Revenues

Revenues from drilling contracts increased by \$125.3 million, or 15.0%, to \$960.6 million for the six-month period ended June 30, 2016, as compared to \$835.3 million for the six-month period ended June 30, 2015. The increase is mainly attributable to the increased revenues from the Ocean Rig Skyros and the Ocean Rig Apollo of \$207.9 million in aggregate, due to the increased operating days, from 64 operating days in 2015 to 364 operating days in 2016. The operating days of the Ocean Rig Apollo includes the period that the unit received a termination fee amounting to \$65.5 million for the six-month period ended June 30, 2016. The Ocean Rig Olympia contributed \$16.1 million more due to the recognition of termination fees amounting to \$54 million in the six-month period ended June 30, 2016 (see also Recent Developments). The increase was partly offset by decreased revenues of \$118.9 million in aggregate for both the Eirik Raude and the Leiv Eiriksson due to the decreased operating days from 364 days in 2015 to 133 days in 2016. The Ocean Rig Poseidon contributed \$25.2 million less during this period, mainly due to the decreased average dayrate.

During the six-month periods ended June 30, 2015 and 2016, we recorded 89.6% and 68.8% utilization (excluding the period covered by termination fee), respectively. Furthermore, our fleet under contract achieved an earnings efficiency of 95.3% for the six-month period ended June 30, 2016, as compared to 97.9% for the six-month period ended June 30, 2015.

Operating expenses

Drilling units operating expenses decreased by \$38.7 million, or 13.1%, to \$257.0 million for the six-month period ended June 30, 2016, compared to \$295.7 million for the six-month period ended June 30, 2015 due to the cost-reduction initiatives implemented. This decrease was partly offset by the increased operating expenses of the Ocean Rig Apollo and the Ocean Rig Skyros, due to the increased number of operating days during the six-month period ended June 30, 2016, as compared to the same period in 2015.

Depreciation and amortization

Depreciation and amortization expense decreased by \$8.4 million, or 4.7%, to \$168.8 million for the six-month period ended June 30, 2016, as compared to \$177.2 million for the six-month period ended June 30, 2015. The decrease in depreciation and amortization expense was mainly attributable to the decrease in depreciation expense of the Leiv Eiriksson and the Eirik Raude amounting to \$14.9 million, in aggregate, due to the lower depreciable value of these drilling units as a result of the impairment charge that was recognized during the previous year. This decrease, was partially offset by the increase in depreciation of \$1.8 million of the Ocean Rig Corcovado and \$5.5 million of the Ocean Rig Apollo that was delivered in March 2015. The depreciation expense charged for the remaining drilling units for the six-month period ended June 30, 2016 was consistent with that charged in the corresponding period in 2015.

General and administrative expenses

General and administrative expenses decreased by \$7.6 million, or 14.2%, to \$45.8 million for the six-month period ended June 30, 2016, as compared to \$53.4 million for six-month period ended June 30, 2015, due to the decreased operating costs of our corporate offices.

Legal settlements and other, net

Legal settlements and other, net increased by \$4.1 million, or 157.7%, to \$6.7 million for the six-month period ended June 30, 2016, as compared to \$2.6 million for the six-month period ended June 30, 2015. This increase relates mainly to the gain from an insurance claim during the six-month period ended June 30, 2016.

Interest and finance costs

Interest and finance costs decreased by \$26.0 million, or 18.3%, to \$116.0 million for the six-month period ended June 30, 2016, as compared to \$142.0 million for the six-month period ended June 30, 2015. The decrease in interest and finance costs is mainly associated with the lower level of debt during the six-month period ended June 30, 2016, as compared to the corresponding period in 2015, mainly due to the repurchase of the 7.25% Senior Unsecured Notes and 6.50% Senior Secured Notes.

Interest income

Interest income decreased by \$5.5 million, or 80.9%, to \$1.3 million for the six-month period ended June 30, 2016, compared to \$6.8 million for the six-month period ended June 30, 2015. The decrease was mainly due to the interest income received from the \$120 million Exchangeable Promissory Note provided to DryShips Inc. during the six-month period ended June 30, 2015

Loss on interest rate swaps

Loss on interest rate swaps decreased by \$3.6 million, or 35.6%, to \$6.5 million for the six-month period ended June 30, 2016, as compared to \$10.1 million for the six-month period ended June 30, 2015. The decrease for the six-month period ended June 30, 2016, were mainly due to decreased mark to market losses of outstanding swap positions

Gain from repurchase of Senior Notes

Gains from repurchase of Senior Notes of \$125.0 million due to the repurchase of the 7.25% Senior Unsecured Notes and 6.50% Senior Secured Notes at a discount due to the market value at which the notes were trading were recognized for the six-month period ended June 30, 2016. No such case existed for the relevant six-month period ended June 30, 2015.

