

The Company's commission revenues were as follows:

(in thousands)	Six Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Institutional	\$318,817	\$258,099	23.5%
Clearance	162,115	148,612	9.1%
Retail & other	134,321	102,886	30.6%
Total commissions	\$615,253	\$509,597	20.7%

Note: Certain prior period items have been reclassified within commission revenues to conform to the current period's presentation.

Commission revenues for the six months ended May 31, 2004 increased 20.7% to \$615.3 million from \$509.6 million for the 2003 quarter. Institutional commissions increased 23.5% to \$318.8 million for the 2004 period from \$258.1 million for the 2003 period, primarily due to increased trading volumes as well as the impact of the consolidation of Bear Wagner Specialists, LLC commencing in the first quarter of 2004. Clearance commissions increased 9.1% to \$162.1 million for the 2004 period from \$148.6 million for the 2003 period due primarily to increased levels of fully disclosed customer activity resulting from an improvement in global equity market conditions. Retail and other commissions increased 30.6% to \$134.3 million in the 2004 period from \$102.9 million in the 2003 period due to an increase in individual customer activity levels.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company's principal transactions revenues by reporting category were as follows:

(in thousands)	Six Months Ended		
	May 31, 2004	May 31, 2003	% (Decrease) Increase
Fixed income	\$ 1,352,256	\$ 1,386,988	(2.5)%
Equities	215,716	133,340	61.8%
Derivative financial instruments	294,359	258,051	14.1%
Total principal transactions	\$ 1,862,331	\$ 1,778,379	4.7%

Revenues from principal transactions for the six months ended May 31, 2004 increased 4.7% to \$1.9 billion from \$1.8 billion for the six months ended May 31, 2003 quarter, due to increases in equities activities and derivative financial instruments activities, partially offset by a decrease in fixed income activities. Fixed income revenues decreased 2.5% to \$1.35 billion during the 2004 period from \$1.39 billion when compared to the same period in the prior year. This decrease is largely due to reduced net revenues from the high yield and corporate bonds areas which were adversely affected by wider credit spreads and reduced volumes. This decrease was substantially offset by the increased net revenues achieved in the mortgage-backed securities business with strong performances across many sectors, particularly in the whole loans, adjustable rate mortgage securities and the commercial securitization businesses. Revenues derived from equities activities increased 61.8% to \$215.7 million during the 2004 period from \$133.3 million in the 2003 period primarily due to the impact of the consolidation of Bear Wagner Specialists, LLC. In addition, equities-related businesses, particularly the over-the-counter stock, risk arbitrage and international equities revenues increased during the 2004 period, as a result of higher average daily trading volumes and increased announced mergers and acquisitions activity. These increases were partially offset by decreased revenues in convertible and equity arbitrage due to decreased levels of market volatility. Revenues from derivative financial instruments increased 14.1% to \$294.4 million in the 2004 period from \$258.1 million in the 2003 period, primarily due to increases in foreign exchange, credit derivatives and fixed income derivatives activities as a result of the favorable market environment.

The Company's investment banking revenues by reporting category were as follows:

Six Months Ended		
	May 31,	May 31,

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

(in thousands)	2004	2003	% Increase
Underwriting	\$ 291,529	\$ 188,697	54.5%
Advisory services	186,409	153,803	21.2%
Merchant banking	44,036	37,633	17.0%
Total investment banking	\$ 521,974	\$ 380,133	37.3%

Investment banking revenues increased 37.3% to \$522.0 million for the six months ended May 31, 2004 from \$380.1 million for the six months ended May 31, 2003. Investment banking revenues include fees earned for underwriting public and private offerings of fixed income and equity securities and advising clients on mergers and acquisitions and other services, and merchant banking revenues. Underwriting revenues increased 54.5% to \$291.5 million for the 2004 period from \$188.7 million for the 2003 period, reflecting an increase in equity underwriting due to increased volume of new issue activity. High yield underwriting revenues also improved significantly on increased new issue activity. These increases were partially offset by reduced municipal underwriting revenues, reflecting the impact of lower new issue activity. Advisory services revenues for the 2004 period increased 21.2% to \$186.4 million from \$153.8 million for the 2003 period reflecting increased completed mergers and acquisitions activity. Merchant banking revenues increased 17.0% to \$44.0 million for the 2004 period, compared to \$37.6 million for the 2003 period.

36

MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net interest revenues (interest and dividend revenue less interest expense) increased 31.0% to \$323.2 million for the six months ended May 31, 2004, up from \$246.8 million for the six months ended May 31, 2003. The increase in net interest revenues was primarily attributable to higher levels of customer interest-bearing balances reflecting improved US equity market conditions. Average customer margin debt balances increased 23.1% to \$46.7 billion for the 2004 period from \$37.9 billion for the 2003 period. Average customer short balances increased 27.3% to \$75.8 billion for the 2004 period from \$59.5 billion for the 2003 period and average stock borrowed balances increased 26.0% to \$58.6 billion for the 2004 period from \$46.5 billion for the 2003 period.

Non-Interest Expenses

The Company's non-interest expenses were as follows:

(in thousands)	Six Months Ended		% Inc (Dec)
	May 31, 2004	May 31, 2003	
Employee compensation and benefits	\$ 1,709,201	\$ 1,450,070	

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Floor brokerage, exchange and clearance fees	116,547	92,220
Communications and technology	182,149	183,484
Occupancy	68,383	68,031
Advertising and market development	55,216	52,717
Professional fees	84,170	57,448
Other expenses	191,341	220,855
Total non-interest expenses	\$ 2,407,007	\$ 2,124,825

Employee compensation and benefits includes the cost of salaries and benefits and incentive compensation, including restricted stock and option awards. Employee compensation and benefits increased 17.9% to \$1.7 billion for the six months ended May 31, 2004 from \$1.5 billion for the six months ended May 31, 2003, primarily due to higher discretionary compensation associated with the increase in net revenues. Employee compensation and benefits as a percentage of net revenues was 49.5% for the 2004 period compared to 48.7% for the 2003 period. Full-time employees decreased to 10,469 at May 31, 2004 from 10,472 at May 31, 2003.

Non-compensation expenses increased 3.4% to \$697.8 million for the six months ended May 31, 2004 from \$674.8 million for the six months ended May 31, 2003. Non-compensation expenses as a percentage of net revenues decreased to 20.2% for the 2004 period, compared with 22.7% for the 2003 period, which is attributable to a relatively stable cost base combined with significantly increased net revenues. The increase in non-compensation expenses of 3.4% when compared to the comparable prior year period primarily reflects the consolidation of Bear Wagner Specialists, LLC beginning in the first quarter of 2004. Non-compensation expenses related to Bear Wagner Specialists, LLC amounted to approximately \$50 million for the 2004 period. Excluding the impact of the consolidation of Bear Wagner Specialists, LLC, non-compensation expenses declined 4.2% to \$646.3 million in the 2004 period. The decline in non-compensation expenses is primarily attributable to a decline in other expenses partially offset by increases in professional fees and floor brokerage, exchange and clearance fees. The decline in other expenses consisted of a \$20.5 million charge for impairment of goodwill associated with the Company's electronic options market making business recorded in 2003 and reduced litigation and litigation-related expenses in the current period. CAP Plan related costs were \$88.5 million for the 2004 period, a decrease from \$94.0 million in the comparable prior year period. The Company achieved a pre-tax profit margin of 30.2% for the six months ended May 31, 2004 versus 28.7% for the six months ended May 31, 2003.

37

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company's effective tax rate decreased to 32.0% for the 2004 period compared to 35.0% for the 2003 period.

Business Segments

Capital Markets

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

(in thousands)	Six Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Net revenues			
Institutional equities	\$ 549,404	\$ 465,807	17.9%
Fixed income	1,666,704	1,556,407	7.1%
Investment banking	508,051	411,203	23.6%
Total net revenues	\$ 2,724,159	\$ 2,433,417	11.9%
Pre-tax income	\$ 1,007,371	\$ 949,890	6.1%

Net revenues for Capital Markets increased 11.9% to \$2.7 billion for the six months ended May 31, 2004 from \$2.4 billion for the six months ended May 31, 2003. Pre-tax income for Capital Markets increased 6.1% to \$1.0 billion for the 2004 period from \$949.9 million for the 2003 period. Pre-tax profit margin was 37.0% for the 2004 period compared to 39.0% for the 2003 period.

