SOUTH JERSEY INDUSTRIES, INC.
PROXY STATEMENT

This statement is furnished on behalf of the Company's Board of Directors to solicit proxies for use at its Annual Meeting of Shareholders. The meeting is scheduled for Thursday, April 18, 2002, at 10:00 a.m. at the Renault Winery Restaurant, 72 N. Bremen Avenue, Egg Harbor City, New Jersey. The approximate date proxy materials will be sent to shareholders is March 11, 2002.

The Company bears the cost of this solicitation, which is primarily made by mail. However, the Secretary or employees of the Company may solicit proxies by phone, telegram, fax, e-mail or in person. The Company may also use a proxy-

soliciting firm at a cost not expected to exceed \$2,500, plus expenses, to distribute to brokerage houses and other custodians, nominees, and fiduciaries, additional copies of the proxy materials and Annual Report to Shareholders for beneficial owners of our stock.

As of February 27, 2002, the Company had 11,913,238 shares of Common Stock outstanding. Shareholders are entitled to have one vote per share on each matter to be acted upon. Only shareholders of record at the close of business on February 27, 2002 may vote at the meeting.

Directors are elected by a plurality vote of all votes cast at the meeting. The approval of the Company's auditors and other matters that come before the meeting require the affirmative vote of a majority of the votes cast at the meeting. Abstentions and broker non-votes will be treated as present to determine a quorum but will not be deemed to be cast and, therefore, will not affect the director elections or the approval of the appointment of the independent auditors.

Properly signed proxies received by the Company will be voted at the meeting. If a proxy contains a specific instruction as to any matter to be acted on, the shares represented by the proxy will be voted in accordance with those instructions. If you sign and return your proxy but do not indicate how to vote for a particular matter, your shares will be voted "For" the election of the nominated slate of directors and "For" approval of the appointment of Deloitte & Touche LLP as the Company's independent auditors. A shareholder who returns a proxy may revoke it at any time before it is voted. If you attend the meeting and wish to revoke your proxy, you must notify the meeting's secretary in writing prior to the voting of the proxy. For a quorum to be present, the holders of a majority of the shares outstanding on the record date must be present in person or by proxy.

DIRECTOR ELECTIONS

At the Annual Meeting, four directors are to be elected to the Board of Directors. Three nominees are to be elected as Class I Directors to hold office for a term of three years and one nominee is to be elected as a Class III Director for a term of two years. As designated on the proxy form, unless otherwise instructed, proxy votes will be cast for the following persons as directors: Class I (term expiring in 2005) Charles Bisciegia, Keith S. Campbell, W. Cary Edwards; Class III (term expiring in 2004) William J. Hughes. The Board of Directors currently consists of ten members. Mr. Dunham, a director in Class I whose term is expiring, is not standing for election, in accordance with the Board's retirement policy. Mr. Hughes, a director nominee, is standing for election by the Company's shareholders for the first time. Therefore, the Board of Directors will continue to consist of ten members after the elections at the Annual Meeting. Except for Mr. Hughes, all of the nominees have previously been elected by the Company's shareholders. While we do not anticipate that, if elected, any of the nominees will be unable to serve, if any should be unable to accept the nomination or election, the persons designated as proxies on the proxy form will vote for the election of such other person as the Board of Directors may recommend.

The executive officers of the Company are eligible for benefits under a tax-qualified pension plan for salaried employees provided by the Company. Compensation considered under the pension plan consists of base salary only, which in the case of the executive officers is included in the cash compensation reported in column (c) of the Summary Compensation Table. Employees do not make contributions to the plan, and the employer contributions (which are based on aggregate actuarial calculations without individual allocation) are held and invested by insurance companies of recognized standing until they are used to provide retirement benefits. Under certain circumstances, early retirement with reduced annual benefits is permitted (but not before age 55). Executive officers who are 50 years of age or older are also covered by an unfunded supplemental retirement plan that is designed in general to provide the officer with a minimum retirement benefit from the salaried employee pension plan and the supplemental plan that aggregates 2% of the average of the highest three of the final six years salary (as defined in the plan), for each year of service, plus 5%. Assuming continued employment and retirement at age 60, Messrs. Bisciegliia, Graham, Kindlick, Ruggiero and Baulig will have, respectively, 36, 36, 35, 19 and 42 years of credited service. No credit is provided under the supplemental plan for more than 30 years of service.