Other, net

Other, net decreased by \$7.6 million, or 100% to a loss of \$0.01 million for six-month period ended June 30, 2016, compared to a loss of \$7.6 million for the six-month period ended June 30, 2015. The decrease is mainly due to foreign currency exchange rate fluctuations between the United States Dollars (USD) and the Norwegian Krone (NOK), the Brazilian Real (BRL) and the Angolan Kwanza (AOA).

Income taxes

Income taxes increased by \$12.5 million, or 29.2%, to \$55.3 million for six-month period ended June 30, 2016, compared to \$42.8 million for the six-month period ended June 30, 2015, which is mainly due to the increased revenues. As our drilling units operate around the world, we may be subject to taxation in the various jurisdictions that we operate based on the relevant regulations. Consequently, there is no expected relationship between the income tax expense or benefit for the period and the income or loss before taxes.

Liquidity

As of June 30, 2016, we had \$866.7 million of cash and cash equivalents and \$16.9 million restricted cash. Our cash and cash equivalents increased by \$132.0 million, or 18.0%, to \$866.7 million as of June 30, 2016, compared to \$734.7 million as of December 31, 2015 and our restricted cash increased by \$4.2 million, or 33.1%, to \$16.9 million as of June 30, 2016, compared to \$12.7 million as of December 31, 2015. The increase in our cash and cash equivalents was mainly due to cash provided by operating activities amounting to \$448.8 million which was partly offset by cash used in financing activities amounting to \$206.8 million. Working capital is defined as current assets minus current liabilities (including the current portion of long-term debt). Our working capital surplus amounted to \$851.7 million as of June 30, 2016, compared to \$836.6 million as at December 31, 2015. We believe that we will be able to satisfy our liquidity needs for the next 12 months with the cash we generate from our operations and, if required, proceeds from future debt or equity issuances.

As of June 30, 2016, we had total indebtedness of \$4.1 billion under our senior secured credit facilities and secured notes, excluding unamortized deferred financing costs. We were in compliance with all covenants related to our credit facilities as of June 30, 2016.

On February 11, 2016, the charterer of the Ocean Rig Apollo sent us a notice of termination for convenience of the drilling contract. Under the \$462 million Senior Secured Credit Facility, we were required to find a new Satisfactory Drilling Contract (as defined in the Loan agreement) by May 21, 2016. Since we have not yet entered into a new drilling contract for the Ocean Rig Apollo, we are required under this facility to make a mandatory prepayment of approximately \$145.9 million by August 22, 2016.

As of June 30, 2016, we had \$1.6 billion of remaining installment payments under our drilling unit newbuilding contracts relating to our three newbuilding drilling units (see also Recent Developments).

Cash flow

Net cash provided by operating activities was \$448.8 million for the six-month period ended June 30, 2016. For the six-month period ended June 30, 2016, net income of \$444.1 was adjusted for the effects of certain non-cash items including \$179.8 million of depreciation and amortization of deferred financing costs and \$80.4 million for the movement in accounts receivable, which was partly offset by the gain of \$125.0 million from the repurchase of senior notes. Net cash provided by operating activities was \$257.6 million for the six-month period ended June 30, 2015. Net cash used in investing activities was \$108.4 million for the six-month period ended June 30, 2016, compared to \$537.4 million used in investing activities for the six-month period ended June 30, 2015. We made shipyard payments and expenditures related to drilling units machinery, equipment and other improvements of approximately \$104.3 million, including the payment for the Ocean Rig Paros of \$65.0 million, compared to \$528.1 million in the corresponding period of 2015, including the payment for the delivery of the Ocean Rig Apollo of \$394.8 million. The increase in restricted cash was \$4.2 million during the six-month period ended June 30, 2016, compared to an increase of \$9.3 million in the corresponding period of 2015.

Net cash used in financing activities was \$206.8 million for the six-month period ended June 30, 2016, compared to net cash provided by financing activities of \$572.5 million for the six-month period ended June 30, 2015. For the six-month period ended June 30, 2016, cash was used for the repurchase of senior notes amounting to \$121.5 million, repurchase of common stock amounting to \$49.9 million and principal payments amounting to \$35.5 million, whereas, for the six-month period ended June 30, 2015, cash was provided mainly from proceeds from long-term debt amounting to \$462.0 million and net proceeds from common stock issuance amounting to \$192.7 million, which were partly offset by principal payments and repayments of long-term debt and payment of financing costs amounting to \$31.9 million and dividend payments of \$50.3 million.