Institutional equities net revenues for the six months ended May 31, 2004 increased 17.9% to \$549.4 million from \$465.8 million for the six months ended May 31, 2003. During the 2004 period, market indices showed improvement when compared to the 2003 period and average daily trading volumes increased on the NYSE and Nasdaq. As a result, institutional equities commissions in the Company's US-listed and over-the-counter businesses increased, reflecting increased trading volume. International equity sales and trading net revenues also increased significantly, reflecting more favorable global equity market conditions and increased customer order flow. Risk arbitrage revenues improved, reflecting a significant increase in the total value of announced mergers and acquisitions activity. Included within the Company's institutional equities revenues for the 2004 period are the revenues of the Company's majority-owned specialist subsidiary, Bear Wagner Specialists, LLC. These results, which were consolidated beginning with the first quarter of 2004, resulted in an increase in net revenues from specialist activities of approximately \$83 million over the 2003 period. A decline in customer activity levels and reduced market volatility resulted in lower levels of equity derivative and convertible arbitrage revenues.

Fixed income net revenues increased 7.1% to \$1.7 billion for the six months ended May 31, 2004 from \$1.6 billion from the six months ended May 31, 2003, primarily reflecting strong results from the Company's mortgage and interest rate product areas. In particular, mortgage-backed securities, foreign exchange and interest rate derivatives areas increased during the 2004 period when compared to the prior year period. The mortgage-backed securities business achieved record levels of net revenues during the period reflecting a significant increase in the volume of secondary trading activity. In addition, despite the decline in mortgage origination volume caused by the increase in interest rates, adjustable rate mortgage volumes increased significantly due to the steepening yield curve. As a result, the Company's non-agency CMO activity increased significantly. In addition, the Company's interest rate businesses achieved near record results on increased customer order flow and a favorable market environment. In particular, the interest rate derivatives and foreign exchange businesses continued to deliver strong results reflecting increased volatility levels, customer volumes and market share. These results were partially offset by a decrease in net revenues from the Company's credit businesses from the strong results they achieved in the 2003 period.

Investment banking revenues increased 23.6% to \$508.1 million for the six months

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

ended May 31, 2004 from \$411.2 million for the six months ended May 31, 2003. Investment banking revenues include fees earned for underwriting public and private offerings of fixed income and equity securities and advising clients on mergers and acquisitions and other services, and merchant banking revenues. Underwriting revenues increased 32.3% to \$305.5 million for the 2004 period from \$230.9 million for the 2003 period, reflecting an increase in

38

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

equity underwriting on strong new issue activity. High yield underwriting revenues also improved significantly on strong new issue activity. These increases were partially offset by reduced municipal underwriting revenues, reflecting the impact of lower new issue activity. Advisory services revenues for the 2004 period increased 11.1% to \$158.5 million from \$142.7 million for the 2003 period reflecting an increase in US completed mergers and acquisitions activity. Merchant banking revenues increased 17.2% to \$44.0 million for the 2004 period, compared to \$37.6 million for the 2003 period.

#### Global Clearing Services

(in thousands)	Six Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Net revenues	\$ 441,290	\$363,183	21.5%
Pre-tax income	\$ 165,207	\$ 89,948	83.7%

Net revenues for Global Clearing Services increased 21.5% to \$441.3 million for the six months ended May 31, 2004 from \$363.2 million for the six months ended May 31, 2003. Commission revenues increased 9.1% to \$162.1 million for the 2004 period, from \$148.6 million for the 2003 period reflecting increased prime broker and fully disclosed customer activity. Net interest revenues increased 28.7% to \$267.7 million for the 2004 period, from \$207.9 million for the 2003 period, primarily reflecting increased margin balances from prime brokerage and fully disclosed clearance clients due to improving US equity market conditions. Pre-tax income increased 83.7% to \$165.2 million, from \$89.9 million for the 2003 period, reflecting higher net revenues. Pre-tax profit margin was 37.4% for the 2004 period compared to 24.8% for the period ended May 31, 2003.

Average customer margin balances were \$46.7 billion during the 2004 period compared to \$37.9 billion during the 2003 period. Customer margin balances totaled \$44.4 billion at May 31, 2004, an increase from \$44.1 billion at May 31, 2003. Average customer short balances were \$75.8 billion during the 2004 period compared to \$59.5 billion during the 2003 period and totaled \$74.9 billion at May 31, 2004, an increase from \$66.2 billion at May 31, 2003. Average stock borrowed balances were \$58.6 billion during the 2004 period compared to \$46.5 billion for the 2003 period and totaled \$53.6 billion at May 31, 2004, an increase from \$48.6 billion at May 31, 2003. Average free credit balances were \$27.3 billion during the 2004 period compared to \$19.1 billion during the 2003 period and totaled \$28.8 billion at May 31, 2004, an increase from \$20.4 billion at May 31, 2003.

# Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

## Wealth Management

(in thousands)	Six Months Ended		
	May 31, 2004	May 31, 2003	% Increase
Net revenues			
Private Client Services	\$ 228,169	\$ 175,295	30.2%
Asset Management	101,134	64,695	56.3%
Total net revenues			
	\$ 329,303	\$ 239,990	37.2%
Pre-tax income			
	\$ 46,586	\$ 10,667	336.7%

Note: Certain prior period items have been reclassified within the Wealth Management segment to conform to the current period's presentation.

Net revenues for Wealth Management increased 37.2% to \$329.3 million for the six months ended May 31, 2004, from \$240.0 million for the six months ended May 31, 2003. PCS revenues increased 30.2% to \$228.2 million for the 2004 period from \$175.3 million for the 2003 period reflecting increased levels of retail customer activity on improving US equity markets as well as the continued expansion of the Company's PCS sales force. Asset management revenues increased 56.3% to \$101.1 million for the 2004 period, from \$64.7 million for the 2003 period. This increase reflects the sale of the mutual funds business to Dreyfus, resulting in an increase to net revenues of approximately \$22 million, higher management fees attributable to increased assets under management in both traditional and hedge fund products as well as improved performance fees on alternative investment

39

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

products, principally hedge funds. Pre-tax income for Wealth Management approximated \$46.6 million in the 2004 period, a 336.7% increase compared to pre-tax income of \$10.7 million for the 2003 period, reflecting higher net revenues. The current period includes approximately \$7 million of non-recurring transaction costs associated with the sale of the mutual fund business.

#### Liquidity and Capital Resources

#### Financial Leverage

-----

#### Asset Composition

The Company's actual level of capital, capital requirements and thereby the level of financial leverage, are a function of numerous variables, including asset composition, rating agency/creditor perception, business prospects,

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

regulatory requirements, balance sheet liquidity, cost/availability of capital and risk of loss. The Company consistently maintains a highly liquid balance sheet, with the vast majority of the Company's assets consisting of cash, marketable securities inventories and collateralized receivables arising from customer-related and proprietary securities transactions.

Collateralized receivables consist of resale agreements secured predominantly by US government and agency securities, customer margin loans and securities borrowed, which are typically secured by marketable corporate debt and equity securities. The nature of the Company's business as a securities dealer requires it to carry significant levels of securities inventories to meet its customer and proprietary trading needs. Additionally, the Company's role as a financial intermediary for customer activities, which it conducts on a principal basis, together with its customer-related activities in its clearance business, results in significant levels of customer-related balances, including customer margin debt, securities borrowed and repurchase activity. The Company's total assets and financial leverage can and do fluctuate, depending largely on economic and market conditions, volume of activity and customer demand.

The Company's total assets at May 31, 2004 increased to \$241.6 billion from \$212.2 billion at November 30, 2003. The increase was primarily attributable to increases in financial instruments owned, securities purchased under agreements to resell and customer receivables, partially offset by a decrease in cash and securities borrowed. The Company's total capital base, which consists of long-term debt, preferred equity issued by subsidiaries and total stockholders' equity, increased to \$40.0 billion at May 31, 2004 from \$37.5 billion at November 30, 2003. This change was primarily due to an increase in equity associated with net income and a net increase in long-term debt, partially reduced by the redemption of preferred stock issued by a subsidiary, common stock repurchases and cash dividends paid.