Compensation/Pension Committee Report on Executive Compensation

The Compensation/Pension Committee consists of five non-employee directors. No member of the Committee is a current officer or employee of the Company or any of its subsidiaries. Among other responsibilities, the Committee makes recommendations to the Board about the Company's executive compensation policies, practices and objectives; administers the Company's Stock-Based Compensation Plan; and grants awards to selected key employees at its discretion in consultation with the Company's Chief Executive Officer (other than awards to the Chief Executive Officer).

The current structure emerged from a 1998 comprehensive review which examined SJI's executive compensation philosophy and approach. That study drew upon the experience and knowledge of Committee members in consultation with their independent compensation consultant. In November 2001, the Committee revisited executive compensation to ensure that the key components of the existing structure remained consistent with contemporary compensation methods and tools. The Committee determined that the compensation components currently in place adequately support the mission of the Company's compensation policies: to attract and retain qualified executive management. Moreover, the existing structure maintains an approach which aligns the interest of Company shareholders with the financial incentives of executives on both a short and long-term basis.

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form DEF 14A

The Committee also reviewed actual 2001 and projected annual 2002 compensation for all Company officers, both individually and as a group. Relying upon annualized data supplied by its compensation consultant, the Committee determined that the practice of providing annual merit adjustments to the base salary component, continued to maintain the Company's competitive position relative to industry peers. Specifically, for 2001, total compensation for the executive group was approximately 91% of the average executive compensa-

-11-

tion provided in peer companies. Mr. Bisciegli's total compensation was approximately 84% of that provided to his peers in that same comparative group. The established incentive-based executive compensation structure consists of three parts, two of which are directly linked to achieving predefined short and long-term performance goals. All three component parts were fully implemented with respect to compensation and performance for fiscal year 2000 and thereafter. They are as follows:

- * Base Salary - which is set at the 50th percentile of the relevant peer market
- * Annual Cash - which provides an annual award directly tied to SJI's earnings per share from continuing operations in each fiscal year
- * Long-Term Incentive - which employs equity-based instruments, currently restricted stock grants, which are earned based upon SJI's relative total shareholder return, measured against industry peer companies, over three-year cycles

In general, executive base salaries including that of Mr. Charles Bisciegli, Chief Executive Officer, were increased in January 2001 to provide a 3.9% adjustment, which was the market adjustment proposed by the Committee's consultant. The base salary of several executives remained unchanged since they were at or above the 50th percentile of the peer group. Evaluations were completed by the Committee's compensation consultant on four executives whose responsibilities had undergone significant changes. Based upon the consultant's findings and recommendations, the Committee approved appropriate changes to compensation for those executives.

In January of 2001, long-term incentive awards were granted to executives, including Mr. Bisciegli, in the form of restricted stock. The performance period for this long-term incentive is the three year period ending December 31, 2003. The Committee established at-risk threshold, target and maximum incentive levels based upon total shareholder returns for the period compared to shareholder returns of the peer group. Awards are detailed in the Summary Compensation Table.

In January 2002, annual cash awards with respect to fiscal 2001 were provided to executives, including Mr. Bisciegli, based upon a predetermined earnings per share target from continuing operations for 2001. Awards are detailed in the Summary Compensation Table.

The Company's performance over the last three years provides tangible evidence in support of the Committee's contention that at-risk compensation, both annual and long-term, should continue to represent a significant portion of total executive compensation. Annual incentives promote short-term performance which instills a measure of deserved confidence in the Company's ability to produce consistent results, year-after-year. The use of a time-restricted, stock-based incentive strongly encourages management to conduct the business of the Company in ways that advance both the market value of its stock, and its ability to continue to provide a competitive dividend to shareholders, over time. The alignment of interests is desirable and works to the benefit of Company shareholders. The Committee has designed and is maintaining its program

accordingly.