Effect of exchange rate changes on cash was \$1.6 million loss for the six-month period ended June 30, 2016 compared to no effect in the corresponding period of 2015.

Financing activities

Long-term debt

As of June 30, 2016, the Company was in compliance with the covenants in its credit facilities.

Edgar Filing: Ocean Rig UDW Inc. - Form 6-K

The annual principal payments required to be made after June 30, 2016, including balloon payments, totaling \$4.1 billion due through July 2021, are as follows:

	Total (in thousands)
Twelve months ending:	
June 30, 2017	216,800
June 30, 2018	530,628
June 30, 2019	201,878
June 30, 2020	182,759
June 30, 2021 and thereafter	2,997,000
Total principal payments	4,129,065
Less: Deferred financing costs	(71,473)
Total debt	\$4,057,592

Off-balance sheet arrangements

We do not have any off-balance sheet arrangements.

Recent developments

Employment Contracts

On January 21, 2016, ENI terminated its contract with us relating to the Ocean Rig Olympia. On April 27, 2016, we reached an agreement with ENI, according to which we are entitled to receive in two instalments a total payment of \$54 million. The first installment of \$25 million was received on May 17, 2016 and the balance is due by June 1, 2017. The full amount has been recognized during the first half ended June 30, 2016. As part of the agreement, we have also been awarded an extension of 81 days for the current contract of the Ocean Rig Poseidon at a daily gross operating rate of \$115,000.

On June 16, 2016, we reached an agreement with Repsol Sinopec to terminate the contract of the Ocean Rig Mylos operating offshore Brazil against full payment of the remaining backlog.

Scheduled Survey

The Leiv Eiriksson completed, as planned, its 15-year class survey and scheduled equipment and winterization upgrades related to its next contract, and on July 18, 2016 mobilized on location in Norway to commence its previously announced contract with Lundin Norway AS. Out of an estimated cost for both the class survey and the upgrades of \$21.1 million, an amount of \$2.8 million related to the class survey are included under operating expenses and an amount of \$8.2 million related to upgrades were deferred as of June 30, 2016. The balance will be accounted for in the third quarter of 2016.

Amendments to Newbuilding Contracts with Samsung Heavy Industries

On August 11, 2016, we entered into agreements with Samsung Heavy Industries ("SHI") to amend certain terms relating to contracts for the construction of our three seventh generation drillships (the Ocean Rig Santorini, the Ocean Rig Crete and the Ocean Rig Amorgos) which were previously scheduled for delivery in 2017, 2018 and 2019, respectively).

With respect to the Ocean Rig Santorini and the Ocean Rig Crete, SHI agreed to, among other things, postpone the delivery dates of these drillships to June 2018 and January 2019, respectively, and to release Ocean Rig UDW Inc. as the guarantor of the obligations of its drillship owning subsidiaries under the construction agreements with SHI (the "Corporate Guarantee"). In exchange for the forgoing, we agreed (1) with respect to the Ocean Rig Santorini, to pay an increased contract price of approximately \$695 million (subject to certain adjustments and interest payments), which is payable as follows: (a) \$159 million, which has been previously paid, (b) \$150 million in connection with the agreement, (c) \$35 million on or about January 2018 and (d) approximately \$350 million upon the fifth anniversary of the delivery date; and (2) with respect to the Ocean Rig Crete, to pay an increased contract price of approximately \$710 million (subject to certain adjustments and interest payments), which is payable as follows: (a) \$108 million, which has been previously paid, (b) \$48.5 million in connection with the agreement, (c) \$32.5 million on or about June 2018 and (d) approximately \$520 million upon the fifth anniversary of the delivery date. If we fail to make the first installment payments in connection with these two agreements, the Corporate Guarantee will not be released.

With respect to the Ocean Rig Amorgos, we have agreed with SHI to suspend its construction for a period of up to 18 months (the "Suspension Period") and to release Ocean Rig UDW Inc. as the guarantor of the obligations of its drillship owning subsidiary under the construction agreements with SHI. At any time during the Suspension Period, we may reinstate the contract for the construction of the Ocean Rig Amorgos on the same terms but the delivery date would be delayed by same amount of time the contract was suspended. In the event the Suspension Period expires and the contract is not reinstated, SHI would retain the approximately \$77 million that we have previously paid to it in connection with the construction of the Ocean Rig Amorgos and the parties' remaining respective obligations under the agreement will be terminated fully, without any additional obligation.