The amount of long-term debt, as well as total capital, that the Company maintains is driven by a number of factors with particular focus on asset composition. The Company's ability to support increases in total assets is a function of its ability to obtain short-term secured and unsecured funding, as well as its access to longer-term sources of capital (i.e., long-term debt and equity). The Company regularly measures and monitors its total capital requirements, which are primarily a function of the self-funding ability of its assets. The equity portion of total capital is primarily a function of on- and off-balance-sheet risks (i.e., market, credit and liquidity) and regulatory capital requirements. As such, the liquidity and risk characteristics of assets being held are especially decisive determinants of both total capital and the equity portion thereof, thus significantly influencing the amount of leverage that the Company can employ.

Given the nature of the Company's market-making and customer-financing activity, the overall size of the balance sheet fluctuates from time to time. The Company's total assets at quarter end are frequently lower than would be observed on an average basis. At quarter end, the Company typically uses excess cash to finance high-quality, highly liquid securities inventory that otherwise would be funded via the repurchase agreement market. In addition, the Company reduces its matched book repurchase and reverse repurchase activities at quarter end. Finally, the Company may reduce the aggregate level of inventories through ordinary course, open market activities in the most liquid portions of the balance sheet, which are principally US government and agency securities and agency mortgage pass-through securities. At May 31, 2004 and November 30, 2003, total assets of \$241.6 billion and \$212.2 billion were approximately 6.4% and 10.1% lower than the average of the month-end balances observed over

# Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

the trailing twelve-month period. Despite reduced total assets at quarter end, the Company's overall market, credit and liquidity risk profile is not changed materially, since the reduction in asset balances is predominantly in highly liquid, short-term instruments that are financed on a secured basis. This periodic reduction verifies the inherently liquid nature of the balance sheet and provides consistency with respect to creditor constituents' evaluation of the Company's financial condition.

### Leverage Ratios

The following table presents total assets, adjusted assets, and net adjusted assets with the resultant leverage ratios at May 31, 2004 and November 30, 2003. With respect to a comparative measure of financial risk and capital adequacy, the Company believes that the low-risk, collateralized nature of its resale, securities borrowed and segregated cash assets renders net adjusted leverage as the most relevant measure. The Company maintains a financial statement date guideline for the net adjusted leverage ratio of no greater than 15.0, which the Company continued to meet at May 31, 2004.

(in billions, except ratios)	May 31, 2004	November 30, 2003
Total assets	\$ 241.6	\$ 212.2
Adjusted assets (1)	\$ 176.2	\$ 164.2
Net adjusted assets (2)	\$ 106.1	\$ 90.9
Leverage ratio (3)	29.2	26.4
Adjusted leverage ratio (4)	21.3	20.4
Net adjusted leverage ratio(5)	12.8	11.3

- (1) Adjusted assets is Total assets less securities purchased under agreements to resell, securities received as collateral and cash and securities deposited with clearing organizations or segregated in compliance with federal regulations ("segregated cash").
- (2) Net adjusted assets is Adjusted assets less securities borrowed.
- (3) Leverage ratio equals Total assets divided by stockholders' equity and preferred stock issued by subsidiaries.
- (4) Adjusted leverage ratio equals Adjusted assets divided by stockholders' equity and preferred stock issued by subsidiaries.
- (5) Net adjusted leverage ratio equals Net adjusted assets divided by stockholders' equity and preferred stock issued by subsidiaries.

Note: As of May 31, 2004, the leverage ratio, adjusted leverage ratio and net adjusted leverage ratio equals total assets, adjusted assets and net adjusted assets, respectively, divided by stockholders' equity and junior subordinated debt issued to Bear Stearns Capital Trust III. The Company views the junior subordinated debt issued to Bear Stearns Capital Trust III as a component of its equity capital base given the equity-like characteristics of the securities. The Company also receives rating agency equity credit for these securities.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

### Funding Strategy & Liquidity Risk Management

-----

#### General Funding Strategy

The Company's general funding strategy seeks to ensure liquidity and diversity of funding sources to meet the Company's financing needs at all times and in all market environments. The Company attempts to finance its balance sheet by maximizing, where economically competitive, its use of secured funding. Short-term sources of cash consist principally of collateralized borrowings, including repurchase transactions, sell/buy arrangements, securities lending arrangements and customer free credit balances. Short-term unsecured funding sources expose the Company to rollover risk, as providers of credit are not obligated to refinance the instruments at maturity. Within this context, the Company seeks to prudently manage its reliance on short-term unsecured borrowings by maintaining an adequate total capital base and extensive use of secured funding. Beyond this, the Company's emphasis on diversification by product, geography, maturity and instrument seeks to further ensure prudent, moderate usage of more credit-sensitive, potentially less stable funding. Short-term unsecured funding includes commercial paper, medium-term notes and bank borrowings, which generally have maturities ranging from overnight to one year. Due to the collateralized nature of the borrowing, the Company views its secured funding as inherently less credit sensitive and therefore a more stable source of funding.

In addition to short-term funding sources, the Company utilizes equity and long-term debt, including floating- and fixed-rate notes and medium-term notes as longer-term sources of unsecured financing. The Company regularly monitors and analyzes the size, composition and liquidity characteristics of its asset base in the context of each asset's ability to be used to obtain secured financing. This analysis results in a determination of the Company's

41

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

aggregate need for longer-term funding sources (i.e., long-term debt and equity). The Company views long-term debt as a stable source of funding which effectively strengthens its overall liquidity profile.

#### Alternative Funding Strategy

The Company maintains an alternative funding strategy focused on the liquidity and self-funding ability of the underlying assets. The objective is to maintain sufficient cash capital (i.e., equity plus long-term debt maturing in more than twelve months) and funding sources to enable the Company to refinance short-term, unsecured borrowings with fully secured borrowings. As such, the Company is not reliant upon or contemplating forced balance sheet reduction to endure a period of constrained funding availability. This underlying approach is supported by maintenance of a formal contingency funding plan, which includes a detailed delegation of authority and precise action steps for managing an event-driven liquidity crisis. The plan identifies the crisis management team, details an effective internal and external communication strategy, and facilitates the greater information flow required to effect a rapid and efficient transition to a secured funding environment.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

As it relates to the alternative funding strategy discussed above, the Company prepares an analysis that focuses on a 12-month time period and assumes that the Company does not liquidate assets and cannot issue any new unsecured debt, including commercial paper. In light of these assumptions, the Company monitors its cash position and the borrowing value of unencumbered, unhyponthecated marketable securities in relation to its unsecured debt maturing over the next 12 months, striving to maintain the ratio of liquidity sources to maturing debt at 100% or greater. Also within this strategy, the Company endeavors to maintain cash capital in excess of that portion of its assets that cannot be funded on a secured basis (i.e. positive net cash capital). These two measures, liquidity ratio and net cash capital, are complementary and constitute the core elements of the Company's alternative funding strategy and, consequently, its approach to funding and liquidity risk management.

As of May 31, 2004, the market value of unencumbered, unhyponthecated securities owned by the Company was approximately \$23.5 billion with a borrowing value of \$19.7 billion. The assets are comprised primarily of US government and agency securities, mortgage-backed and asset-backed securities, investment-grade corporate debt and US equities. The average advance rate on these different asset types ranges from 70% to 98% and is based predominantly on committed, secured facilities that the Company and its subsidiaries maintain in different regions globally. The liquidity ratio (explained above) has averaged 205% over the previous twelve months including unused committed unsecured bank credit and 194% excluding the unsecured portion of the Company's \$3.4 billion committed revolving credit facility. The firm's net cash capital position has averaged just over \$2.5 billion over the same twelve-month period.

In addition, the Company monitors the maturity profile of its unsecured debt to minimize refinancing risk, maintains relationships with a broad global base of debt investors and bank creditors, establishes and adheres to strict short-term debt investor concentration limits, and periodically tests its secured and unsecured committed credit facilities. The Company also maintains available sources of short-term funding that exceed actual utilization, thus allowing it to endure changes in investor appetite and credit capacity to hold the Company's debt obligations. The Company has a general guideline of approximately no more than 20% of its long-term debt portfolio maturing in any one year. As of May 31, 2004 the weighted average maturity of the firm's long-term debt was 4.0 years.

### Committed Credit Facilities

The Company has a committed revolving credit facility ("Facility") totaling \$3.40 billion, which permits borrowing on a secured basis by Bear Stearns, BSSC, BSIL and certain other subsidiaries. The Facility also provides that The Bear Stearns Companies Inc. ("Parent Company") and BSIL may borrow up to \$1.70 billion of the Facility on an unsecured basis. Secured borrowings can be collateralized by both investment-grade and non-investment-grade financial instruments as the Facility provides for defined margin levels on a wide range of financial instruments eligible to be pledged. The Facility contains financial covenants, the most significant of which require maintenance of specified levels of stockholders' equity of the Company and net capital of BSSC. The facility terminates in February 2005, with all loans outstanding at that date payable no later than February 2006. There were no borrowings outstanding under the Facility at May 31, 2004.

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company has a \$1.50 billion committed revolving securities repo facility ("Repo Facility"), which permits borrowings secured by a broad range of collateral, under a repurchase arrangement, by BSIL, Bear Stearns International Trading Limited ("BSIT") and BSB. The Repo Facility contains financial covenants that require, among other things, maintenance of specified levels of stockholders' equity of the Company. The Repo Facility terminates in August 2004, with all repos outstanding at that date payable no later than August 2005. There were no borrowings outstanding under the Repo Facility at May 31, 2004.

The Company has a \$350 million committed revolving credit facility ("Pan Asian Facility"), which permits borrowing on a secured basis collateralized by foreign securities at pre-specified advance rates. The Pan Asian Facility contains financial covenants that require, among other things, maintenance of specified levels of stockholders' equity of the Company and net capital of BSSC. The Pan Asian Facility terminates in December 2004, with all loans outstanding at that date payable no later than December 2005. There were no borrowings outstanding under the Pan Asian Facility at May 31, 2004.

The Company also maintains a series of committed credit facilities to support liquidity needs for the financing of non-investment-grade loans, auto loans, residential mortgages, commercial mortgages and listed options. The facilities are expected to be drawn from time to time and expire at various dates during fiscal 2004. All of these facilities contain a term out option of one year or more for borrowings outstanding at expiration. The banks providing these facilities are committed to provide up to an aggregate of approximately \$3.60 billion.

#### Capital Resources

-----

The Company conducts a substantial portion of its operating activities within its regulated subsidiaries Bear Stearns, BSSC, BSIL, BSIT and BSB. The Company also conducts significant activities through other wholly owned subsidiaries including: Bear Stearns Global Lending Limited, Custodial Trust Company, Bear Stearns Financial Products Inc., Bear Stearns Capital Markets Inc., EMC Mortgage Corporation, Bear Stearns Mortgage Capital Corporation, Bear Stearns Credit Products Inc. and Bear Stearns Forex Inc. In connection with these operating activities, a substantial portion of the Company's long-term borrowings and equity has been used to fund investments in, and advances to, these subsidiaries, including subordinated debt advances. Within this funding framework, the Company attempts to fund equity investments in subsidiaries with equity from the Parent Company (i.e., utilize no equity double leverage). At May 31, 2004, the Parent Company's equity double leverage ratio was approximately 0.97 based on common equity and 0.91 including preferred equity. At November 30, 2003, these measures were 0.91 based on common equity and 0.84 including preferred equity. Additionally, all subordinated debt advances to regulated subsidiaries for use as regulatory capital are funded with long-term debt issued by the Company that have maturities equal to or greater than the maturity of the subordinated debt advance. The Company regularly monitors the nature and significance of assets or activities conducted outside the regulated subsidiaries and attempts to fund such assets with either capital or borrowings having maturities consistent with the nature and self-funding ability of the assets being financed.

Long-term debt totaling \$26.9 billion and \$24.6 billion had remaining maturities beyond one year at May 31, 2004 and November 30, 2003, respectively. The Company's access to external sources of financing, as well as the cost of that financing, is dependent on various factors and could be adversely affected by a

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

deterioration of the Company's long- and short-term debt ratings, which are influenced by a number of factors. These include, but are not limited to: material changes in operating margins; earnings trends and volatility; the prudence of funding and liquidity management practices; financial leverage on an absolute basis or relative to peers; the composition of the balance sheet and/or capital structure; geographic and business diversification; and the Company's market share and competitive position in the business segments in which it operates. Material deterioration in any one or a combination of these factors could result in a downgrade of the Company's credit ratings, thus increasing the cost of and/or limiting the availability of unsecured financing. Additionally, a reduction in the Company's credit ratings could also trigger incremental collateral requirements, predominantly in the over-the-counter derivatives market. As of May 31, 2004, a downgrade by either Moody's Investors Service or Standard & Poor's to the Company's long-term ratings to the level of A3 or A- would have required the Company to post approximately \$1.1 billion in additional collateral for outstanding over-the-counter derivatives contracts.

43

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

At May 31, 2004, the Company's long-term/short-term debt ratings were as follows:

	Rating
-----	-----
Dominion Bond Rating Service Limited(1)	A(high)/R-1 (middle)
Fitch	A+/F1+
Moody's Investors Service(2)	A1/P-1
Rating & Investment Information, Inc.	A+/nr
Standard & Poor's	A/A-1
-----	-----

nr - does not assign a short-term rating

(1) On August 26, 2003, Dominion Bond Rating Service Limited upgraded the Company's long-term debt ratings from "A" to "A (high)" with a "stable" trend, while simultaneously affirming the Company's short-term credit ratings.

(2) On October 22, 2003, Moody's Investors Service raised the Company's long-term debt ratings from A2 to A1 placing a "stable" outlook at the higher rating level, while simultaneously affirming the Company's short-term credit ratings.

#### Stock Repurchase Program

-----

The Company has various employee stock compensation plans designed to increase the emphasis on stock-based incentive compensation and align the compensation of its key employees with the long-term interests of stockholders. Such plans provide for annual grants of stock units and stock options. The Company intends to offset the potentially dilutive impact of the annual grants by purchasing common stock throughout the year in open market and private transactions. On January 7, 2004, the Board of Directors of the Company approved an amendment to the Stock Repurchase Program ("Repurchase Program") to replenish the previous authorizations to allow the Company to purchase up to \$1.0 billion of common stock in fiscal 2004 or beyond. During the quarter ended May 31, 2004, the

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Company purchased under the current authorization a total of 1,753,457 shares at a cost of approximately \$140.5 million. Approximately \$852.1 million remains available to be purchased under the current authorization as of May 31, 2004.

During the quarter ended May 31, 2004, the Company purchased a total of 508,329 shares of its common stock at a total cost of approximately \$42.2 million pursuant to a \$200 million CAP Plan Earnings Purchase Authorization, which was approved by the Compensation Committee of the Board of Directors of the Company on November 24, 2003. Approximately \$114.9 million remains available to be purchased under the current authorization as of May 31, 2004.

### Cash Flows

-----

Cash and cash equivalents during the six month period ended May 31, 2004 decreased \$1.9 billion to \$2.0 billion. Cash used in operating activities was \$1.3 billion, primarily attributable to increases in securities purchased under agreements to resell and financial instruments owned, which occurred in the normal course of business as a result of changes in customer needs, market conditions and trading strategies. These results were partially offset by increases in payables to customers, securities sold under agreements to repurchase and financial instruments sold but not yet purchased. Cash used in investing activities of \$0.1 billion primarily reflected net purchases of investment securities and other assets in connection with the Company's merchant banking activities and purchases of property, equipment and leasehold improvements. Cash used in financing activities of \$0.5 billion reflected the repayment of long-term borrowings, the redemption of preferred stock and net payments relating to short-term borrowings significantly offset by net proceeds from issuances of long-term borrowings used primarily to fund normal operating activities.

### Regulated Subsidiaries

-----

As registered broker-dealers, Bear Stearns and BSSC are subject to the net capital requirements of the Securities Exchange Act of 1934, as amended, the NYSE and the Commodity Futures Trading Commission, which are designed to measure the general financial soundness and liquidity of broker-dealers. BSIL and BSIT, London-based broker-dealer subsidiaries, are subject to the regulatory capital requirements of the Financial Services Authority. Additionally, BSB is subject to the regulatory capital requirements of the Irish Financial Services Regulatory

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Authority. At May 31, 2004, Bear Stearns, BSSC, BSIL, BSIT and BSB were in compliance with their respective regulatory capital requirements.