In addition, the parties have agreed to waive all past defaults and claims relating to contracts for the construction of the Ocean Rig Santorini, the Ocean Rig Crete and the Ocean Rig Amorgos.

Strategic Alternatives

Given the ongoing distressed market environment as well as the consensus view that a recovery may not occur for several years we have engaged financial and legal advisors to assess the viability of our capital structure and alternatives that may be available to pursue. In the recent period, we have been approached by several of our debt holders who have in certain cases also retained legal counsel and financial advisors. While we have not made any specific decisions to do so, it is evident to us, and we believe, some of our creditors, that our debt obligations will need to be amended or exchanged for new debt and/or equity securities, and some debt holders may have little or no recovery on their investment. Notwithstanding that we do not have any material debt maturities before October 2017, we continue to explore and consider alternatives, which may include the possibility of a reorganization under U.S. bankruptcy laws or another jurisdiction so that we can continue to operate our business through this very difficult cycle with feasible prospects for strong, long-term success.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical or present facts or conditions.

We desire to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and are including this cautionary statement in connection therewith. This document and any other written or oral statements made by us or on our behalf may include forward-looking statements, which reflect our current views with respect to future events and financial performance. The words "believe," "anticipate," "intend," "estimate," "forecast," "project," "plan," "potential," "may," "should," and "expect" and similar expressions identify forward-looking statements.

The forward-looking statements in this document are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in the Company's records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors and matters discussed elsewhere in this document, important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include factors related to:

the offshore drilling market, including supply and demand, utilization rates, dayrates, customer drilling programs, commodity prices, effects of new drilling units on the market and effects of declines in commodity prices and downturns in the global economy on t

hazards inherent in the offshore drilling industry and marine operations causing personal injury or loss of life, severe damage to or destruction of property and equipment, pollution or environmental damage, claims by third parties or customers and suspension of operations;

customer contracts, including contract backlog, contract commencements, contract terminations, contract option exercises, contract revenues, contract awards and drilling unit mobilizations, performance provisions, newbuildings, upgrades, shipyard and other capital projects, including completion, delivery and commencement of operations dates, expected downtime and lost revenue;

political and other uncertainties, including political unrest, risks of terrorist acts, war and civil disturbances, piracy, significant governmental influence over many aspects of local economies, seizure, nationalization or expropriation of property or equipment;

repudiation, nullification, termination, modification or renegotiation of contracts;

limitations on insurance coverage, such as war risk coverage, in certain areas;

foreign and U.S. monetary policy and foreign currency fluctuations and devaluations;

the inability to repatriate income or capital;

complications associated with repairing and replacing equipment in remote locations;

import-export quotas, wage and price controls or imposition of trade barriers;
regulatory or financial requirements to comply with foreign bureaucratic actions, including potential limitations on drilling activity;
changing taxation policies and other forms of government regulation and economic conditions that are beyond our control;
the level of expected capital expenditures and the timing and cost of completion of capital projects;
our ability to successfully employ both our existing and newbuilding drilling units, procure or have access to financing, ability to comply with loan covenants, liquidity and adequacy of cash flow for our obligations;
Continued borrowing ability under our debt agreements and compliance with the covenants contained therein;
Our substantial leverage, including our ability to generate sufficient cash flow to service our existing debt and the incurrence of substantial indebtedness in the future;
factors affecting our results of operations and cash flow from operations, including revenues and expenses, uses of excess cash, including debt retirement, dividends, timing and proceeds of asset sales, tax matters, changes in tax laws, treaties and regulations, tax assessments and liabilities for tax issues, legal and regulatory matters, including results and effects of legal proceedings, customs and environmental matters, insurance matters, debt levels, including impacts of the financial and credit crisis;
the effects of accounting changes and adoption of accounting policies;
recruitment and retention of personnel; and
other factors listed from time to time in reports, registration statements and other materials that we file with the U.S. Securities and Exchange Commission, including the Company's most recently filed Annual Report on Form 20-F. We caution readers of this document not to place undue reliance on these forward-looking statements, which speak only as of their dates. Except as required by law, we expressly disclaim any obligation to update and revise any forward looking statements to reflect changes in assumptions, the occurrence of unanticipated events, changes in future operating results over time or otherwise.