### Merchant Banking and Private Equity Investments

-----

At May 31, 2004, the Company held investments in eight transactions with an aggregate recorded value of approximately \$38.9 million, reflected in the

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Condensed Consolidated Statements of Financial Condition in "Other Assets." Six transactions are private principal investments aggregating \$30.7 million at May 31, 2004. Two transactions are principal investments in public entities, aggregating \$8.2 million at May 31, 2004. At November 30, 2003, the Company held investments in eight leveraged transactions with an aggregate recorded value of approximately \$19.6 million. Five transactions were private principal investments aggregating \$11.0 million at November 30, 2003. Three transactions were principal investments in public entities, aggregating \$8.6 million at November 30, 2003.

In connection with the Company's merchant banking activities, the Company had investments in private equity-related investment funds aggregating \$365.3 million and \$333.7 million at May 31, 2004 and November 30, 2003. In addition to the various direct and indirect principal investments, the Company has made commitments to invest in private equity-related investments and partnerships (see the summary table under "Commitments").

### High Yield Positions

As part of the Company's fixed income activities, it participates in the underwriting, securitization and trading of non-investment-grade debt securities, non-performing mortgage-related assets, non-investment-grade commercial and leveraged loans and securities of companies that are the subject of pending bankruptcy proceedings (collectively, "high yield positions"). Also included in high yield positions is a portfolio of Chapter 13 and other credit card receivables from individuals. Non-investment-grade debt securities have been defined as non-investment-grade corporate debt, asset securitization positions and emerging market debt rated BB+ or lower or equivalent ratings recognized by credit rating agencies. At May 31, 2004 and November 30, 2003, the Company held high yield positions approximating \$5.3 billion and \$5.0 billion, respectively, substantially all of which are in "Financial Instruments Owned" in the Condensed Consolidated Statements of Financial Condition, and \$969.7 million and \$847.6 million, respectively, reflected in "Financial Instruments Sold, But Not Yet Purchased" in the Condensed Consolidated Statements of Financial Condition. Included in these amounts is a portfolio of non-performing mortgage-related assets as well as a portfolio of Chapter 13 and other credit card receivables jointly aggregating \$1.5 billion at May 31, 2004 and November 30, 2003.

Included in the high yield positions are extensions of credit to highly leveraged companies. At May 31, 2004 and November 30, 2003, the amount outstanding to highly leveraged borrowers totaled \$1.15 billion (gross position of \$1.17 billion less \$25.0 million of associated hedges) and \$902.8 million (gross position of \$922.8 million less \$20.0 million of associated hedges), respectively. The largest industry concentration was the telecommunications industry, which approximated 25.4% at May 31, 2004 and 18.8% at November 30, 2003, of these high yield positions. Additionally, the Company has lending commitments with these non-investment-grade borrowers (see the summary table under "Commitments"). The Company also has exposure to non-investment-grade counterparties through its trading-related derivative activities. These amounts, net of collateral, were \$106.4 million and \$214.0 million at May 31, 2004 and November 30, 2003, respectively.

The Company's Risk Management Department and senior trading managers monitor exposure to market and credit risk for high yield positions and establish limits for overall market exposure and concentrations of risk by individual issuer. High yield positions generally involve greater risk than investment-grade debt securities due to credit considerations, reduced liquidity of secondary trading markets and increased vulnerability to changes in general economic conditions. The level of the Company's high yield positions, and the impact of such activities on the Company's results of operations, can fluctuate from period to

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

period as a result of customer demand and economic and market considerations.

45

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Contractual Obligations

The Company's contractual obligations, excluding derivative financial instruments, as of May 31, 2004:

(in millions)	Payments Due By Period			
	Remaining Fiscal 2004	Fiscal 2005- 2006	Fiscal 2007- 2008	Thereafter
Long-term borrowings (1)	\$ 1,815	\$ 12,439	\$ 7,873	\$ 9,840
Future minimum lease payments (2)	24	102	97	204

(1) Amounts include fair value adjustment in accordance with SFAS No. 133 as well as \$262.5 million of junior subordinated deferrable interest debentures (see Note 11 in the Notes to Condensed Consolidated Financial Statements).

(2) Includes 383 Madison Avenue in New York City.

#### Commitments

The Company's commitments (1) as of May 31, 2004:

(in millions)	Amount of Commitment Expiration		
	Remaining Fiscal 2004	Fiscal 2005- 2006	Fiscal 2007- 2008
Commercial loan commitments: (2)			
Investment-grade	\$ 1,020	\$ 530	\$ 367
Non-investment grade	164	431	279
Commitments to invest in private equity-related investments and partnerships (3)			
Underwriting commitments	650	--	--
Commercial and residential loans	566	1,399	--
Letters of credit	3,062	77	75

- (1) See Note 4, "Commitments and Contingencies," in the Notes to Condensed Consolidated Financial Statements.
- (2) Commitments are shown gross of associated hedges of \$740.3 million for investment-grade borrowers.
- (3) At May 31, 2004, commitments to invest in private equity-related investments and partnerships aggregated \$435 million. These commitments will be funded, if called, through the end of the respective investment periods, the longest of such periods ending in 2013.
- (4) Includes \$32 million of commitments with no stated maturity.

#### Critical Accounting Policies

The condensed consolidated financial statements of the Company are prepared in conformity with accounting principles generally accepted in the United States of America. These principles require management to make certain estimates and assumptions which could materially affect reported amounts in the financial statements (see Note 1, "Summary of Significant Accounting Policies," in the Notes to Consolidated Financial Statements). Critical accounting policies are those policies that are the most important to the financial statements and/or those that require significant management judgment related to matters that are uncertain.

#### Valuation of Financial Instruments

The Company has identified the valuation of financial instruments as a critical accounting policy due to the complex nature of certain of its products, the degree of judgment required to appropriately value these products and the pervasive impact of such valuation on the financial condition and earnings of the Company.

The Company's financial instruments can be aggregated in three broad categories: (1) those whose fair value is based on quoted market prices or for which the Company has independent external valuations, (2) those whose fair

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

value is determined based on readily observable price levels for similar instruments and/or models or methodologies that employ data that are observable from objective sources, and (3) those whose fair value is estimated based on internally developed models or methodologies utilizing significant assumptions or other data that are generally less readily observable from objective sources.

#### (1) Financial Instruments Valued Based on Quoted Market Prices or for Which the Company Has Independent External Valuations

The Company's valuation policy is to use quoted market prices from securities and derivatives exchanges where they are available and reliable. Financial instruments valued based on quoted market prices are primarily exchange-traded derivatives and listed equities. Financial instruments that are most typically

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

valued using alternative approaches but for which the Company typically receives independent external valuation information include US treasuries, most mortgage-backed securities and corporate, emerging market, high yield and municipal bonds. Unlike most equities, which tend to be traded on exchanges, the vast majority of fixed income trading (including US treasuries) occurs in over-the-counter markets, and, accordingly, the Company's valuation policy is based on its best estimate of the prices at which these financial instruments trade in those markets. The Company is an active dealer in most of the over-the-counter markets for these financial instruments, and typically has considerable insight into the trading level of financial instruments held in inventory and/or related financial instruments that it uses as a basis for its valuation.

(2) Financial Instruments Whose Fair Value Is Determined Based on Internally Developed Models or Methodologies That Employ Data That Are Readily Observable from Objective Sources

The second broad category consists of financial instruments for which the Company does not receive quoted prices; therefore, models or other methodologies are utilized to value these financial instruments. Such models are primarily industry-standard models that consider various assumptions, including time value, yield curve, volatility factors, prepayment speeds, default rates, loss severity, current market and contractual prices for the underlying financial instruments, as well as other relevant economic measures. Substantially all these assumptions are observable in the marketplace, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. A degree of subjectivity is required to determine appropriate models or methodologies as well as appropriate underlying assumptions. This subjectivity makes these valuations inherently less reliable than quoted market prices. Financial instruments in this category include non-exchange-traded derivatives such as interest rate swaps, certain mortgage-backed securities and certain other cash instruments. For an indication of the Company's involvement in derivatives, including maturity terms, see the table setting forth notional contract amounts outstanding in the preceding "Derivative Financial Instruments" section.