Unaudited Interim Condensed Consolidated Statements of Cash Flows

For the six-month periods ended June 30, 2015 and 2016

(Expressed in thousands of U.S. Dollars)

1. Basis of Presentation and General Information:

The accompanying unaudited interim condensed consolidated financial statements include the accounts of Ocean Rig UDW Inc., its subsidiaries and consolidated Variable Interest Entities ("VIEs") (collectively, the "Company," "Ocean Rig" or the "Group"). Ocean Rig was formed on December 10, 2007, under the laws of the Republic of the Marshall Islands under the name Primelead Shareholders Inc. as an international contractor of offshore deepwater drilling services. The Company was established by DryShips Inc. ("DryShips" or formerly the "Parent") for the purpose of being the holding company of its drilling segment. On November 24, 2010, Ocean Rig UDW established an office and was registered with the Cypriot Registrar of companies as an overseas company. As of April 14, 2016, the corporate domicile of the Company moved from the Republic of the Marshall Islands to the Cayman Islands.

From June 8, 2015 through April 4, 2016 and following a public offering (Note 10), the Company was considered as an affiliate entity and not as a controlled subsidiary of DryShips. On April 5, 2016, the Company purchased all of its shares held by DryShips, through its unrestricted subsidiary, Ocean Rig Investments Inc. (Note 10). After this transaction, DryShips no longer holds any equity interest in the Company.

On September 11, 2015, the Company entered into an agreement to provide third party technical management services for the offshore drilling unit Cerrado. On April 28, 2016, the Company acquired the drilling unit Cerrado which was renamed to Ocean Rig Paros, (Note 6).

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") and applicable rules and regulations of the Securities and Exchange Commission ("SEC") for interim financial information. Accordingly, they do not include all the information and notes required by U.S. GAAP for complete financial statements. These statements and the accompanying notes should be read in conjunction with the Company's Annual Report on Form 20-F for the fiscal year ended December 31, 2015, filed with the SEC on March 31, 2016.

These unaudited interim condensed consolidated financial statements have been prepared on the same basis as the Company's annual consolidated financial statements. As of December 31, 2015 and June 30, 2016, the Company consolidated one VIE, which supports the Company's drilling operations in specific locations, for which it is deemed to be the primary beneficiary, i.e. it has a controlling financial interest in this entity. The VIE's total assets and liabilities, as of December 31, 2015, were \$35,362 and \$77,647, respectively, while total liabilities exceeded total assets by \$42,285. The VIE's total assets and liabilities, as of June 30, 2016, were \$42,956 and \$83,869, respectively, while total liabilities exceeded total assets by \$40,913.

In the opinion of the management, these unaudited interim condensed consolidated financial statements reflect all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation of the Company's condensed consolidated financial position, statements of operations and cash flows for the periods presented. Operating results for the six-month period ended June 30, 2016, are not necessarily indicative of the results that might be expected for the fiscal year ending December 31, 2016.

2. Significant Accounting Policies:

A discussion of the Company's significant accounting policies can be found in the Company's consolidated financial statements included in the Annual Report on Form 20-F for the fiscal year ended December 31, 2015, filed with the SEC on March 31, 2016 (the "Consolidated Financial Statements for the year ended December 31, 2015"). There have been no material changes to these policies in the six-month period ended June 30, 2016, except for that referred to below.

Consolidation: In February 2015, the FASB issued Accounting Standards Update No. 2015-02 (ASU 2015-02): Consolidation - Amendments to the Consolidation Analysis, which changes the guidance as to whether an entity is a variable interest entity (VIE) or a voting interest entity and how related parties are considered in the VIE model. As of June 30, 2016, the Company has adopted the provisions of ASU 2015-02, which did not impact the consolidated financial statements.

Recent Accounting Pronouncements:

The Financial Accounting Standards Board ("FASB") issued the following amendments which clarifies the guidance in ASU No. 2014-09 and has the same effective date as the original standard: ASU No. 2016-12 Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients and ASU No. 2016-11 Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting issued in May 2016; ASU No. 2016-10 Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing issued in April 2016; and ASU No. 2016-08 Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net) issued in March 2016. On August 12, 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers, which amends ASU No. 2014-09 (issued by the FASB on May 28, 2014 and which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. This standard is effective for public entities with reporting periods beginning after December 15, 2017. Early application is permitted only as of annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2016. The Company is currently evaluating the impact, if any, of the adoption of this new standard and amendments.

In March 2016, the FASB issued ASU 2016-09, "Compensation-Stock Compensation – Improvements to Employee Share-Based Payment Accounting (Topic 718)" ("ASU 2016-09"), which involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Under the new standard, all excess income tax benefits and deficiencies are to be recognized as income tax expense or benefit in the income statement and the tax effects of exercised or vested awards should be treated as discrete items in the reporting period in which they occur. An entity should also recognize excess tax benefits regardless of whether the benefit reduces taxes payable in the current period. Excess tax benefits should be classified along with other income tax cash flows as an operating activity. In regards to forfeitures, the entity may make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures when they occur. ASU 2016-09 is effective for fiscal years beginning after December 15, 2016, including interim periods within that reporting period, however early adoption is permitted. The Company is currently evaluating the provisions of this guidance and assessing its impact on its consolidated financial statements and notes disclosures.

In June 2016, the FASB issued ASU No. 2016-13 Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The amendments affect entities holding financial assets and net investment in leases that are not accounted for at fair value through net income. The amendments affect loans, debt securities, trade receivables, net investments in leases, off-balance-sheet credit exposures, reinsurance receivables, and any other

financial assets not excluded from the scope that have the contractual right to receive cash. This standard is effective for public business entities that are U.S. Securities and Exchange Commission ("SEC") filers, with reporting periods beginning after December 15, 2019 including interim periods within those fiscal years. Early application is permitted only as of annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2018. The Company is currently evaluating the impact, if any, of the adoption of this new standard.

7.25% Senior Unsecured Notes due 2019

On March 26, 2014, the Company issued \$500,000 aggregate principal amount of 7.25% Senior Unsecured Notes due 2019 (the "7.25% Senior Unsecured Notes"), offered in a private placement. The Senior Notes are unsecured obligations and rank senior in right of payment to any future subordinated indebtedness and equally in right of payment to all of its existing and future unsecured senior indebtedness.

The 7.25% Senior Unsecured Notes are not guaranteed by any of the Company's subsidiaries. Upon a change of control, which would occur if 50% or more of the Company's shares are acquired by any person or group other than DryShips or its affiliates, the noteholders will have an option to require the Company to purchase all outstanding notes at a redemption price of 101% of the principal amount thereof plus accrued and unpaid interest to the date of purchase. The contractual semi-annual coupon interest rate is 7.25% per year.

As of June 30, 2016, one of the Company's wholly owned subsidiary purchased in the open market an aggregate principal amount of \$369,026 of these notes and the outstanding balance reported above, of \$130,974, is net of the notes repurchased in the open market.

During the six-months period ended June 30, 2016, the purchase of the notes, resulted in a gain of \$57,160 and is included in "Gain from repurchase of senior notes" in the accompanying 2016 consolidated statement of operations.

6.50% Senior Secured Notes due 2017

On September 20, 2012, the Company's wholly owned subsidiary Drill Rigs Holdings Inc. (the "Issuer"), issued \$800,000 aggregate principal amount of 6.50% Senior Secured Notes due 2017 (the "Drill Rigs Senior Notes") offered in a private offering. The Drill Rigs Senior Notes are secured obligations and rank senior in right of payment to any

future subordinated indebtedness and equally in right of payment to all of its existing and future unsecured senior indebtedness.

The Drill Rigs Senior Notes are fully and unconditionally guaranteed by the Company and certain of its existing and future subsidiaries of the Issuer and are secured by certain assets of, and by a pledge of the stock of, the Issuer and the subsidiaries of the Issuer. The contractual semi-annual coupon interest rate is 6.5% on the Drill Rigs Senior Notes.

As of June 30, 2016, one of the Company's wholly owned subsidiary purchased in the open market an aggregate principal amount of \$340,277 of these notes and the outstanding balance reported above, of \$459,723, is net of the notes repurchased in the open market.

During the six-months period ended June 30, 2016, the purchase of the notes, resulted in a gain of \$67,841 and is included in "Gain from repurchase of senior notes" in the accompanying 2016 consolidated statement of operations.

\$1.3 billion Senior Secured Term Loan B Facility

On July 25, 2014, the Company's wholly owned subsidiary, Drillships Ocean Ventures Inc., entered into a \$1.3 billion Senior Secured Term Loan B ("New Term Loan B") facility to repay the \$1.35 billion Senior Secured Credit Facility, which had an outstanding loan balance of approximately \$1.3 billion on that date. The New Term Loan B facility which is secured primarily by first priority mortgages on the vessels, the Ocean Rig Mylos, the Ocean Rig Skyros and the Ocean Rig Athena, bears interest at a fixed rate, and matures on July 25, 2021.