(3) Financial Instruments Whose Fair Value Is Estimated Based on Internally Developed Models or Methodologies Utilizing Significant Assumptions or Other Data That Are Generally Less Readily Observable from Objective Sources

Certain complex financial instruments and other investments have significant data inputs that cannot be validated by reference to readily observable data. These instruments are typically illiquid, long-dated or unique in nature and therefore engender considerable judgment by traders and their management who, as dealers in many of these instruments, have the appropriate knowledge to estimate data inputs that are less readily observable. For certain instruments, extrapolation or other methods are applied to observed market or other data to estimate assumptions that are not observable. At May 31, 2004 and November 30, 2003, such positions (primarily fixed income cash positions) aggregated approximately \$3.2 billion and \$3.4 billion, respectively, in "Financial Instruments Owned" and \$1.1 billion and \$740 million, respectively, in "Financial Instruments Sold, But Not Yet Purchased" in the Condensed Consolidated Statements of Financial Condition.

As part of the Company's fixed income activities, the Company participates in the underwriting, securitization or trading of non-performing mortgage-related assets, real estate assets and certain residuals. In addition, the Company has a portfolio of Chapter 13 and other credit card receivables from individuals. Certain of these high yield positions have limited price observability. In these instances, fair values are determined by statistical analysis of historical

MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

cash flows, default probabilities, recovery rates, time value of money and discount rates considered appropriate given the level of risk in the instrument and associated investor yield requirements.

As a major dealer in derivatives, the Company is engaged in structuring and acting as principal in complex derivative transactions. Complex derivatives include certain long-dated equity derivatives, certain credit and municipal derivatives and other exotic derivative structures. These non-exchange-traded instruments may have immature or limited markets and, by their nature, involve complex valuation methodologies and models, which are often refined to correlate with the market risk of these instruments.

Controls Over Valuation of Financial Instruments

In recognition of the importance the Company places on the accuracy of its valuation of financial instruments as described in the three categories above, the Company engages in an ongoing internal review of its valuations. Members of the Controllers and Risk Management Departments perform analysis of internal valuations, typically on a monthly basis but often on an intra-month basis as well. These departments are independent of the trading areas responsible for valuing the positions. Results of the monthly validation process are reported to the Mark-to-Market (MTM) Committee, which is composed of senior management from the Risk Management and Controllers Departments. The MTM Committee is responsible for ensuring that the approaches used to independently validate the Company's valuations are robust, comprehensive and effective. Typical approaches include valuation comparisons with external sources, comparisons with observed trading, independent comparisons of key model valuation inputs, independent trade modeling and a variety of other techniques.

Merchant Banking

As part of its merchant banking activities, the Company participates from time to time in principal investments in leveraged transactions. As part of these activities, the Company originates, structures and invests in merger, acquisition, restructuring and leveraged capital transactions, including leveraged buyouts. The Company's principal investments in these transactions are generally made in the form of equity investments, equity-related investments or subordinated loans and have not historically required significant levels of capital investment.

Equity securities acquired as a result of leveraged acquisition transactions are reflected in the consolidated financial statements at their initial cost until significant transactions or developments indicate that a change in the carrying value of the securities is appropriate. Generally, the carrying values of these securities will be increased only in those instances where market values are readily ascertainable by reference to substantial transactions occurring in the marketplace or quoted market prices. Reductions to the carrying value of these securities are made in the event that the Company's estimate of net realizable value has declined below the carrying value. See "Merchant Banking Investments" in Management's Discussion and Analysis for additional details.

Off-Balance-Sheet Arrangements

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

In the normal course of business, the Company enters into arrangements with special-purpose entities ("SPEs"), also known as variable interest entities ("VIEs"). SPEs are corporations, trusts or partnerships which are established for a limited purpose. SPEs, by their nature, generally are not controlled by their equity owners, as the establishing documents govern all material decisions. The Company's primary involvement with SPEs relates to securitization transactions in which transferred assets, including commercial and residential mortgages, consumer receivables, securities and other financial assets are sold to an SPE and repackaged into securities or similar beneficial interests. SPEs may also be used to create securities with a unique risk profile desired by investors and as a means of intermediating financial risk. The Company, in the normal course of business may establish SPEs, sell assets to SPEs, underwrite, distribute, and make a market in securities or other beneficial interests issued by SPEs, transact derivatives with SPEs, own securities or other beneficial interests, including residuals, in SPEs and provide liquidity or other guarantees for SPEs.

The Company follows Statement of Financial Accounting Standards ("SFAS") No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities--a Replacement of FASB Statement No. 125," to account for securitizations and other transfers of financial assets. In accordance with SFAS No. 140, the Company

48

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

accounts for transfers of financial assets as sales provided that control has been relinquished. Control is deemed to be relinquished only when all of the following conditions have been met: (1) the assets have been isolated from the transferor, even in bankruptcy or other receivership; (2) the transferee is a Qualifying Special Purpose Entity ("QSPE") or has the right to pledge or exchange the assets received and (3) the transferor has not maintained effective control over the transferred assets. Therefore, the Company derecognizes financial assets transferred in securitizations provided that such transfer meets all of these criteria. See Note 9, "Transfers of Financial Assets and Liabilities," in the Notes to Condensed Consolidated Financial Statements for a complete discussion of the Company's securitization activities.

Effective beginning with the quarter ended February 29, 2004, the Company adopted Financial Accounting Standards Board ("FASB") Interpretation No. 46, "Consolidation of Variable Interest Entities - an Interpretation of ARB No. 51" ("FIN No. 46") or FIN No. 46 as revised ("FIN No. 46 (R)") for VIEs in which it held a variable interest. The Company uses this guidance to determine whether an SPE should be consolidated. See Note 10, "Consolidation of Variable Interest Entities," in the Notes to Condensed Consolidated Financial Statements for a complete discussion of the consolidation of VIEs.

The majority of the SPEs that the Company sponsors or transacts with are QSPEs, which the Company does not consolidate in accordance with this guidance. QSPEs are entities that have no discretionary activities and may only passively hold assets and distribute cash generated by the assets they hold. The Company reflects the fair value of its interests in QSPEs on its balance sheet but does not recognize the assets or liabilities of QSPEs. QSPEs are employed extensively

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

in the Company's mortgage and asset securitization business.

Certain other SPEs do not meet the requirements of a QSPE, because their activities are not sufficiently limited or they have entered into certain non-qualifying transactions. The Company generally consolidates these entities under FIN No. 46 if it owns a majority of the variable interests. These SPEs are commonly employed in collateralized debt obligation transactions where portfolio managers require the ability to buy and sell assets or in synthetic credit transactions. These transactions typically involve no recourse to the Company.

In addition to the above, in the ordinary course of business the Company issues various guarantees to counterparties in connection with certain derivative, leasing, securitization and other transactions. See Note 5, "Guarantees," in the Notes to Condensed Consolidated Financial Statements for a complete discussion on guarantees.

### Specialist Activities

The Company participates, through a majority-owned joint venture, in specialist activities on the NYSE, AMEX and International Securities Exchange. Due to the occurrence of a Control Event triggered in December 2003, the Company began consolidating this entity. Included in the Condensed Consolidated Statements of Financial Condition at May 31, 2004 are total assets of \$1.8 billion, including approximately \$360 million of goodwill and identifiable intangible assets.

### Effects of Inflation

The Company's assets are primarily recorded at their current market value and to a large extent are liquid in nature. The rate of inflation affects the Company's expenses, such as employee compensation, office leasing costs, information technology and communications charges, which may not be readily recoverable in the price of services offered by the Company. In addition, to the extent that inflation causes interest rates to rise and has other adverse effects on the securities markets and on the value of securities held in inventory, it may adversely affect the Company's financial position and results of operations.

49

### Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of the Company's risk management policies, including a discussion of the Company's primary market risk exposures, which include interest rate risk, foreign exchange rate risk and equity price risk, as well as a discussion of the Company's credit risk and a discussion of how those exposures are managed, refer to the Company's Annual Report on Form 10-K for the fiscal year ended November 30, 2003.

### Value-at-Risk

An estimation of potential losses that could arise from changes in market conditions is typically accomplished through the use of statistical models, known as value-at-risk ("VaR"), that seeks to predict risk of loss based on historical and/or market-implied price and volatility patterns. VaR estimates the probability of the value of a financial instrument rising above or falling below a specified amount. The calculation uses the simulated changes in value of

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

the market risk-sensitive financial instruments to estimate the amount of change in the current value that could occur at a specified probability level.