\$1.9 billion Secured Term Loan B Facility

On July 12, 2013, the Company, through its wholly-owned subsidiaries, Drillships Financing Holding Inc. ("DFHI") and Drillships Projects Inc., entered into a \$1,800,000 senior secured term loan facility, comprised of tranche B-1 term loans in an aggregate principal amount equal to \$975,000 ("Tranche B-1 Term Loans") and tranche B-2 term loans in an aggregate principal amount equal to \$825,000 ("Tranche B-2 Term Loans" and, together with the Tranche B-1 Term Loans, the "Term Loans"), with respective maturity dates in the first quarter of 2021, subject to adjustment to the third quarter of 2020 in certain circumstances, and the third quarter of 2016. The Term Loans are initially guaranteed by the Company and certain existing and future subsidiaries of DFHI and are secured by certain assets of, and by a pledge of the stock of, DFHI and the subsidiary guarantors. On July 26, 2013, the Company through its wholly-owned subsidiaries DFHI and Drillships Projects Inc. entered into an incremental amendment to the \$1,800,000 senior term loan for additional tranche B-1 term loans in an aggregate principal amount of \$100,000. On February 7, 2014, the Company refinanced its then existing short-term Tranche B-2 Term Loans with a fungible add-on to its existing long-term Tranche B-1 Term Loans. As a result of this refinancing, the total \$1.9 billion of Tranche B-1 Term Loans will mature no earlier than the third quarter of 2020.

\$462 million Senior Secured Credit Facility

On February 13, 2015, the Company's wholly owned subsidiary, Drillship Alonissos Shareholders Inc., entered into a secured term loan facility agreement with a syndicate of lenders and DNB Bank ASA, as facility agent and security agent, for up to \$475,000 to partially finance the construction costs of the Ocean Rig Apollo. This facility has a 5 year term and bears interest at LIBOR plus a margin. On March 3, 2015, the Company drew down an amount of \$462,000 under this facility and pledged restricted cash of \$15,000, as of June 30, 2016, associated with the respective loan. On February 11, 2016, the charterer for the Ocean Rig Apollo sent to the Company a notice of termination for convenience of the drilling contract. Under the \$462,000 Senior Secured Credit Facility, the Company was required to find a new Satisfactory Drilling Contract (as defined in the loan agreement) by May 21, 2016. The Company has not yet entered into a new drilling contract for the Ocean Rig Apollo and, therefore, the Company is required to make a mandatory prepayment of approximately \$145,894 by August 22, 2016.

The carrying amounts of cash and cash equivalents, restricted cash, trade accounts receivable, and accounts payable and other current assets and liabilities reported in the condensed consolidated balance sheets approximate their respective fair values because of the short-term nature of these accounts. The fair value of credit facilities is estimated based on current rates offered to the Company for similar debt of the same remaining maturities. Additionally, the Company considers its creditworthiness in determining the fair value of the credit facilities. The carrying value approximates the fair market value for floating rate loans. The fair value of the interest rate swaps was determined using a discounted cash flow method based on market-based LIBOR swap yield curves, taking into account current interest rates and the creditworthiness of both the financial instrument counterparty and the Company. The 7.25% Senior Unsecured Notes, the Drill Rigs Senior Notes and the Term Loan B Facilities have a fixed rate and their estimated fair values are determined through Level 2 inputs of the fair value hierarchy (quoted price in the over-the-counter market). The \$462 million Senior Secured Credit Facility, has a floating rate on LIBOR and its' carrying value is approximately the same as its' fair market value.

The estimated fair value of the above 7.25% Senior Unsecured Notes, Drill Rigs Senior Notes, \$1.9 billion Secured Term Loan B Facility and \$1.3 billion Senior Secured Term Loan B Facility at December 31, 2015, is approximately \$100,367, \$357,431, \$427,168 and 628,242, respectively. For the aforementioned senior notes and term loans their carrying value net of finance fees as at December 31, 2015, is \$226,655, \$601,845, \$1,814,746 and \$1,257,484, respectively.

The estimated fair value of the above \$1.9 billion Secured Term Loan B Facility and \$1.3 billion Senior Secured Term Loan B Facility is \$746,029 and \$835,002, respectively. For the aforementioned senior notes and term loans their carrying value net of finance fees as at June 30, 2016, is \$129,617, \$456,475, \$1,809,430 and \$1,253,080 respectively.

The guidance for fair value measurement applies to all assets and liabilities that are being measured and reported on a fair value basis. This guidance enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories.