The Company has performed an entity-wide VaR analysis of the Company's financial assets and liabilities, including financial instruments owned and sold, repurchase and resale agreements, and funding assets and liabilities. The Company regularly evaluates and enhances such VaR models in an effort to more accurately measure risk of loss. Certain equity-method investments and non-publicly traded investments are not reflected in the VaR results. The VaR related to certain non-trading financial instruments has been included in this analysis and is not reported separately because the amounts are not material. The calculation is based on a methodology that uses a one-day interval and a 95% confidence level. Interest rate risk and equity price risk for most desks use a historical simulation approach for VaR. Foreign exchange rate risk and for a limited number of desks the interest rate risk, use a "Monte Carlo" value-at-risk approach. Historical simulation involves the generation of price movements in a portfolio using price sensitivities, and historical movements of the underlying risk factors to which the securities are sensitive. Monte Carlo simulation involves the generation of price movements in a portfolio using a random number generator. The generation of random numbers is based on the statistical properties of the securities in the portfolio. For interest rates, each country's yield curve has five factors that describe possible curve movements, where appropriate. These were generated from principal component analysis. In addition, volatility and spread risk factors as well as intercountry correlations were used, where appropriate.

VaR has inherent limitations, including reliance on historical data, which may not accurately predict future market risk, and the quantitative risk information generated is limited by the parameters established in creating the models. There can be no assurance that actual losses occurring on any one day arising from changes in market conditions will not exceed the VaR amounts shown below or that such losses will not occur more than once in 20 days. However, the Company believes VaR models are an appropriate methodology for comparison of risk profiles across companies in the financial services industry.

The aggregate VaR presented below is less than the sum of the individual components (i.e., interest rate risk, foreign exchange rate risk, equity risk) due to the benefit of diversification among the risks. The following table illustrates the VaR for each component of market risk as of May 31, 2004, November 30, 2003 and May 31, 2003. Commodity risk has been excluded due to immateriality at May 31, 2004, November 30, 2003 and May 31, 2003.

(in millions)	May 31, 2004	November 30, 2003	May 31, 2003
-----

Diversification benefit	(3.8)	(4.2)	(4.6)
-----			
Aggregate VaR	\$16.6	\$15.3	\$13.8
=====			

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

### ABOUT MARKET RISK

The table below illustrates the high, low and average (calculated on a monthly basis) VaR for each component of market risk and aggregate market risk during the 2004 quarter:

(in millions)	High	Low	Average
<b>MARKET RISK</b>			
Interest rate	\$ 16.3	\$ 14.6	\$ 15.4
Currency	1.8	1.2	1.5
Equity	3.9	2.7	3.4
Aggregate VaR	16.6	15.0	15.9

As previously discussed, the Company utilizes a wide variety of market risk management methods, including trading limits; marking all positions to market on a daily basis; daily profit and loss statements; position reports; daily risk highlight reports; aged inventory position reports; and independent verification of inventory pricing. Additionally, management of each trading department reports positions, profits and losses and notable trading strategies to the Risk Committee on a weekly basis. The Company believes that these procedures, which stress timely communication between traders, trading department management and senior management, are the most important elements of the risk management process.

Stress testing (also referred to as scenario analysis) measures the risk of loss over a variety of extreme market conditions that are defined in advance. Stress testing is a key methodology used in the management of market risk as well as counterparty credit risk (see "Derivatives Credit Risk" below). Stress tests are calculated at the firmwide level, for particular trading books, for particular customer accounts and for particular individual positions. Stress tests are performed on a regular basis as well as on an ad hoc basis, as deemed appropriate. The ongoing evaluation process of trading risks as well as the consideration of new trading positions commonly incorporates an ad hoc discussion of "what-if" stressed market conditions and their impact on profitability. This analysis varies in its degree of formality based on the judgment of trading department management, risk management and senior managers. While the Company recognizes that no methodology can perfectly predict future market conditions, it believes that these tools are an important supplement to the Company's risk management process. The Company expects to continue to develop and refine its formal stress testing methodologies.

The following charts represent a summary of the daily principal transactions revenues and reflect a combination of trading revenues, net interest revenues for certain trading areas and other revenues for the quarters ended May 31, 2004 and May 31, 2003, respectively. These charts represent a historical summary of the results generated by the Company's trading activities as opposed to the probability approach used by the VaR model. The average daily trading profit was \$14.3 million and \$12.9 million for the quarters ended May 31, 2004 and May 31, 2003, respectively. During the quarter ended May 31, 2004, there were two days with a reported trading loss and the trading losses on these days did not exceed the reported aggregate period end VaR amount. There were no daily trading losses for the quarter ended May 31, 2003. The frequency distribution of the Company's daily net trading revenues reflects the Company's historical ability to manage its exposure to market risk and the diversified nature of its trading activities. No guarantee can be given regarding future net trading revenues or future earnings volatility. The Company believes that these results are indicative of its commitment to the management of market trading risk.

QUANTITATIVE AND QUALITATIVE DISCLOSURES  
ABOUT MARKET RISK

Derivatives Credit Risk

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Derivative financial instruments represent contractual commitments between counterparties that derive their value from changes in an underlying interest rate, currency exchange rate, index (e.g., Standard & Poor's 500 Index), reference rate (e.g., London Interbank Offered Rate "LIBOR"), or asset value referenced in the related contract. Some derivatives, such as futures contracts, certain options and indexed referenced warrants, can be traded on an exchange. Other derivatives, such as interest rate and currency swaps, caps, floors, collars, swaptions, equity swaps and options, credit derivatives, structured notes and forward contracts, are negotiated in the over-the-counter markets. Derivatives generate both on- and off-balance-sheet risks depending on the nature of the contract. The Company is engaged as a dealer in over-the-counter derivatives and, accordingly, enters into transactions involving derivative instruments as part of its customer-related and proprietary trading activities.

The Company's dealer activities require it to make markets and trade a variety of derivative instruments. In connection with these activities, the Company attempts to mitigate its exposure to market risk by entering into hedging transactions which may include over-the-counter derivative contracts or the purchase or sale of interest-bearing securities, equity securities, financial futures and forward contracts. In this regard, the utilization of derivative instruments is designed to reduce or mitigate market risks associated with holding dealer inventories or in connection with arbitrage-related trading activities. The Company also utilizes interest rate and currency swaps as well as futures contracts and US treasury positions to hedge its debt issuances as part of its asset and liability management.

Credit risk arises from the potential inability of counterparties to perform in accordance with the terms of the contract. At any point in time, the Company's exposure to credit risk associated with counterparty non-performance is generally limited to the net replacement cost of over-the-counter contracts net of the value of collateral held. Such financial instruments are reported at fair value on a net-by-counterparty basis pursuant to enforceable netting agreements. Exchange-traded financial instruments, such as futures and options, generally do not give rise to significant unsecured counterparty exposure due to the Company's margin requirements, which may be greater than those prescribed by the individual exchanges. Options written generally do not give rise to counterparty credit risk since they obligate the Company (not its counterparty) to perform.

The Company has controls in place to monitor credit exposures by assessing the future creditworthiness of counterparties and limiting transactions with specific counterparties. The Company also seeks to control credit risk by following an established credit approval process, monitoring credit limits and requiring collateral where appropriate.

53

### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following table summarizes the counterparty credit quality of the Company's exposure with respect to over-the-counter derivatives (including foreign exchange and forward-settling mortgage transactions) as of May 31, 2004:

Over-the-Counter Derivative Credit Exposure (1)  
(\$ in millions)

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

Rating (2)	Exposure	Collateral (3)	Exposure, Net of Collateral (4)	Percentage of Exposure, Net of Collateral
AAA	\$ 1,535	\$ 509	\$ 1,088	29%
AA	2,363	1,293	1,188	31%
A	1,418	661	928	24%
BBB	401	489	225	6%
BB and lower	956	1,795	387	10%
Non-rated	54	12	3	0%

- (1) Excluded are covered transactions structured to ensure that the market values of collateral will at all times equal or exceed the related exposures. The net exposure for these transactions will, under all circumstances, be zero.
- (2) Internal counterparty credit ratings, as assigned by the Company's Credit Department, converted to rating agency equivalents.
- (3) For lower-rated counterparties, the Company generally receives collateral in excess of the current market value of derivatives contracts.
- (4) In calculating exposure net of collateral, collateral amounts are limited to the amount of current exposure for each counterparty. Excess collateral is not applied to reduce exposure because such excess in one counterparty portfolio cannot be applied to deficient collateral in a different counterparty portfolio.