Fair value measurements are classified based upon inputs used to develop the measurement under the following hierarchy:

Level 1--Quoted market prices in active markets for identical assets or liabilities.

Level 2--Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3--Unobservable inputs that are not corroborated by market data.

The following table summarizes the valuation of assets and liabilities measured at fair value on a recurring basis as of the valuation date.

As of December 31, 2015 and June 30, 2016, there was \$2,299 and \$906 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted by the Company, respectively. That cost is expected to be recognized over a period of 2 years. The amounts of \$ 2,381 and \$915 represent the stock based compensation expense for each period accordingly and are recorded in "General and administrative expenses", in the accompanying unaudited interim condensed consolidated statements of operations for the periods ended June 30, 2015 and 2016, respectively.

11. Income Taxes:

Ocean Rig operates through its various subsidiaries in a number of countries throughout the world. Income taxes have been provided based upon the tax laws and rates in the countries in which operations are conducted and income is earned. The countries in which the Company operates have taxation regimes with varying nominal rates, deductions, credits and other tax attributes. Consequently, there is not an expected relationship between the provision for/or benefit from income taxes and income or loss before income taxes.

12. Interest and Finance Costs:

The amounts in the accompanying unaudited interim condensed consolidated statements of operations are analyzed as follows:

	Six-month period ended June 30,	
	2015	2016
Interest costs on long-term debt, including amortization of financing costs	\$ 149,804	\$ 129,791

13. Earnings per share:

	Six-month period ended June 30, 2015			2016		
	Income (numerator)	Weighted- average number of outstanding shares (denominator)	Amount per share	Income (numerator)	Weighted- average number of outstanding shares (denominator)	Amount per share
Net income	\$116,013	-	-	\$444,088	-	-
Less: Non-vested common stock dividends declared and undistributed earnings	(477)	-		(1,297)	-	-
Basic and diluted EPS Income/ (loss) attributable to common stockholders	\$115,536	134,927,763	0.86	\$442,791	111,726,952	3.96

Non-vested share-based payment awards that contain rights to receive non forfeitable dividends or dividend equivalents (whether paid or unpaid) and participate equally in undistributed earnings are participating securities and, thus, are included in the two-class method of computing earnings per share for the six-month periods ended June 30, 2015 and 2016. For the six-month period ended June 30, 2015 and 2016, non-vested participating restricted common stock were not included in the computation of diluted earnings per share because the effect is anti-dilutive.

14. Commitments and Contingencies:

14.1 Legal proceedings:

Various claims, suits, and complaints, including those involving government regulations and product liability, arise in the ordinary course of the offshore drilling business.

As part of the Company's normal course of operations, the Company's customer may disagree on amounts due to the Company under the provision of the contracts which are normally settled through negotiations with the customer. Disputed amounts are normally reflected in revenues at such time as the Company reaches agreement with the customer on the amounts due.

OCR Falklands Drilling Inc., a subsidiary of the Company, commenced arbitration proceedings against Premier Oil Plc. and Noble Energy Falklands Ltd. for terminating the contract on February 12, 2016, for the drilling unit Eirik Raude.

On March 7, 2016, two of the Company's subsidiaries commenced arbitration proceedings against Total E&P Angola for the termination of the contract with the drilling unit Ocean Rig Olympia.

The Company is not a party to any material litigation where claims or counterclaims have been filed against the Company other than routine legal proceedings incidental to its business.

14.2 Purchase Obligations:

The following table sets forth the Company's contractual purchase obligations as of June 30, 2016.

Edgar Filing: Ocean Rig UDW Inc. - Form 6-K

	2017	2018	2019	Total
Drilling unit building contracts	\$ 592,890	495,800	464,000	\$ 1,552,690
Total obligations	\$ 592,890	495,800	464,000	\$ 1,552,690

15. Subsequent Events:

15.1 On August 11, 2016, the Company entered into agreements with Samsung Heavy Industries ("SHI") to amend certain terms relating to contracts for the construction of our three seventh generation drilling units (the Ocean Rig Santorini, the Ocean Rig Crete and the Ocean Rig Amorgos) which were previously scheduled for delivery in 2017, 2018 and 2019, respectively). As part of the agreements, the delivery of the Ocean Rig Santorini and the Ocean Rig Crete were postponed to June 2018 and January 2019, respectively, certain installments were rescheduled and the total construction costs were increased to \$694,790 and \$709,565, respectively. With respect to the Ocean Rig Amorgos, the Company agreed to suspend its construction for a period of up to 18 months, with an option to the parties to reinstate the construction at any time during this period.