54

Item 4. CONTROLS AND PROCEDURES

As required by Rule 13a-15(b) of the Securities Exchange Act of 1934 (the "Exchange Act"), the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of its disclosure controls and procedures as of the end of the period covered by this quarterly report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of the end of the period covered by this quarterly report. As required by Rule 13a-15(d) under the Exchange Act, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the Company's internal control over financial reporting to determine whether any changes occurred during the quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, there has been no such change during the quarter covered by this quarterly report.

55

# Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

## Part II - OTHER INFORMATION

### Item 1. LEGAL PROCEEDINGS

David Shaev Profit Sharing Account F/B/O David Shaev v. James E. Cayne, et al.

-----

As previously reported in the Company's Report on Form 10-K for the fiscal year ended November 30, 2003 ("Form 10-K"), on or about May 22, 2003, the David Shaev Profit Sharing Account F/B/O David Shaev commenced a purported shareholder derivative action in the Supreme Court of the State of New York, County of New York. On July 12, 2004, the Supreme Court of the State of New York dismissed the complaint, which had named as defendants members of the Company's board of directors and, as a nominal defendant, the Company.

#### IPO Allocation Securities and Antitrust Litigations

-----

As previously reported in the Company's Form 10-K, the Company, along with many other financial services firms, has been named as a defendant in many putative class actions filed during 2001 and 2002 in the United States District Court for the Southern District of New York involving the allocation of securities in certain initial public offerings. In June 2004, plaintiffs and a substantial number of the non-bankrupt issuer defendants and their officers and directors jointly moved for preliminary approval of a proposed settlement among these parties. The terms of the proposed settlement are complex but generally provide that (1) the insurers of these issuers will guarantee an ultimate recovery by plaintiffs, in this and related litigations, of \$1 billion; (2) these issuers will assign to plaintiffs so-called "excess compensation" claims against the underwriter defendants, including Bear Stearns, that these issuers allegedly possess; and (3) plaintiffs will, upon final approval of the settlement, dismiss all claims against these issuers and the individual director and officer defendants. To date, the Court has not yet ruled on the parties' motion seeking preliminary approval.

#### IPO and Research Investigation

-----

As previously reported in the Company's Form 10-K, Bear Stearns, among other major brokerage firms, was the subject of an NASD industry-wide investigation into certain initial public offering practices. On May 3, 2004, without admitting or denying the allegations or findings and without an adjudication of any issue of law or fact, Bear Stearns consented to a settlement with the NASD. Pursuant to the settlement agreement, Bear Stearns agreed to a censure and the payment of \$450,000 as penalty and \$4.5 million as disgorgement. On May 18, 2004, the NASD accepted the settlement.

#### Mutual Fund Matters: Inquiries and Investigations

-----

As previously reported in the Company's Form 10-K, the Company and/or its subsidiaries have received requests for information and subpoenas from a number of federal and state agencies seeking information in connection with mutual fund trading investigations, including the United States Attorney's Office for the Southern District of New York, the SEC, the Commodity Futures Trading Commission, the NASD, the NYSE, the Office of the New York Attorney General, and the Office of the New Jersey Attorney General. With respect to the investigation by the SEC, Bear, Stearns & Co. Inc. and Bear, Stearns Securities Corp. have received a notice that the staff of the SEC is considering recommending that the SEC bring a civil injunctive action and/or issue an administrative cease and

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

desist order against them. Such action could result in, among other things, disgorgement, civil monetary penalties, and/or other remedial sanctions. The Company and its subsidiaries are cooperating fully with all regulatory and law enforcement agencies in connection with these matters.

Specialist Matters  
-----

As previously reported in the Company's Form 10-K, Bear Wagner Specialists, LLC ("Bear Wagner"), along with numerous other defendants, has been named in purported class actions commenced in the United States District Court for the Southern District of New York, on behalf of investors alleging violations of the federal securities laws in connection with NYSE specialist activities. On May 27, 2004, the district court consolidated these purported class actions under the caption In re NYSE Specialists Securities Litigation, No. 03 Civ. 8264 (RWS). A purported class action, naming Bear Wagner and the Company as defendants, that was filed in December 2003 in California Superior Court, Los Angeles County, alleging violations of California law in connection with the NYSE specialist activities has recently been transferred to the United States District Court for the Southern District of New York and it is anticipated this case will soon be added to the consolidated proceedings referenced above.

-----  
The Company also is involved from time to time in investigations and proceedings by governmental agencies and self-regulatory organizations.

Item 2: CHANGES IN SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES

The following table provides information as of May 31, 2004 with respect to the shares of common stock repurchased by the Company during the second quarter of fiscal 2004:

Issuer Purchases of Equity Securities			
Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)
3/1/04 - 3/31/04	170,582	\$ 87.74	170,582
4/1/04 - 4/30/04	598,097	82.72	598,097
5/1/04 - 5/31/04	1,493,107	79.36	1,493,107
Total	----- 2,261,786 =====	80.88	----- 2,261,786 =====

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

(1) On January 7, 2004, the Board of Directors of the Company approved an amendment to the Repurchase Program to replenish the previous authorizations to allow the Company to purchase up to \$1.0 billion of common stock in fiscal 2004 or beyond. On November 24, 2003, the Compensation Committee of the Board of Directors of the Company approved a \$200 million CAP Plan Earnings Purchase Authorization. The stock repurchase program has no set expiration or termination date.

57

### Item 4: SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At the Annual Meeting of the Company held on March 31, 2004 (the "Annual Meeting"), the stockholders of the Company approved an amendment to the Company's Capital Accumulation Plan for Senior Managing Directors to set a termination date of December 31, 2013, approved an amendment to the Stock Award Plan to increase the number of shares of Common Stock available under the Stock Award Plan from 35,000,000 to 40,000,000 shares and approved the Restricted Stock Unit Plan, as amended. In addition, at the Annual Meeting the stockholders of the Company elected eleven directors to serve until the next Annual Meeting of Stockholders or until successors are duly elected and qualified and ratified the appointment of Deloitte & Touche LLP as independent registered public accounting firm for the fiscal year ending November 30, 2004.

The affirmative vote of a majority of the shares of common stock represented at the Annual Meeting and entitled to vote was required for the approval of the amendments to the Capital Accumulation Plan for Senior Managing Directors and the Stock Award Plan, approval of the Restricted Stock Unit Plan, as amended, and ratification of the independent registered public accounting firm, while the affirmative vote of a plurality of the votes cast by holders of shares of common stock was required to elect the directors.

With respect to the approval of the amendments to the Capital Accumulation Plan for Senior Managing Directors and the Stock Award Plan, approval of the Restricted Stock Unit Plan, as amended, and ratification of the independent registered public accounting firm, set forth below is information on the results of the votes cast at the Annual Meeting.

	For -----	Against -----	Abstained -----	Broke Non-Vot -----
Amendment to the Capital Accumulation Plan for Senior Managing Directors	46,476,615	32,705,553	647,226	14,133,
Amendment to the Stock Award Plan	41,399,896	37,786,165	643,335	14,133,
Approval of the Restricted Stock Unit Plan, as amended	41,717,291	37,465,750	645,355	14,134,
Ratification of the independent registered public accounting firm	89,533,438	3,925,698	503,509	N/A

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 10-Q

With respect to the election of directors, set forth below is information with respect to the nominees elected as directors of the Company at the Annual Meeting and the votes cast for and withheld with respect to each such nominee.

Nominees	For	Withheld
James E. Cayne	89,189,270	4,773,375
Carl D. Glickman	86,152,103	7,810,542
Alan C. Greenberg	90,170,207	3,792,438
Donald J. Harrington	87,284,408	6,678,237
William L. Mack	91,384,256	2,578,389
Frank T. Nickell	87,735,838	6,226,807
Paul A. Novelly	90,377,993	3,584,652
